## Muleshoe Couple Celebrate 59th Wedding Anniversary

Mr. and Mrs. M. T. Simmons of Muleshoe had all their family at home last Wednesday as they observed their fifty-ninth wedding anniversary.

Their four children, a son and three daughters, and their 4 grandchildren and 8 great-grandchildren, all were here.

They were married Sept. 30, 1900 in Williamson County Texas. They moved to Muleshoe about five years ago.

The children are J. D. Simmons of San Diego, Calif.; Mrs. Ethel May, Denning, New Mex.; Ruby Hanks, Modesto, Calif.; and Mrs. T. J. Cox, Clovis, New Mex.

Mr. and Mrs. R. C. Cline of Muleshoe, and E. L. Jackson of Muleshoe, close family friends, were special guests for the noon lunch, as the couple cut their three tiered wedding cake.

## Study Given For Sewing At High School Wed.

Marie and Harvey Bass conducted the classes in Home-making at Muleshoe High School, Wednesday the 9th.

Mr. Bass instructed them on the care of sewing machines. He told them the machine needle was the cause of 90% of their troubles. He explained the various parts of the machine, and the importance of making proper adjustments and keeping it clean.

Mrs. Bass demonstrated the zig-zag stitches, worked buttonholes, and bound buttonholes.

They conducted four classes, with 65 students for first, second and third year students.

Sponsors of the program were the homemaking instructors in high school, Mrs. Rose Hurd and Mrs. Dean Bradley.

Nelda Redwine, retiring Worthy Advisor, acted as installing officer. Those assisting here were: Jo Adline Mayhugh, Past Worthy Advisor; Sandra Mason, Past Worthy Advisor, Recorder; Sandra Allison, Past Worthy Advisor, Chaplain; and Pat Barrett, Musician.

"Somewhere Over The Rainbow" was very beautifully sung by Mrs. Inez Bobo, and an appropriate reading, dedicated to her officers, by Dolores, was given by Mag Ann Lamb.

After the officers were declared installed, Mr. and Mrs. Vance Wagnon were presented behind the Bow, conducted to the East and introduced. They were extended a lovely courtesy, by their daughter, pinning a corsage and a boutonniere and thanking them for their love and encouragement, during her years in Rainbow.

Others presented behind the Bow and introduced were: Mrs. Mildred Wingo, Worthy Matron of Muleshoe Chapter No. 792, O. E. S. Past Worthy Advisors: Jo Adline Mayhugh; Sandra Mason; Sandra Allison and Nelda Redwine, Past Mother Advisors; Janet Wagnon; Lavonne Hinkson; Capola Goods; Jewell Strong and Josephine Wood.

Members of the Advisory Board: Vance Wagnon; Janet Wagnon; David Anderson; Mary Farley; John Thomson and Doris Brown.

Lovely gifts of appreciation were presented by Dolores to her installing officers and those having parts on the program. The Past Worthy Advisor's pin was presented to Nelda Redwine, in a beautiful manner, at the Altar. The Benediction was given by Rev. Edwin Hall, Minister of the Muleshoe First Methodist

DOLORES WAGNON

In a beautiful and impressive Open Installation Ceremony, Dolores Wagnon, daughter of Mr. and Mrs. Vance Wagnon, was installed as Worthy Advisor of Muleshoe Assembly No. 161, Order of the Rainbow for Girls, Monday evening, October 5th, in Muleshoe Masonic Hall. Other officers installed were:

### Engagement Told

**THERESA JESKO**

Mr. and Mrs. Matt Jesko have announced the forthcoming marriage of their daughter, Miss Theresa Jesko, to Duane Albracht, son of Mr. and Mrs. C. J. Albracht. The marriage date has been set for October 31 in St. Anthony's Catholic Church in Hereford.

The bride-elect was graduated from Lazbuddie High School and attended Lamar Technological College at Beaumont. She is presently employed at the State Department of Public Welfare in Hereford.

The prospective bridegroom attended Hereford schools and is presently engaged in farming. The couple plan to make their home at 410 Avenue J in Hereford.

### Lovely Lady Is Speaker At Sorority Meeting

Members of the Epsilon Sigma Alpha Sorority met Tuesday, October 6 at 8 p.m. in the home of Mrs. Robert Copeland.

This meeting was a model meeting to acquaint the prospective members with the purposes and activities of the chapter.

Karl Lovelady was guest speaker for the group speaking on his trip to Alaska.

Guests were Mrs. Don Sumrow, Mrs. E. V. Bartlett, Mrs. John McGuire and Mrs. Dale Krebs.

Members attending were Misses: Robert Alford, Leland Bouldin, James Glaze, Herbert Griffiths, Robert Hooten, Donald Moore, Kenneth Preure, Jim Small, Roy Wrinkle, Jim Gaede, Carl Bamert and the hostess, Mrs. Bamert assisted Mrs. Copeland with hospitalities.

Church.

Miss Kay Wilson presided at the Guest Register.

Decorations in the Hall were beautifully carried out in Dolores' colors of pink and gold. A large, open Bible, adorned with pink carnations and inscribed in gold, was placed on the Recorder's desk. Large floor baskets of pink Dahlias were in the East and West, and bud vases of pink carnations were on the pedestals of the Color Stations. These colors extended to the exquisite formal of pink ruffled net, worn by Dolores. As a finale to this lovely affair, delicious refreshments of pink punch and the traditional rainbow cake were served by Dolores and Nelda, from a perfectly appointed table, to about fifty guests.

### Area Workshop For A. A. U. W.

TERESA CATHELENE CLINE ARRIVED SEPT. 28 Mr. and Mrs. Ray Cline, of Lubbock are parents of a girl, Teresa Cathlene, born Sept. 28 in West Plains Hospital here. Grandparents are Mr. and Mrs. Fred Horn and Mr. and Mrs. R. C. Cline, all of Muleshoe.

Little known facts about Texas boundaries.

(Editor's Note: Attorney General Will Wilson goes to Washington Oct. 12 to fight another border battle for Texas when the tidelands case will be heard before the U.S. Supreme Court.

(This is the first in a series of articles outlining the numerous boundary conflicts dating back to 1716, pointing up little known facts which shaped the Texas of today.

(The following is released as a public information service by the Attorney General's Department.)

The Texas boundary line stretches over some 4,000 miles and a sizeable portion of it has been forged and tempered in the fiery heat of conflict.

Attorney General Will Wilson is in one of these battles now with the Texas tidelands issue before the U.S. Supreme Court.

Since 1716 to this good day its location has been fought over.

The Attorney General, a dedicated Texas historian, looks at the overall picture.

"The cold facts are, regardless of motive, that down through the years there has been bite after bite attempted on our territory," Wilson says.

"The worst and most tenacious of these land biters has been the federal government." The first conflict arose along the East Texas-Louisiana line between the kingdoms of Spain and France in 1716.

Both nations claimed the Texas area. Each had military forces ready to take action. While the diplomats wrangled overseas, the French and Spanish on the spot settled the dispute. They agreed on the Arroyo Hondo, a tributary of the Red River between the Sabine and Old Natchitoches.

Then, in 1803, the United States bought the Louisiana territory hazy as to the extent of land involved.

President Thomas Jefferson claimed the Rio Grande as the western boundary.

Spain contended it did not extend west of Los Adaes, a Spanish mission on the site of present day Robeline, La.

As a result U.S. troops moved into Louisiana, drove the Spanish from Los Adaes and made general preparations for war. Again local men of war hammered out an agreement.

The Spaniards would keep west of the Sabine River and the Americans east of the Arroyo Hondo.

"This created the famous 'Neutral Ground,' a strip between Arroyo Hondo and the Sabine, responsible to no one," Wilson points out.

"Overgrown with dense pine forest this was a natural refuge for some wild characters—adventurers, fugitives and outlaws. They played for keeps.

"The wildness is gone now but the old neutral ground has generated a tradition all its own and a breed of independent people whose names and deeds wrote Texas history."

"Today trees cut from the old neutral ground are used to make paper for Time, Inc., a national weekly magazine with its own tar brand of independence. The natives grin and say that the spirit of those first Texas tourists seem to soak right through the paper into the print of Time."

Kinsmen of these neutral ground settlers "borried" a cannon from the Mexicans. When they demanded its return, the Texans loaded it with powder and the undisputed authority of horseshoes, raised the flag with the dare "Come and Take It," and fought the battle of Gonzales.

In 1819 diplomats finally signed a treaty settling the boundary between the United States and Spain—the western banks of the Sabine to its intersection with the 32nd parallel and then due north to the Red River.

Congress in 1848, moved the line from the river bank eastward to the Sabine River's middle channel where it lies to this day.

However, Wilson observes: "Before this line was moved to the middle of the river it ran along the western bank of the Sabine to a point near Southeast of Carthage, went north overland until it reached the Red River."

"Congress moved the river running portions of the line eastward to mid-stream with no provision as to what course it would take northward from the Carthage area overland to Red River."

"Consequently there is a strip of land about 150 feet wide and some 70 miles long between Texas and Louisiana that the turn of events has left shadowed with doubt," Wilson points out.

"The famous Neutral Ground was a natural refuge for adventurers, renegades, fugitives." Will Wilson points out.

BUYS PUREBRED MILKING SHORTHORNS

J. T. Atkinson, Muleshoe, has purchased Hartsdale Texas Major P269742, a bull calf, from Dale & Laura Hart, Friona, Texas.

The new animal is a purebred Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

### GIRD FOR ANNUAL SAFETY DRIVE • Junior Fire Marshals Organized Here For School Youngsters

Muleshoe Junior Fire Marshals, along with some four million fellow members of this nationwide fire prevention brigade, take up the cudgels for fire safety here with a flurry of activities beginning Oct. 5 to highlight National Fire Prevention Week.

The upcoming Junior Fire Marshal program will emphasize the fundamentals of fire safety in the home and at school, according to James Jennings of the Jennings Insurance Agency. His agency sponsors the year-round program locally in cooperation with the city elementary schools and the Fire Department under Earl Ladd, fire chief.

"The Junior Fire Marshal brigade of 8-to-10-year-old grade school youngsters is the largest and one of the most effective fire prevention groups in the country today," Mr. Jennings declared. "Cre-

ated nationally in 1947 by the Hartford Fire Insurance Co., the program already has trained more than 30-million boys and girls in the fundamentals of fire safety — instilling in them safe habits they will carry with them through life."

Mr. Jennings cited the importance of this public service program for school children by pointing to the staggering losses from fire last year. "Here in the U.S., more than \$1-billion in property went up in flames," he said. "An estimated 11,500 persons lost their lives — nearly one-third of them, children under 14."

Keystone of the program is the home inspection report. To qualify as a Junior Fire Marshal, youngsters must make a fire hazard check of their own homes, complete the inspection report and return it, signed by their parents, to their teacher.

The sweeping elegance of the newly created silhouette of the Series Sixty-Two six-window Sedan typifies the handsome lines and simplicity of design of the 1960 Cadillac. The popular six-window Sedan features all of the advanced engineering and design characteristics of the new models.

### Crippled Children Program For Rotary

Dr. W. E. McSpadden brought the program at the Rotary Club's Tuesday luncheon with the general subject of crippled children, discussing hospitals where they may be treated and means to have a child admitted for treatment.

He told about crippling polio, cerebral palsy, injuries at birth and the various developments of medical and surgical research for mitigating the effects of such injuries. He also discussed mental retardation and told of the work of some schools in teaching the mentally retarded child to become a useful person by trained use of the hands.

Gordon Doss, chairman of the club's crippled children committee, was in charge of the program. A guest was Tommy Thomson, outstanding senior student in the high school. Directors of the club are to meet and decide about a float in the Christmas parade planned by a Chamber of Commerce committee.

The club will be represented at the annual inter-city meeting of Rotarians, sponsored each year in Lubbock by the Rotary Club there, and to be held this year on Oct. 20.

### Reports Heard By Rebekahs Tuesday

Mary Murrell, N. G., of Muleshoe Rebekah Lodge 114, met with nine members for the regular session held Tuesday night.

After the business session the group heard an interesting report given by members who attended the Hereford meeting where the State president was present, also a report by the committee on the scrapbook, which has had a good start.

Team captains would like to have all members present at the next meeting.

Ina Owen, reporter.

### WOMEN'S GROUPS WIN STATE SAFETY AWARDS

AUSTIN — Four women's organizations in Texas won Certificates of Merit in the 1959 Carol Lane Awards for Traffic Safety, the Texas Safety Association announced.

The awards went to the El Paso Woman's Department, Chamber of Commerce; Women's Auxiliary to the Tarrant Optometric Association and Women's Auxiliary to the Texas Optometric Association, Fort Worth.

Also, McAllen City Federation of Women's Clubs and the San Antonio Council of PTAs.

The awards, named for the women's travel director of Shell Oil Co., are the only national recognition given women and women's organizations for accomplishments in traffic safety. They are presented for significant contributions to the preservation of lives through development and direction of effective traffic safety programs. The awards are administered by the National Safety Council through a Shell grant.

This home inspection report appears in the fall issue of the Junior Fire Marshal magazine which will be distributed by the Jennings Insurance Agency to school children here, Mr. Jennings said. Those who complete their home reports fully and accurately will receive official Junior Fire Marshal signet rings, and red plastic fire helmets.

Mr. Jennings said that elementary grade school teachers here will receive special teaching materials from his agency as aids to classroom fire prevention studies. A special feature is a classroom honor roll form where the names of boys and girls who have qualified as Junior Fire Marshals can be posted.

Schools that earn satisfactory home inspection report records receive silver and red achievement award banners from the Hartford Fire Insurance Co. for display in the classroom, said Mr. Jennings.

He urged all parents to cooperate with Junior Fire Marshals, help make Muleshoe a safer place to live.

### It's The Law In Texas

Agents Necessary In Business

Practically all business transactions of every kind depend upon the services of agents of one kind or another. Your insurance man is an agent and so is the man who sells you real estate, or delivers your groceries, or drives your bus. There are just a few examples and each under the law of agency is somewhat different.

But they have in common the idea that, in some way or another, they represent or act for someone else. The person or corporation for which they act is known as the principal.

Generally speaking, there are two broad classes of agents — special agents and general agents. For example, suppose you wish to sell your house and you engage a realtor to handle it for you. He is a special agent who represents you in this transaction alone.

principal is liable.

Very often difficult legal questions arise as to whether the conduct of the agent was within the "scope of his authority," and thus binding upon the principal. For example, suppose the grocer's delivery boy while enroute to a customer's home, and despite the grocer's instructions to stick to business, decided to go a mile or so out of his way to see his girl about a date that night. He drives through a stop sign and hits a pedestrian. Is the grocer responsible for this?

Though this is one of the areas of the law that can be very complex, at the same time it is one of the areas of the law where fairness, common sense, and common understanding are most important.

(This column, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Mr. and Mrs. T. J. Wilkerson of Muleshoe also visited in the D. S. Fowler home last Monday evening.

On the other hand, if you were to be absent from the city for a long period of time and have business affairs to be cared for, you might grant a power of attorney to a close associate to act in your place as fully as if you were present.

He would be your general agent and could use his own judgment and discretion in conducting your affairs without consulting you as to what should be done with any old or new problems that might arise.

However, the principal is responsible for the conduct of his agent, either general or special, if the agent is in the process of doing what he has been hired to do. Thus, if the agent is acting within his "scope of authority," and someone is injured through the agent's negligence, the

agent is liable for the injury.

# Bobcats Roll Mules

The Muleshoe Mules showed a lot of hustle and fight, holding the Dimmitt Cats scoreless for the first quarter and a good part of the second, but had breaks seemed to jinx them. Dimmitt's first three scores came on quick breaking plays that set up their TDs.

Muleshoe kicked, Dimmitt took the ball on the 20 and moved it up field to the 35. They made no gain on first down, then set up a new series with a 10 yard drive. They then made 5, but lost 2 on second down. Another play made 3, then Muleshoe was offside, which gave the Cats a first down.

On a new series Dimmitt got off three 4 yd runs for 8, then made 8, missed a pass, and came back for 6 and another first. Barron stopped the next run 5 behind the line. On a fine drive, the next run was stopped after 9 gain when the fast Negro back fell over his blocker. Black and Campbell charged through to set back third down for 1 loss, but Dimmitt was offside. They attempted a fourth down pass, which was no good and the Mules took over on their own 14.

Black picked up 6, Walker 3, and then Young 3 for first down. Oliver made 5, made 10, and then Walker made 10, ran it out instead and picked up 30 and a first down. Young made no gain on a play, that ended what seemed a very quick first quarter.

Oliver hit the line for no gain, came back and lost 2 yards and a Mule offside was refused. Then they kicked out of bounds on the 15.

Dimmitt made 3, then 7 for a first down. Then 8 yds., a pass failed, and they picked up 3 more for a first down. On first down they picked up 6, then passed for 18 yds. Another pass made 10, and a third 3. Another pass made 22 but Dimmitt was guilty of illegal use of the hands.

A pass failed, and Dimmitt was offside. Two more Dimmitt passes completed, but each time their right end was too anxious to get down field, and were penalized for being offside. On a fourth pass play, which was completed for 5 yards, they were offside again, but Muleshoe refused, bringing up 4th down. They punted into the end zone, which would have given Mules possession on the 20, but a Mule committed a personal foul, and the 15 penalty gave Dimmitt first down on the Mule 15. The next two plays they piled over for a touchdown. They attempted to pass the extra point, but failed giving them a 6-0 lead in the game.

Oliver took the kickoff after the score on the 5, fumbled it, picked it up and drove up to the 27, but it was ruled he was down on the 10.

Oliver made 4, and Young 3, but he fumbled and Dimmitt covered on the 18.

On first down Dimmitt made 13, but instead took a 15 yard clipping penalty. A Dimmitt pass was good for 18 all the way across the line, but was nullified with a 15 yard penalty for having an illegal receiver down the field. A pass was good for 6, then 24, and again for 13, giving them a first down. First made no gain, second got 3, and again for 3, and a TD. They passed to get the extra points, but it was no good, and now they led by 12.

Gilbreath took the kickoff on the 10, bobbled the ball, then moved up to the 14. A Muleshoe pass was incomplete, and the Mules should have taken a 15, but drew 9 instead, which was half way to the goal.

A pass was no good, and Walker picked up 2 as the first half ended.

Muleshoe received after the half. The first kick was not to the officials liking, so they kicked over. Mules took the ball on the 20 after it rolled into the end zone. Black lost a yard, and Oliver made 2. Then a pass was intercepted on the 41.

Dimmitt made 6 and then 8 for a first down. A pass made 11 and another first. Then runs of 6, 3 and 2 yards produced another first down. Then a run of about 6 made them another score. They passed but missed making the total score 18-0.

On an onside kick Barron took the ball on the 40. A pass from Oliver to Walker, in a sensational catch was good for 60 yards gain and a touchdown. The try for point was no good, as Muleshoe had illegal motion on the snap of the ball.

This made the score 18-6. They kicked off after score. Dimmitt took the ball on the 20, ran it out to the 36. They ran for 6, 0 and then 5 gain and a first down. A pass was no good, they ran for 5, then for no gain, then made 7 but fumbled and the Mules covered but the officials ruled it a dead ball.

Oliver carried the ball 7 times for 45 yards net gain. He initiated 20 passes to Walker, 1 for 60 and a TD and 1 for 26 gain.

Black carried the ball 7 times for 18 yards net gain.

Walker carried 5 times for 17 yards gain, but on another try he lost 15 yards, giving him net yardage of only 2. He caught 2 passes, one for 60 and TD, another for 26, and Young carried 6 times for 9 gain. Dalton 1 for 5, and Gilbreath 1 for no gain. Young completed 3 passes for 16 yards gain.

Black was the big gun on defense, getting 19 tackles and assists. Also Camp, Hawkins, Barron and Hawkins pulled down several tackles and it almost every defensive player was in on one or more tackles.

First down produced no gain, the next run made 3, and a pass made 17 and another first. They then ran for 7, 0 and 3 and another first which ended the quarter.

The first play after the quarter Dimmitt was offside, then they ran 11 for a touchdown. The pass for conversion was no good.

Walker took the kickoff for the Mules on the 10 and moved upfield to the 25. Gilbreath made no gain, and a pass was no good. Then Young connected with Dean for 15 and a first down. Another pass attempt was intercepted on the 45, and Dimmitt carried it all the way. Attempted to pass for extra points, they failed making the score 30-6.

Oliver took the kick on the 10 rolled up to the 30. Black made 3, fumbled and covered. Walker got trapped after bobbling the ball and lost 15 yards. Third down made no gain, and they punted to the 43.

Dimmitt made 3, then on second down fumbled and recovered losing 3. Next play produced 3 and they punted to the 20. Walker took it there, fumbled and covered on the 25.

Dalton made 5 for the Mules, and Young passed to Walker for 1 gain. Black picked up 4 and a first down.

Young made 1, Walker 3, and Oliver hit Walker with a pass good for 26 and a first down. Walker made 2, Block 0, then Black made 7, but the Mules were offside. A pass failed, and then the Mules were given a 15 yard pass as interference was ruled.

Young hit Gilbreath at the line, but he could not gain after the pass. An illegal substitution cost the Mules 5 yards.

Once again the Mules were given the ball with 20 yards gain, when interference was ruled, setting up first down and goal to go. Young made 1, Oliver 6 putting the ball on the 1 inch line. Young plowed over for the score. The kick for point was missed making the score 30-12.

They kicked to the 10 and Dimmitt ran it back to the 50. Two passes failed, and the clock ran out giving Dimmitt a 30-12 victory.

Young hit Gilbreath at the line, but he could not gain after the pass. An illegal substitution cost the Mules 5 yards.

## Farwell Scores Fifth Win Of Season Friday

The Farwell Steers of 3A continued to roll, plastering Ft. Sumner Friday night 40-18.

Farwell's four backs, Lovelace, Dial, Huggins, and McDorman all got in the scoring act, and the combination was a mass of strength that the New Mexicans could not cope with.

Four touchdowns were made by the two teams in the last 10 minutes of the game.

## Olton Lucks Out On Hereford 14-13 Friday Night

The Olton Mustangs upset the Hereford team Friday night by beating them 14-13 on their own field.

Hereford almost made it, scoring a 60 yard run late in the fourth quarter, that would have put them ahead but it was nullified by a clipping penalty.

The running and kicking of Robert Priest was attributed as a great factor in the Olton win.

## Lazbuddie Rolls Wilson In Mud Friday 16-0

The combination of Jennings and Savage was more than the Wilson Mustangs could stop Friday night, and the Lazbuddie Longhorns rolled past them 16-0.

The start of the game was delayed by drenching rains, but once they got it under way, they looked horns.

It was in the third period before the horns got rolling. Savage scored from 35 yards out. Later another fleet Lazbuddie back, despite the mud, plowed 40 yards for a score. Both 2-point conversion plays were passes from Jennings to Savage.

The Longhorns managed to shake Wilson loose from the slippery ball eight times, while losing it themselves 3 times.

Wilson cost the Mules 5 yards.

Once again the Mules were given the ball with 20 yards gain, when interference was ruled, setting up first down and goal to go. Young made 1, Oliver 6 putting the ball on the 1 inch line. Young plowed over for the score. The kick for point was missed making the score 30-12.

They kicked to the 10 and Dimmitt ran it back to the 50. Two passes failed, and the clock ran out giving Dimmitt a 30-12 victory.

Young hit Gilbreath at the line, but he could not gain after the pass. An illegal substitution cost the Mules 5 yards.

## Raiders Heavy Underdogs For Saturday's Game With TCU Frogs

LUBBOCK — Huge, aroused Texas Christian University is heavily favored to snap Texas Tech's amazing three-game winning streak in Jones Stadium at 8 p.m. Saturday.

Coach DeWitt Weaver's main hopes for an upset were based on TCU's riding high and suffering a let-down. But the Horned Frogs have lost to Louisiana State and Arkansas after edging Kansas in the season opener and are sure to rebound against the light, inexperienced, and numerically inferior Raiders.

TCU, which sports a line heavy enough for the professionals, has a starting backfield that is heavier than Texas Tech's 197-pound line. Texas Tech, considered in pre-season ratings so weak that it could lose its first three contests, has come up with three straight, come-from-behind victories. The Red Raiders have beaten Texas A&M 20-14, Oregon State 15-14, and Tulsa 8-7. TCU's scores were 14-0 over Kansas, 0-10 to LSU, and 0-3 to Arkansas.

## Springlake Not Strong Enough For Seagraves

The stubborn Springlake Wolverines hung on tenaciously, but finally fell before the tough Seagraves team Friday night 30-22.

Seagraves scored in the first quarter, but Robert Cortez of Springlake put his team back in the game in the second as he passed to Darrell Barlow for a TD. But then in the third Seagraves covered a fumble and scored again, and from there they continued to roll.

This gave Seagraves a 4-1 record, while with Springlake it is the other way around, 1-4.

Next week they will be host to Amherst.

## Friona Takes Out Unbeaten Sunray

The Friona Chiefs thrilled a stadium-packed Homecoming crowd last Friday night by rolling the previously unbeaten Sunray team 28-22.

Playing in the rain and mud, the game was not decided until the final whistle sounded. The Chiefs took a 14-8 half-time lead, and were ahead 28-14 midway the fourth period, but Sunray came back to score once, and almost had another, which could have given them the victory.

With seconds on the clock Friona fumbled deep in their own territory. Sunray tried several passes, but did not connect.

## 3-Way Clobbers Spade 'Horns 39-0

The Three Way Eagles had a good night Friday, as they rolled the Spade Longhorns 39-0.

Spade had a young inexperienced team, and they did not give the Eagles too much trouble.

Three Way goes to Hart Saturday night where they will tangle with Nazareth. The game will begin at 7:30.

## Sudan Edges Portales Rams Friday 12-8

In a slow, fumbling game, the Sudan Hornets finally won a 12-8 victory over Portales in Sudan Friday.

Sudan made both of their scores in the second quarter. Portales got its score midway in the fourth.

Sudan had one 64 yard drive, going all the way, called back on a clipping penalty.

Coffee and doughnuts in cafeteria following game.

Mrs. V. J. Sigman is acting publicity chairman.

## Morton Indians Win Fumbling Contest At Idalou

The Morton Indians scalped the Idalou Wildcats in a close mud-packed game in Idalou this past week.

Indians lead come in the third quarter when their ace, Butch Nairn, ran 53 yards for a TD.

The game was highlighted by fumbles, blocked punts, and incomplete passes, played much of the time in the rain.

Idalou got to the Morton 23 once, but fumbled.

## Floydada Rolls Past Lockney Friday 33-0

The hard-hitting, fast-running Floydada Whirlwinds blew up a storm Friday night, and swept Lockney off their feet 33-0.

The whirlwind racked up 13 points in the first quarter, and coasted from there on in.

Big Don Vickers was the wheel for the Winds and was backed by Bill Gilliland and Rodney Teague and Shipley.

Lockney just never could get their yard-making machine rolling.

Mr. and Mrs. Frang Griffith made a business trip to Anton Chico, N.M., near Las Vegas, Thursday.

in the fourth.

Sudan had one 64 yard drive, going all the way, called back on a clipping penalty.

## The Abernathy Antelopes Outrun Spur Bulldogs

The Abernathy Antelopes ran away from the Spur Bulldogs Friday night, upsetting them 12-0.

Aubrey Smith was the workhorse for Abernathy, hitting the Dogs like a bolt of lightning. It was played in the rain and mud.

Smith electrified the rain-drenched crowd on the first offensive play of the game when he raced 49 yards around right end, being pulled down at the 22. Two plays later they scored.

The Antelopes sacked the game up in the fourth quarter when they put on a sustained drive, making 74 yards in 16 plays, and scored with 2:13 left on the clock.

Abernathy piled up 211 yards rushing and 64 passing while the Bulldogs had only 65 rushing and 42 passing.

## ENMU Greyhounds Put Game On Ice Early Friday

PORTALES — Eastern New Mexico's football Greyhounds took a tip from the weather, man and struck with lightning-like rapidity for four first-period touchdowns and then held on for a 31-14 victory over Washburn University last Friday night. The game, played after three days of rain, was in Portales.

The Greyhounds needed only four plays to get their first TD—a 15-yard pass from quarterback W. A. Moore to half-back Dick Billeison. One minute later, halfback Gary Braden took a lateral from fullback Ray Valentine and slithered 61 yards for the second score.

Braden scored the third TD with a seven-yard run up the middle and Moore scooted 38 yards for the fourth first-period score.

The Hounds amassed 326 yards rushing — their high for the three games this season — and added 89 yards passing.

Except for a 46-yard scoring play by Washburn fullback Tom Harrison, and a 40 yard non-scoring gallop by half-back Bruce Backus, the Greyhound forward wall contained the vaunted Ichabod running game to a total of 206 yards rushing.

This week the Pack will fly to Cal Poly to meet the strong Mustang eleven of coach Leroy Hughes. The Mustangs were among the top ten favorites in pre-season polls and except for a demerol at the hands of Montana State last week, should be among the top ten at the end of the season.

The Antelopes sacked the game up in the fourth quarter when they put on a sustained drive, making 74 yards in 16 plays, and scored with 2:13 left on the clock.

Abernathy piled up 211 yards rushing and 64 passing while the Bulldogs had only 65 rushing and 42 passing.

Spur made 9 first downs, Abernathy 12.

# A WONDERFUL NEW WORLD OF FORDS FOR 1960

## FINEST FORDS OF A LIFETIME

This new Ford Galaxie, like all the new, beautifully proportioned 1960 Fords, is styled from a new viewpoint. Traditional automotive elegance combines with modern design in the style of a new decade!

In 1960, for the first time in history, your Ford Dealer presents not one, not two, but three new lines of Ford cars . . .

1. The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View, worth more from every Point of Value!
2. The 1960 Falcon—The New-size Ford, the world's most experienced new car and the easiest car in the world to own!
3. The 1960 Thunderbird . . . The World's Most Wanted Car!

## Introducing the New-Size Ford . . . the 1960 Ford Falcon

Meet the New-size Ford—the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car . . . powered to pass and climb like a "big" car . . . and built like no other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 5 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column—not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's . . . and see the difference!

Now you can see them—the Finest Fords of a Lifetime! Economy-minded Fairlans. Big value Fairlane 500's. Elegant Galaxies. A breath-taking new Sunliner convertible and a brand-new hard-top model, the flashing Starliner. Then there's a whole new world of Station Wagon Living, too. It all adds up to 15 glittering variations of the Ford's newest, most elegant styling theme!

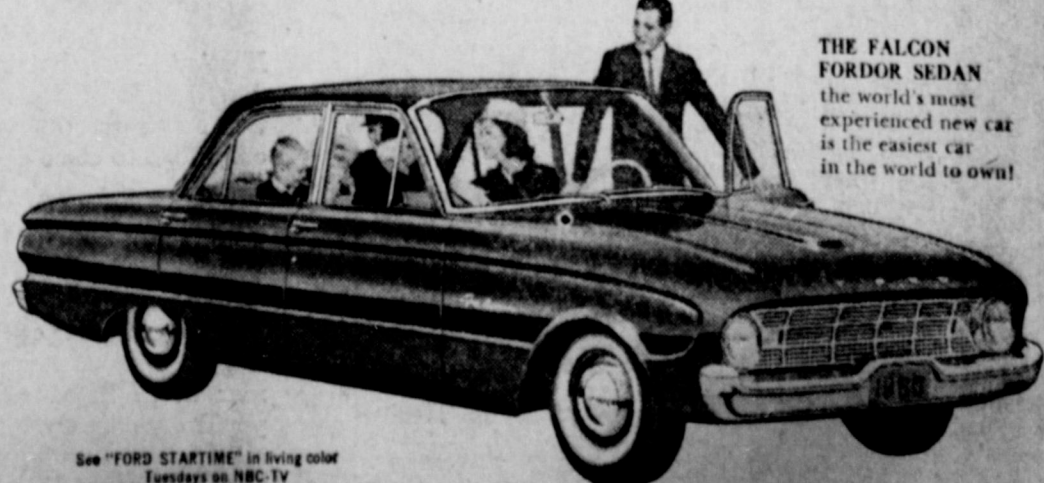

And Ford sets the new trend in power. Ford's Thunderbird 292 V-8 and 352 V-8, like the famous Mileage Maker Six, bring a new world of smoother, hotter performance—on regular gas.

To top it all, the Finest Fords of a Lifetime are priced for savings. Ford is still priced to outvalue all comparable models of its major competitors.

Ford savings, however, only begin with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful . . . a Full-Flow oil filter that lets you go 4,000 miles between oil changes . . . Diamond Lustre Finish that never needs waxing . . . aluminum mufflers that normally last twice as long as conventional types . . . new, safer, Truck Size brakes that are the biggest ever in Ford's history . . . and new soft tread, Tycex cord tires that run quieter, last longer.

In every way these are the Finest Fords of your Lifetime! See them at your Ford Dealer's!

## Parmer County Farm Bureau News

"I hope that you will be blessed. Be good citizens of your country. But be true to your convictions. God lives, I know that he lives — that Jesus is the Christ, the Redeemer of the world. Be not afraid and keep the commandments." U.S. Secretary of Agriculture Ezra Taft Benson spoke these words to a group of Russian church people a few days ago. We believe they are worthy of serious consideration by the peoples of all the world, including Americans. Such words as these are more important than words on any other subject in the world.

This Thursday night is the night of the eleventh annual convention of the Parmer County Farm Bureau in the Bovina Auditorium. We hope you'll be there.

Farm Bureau and all other farm organizations except one testified against the U.S. Labor Department's proposed regulations of wages, hours and housing and transportation of migrant farm workers. The National Farmers Union's statement supporting Mitchell's proposal said, "Even though falling farm income promoted by official government policy is making it increasingly difficult for us to do

so, we support the amendments proposed by Secretary Mitchell to prevent the use of federally tax-supported facilities of the Public Employment Service to beat down wages and working conditions of migrant farm labor below prevailing local standards." We wonder what your attitude toward these proposals is. . . . Are you paying your migrant workers too little?

The AFL-CIO news reports, among other things, revision of the labor standard acts by raising the minimum wage to at least \$1.25 per hour and extending coverage to millions (including farm laborers) now denied protection of federal wage and hour legislation; they also endorsed the decision of the AFL-CIO executive council, made at its first 1959 meeting to begin an organizational drive among farm workers, and noted that such a campaign is under way in the Central Valley of California.

If you want Farm Bureau to support this kind of stuff, pay your dues and get enough others to change the minds of present members. If you want it to oppose it, join and help your fellow farmer in this important job.

## Today's Meditation

**Read Luke 12:27-34**  
 He said unto them. Take heed, and beware of covetousness; for a man's life consisteth not in the abundance of the things which he possesseth. (Luke 12:15.)

The regular devotional meeting of a group of young Christians had been held. Several were still sitting around talking. The subject veered to new automobiles. A newcomer to the group and his wife were sitting there quietly when they were asked if they had a new car.

"No," he replied. "We're building a new church." He and his wife thought it more important to help their church put up a new building than to think of themselves.

Perhaps some of the group forgot the incident, but others changed their sense of values a little. They found something new to take into account because one man in his quiet way put God's work before his own pleasure. The church that was built had in it a part of his and his wife's religion.

**PRAYER:** Help us, heavenly Father, to give our gifts freely to Thee, realizing that all gifts have come from Thee. Since all that we have is Thine, grant that we may be unselfish in all things. In Jesus' name. Amen.

## SAND HILLS PHILOSOPHER WANTS Word To Improve Its Aim With Rockets Before Shooting War

Dear Editor:

For a long time now, instead of wasting my time starting off into space in between bites when I'm fishing, I've been thinking about guided missiles and rockets in the world today, and the more I fish and think, the more I'm convinced the world ought to either go forward with its rocket program a lot faster or abandon it altogether.

Now I don't know anymore about the Russian rocket program than Washington does, all the Russians tell us about is their successful hits, which have been pretty good, but I do know that the United States rocket people seem to be having a little trouble.

Well, to tell the truth, their aim ain't so good. When they blast off one of their things, they don't know whether it's going to just sit there and spew like a wet firecracker, or wobble off half-heartedly, or zig-zag in all directions over the ocean.

Outside of an accurate rocket, I guess the next worst thing is an inaccurate one.

You take my farm out here. Nobody's going to waste a million-dollar rocket shooting at it, nobody would ever classify this patch of Johnson grass as a military target, but it sure makes a man nervous to think he might be the victim of an accident. I just won't feel completely relaxed until those boys improve their aim a little.

Or you take Canada for example. Canada's sitting up there not shooting rockets at anything, but those Canadians may get a little jittery wondering when some other country's practice shot may land in their lap.

You multiply this by all the other countries in the world and you see the amount of nervousness it can create. Any time two big countries get in a rocket war with each other, there's going to be a lot of innocent bystanders getting hit.

Until the world improves its rocket aim, it's just not ready for that kind of shooting. Pinpoint accuracy with rockets would be terrible enough, but blind firing would be worse.

Yours faithfully,  
 J. A.

The phenomenal rise of the German economy since World War II, from the rubble of near-obliteration, is proof of the economic power and potential of this country. In the past decade, Germany's output has more than doubled and its Gross National Product almost tripled. This year, however, the great post-war boom appears to be leveling off. Although the major force of the economic explosion brought on by the reconstruction of Europe may now be over, the European economy should continue to grow with a greater concentration on world markets.

Already in the past decade Germany's value of exports has increased four-fold. I will write more on this subject later.

## BABSON DISCUSSES The Trends of Things To Come

WEST GERMANY — I have been in Europe only two weeks; but I am astonished at the trend everywhere toward more social equality.

(1) **CHEAP POWER.** One of the exceptions to the general price rise is the cost of power. Profound changes in power production and distribution are being planned. It is not yet certain whether atomic energy or the sun's rays, or gravity, will be the chief source to make inexpensive power. When the scientists here refer to "sun rays," they have in mind "electric rays" not "heat rays."

(2) **TRADE AND AUTOMATION.** Central Europe is undergoing its biggest industrial transformation in history; it will become an effective mass producer by the mid-1960's, spurred on by Russia. It may be able to market its products all over the world at prices we cannot match. Germans believe our high cost of labor will price us out of competition in many lines.

(3) **INDUSTRIAL GROWTH.** These trends necessarily imply the birth of countless new industries. Firms engaged in atomic development, electronics, and new synthetic materials, which will do jobs better and cheaper, will be the leaders of the coming era. Some of today's big U.S. corporations already see the handwriting on the wall and are building plants here. Germany convinces me that the degree of change in both products and methods of production will be more radical in the next 20 years than in the entire past century.

(4) **NEW PRODUCTS OF THE FUTURE.** If World War III is avoided, Russian and Central European science will be able to produce synthetically in the next quarter century almost any product that the human mind can now envision. Family autos will be powered either electrically or by a fuel cell which combines free oxygen and hydrogen. Ocean and air travel between all countries will be very cheap and will be encouraged by the United Nations.

(5) **CHANGES IN THE HOME.** Atomic irradiation will have taken the place of refrigeration. Electronic home and restaurant cooking will be almost instantaneous. Everyday meals will be served on plastic throw-away dinnerware. Washing of clothes, kitchen utensils, and silverware as well as certain industrial cleaning jobs, will be done by "sound waves" in waterless washers. Most homes will be dust and germ-free, and will be heated and air conditioned evenly and inexpensively. Some apparel — socks, underwear, and dress shirts — are now being de-

signed for one-time use.

(6) **NEW TV. AND RADIO-PHOTOS.** Favorite T.V. programs are being picked up by using timing devices and stored on video tape for viewing at the individual's leisure. Great Britain is already planning for T.V. broadcasting in color, and which may be three-dimensional. A small pocket radio telephone can be used for ordinary communication. Facsimile will provide householders with top news stories as fast as radio. The phototelephone will be widely used for shopping from the home and will serve for "synthetic" social calling. Radio telephones in cars will be standard equipment.

(7) **SOCIAL AND ECONOMIC LIFE.** In the next 50 years, most — if not all — of the world's poverty will have been eliminated. Great Britain and most European countries — and perhaps the United States — will have seen the socialization of many industries. These governments will surely exercise strict controls over materials allocation, production, distribution, advertising, profit margins, speculation, and credit. Taxes will be more confiscatory. Capital gains and inheritance are being taxed at a higher rate than ordinary income. Private property and the right to wealth will still be respected, but all governments will have much greater power to supervise its use. This will probably mean a move away from free enterprise toward "cradle-to-grave" security for all, following Russia's example.

add **BABSON Discusses The Trend Of Things To Come**

The standard work week may be shortened more; but competition between nations may keep labor unions from now going much further in wage or hour demands. Free medical and hospital care will be available to everyone. Also, free college educations will be offered to all who qualify "therefor."

(8) **CITY vs. SUBURBAN GROWTH.** Closed-circuit T.V. inspection of streets, alleys, buildings and hotel corridors, schools, and other public spaces should reduce crime. Urban areas will be undergoing redevelopment to provide more office space, wholesale trade centers, limited town housing, and entertainment. Retailing will mostly have moved to outlying areas with more one-stop shopping centers. City limits will extend 15-30 miles from present metropolitan limits. Probably people will be more regimented, but at all levels of incomes they will enjoy more of the comforts, conveniences, and pleasures of life.

(9) **GERMAN POPULATION AND ECONOMIC GROWTH**

## Here Friday from Chevrolet . . .

Elegant Impala 4-Door Sport Sedan—one of 16 spanking new Chevrolets you can choose from.

# THE SUPERLATIVE '60 CHEVY.

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that's new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside—the relaxing roominess, tasteful trim, hushed elegance of its new Body by Fisher, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, it's got all the thrifty virtues that make it unmistakably a Chevrolet—with new economy of operation, new dependability new longer life. Here, then, we're confident both you and your budget will joyously agree, is the nearest to perfection a low-priced car ever came!

Here's the car that introduces a whole new decade of design—with so much that's new and different the others can only hope to come close.

It's the superlative '60 Chevrolet—with new space inside, new spirit under the hood, new splendor in every clean-etched line.

Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, the solidly built new Body by Fisher surrounds you with finely tailored fabrics and spacious elegance. There's room to sprawl in, room to sit tall in—generously provided by Chevy's sofa-wide seats and extra margin of hat space. And there's even more leg room for the man in the middle—thanks to the way Chevrolet engineers have shaved down the transmission tunnel.

Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. Adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of isolating road shock and noise.

Quiet, quick-responding power is provided by a choice of two standard engines—Chevy's famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while delivering greater engine torque at normal speeds. There's also a choice of five other V8's and five transmissions, to assure the exact power combination to satisfy the itch in your driving foot. Chevy's accent on comfort and convenience even extends back to its easier-to-load luggage compartment. You'll also find a convenient new parking brake that automatically returns to normal height after application, a new clutch linkage that filters out engine impulses more effectively than ever and new two-toning motif available on all 16 fresh-minted models.

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes . . . and that's to drop in on your dealer and drive one!

### High Plains District Takes On First Case Of Land Annexation

LUBBOCK, Tex. — The High Plains Underground Water Conservation District is larger by 1,062 acres of land.

M. C. Street of Littlefield in Lamb County is the first landowner to have land annexed to the District that was not originally included.

He owns six labors of land in southern Bailey County. The land adjoins the original Water District boundary.

Mr. Street asked the Board of Directors of the Water District, by petition, to include his land in the District and to levy the maintenance tax of 5c on each \$100 valuation.

Because there were no other landowners involved in this transaction, the District Board at their regular meeting September 4, 1959, did, on their own motion, pass a resolution which brought Mr. Street's land into the District.

Mr. Street has two small irrigation wells that were drilled on the land prior to its being annexed to the District. The wells were drilled in accordance with the well spacing rules of the High Plains Water District.

Mr. Street states that he believes in conserving water and that the benefits of the High Plains Water District are evident, and that he wants to become a part of the organization to help foster water con-

servation and actively support efforts designed to maintain control of ground water in Texas on the local level.

### Taxpayers Should Use Same Name in Making Inquiries

Taxpayers writing to the Internal Revenue Service or calling the Internal Revenue Service are advised to be very careful to use the same name that appears on their tax return, by Howard O. Nichols, Administrative Officer of the Lubbock office.

The Dallas District office deals with more than two million taxpayers in the northern half of Texas. Mr. Nichols explained, "There are more than 2,000 J. Jones alone who filed an income tax return in the past year. The chances are good that there are several people with exactly the same name as yours who have filed a tax return. Thousands of taxpayers move each year so the Internal Revenue Service cannot rely upon the address as a method of identification. When taxpayers use an initial, a nickname, or only part of their name, this complicates matters and our problem of identifying the taxpayer becomes greater."

The Dallas District writes thousands of letters each year

to determine whether he is the J. Jones who used to live on Main Street in Dallas or the J. Jones in East Texas or possibly West Texas. If the tax people write you for information they would appreciate your returning a copy of your letter with your reply. The IRS letter helps determine which taxpayer the tax problem belongs to.

### Christian Science Services

God's infinite wisdom and goodness will be brought out at Christian Science services Sunday.

Keynoting the Lesson-Sermon entitled "Reality" is the Golden Text from Psalms (52:1): "The goodness of God endureth continually."

Citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include (275:14): "All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God. These are His attributes, the eternal manifestations of the infinite divine Principle, Love. No wisdom is wise but His wisdom; no truth is true, no love is lovely, no life is Life, but the divine; no good is, but the good God bestows."

From the Bible will be read (Ecclesiastes 2:26): "For God giveth to a man that is good in his sight wisdom, and knowledge, and joy."

### Campaign To Publicize Texas Gets Underway

AUSTIN — Creation of the Travel and Information Division of the Texas Highway Department came officially this week as a direct result of state legislative action.

"The task of advertising the tourist attractions of Texas was given to the Texas Highway Department, and these duties will be assumed by our former Information and Statistics Division," said State Highway Engineer D. C. Greer.

"Texans and out-of-staters may write the Travel and Information Division, Texas Highway Department, Austin, for information, maps, travel folders, etc., and these items will be furnished without charge. We also dispense this material through our seven Tourist Bureaus at the principal ports of entry to Texas. We have already handled many thousands of requests for tourist information."

# THE REVOLUTIONARY Corvair

BY CHEVROLET

There's nothing like a new car—and no compact car like this de luxe Corvair 700.

Here's the car created to conquer a new field—Chevrolet's low-priced compact Corvair.

The product of nine years of research and development, it's America's first truly compact car that retains the ride and 6-passenger comfort you're used to in a big one.

The key to this small miracle: America's only rear-mounted aluminum engine—a lightweight 6 that's so revolutionary it can be packaged with the transmission and drive gears as one compact unit.

With the engine in the rear, the Corvair's floor is virtually flat, front and rear, so there's plenty of foot room for everybody. Combined with Corvair's unique body-frame construction by Fisher, this provides interior spaciousness comparable to many postwar conventional-sized cars.

Shifting engine weight to the rear also makes for easier compact car handling and gives glued-to-the-road traction on ice, mud or snow. And with independent suspension at all 4 wheels—an advance comparable to the independent suspension of front wheels years ago—you get a poised, unruffled ride that rivals even the costliest cars.

These are all things no front-engine compact car can give you. And with them you get outstanding economy and practicality that would never have been possible if Chevrolet engineers had been content to make the Corvair merely a sawed-off version of a big car. Corvair's size—some 5 inches lower, 2½ feet shorter and 1,300 pounds lighter than conventional sedans—makes it a joy to jockey through busy streets, a pleasure to park (no need for power assists). Its revolutionary Turbo-Air 6 gets up to 30% more miles on a gallon of regular. And, because the engine's air cooled, you never have to fuss with antifreeze, you get quicker warmup (even heat for passengers comes—almost instantly—from an airplane-type heater\*). Wonderfully practical, yes. But you'll find the most practical thing of all about Corvair is its remarkably low price. Your dealer's the man to see for all the short, sweet details.

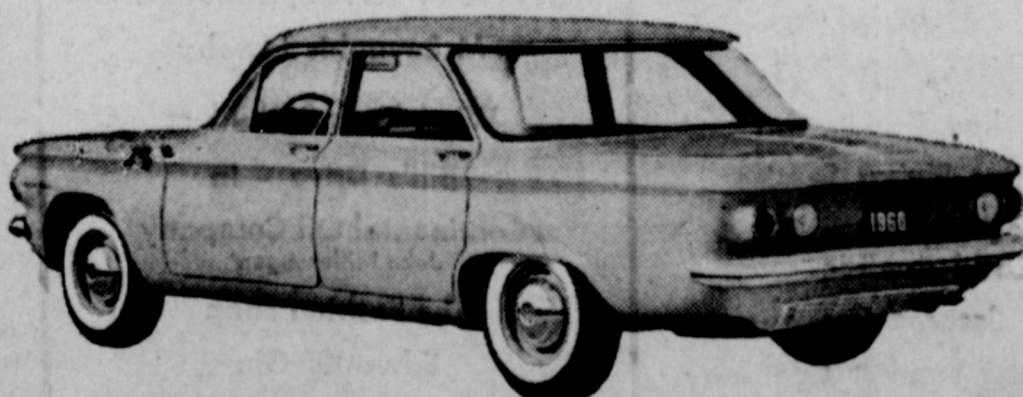

America's only car with an airplane type horizontal engine!

America's only car with independent suspension at all 4 wheels!

America's only car with an air-cooled aluminum engine!

The engine's in the rear where it belongs in a compact car!

You have your choice of two Corvairs—this one's the standard model.

See your local authorized Chevrolet dealer

#### 1 REVOLUTIONARY TURBO-AIR 6

Gets up to 30% more miles on a gallon, needs no antifreeze, provides quicker warmup with less wear on parts. It's the world's first production 6 with the ultra-smooth, space-saving power of horizontally opposed (not vertical or V-stroke) pistons.

#### 2 ONE-PACKAGE POWER TEAM

Wraps rear engine, transmission and differential into one compact unit. Takes less room, leaves you more.

#### 3 STYLING—PURE AND SIMPLE

Clean, uncluttered lines shape both 4-door models—the de luxe Corvair 700 and the standard Corvair. Each has its own distinctive trim, and you get more visibility area than in many full-sized cars.

#### 4 FOLD-DOWN REAR SEAT\*

Works instantly, adding to Corvair's versatility by enlarging rear seat cargo space to 17.6 cu. ft.

#### 5 FLAT FLOOR

Corvair is America's only compact car with a practically flat floor, the only one with the kind of relaxing room that U.S. motorists are used to.

#### 6 UNISTRUT BODY BY FISHER

Does away with conventional frame, incorporating all structure into a rigid body-frame unit that gives you more inside room with less weight.

#### 7 UNDER-HOOD LUGGAGE COMPARTMENT

Trunk's up front (like an elephant's) where it's convenient for groceries, shopping bags, luggage.

#### 8 4-WHEEL INDEPENDENT SUSPENSION

There's no conventional axle—front or rear. Wheels, cushioned by coil springs, take bumps independently of each other, for smooth, road-hugging ride.

\*Optional at extra cost.

### Toughest Driver in Town!

Careful Percy McFidget—who would believe that he's harder on his car than anybody in town? Why, he never goes over 35 or takes a trip over 10 miles! Actually this kind of driving is very hard on a car engine because the engine seldom gets "warmed up" sufficiently. The oil tends to be sluggish. Sludge forms in the crankcase. The way is open for dangerous wear and corrosion.

But there's something you can do about this, to protect your motor. If you have to do a lot of start-and-stop driving at low speeds, as most of us do, use Trop-Artic Motor Oil. It flows fast... resists sludge formation... helps your car run better, longer. Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

## 1ST, 2ND, AND 3RD GRADES OF DESHAZO

By Dolores Waggon

Several first graders attended the Panhandle-South Plains Fair, Monday, in Lubbock. They enjoyed telling the unfortunate ones that did not get to go to the Fair about the many new experiences that they accomplished. The main point of interest was the barnyard animals. Of course they discussed all of the new rides they took and the hot-dogs and cotton candy that they ate.

Another new experience the children had was that their school pictures were made. The kids were neatly groomed and gleaming, and curls and ruffles made an attractive picture for the lassies.

Several students have been absent this week due to illness. This damp, rainy weather may keep on, so kids eat the right foods to keep healthy and beware of "Old Man Winter". We all hope those on the sick list will be back at school soon!

Many second graders attended the fair in Lubbock. Those who did not get to go received a pleasing report of the circus and clowns. Some also received stomachaches because of too many goodies!

In the Science Department, the children are enjoying collecting the leaves since the changing of colors into the brilliant fall shades. This science collection also includes such things as toads, spiders and rocks. This has also been a perfect opportunity for cloud studying. The only thing that has been wrong is that there has not been a chance to study the light fluffy clouds, only the heavy, drab ones.

The Deshazo second graders have made a schedule for music periods. Most have found that their records are lots of fun. They also started the rhythm band practice this week. Halloween songs and Indian War Dances are being enjoyed in the music class also.

Due to the foul weather the children have had fun staying inside making things from modeling clay.

The third graders who attended the Tri-State Fair in Amarillo were Linda Kerr and Nancy Hopper. These two girls went to Amarillo last Saturday. The students who went to the Lubbock Fair were as follows: Roger Swint, Nancy Hopper, David Aguera, Jimmy Castro, Susan Vela, Kathy Williams, Lowry Lewis, Sheryl Mason, Randy Aduddell, Joe Whitfield, Rena Lockey, and Shirley Walte.

Connie and Ronnie Reeder have new puppies, Sharon Tucker and Johnny St. Clair have new kittens, Marcela Martinez also has a new puppy. Vickie Plyant's lost dog returned much to Vickie's joys. Melvin Rogers has a new parrot. It looks like the third graders have had a fad of collecting new pets also.

Lourance Jaramillo has a new baby brother named David. And Janie Cruz has a new nephew named Robert.

## SENIOR CLASS NEWS

By Mary Gross

The date of the annual Chuck Waggon Supper sponsored by the Senior Class was set in a class meeting recently. October 9, 1959, the Senior Chuck Waggon Supper will be held in the Muleshoe High School Cafeteria. The plates are \$1.25 for adults and \$.75 for students. Serving starts at 5:30 p.m. and will continue until 7:30 p.m. Tickets may be obtained from any Senior.

Other business transacted was the appointment of a poster committee to advertise the Chuck Waggon Supper. The committee is Sharon Evans, Chairman, Kay Brown, Sandra Darsey, Burl Mardis, Arlene Howard, Jack Roubink, and Jimmy Bishop.

Gordon's Conoco has offered the proceeds from his station for a day to the Senior Class. Plans are now being made for a work days at this station in the near future.

## CLASS, CANDY WRAPPERS, AND MELON RINDS

By Lee Roney

There has been an increase in the sales since school has begun, compliments of the school parking lot. The lot is densely populated with broken coke bottles, candy wrappers, and melon rinds.

Even though it isn't quite this bad there has been a few tires slaughtered by the broken glass. Each day some "bright" students bring coke bottles from the Snack Shack to the cars where they eat lunch. After lunch the bottles are bounced out where they break or will soon be broken. These little hazards then work themselves under cars where they do so much damage.

Not only during school hours do these litter bugs operate but at night they manage to scatter a few melons around the school grounds. Even though it is meant only in fun these incidents cause a lot of extra work for other people.

In order to help keep the school clean last year the Future Teachers of America Club organized a clean-up campaign. This helped some but the student's willingness to help could eliminate this hazard. A few faculty members keep watch over the lot now. A few minutes of each student's time would save several hours of extra work for others. It would also make the school more pleasant to work in.

Not only would it make the school more pleasant to work in but a neat student will make a better citizen. There is always a demand for a good citizen.

## PHOTOGRAPHS TAKEN FOR THE ANNUAL

By Rita Lewis

Grover Little, from Odessa, who is associated with Provine Studios, photographed all students' pictures for the Annual Wednesday.

Wednesday morning, Mr. Little photographed the Richard Hills and Mary DeShazo student pictures for their Memory Book.

High school student pictures were made by Mr. Little Wednesday afternoon for the Annual. Two poses were taken of each senior and one pose of each of the juniors, sophomores, and freshmen.

The pictures are expected to be received within the next two or three weeks.

## PEP CLUB MEETS

By Phyllis Milligan

Last Tuesday, September 29, the Pep Club met and pictures were taken. The girls wore white blouses and black skirts. They formed a "V" which stood for victory. These pictures will appear in our school annual.

After pictures were taken they chose to wear white gloves, bring noise makers, and make confetti for Friday night's ball game.

They also decided to put horseshoes over the front door of the high school and over the Mule barn. Along with this they decided to make a large hoop with a muleshoe placed on the top for the Homecoming game. The Mules will be run through it when entering the field during the beginning of the game.

To make money they chose to sell ball point pens with "Muleshoe High School" printed on each.

## F.F.A. MEETING

By B. H. Waggon

Muleshoe Chapter of F.F.A. had a meeting today, Oct. 1. A representative of the "Farm and Ranch" magazine spoke to the boys about selling magazines. A motion was made and passed to sell the magazines. Then the representative showed the boys some of the prizes. If the top boy makes over 600 points he gets a free trip through the Southwest. On the trip the boy will visit such places as Juarez, petrified forest, painted desert, Los Angeles, Disneyland, and Yosemite.

## MARY DESHAZO PRINCIPAL

By Jeanne Gray

Mr. Fred White, principal of Mary DeShazo Elementary School, was born and reared in Madill, Oklahoma. He received his Bachelor of Arts degree at East Central College at Ada, Oklahoma. He coached football while working toward his Masters Degree at Oklahoma University. Eight years previous to coming here, Mr. White was the Educational Director for the Oklahoma State Reformatory.

## PERSONALITY OF THE WEEK

By Pat Barrett

The personality for this week honors Carolyn Burge, Historian for the Student Council of Muleshoe High School for the 1959-1960 school year.

Carolyn Mae Burge was born in Muleshoe, Texas, on August 9, 1943. She has lived in Muleshoe all her life. Carolyn's father, Mr. Alvis Burge, works for the State Highway Department, and her mother works at the Muleshoe State Bank. She has one sister, Judy, who is eleven years old and is in the sixth grade at Mary DeShazo Grade School. Carolyn also has one brother, Bobby, who is eight years old and in the third grade at Mary DeShazo Elementary.

Carolyn, in her junior year at Muleshoe High School, has been very active in all school activities all through her school years. Along with being Historian for the Student Council this year, she is secretary of the Junior Class and is a varsity player on the Muleshoe Mullettes Basketball Team. She is also secretary of the Future Homemakers of America this year.

In past years Carolyn has been Secretary of her eighth grade class and also secretary of her Sophomore Class. She was a candidate for most beautiful her Freshman year. Last year she attended the annual Student Council Convention in Brownsville, Texas. Carolyn has also been a member of the pep squad for the past three years.

Carolyn is a member of the Rainbows here in Muleshoe and has held various offices in it.

Sports are Carolyn's hobby. She likes to participate in all sports possible and enjoys watching all others very much. Above all, she likes people and being around them. Her favorite color is blue and her favorite food is fried chicken. Her favorite song is "May You Always" and her favorite singer is Johnny Mathis.

Carolyn's pet peeve is someone who tries to be something he isn't.

Carolyn is the kind of girl who is very well liked by everyone and is a very deserving person for all the honors she receives. There can't be a more wonderful person found anywhere than Carolyn.

## HOME COMING PLANS FOR OCTOBER 9

By Priscilla Inman

Plans are being completed this week for "Homecoming" at Muleshoe High School. Ex-students and teachers who have taught or graduated in Muleshoe and their families are invited to attend the program planned by the Principal, Bill Parker, and officers of the Ex-student Association.

Homecoming activities will begin at 1:00 p.m. with a Smoker, for both ladies and gents who have lettered in sports. At 2:00 p.m., registration and a business meeting will be held for the Ex's. Three o'clock will bring a general assembly and pep rally for the entire high school. A tour of school will be conducted during this hour also. A banquet at 6:00 p.m., which is sponsored by the Senior Class, will be held in the cafeteria. Tickets may be purchased at the door. At 8:00 p.m. the Mules will play the Friona Chiefs on Muleshoe's gridiron. A dance at the Legion Hall at 11:00 p.m. or after the game will climax this year's homecoming activities.

We hope this year's homecoming program will be one of the best. We encourage you to attend and help give the students some of the school spirit you had when you attended M. H. S.

## NEW TEACHER

By Goldie Lowery

Mrs. Walter Johnson is another new teacher in the Muleshoe Public Schools System. Mrs. Johnson teaches third grade at Richland Hills Elementary.

Mr. and Mrs. Johnson moved here from Wilson, Texas. Mrs. Johnson has been teaching the first and second grades for the past two years at Wilson. She has taught the first, second, and third grades for thirteen years.

Mrs. Johnson attended high school at Mullins, Texas, and obtained her B. S. degree at Howard Payne College in Brownwood, Texas.

Mr. and Mrs. Johnson moved to Muleshoe from Mullins June 25, 1959. They reside at 507 West 9th, and are members of the First Baptist Church.

Mrs. Johnson enjoys football and her favorite TV program is "Tve Got A Secret."

## STUDENT MISSES TWO WEEKS OF SCHOOL

Don Etheridge, Senior at Muleshoe High School, has been absent from school for

the past two weeks. Don is the 17-year-old son of Mr. and Mrs. S. M. Etheridge of the Longview community. Don became ill September 20th and was admitted to the West Plains Hospital on DW 21st. He was unable to have visitors until Sunday, September 27. His illness was due to flu with several complications. Don was permitted to go home Thursday. He expects to be back in school on Monday. Don wishes to thank everyone for the flowers that were sent to him, and for his friends and classmates who came to visit him.

## FRESHMAN INITIATION

By Latoyia Howell

On Friday, October 2, the halls of M. H. S. were filled with many new boys and girls. If you looked closely you could tell that they weren't actually new but just in different costume.

It was Freshman initiation time again. Freshmen girls were dressed in overalls, their father's shirts, shoes, socks, ties, and hats. The girls wore ribbons in their hair and had blacked out teeth, and freckles painted on their nose. They could wear no make up.

The Freshmen boys were dressed as girls in dresses, women's hats, shoes, hose, can-cans and lipstick. Both boys and girls wore an onion around their neck and a sign painted "Beat Dimmitt."

The "fish" took orders from upperclassmen all day. Shining shoes, eating onions, climbing the flagpole, and carrying books were a few of the jobs of the Freshmen.

The climax of the day was the selection of the most beautiful girl and the most handsome boy during the pep rally.

The candidates for the most handsome girl were Sue Williams, Karen Jones, Davy Jean Anderson, Jeannine Coffman, and Dianne Fullerton. The candidates for most beautiful boy were Archie Evans, David Douglas, Jimmy Cabrera, Jerry Glibreath, and Charles Boies.

## F.F.A. EXHIBIT AT FAIR

By Kenneth Phipps

Muleshoe F.F.A. chapter exhibited maize at the Lubbock Fair this year. The purpose of this exhibit was to show how fertilizers improve the maize crop. The exhibit was placed in a neat arrangement on a square board. One-half of the board was maize that was not fertilized. The other half of the board showed maize that had been fertilized. The maize that had been fertilized yielded a lot more than the maize that did not have fertilizer.

The maize heads had to be rolled in a piece of paper and left a few days before they could be put on exhibit. Rolling the maize heads in paper packs them, and makes them firm. The exhibit was very nice and took seventh grade at the Lubbock Fair.

## Progress News

by Mrs. M. O. Nigh

Progress W.M.U. Met Ten members met Monday, Oct. 5, to elect officers for the coming year. Mrs. Iva Locker was elected for president; Mrs.

# Presenting the Magnificent Nineteen-Sixty

## Creating a New Era of Elegance!

The motor cars represented here will soon introduce a new era of elegance to the world's highways. They are the Cadillac cars of 1960—and, from every standpoint, they represent the Cadillac tradition in its finest hour. In appearance, they are regal and majestic as never before—a brilliant symphony of line and contour from the sparkling new front grille to the graceful flow of the rear fenders. In interior decor, they are truly magnificent—featuring luxurious new fabrics and leathers—new convenience and excellence of appointments.

### THIS WEEK In Muleshoe

by AFTON RICHARDS

Here is an article clipped from the Stamford American. We thought you would enjoy it. Theatre Manager Andy Stone was working late. As hands on the clock moved toward 1 a.m. there came a pounding on the door.

He opened it. There, on verge of tears, a woman. She sobbed. "Please—look in your theatre; I've lost my little boy and if he isn't there I don't know where he can be."

In the theatre business 32 years, this was nothing new to Stone. He switched on the lights. With the woman he walked down the aisle.

"In the second row we found the little boy," he said. "He was sound asleep."

The mother thanked Stone, gathered the child in her arms and went home.

Stone went back to work.

Saturday, October 10

Sunday & Monday October 11 & 12

Tuesday & Wednesday October 13 & 14

Thursday & Friday October 15 & 16

For in a theatre people forget or lose everything. From bill-folds with large sums of money to personal items such as (Hayes office would object.)

Among unusual items forgotten are women's high heeled shoes, watches, belts, pocketbooks, Stetson hats, rings, earrings, coats and unusual photographs.

Once in a child's pocketbook Stone found besides the usual few pennies a folded picture about the size of a postage stamp.

Curious, Stone began unfolding it. It turned out to be an almost life-sized picture of Marilyn Monroe.

Recently at the Drive-in theatre a man looked up Stone. "I lost a billfold with \$80.00 in ones," he told the theatre manager.

Stone and the man toured the area where he had been parked the night before. Suddenly the man exclaimed and pointed an excited finger to the fence.

"All up and down the fence were dollar bills where the wind had blown them," said Stone. "We just went along the fence gathering them up. We found all but three or four of the man's 80 ones."

Two projectionists at the Grand, Henry Miller and James Cobb, recall when smoke from an air conditioner filled the theatre in 1948.

There was no fire but everyone ran out. The projectionist said in the shuffle a woman lost her shoes and her dress was badly torn.

"And as soon as she got home, we received a call from her husband. He wanted us to verify that she really had been to the theatre!"

Items are kept for various lengths of time. Until a short time ago Stone said he had a bushel basketfull of lost items. They had been held four years.

Most persons will miss a lost item when they get home. This is especially true when they try to open the door and discover they have lost their keys.

Others go for days before reporting lost goods and still others, although the item may be real valuable never report it.

Clothes such as children's jackets, gloves and the like are kept for a number of weeks, then if unclaimed, we turn them over to a church or some charity organization.

The other day a woman phoned Stone. "We were at the drive in last night," she said. "Good," said Stone, "it was a fine picture."

"Yes—but my child threw my slippers out the window, could you find them?" Stone looked—he found the shoes. "It appears people lose

everything in theatres?" Stone was asked.

He nodded. "Yes; and sometimes they lose everything but embarrassment."

He recalled that when it was the style for girls to wear fluffy, tiered skirts, this happened:

"The girls would sit down and those skirts would cover seats on each side of them."

Once a prominent woman sat down. A seat separated her from a man, also well-known.

When the man got up to leave, he found he couldn't without taking the woman with him.

It seems that her skirt had become firmly fastened on him in some manner.

After much embarrassed whispers, the couple got up. Feigning nonchalance, they walked into the lobby.

Stone was summoned. He set the embarrassed couple free.

Then, never one to miss a plug, Stone said, "Unusual acquaintances are often made in a theatre. You can't say that about television."

Dr. Frank Gunsaulus, a well-known Chicago divine, was once introduced to a large gathering as "the man with a backbone."

The chairman repeated the expression several times, always stressing the fact that the speaker had strong convictions and stayed with them.

When Dr. Gunsaulus rose to speak, he said: "The chairman has told you several times about what a strong backbone I have. I hope I have a back-

bone, but I also hope that it has some joints in it so that I may be able to bend. If it hasn't, then it isn't a backbone, but a crowbar."

Then the speaker continued: "A great many people mistake their prejudices for convictions, and take credit for being very strong-minded when in reality they are just stubborn."

He proceeded on the assumption that to see one's mistakes and acknowledge them is a sign of weakness. Nothing of the sort! Strength of mind and sweetness of spirit generally go hand in hand. It is the small being who refuses to give in. "They who boast that they never change their minds love themselves more than they love truth."

By all means let us have backbones, but backbones with joints in them."

# PRESENTING FOR 1960... BUICK'S ALL-TIME BEST

## THE TURBINE DRIVE BUICK '60

A car with major advances in transmission, suspension, brakes, and engines which are Buick's alone today. A solid, substantial car • A car of superb comfort, quiet, reliability • A car you should drive soon

**New comfort, quietness, and quality**  
Doors that open wider—easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in America due to Buick's high use of insulation and torque-tube drive. Buick's quality control program comes to a peak in the Turbine Drive Buick '60.

**New interior decor and convenience**  
An entirely new "Mirromatic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety option—the Twilight Sentinel\*—that turns headlights on automatically at sunset... off automatically at sunrise. All-new colors and fabrics. Richer appointments. \*At slight extra cost.

**Outstanding performance with economy**  
1. Buick's Exclusive Turbine Drive Transmission is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion.  
2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other American car. Fin-cooled drums front and rear for faster cooling. Fast cooling means safer stopping, longer brake life.  
3. Buick's exclusive Wildcat Engines give high efficiency with high economy. (An optional new LeSabre Engine is designed to give Buick performance on regular grade fuel.)  
\*Optional at extra cost on LeSabre, standard on Invicta and Electra.

#### Lazbuddie News

By Penny Grusendorf The Lazbuddie School Fair will be Monday and every one is invited to attend. Mrs. Bill Curry is still very

sick and in the hospital.

Martha Wuertlein and her boyfriend, Berry Morgan of Portales, New Mexico, came in from Wayland College Sunday and visited in the home of Edd Wuertlein.

The Brotherhood Executive Committee went to Earth Monday morning to eat breakfast at the Steak House, then to go to the church and have their meeting. Those attending were: Edd Wuertlein, Doug Shelley, Jarvis Angley, Delbert Mooney, Francis Kelly, J. Winders, and Rev. Cecil Madison.

The Senior Class of the Lazbuddie School had their first bake sale Saturday. They

made approximately \$21. They don't know when they'll have the next one.

The Lazbuddie Longhorns played Kress Kangaroos Saturday at Kress. They were having their Homecoming. They played a good game with the final score at Kress 28 and Lazbuddie 14.

The Longhorns went to Wilson Friday night and played on a very muddy and wet field for their fifth game of the year. Although starting the game a little late, the scoring was in our favor with Lazbuddie 14, Wilson 0. Friday Lazbuddie will play New Home on the Lazbuddie field.

Mrs. V. H. Bewely and Chris Ford went to visit Mrs. Bew-

ely's mother last weekend, Harriett Alexander who lives near Whitsborough, Thursday through Sunday.
