Murder Case Is Postponed

Postponement until Sept. 18 of the trial of John Edwin Myers, 36, of Chicago, charged with murder, was granted by Judge Truett Smith in 106th District Court here Monday morning when attorneys for both the prosecution and defense announced material witnesses had failed to appear.

A special venire of 90 citizens had been called for service on the jury in the case.

Myers was indicted in Howard county for the alleged murder of Arthur Lee DeKraal, 35, a hitchhiker from Ottumwa, Iowa, west of Big Spring on Sept. 1, 1961. On a change of venue, he was tried and found guilty by a jury at Rusk, Cherokee county. However, the higher courts reversed the findings of the jury, and the case was transferred to Lynn county for re-trial.

Myers and his 13-year old girl companion, Donna Marie Stone, 21, of Chicago, were arrested in Midland by Highway Patrolman Jack Reeves shortly following the alleged murder. The girl led officers to the murder victim. She pleaded guilty at Belleville, Ill. (Cont'd. On Back Page)

Mr. and Mrs. W. J. Benson, 90, Have Been Married 67 Years This Fall

Mr. and Mrs. W. J. Benson, both 90 and in good health considering their ages, will have been married 67 years this coming October 11. Residents of Lynn county for 48 years and of Tahoka for 20 years, the couple has 28 descendants in four generations, and recently they posed for a picture of five generations, including themselves.

Both were born and reared in Burleson county, Texas, he being born on Nov. 21, 1872, and she on Jan. 2, 1873. Therefore, they will soon be 91 years of age.

The former Miss Jennie Layne was married to W. J. Benson in the home of her parents at Caldwell on October 11, 1898, and they farmed there until 1913.

Mr. Benson came out to Lynn county in November of 1914 and bought a section of raw land about eight miles east of Tahoka adjoining the Frank and Alex Vaughn place, northeast of Six Mile Store.

The Benson family arrived in Tahoka on August 30, 1915, aboard the "Blue Weed Special" of family ties, raised five children, the Santa Fe, and set up house-keeping here for good.

T-Bar Club Plans New Cart Houses

At the monthly meeting of T-Bar Country Club board Monday night, a nominating committee was appointed to name possible members to fill two vacancies in September of the board of directors.

Plans are being made for a second row of cart houses north of the present row, and any member who desires to build such a cart house is requested to contact Sam Edwards, who will assign space, before starting construction. The club hopes to make these spaces to meet the convenience of all cart owners, and cooperation of members with Mr. Edwards is requested.

The board also named G. W. White to inspect the wiring in cart houses having electric carts in order to insure proper wiring and to prevent fires. White will make recommendations for proper wiring and corrections in such wiring. Members are asked to cooperate with White in this respect for the protection of all.

Five Injured In 7 July Wrecks

The Texas Highway Patrol investigated seven accidents on rural highways in Lynn county during the month of July, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area. These wrecks accounted for five persons injured and an estimated property damage of \$5,435.00.

The rural traffic accident summary for this county from January through July of 1953 shows a total of 45 crashes. As a result of these crashes there were seven persons killed and 26 persons injured. The estimated property damage amounted to \$32,985.00.

"There are many good jobs open in the Texas Highway Patrol for young men between 21 and 35 who would like to help prevent the tragic crashes and collisions that occur on the streets and highways," Sergeant Roberts said.

With the starting of school facing us in the next week or so the Sergeant reminds all motorists of the state law regulating traffic in regard to school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which is stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past such school bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

Jerry Don Brown Is Visitor Here

The Browns are former residents of Tahoka where Mr. Brown was assistant football coach and Mrs. Brown taught in North Elementary.

The Browns now live and teach in Uravan, Colorado.

ing or discharging any school children shall stop the vehicle immediately before passing the school bus, but may proceed past such school bus at a speed which is prudent, not exceeding 10 miles per hour, with due caution for the safety of such children."

"During the first six months of this year, Texas had one person killed and 110 injured in accidents involving school buses," the Sergeant said. "This is tragic and useless. School buses are plainly marked and motorists know that they carry a priceless cargo—human lives."

New Picture Star Disney Discovery

Marta Kristen, 18-year-old blue-eyed blonde who comes to Hollywood via Oslo, Norway and Detroit, Michigan, is a likely candidate to join the ranks of Walt Disney discoveries like Hayley Mills, Tommy Kirk, Annette and Kevin Corcoran.

A willowy, young-Ingrid Bergman-type, Marta is currently starring with Brian Keith, Dewey Martin, Tommy Kirk and Kevin Corcoran in Disney's feature motion picture, "Savage Sam," a sequel to "Old Yeller." She is pretty, intelligent, long-legged, pug-nosed, effervescent and refreshingly candid.

The bizarre set of circumstances that landed her in Hollywood constitute a fantastic, modern-day Cinderella story. Born in Oslo, Norway on February 26, 1945, Marta was left in an orphanage by her parents when she was two weeks old.

For four-and-a-half years she was an unwanted Norwegian war orphan. In 1948, Marta's picture was sent to Professor and Mrs. Harold Soderquist of Detroit, Michigan by an Oslo social worker, Marta Bentzen. Soderquist, a teacher of Philosophy at Wayne University in Detroit, had been unable to adopt the girl of his choice and was offered Marta as a replacement.

Delighted with Marta's apparent vivacity, the Soderquists scaled a mountain of international red tape to adopt the little girl. Marta quickly adjusted to the language and customs of the United States. She entered Farmington Elementary School, and as a ten-year-old fourth grader starred in an original comedy which she and two other 10-year-olds had written.

A piano-playing colleague of her father's, Professor Henry Herman, recommended Marta to the famous Will-O-Way Theatre in Birmingham, Michigan on the strength of her singing and dancing to ballads she played on frequent visits to the Soderquist home. Marta was accepted and cast in "Taming of the Shrew" and "Little Women" at Will-O-Way in summer stock when she was fourteen. She later took a

MARTA KRISTEN

course in drama at the Detroit Civic Theatre.

In 1950, Professor Soderquist took his family to California on sabbatical leave. Marta studied at Santa Monica High School for a year, then remaining in California with a guardian while her parents went back to Detroit, finished her high school education at Hollywood Professional School at 16.

Her future plans for higher education are to graduate from "a good college, even if I have to go to night school." An avid reader, Marta has consumed a good deal of the world's great literature. Her favorite author is Erich Maria Remarque, but she reads and enjoys any book that is recommended by her erudite father.

"The lovely young actress was 'discovered' while eating a hamburger with a boyfriend at a drive-in restaurant in Santa Monica. Producer Jimmy Harris approached her and asked if she would like to try out for 'Lolita.' At first she thought he was kidding, but after checking Harris' background, she read for the part.

"My mother thought the role was not for me, so I withdrew," she says.

Producer Harris, however, can be credited with starting Marta on a Hollywood career. He placed her in the hands of an actor's agent who immediately got her a featured role in "The Loretta Young Show." During the next eighteen months, Marta co-starred in two "Alfred Hitchcock" shows, two segments of the "My Three Sons" series with Fred MacMurray, a "Leave It to Beaver" segment and a "Shirley Temple" show.

Fortunately, Marta is an excellent rider. In "Savage Sam," she is captured by a band of renegade Apaches and driven on horseback halfway across the Texas Panhandle.

Although Marta's temporary abode is in West Los Angeles, she considers her dad's five-acre

chosen, be inconvertible and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be legal and enforceable by the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a professional right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds.

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price thereof, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any lands, and the moneys attributable to any lands heretofore or hereafter issued and sold by said Board, and moneys so attributable shall include but shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of any lands, or rights therein, purchased with such moneys; the moneys received from the sale or resale of any lands, or rights therein, purchased with other moneys; the moneys received from the sale or resale of such lands, or rights therein; the bonuses, income, status, royalties, and any other pecuniary benefits received by said Board for any such lands; sums received by way of indemnity or forfeiture for the failure of any bidder to comply with his bid and accept and pay for any such lands; and interest received from investments of any such moneys. The principal and interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the moneys of said Fund in conformity with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately available for the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds, shall be deposited in the Veterans' Land Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys not so deposited in said Fund thereafter shall likewise be deposited to the credit of the General Land Office.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization) and all lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to pay interest on such bonds, shall be set aside for that purpose. After December 31, 1955, shall be set aside for the retirement of such bonds and for any interest thereon and when there are sufficient moneys to retire all of such

principal and the interest thereon, together with the expense herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board. Such sum shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of principal or interest on any such bonds, or said Board or relative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be paid for in the lowest price obtainable, to be paid for in such installments as may be determined by said Board, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchaser thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest, and under such rules and regulations as may now or may hereafter be provided by law to Texas veterans who served not less than ninety (90) consecutive days in active military or naval service, or who were discharged by reason of a service-connected disability, on active duty in the Army, Coast Guard or Marine Corps of the United States between September 16, 1940, and March 31, 1945; and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands purchased by said Board which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds heretofore issued and sold by said Board, as is now or may hereafter be provided by law, for the purpose of providing for the construction, improvement, road construction, legal fees, recording fees, advertising and other like costs necessary or incidental to the purchase and sale of lands of any lands purchased hereunder, or the moneys attributable to such additional bonds, such as expenses of advertising, selling, and delivering, any such additional bonds; and for the purpose of meeting the interest on any such bonds, may be expended hereunder in such manner as may be provided by law.

"All moneys attributable to the bonds heretofore or hereafter issued and sold by said Board shall be set aside for that purpose. After December 31, 1955, shall be set aside for the retirement of such bonds and for any interest thereon and when there are sufficient moneys to retire all of such

all of such moneys then remaining or thereafter becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein.

"All of the moneys attributable to any series of bonds heretofore issued and sold by said Board for the purpose of purchasing lands as herein provided, to be sold as herein provided, for a period of eight (8) years after the date of sale of such series of bonds; provided, however, that any such moneys as may be necessary to pay interest on bonds heretofore issued and sold shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds heretofore issued and sold and to pay interest thereon, together with any expenses as herein provided, in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds, until there are sufficient moneys to retire all of the bonds heretofore issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund or thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reserved to the Legislature full power to implement and amend the design and objects of this Amendment, including the power to delegate such duties, responsibilities, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption.

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Saturday after the first Monday in November, 1953, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1945; such funds to be expended in accordance with instructions and requirements that may be provided by law"; and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1945; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the electors cast were in favor of same Amendment, the same shall become a part of the State Constitution and be effective from the date of its adoption, and the Governor shall issue a proclamation in that behalf.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

GRASSLAND NEWS

By Mrs. O. H. Hoover
We sure are thankful for the 1/2 inch rain we received Sunday night. It helped, but we surely do need more.

Mr. Mac Ritchey was honored on his 51st birthday with a surprise party. Old friends and neighbors brought in ice cream and cake and spent the evening with him. There were 33 who attended. Out of town guests were Rev. and Mrs. J. C. Allen of Lubbock.

Mrs. Lucy Cunningham went with her daughter and husband, Rev. and Mrs. Onie Reed to Kansas to see her new great-grandson. Mr. and Mrs. W. L. Gribble have gone to Arrow Head near Cleburne, to a church conference. They left Thursday.

Mrs. Hoover visited in the L. S. Turner home Thursday afternoon. Herbert C. Hoover and Mr. Darrell Boyd of Shallowater visited Herbert's mother, Mrs. O. H. Hoover one afternoon last week on their way home from Dallas.

Mr. and Mrs. C. E. Short are vacationing at Lake Thomas. Their grandchildren plan to spend part of the time with them.

Sonny Huffaker had a rather unusual accident this past week. He had bought this fine Chorollis Bull to go with his herd. The bull got out of the pasture and Sonny had to chase it with his pick-up.

When he attempted to get the bull he hit some soft dirt, skidded, hit the bull and broke his hind leg, so he had to kill the bull. Of course it had to be killed and when it was butchered it amounted to about a thousand pounds. It surely was expensive steak though!

A young ministerial student from McMurry College at Abilene, and youth director at the First Methodist Church in Tahoka, preached for us Sunday morning at the Grassland Methodist Church. He made a fine talk. We hope that he goes far in his career. The pastor, Rev. Yeats is on vacation in the mountains at Alto, New Mexico.

Mr. and Mrs. Jim B. Porterfield and son Don spent the weekend in Huidoso, New Mexico. Mr. and Mrs. T. A. Stone and family went with them. They visited Rev. Yeats and family at Alto. They also went to the horse races and did a lot of sightseeing.

Mr. C. B. King fell at his home in Grassland Friday night and sprained his knee and ankle and also bruised his face. He seems to be doing fine.

Mrs. Ivy Young spent the day Thursday with her sister, Mrs. C. C. Jones. Mrs. Carl Jones spent Monday afternoon with Mrs. C. C. Jones.

Mr. and Mrs. Amos Gerner attended a Sunday School picnic at the Lutheran Church in Slaton, Sunday.

Mrs. King and grandson, Gary went to Springtown, Texas and visited her sisters, Mrs. Rose Miller, and Mrs. Annie Harris. They went fishing while they were there.

Jerry Hill and Benny Stanley visited in the Gerner home Sunday evening.

Visitors in the C. A. Walker home the past week were, Mrs. Inez McCraw of Lamesa, Mrs. Bernice Propst, Mr. and Mrs. Bill Moore and Cristy Lynn of Seagraves, and Rev. and Mrs. Yeats.

Marian (Bud) Inklebarger will enter the Seal Hospital in Lamesa Monday evening and will undergo major surgery Tuesday morning.

"Old Men" Victors Over Youngsters

Age put Youth in its proper place last Friday night at the Little League Park as the Oriole Dads limped to a 13-9 victory over their sons, the Pony League Orioles. The loss was a painful one for the younger set, but judging from the groans heard Saturday and Sunday from the members of the Dads team, the victory could also be described as painful.

Although slightly "rusty" on defense, the Dads unleashed a vicious hitting attack that left the youngsters gasping in awe. Clyde Brown and H. E. Sayles led the hitting as both hit home runs off the pitching of their sons, Creath Arbuckle and Ken Sayles.

The game was originally scheduled to go seven innings, but for reasons not explained the Dads insisted upon retiring after only five innings. As a result of the game, most of the sons will probably listen a little closer the next time their fathers begin telling them that familiar story, "I remember when I was playing ball, I always..."

David and John will leave Dallas Monday for New York, where they will board the German liner Hansatic, arrive in England Sept. 9, and spend some time traveling. They will be joined in New York by Miss Louise Hardin of Dallas, daughter of an SMU professor, en route to Switzerland for a year's study.

Cotton Is In Bad Shape, Pfeiffenberger Declares

"Cotton is in bad shape," George Pfeiffenberger, executive vice president of Plains Cotton Growers, Inc., and one of the nation's outstanding authorities on cotton economics, told members of Tahoka Rotary Club in a talk last Thursday noon. "The cotton problem concerns the businessman as well as the farmer."

Pfeiffenberger said recent consumption of American cotton had dropped from 14 to 12 million bales, while the carry-over has increased from 7 to 11.1 million bales.

In our present cotton allotment program, acreage has been reduced from 18 to 16 million acres, and the Secretary would probably have lowered this but 16 million acres is the minimum he can lower acreage by law. At the same time, cotton from only 13 million acres is being consumed.

Mills In Bind
American textile mills have been placed in a bind, and are converting to synthetics. The reason is that they have to pay the base rate of 32.5 cents per pound for cotton while they can buy synthetics for 25.5 cents per pound. Furthermore, cotton actually costs mills about 36 cents when trash is removed.

Another factor is the impact program. Because we have no law against cotton imports, there has been a flood of imported textiles, some made from American cotton bought at world market prices, much below the price local mills have to pay. For example, a German mill buys cotton 8.5 cents less than American mills.

Labor is another factor in foreign competition to home mills. Average wage rate in U. S. mills is \$1.00 an hour, compared to an average of 60c an hour in European mills and 15 to 17 cents in Asia and Japan.

Government Responsible
Whether we like it or not, the speaker declared, we are in this situation because of government action and we can not get out without government action. But, we also need some self-help, since the farmer can't stay in business by taking the world price for cotton.

Only hope for immediate relief is the Cooley Bill (HR 5100) now bottled up in committee with hopes for passage dim. The bill would grant an 8.5 cent subsidy to American mills to help make them competitive with foreign mills. He thinks the textile mills will return to use of cotton if the subsidy is granted.

Cotton Bright Spots
There are some bright spots to the picture, Pfeiffenberger stated, such as the work being done by Plains Cotton Growers, Inc., in utilization research, marketing, advertising and other promotion.

PCG is doing much to promote Plains cotton through research at Texas Tech by proving our cotton can be used to advantage by mills around the world. Technical service is offered free to any mill anywhere, and many mills both in U. S. and abroad are taking advantage of the service.

Plains cotton has a good market in England and the Scandinavian countries, more recently India is becoming interested, and several countries in the Far East furnish a good potential market.

Advertising carried in World cotton trade journals has brought 300 inquiries from mills and merchants.

Need Better Staple
But, five large mills withdrew from use of Plains cotton last year because of the declining staple length, which dropped to 15-16 average. Much Plains cotton goes into the loan and stays there. Whereas in 1900, only 10 percent went into the loan, 14 percent goes in now and this may be 50 percent this year.

We need to produce 1-inch staple, the speaker declared, hard to do consistently because of our maturity problems, high altitude, and stripping operations.

The speaker was introduced by Chas. Verner, local bank president and charter member of PCG, who was reared and educated in the textile industry. Bertice Askew, also a charter member and new county PCG chairman, was a guest.

TAHOKA, TEXAS "Heart of the South Plains" FRIDAY, AUGUST 23, 1963

PATROLMAN C. A. DEMPSEY of Texas Highway Patrol, above, is shown rendering one of the many services of the organization—instructing two children, with their cat, in highway safety measures. The Highway Patrol is more than just a law enforcement agency. Among the many services are alerting citizens to the importance of safe driving practices, watching for storms and tornadoes, assisting motorists in distress, issuing directions, accident investigation, first aid to injured, vehicle inspection, and a dozen other duties.

guests, and Coach Hough presented a plan to help boost football morale.

Briefly, he proposed a Saturday morning "coke party" during football season for squad members and fans at which there would be pictures and game discussion of the Friday night game. Men down town would be assigned to one of three defensive groups of players, ends and corner linebackers under Fitts, middle of the line under Easterday, and middle linebackers and safety men under Hough. If for example, the opponents scored around end, this group would have to furnish the drinks for the others. If nobody scores, everybody pays.

Coach Hough announced Sophomore back Donnie Anderson, a great punter and dubbed a candidate for All-American at Texas Tech, would be helping coach the punters on the Bulldog squad this week.

Attend Boys' Meeting
Harold Green introduced three special guests, Allen Cox, Jim Wells, and Jack Wood, local high school students, being sent by the club last week end to the Attorney General's Youth Conference in Austin.

President Don Browning conducted a brief quiz on Rotary, Roy Edwards being the victim, but Roy came through with perfect answers on all questions asked.

Browning also announced there would be no regular meeting this week, but instead the club meets tonight, Friday, at a dinner meeting in conjunction with the Chamber of Commerce, to which all men are invited, to hear Bill Stinson of Austin, head of Gov. Con-

nally's Texas Tourist Council. Miss Aina Hoglund of Sweden, summer student guest of the club, will give her farewell talk at the meeting before returning to her home land.

Touring Carlsbad Caverns last Monday were Mrs. Albert Curry, Billy and Betty Curry, and Hal and Amy Garwood, nephew and niece respectively of Mrs. Curry.

EASTLAND COUNTY REUNION WILL BE AUG. 25
The Annual Eastland county reunion will be Sunday, August 25th, at the Mackenzie State Park in Lubbock. Each person is asked to bring his picnic lunch.

The News failed to note last week that Bert Dollins had been a patient in West Texas Hospital at Lubbock with pneumonia.

Local Men Invited To Join Texas Highway Patrol

Patrolman Marvin Hagens of the Texas Highway Patrol today invited men in the Tahoka area who feel they are "just a little better than the average" to meet him at the court house in Tahoka between 7:30 and 8:30 p. m. on Monday, Aug. 26, to try out for a job in the Patrol Service of the Texas Department of Public Safety.

"There are good jobs open for young men between 21 and 35 who can qualify," said Hagens, "and while we want men who are much better than average to fill them we will go along with those who are just a little bit better."

"These are career positions which offer much in the way of security in benefits, but they are gained only after a period of 16 weeks of rugged training at one of the outstanding police academies in the nation. Upon completion of this training men will be assigned whenever possible within 100 miles of their home town at a basic salary of \$408.00 per month."

"In other words, these positions are for men who are willing to accept a challenge at anytime, now or in the future. The job of protecting the lives and property of the people of Texas is not always easy."

Hagens said men who can meet these basic requirements are welcome to meet him on Monday:

1. Texas citizen for at least one year.
2. 21 to 35 years of age.
3. Five-foot, eight inches or more in height.
4. Not less than two pounds or more than three pounds per inch of height.
5. 20-30 vision without glasses.
6. High school education or the equivalent.

"If you can meet the above qualifications," the patrolman added, "come on in—the water is fine."

Two or three readers said they could hardly believe Mr. and Mrs. John Ray were old enough to have been married 60 years. Well, we've got news for them, Mr. and Mrs. W. J. Benson, both 90, will have been happily married 67 years this coming October 11. Two fine couples!

Some times we get very glib about the trend of government and the "mess" we of the present generation are making with affairs, not at all in keeping with the independence, individual initiative, ambition, thriftiness, hard work, etc., championed by the pioneers of this country and even by the pioneers of this county. Then, we take heart when we

think of the great crop of young people coming on in whom we can place our trust.
Take, for instance, David Bray and John Hegl, leaving for Europe, where David has won a coveted honor as a Rotary Foundation scholar to study a year in Oxford University in England, and John is to travel Europe and gain more knowledge to help him in the future. Or, take Jim Wells, Allen Cox, and Jack Wood, who last week end attended the Attorney General's Youth Conference in Austin. There's Karl Prohl, going to Boston U., who has a goal and is fighting to attain it. There's Ted Pridmore, working his way to become a doctor, and Gordon Smith to become a minister. In fact, there are dozens more we could name—fine youngsters plotting a course for the future. Our schools and homes and churches are turning out sound youngsters at a time when it seems some communities are plagued with delinquents and "beatniks," and other odd-balls who think society owes them something.

Tahoka and other communities of the county are producing some top youngsters who have their feet on the ground and will soon become responsible for straightening out the complexities of a changing society that seems to be drifting away from the principles which made America the greatest land in the world.

Society doesn't owe us anything, but we owe society a lot. Government doesn't owe us anything, but we owe a responsibility to see that our form of government is not changed by so-called planners and do-gooders.

Football season, the "hoopla" phase of our school program, is just about here. Some people think there's too much emphasis on sports in our schools, but an idle youngster is subject for the devil's handiwork. The student who participates in sports does so as an added effort in the school program and is usually too busy to get in trouble.

Athletics helps discipline young minds, teaches young people to take hard knocks and to learn to think in tight places, works off surplus energy youngsters once worked off in a cotton field or driving "Beck" and "Jude" from

daylight until dark. Sports separate the boys from the men. True, the football player may get his leg broken, but parents will usually know where he is at night and he won't be quite so likely to get his brains bashed out "hot-rodding." And, too, football gives us some coaches to cuss if the boys don't win.

The lowly match is one product that is of poorer quality today than it was 40 years ago. The old sulphur match may have had its faults, but it would light.

Do you remember the drummer? He's now called a traveling salesman. But, away back yonder in the horse and buggy days, when

the drummer drove into town or alighted from the train, the populace gathered around to hear the latest jokes and the news from the outside world.

Thinking of the old days there comes to mind button shoes, peg pants and knee pants, silk shirts, celluloid collars, the always hard-to-find collar buttons, cotton ribbed stockings, garters and suspenders, and those itchy wool underwear suits; the feather mattress we slept on in winter and the straw mattress for summer; helping mama lace up her wasp-waisted corset, hoop skirts and bustles, and the bloomers the ladies and girls wore. By the way, some of the girls blushed when

Atlantic City bid \$600,000 for the Democratic convention next year and got it. Now, this city has applied for "distressed area" classification, and we'll bet, politics being what they are, Atlantic City's request is granted. A serious problem has arisen. The convention hall is not air-conditioned. The city had the money to "buy" the convention, but it doesn't have the money to air-condition the convention hall so the Democrats

Attorney General Bobby Kennedy says there is no evidence of Communist activity or influence in the NAACP and other civil rights movements. FBI Director J. Edgar Hoover said director as early as 1957. Sen. Strom Thurmond, South Carolina Democrat, says different and accuses the Washington Post of a "whitewash job" on Bayard Rustin, deputy director of the proposed march of 100,000 Negroes on Washington next Wednesday. He says Rustin was once a member of the Young Communist League, attended the Communist party convention in 1956 "as an observer," has had convictions on charges of sex perversion, vagrancy and lewdness,

and served in two federal penitentiaries for draft evasion. The director of the march, A. Phillip Randolph, has his name on the letterhead of Highland Center Folk School, closed by the state of Tennessee on grounds of immorality.

Terry Reunion This Saturday

The third annual reunion of the Terry County Pioneers Association is scheduled to be held in Brownfield Saturday, August 24. The affair will be held at the American Legion Hall, located at 800 Seagraves Road, and registration will begin at 8:00 a. m.

Present members of the association, who now number about 800, as well as former residents and their children who have lived in Terry County for 40 years or more, are invited to attend and bring a picnic lunch. All persons who qualify for membership are especially urged to attend and register, as this organization affords an excellent opportunity to renew acquaintances, meet new friends, and reminisce about the "Pioneer Days in Terry County."

Seventy per cent of American youths complete high school these days. Half of them go to college, and most graduate. No other nation on earth has ever pursued education so successfully.

WHICH ROAD FOR COTTON?

COTTON'S CRISIS

Concern over cotton's inability to compete in price is not confined to the cotton industry alone. The cotton farmer's woes, as his markets dry up and acreage curtailment threatens, cause a chain reaction.

The impact shakes not only ginners, merchants, and those immediately involved but also fertilizer dealers, bankers, machinery manufacturers, and all in the far-flung complex supplying the vast cotton industry with goods and services.

Over the past two years, and mostly because of price, cotton has lost almost a million and a half bales to rayon and other synthetics. A government program saved the export market at least temporarily. But the difference in the cost of cotton to U. S. mills and their foreign competitors created serious problems in our domestic markets.

Immediate legislative action is being urged to eliminate the raw cotton cost disadvantage for U. S. mills and improve cotton's competitive position. A vastly stepped-up research effort is being sought so production costs can be reduced and farmers can meet price competition without relying on subsidies.

The right answer to cotton's sagging markets needs to be found and found quickly.

and duties, which acts and duties are usually performed by a Building Inspector, until such time as the City Council of the City of Wilson, Texas shall appoint, by Ordinance, a Building Inspector, or until a Building Inspector is elected by the qualified voters of the City of Wilson, Texas.

Section 3. That the City Planning and Zoning Commission shall act promptly on all such requests for building permits and that in case any such request is not acted upon within ten days, then such requests shall be deemed to have been approved by the City Planning and Zoning Commission, and shall be granted unless denied by the City Council.

Section 4. It shall be the duty of the City Secretary to enforce the provisions of this Ordinance and to refuse to issue any permit for any building which would violate any of the provisions of this Ordinance. In case any building is erected, constructed, reconstructed, altered, repaired or converted within the corporate limits of the City of Wilson, Texas, in violation of this Ordinance, the City Secretary is authorized and directed to institute any appropriate action to put an end to any such violation.
