NOTARIES PUBLIC MUST RE-QUALIFY DURING MAY

Secretary of State Crawford C. Martin announced that all qualified Notaries Public desiring reappointment for the new term ending June 1, 1965 must re-qualify by the payment of the required fee and the filing of a new oath and bond with the County Clerk of his residence between June 1, 1963 and June 10, 1963.

Martin emphasized that Notaries Public should not send requests for re-appointment or for commissions directly to the Secretary of State. The law specifically requires that the County Clerks approve notary bonds.

Any person not not a Notary Public who desires appointment should apply to his County Clerk between April 1, 1963 and May 20, 1963. Application during this period will assure prompt attention before the rush procedure of re-appointing present Notaries.

The Secretary of State further pointed out that each person applying for a commission as a Notary Public must be at least 21 years of age and a resident of the county for which he is appointed. The exact name and permanent address of the applicant must be furnished the County Clerk. 31-4tc

THIS IS YOUR INDIAN!

Comanche is the new early maturing hybridearliest now being produced by Paymaster Seed Farms. It is widely adapted and is especially recom-mended for early plantings and early harvest. Also, it may be planted late as a second crop with satisfactory yields.

Comanche has short, stiff, leafy stalks, and ubble has high grazing value after the grain is harvested. Tests indicate Comanche has excellent resistance to head smut and other sorghum diseases.

Come in and let us show you how you'll profit when you plant Comanche, one of Paymaster's new ndians. See us today.

the line of endeavor they will en | the nation in the field of public by a white Catholic school, fine personality, likes people, and out of 50,033 paid attendance, tol. One-Day Outing

The older we get, the less desire had its start in the fall of 1933, lives in an exclusive area of Virwe have for such so-called distine when a group met at the Legion ginia and sends his children to tion, although such ambition is Hall to plan a reunion held at the a private school. Fied or contented.

We wonder if there are not many things more important to a happy and successful life—high ethical and many the successful life—high succ

> the birthday of Mrs. Wells. This calls attention to a picture in the lose from eight to ten pounds. 30th annual meeting, 60 years caught by three Shallowater men since the founding of the town out of Bill Gray's fishing camp

Secretary Freeman is going all- hoka's so-called fishermen had a out in an attempt to put over his trot-line set in the lake and at the wheat control program. If this same time they were fishing. program goes over, he has said he hopes to put similar rigid controls over the other phases of agriculture, but he isn't advertising this right now. Another thing he is not astonished clerk looked at it and publicizng, we are told, is the moaned: "I knew it would happen fact that, if farmers approve the eventually! My deductions have at wheat program, penalties for non- last caught up with my salary!" compliance by farmers on allotment violations will be fines of \$10,000 and up to 10 years in prison. How would you like this kind of penalty, Mr. Farmer?

Inciting riot is violation of the law. We suppose the Kenendy Administration, however, is exempt. Attorney General Bobby Kennedy, others high in govern-ment, and even the President have encouraged the Freedom Riders, sit-in strikes which deprive stores from doing business, the influx of agitators in the Ole Miss affair, and more recently the explosive But, in the name of "civil rights," the Kennedys seem to think stirring up strife is justified. If a race war is precipitated blood will be on the hands of many of our government officials.

Granted that the Negro has not had a "fair-shake" in opportunities and that the Eisenhower adminis-tration is also guilty of mis-hand-ling civil rights, the fact still remains that we can not by armed force compel people to mix who do not want to do so. The fact still remains that Negroes need to do more for themselves.

We have a few local Negroes who are doing something about improving their position, making good citizens, and have no desire to mix blood. They are respected by white and black alike.

The nation's press is slanting the race relations problem, and is even helping to incite these riots. You saw bare mention in the press that Birmingham policemen for weeks now have been the targets of bricks thrown at them by rioters. You never saw in the press the fact that four Negroes had to travel two to three miles across town, passing the new, mod-ern Negro High School in Little Rock to get to Central High. You see little about race riots in the North. You saw nothing in the papers about the 1956 riot at a Policeman's ball in Washington, D. C., when the fire department had to be called out to quell the fight between white and colored fight between white and colored policemen when the Negroes tried to integrate the dance floor. You had to wait for last week's Saturday Evening Post to learn that the riot at a football game in Washington, D. C., last fall was a race riot, denied by Washington officials as such, in which a Negro high school was defeated

TINY LUND KNOWS ABOUT FORD DURABILITY....

helped him win America's toughest stock-car competition, the Daytona 500. Lund placed first in a Ford, with four other Fords ight behind him for an unprecedented sweep of the first five places. Only the Fords were town crough to stand the pace.

Greater durability is the reason ford in able to offer a total car warranty. Only a true total-performance car could offer complete a warranty as this—with no strings attached:

"Ford Motor Company warrants to its dealers, and its dealers, turn, warrant to owners as follows: That for 24 months or 24,000 miles, whichever comes first, free replacement, in-luding related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will be made by the tire companies. Owners will remain responsible for normal maintenance services, routine replacement of parts, such as filters, spark pluss, ignition points, wiper blades, brake or clutch linings and normal deterioration of soft trim and appearance items."

term car. The '63 Fords have a better warranty because they built better than any Fords in history. You see evidence of t extra toughness in Ford's outstanding competitive

GRADUATES... What does the future hold for you? For each of you, the answer will vary with individual talents, aptitudes and ambitions... But for all of you this is true: Right here in your home county, you will find broad scope for growth, progress and outstanding achievements in the career of your choice. Whatever your aim may be... farming, business, selling, the professions, or just plain home-making ... you will find here a world of opportunities to build solidly for success. When you look to the future, LOOK FIRST AT HOME among the people you know and in an environment in which you have been raised.

CARD OF THANKS

We wish to express our sincere appreciation to all of you for your many prayers and kindnesses, for the flowers, cards, and food during our sorrow. Friends such as you mean so much. God bless you all.-Mr. and Mrs. Joe Harvick J. N. Smith Dies and family.

Every day is a safety day.

Tahoka, Texas

In Arkadelphia

ny Kirkham and brother-in-law of George Hicks, passed away Wednesday of last week at his home in Arkadelphia, 409 North Austin, Arkansas, according to Mrs. Cap Rowe, a friend.

Mr. Smith had never lived here, but he had much interest in Lynn county and received The News for many years until his death.

Funeral services were held in Arkadelphia on last Sunday.

A daughter, Mrs. Kirkham, liv ed on the Pennington farm at Redwine for 13 years, but she and her husband moved back to Arkadelphia last fall. Mr. Smith's widow is a sister of George Hicks. Three other daughters and one son also survive.

Kind words never die-they just ecome victims of ingratitude

This is Southwestern Public Service Company's traveling transformer. The new unit, built to special specifications by General Electric, is designed to replace almost any transformer in the company's system in case of scheduled repair work or emergency. The transformer can be connected to any one of three voltages on the "high", or transmission line, side, or any one of five voltages on the "low", or distribution, side. The cost of the unit? \$1.50 a pound, and it weighs 82,000 pounds.

Letters From J. N. Smith, mother of Mrs. John- News Readers-

Thinks Emphasis On Sports Is Too Great

How important are sports for the high schol student? important," might be the sponse. "It's fun and keeps physically fit. It gives us the backing of the community."

True. But, does the world sports merit the vast amount of importance placed upon it?

While physical fitness rages on, what becomes of our mental fitness? We are sacrificing valuable time when our minds are most susceptible to learning by thinking about and preparing for the next game or meet. To make it worse, who is encouraging us in this? Our parents and school!

languages? The vocational arts? The study of our own sacred government? Do we receive jackets, sweaters, or even letters as recognition for excellence in these fields? Or are we expected to do our best with such little recognition as one awards day assembly? Do we have pep rallies for learn-

It seems to me that things have become blown out of proportion when a school has two funtioning gymnasiums, one of which is brand new and very modern, but only one humble, dusty, antiquated little science laboratory. Even when the additions to our building are completed, I doubt that the lab or library will measure up to the gyms. An argument against this might be that there are not as many students interest ed in science as in athletics. My answer: Who gets more encour

Please think about this? Is it sensible to buy jackets, sweaters, letters, and trophies for almost every participant in sports and expect science students to feel the same exaltation and encouragement for his diligence by a pat on the back?

This is the space age. Our generation may well go to the moon It is the atomic age. Our generation may well make great progress in peacetime uses in nuclear energy. We could do well with some knowledge of the arts. Yet those in charge leave the emphasis on

Parents and school officials, please don't expect us to keep politics in proper form or care how or care to do anything but

This is not intended as a kick in the teeth for sports. I merely feel that this, like everything else, should be kept in its place.

—A Local Student. (Name with

held by request.)

ers while developing themselves physcally. Anyway, "All work and no play makes Jack a dull boy." to quote Benjamin Franklin. Sports just happen to be the glamour side, right or wrong, of our American school way of life. Before the modern gymnasium was built, many students and parents were unhappy because their children didn't have access to the gym, and even with two gymnasiums for 1,250 students we still hear the same cry. Thanks for your views. We appreciate letters from readers. Have News? PLone 998-4888

V MUCH TIME DOES IT TAKE to make electricity?

An Instant?

5 YEARS? 2 YEARS?

10 YEARS?

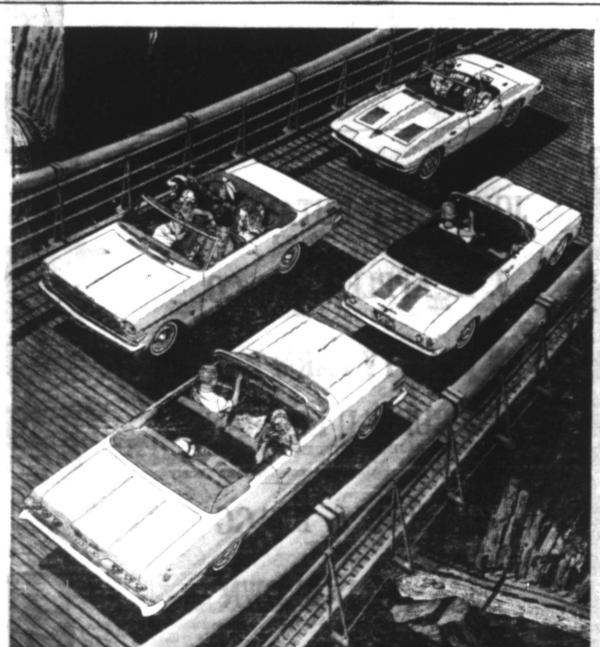

Whichever box you checked you're correct! Although Reddy "makes" electricity the instant you press a switch, it takes 2 years from the time we order a generating unit until it's ready to work. We plan 5 years ahead on a detailed basis and 10 years ahead on a general basis.

The important thing is that electricity is ready to work for you now 24 hours around the clock - for our part we'll always

Electricity is the biggest bargain in your family budget ...

Clockwise from bottom: Jet-smooth Chevrolet Impala, Chevy II Nova 400, Corvette Sting Ray, Corvair Monza Spyder

Summer's coming, get going!

CHEVROLET

If this isn't a great time to get yourself a new Chevrolet-well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles

get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the carefree feeling you get on

a long vacation trip in a brand-new car. And it's a smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Chances are, he

has just the model. and color you want -be it Chevrolet, Chevy II, Corvair or Corvette-ready to go right now.

> So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's.
