New Street Lights Will Be Installed

Tahoka's street lighting system and the local office of the Southwestern Public Service Company are both having their "faces lifted."

The new street lighting improvement project, recently approved by the City Council, will give Tahoka one of the finest street lighting systems on the South Plains.

The work, to be done soon by Southwestern Public Service Company crews, calls for a complete remodeling of over 100 street lighting fixtures in Tahoka residential areas. The new installation will provide about 80% more illumination than the present system, and the new reflectors to be used will more effectively put the light on the ground and spread it over a larger area.

In addition to the remodeling to be done, 17 new fixtures will be installed in residential areas, and an additional 20 fixtures will be installed on Tahoka's two main highways. The addition of the fixtures on the highways will extend the lighting system on these two thoroughfares for almost the entire length of the city.

Mayor Mel Leslie, in commenting on the new street lights, said, "We believe that Tahoka will now be one of the best lighted cities on the South Plains."

The improvement at the Southwestern Public Service Company office provides a Ruddy Room which will be available for meetings of small local groups.

The new room, which will comfortably accommodate 15 to 20 people and is located at the rear of the Public Service office can be used for business sessions of directors and officers of civic groups and will also be available for night meetings, as well as during the regular office hours at the Public Service Building.

"We are pleased to have this new meeting facility for Tahoka and organizations desiring to use it can make arrangements by calling our office," Harold Roberts said.

Larry Edwards Award Winner

Ahlens—Larry S. Edwards, 22, of Tahoka received the Winnie K. and D. M. Wiggins Medal for academic excellence, personal development and excellence in character Friday night at Hardin-Simmons University's summer commencement exercises.

Edwards, who was awarded the Bachelor of Arts degree in history and secondary education, is the son of Mr. and Mrs. J. B. Edwards, Route 4, Tahoka. He is married to the former Mary Lee Carpenter, daughter of Mr. and Mrs. O. D. Carpenter, 223 30th, Snyder.

The award was conferred by Dr. George L. Graham, H-SU executive vice president, as H-SU presented degrees to 100 summer graduates. The medal is given each summer by Dr. and Mrs. D. M. Wiggins of Lubbock. Both are graduates of H-SU and Dr. Wiggins is a former dean of the university. Now president of Citizens National Bank of Lubbock, he has been president of Texas Western and Texas Technological Colleges.

Edwards was cited not only for his academic achievements in H-SU, where he has been a member of Alpha Chi, national scholarship society, but also for a wide range of student activities. He was vice president of the H-SU Student Assn. during 1962-63, was vice president of his junior class, and was his senior class "favorite."

He was elected to Who's Who in American Colleges and Universities, was the outstanding cadet in his junior ROTC class, and was vice president of his dormitory council in Anderson Hall. He sang (Cont'd On Back Page)

Showers Cool Off Hot Crops

Showers ranging from moderate to heavy Wednesday evening and Thursday morning cooled off the weather and gave relief to many crops needing rain.

Tahoka received 1.5 inch Thursday morning, and there was a possible prospect for more as The News went to press.

Up to an inch or more was reported in an area from the E. L. Short place east to Central and on to Starrie Glen, in Garza county. Fall was lighter north and south of the line.

Heavy showers also were reported west of Draw, north of Gordon, and northwest of Wilson, at New Home.

The cooler weather accompanying the showers is expected to help some.

Youth Revival At New Home

The Youth Revival at New Home Baptist Church opens this coming Sunday morning and continues through the following Sunday, Sept. 8, announces the pastor, Rev. Paul McClung.

Rev. Martus Milby, 20, student in Baylor University, will do the preaching, and Robert Shehane, also a student at Baylor, will lead the song services.

A cordial welcome is extended everyone to services at 8:00 a. m. week days and 7:00 p. m.

WRECK VICTIMS IMPROVE

Glen Riddle, injured in the wreck at Williams, Ariz., is now up and ready to enter school, his mother, Mrs. A. D. Riddle reports. He still has his arm in a cast. Elmer Adams, also injured, is in Slaton with his brother and doing fine, she says.

Jaycee Rest Stops Over Labor Day Week End

Tahoka Jaycees will be sponsoring another four-day Labor Day week end "rest stop" on each of the two major highways to promote traffic safety. At each stop they will offer the traveling public free coffee, a variety of soft drinks, cookies and doughnuts.

One rest stop will be at the roadside park north of town on US 87, the other two and a half miles east of town near the home of Sheriff and Mrs. Norvell (Booger) Redwine on US 380.

Jaycees will man the rest stops today, Friday, from 8:00 until 10:00 p. m., Saturday from 10:00 a. m. until 10:00 p. m., Sunday and Monday from noon until 10:00 p. m.

Bob Pennington, general chairman of the program, requests all Jaycees to give their services.

They hope the program may cause some travelers to stop for a few minutes rest and thereby possibly prevent an accident caused by travel fatigue.

Last year's program was a big success. Jaycees say many people stopped for refreshments, expressed thanks for the hospitality, and the Jaycees, town, county, and West Texas in general got some good will.

Accident rate because of tired tourists has grown rapidly the last few years in Texas, and if just one serious accident is averted because of this program to point up the importance of frequent rest stops the effort will be worth while.

The Fowlers present a well-rounded, interesting and effective evangelistic program. Rev. Fowler, (Cont'd On Back Page)

New Organization For Boys Ranch Is Set Up

New officials of South Plains Boys Ranch were elected at a meeting here Monday night, and an attempt will be made to get the project going again under a completely new set-up.

Jack Miller, local police chief, instrumental in getting the ranch started, had two weeks before announced his withdrawal from the project because of lack of financial support. Eight to 12 boys have been at the ranch.

At Monday's meeting, Mrs. Bill Davis, owner of O'Donnell Telephone Co., was elected president, succeeding Mel Leslie; Mrs. C. A. Lacy, also of O'Donnell, was named secretary - treasurer, succeeding Mrs. Lennie Cox and Mrs. Wilma Tyler.

County Judge Leslie Pratt and County Attorney Vernon Adcock, both of Lamesa, pointed out the need for the ranch, a place to send boys who need a home to (Cont'd On Back Page)

Buses will run Monday, Sept. 2, all classes in Tahoka Schools will start off on schedule, the cafeteria will be open, and the new 1963-'64 school term will be underway here.

High school students were registering this Wednesday and Thursday, and all other students will register at the opening Monday at 8:40 a. m.

Whether or not there will be an increase in enrollment this year is not known. Last year total enrollment reached 1,300, and average daily attendance approximately 1,110, an all-time record for the Tahoka schools.

Two new teachers were hired this week to fill the faculty.

Miss Carol Pearson, who holds an M. A. degree in homemaking from Texas Tech, will teach two classes in Homemaking and two science classes in high school.

Rev. John Pistone, a native of Argentina and pastor of the local Mexican Baptist Mission, will teach two classes in high school, first and second year Spanish.

Principal J. B. Howell of South Elementary School requests all first grade beginners to bring with them the first day birth certificates, health records, or baptism certificates.

Not one patron showed up Tuesday night for the school district budget hearing, and the board approved the proposed budget for this school year.

Total budget is \$1,018,000, but \$821,000 of this amount is earmarked for new construction. Some of the \$850,000 bonds voted for construction have already been spent for Dunbar school construction, buying the Jaquess, Jots, architect and fiscal agent fees, etc. Major portion of the bonds have been reinvested in Government bonds until construction costs are due.

Actually, the operational budget is \$400,462. About sixty percent of operational funds are paid by the State, while Tahoka's tax roll totals \$204,000, states Supt. Otis Spears.

O'Donnell Opens School Tuesday

A slight increase or more than 850 students, are expected for the O'Donnell school opening Tuesday, announces the new superintendent, Charlie White, who comes to the school from Plainview, where he served as principal.

Registration for high and junior high students was being held this week, and Tuesday the school will go into a full program.

About 40 boys have been working out since Monday of last week under Coach Charley Beaton and assistants for the Eagle football team, which expects to have a strong line. The backfield is inexperienced, Quarterback Fen Taylor being the only starter returning.

Grounds Ready For Champ Rodeo

Grounds have been cleaned up, pens and bleachers repaired, and plans are about complete for the big Championship Rodeo here two nights, Sept. 12 and 14, according to Gran Short, president of Tahoka Rodeo Association.

The show will feature the top cowboys of H&R Rodeo Co. shows this season.

A parade at 6:00 p. m. opening day will be participated in by several Sheriff's Poses, bands, floats of merchants and clubs.

Bulldogs Prepare For Opening Game

The Bulldogs open the season here on Friday of next week at 8:00 o'clock with the Frenship Tigers, go to Crosbyton the following week, entertain Slaton on Sept. 20.

Tahoka B team opens play here on next Thursday night at 6:00 p. m. with the Plains Cowboys B team.

Tahoka Bulldogs have been working hard for the coming season, and Head Coach Gilbert Hough is optimistic despite the fact he has only seven returning lettermen, and three of these seniors.

But, he says the boys have an entirely different attitude this year and are "getting with it." He thinks the 1963 team is liable to surprise some folks, if the present attitude is maintained. He expects a fighting ball club, not quite so heavy, but faster, shiftier, tougher, and with more finesse.

By next year, when Tahoka will go back into Class AA play, the Bulldogs may be back in the winner's circle.

With only three seniors, Gary Grogan, Macky McWhirter, and Jack Wood, he has 14 juniors, 17 sophomores, and 14 freshmen.

All but two or three have had football experience up through the grades, and even one or more freshmen will see action on the varsity team this year. These three classes of boys have been on winning junior teams, and go on the field to win.

Furthermore, there will be a schedule of B games, and all the boys will get a chance to produce in competition this year. The B team may be pretty strong, in fact.

With a larger group than usual, there is keen competition for places in the starting line-up. The squad presents more capable replacements, and more boys will likely see service in A games this year than last.

Tuesday night the Tahoka boys scrimmaged the Wilson Mustangs at Wilson, and looked good in spots, although the boys were shifted in and out so coaches could see how they performed. Offensively, they appeared to have potential scoring ability, and defensively they were tough with certain combinations.

Coach Dave Easterday is work-

Wilson Expects Winning Team

Don't count the Mustangs out, yet, Wilson fans declare as the boys are working out under a new coach for the season opener at Lazbuddie on Friday, Sept. 6.

Last season, the pessimists counted Wilson out early in the season and they ended up District 3-B co-champions with Cooper.

New head coach is Doug Duncan, former Tech star and assistant at Ralls three years. His assistant is John Alexander, Wayland basketball star, and Roy Lynn Kahlich is also helping the new coaches.

Although eight lettermen return, five were regulars last year, and some of the team candidates are out for football for the first time. Fans say the boys are eager, tough, and the Mustangs are due to carry on their tradition as a winning team.

In a scrimmage with Tahoka Tuesday night, the Mustangs showed fine prospects.

Following boys reported for workouts last week, however Coach Duncan has already shifted the boys around trying to find the best combination.

New Home Team Outlook Better

There's new life out at New Home, where the Leopards of District 3-B are making plans to turn over a new leaf as far as games won-lost are concerned.

With 20 boys out for the team, half of them lettermen, plus some very promising boys moving up to high school, Coach Paul Kitchen and Assistant Billy Harwell, hope to field an interesting team.

Two years, misfortune struck the team in the form of injuries to key boys, but barring some accident this year's team may have the stuff to move, fans say.

New Home opens its season next Friday at 8:00 p. m. when it entertains Shepherd the King school of Lubbock at New Home.

The bride was given in marriage by her father and wore a floor-length gown of white organza over taffeta. Her dress featured a fitted bodice, long petal point sleeves and re-embroidered Alencon lace, set with pearls, enhancing the Sabrian neckline. The same lace motifs accented the front of the controlled skirt which extended into a full bouffant chapel train. A crown of pearls held her tiered elbow-length veil of imported silk illusion. The bride carried a bouquet of white carnations surrounding an orchid atop a white Bible.

The bride's sister, Donna Sue Moore of O'Donnell, was maid of honor and Debbie Northam of Lubbock, cousin of the bridegroom; Sherry Berkel of Boise, Idaho, cousin of the bride; Linda Nelson of Lamesa and Mary Prather were bridesmaids.

All farmers, businessmen and all people interested in agriculture are invited to attend the annual Soil Conservation District tour to be held Sept. 11.

The tour will leave from the north side of the court house at 8:00 a. m. and lunch will be served to all who attend. Points of interest with soil and water conservation measures installed in the district during the past year, as well as crop demonstrations by the county agent will be visited. Everyone is urged to make an effort to attend the annual event.

A unique use is being made of lake water on the May ranch by Charles Baker who operates the place in partnership with Lawrence May. Charles has installed a pump in a wet-weather lake and has installed a sprinkler irrigation system so that he can irrigate his

range grass. Although the area that can be watered is only a small fraction of the total area, Charles is to be commended for making use of water that would otherwise be lost through evaporation. It is especially beneficial during extended dry periods such as the one that area farmers and ranchers are suffering through at the present.

When driving through the District many lake pumps can be seen in operation applying water to drought-stricken cotton.

CARD OF THANKS

I wish to thank my many friends deeply for the beautiful flowers, cards and warm visits while I was in the Methodist Hospital. They were appreciated very much.—Mrs. George Wright, 1tc.

Mrs. O. H. Hoover
We extend our sincere sympathy to the Gus Porterfield and J. E. Sherrill families in the death of their sister, niece and great niece. Mrs. Linnie Smith of Oxnard, Calif., her daughter Mrs. Johnnie Green of Sudan, and granddaughter Mrs. Shirley Green Speck of Lubbock were killed in a car wreck near Seymour last Wednesday. Mrs. Smith was the sister of Gus Porterfield of Post, route 3, and Mrs. J. E. Sherrill of Tahoka, route 2. Mrs. Smith visited here quite often.

Kent Stone, 3, grandson of Mr. and Mrs. Gus Porterfield, turned on the gas in the bathroom of the Stone home Tuesday of last week causing an explosion, and he received first and second degree burns over more than half of his little body. They brought him home Monday, but he is very comfortable. We wish for him a speedy recovery.

Mr. T. J. Murray's landlady, Miss Anna Jones of Lubbock, spent the day with the Murrys last Friday. Mrs. Murray drove to Lubbock for her.

Elwood Wiley and family of San Benito are here visiting friends and relatives. Friday Mrs. C. O. McCleskey gave a luncheon in their home. Attending were the W. L. Gribbles, the H. C. Gribbles, the Carlos McCleskey family, and Mr. and Mrs. Wiley and children.

A cousin of Mrs. Jessie Gregg, Mrs. Johnny Thompson of Utopia, is visiting here and has been for about 10 days. Other visitors in the Gregg home this week were Mr. and Mrs. B. Norman of Levelland and Mr. and Mrs. Jess Gregg of Ropesville.

Mr. and Mrs. Harold Allen of Lubbock had dinner Friday night with his sister, Mrs. Laverne McCleskey.

Mr. and Mrs. Roy Short of Dallas visited the V. L. Meltons and the Carlos McCleskey family last week.

Mr. and Mrs. John Warrick, Mr. and Mrs. J. C. Warrick and Johnny of Lubbock spent the day Tuesday with the W. L. Gribbles.

The J. F. Moore family returned home Tuesday from Colorado, where they have been vacationing for the past two weeks.

Mr. and Mrs. James Murray and family and Arlie and Lavonia Moore left Thursday for the mountains in Colorado on a vacation trip.

Mr. and Mrs. A. E. Riley had lunch Sunday with the T. J. Murrys and visited Grandma Gribble in the afternoon.

Delbert McCleskey returned Saturday from a trip to Sam Houston State Teachers College in Huntsville, where he attended a Farm Bureau Citizenship Seminar. He brought back a recording made by John Noble's life story as a slave in a Russian prison camp. It makes very interesting listening. Delbert saw and heard the man in prison.

Mrs. Ivey McGrew and Jeannie Inklebarger of Lamesa spent the week end in the home of the C. A. Walkers.

Mrs. McGrew and Mrs. Walker and Jeannie visited Mr. and Mrs. Ed Cummings Sunday afternoon.

Visitors in the Gus Sherrill home over the week end were Mrs. Roy Henry, Mrs. Buddy Thompson and Mrs. Glen Trent, all of Oklahoma City. They came to attend the funeral of the three ladies killed in the car wreck, Mrs. Linnie Smith, Mrs. Green, and Mrs. Speck.

nell was a house guest of Paula Kay Sherrill.

Mrs. Hoover entertained the Priscilla Club in her home Aug. 21. There were 14 guests present. We spent a pleasant afternoon visiting and sewing.

Marion Inklebarger, who had major surgery last Tuesday, is recovering nicely.

Mrs. Ada Oden and house guest, Ima Oden, spent a week in Clarendon with Mrs. Blanche Gray. Mrs. Gray came home with them and plans to stay several days. They also visited the Hershall Oden family in Sudan. Mrs. Ima Oden plans to return to her home in Los Angeles, Calif., soon. She had been visiting here several weeks.

The Rev. Yeats didn't have a very enjoyable vacation at their cabin in the mountains at Alto, N. M. It rained every day and night, and the temperature got down to 40 degrees at night and didn't get about 65 degrees in daytime. So, they just packed up and came back to Texas, where it was dry and hot.

Mr. and Mrs. Johnny Norman are here from Pampa, Calif., visiting brothers and sisters and other relatives. They plan to stay two weeks or longer.

Mr. and Mrs. E. M. Norman spent the day Sunday with their daughter and family, the Joe Flemings, of near Brownfield.

Veda Reed Tells Of Alaska Trip

Mrs. Reagan (Veda) Reed of Tahoka, recently went to Alaska to visit her brother, Arnold Cloe, and accompany him and his family back here. Following is a letter from her dated August 21:

Leaving Tahoka in about 90 degree weather and arriving in Anchorage, Alaska, some 18 hours later in 50 degree weather was quite an experience.

Never having ridden a commercial airliner, I was in for a wonderful thrill when I climbed aboard the plane at Lubbock. I never changed planes from Lubbock to Seattle, but we did land at Denver, Salt Lake City and Portland. We had about 30 minutes to get off and look around. These cities were beautiful from the air at night.

The trip was 5,000 miles, and when we reached Seattle we were half way. I rode a jet from Seattle to Anchorage in three hours.

I was rather surprised to see the beautiful modern city of Anchorage, the largest city in Alaska. It is similar to Lubbock, except smaller.

My brother and family met me at the plane and I disembarked in rain Sunday afternoon.

Bill and Sue Cain and baby came over, and we spent the afternoon talking about Tahoka and Sue's folks, the Herman Benfros, and Bill's grandmother, Mable Morgan. I've been having a very enjoyable time seeing the sights with my niece and nephew, Susan and Stevie Chaney.

Incidentally, I catch it every time I say anything because of my Texas accent. But, they talk funny to me, as I do to them. I could enjoy it much more if Reagan and Ronnie were here with me.

I plan to come back over the Alcan in about six weeks with my brother and family. It takes about 9 or 10 days, depending on how much sight-seeing we do on the way back.

We are going salmon fishing and to see a real glacier and many more sights.

I send my best regards to all my Tahoka friends and my love to all my family.

A friend—Veda Reed, 612 E. 12th Street, Anchorage, Alaska.

Mr. and Mrs. Lymon Garwood, brother-in-law and sister of Mrs. Albert Curry, arrived Saturday morning to visit for a week and to get their children Amy and Hal, who have been here visiting the Curry's for three weeks.

Mr. and Mrs. Walter F. Vaughan were home the first of the week from Brownwood Lake, where they have a fishing cabin.

Mrs. Ken Moore Is Home From "Hills"

Mr. and Mrs. Ken Moore of Trout Lake, Colorado, came down August 12 to be at the bedside of her mother, Mrs. Imogene Lynch, who underwent surgery recently at Tahoka Hospital.

Ken has returned to their mountain cabin, but Mrs. Moore is going back to work at Western Cotton Growers, Inc., in Lubbock, where she has worked the past five years. Ken is a retired Army man.

Mrs. Moore, better known here as Bobbie, says they greatly enjoyed their summer stay at the cabin, at a very colorful locale on the Western Slope of the Rockies, 15 miles south of Telluride, and on the shores of Trout Lake.

Her mother and grandmother, Mrs. Lynch and Mrs. Amelia Turner, visited them at their mountain cabin this summer. Bobbie says her mother went fishing several times in a row boat with a 67-year-old lady, and the pair caught their limit of trout each time out.

Bobbie hated very much to leave the cabin when she did, for a movie company is scheduled to start shooting scenes there on Sept. 3 for the upcoming picture "The Unsinkable Molly Brown," starring Debbie Reynolds, and she would have had a chance to get in the movie as an extra. She envies Ken staying up there this fall.

H. G. HOUSTON INJURED IN CAR WRECK RECENTLY

H. G. Houston, 26, brother of Mrs. Rubin Gandy, who was injured on July 23 in a car wreck at Stratford, where he farms, will have to remain in the hospital four to six weeks, Mrs. Gandy reports.

H. G. received a broken neck in three places and is in traction, but he is reported to be doing well. He is in room 257 of Northwest Texas Hospital in Amarillo, and would enjoy hearing from friends.

Mr. Houston lived in O'Donnell most of his life and attended school there. He is married and has two children.

Kind words never die—they just become victims of ingratitude.

State Tourism Head Speaks At Joint Rotary-C. of C. Meeting

Texas is not doing enough to attract tourists, a business that has become the third largest in the country, Bill Gilman of Austin, general manager of the new Texas Tourist Council, told a joint meeting of Tahoka Rotary Club and Chamber of Commerce in a dinner session at the City-Legion building Friday night.

"We are in the tourist business, whether businessman or farmer," he declared, "and this business is important to every segment of life in Texas."

But Texas ranks 13th in attracting tourists, he said, although 30,000 tourists a day are coming into our state, or just passing through, who pay \$25 million dollars in direct taxes.

"One tourist is worth as much as a bale of cotton and is twice as easy to pick," he jokingly quipped. In 1958, Americans spent \$8 billion traveling, this rose to \$25 billion by 1960, it was \$30 billion in 1962, and will probably amount to \$35 billion by 1965.

"But, tourism is not having the impact on Texas it should have," he said, "because we are not telling the public the attractions Texas has to offer."

The speaker said 13 million people a year go to Florida, not just through the state, whereas of the 9.5 million visiting Texas, 24 percent were passing through.

But Florida spends \$7.5 million a year to attract tourists by advertising and promotion. Miami has 10,000 hotel rooms. Houston, the biggest city in the south, together with Galveston, Beaumont, and intervening cities barely have a total of 10,000 hotel rooms.

He outlined some of the attractions, 624 miles of coastline, more inland lake water than any state except Alaska, more and better highways than any state in the union, forests of East Texas, rolling hill country, mountains, plains, and such attractions as Big Bend Park.

After 86 years of the "carpet-bag" law prohibiting Texas from advertising as a state, the people passed a constitutional amendment in 1957 permitting Texas tourism promotion. This year, Texas has gotten around to starting out on a small scale with \$80,000 to promote tourism, and this will be increased to \$120,000 next year. But, he said, this is not enough. San Antonio alone spends \$200,000 a year to attract tourists.

He declared Texas Highway Department has been doing a good job advertising Texas with maps, brochures, entry points, etc., and incidentally said Texas has the best highway engineer in the world, generally recognized in road building circles the world over.

The speaker was introduced by Calloway Huffaker.

The program, presided over by Don Browning, head of the Rotary Club, was a double-barreled one. Talks were made by three Tahoka High School youths, Jim Wells, Jack Wood, and Allen Cox, whom the club had sent to Attorney General Waggoner Carr's recently initiated Youth Conference in Austin to study and do something about juvenile problems. Six hundred youths from over the state attended the conference.

Jim Wells outlined the program of the meeting, some of the speakers being Mr. Carr and Homer Garrison, head of the state law enforcement agencies, and the entertainment.

Jack Wood told of the increase in juvenile crime and how we may be able to reduce it. He said 16 percent of all major crimes are by juveniles under 18, 60 percent of all car thefts are by high school students, as are 47 percent of all burglaries. Two million youth are dealt with by officers in the nation a year, and the cost of juvenile crime is \$4 billion a year.

He thought we must organize to find things for juveniles to do, help channel life in the right direction, cultivate the youthful mind, make the youth feel wanted and needed in our society.

Allen Cox gave a forceful talk in which he raised the question, in effect, "What has happened, since our founding fathers didn't feel they had to follow the crowd, or didn't have to conform? They had ideals and fought for them. In our more modern day, youths are committing some of the most barbaric and horrible crimes imaginable."

"We must cover up this cesspool and start planting flowers," he said.

The youth drew a fine ovation from the crowd. Browning praised these youths and many others like them growing up in our local schools. He said Rotary this year hopes to organize an Interact Club for youths in the local high school.

Another feature of the program was the presentation of David Bray, son of a Tahoka Rotarian, selected by Rotary International for a fellowship under Rotary Foundation to study in Oxford, England for a year. Dr. Emil Prohl presented David, and the Club and Tahoka C. of C. both presented him going-away gifts.

In his response, David said the local club had been his inspiration to try for the honor, but most of all his parents had been the principal inspiration and help.

Miss Montie McGinty, new Rotary sweetheart, accompanied at the piano as her dad, Fred McGinty, led the group in singing America. Rev. Aubrey White gave the invocation.

A fried chicken dinner was served the group by Al Smith.

Two million youth are dealt with by officers in the nation a year, and the cost of juvenile crime is \$4 billion a year.

He thought we must organize to find things for juveniles to do, help channel life in the right direction, cultivate the youthful mind, make the youth feel wanted and needed in our society.

Allen Cox gave a forceful talk in which he raised the question, in effect, "What has happened, since our founding fathers didn't feel they had to follow the crowd, or didn't have to conform? They had ideals and fought for them. In our more modern day, youths are committing some of the most barbaric and horrible crimes imaginable."

"We must cover up this cesspool and start planting flowers," he said.

The youth drew a fine ovation from the crowd. Browning praised these youths and many others like them growing up in our local schools. He said Rotary this year hopes to organize an Interact Club for youths in the local high school.

Another feature of the program was the presentation of David Bray, son of a Tahoka Rotarian, selected by Rotary International for a fellowship under Rotary Foundation to study in Oxford, England for a year. Dr. Emil Prohl presented David, and the Club and Tahoka C. of C. both presented him going-away gifts.

In his response, David said the local club had been his inspiration to try for the honor, but most of all his parents had been the principal inspiration and help.

Miss Montie McGinty, new Rotary sweetheart, accompanied at the piano as her dad, Fred McGinty, led the group in singing America. Rev. Aubrey White gave the invocation.

A fried chicken dinner was served the group by Al Smith.

White Is Leaving Water District
The High Plains Underground Water Conservation District has recently announced the resignation of Allen H. White, Jr.

White, long-time editor of "The Cross Section," the District's monthly publication, and Director of Education, has resigned to accept a position with the Federal Land Bank of Texas. For almost 10 years, he has been a member of the Water District staff.

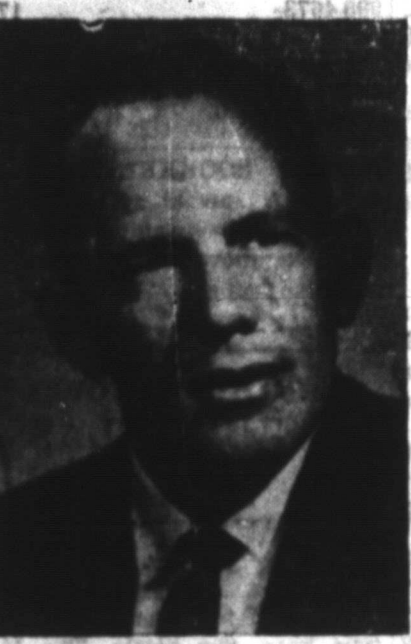

White, a native of Amherst, is married to the former Helen Heathman of Littlefield. They have two sons and will continue to reside at 4407 45th Street in Lubbock. He is well known over

Lynn county, especially the northern section, and his wife, the daughter of Mr. and Mrs. W. E. Heathman of Littlefield, attended grade school in Tahoka while her father was in business here.

U. S. Bond Sales Nearing Quota
July E and H Savings Bonds sales for the year in Lynn County now total \$198,396.00, according to A. C. Verner, Chairman of the Lynn County Savings Bonds Committee. This figure represents 85.4% of the 1963 sales goal. Only county on the South Plains exceeding Lynn in percentage of sales is Crosby county.

Savings Bonds sales in Texas for the first 7 months of 1963 totaled \$87,865,036 which represents 58.4% of the state goal of \$150,000,000.

"The achievement of the Freedom Bond Drive goal in Texas demonstrates to the Nation that Texans stand ready to do their part in our fight for freedom. These bond dollars will help our

Nation maintain a strong military posture and at the same time will keep our country economically stable." Chairman Verner concluded.

Wait a bit—don't get hit!

A.P.I. Golf Meet Proceeds Going To Scholarship Fund
The South Plains Chapter of A. P. I. is sponsoring its Ninth Annual Scholarship Blind Bogey Golf Tournament on September 6th and 7th at the Brownfield Country Club.

Proceeds from the tournament will be used to sponsor four \$500.00 scholarships at Texas Tech. In the past, only two scholarships were sponsored by this Chapter, but as a result of the growing response and success of the tournaments, the Chapter is now able to sponsor four. Recipients of these awards must be a deserving Junior or Senior engineering student, and a resident of the South Plains. Several eligible students for the scholarships are listed by the Dean, then the Chapter Scholarship Committee makes the final selection.

Prizes for the tournament are donated by merchants and various companies on the South Plains and the surrounding area. Prizes donated for the 1962 tournament held at the Lamesa Country Club totalled approximately \$8,000.00.

Golf Tournament Chairman again this year is Mr. Don Hewitt, Cities Service Oil Company, Brownfield.

Lynn county, especially the northern section, and his wife, the daughter of Mr. and Mrs. W. E. Heathman of Littlefield, attended grade school in Tahoka while her father was in business here.

Field Day Set For September 17

The annual field day at the Texas Agricultural Experiment Station, Substation 8, has been scheduled for Tuesday, September 17, with the Texas Agricultural Extension Service acting as co-host. Field tours from 1:00 to 5:00 p. m. will be conducted by County Agricultural Agents for observation of the research plots.

New developments in chemical weed control in cotton will be observed and discussed. Herbicidal chemicals when properly used offer great possibilities for the reduction and elimination of hand hoeing. Other features of interest to farmers of the area will include sorghum midge research, broadcast planting of cotton, Verticillium wilt, tolerant lines of cotton, water stretching irrigation methods, and many other new improvements in

the production of cotton, sorghum, soybeans, castor beans, sesame and vegetables.

Visitors are also invited to tour the modern laboratories in the headquarters building, to observe equipment and operational procedures involved in soil testing, plant disease studies and plant physiology research.

Many items of new farm equipment as well as special research implements will be on display.

All individuals interested in agricultural progress for the area are cordially invited to attend.

MOVING TO IRVING
Mr. and Mrs. Cecil Todd moved to Irving Monday where he will be employed in the maintenance department of the public schools of which W. T. Hanes is superintendent and Leo Jackson is athletic director.

Mr. and Mrs. Finis Botkin and boys, Tony, Tommy and Terry, have been in Ruidoso taking a rest and vacation in the cabin of his brother, Lewis Botkin.

August has come and went—and so has the bumper crop. But, we've had a lot of good luck out here on the Plains, and we'll still make more total crop than 90 percent of the Texas counties. Things could be a lot worse!

More than one nerve-frazled mother has thought, "These kids are driving me crazy. I'll be glad when September gets here, and I can send 'em five days a week to a baby sitter—er, or, I mean, to school."

There's a touch of fall in the air—even though it's dry, hot air—the boys are throwing footballs around, days are getting shorter, a few are cutting burned-up mile, workmen are tuning up gins, fall merchandise is arriving, and school is starting.

We haven't run up the averages, but we believe this July and August have been among the two

hottest months on record here, although the high temperature in Tahoka was only 90 degrees.

The Cotton Trade Journal, read by buyers, handlers, and processors of cotton around the world is out with its 46-page "High Plains Supplement" filled with stories about South Plains cotton. Much is being done to put our cotton before the world, but George Pfeiffenberger of Plains Cotton Growers says we need to improve the quality of our cotton to stay in the world market.

One day recently Jimmy Billman and Britt Robinson were out rabbit hunting, killed a rabbit, and found she was a mother "expecting." Having no knife with which to operate, Britt took careful aim, made a side-swipe incision with a rifle, and performed a cesarean birth operation. They found one tiny rabbit which they saved and are nursing along to life.

Otis Hillhouse, the barber, who furnishes all Tahoka Hospital patients with The News each Thursday afternoon, sometimes does some strange things. While on his vacation down state recently, he brought back a bucket of doodle bugs and planted them at his home. He didn't know there are doodle bugs on the Plains. He can get all he wants in the dirt floor of our garage.

The old home paper gets around. For some time we've sent the paper to Andy T. Wilson, son of Betty Sue Greene of Morton and grandson of Mr. and Mrs. Oscar Roberts. He had a buddy out at New Mexico Military Institute who also enjoyed reading The News with Andy T so well that the latter's aunt, Mrs. Eldon Carroll, is now having the paper sent to him. He's New Cadet Ruthven at U. S. Military Academy at West Point, N. Y., now.

Any time we go anywhere, Mae gets real aggravated at The Printer because he likes to stop and find out how people in some other area farm, what they raise, how they make a living, what kind of newspaper the town has, how the people live, etc. Thus, on our vacations in the mountains, we make friends with the natives, if we can. While up at Lake City, Colo., this summer, we talked to the oldtimers, the old miners, etc.

THE AMERICAN WAY

The Rock On Which America Is Founded

a lot. We marvel at the feats of engineering performed by men in the mountains back in the 1870's, '80's, and even later, when there was no power and only jackasses and oxen to haul in equipment that weighed many tons over rugged mountains.

One early settler told us once the narrow gauge Denver & Rio Grande railroad brought in a big cable on several flat cars, destined to be strung from a mine high up on a mountain-side to the valley below to bring ore down. But, the cable, weighing many tons, had to be carried over some rugged mountains first over a trail impossible for wagons to travel. Engineers figured on "snaking" the cable over the mountains a loop at a time, a long, slow process, and quoted a very high price, too high for the mine owner to pay. An old shepherd heard the conversation, and said he'd put the cable over the mountain in a day for half the price. A day or two later, here came the shepherd with a hundred or more head of burros, stretched the cable out lengthwise down the street, lined up the burros down the cable, several men hung a portion of the long cable on each burro, and they took off up the winding trail and over the mountains.

Reminds us of the story a few years ago coming out of Amarillo about the heavily loaded too-high trailer truck which got stuck in an underpass under a railroad and was about to tear up a costly bridge. A caterpillar couldn't pull it out. Engineers were called in to try to solve the problem. Then, a little boy watching the proceedings who had been "shooed" out of the way several times by the worried experts, suggested, "Mister, why don't you let some air out of the tires?"

Lewis Allsup recently brought us a facsimile copy of the famed Ulster County Gazette of Jan. 4, 1800, which contains the story of the burial of George Washington at Mount Vernon on the Potomac. The paper contains speeches of President John Adams, some congressional papers, news from London two and three months old at the time the paper was published. Also interesting are the ads., many

of which are Sheriff's sales, notices to the public, etc., all of which would seem strange in today's newspaper.

The Harold Greens recently sent us a copy of the "Hard-scrabble News" from Sedona, Arizona, and last week the Elmer Owens brought us another paper from Arizona, but we misplaced the latter and don't have the name right now. But, they were both interesting, unusual, and we enjoyed them.

"Hy" Turner says his burned-up cotton looked about four inches high and was blooming in the top, but when the ASCS office told him he was over-planted and had to plow up some cotton he went out and looked again. This time it looked about knee high and looked like it was lapping in the middle.

Here are some more "Gus Says" from Graham Rotary Scandal Sheet: If those fool doctors don't quit making us live longer, our grandchildren will be making us pay off our own national debt... A fellow in a shady business never enjoys a sunny life... A girl who is always fishing for a fellow may end up with a worm... Fellows who are doing nothing are doing somebody... Everyone should be prepared for an emergency so that when it emerges they will be prepared.

Well, looky here, we've written our whole column and haven't done a bit of complaining about the trend of our government!

Tahoka's First School Opened 60 Years Ago

The Lynn County News, Tahoka, Texas Friday, August 26, 1965

(By Nettie Wells Edwards)

Sixty years ago the 19th day of this month, August, my family (the J. S. Wells) arrived in Tahoka.

It was a hot Sunday afternoon about four o'clock when we drove to the town lots, southwest of the square that Dad had bought on a previous trip to Lynn county.

Our tent was erected and wagons unloaded so the boys could start to Big Spring the next day after lumber and supplies to build our house.

Mama took advantage of our neighbor's cow lot and penned up her milk cow. The Bob Edwards family, living in a half dugout, were gone from home at the time. They returned in the night, and Dad had Uncle Bob drilling us a well the next day.

Mr. Faulkner, a carpenter from Lubbock, was sent for and was here to start building the house by the time the first load of lumber arrived. The foundation was made from rocks hauled from Guthrie Lake. By Thanksgiving, we had moved into our new home.

Charley Doak, our first sheriff, had just completed his new residence where the Higginbotham-Bartlett lumber yard now stands.

Sam McDaniel, the first county clerk, had a home built south of the present First Baptist Church.

W. R. Hampton's home was where the Legion Hall is located, and due south a block was the

King residence.

Some of our citizens were living in half dugouts. Mr. Gilmore, owner of the first drug store, and his family lived in a half dugout where our present water tower stands.

Judge Elliott, our first county judge and father of the late Jim Elliott, drove from his farm in a buggy every week day to serve as county judge. His farm is the U. T. Tankersley place now.

He ate his mid-day meal with us, and brought us children some of the finest watermelons he raised! We all thought he was one of the kindest old gentlemen we ever knew.

The new court house was being completed, and all the entertainment for the town took place there in the district court room. Church was held there when they could get a preacher. Some medicine shows and slight-of-hand shows, and a square dance now and then, marriages were performed, all-day singings with everybody carrying a basket lunch on some Sundays, and other events were held in this court room.

King and Sweet were building a new store where Dub Kenley grocery is located. Several loads of stock had been ordered for the new business. Dad bought the store that fall.

R. D. Morris ran a store where Borden Davis hardware is, and

W. R. Hampton owned a dry goods store where the First National Bank stands.

Between these two stores, a new postoffice was being built, and Mrs. Edd Henderson was appointed the first postmistress. Mr. Sherrod was still delivering mail from the Lynn postoffice in a buggy while the new building was being completed.

Mrs. Sherrod ran a boarding house on the east side of the square and served meals for 25 cents.

That fall a one room school building was completed, and Mr. and Mrs. Norton, school teachers from Lubbock, moved here to teach our very first school term. They had one child, an adopted daughter about ten years old. Her name was Bessie. Their home was built southeast of the present Mrs. Tom Garrard home. Mr. Norton taught the higher grades and Mrs. Norton the lower ones.

We had no desks, just rough benches with high backs. A hand bell was rung by Mr. Norton for the pupils to line up and march into the building. We had a morning recess and one afternoon recess.

At noon the pupils usually ate their lunch gathered around the front door step. Most of them used lard buckets or molasses buckets to carry their lunch in, which usually consisted of fried bacon or ham, a baked sweet potato, boiled eggs, and sometimes the lid of the bucket was used to pour molasses in, which was sopped up with buttered homemade biscuits.

The small children played "make believe house" and dropped the handkerchief while the older ones played town ball. Many an interesting game was broken up by the ball rolling down a dog hole.

I can name most of the pupils attending that first school, beginning with my own family. Thurman, Claud, Ruby and I (Nettie) were present. Jack wasn't old enough, but he ran off from home and visited school every day.

Jack was there the day Mr. Norton and Sam Jones were having a fight. They were down on the floor, rolling over and over and getting close to Jack; so he made for an open window and jumped out, running home fast as he could go. That ended his visiting school.

The Sherrod children attending school were Mae, Ivy, Carl, Guy and Jo. Mrs. Norton had trouble trying to teach Guy to spell. She called him to come to her chair where she was sitting one morning and told him to repeat the letters after her to the word she wanted him to spell. Guy, a cotton-headed boy with freckles and barefooted, stammered over the word. Mrs. Norton would put one hand on top of his head and spin him around with the other, and have him try again. This went on and on until she was satisfied Guy knew the word.

The Nevill girls, Callie, Laura, and Olive, and their two brothers, Frank and Linden, attended the first school.

They all had to watch Linden

to see that he got to school. He hid behind mesquite bushes on the way to try and escape going. Frank was one of the boys, usually two were sent, to the Wells place for drinking water three times a day. It was carried in two large zinc buckets. A long-handled dipper was used in each bucket and everyone lined up to wait his turn for a drink. I was always glad when Frank got hold of the dipper, as he offered all the girls a drink first.

Grandma Phoenix, our oldest citizen, raised three grandchildren. Their names were Valerie, Verda and Virgil. Uncle Press, her son and uncle of these children, made a living for them owning and operating the first blacksmith shop. He was noted for making up poetry and songs, and if he were living today he could have gotten rich selling his poetry for jingles on television.

The McDaniel children going to school were Fred, Pearl and Henry. Rescola wasn't of school age.

The King children, four in all, of which only two were in school. Jewell and Sandy were the oldest. Sandy, a dwarf, had to use a wooden box to stand on to reach the blackboard. He was one of the brightest pupils in school. Several years back I read about Sandy making a very prominent lawyer and judge down in Brown county.

Clara Porterfield, an only child of the Porterfields who built the first hotel building in Tahoka, used a special chair to sit in at school. This chair remained there until the old school building was torn down. Some later teachers used it to punish their students for being naughty. I have had to sit in it with my face toward the corner for 30 minutes at a time for talking or laughing out loud.

Syble Alford, the only daughter of the Alford who owned the hoot and saddle shop, also used a special chair. It was sawed off short and had a leather bottom her dad had made.

Nellie Honeas was the adopted daughter of the Honeas, he being the first man to operate a barber shop.

Johnnie and Odessa Henderson were faithful pupils to attend the school. Their dad, Edd Henderson, was one of the first trustees.

The Cass Cowan children drove in from their farm southeast of Guthrie Lake. They were Annie, Jessie and Linnie.

The Cades, Myrtle, Annie, Edd, and Viron (Soaky) drove in from near the sandhills.

The Napiers, who lived in a half dugout where the Irving Stewart place is northwest of town, either walked or rode in to school. They were Lois, Otis, Robert, Edwena and Zola.

The Gilmore girls and boys attending school were Della, Kay, Dee and Durwood. Miss Lula, the oldest, kept house for her dad.

The children of the Bob Edwards family were Calvin, Lillie, Robert and Otis.

The two Doak girls, Birdie and Jewell, attended this school.

There were possibly others that moved into Tahoka later and started before the Nortons finished their second term of school.

The last day a program was given and all the parents invited, speeches were recited, songs were sung, and dialogues were acted out.

Mr. and Mrs. Norton moved back to Lubbock, and I remember seeing them one time a few years later. They were here at the trial of their best friend and neighbor, Sheriff Roberts of Lubbock county, in the year 1908.

He was being tried in district court for killing a man that resisted arrest. He came clear of the charges, and happier people I never saw than were the Roberts family and the Nortons.

Milton Herron and family of Taft, near Corpus Christi, were here last week visiting his cousin, Wayman Smith, and family and other relatives and friends. He formerly lived at New Home.

Dale Thomases In Visit With Mother, Home From Europe

Mr. and Mrs. Dale Thomas and four children of Longview were here Thursday until Monday visiting her parents, Mr. and Mrs. Fred McGinty, and other relatives. Mrs. Thomas is the former Miss Patsy McGinty.

Mrs. McGinty and another daughter, Montie, returned about two weeks ago from a summer spent in Europe during which they toured several countries and visited with a third McGinty daughter, Mrs. Roy (Mariana) Long, and family. Mr. Long is a Church of Christ minister doing work in Vienna.

The News published recently some of Mrs. McGinty's observations about the city and life there. She says simply, "People over there don't live like we do."

Mr. and Mrs. Donald Rohrbaugh and family of Cimarron, Kansas, visited here Friday and Saturday with Mr. and Mrs. Gilbert Hough and family. Mrs. Rohrbaugh is Mrs. Hough's aunt.

L. S. TODD'S NEPHEW OFFICER IN BANK

L. S. Todd brought The News a story from the Garland News about his nephew, Delbert S. Todd, vice president of the First National Bank in Garland, who is deacon, treasurer, and Sunday School teacher in Big Springs Baptist Church near that city. Delbert was born and reared in Garland and is a great grandson of one of the founders of the bank.
