### C. of C. Board Holds Meeting

Plans for another "old time sidewalk sales day" in Tahoka in October were discussed by Chamber of Commerce directors in their regular meeting Wednesday night.

Members reported merchants and customers seemed pleased with the event last October, which furnished a lot of fun and goodwill. The event will be repeated if the merchants approve, states Turner Rogers, C. of C. President.

Charles Reid, head of the Little League, and Leighton Knox, reported on plans for the area and district tournaments planned here next week and the following week, and the C. of C. offered its assistance.

Little League Park is being thoroughly renovated for the tournament, and Reid says the principal need is for workers preparing the grounds. Help is invited from all who can come to the park evenings after store closing hours.

Arrangements have been made for more bleachers to seat about 200 people, which will be moved down from Lubbock. The present bleachers, recently enlarged, will seat about 200.

Tahoka Jaycees have promised help at the games, and other organizations are also invited to help.

### Testing Program Near Completion

The brucellosis testing program among Lynn county cattle herds is nearing completion with 2,750 head having been tested through Friday of last week.

This service is free, and owners of livestock have the advantage of getting their stock tested for better market prices if they act now, states County Agent Bill Griffin.

So far, three herds have been found containing reactors, and there are an additional six suspicious herds.

Anyone who has cattle they want tested free of charge should see Mr. Williamson at the Laboratory in the Lynn County Livestock Exhibition building, call him by phone days, No. 969-4795, or at Echo Motel nights; or see Earl Grider, contact and line-up man.

The testing program is nearing completion of those requesting tests.

As has been the policy of the Tahoka Rotary Club for the past eight years, a foreign student will again visit in the homes of Rotary Club members until the latter part of August.

This year, the club is sponsoring the first young lady, Miss Aina Ester Hoglund of Tornagagen 2, Lund, Sweden, who arrived July 4th.

She was selected in her home country for an "Experiment Ambassador" scholarship in the Experiment in International Living program.

Miss Hoglund, 24, is a graduate from the University of London, holding a Master's degree. She was an assistant teacher of chemistry one year in the Chemistry Institute of Lund, worked in laboratories of a tinned foods factory in Switzerland, and Swedish Sugar Company.

She has also studied German in the University of Bonn, Germany. French in the University of Grenoble, France, spent a vacation in Rome, Italy, had a skiing vacation in Austria, and lived with an English family in Weymouth, England, for three months. She speaks and writes fluent English.

Miss Hoglund has served as a Girl Scoutmaster, belongs to the Lutheran Church, and says her hobbies include folk music, good literature, the arts, swimming, skiing and golf.

Her father is director of a sugar refinery and a Rotarian who is a past president of his club. Her mother is a former president of the Innerwheel Club. She has one brother and three sisters.

## County Crops Grow Rapidly

Scattered showers have fallen over the county the past week, and some farmers say they will be needing rain soon.

Crops are reported growing by leaps and bounds, and most farmers are busy knitting, hoeing of cultivating cotton and milo. Some fear cotton may grow too fast and require more rain quicker than usual.

Three showers so far this month have totaled .62 inch in west Tahoka, bringing the year's total rainfall in Tahoka to 15.06 inches.

All in all, prospects for a good crop are bright at this time in spite of the fact that much cotton is planted late.

Richard Williams, 15, son of Mr. and Mrs. Carl Williams came near losing a leg Saturday morning when he got caught in a power take-off shaft while running a shredder for his brother, Donald Gene (Shorty) Williams.

The machine tore away his boot, pants leg, and dug into the bone of his lower-right leg, eating away the flesh. He was taken to Tahoka Hospital for treatment, and was able to go home Tuesday.

## School Building Plans Are Studied By Board

Plans for the new school building program were gone over in some detail Tuesday night at the regular meeting of Tahoka School Board. Mr. Jordan of Maeker & Jordan, architects, went over various items in the plans for the buildings.

Specifications are being developed for renovation of the old high school building, and plans and specifications are nearly complete for the new addition and kitchen to the cafeteria. The new high school building will be built around the older building on the east, north and south.

A new classroom will be added to the Vocational Agriculture building, the building remodeled and one of the present classrooms utilized in enlarging the shop.

Also, plans were discussed for enlarging and improving Dunbar School.

Reed Quilliam & Associates of Lubbock have been employed, in conjunction with City and County authorities, to work on the delinquent tax rolls.

Four new school buses, two 48 passenger and two 60-passenger, have been purchased and will be ready to go into operation on September 2, the opening day of school.

The board approved the school calendar for the 1963-64 term.

Supt. Otis Spears said the board has hired Don Gresham, formerly of Lamesa and now of Lake Thomas, as a fourth grade teacher. He has had no experience and lacks six hours having his B. A. degree. He is unmarried.

# Lynn County Bank Deposits Reach Total \$13.7 Million

## School Building Plans Are Studied By Board

## Nursing Home Work Started

Lynn county bank deposits at the June 29th call totaled \$13,674,723.93, up a total of \$1,120,147.85 from one year ago, in spite of the heavy expense caused by farmers having to replant up to six or seven times.

This is possibly close to the all-time high at this time of year.

First National Bank of Tahoka this June 29 reports total deposits of \$8,179,798.52, up a total of \$534,875.07 from the report of a year ago. Deposits at this time last year were \$1,269,000 above those for 1961.

First National Bank of O'Donnell on June 29 had \$2,103,802.00 on deposit, down slightly from last year due mainly to expensive replanting of crops.

But, Wilson State Bank also reported an increase in deposits with \$3,391,123.41 this June 29, an increase of \$574,033.78 from the report of a year ago.

Statements of the Tahoka and Wilson banks are published elsewhere in this week's edition of The News.

## New Screwworm Cases Confirmed

Seven confirmed cases of screwworms in Lynn county cattle have been reported to date, County Agent Bill Griffin has been informed. Sterile flies will be dropped by airplane in the immediate future over sites where screwworms have been detected.

Mr. Griffin suggests Lynn county livestock producers should check their cattle for screwworms, and if suspected worms are found samples should be taken for sending to Animal Health Foundation, Mission, Texas.

If the livestock producer finds such suspected worms does not have a container he should contact Mr. Griffin.

Screwworm eradication program officials report that producers from 104 Texas counties discovered 439 screwworm infestations during the month of June. This is less than six percent of the 8300 cases that were reported during the same month last year.

Although the number of cases are extremely low for this time of year, eradication workers warn, livestockmen cannot afford to become complacent. Infestations have been reported from widely scattered areas of the state; as a result of trying to provide special sterile fly treatment for each reported case, production and release capabilities are being strained to the limit.

To prevent further stress, officials recommend producers spray their livestock with Corral or Korland every two to three weeks. These materials, which kill newly-hatched screwworm larvae, also give protection against other livestock insects such as horn flies, gnats, lice and ticks, officials stated.

## Mrs. Hopkins Tells Of Trip to New York

Mrs. Wanda Hopkins and son, Donnie, returned Saturday from an exciting trip to famous New York City. They were accompanied by Mrs. Hopkins' sister-in-law, Mrs. Roy Baxter of Floydada. They left Lubbock by way of jet airplane enroute to Idlewild Airport in New York City, where they were met by Mr. and Mrs. Roy Thompson and son, Nils. Nils was Glen's roommate in West Texas State. The three had gone to New York to get Glen's car, and other things that he had left when he had to return home. Some scenic sights they saw were Baghdad on the Hudson, Times Square, Rockefeller Center Flower Plaza, RCA building on Fifth Avenue, Long Island, the Empire State Building, Brooklyn Bridge, the Statue of Liberty, Staten Island, Central Park, St. Patrick's Cathedral, and China Town. After having seen all of these places, they had traveled approximately 300 miles. Another interesting thing that they saw was the stage production of "Around the World in 80 Days" directed and produced by Mike Todd Jr. and Guy Lombardo. (Incidentally, Mrs. Hopkins received Guy Lombardo's autograph.) Mrs. Hopkins said that she had the pleasure of talking to Gerald Wayne Tippit. Mr. Tippit plays the part of Jerry Ames on the "Secret Storm". Mrs. Hopkins reported that the people of New York really live different than we do. The trip was an experience and pleasure for all of them.

## CALIFORNIA VISITORS

A golden spike, driven at Ogden, Utah in 1900, marked the completion of the first trans-continental railway.

## Stamp To Honor Colorful Texan

The U. S. Post Office Department has announced it will issue a commemorative postage stamp honoring Sam Houston, the soldier whose deeds are written boldly in Texas history.

Houston was first president of the Republic of Texas after he had commanded the Texan army in the battle for independence from Mexico.

The 5-cent Houston stamp is one of only four commemoratives honoring men that will be issued this year. Others being honored are Montgomery Blair, Postmaster General under Lincoln; Cordell Hull, Roosevelt's Secretary of State; and John Muir, the naturalist.

Sam Houston is among the most colorful men that a colorful era produced.

He was born near Lexington, Virginia, March 2, 1793, moved with his family to Tennessee, where he left home to live with the Indians. Chief Oolooteka adopted Sam as his son.

Houston later returned to Tennessee civilization, then moved westward into the area of present-day Arkansas, then into Texas. When Texans fought for independence, Houston was com-

## Krebbs Speaks To N. H. Civic Club

Ralph Krebbs of Lubbock, who was reared at New Home, was the speaker at New Home Civic Club Monday of last week.

His humorous talk on the subject, "Catching Up With the Herd," also contained a lot of good philosophy, according to members. "Why should one think for himself?" he asked. "A conformist does what everybody else does; a non-conformist does what he does on his own."

Harry Lee and E. L. Short have just completed the addition of a 14x20 foot bedroom to their Lake Thomas cabin, according to reports received by The News.

mander-in-chief of the army that defeated Santa Ana in 1836. He served two terms as president of the Republic of Texas and was a strong advocate for Texas statehood. When Texas entered the Union in 1845, Houston was a first United States Senator of the new state, serving until 1850 when he became Governor of Texas.

In an ironic climax to the Texas hero's career he was deposed as Governor in 1861 because of his loyalty to the Union, when the war flared.

He died in 1863 at Huntsville, Texas.

## "SMALL BUSINESS" BY C. WILSON HARDER

An American visiting in Britain, talking to many English business leaders about United States antitrust laws, will find a substantial number agreeing with such laws in principle, but question that they can be enforced. If the American then points to the records of accomplishment in anti-trust enforcement, the following question is asked:

"If that is true, why have you chafed over these permitted such a C.W. Harder huge petroleum monopoly to exist?"

It is a good question, and perhaps the recent action by Rep. James Roosevelt will lead to some answers.

For following testimony given by officers of some of the major oil firms before the Federal Trade Commission, the Congressman from California very bluntly told them that by their own statements they stand accused of defrauding the American consumer.

The transcripts of these hearings revealed to the Congressman that the major oil companies trade their own brands of gasoline to other competitive brands and also sell their products to independent "off brand" companies, and also sell gas produced by independent companies under their brands.

He states that the counsel for a major oil firm said, "It is undepicted in this record that private brand gasoline is of the same quality as the major brand gas. Indeed, many of the private brands get their gas from the major companies and change gasoline with other companies, including the independent refiners, and you will find you can go into a major brand station and get gasoline that was refined by an independent refiner and go to a private brand and get gas refined in a major oil refinery."

It is the Congressman's position that millions of consumers, motivated by huge advertising expenditures that stress some special feature of a major brand gasoline, are influenced to pay a 2¢ per gallon bonus to the detriment of the independent gasoline.

In a scathing attack on the major oil representatives in the hearing room, the Congressman said, "The American people cannot tolerate this. If what your officers and counsel says in these transcripts is true, it is wrong, it is fraudulent. You are taking money under false pretenses... you have entered into a deliberate deception of the public. Either your brands are different from each other and from unbranded gasolines, as you tell the public... or else they are the same gas, as you tell the public. You can't have it both ways."

These disclosures have now been put before the FTC and the Justice Department. Obviously, if the major brand oil companies trade their product back and forth among each other, and at the same time maintain consumer price schedules, there would appear to be a substantial case of monopoly practice involved.

## KEYNES TO MARK

Let's face it. The New Frontier economists aren't having much luck. The nation's gold supply is dropping. The balance-of-payments problem is becoming more critical. Unemployment is at peak levels. The budget can't be balanced. And the national debt is climbing ever higher.

But we didn't think our Washington economists would ever become so desperate that they would have to turn to the enemy for advice. Yet that's what it looks from here.

Last month the State Department sent a 6-man team of certified public accountants to the Soviet Union to study Russian accounting. Exactly what they'll learn, we have no idea. But we're willing to wager they won't learn how to balance the books. The Russians aren't adroit at that either.

If the Kennedy administration is genuinely interested in learning how to manage the nation's financial affairs, why not send a State Department team up to Wall Street for the summer.—The Dallas News.

**Midge Infestation In Grain Sorghum Planted Late Is New Crop Hazard**

A serious sorghum midge infestation again faces Lynn county farmers who have late planted grain sorghum, states Don R. Rummel, area entomologist of the Extension Service, in a letter to County Agent Bill Griffin following a survey made in this and other South Plains counties by Extension Service entomologists. Rummel says the sorghum midge emerged from the first Johnson grass head samples taken on June 10, and has been since noted in sudan grass, sorghum alnum and white tridens, indicating that the midge over-wintered in this area. The adult midge is a small, fragile, orange colored gnat-like insect about one-twelfth inch in length, has a life cycle of 14 to 16 days, may fly several miles to other fields, the female lays 50 to 250 eggs in the spikelets soon after the heads appear from the boot.

Injury to grain sorghum is caused by the larva which feeds on the internal content of the seed. Timing of insecticide applications is the most important factor in midge control. Chemical control is aimed at the destruction of the adult midge before egg laying begins. Treatment should be made as soon as 90 percent of the heads

have emerged from the boot, but never later than three days after emergence.

There is currently no accurate means of predicting an infestation of midge.

Previous work has shown that it is usually not profitable to apply chemical control after the midge are found within the sorghum field to be treated.

The following insecticides are recommended for midge control:

1. Endrine, 1.6 pounds to the gallon, applied 1 1/4 pints per acre. Do not apply within 35 days of harvest. Apply only once each season.

2. Toxaphene, six pounds to the gallon, one-third to one-half gallon per acre. Dairy or beef animals should not be pastured on toxaphene treated fields. Do not ensilage treated forage.

3. Sevin (80% WP) one and one-fourth to two and one-half pounds per acre. May be applied to forage sorghum without limitation. Allow 21 days between last application and harvest of sorghum grain.

Further information may be received at the County Agent's office in Tahoka.

Talk is never cheap when you have to take some of it back.

Mrs. Stewart says the new building is very modern and beautiful, includes ample space, large directors' room, kitchen, drive-up window, night depository, parking lot, and other modern features. A great crowd was present for the opening.

Established in 1906, her late father, T. M. Dobbins, was with the institution from 1907 until his death in 1949, when he was the president. Her brother, R. O. Dobbins, who died last October,

### Methodist Men Hear Swedish Miss Tell Of Native Country

Miss Anna Hoglund, Rotary summer student guest from Sweden, told of her homeland in a talk before the monthly meeting of Methodist Men Monday night in Fellowship Hall of the church.

She illustrated her talk with color slides, and told many interesting facts about her country, its geography, government, religion, schools, natural resources, etc.

Sweden is 1,000 miles long, more or less level in the south, mountainous and forest-covered in the north, has 98,000 lakes, many rivers, climate ranges from temperate to "the land of Arctic sun"; and the 7.5 million people live from farming, harvest of timber for paper making, iron ore

mining, glassware manufacture, commercial fishing, waterpower, and shipping, in which the country ranks fourth in the world.

Tom Gill arranged the program, President E. R. Edwards presided, and Calloway Huffaker introduced the speaker. The meal was served by Charles Brock and Maurice Huffaker.

The first Monday in August will be the annual ladies' night, when the program will be arranged by H. W. Carter and John Slover, and A. M. Bray and Maurice Huffaker will arrange the meal.

## Retail Business In Lynn Show Increase Thru Year

(Special to The News)  
New York — Retail business in Lynn county moved forward in the past year as local residents, armed with more cash, spent at a record rate.  
Only during the early months of the year, when the fear of a recession was in the air, did they hold back in their buying. Thereafter, they spent freely.  
As a result, most retail lines locally were able to report solid gains over the previous year.  
The figures are contained in the annual survey made by the Standard Rate and Data Service. Its comprehensive report, showing how people in each locality spent their retail dollars, covers every section of the United States.  
In Lynn county, food was a major item. The amount spent in this direction—in grocery stores, bakeries, butcher shops, supermarkets and the like—came to \$3,232,000 in the year, topping the prior year's \$3,078,000.  
This was solely for food purchased for home consumption. It

does not include the sum spent for food and drink at lunch counters, in restaurants and at other dine and drink places.  
Out of every dollar that was spent in the local retail stores last year, 23 cents went for take-home food.  
The large-scale spending for food, a sign of more luxurious living, reflects the improvement in purchasing power locally.  
If the amount that was expended on food were to be divided uniformly among the local population, each household would have a bill of \$1,033 for the year.  
This was more than was spent in most parts of the West South Central States. The average was \$969 per household.  
Other retail lines also profited from the strong consumer buying. Stores selling automobiles, motorcycles, boats, trailers and accessories chalked up a volume of \$4,024,000. It represented 28 cents of the retail dollar.  
Sales of general merchandise, in department and variety stores, totaled \$885,000, equal to 6 cents. Apparel shops accounted for \$504,000, or nearly 4 cents of the dollar.  
Home furnishings stores had receipts of \$123,000, which amounted to nearly 1 cent.

Wait a bit—don't get hit!

## Pony All-Star Team Selected

Fifteen players and three alternates have been named to the Lynn County Pony League All-Star team this week, according to Harold Green, secretary. Thomas Jolly will be team manager with coaching duties yet to be assigned.

The All-Star team will be composed of Dickie Turner, Dwayne Wyatt, New Home; Jimmy Koenig, Rudy Nava, Wilson; Kenneth Vostal, Dennis McKenzie, O'Donnell Pirates; Gary Evans, Billy Barnes, Dwight Crawford, O'Donnell Dodgers; Creath Arbuckle, Ken Sayles, Tahoka Orioles; Johnny Tyler, Pedro Gutierrez, Mitchell Williams and Gary Brooks of the Tahoka Braves. The three alternates are Tony Isaac, O'Donnell Dodgers; Charles Sayles, Tahoka Orioles, and Steve Gary, O'Donnell Dodgers; first, second and third, respectively.

The Lynn County team held its first workout at 5:00 p. m., Thursday at Tahoka field in preparation for the Pony League play-offs. Drawing a bye the first night of competition, the local All-Stars will play their first game in the double elimination tournament at 7:00 p. m., Tuesday, July 23 at Kuykendall-Bennett Field, 42nd and Ave. U in Lubbock. They will meet the winner of Monday's game between Lubbock Southwest and Lubbock Western.

The Lynn county All-Stars will be the only entry of the six teams in the tournament from outside the Lubbock city limits. The championship game will be played at 9:00 p. m. Friday, July 26.

## Youth Meeting Next Thursday

A second Interchurch Fellowship has been planned by the local youth for 7:30 p. m. Thursday, July 18 at the Tahoka City Park. Churches cooperating for the affair are Sweet Street Baptist, First Baptist, Church of Christ, and Methodist.

A volleyball tournament with each church entering a team will be a highlight of the evening. A devotional program will follow the games with a representative from First Baptist leading the singing, one from the Church of Christ reading the Scripture, one from the Methodist bringing the meditation and a youth from Sweet Street Baptist Church leading the prayer.

The two Baptist churches will furnish the cold drinks and cookies will be provided by Methodist and Church of Christ.

All local young people are invited to attend.

Mrs. Joe (Joyce) Wofford, who is bookkeeper at Wharton Motor, Inc., reports she and her husband, Joe, are leaving Friday for a vacation in Ruidoso, New Mexico. Joyce lives in Lubbock.

## Church Program Attracts Crowd

Many members and former members crowded the First Baptist Church Sunday for all-day services commemorating the 60th anniversary of its organization on July 5th, 1903, just a few months following the organization of the county and the founding of the town of Tahoka.

Rev. George A. Dale of Lubbock, a former pastor, preached at the morning service. Lunch was served to a large crowd of members and visitors.

During the afternoon service, there was a program of songs, introduction of visitors, a brief history of the church related by Dr. K. R. Durham, and a talk by Dr. Melvin Rathel, pastor of Trinity Baptist Church in Lubbock, who is a former music and education director of the local church.

At the evening service, Rev. Gordon Smith of Fort Worth, reared in Tahoka, was the speaker. Gordon is a student in Southwestern Baptist Seminary and associate pastor of Rosen Heights Baptist Church in Fort Worth.

The pastor, Rev. James Efrid, reports this was a great landmark in the long history of the First Baptist Church.

## State Warns On Cattle Movement

Movement of cattle into Lynn county while in the process of certification in the brucellosis program as a "Modified Certified County" can jeopardize the status of the county's rating, a letter to The News from R. G. Garrett, executive director of Texas Animal Health Commission, states.

Following are the "Requirements Governing Cattle Entering Modified Certified Counties or Counties in the Process of Certification:"

All cattle entering Modified Certified Counties or Counties in the process of certification must be tested and be negative to the brucellosis agglutination test within 30 days prior to entry and be retested negative in not less than 30 nor more than 90 days after entry except those cattle exempt below:

- Steers, spayed heifers, calves under eight months of age, and official brucellosis vaccinates under 30 months of age.
- Cattle originating from Certified Brucellosis Free Herds when accompanied by an Official Health Certificate indicating status of herd origin.
- Cattle, individually identified originating from non-quarantined herds within Modified Certified Brucellosis areas accompanied by an Official Health Certificate.

## Childrens Clinic To Be Saturday

St. John's Crippled Children's Clinic, the second in a series, will be held Saturday, July 13, from 1 to 5 p. m. at St. John's Methodist Church, 15th and College Ave., in Lubbock. This free clinic is designed to meet the needs of children in the South Plains area with any type of crippling, and a parent or guardian must accompany the child on the first visit. Doctors will be present to examine, diagnose and provide treatment for crippled children, in cooperation with the Fellowship Class of St. John's Methodist Church, sponsors of the clinic. During the first clinic held in

April, fifty children were examined and provisions for treatment were made including corrective shoes, braces, and surgery. Facilities for X-rays and laboratory findings will be provided when necessary without charge.

Registration will continue at the church Saturday during hours of the clinic, and doctors hope that "marginal" cases not previously treated will be among those reporting for treatment.

"Minute Men" was the name given to companies of militia organized at the time of the Revolution.

## Family of Lady Killed Near Tahoka Praises Local People For Courtesy

Editor, Lynn County News

Today when you see and hear so much about our race riots, communism and the neglect and indifference that exists in all our towns, it was very heart warming to receive all the love, understanding and assistance given to us just recently by your lovely town.

This open letter to you is to make sure that every person is thanked and that we all appreciate everything they did.

To the stranger who cared enough to go back to Tahoka for an ambulance. To the driver of that ambulance, to the nurses and hospital staff we say thank you.

To Dr. Prohl for his efforts in saving Mom, then for his gentleness when he had to call us and tell us she was gone. Thanks is not enough, but with our thanks comes the knowledge that God will surely bless you.

To your police force, we say thank you. Tahoka can be very proud of them.

There was the lovely lady in the hospital who was so kind to Bob. For her help and thoughtfulness we thank you. (Mrs. Maurice Small.)

Words seem so inadequate when we think of Bro. James Efrid and his family. They opened their home and their hearts so us. They shared their food and prayed with us and for us. What can we say other than surely he and his family are the good Samaritans of the New Testament.

To the people of Bro. James' church who shared their respect.

## Ayers Vacation In South Texas

Mr. and Mrs. Granvel Ayers and family returned last week end from a combination sightseeing and fishing vacation in South Texas.

After a trip to Nueva Laredo, Old Mexico, the family drove up the coastal highway to San Leon Bay where they spent a week at the fishing lodge of Granvel's sister's family, Mr. and Mrs. E. C. Bradshaw of Houston. They not only caught plenty of fish but also caught a cool spell in the weather which made for a pleasant week.

They also visited two other sisters of Granvel's, Mr. and Mrs. C. M. Bradshaw of Freer, in Duval county and Mr. and Mrs. Loyce Conrad of Houston. Just outside of Houston, Granvel reports he picked up several local people on the Citizens Band radio, including Harry Lee Short of Tahoka.

Every day is safety day.

you've no idea how it helped when we opened that book and saw your names.

Mr. and Mrs. White were all that a good friend would have been. Their help in the legal decisions we had to make, their patience and understanding in a task that is never pleasant under any circumstances. For all these things and others I won't mention, we do thank you.

Even though we met because of a tragedy our memories of your people are good and sweet.

Your actions remind us of something Mom taught us when we were little. "When you walk straight and tall you see the light in your fellow man's eyes. When you keep the chip from your shoulder you have room for the burdens of a friend and when you love enough, all will be well."

To the people of Tahoka, we thank you and ask that you remember us in your prayers.

## New Rates Are Now Effective

New rates on subscriptions to The News are now \$3.00 per year in Lynn, Garza, Dawson, Terry, and Lubbock counties; elsewhere the price is \$3.50.

Effective July 1, no state sales tax has to be paid on newspaper subscriptions. State Comptroller Robert Calvert ruled recently "a subscription sale is considered to be several sales of the individual papers delivered under the subscription," in all cases where a single copy sells for less than 25 cents.

The News was forced to increase subscription rates largely because of the several increases in postal rates in the past few years, and the rate increase is simply to take care of the additional postal rates.

However, increases in newsprint, ink, other supplies, and wages have had their effect in causing the increase.

Even at the new rates of \$3.00 and \$3.50, subscription prices of The News are still lower than most papers in area towns. In fact, most weekly newspapers in this area, as well as over the nation, already have had for many months or years a minimum of \$3.50 or \$4.00 a year. There are a few lower, but not many, the paper absorbing the loss and applying the difference to advertising.

Actually, The News makes no profit, even under the new rate, on subscriptions. If it were not for the advertising, weekly subscriptions would be at least \$15.00 per year.

The News publishers hope the subscribers will realize the position in which the newspaper is placed in this rate increase.

## BUERMANN'S RETURN HOME AFTER 10-DAY VISIT HERE

Mrs. Juanita Buerman of Denver, Colorado left Tahoka last Friday after a ten-day visit with her parents, Mr. and Mrs. Carl Williams.

Mrs. Buerman, accompanied by two of her children, Betty, 15 and Billy, 7, came to visit and take home another son, Bobby, 12, who had been here visiting six weeks. Bobby has decided he wants to be a "West Texas farmer," reports Mrs. Williams.

Butch Ingle recently reported a change of address for his daughter's family, Mr. and Mrs. Ducey Corley and baby. The Corleys have moved from Spanaway, Washington to Yelm, Washington and are doing fine.

## New Tax Changes Now In Effect

Changes in the State sales tax which went into effect Monday, July 1, is good news for diabetics, newspaper readers, farmers, coffee stand operators, car buyers, churches, and the State treasury.

But, buyers of clothing will be hit a little harder, although most people will hardly notice the changes.

The exemption on outer wearing apparel costing less than \$10.00 has been removed. The removal is expected to increase the state income from such sales by \$15 million, and retailers will be relieved of some of the confusion on such sales.

Now, the buyer will pay two percent sales tax on the trading difference between his old car and the newer car purchased rather

than the 1.5 percent tax on the entire sale price of the car traded for.

The sales tax has been removed from the sale by druggists of insulin to diabetics.

The tax has also been removed from newspaper and magazine subscriptions in which the individual copy price is less than 25 cents.

There are other minor changes, but these are the principal ones which affect the buying public.

Almost everyone admits American cotton is in dire circumstances with the markets being taken over by synthetics and foreign goods. The processes of democracy move slowly, and "Rome burns while Nero fiddles."

One of the biggest manufacturers of synthetics is Du Pont. A news release we received this week from Du Pont reveals this company spends \$112 million a year at four Texas plants alone, Beaumont, Houston, Sabine River and Victoria plants—making synthetics which take the place of cotton, \$112 million taken away from the cotton farmer. Total

Texas income from cotton last year was about \$600 million.

According to the Quana Tribune-Chief, Dumas, up in the Panhandle, has not done things to suit the federal government. The town was recently threatened with loss of federal help unless it integrated its schools. When school officials insisted they had integrated, they were told they did not have a single Negro in the white schools. Dumas' plea was "we don't have a single Colored person in the county." Maybe they can import some. Where there's federal help, there's federal control—and sometimes there is control where there is no help.

"Red" and Jessie Lee Denzy furnished The Printer and Mae some of the finest barbecue we ever ate on the Fourth of July. Once each year, the Denzys barbecue beef, pork, and poultry for their white friends—who are many. We would have little racial trouble in America if all the Colored people were the type citizens as are the Denzys and some other Tahoka people of their race, who reserve the respect of one and all.

The Denzys have worked hard to provide the best for their children—and their hard work over the years is paying off. They have asked no help, no sympathy, because of their race. They have a nice home, ambitious children, and the respect of both white and Colored people.

The oldest daughter, Murry Lee, was married early to Raymond Peppers, and worked while her husband got a college education at Bishop College in Marshall. Now, her husband is employed in Lubbock while she is in her second year of study at Texas Tech preparing for a career working with retarded children. She now has three children of her own, and is working this summer at the Children's Training Center for retarded children in Lubbock.

The other daughter, Ruby Nell, is one of two Colored students who have graduated from Tahoka High School, worked at Tahoka Hospital, one year at West Texas Hospital in Lubbock, and is back working at the local hospital this summer. This fall she starts her junior year in Prairie View Ag-

riculture & Mechanical College, where she is studying for a nursing career. A third child, Terry, is a high school student.

Respect and position can not be given anyone, white or Negro. There are certain qualities one must earn. We believe too many Negroes are waiting for help when they should be working to make a place for themselves. The Negro can't make the white man like him, either by law or by force. Although he is at a great disadvantage, there is plenty of room for the Colored man—even among his own race.

Right here in Tahoka, we believe the Negro needs to do more for himself—improve his living conditions, his home and social life, get all the education he can, prove to the white people he can be dependable, get ahead financially, and push ahead toward higher goals.

People of different races just do not mix naturally anywhere you may go in the world, whether they be French, German, Russian, yellow, red, black, brown, or white. But, we can have respect for one another.

Talk about some of our elder citizens kicking up their heels, hoeing weeds, etc.! While the McCord families were "living it up" down at Lake Thomas recently, Grandmother R. B. McCord was not to be outdone. She went swimming almost every day with her great grandchildren. "Dink" Short and Jean McCord say Mrs. McCord "floated all over the lake" and showed-up younger members of the family. We learned a long time ago never to underestimate the people who settled up the Plains.

Carl Sherrod, oldest boy of the pioneering Frank Sherrod family, here from Hesperia, Calif., for the recent pioneer reunion and visiting brothers and sisters, recalls that his parents operated the first hotel in Tahoka, located northeast of the square, and served meals at 25 cents. Oldtimers say that meant all you could eat from a table loaded with food. Carl and wife, the former Ruth Ketter, married nearly 50 years, have recently moved from La Habra, Calif., to Hesperia, where they built a new home to get away from the smog.

Charles and Mary Margaret Stewart, 1301 Cardinal Dr., W. Columbia, S. C., sent best regards to Tahoka friends along with their renewal to The News.

Margaret C. Renfro, teacher of the Special School here, also sends greetings. She is spending the balance of the summer at Canyon and gets her mail at Box 485, West Texas State, Canyon.

Douglas Henderson of Burbank, Calif., formerly of Tahoka, has just recently returned from a very interesting trip to Soviet Russia, and has written The News editor a long letter telling his experiences and observations. He says

he would rather we did not publish the letter, but we hope he will reconsider and let us print it.

Doug has also sent us two newspapers, Moscow News, printed in English, and the other we can not even read the name plate. The English-printed paper is really a big propaganda pitch, if we ever saw one.

Most popular jokes today are aimed at the Negro and the President, mostly all in fun.

"Pete" Hegi's female Dachshund gave birth to five puppies one day recently. One of them was black.

No tire dealer is allowed to sell a set of four white sidewall tires, we are told. Two can be white, but two must be black.

The President recently ordered Carolyn's kindergarten integrated.

One day, she went to her father and declared, "Daddy, Sambo and I are going to get married when we grow up." And the President replied, "Why, that would be impossible, we just can't allow it." Carolyn came back with: "We thought that would please you, Daddy, why can't we get married?" And Daddy responded, "Carolyn, you can't marry Sambo; he's a Baptist."

J. L. Cunningham, 731 West 8th, Freeport, writes he is feeling fine and is always glad to read about his old friends in The News.

Bill Ross Smith, son of Mr. and Mrs. Ross-Smith, is working this summer as a trainee for the SCS in Post. Bill Ross, who made the Dean's Honor Roll for the spring semester at Texas Tech, will be a senior agronomy major next fall. His wife, Donna, is attending summer school at Tech.

During the War of 1812, Stephen Girard, Philadelphia banker, assumed an entire Government loan of \$5,000,000. The United States gained the sovereignty of the canal strip at Panama by the Hay-Bunau-Varilla Treaty of November 5, 1903.

**The hardest part about parking a Corvair is finding a nickel**

That may be a slight overstatement, but such jauntiness comes easily when you're a Corvair owner. And you can usually back it up—as easily as you can back up a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes—they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its engine in the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more useable interior space. Best of all, it produces steering so light, so responsive, you wonder why no other American-made car thought of it.

Corvair's engine is also air cooled, we might add, which means there's no anti-freeze or water for you to add. Ever. All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because it is!

**"We like everything about our home—it's ALL ELECTRIC!"**

say Mr. & Mrs. Bob Spencer,  
2108 RUNYAN ■ ARTESIA, NEW MEXICO

The Spencer's modern Gold Medallion Home, features an all-electric heat pump for year-round comfort. Electric water heating, an electric kitchen and a modern electric laundry take out of housework for Mrs. Spencer, the work precious additional time with her family. Mr. Spencer, a busy automobile dealer, likes the convenience and complete comfort of the Gold Medallion home.

"Keeping kindergarten kids happy is easy when one can keep them comfortable," says Mrs. Spencer. "In the morning our heat pump is heating and in the afternoon it's cooling—just perfect for my class which I teach in my home."

## Top Pros To Make Area Appearance

SAM SNEAD—Will Play in Area

Contracts have been signed for the appearance of Gary Player and Sam Snead, in a golf exhibition at the Gaines County Golf Club, July 22, according to James Belcher, chairman of the Gaines County Sponsor group.

Player and Snead are expected to arrive at the Golf Club at mid-morning on July 22nd and the exhibits will begin at 12 noon. A clinic with the two famous pros will be held at 11:00 a. m.

To complete a foursome with Player and Snead for the exhibition, a tourney, open to area professionals and amateurs, is scheduled on Monday, July 15th. The two low scorers, whether pros or amateurs, will play with the two guest golfers on Monday, July 22nd. If the winners of the elimination tournament are pros, they will receive \$100 or more each, in addition to the chance to play with Player and Snead. If winners are amateurs, they will receive handsome trophies commemorating the occasion. Those interested in the tourney should contact Jim Terry, pro at the Gaines County Golf Club.

Advance tickets will be priced at \$5.00 each, including tax, and tickets sold at the gate will be \$6.00, including tax. Advance tickets may be purchased by mail, by sending check or money order to the Gaines County Golf Club, Rt. 2, Seminole.
