Stock Show Is Top Event

As predicted, the annual Lynn County Livestock Show held here last Friday and Saturday was one of the best, large crowds attended the judging, and the judges declared the show was of exceedingly high quality and extremely hard to judge.

An unusual feature was the fact that girls showed the grand champion and reserve grand champion steers.

Lexi Adams, Tahoka 4-H club, had the grand champion calf, a lightweight Hereford; and Dana Emerson, O'Donnell 4-H club, showed the reserve grand champion, a heavyweight Angus.

Valton Macker of Wilson FFA had the grand champion barrow, a lightweight Duroc; and Ronnie Wood, O'Donnell 4-H, showed the reserve grand champion, a middleweight Hampshire.

In the lamb division, Gary Beach won the fine wool championship, and Louie Birdwell took top honors in both the medium wool and Southdown lamb events. Both are from O'Donnell. Beach is a 4-H boy and Birdwell an FFA boy.

Winning showmanship awards were Harold Bessire of O'Donnell, steer; Gary Herzog of Wilson, swine; and Randy Allen of O'Donnell, lambs.

Judging of steers was done by Dean W. L. Stangel of Texas Tech; swine, Euel Linder of Lubbock; and sheep, Fred Wilkerson of Crane. All are considered among the top judges in the Southwest, and Dean Stangel is internationally known as a judge of beef cattle.

Trophies were presented by Lynn County Farm Bureau; prize money, ribbons, and show expenses by Tahoka Chamber of Commerce and Rotary Club; and \$1,600 in bonus money from a Merchants' and Boosters' Fund was distributed on all animals not sifted from the show.

Most of the animals in the show here will be entered in the area show, South Plains Junior Livestock Show, in Lubbock at the Fair grounds March 16, 17, and 18. But, County Agent Bill Griffin states all boys and girls must have their animals checked in Saturday, March 14. Animals will be sold at the auction closing the Lubbock show.

O'Donnell junior livestock boys and girls will also show in the Dawson county show this week end.

County Agent Griffin expressed sincere thanks to the Vocational Agriculture teachers, who work with him on the county show, and all the superintendents, workers, contributors, sponsors, parents and boys and girls who helped in any way.

Complete results of the judging may be found elsewhere in this issue of The News.

Lubbock Men Will Visit City

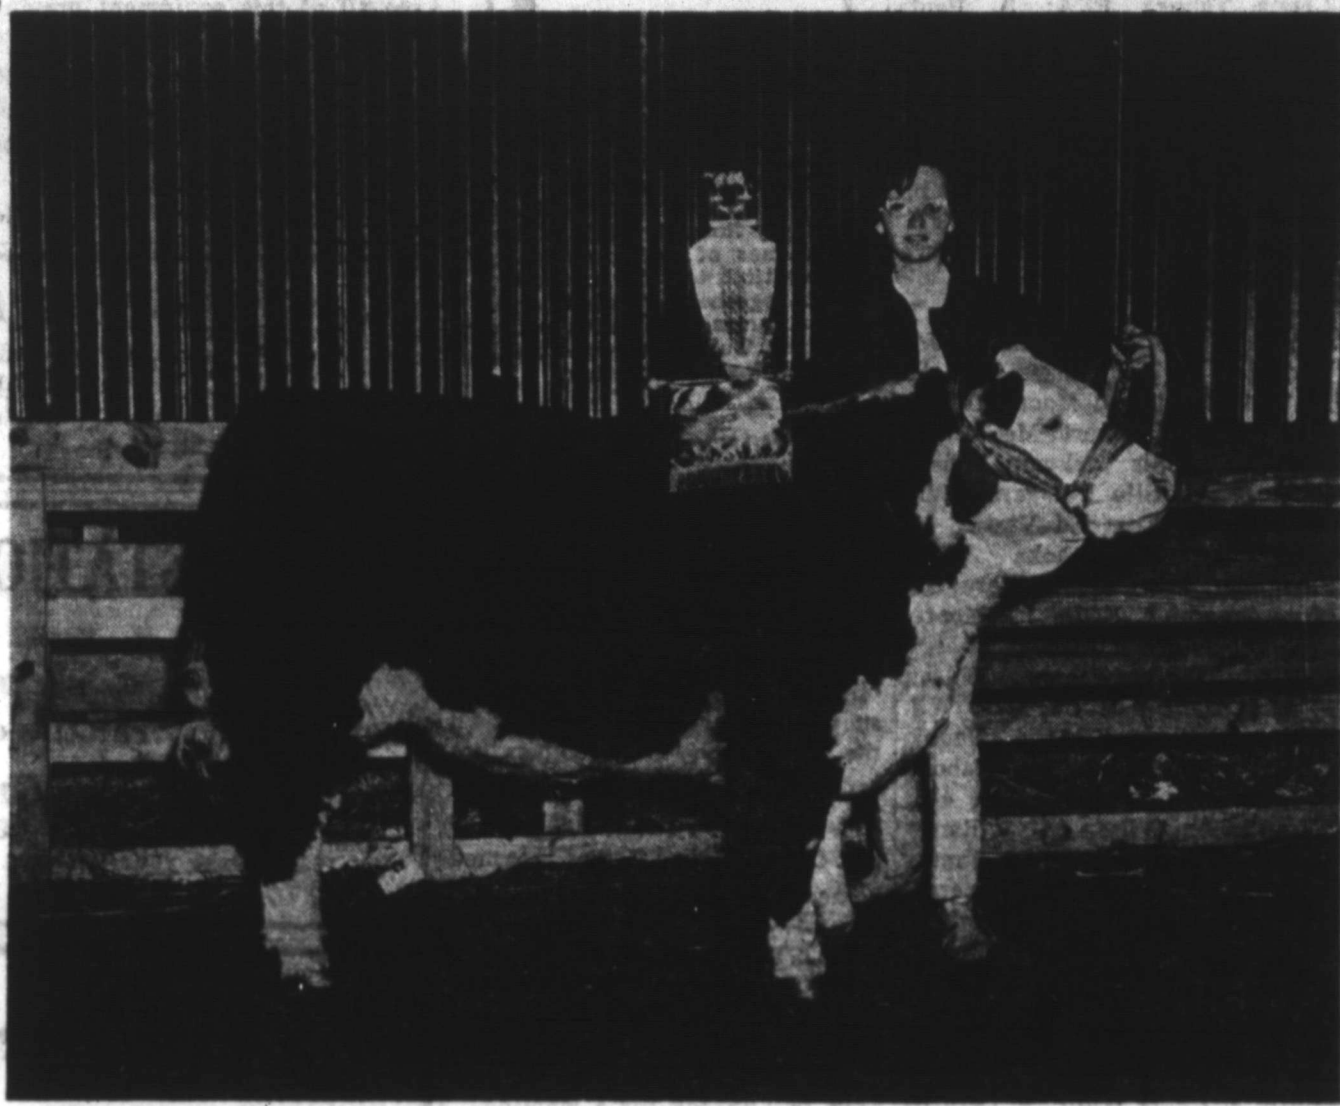

About thirty Tahoka business and civic leaders will be guests of Lubbock Chamber of Commerce's public relations and good will committee next Monday noon at a dinner in the City-Legion building.

This is one of a series of such meetings the Lubbock organization is sponsoring this year in surrounding towns.

"This meeting is an effort to get together with South Plains businessmen to discuss our mutual problems," states Rex Webster of Lubbock, chairman of the committee.

Local men planning to attend the meeting are requested to notify Mrs. Betha Dunn of Tahoka Chamber of Commerce at phone number 998-4761, or Harold Roberts, president, at 998-4646 no later than noon today, Friday.

Rob Luttrell was released from Tahoka Hospital as a medical patient Sunday.

Stice Is Moved To Galveston

Freddie Stice, who was critically injured last week when 7200 volts of electricity passed through his body, is reported to be doing fine in John Sealy Hospital in Galveston, where he was flown from Lubbock Thursday of last week.

Relatives here say it is thought he will recover from the burns that caused the necessity for amputation of the left arm about one and one-half inches below the shoulder. His right leg, burned inside the thigh, is healing satisfactorily.

The son of Mr. and Mrs. Monroe Stice, Freddie was working on a pole for Lewis Construction Company when he reached up and took hold of a hot wire. He was brought to Tahoka Hospital for emergency treatment, taken on to Lubbock, and from there was flown to Galveston, where his arm was amputated. With him at John Sealy are his wife, mother, and mother-in-law, Mrs. Smith of Spur.

O'Donnell Man Killed In Wreck

Antonio Amaro, 47, O'Donnell resident since 1942, was killed instantly, Mary Ellen Garcia, 36, of Lubbock died the next day, and three others were critically injured in a head-on car crash Sunday night at 9:40 o'clock five miles south of Lubbock.

Injured were Amaro's wife, Burtedo, 45, and their daughter, and Steve Silvas, 23, of Brownfield, driver of the other car which was also occupied by Mary Garcia.

Services for Amaro were held Tuesday at 3:30 p. m. in St. Pious Catholic Church of O'Donnell with Father Veteck officiating, and burial followed in O'Donnell Cemetery.

Amaro is survived by his wife, two daughters, a son, two sisters, and five brothers.

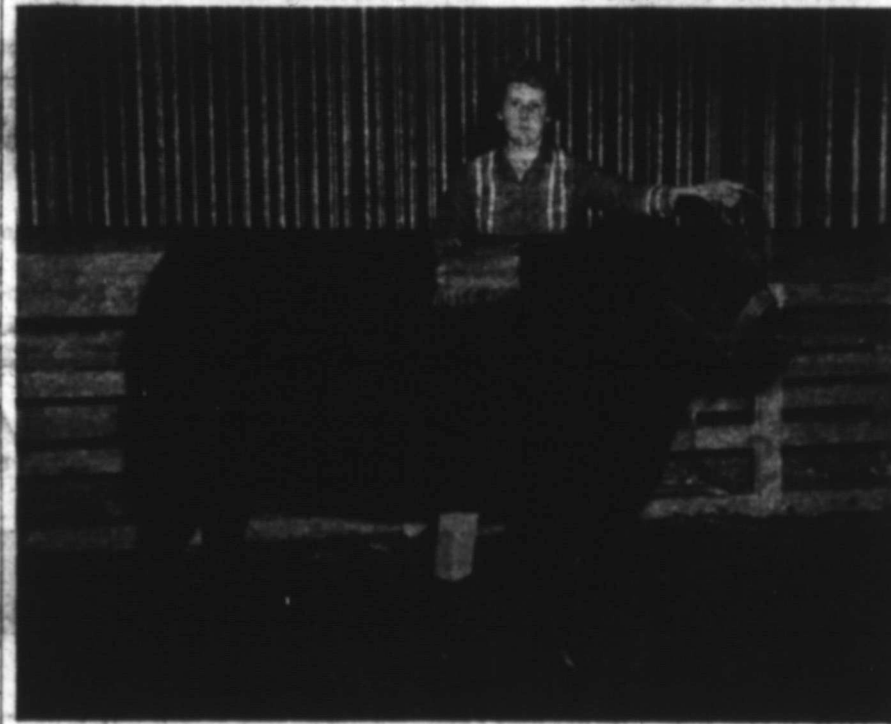

The Garcia woman's body was transferred to San Antonio for burial rites. Her survivors were not known here.

GUEST SPEAKER SUNDAY

Sweet Street Baptist Church will have another guest preacher this Sunday, C. E. Birdwell announces. All members interested are requested to be present.

Mrs. Tommy Chandler was dismissed Sunday from Tahoka Hospital where she had been a medical patient.

Raymond Bagby, Jr., who has been a medical patient in Tahoka Hospital, was released Monday.

RESERVE CHAMPIONSHIP STEER award was also won by a girl, Dana Emerson, 12, member of O'Donnell 4-H Club. Her calf won the heavyweight Angus division and weighed 939 pounds. Dana is the daughter of Mr. and Mrs. W. W. Emerson, who live four miles northwest of O'Donnell. (Photo by Finney)

Dry Weather Continues Here

March arrived "like a lamb" Sunday, but was soon "like a lion" by Monday and the predicted snow storm Wednesday a "dud" as only very light snow fell early in the morning.

Rainfall for the year so far has totaled only 89 inch, nearly half the normal amount, of which 45 came in January and 44 in February.

Total for the past six months, since September 1, is only 3.46 inches, also far below normal.

From past records, not too much moisture can be expected before April. Most farmers report the land has been plowing well, however, and will be in good shape to soak up any moisture that comes between now and planting time.

New Home Shows Off New Building

There was a fine turn-out for the new plant of New Home High School Sunday afternoon, and everyone seemed well pleased with the new facilities, Mrs. Betty Unfried, school secretary, reports.

There were a number of visitors from Tahoka and others from Lubbock, Wilson, Lorenzo, Three Way, and other points.

Many attended the Girl Scout lunch in the cafeteria and were present at a brief program preceding the inspection of the new building.

Travis McDaniel was dismissed from Tahoka Hospital Thursday of last week where he had been a medical patient.

Band Students Win Top Places

Band students from Tahoka earned five Division I and nine Division II ratings at the University Interscholastic League solo and ensemble contests held in Lubbock Saturday. This group was probably the largest in any single year from Tahoka to win so many top ratings.

They were among 1200 students from 28 area bands participating in competition, Vic Kyler, band director said.

The students played their solos and ensembles before a judge, who rated each participant.

Those receiving the Division I (Superior) rating and awarded medals included Lynn Hendricks, alto clarinet, accompanied by Debbie Wright; Debbie Wright, clarinet, accompanied by Paige Verner; Arlene Stephens, baritone, accompanied by Debbie Wright; Elva Jo Edwards, flute, accompanied by Calva An Edwards; Richard White, baritone, accompanied by Debbie Wright. All of the above winners are eighth grade students except Miss Hendricks, who is a junior.

Receiving Division II (Excellent) rating and certificates were Carroll Curry, clarinet; Ralph Brock, cornet; Bill Brock, cornet; John Huffaker, saxophone, all accompanied by Maria Bray; Jeanie Smith, clarinet; Patricia Falls, cornet, both accompanied by Jean Flipping; Ronnie Hudgens, snare drums; and Joe Jaquess, cornet, accompanied by Debbie Wright.

The cornet trio, composed of Terry Bairrington, Maria Bray and Bill Brock, accompanied by Debbie Wright, also received a Division II.

Beard Growing Start For Rodeo

"Time is here to start your beard if you intend to win the beard growing contest to be judged during the Tahoka Rodeo parade on April 23," states "Dub" Powers, secretary of Tahoka Rodeo Association. "Shaving Permits will be sold again to those who do not wish to grow a beard."

Sand Hill Rodeo Company of Seagraves will furnish the stock for this year's three day rodeo on April 23, 24 and 25. This will be the first rodeo for this stock, and the animals are expected to be fat and rank and a "handful" for the cowboys.

Director E. L. Short is making preparations for two booster trips to be made over the area prior to the show, and he would welcome help from interested people.

No School Today Over South Plains

Lynn county public school students get a holiday today, Friday. Teachers in the four schools of the county, along with others of the area, will be attending the district meeting of the Texas State Teachers Association in Lubbock.

Meeting Opens Sunday

Special services will be held at the First Baptist Church beginning Monday morning and continuing through Sunday, March 15, according to the pastor, Rev. James Effird.

Rev. Carlos Gruber, musician-evangelist, will participate in the services with Rev. Effird.

The evangelist will speak at the breakfast meetings each morning, Monday through Friday, at 6:30 a. m. At 7:00 p. m. teachings from the Book of Ephesians will be presented by Rev. Gruber and at 7:45 p. m. evangelistic music, including congregational singing, violin and solos are scheduled.

Rev. Effird will deliver the messages at the 7:45 meetings and the (Cont'd. on Back Page)

Supt. Spears Will Leave Local School

SUPT. OTIS SPEARS

Otis Spears, superintendent of Tahoka Schools for the past 13 years, has accepted a similar position as head of the Bovina Schools, which position he will assume on July 1. He had several years remaining on his local contract. Mrs. Spears was also named to a teaching position in the Bovina Schools.

Although Bovina is a smaller school, it is a growing school, and the salary is almost as much as he is receiving here, Mr. Spears told The News.

Milt (Junior) Fitts, three years in the local schools and head basketball coach this year, also signed a contract Saturday for a similar position at Bovina at a substantial raise in salary.

Mr. Spears has been head of the local schools longer than any other superintendent since the school was established in 1903.

Reared at New Lynn, he attended Tahoka Elementary School a while, graduated from Brownfield High School, and attended Texas Tech, from which he holds B. A. and M. Ed. degrees.

During World War II, he served in the Airforce, sold insurance, served two years as high school principal at Tahoka, one year as superintendent at Cooper (Woodrow), and then returned to Tahoka as superintendent.

He has served as a member of the board of the Texas Association of School Administrators and as chairman of the board of the West Texas School Administrators Association.

Locally, he has been a leader in his church, the Methodist, Chamber of Commerce work, the Rotary Club, is a past president of the Rotary Club and of T-Bar Country Club.

During Spears' service here, South Elementary and Cafeteria, the Home Economics Cottage, Vocational Agriculture, Gymnasium, and Dunbar school buildings have been erected, the modern football field built, and now the district has \$550,000 improvements program, including new high school building, under construction.

He says the enrollment has increased. (Cont'd. on Back Page)

Don Spears Is Mishap Victim

Don Spears received burns on the face and wrists, and G. E. Fagan of Wilson minor burns Wednesday morning when butane exploded while the men were setting a water test pump on the Hall Robinson pasture near T-Bar Airport.

It is thought that Spears' burns are not severe at Tahoka Hospital, where he was admitted.

The accident occurred at about 9:30 a. m. The test pump was being filled with butane from Spears' pickup, in which Fagan was sitting. When Spears opened the pickup door, the explosion occurred. He rolled in sand to extinguish the flames on his face.

The ignition of the butane caught the pickup afire, which was put out by Jack Spears and Floyd Curry, who were also at the scene.

Annual Jaycee Banquet March 14

Tahoka Jaycees' annual installation banquet has been set for Saturday, March 14, at 7:30 p. m. in the City-Legion building.

An installation team from the Lubbock Jaycees will induct the new Tahoka Jaycee officials. Charles Osborne will succeed W. H. McNeely as president.

Tickets for the banquet are on sale by Jaycee members at \$1.50 per person.

VISIT SOUTH TEXAS

Mr. and Mrs. Winston Davies of New Home drove to South Texas Thursday of last week to visit their children and families, the C. H. Reese family at Encino, and the Don Cowan family in San Benito. Leaving shortly after the blizzard struck, they drove in snow, sleet or rain practically all the way, and the temperature dropped so low that the gas flares were burned in the Valley to protect the fruit. The Davies returned home Monday.

Miss Marlene Fitts and Joe Patterson Take Marriage Vows in Ceremony at Grassland

Miss Hazel Marlene Fitts and Joe Charles Patterson exchanged double ring wedding vows Friday, Feb. 28, at 6:30 p. m. in the Grassland Church of the Nazarene. Rev. Jess DeBoard read the ceremony before an archway of white carnations and greenery and candelabra flanked with baskets of pink glad-

loli. Parents of the couple are Mr. and Mrs. H. R. Fitts of Grassland and Mr. and Mrs. Jim Patterson of Draw.

Miss Sharon Patterson, organist, played traditional wedding music

and accompanied Mrs. Madeline Hegl, soloist.

Given in marriage by her father, the bride wore a floor length gown of white Chantilly lace over satin featuring a fitted bodice and a scalloped neckline studded with seed pearls. The long tapered sleeves came to a point over the hands. The bride's elbow length veil of silk illusion was caught with a tiara of seed pearls and rhinestones with a drop pearl over the forehead. She carried a cascade arrangement of feathered mums centered with a white cymbidium orchid.

Miss Rhonda Littlepage of Tahoka was maid of honor and wore a sheath of light pink silk crepe and matching accessories. She carried a bouquet of white carnations.

Miss Talana Gribble and David Stanley, both of Grassland, lighted the candles. Miss Gribble wore a dress of pink cotton trimmed in white with pink embroidery and a headband of pink flowers.

Bobby Patterson served his brother as best man and ushers were William Ray Smith, cousin of the bride, of Jayton and Delbert McCleskey of Grassland. SEARS THANKS PEOPLE

Readers of The News: It is with mixed emotions that I write you this note. My wife and I have lived in this community for the better part of our lives, and have many friends here that we would like to take with us to our new job. Tahoka has been home to us for the past 17 years and will continue to be one of our favorite spots.

During our tenure in the school system, we have had the cooperation of the greater part of the community in our efforts to make this one of the better schools of the area. We have had wonderful school boards, men dedicated to the proposition that Tahoka schools should be second to none within the money available. We expect to find the same fine spirit of cooperation in the community to which we plan to move.

A new job is always a challenge. This new job we are going to, in an old but recently rejuvenated, growing community, offers us the challenge that makes for an enjoyable situation. We hate to leave our Tahoka friends, but we are looking forward to new friends. Our welcome mat will always be out to you and the others who have given us worlds of encouragement and support. — Otis Spears.

Icy Highways Driving Hazard

Safe driving on icy and snowy streets and highways demands greater care and effort than driving under normal road conditions. The following are some tips on how to drive safely and help to avoid accidents on ice and snow laden streets and highways.

1. If your car has a conventional, or "old-fashioned" shift, start in second gear and engage the clutch very gently with little gas. With an automatic transmission, feed gas very gently to start, holding the accelerator steady as soon as the car moves. Increase gas only if it can be done without spinning the wheels.
2. Drive well under dry road speed. Speed limits set for normal driving conditions are not realistic on slicks streets and highways.
3. Keep the car pulling steadily. You need moderate power not speed. To falter or hesitate is, often, to stall or go into a skid. Rolling friction is substantially greater than sliding friction.
4. Make no sudden changes in speed, gear ratio, or direction. Any of these can cause a serious skid. Make these changes, if necessary, most cautiously.
5. To stop or slow down on icy streets, lightly pump the brake pedal in rapid succession. This action permits the front wheels to steer when they roll and gives greater traction on the ice for stopping as the wheels are not locked. The intervals of steering will keep the vehicle from skidding off a crowned road into a ditch.

THE AMERICAN WAY

Where Do We Rush Next?

When the car actually is in a skid, steer in the direction in which the rear end is skidding to recover. When the car begins to straighten out, then also straighten out the front wheels.

6. Keep windshield, back windows, outside rear-view mirrors, and all lights clear of dirt, snow, frost, sleet, and mud.

7. Keep yourself under control. How can you control a car helpless against the forces of nature, if you cannot control yourself. You need all your capacities to think fast and act accordingly.

Scout Exposition Set For Saturday

Bill Morrow, General Chairman, announces the 1964 Scout Exposition to be held on Saturday, March 14, 1964 in the Lubbock Municipal Coliseum. There will be two shows that day, the matinee show from 2:00 p. m. until 4:30 p. m. and that night from 7:00 p. m. until 9:30 p. m.

Mr. Morrow states that some 135 Cub Packs, Scout Troops and Explorer Posts will have booths in the gigantic Exposition. These Scout units are from all over the 20 counties that make up the South Plains Council. Some of the many different booth themes include the following: archery, cooking, camping, emergency service, realistic first aid, survival, rattlesnake burgers, skin diving, nature, pinewood derbys, auto mechanics, astronomy, photography, mountain climbing, boat building, marksmanship, handicrafts, and many many more.

Everyone is cordially invited to the Exposition and admission is 50c. Tickets may be purchased from Scouts in your town or neighborhood, or may be purchased at the door, East Entrance of the Coliseum.

Morrow states also there will be special entertainment originating from the stage on the floor of the Coliseum all during the show, and this will include various types of varied entertainment.

This is a wonderful opportunity for the entire family to have an evening or afternoon at the largest Scout Show ever held on the Plains. There will be plenty to see and do for everyone.

Assisting Mr. Morrow with the 1964 Exposition are the following members of the Exposition Committee: Dan Law, Kenneth Flagg, Glenn Hearn, Harry Porter, Jr., Dr. Carl Page, Tom Kidder, Tom-

my Tarlton, Jack Kastman, and members of the Alpha Phi Omega, Service Fraternity at Texas Tech. Scout units participating will earn money and individual boys may earn various prizes from their ticket sales proceeds.

Mrs. Garland (Irene) Sharp of San Antonio was here last week visiting her mother, Mrs. McCoy, and Mr. and Mrs. Wade Holladay and Charley Mac. She came Wednesday and returned home Saturday.

New Product Is Aid To Farmers

College Station — Anyone who has ever knocked the skin off his knuckles trying to unscrew rusty nuts and bolts on farm machinery will appreciate anti-seize compounds now on the market.

The compounds won't help joints that are already "seized" or "frozen." The idea is to smear the preparation on the threads or joints before installation and avoid trouble in the future.

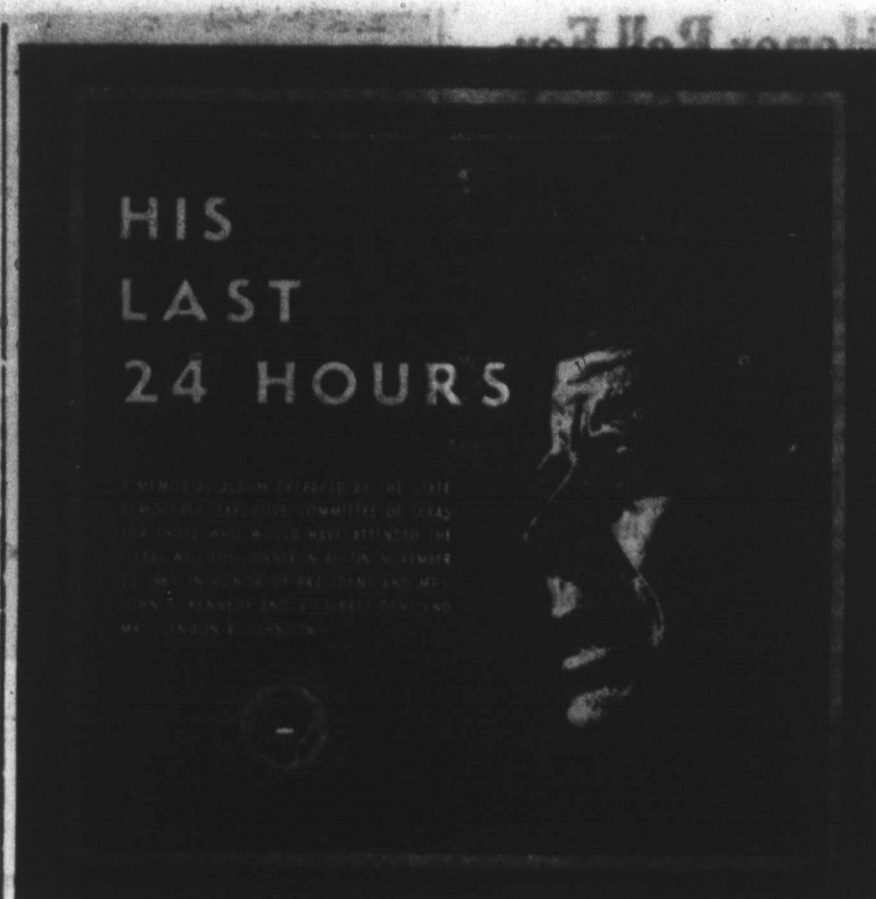

Harold Weideman, assistant professor in the Texas A&M University Agricultural Engineering Department, says rusted bolts on tractor and car mufflers are good examples of two metal parts seizing to each other.

"Those of you who have had experience with liquid petroleum gas (LPG) as a tractor fuel may have experienced spark plug sticking," Weideman pointed out. "This is called spark plug seizing, and is common in airplane LPG and natural gas engines."

He said several companies have developed extremely high temperature-resistant graphite-base grease which will eliminate seizing.

"Some of you may have tried an ordinary grease in one of these high temperature conditions and experienced no benefit. This is the reason for the special formula," the engineer added.

Weideman added that the compounds are still not too common and may require persistence to find.

1964 Bond Sales In Fast Start

Savings Bond sales in Lynn county totaled \$48,183 during January, 20.9 percent of the 1964 goal of \$230,000, according to A. C. Verner, chairman of the Lynn County Savings Bond Committee.

Lynn ranked 13th in the state for percentage of sales during the first month of the new year.

During January, sales of E&H Savings Bonds in Texas totaled \$14,777,595. This represents 9.8% of the state goal of \$150,000,000.

"During the coming few months a great many taxpayers will be eligible for tax refunds from their 1963 income tax. We would like to remind these people that they have the option of taking their 1963 refund in Savings Bonds. There are two big advantages to taking refunds in Savings Bonds. The taxpayer will be more apt to hang on to his refund if it is taken in Savings Bonds, plus the fact that if they keep the bonds until they mature the person receiving the tax refund will get back \$4.00 for every \$3.00. Then too, the purchase of Savings Bonds helps provide for our country's future as well as our own," Chairman Verner stated.

Accompanists for the services will be Mrs. Hazel Bennett, organist, and Mrs. Nan Adams, pianist. The sursey will be open during each service.

Gruber was pastor of the Latvian Baptist Church in New York City and since 1945 has worked as a musician-organist, averaging about 25 revivals a year.

Mauldin Pays Tribute To Farmers In Banquet Talk

Some of those attending the Farmer-Businessman banquet last week thought the talk by Mack Mauldin was so appropriate that they asked The News to publish the text of his speech.

In his talk, Mr. Mauldin pays tribute to the farmer and farming, to Tahoka and Lynn county, and to Bertice Askew of Wells, who was honored as the "conservation farmer of the year." Mauldin will leave soon to engage in another line of work.

Following is Mauldin's talk:

It gives me a great deal of pleasure as possibly my last official act in Lynn county to present this award to the Outstanding Conservation Farmer of the Year.

In 16 years with the S.C.S., I have worked with many people, but nowhere have I enjoyed my work and my association as well as here in Lynn County. You people have been very good to my family and me and I shall always remember you. If I might paraphrase, I will say that you can't take me out of Tahoka, but you can't take Tahoka and my warm memories of you out of me. My

sincere thanks to everyone, especially to the supervisors of the Lynn County Soil Conservation District, with whom I have worked so closely.

I think it shows the spirit of Tahoka that you pause at least once each year to recognize the farmer and what he means to your community. The farmer is an important part of every community, large and small.

Through agricultural efficiency, the United States has achieved the highest dietary level, in both quantity and quality, the world has ever known. The average American family spends only 20 percent of its income for food. The iron curtain countries spend over 80 percent of their total income for food.

Although only about one worker in twelve is involved directly in Agriculture, four out of every ten United States workers have jobs dependent on Agriculture.

Although only eight percent of the population live on farms and ranches, agriculture is still our biggest industry. Agriculture is also our nation's biggest customer.

FRIDAY, MARCH 6, 1964

Rev. John Pistone 160 Attend Cub Scout Banquet, Rotary Speaker Awards Presented Scouts, Leaders

Rev. John Pistone, pastor of the local Mexican Baptist Mission, told of his trip last summer to the Holy Land and showed color slides to illustrate his talk at last week's meeting of Tahoka Rotary Club.

He described the land as being very poor, mostly barren mountains and desert, where flocks barely eke out existence, farming areas very small, some irrigated, but most of the land just as it was in Bible times, even to places of abode. Women still carry water from the wells at the center of town in earthen jars on their heads.

He showed pictures of Bedouin camps and their flocks, the Dead Sea, River Jordan, Bethlehem, Mount of Olives, Gethsemane, Sea of Galilee, Nazareth, and new and old Jerusalem. Part of the city is in Jordan and part in Israel. Most merchandise is still sold on the streets. People still live in the stone houses of Bible times, and even the newer houses are all of stone. Even in old Jerusalem, in Jordan, people still live in the old walls much as they did 2,000 years ago. There is only one passage way from the Arab side and the Israelite side, and the no-man's-land between is mined.

In contrast, he showed pictures of the new city of Tel Aviv, the coast city, where there are scores of apartment buildings, mostly very modern. He said the people there don't believe in Social Security, but the government is trying to solve the problem for the underprivileged by giving these people jobs.

One thing he thought of interest is the progress in education at Tel Aviv. From 6:00 a. m. until 9:00 p. m., school children of underprivileged are placed in special homes, under care of a woman who sees that they get to school, do their home work, etc.

Some progress is being made in farming, and there are huge irrigation projects underway.

In a brief Rotary talk, Dr. K. R. Durham outlined the qualities of a good club president. In a humorous vein, he cited an outstanding quality of each of the 28 past presidents of the local club.

The club voted 41 to 2 in favor of again sponsoring this summer a visit from a foreign student to Tahoka. Harold Green is chairman of the foreign student committee.

In the absence of President Don Browning, Vice President Calloway Huffaker was in charge of the meeting. George McCracken had charge of the program.

J. H. Knight spent a few days of last week as a medical patient in Lamess Hospital.

Cub Scout Pack 782 held its annual Blue and Gold banquet Thursday night, Feb. 27, in the City Legion building, when 160 persons attended.

The tables were decorated with blue and gold treasure chests filled with gold coins (chocolate candy). Favors, menus and programs were made by the boys. H. B. McCord, Jr. gave the invocation before the buffet-style meal, cooked by the mothers, was served to families of the Cubs.

After a sing-song by a number of den, David Rogers read a poem "A Boy in Blue." W. W. Gurley, Cubmaster, assisted by Larry Hagood, assistant Cubmaster, gave awards to the following leaders: L. A. Forsythe, a member-at-large for the Boy Scouts of America, presented the charter for Pack 782 to Horace Rogers, president of the Downtown Bible Class. The adults recognized included W. W. Gurley, Cubmaster; Larry Hagood, assistant Cubmaster; Turner Rogers, Institutional representative; James F. Roberts, Committee chairman; J. D. Atwell, Joe Harvick and H. B. McCord, Jr., committeemen.

Den mothers and assistants registered for this year are Mrs. Maxine Paris, Mrs. Joe Tilley, Mrs. Macky Turner, Mrs. Euella Rogers, Mrs. Jeannine Jones, Mrs. Janie Hagood, Mrs. Darlene Gurley, Mrs. Billie Carr, Mrs. Edward Miller, Mrs. Jean Curry and Mrs. Dorothy Thomas.

One of the highlights of the program was the presentation of a gift certificate to E. B. Gaither, retiring Cubmaster, for a new Scout uniform.

In an impressive closing, Gurley told the history of Scouting and Cubbing, while Hagood lighted 34 blue and gold candles on a three-tiered cake, decorated with Cub Scout ranks, wolf, bear and lion. Everyone sang "Happy Birthday" for Scouting.

Awards presented the Cub Scouts follow: Bobcat pens, Weldon Warren, Kent Elliott, Wolf badges, Tommy Henry, Clifford Laws, John Thomas, Jim Thomas, Dean Rogers, Danny Tilley, Bear badges, Peter Palady, Jeff Atwell, Gary McCord, Gold and Silver Arrow Points, Paul Davis, Carlton Harvick, Lynn Moffitt, Dean Rogers, Jeff Atwell, Peter Palady, Walt Hagood, Leslie Paris.

Dinner badges, Leslie Paris, Clifford Laws, Assistant dinner badges, Ben Carr, Jim Thomas. One year pen, Ricky Gurley. Two year pen, Ladd Roberts, Clyde Curry.

Regardless of what becomes of the cotton-wheat legislation, being argued in the Senate as this is written, the cotton country is being backed up against the wall. Our days are limited unless we get back into the world market. It's possible for Texas alone to produce all the cotton America can use domestically. Some local farmers still say they can't raise cotton any cheaper than it is now. If this is true, they better be getting ready to raise some other crop.

But, one farmer past middle age told us the other day that he

could raise cotton right now at 20 cents per pound and make a good living, if controls were released. He said he'd pull in his belt a little, sell his boat, let his tractor driver off, and make his new car last three or four years instead of one or two.

Only about three or four years ago, cotton was in good shape, and we were cussing "ole man Benson." Our New Frontier Secretary of Agriculture, Mr. Freeman, who made a mess of his home state's finances when governor, still persists on pushing a program of rigid government controls, high prices and fewer and fewer acres. Foreign trade refuses to take our high-priced cotton, and when they do they send products back to us to compete with American cotton mills. American cotton mills are converting to synthetics to meet the competition. Soon, we'll have little need for cotton.

You may think what you like, but, personally, we're a lot more interested in cotton and being able to make a living than we are in partisan politics. And, too, we're a lot more interested in maintaining freedom of choice in America than we are in promoting Lyndon Johnson, or Richard Nixon, or any political clique.

A man with six children is better satisfied than a man with a million dollars. The millionaire wants more.—Santa Fe Magazine.

A man returned to his car to find a freshly crushed fender and this note under his windshield wiper: "Dear Car Owner — The people that saw me crush your fender with my car, and are now watching me write this note, naturally think I'm writing my name and address so you can contact me to pay the damages. But I'm not."

Here are a few interesting facts about cotton we picked up from the Cotton Cooperative Commentator:

In 1932, the average farmer used 229 manhours to produce and harvest a bale of cotton from 2.29 acres; in 1962, he used 54 hours to grow a bale from 1.10 acres.

In 1933, cotton was worth 8.5 cents per pound, rayon 40 cents; in 1963, cotton price was 33.6 cents, rayon 26.6 cents. Cotton prices have risen continually through government controls; rayon prices have come down.

In 1952, the average American consumed 26.4 pounds of cotton

and 12.7 pounds of man-made fibers; in 1962, he consumed 21.6 pounds of cotton and 27.3 pounds of man-made fibers.

The spinner has a weight loss of 68 pounds from a bale of cotton, only 18 pounds loss from 500 pounds of rayon.

The U. S. had a carryover of 7 million bales of cotton in 1961, almost 13 million on entering 1964.

In 1940, Texas had 418,000 farms and 65.3 percent grew some cotton; in 1963, Texas had 210,000 farms and only 35.6 percent were producing cotton. But, production increased one million bales in the 20 years on two million fewer

on us with friendship. Haw! Haw! Haw!

There are several degrees of friendship.

We received the following in the mail, unsigned:

There's a woman who operates a cafe not too far from Tahoka. Evidently, she has rather strong convictions on Civil Rights but still believes in obeying the law which says Colored people must be served in her place of business. Recently, a white man brought two Colored men into her cafe and asked that they be served. The proprietor did not argue the question. She brought out two plates, which she placed before the two Colored customers. When asked by the white man where his plate was, she replied, "The law says I must serve Colored people when they come into my place of business, but it does not say that I must serve the blanket-blank white man who brings them in. Suppose you get your lunch somewhere else." Pretty quick thinking!

Wilmer Smith says there's some more to that picture of him, the "mystery boy," turned in by his brother, Wayman, and run in The News two weeks ago. It seems Wayman gave The News only a part of the picture. The rest showed his older brothers Wayman, Wade, and Walter smoking cigars. It seems that while their dad was away from home, his profligate brothers sold a hen, bought the cigars, and were smoking them when the picture was taken as innocent and honest Wilmer looked on.

"The essence of Communism," shouted the fuzzy-brained theorist, "is to divide with your neighbor."

"No, comrade," whispered the wise old Commie, "the essence of

Communism is to make your neighbor divide with you."

At railroad crossings, here's how to figure: in case of a tie, the engine's bigger.

If Communism is as wonderful as they claim, it looks like they would take down their iron curtain and put in some picture windows.

The world is divided into people who do things and people who get the credit. Try, if you can, to belong to the first class. There is far less competition.

Chevelle 500 6-Passenger Station Wagon

Chevelle balanced performance is best!

Passing, cornering, threading through traffic, sudden stops—Chevelle excels all around! Chevrolet's new surprise package has what it takes to meet any driving challenge: Six or V8 engines, hefty brakes, Full Coil suspension—and a trim size that makes the most of them!

We didn't just cook up a batch of engines for Chevelle and call it performance. You can get performance aplenty—standard 120-hp Six or 195-hp V8 for starters—and optional at extra cost there's a 155-hp Six, a 220-hp V8, even a new 327-cu.-in. V8! But Chevelle's performance means more.

Size, for instance, Chevelle's a foot shorter than the big cars. And the space Chevelle saves in size comes off the ends, not the middle. So it rides like you want a car to ride—comfortably—on a 115-inch wheelbase.

To give you the most out of this engine performance and riding comfort, Chevelle lets you choose Powerglide*, 4-speed manual* or 3-speed manual transmission.

And knowing it would strike the right note with a lot of different people, we gave Chevelle 11 models—in three series. Knowing how people like the custom touch, we wrote out a long list of extra-cost options. What's keeping you from a test drive? Certainly not your Chevrolet dealer!

Income Tax Reduction Is \$130 To Average Family

(Special to The News)
New York — How much more money will residents of Lynn County have in their pockets this year, thanks to the reduction in taxes? To what extent will the local economy move ahead, as a result?

Some people will benefit more than others. In general, there will be bigger cuts in the tax rates for those with large incomes than for those in the lower brackets.

However, the tax cuts granted to those with moderate to low incomes will be very effective as they will be coupled with a new "minimum standard deduction" of \$400 for husband and wife.

In Lynn County, the average saving this year will be approximately \$130 per family, it is estimated. This is based on gross earnings, before payment of taxes, which averaged \$7,810 per household locally last year.

For a married couple with two children, with an income equal to the local average, the new Federal tax will be \$878, following the cut of \$130.

In the case of a family with two dependents and with gross earnings of \$10,000, the tax will be \$1,280, which is \$165 below the present amount.

For those in the \$4,000-a-year class, the new tax will be \$220. That is \$68 less than before.

The total amount that will be saved in Lynn County during the first year, based on the way income is distributed locally, will be approximately \$411,000.

This money, the Government hopes, will quickly find its way to the market place and give business an extra push forward.

Consumer buying would increase, moving merchandise off retail store shelves. That, in turn, would mean that stores would have to place new orders with wholesalers, who would pass them on to factories.

Thus, the Government feels, the added money put into circulation because of the tax cut will build up on itself, producing a cumulative effect several times as large as the original amount.

Nationally, it looks for more job opportunities to be created and for the high unemployment rate to be reduced.

The first concrete evidence of the tax cut will be visible in Lynn county in a short while. Paychecks will reflect a withholding rate of 14 percent instead of 18 percent.

Kind words never die—they just become victims of ingratitude.

mer, buying more rubber, steel, oil, and electricity than any other industry.

Investments in Agriculture total more than 200 billion dollars. This is three-fourths of the value of the current assets of all corporations in the United States. The investment per employee in Agriculture is more than \$21,000; about \$5,000 more than the investment per employee in industry.

To maintain the present dietary level for the expanding population, American farmers and ranchers must produce two and one-half times what they do now by 1975.

No other group has accepted the challenge and risen to the occasion better than our farmers. A good farmer, such as the man we honor tonight, is much more than a tiller of the soil. He is a paradox—He is an executive with his home his office; a scientist using fertilizer attachments; a purchasing agent in a straw hat; a personnel director with occasional grease under his fingernails; a production expert with a surplus; and a manager battling a price-cost squeeze.

He manages more capital than most of the businessmen in town. He likes sunshine, good food, State fairs, dinner at noon, auctions, his neighbors, his shirt collar unbuttoned, and, above all, a good soaking rain in August.

He is not much for dought, gullies, weeds, leaf worms, the eight-hour day, or helping with the housework.

Farmers are found in fields—plowing up, seeding down, rotating from, planting to, fertilizing with, spraying for, and harvesting. Wives help them, little boys follow them, city relatives visit them, salesmen detain them and wait for them, weather can delay them, but it takes Heaven to stop them.

A farmer is both Faith and Fatalist—he must have faith to meet the challenges of his capacities amid an ever-present possibility that a late spring, an early frost, tornado, flood, drought, disease, or bugs can bring his business to a standstill.

He is your countryman — A denim-dressed, business-wise, fast growing statesman of stature.

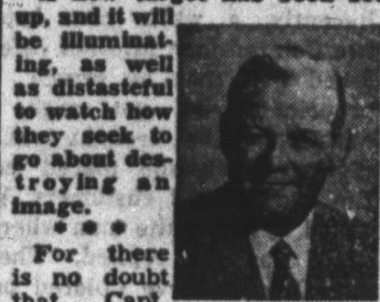

Here in the Lynn County S.C.D., you are blessed with many outstanding farmers.

The man we honor tonight is not only an outstanding farmer, but individual as well. He is an outstanding conservation farmer because he loves the land and carries out the necessary practices needed to care for and protect it. These include proper crop rotation, terracing, contour farming, and wind erosion control. In addition he has grass, cattle, hogs, and chickens. He has a well rounded program designed to meet the hazards that nature can unleash against him.

He is an outstanding man because he thinks not only of himself, but of his community. He

WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

One of the most distasteful attributes of contemporary American life is found in the program of planned character assassination waged by the avant garde of the left wing whenever a target presents itself.

C. W. Harder

A new target has been set up, and it will be, hummaling, as well as distasteful to watch how they seek to go about destroying an image.

For there is no doubt that Capt. Eddie Rickenbacker, the flying ace of Americans in World War I has long been a hero of youth.

Thus, he is a perfect target. For in his long cold dawn patrols over Flanders in insecure flying contraptions of that day he demonstrated to the world that American courage and resourcefulness demands respect. And thus he is a target, because in the eyes of the left wing, old fashioned patriotism, backed up with action, is not a desirable thing to flaunt before the world.

In World War II, although behind the age when most men engaged in military activities, he again served his nation. And in the course of so doing, he was set down in the South Pacific with others in the aircraft crew and survived a long, arduous and tortuous ordeal in an open raft before rescue.

And his unwavering belief in a Supreme Being is credited with being the major factor in

inspiring the others to hang on until help arrived.

Thus, he is a perfect target. Because to the strange mind of the left winger it does not set well for Americans to openly profess a belief in the Almighty. It might disturb the atheistic mentality of the communists, and give an image to the world that America is composed of God-fearing people.

And then of course there is the real shocker in Capt. Rickenbacker's background. He entered into the competitive hurly burly of the air transportation business, starting in its pioneering era, and developed quite a successful, efficient airline.

Thus, he is a big target, because with the same courage and determination that marked his heroic service to the nation, he built a successful business. No left winger likes anyone who can build a business.

And now Capt. Rickenbacker has retired to spend the years left to him by the Providence he believes in to promote the renewal of the American spirit of free enterprise patriotism.

He believes in the American system. He is opposed to foreign give aways. He is opposed to giving away American sovereignty.

In short, from left wing viewpoint, he is a dangerous man.

But in the months ahead as the smear campaign mounts against Capt. Rickenbacker, it will be important to bear in mind that he backed his beliefs with courage. He was a "doer." Let those who criticize come up with a comparable record.

development. He has always been active in Lynn county livestock shows, 4-H club work, his church, his school. He is a friend of Conservation both on and off the land. He is married and has three children.

DRAPERS VISIT HERE
Mr. and Mrs. A. E. Draper and son, John, were here last week end visiting. They bought a place between Comanche and Rising Star which they moved to a couple of months ago. A. E. says he has some livestock, plans to plant some coastal bermuda grass, farm only about 80 acres, and spend a little more time fishing. He has a creek running through his place from which he can do a little irrigating if he decides to do so.

Mr. and Mrs. W. A. Ledbetter are home again after having spent four weeks resting at Port Aransas, on the Texas Gulf Coast. W. A. says the fishing was good and the rest helped his wife.

There are about 600 species of mantis. Greeks believed this insect to be studying the future so they named it "mantis" meaning "diviner." Moslems asserted that it prayed with its face toward Mecca.
