Wink Invades Tahoka For Gridiron Battle Tonight

Tahoka Bulldogs have a tough assignment in their Homecoming 5-A conference game here tonight when they meet the rugged Wink Wildcats, just fresh from a 20-19 upset of State-ranked Seagraves Eagles last week.

Game time tonight is 7:30 o'clock. Football queen will be crowned in ceremonies preceding the game.

Coach Gilbert Hough's Bulldogs are badly crippled by injuries, but the boys declare they are still out to upset some good ball team. Rett Patterson received a bruised shoulder and Danny Coburn a bruised hip at Plains in the 35-0 fiasco last Friday in which the Bulldogs played their poorest game of the season.

Mike Reid and Tommy Kidwell had been lost the week before by injuries. Tahoka has won only one game, although playing excellent defensive ball most of the time until last week at Plains. Until last week, big problem had been getting an offensive threat going.

Wink comes into the game with four victories, one tie, and one loss. Wink defeated Tahoka there last year in a 41-6 spurge, but was not expected to be as strong this year. Wink lost its starting backfield from last year but has most of its linemen back.

Probable backfield starters are Gary Wolf, 166, and Glenn Howard, 151, the passer who killed Seagraves, both quarterbacks; Toby Morton, 136, Curtis Northcutt, 162, Lamont Batchelor, 138, and Ronnie Tidwell, 139.

Linemen include: Fred Kemp, 130, John Warren 147; David DeWitt 165, and Bobby Aldridge 140, all ends; John Bradberry 198 and L. B. Shifflett 185, tackles; Gary Dudley 167, Ricky Porter 164, and Jesse Minter 136, guards; and Randall Dennis, 150, center.

The Bulldogs are capable of giving the visitors a good ball game. Old players back for Homecoming would like to see some of the determined effort that once made Bulldog teams feared on the Plains and produced five district championships.

TB Skin Tests Scheduled Here

A definite policy on immunization of school students was approved by Tahoka School Board in its meeting last week, according to Supt. Harold Reynolds.

All students must have positive evidence of smallpox vaccination or a physician's statement showing such immunization.

Tuberculin skin tests will be required of all students in grades one, six and nine and all new students entering Tahoka schools.

These skin tests will be given by the school nurse or by the student's physician. Positive reactions will be reported to the students physician and to proper health authorities, and there will be follow-up tests of such positive reactors each year.

Tuberculin skin tests will be given at the schools next Monday and Tuesday, October 26 and 27. These tests are painless and cause no ill effect whatever on the child.

First Baptist Honors Nine S.S. Workers For 25 Years Service

An "Appreciation Banquet" was given by the First Baptist Church Wednesday night honoring its workers, and special recognition was given to those with service of twenty-five years or more.

Awards were given to nine members whose service was noted for a twenty-five year period. The banquet was held in Fellowship Hall.

"We wanted to say 'thank you' to this wonderful group of Christian people who give so willingly of their time and talents to our Sunday School," stated James Hollars, minister of music and education. "We feel that these people have made an invaluable contribution to the life of our church and our community."

Books were presented as gifts to those receiving the awards. They were: Dub Kenley, twenty-five years; Mr. and Mrs. John Roberts, twenty-five years; Mr. and Mrs. W. A. Reddell, twenty-eight years; Judge Truett Smith, twenty-nine years; Mrs. L. D. Howell, thirty years; Mrs. Garland Pennington, thirty-one years; and Dr. E. R. Durham, thirty-five years. In addition, certificates of appreciation were presented to thirty-nine other workers who have served from ten to twenty-four years.

Lovelace Speaks To Young Farmers

Blake Lovelace, Soil Conservation Service technician of Tahoka, was the speaker at the Tahoka Young Farmers meeting Monday in the Lyntegar Electric board room.

Mr. Lovelace discussed the Great Plains program and the various programs and cost share which have been set up by the government to aid farmers in improving their land.

Twenty-five members and guests attended the meeting which included a business session when new projects were discussed. A door prize was won by Olan Pinkston.

A program on high energy winter feeding of cattle will be presented at the November meeting.

School Building Work Finished

Except for minor adjustments and repairs, V&N Construction Co. has completed work on Tahoka's new \$550,000 school building improvement program.

However, before a complete settlement, the school board last week named Mitchell Williams as legal counsel to represent the school district in final settlement. "We think the contractors have done an excellent job for Tahoka," stated Supt. Harold Reynolds.

"But the board feels engaging an attorney to advise in the final settlement is good business practice."

School improvements have included a new high school building, rebuilding of old high school into junior high, rebuilding north elementary, addition to vocational agriculture building, and enlargement of school cafeteria.

School authorities plan an open house in the near future so that the public may view the improvements.

County CROP Collection Set

Collections for CROP (Christian Rural Overseas Program) will be taken Sunday in several Lynn county churches, states Rev. Robert Kamrath of Wilson, county chairman.

Churches at New Home and Wilson will sponsor a "trick or treat" house to house drive on Halloween for the charity program. All churches are asked to help in same way to promote the program.

Funds raised in the Lynn county drive will be used to buy raw cotton or materials to send overseas to destitute people of other lands as a part of the Christian program of relief. Other sections of the U. S. send wheat, corn, canned foods, and other materials in this program.

"Red" Stewart Is Honored For Help At Accident Site

H. R. (Red) Stewart, well known TNM&O charter bus driver for 30 years, was honored at a luncheon in Lubbock Tuesday for aid given Tahoka wreck victims. This is the first of a series of "Driver of the Month" awards from Texas Department of Public Safety and Texas Motor Transportation Assn.

Stewart was cited for prompt action on May 30 in aiding Mr. and Mrs. J. T. Whorton of Tahoka, Joe Whorton of Albany, and Tommy Lemon of Lubbock, involved in a car-pickup crash three miles south of Lubbock at a road intersection on College Avenue. Jep Whorton died from the injuries, his wife and brother seriously injured, and Mr. Lemon is still in critical condition in a Lubbock hospital.

Night of the accident, Stewart was returning in the TNM&O bus from the New Home senior trip and was about a quarter of a mile away when the accident occurred.

The citation says, "Stewart stopped his bus on the pavement with lights flashing to protect a victim lying in the middle of the roadway. He then asked the people in a nearby farm house to call an ambulance and the Highway Patrol. He obtained blankets from the farm house, covered the victims in the road and another in the ditch, and placed a woman suffering from shock in his bus, turning on the heater to keep her warm."

"The bus driver helped keep the victim in the ditch from strangling by placing a hubcap under the victim's head, elevating it slightly. He also asked a witness to the collision to remain at the scene until highway patrolmen arrived."

Mrs. J. E. Ramsey was admitted to Tahoka Hospital Saturday as a medical patient. Cotton is the top "cash" crop.

GEORGE MAHON

Coffee Tuesday For Geo. Mahon

Congressman George Mahon and wife, Helen, will be honored at a coffee next Tuesday from 2:30 to 4:00 p. m. in the Tahoka City-Legion building, and the public is invited to attend. Lynn County Democratic Women are sponsoring the event.

Mrs. Mahon, the former Helen Stevenson, was a teacher in the Tahoka schools before her marriage and has a number of good friends here.

Letters From News Readers

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

Dear Frank:
From time to time I have read in our newspapers the many letters that are written by subscribers and have never felt that I should attempt to interpose my thoughts, but I feel that the time has come that we should examine some fundamental principles.

From the days that I tried in my feeble way to teach civics and history, I have always been a strong believer in our two-party system and have always felt that we have had some great men in both parties and still feel the same way. I believe that both of the great parties that have played their part in the history of our country have always had the good of our country and of our nation at heart. The difference in the two parties is a basic difference in philosophy and their respective belief as to what is good for our country and the economy of our people and the best way in which to achieve this philosophy.

From the time that I can remember, which is fast becoming too many years, the basic philosophy of the Republican Party has been that if water is poured at the top of the hill it will trickle down the sides benefiting all the people.

The unfortunate part about this philosophy is that the greater portion of said water has always been trapped at the top. The basic philosophy of the Democratic Party has been that if the pump is primed and the water is pumped from the bottom of the hill up, so that those at the bottom get the first chance at the supply, it will then find its way to the top, and thereby all of the people will receive their proper share.

I believe that any man who is capable of gaining enough support and respect of either of our great parties to become a candidate for a national office is fundamentally a man that wishes for our land, country and nation and the people thereof the best of everything, but here again it is their basic philosophy which becomes the issue and not the many petty personalities and name calling that we are prone to indulge in. I certainly cannot believe that any leader of our nation, be he Republican or Democrat, would ever betray our heritage in the manner that we are told some of our leaders are doing and attempting to do.

During the thirty years in which we are told that our nation has gone from all the things that it stood for to a condition that is chaos, as pictured by a great number of people, we find that certainly as the years have come and gone, the pump has been repeatedly primed on the lower level by the Democratic Administrations so that today our nation is enjoying the greatest prosperity of any people of the world. Certainly, taxes are high, but our gross national product is at its highest in the history of our country, and the highest constant purchasing dollar ratio exists today that we have ever enjoyed. From the laborer to the big corporations, including the farmer, the income ratio is the highest that it has ever been.

Certainly our society has become complex, and the rights of many segments of our society are constantly involved and in issue, but I earnestly believe that it has been the Democratic Party with its basic philosophy as indicated above that is at this time, and has in the past thirty years, shown its ability and desire to solve the many complex problems in such a way that labor, management, capital, the farmer, the doctor, the lawyer, the merchant and all segments of our society can share in our gross national product consistent with their efforts, prudence and ability.

An elementary principle of economics is that all new wealth finding its way into our economy must fundamentally come from the good earth, whether by agriculture, minerals, oil, and or timber. Any other seemingly wealth added to our economy is merely a shifting of wealth from one person and or segment of society to another. History reveals that at any time our leaders lose sight of this elementary economic principle, and our agricultural segment of our society fails to receive their proper portion of our gross national product, our nation immediately is in trouble.

I recognize that we are often prone to forget from whence our wealth and our bounty has come. That our friends and neighbors whom good fortune we are proud of, that our banks whose number of depositors and the amount of their deposits are the highest in the history of our nation, that our neighboring towns who have become metropolitan cities, whose pride in their accomplishments we join in, that our business people, our corporations, our stockholders, are likewise prone to forget that the backbone of our society and the stabilizing factor of our economy rest upon the farmers of our land and country and upon the agriculture of our nation, and many of them cease to remember that their good fortune and their economic development and success has resulted one hundred per cent from prosperity among our farmers. Certainly I cannot believe that a party and its leaders that for a period of thirty years have diligently tried constantly to see that the agriculture of our nation is protected to the extent that this section of our society has developed consistent with our overall economy, and who have never lost sight of agriculture as the basic segment of our society, are selling our country out to socialism and communism.

In April of this year I had the privilege of being in Washington when some five hundred fellow Texans were in a meeting with all of our Texas Congressmen, before which meeting both our President and our senior Senator spoke. Fully nine-tenths of these Texans were farmers, and I marvelled at the position that our American farmer holds in our national picture this day as compared with thirty years ago. Last Sunday I was honored and privileged to attend a barbeque at the ranch and farm of President Johnson on the Perdones River near Johnson City. Of the approximately one hundred people from West Texas with whom I was acquainted, at least one half of them were farmers and/or people that rely one hundred per cent upon agriculture as the means of their income. I am sure that this same percentage held true with the many people present with whom I was not acquainted. Thus, I am sure that our party and leaders of the Democratic Party are fully cognizant of the basic principle which I have been trying to point out. As I visited the President's barn, his corrals, his tractor sheds, and saw his John Deere tractor with a plow that had been torn up, his bridle with the reins broken, I certainly was convinced that President Johnson through-

As to our national strength and security, I doubt that I am qualified to "sound off" to any great extent, but I certainly do not believe that we are a weak nation that has sold out; but to the contrary, I sincerely believe that we are the strongest, the most powerful, and I trust the most understanding nation in the world today, and I have enough faith to believe that our leaders, whoever they may be, will use our strength and understanding in a solution of the world's problems in the best way that is humanly possible.

I trust that I have offended none, but have caused all of us to re-examine our basic philosophies. Yours very truly, Calloway Huffaker.

Cal Farley Visits Friends in Tahoka

Cal Farley, founder of the famed Boys Ranch at Tucosa, and Ray Noblitt, also of the ranch, were in Tahoka Tuesday visiting old friends.

Farley was a very successful Amarillo businessman interested in welfare of unfortunate boys, and about 30 years ago sold his business to devote his full time to the ranch. Mr. Noblitt also recently retired to join the ranch.

Many improvements have been made at Boys Ranch, Cal says, and people of this area are invited to make a trip to Tucosa to visit the boys.

Incidentally, Cal Farley played baseball a long time ago with such old Tahoka ball players as Hall Robinson and "Skip" Taylor.

CAUSE OF DISEASE APPROACHED FROM NEW ANGLE

By Dr. E. W. McElroy

A while back there were 600 medical scientific workers, 111 medical research institutions and 257 medical publications all researching into the human physiological side of the mental impulse, or nerve-energy, which has been the guiding principle of chiropractic since the year 1895.

Now, these medical research workers foresee a "new" era of nerve-wave-consciousness among former disbelievers. All the while, lives have been saved and health restored to millions through the application of chiropractic which has employed, since the year 1895, the principle of this so called "new discovery."

In 1895, Dr. D. D. Palmer discovered this entirely new health principle. He advanced the theory that there was a continuous mental impulse flow from the brain over the nervous system to all parts of the body controlling and regulating its every function; and that interference with the transmission of this energy flow causes abnormal function—or disease. This principle is no theory. Chiropractic has forged ahead and with the very latest instruments for measuring brain waves has already

proven in the Laboratory the theory laid down in the early days. Clinical proof follows: Six years of severe, recurring headaches, sinusitis and hay fever would drive you to almost anything and coupled with constant backaches, frequent dry neck, nausea, indigestion and constipation did drive this young man into the Mellroy Chiropractic Clinic for a spinal analysis and spinal X-ray examination to see what was causing his troubles. Nerve interferences were located in his spine and corrective adjustments brought about a gradual return to normal function. All pains and other symptoms ceased. Nature was given absolute control again which means simply that another grateful and satisfied patient was released from our clinic.

MRS. WILMA KING WILL VISIT DALLAS MARKET

Mrs. Wilma King, buyer for King's Dept. Store, will attend the annual Spring Fashion Market to be held October 25-30 in Dallas.

During this market, buyers from all over the Southwest select spring fashions from over 3,000 lines, assuring their customers of up-to-the-minute fashion-right apparel.

Sponsored by National Fashion Exhibitors of America and the American Fashion Association, Dallas Markets are one of the top three fashion markets in the nation. Four major markets are held there annually, with the October market featuring clothing and casual wear for the spring season. Merchandise selected at this market will be on sale in retail stores in late winter and early spring.

The Dallas Market, normally held in advance of New York and West Coast markets, is one of the most complete fashion displays in the nation. Many manufacturers use it to test acceptance of new designs before major production on a style has begun. The general feeling is that if a new item is well accepted in Dallas, it will be a success all across the nation. Southwestern buyers literally set the national pace.

A letter to our Congressman from
JOE B. PHILLIPS
 The Hon. George Mahon
 Congressman, 19th District
 1211 New House Office Building
 Washington 25, D.C.
 Dear Mr. Congressman:
 This letter is concerned with issues which are vital to our particular section of the country. I have some very definite convictions about certain matters, and I would welcome the opportunity of discussing these issues face to face if your schedule could be arranged to do so.
 In my opinion the economic growth of West Texas has been retarded by the foreign investments of our federal government. Through the Oil Compact, Texas has been forced to absorb a great percentage of foreign oil, while our own wells have been allowed to produce on the maximum of only 10 days a month. In my opinion, this is not fair to our area.
 I believe that the cattlemen in our district have a just complaint over the importation of foreign beef, and that the farmers of our area have been denied support and encouragement to raise sugar beets and other crops because of foreign imports.
 I am concerned that our district has lagged behind in the development of Interstate Highways, and in industrial development until this political year.
 Very truly yours,
JOE PHILLIPS

**H. R. Minors, Here 61 Years,
Tell Of Early New Home Days**

Mr. and Mrs. Henry R. Minor, 69 and 82, respectively, 1821 North Second, have been in Lynn county 61 years, have been married 57 years, and have seen this country develop from a sparsely populated grass land to the present agricultural empire.

In fact, the couple met and married here, raised their family here, and were instrumental in establishing the first school at New Home. They have lived here since 1903, except for an ill-fated one year spent in Old Mexico.

H. R. Minor was born at Brushy Knob, Ellis county, April 4, 1875, his parents having migrated to Texas from Arkansas. On reaching manhood, he was married to Mollie Osborne in Rains county. They moved out to Jones county, where his first wife passed away, leaving him with two children, Mae and Ray. In 1902, he made his first trip to what was to become Lynn county, and the next year he bought a section of land at present New Home through the late Charley Brown.

Minor Comes West

West Texas was then a vast expanse of land, principally used for ranch purposes. This land was destined to become one of the greatest agricultural areas of the state, and many farmers in the East were waiting for the country to be opened up for settlement by the State. Some of this land could be filed on in one, two, three and four section blocks or patented land could be bought at a very reasonable price.

Minor was one of these pioneer farmers who was longing to come West. He contacted Charley Brown, who had come out from Brown county with the George Smalls and was engaged in the land agent business. Brown helped him locate the section he wanted in the northwest part of Lynn, where New Home now stands.

Pays \$2.10 Acre For Land

He bought this section from Rev. J. R. Miller, pioneer Baptist preacher and owner of the old Dixie Ranch, for \$2.10 an acre. Dixie Ranch adjoined T-Bar on the north. Slaughter's Tahoka Lake ranch was to the east. The Deuce of Hearts, J. K. Milwee and Albert Taylor ranches were to the west.

Realizing there was much to be done before he could make this a home, Minor found that water was the first problem. Bill Davis was soon on hand, and in two days had drilled a well that furnished plenty of good water.

Next problem was a house, or shelter of some kind. All lumber and supplies had to be freighted from Big Spring with teams and wagons. The lumber was very soon on the ground, and the 8x12-foot house he built served as living room, dining room, kitchen and bedroom.

Many Hardships

There were many hardships to overcome, but Mr. Minor was young and full of energy in those days, and was willing to work. He set out to clear the land of scrub mesquite, which had to be grubbed. After a time, this land was ready for a crop, and from the start in 1903 this land promised to be worthy of all the work that was put in on it.

In the meantime, Beatrice (Bessie) Taylor had been born on Sept. 24, 1882, at Field Creek, Llano county. Her father was a Civil War veteran, a farmer, and a Baptist Church missionary.

On reaching young womanhood, in 1903, Miss Bessie went out to Buffalo Gap, Taylor county, to visit an older sister, Mrs. Mary Slaughter. While there, the Miller family wrote for her to come out to Lynn county to help care for an invalid child. Two of her sisters, Nannie and Clementine, had married two sons of Rev. and Mrs. J. R. Miller, Leon and J. K. "Dub," and Leon had been elected

the first county treasurer of Lynn county, just organized that summer.

Peeps Through Keyhole

She rode the train to Big Spring, where she was met by her brother-in-law, Leon Miller, driving a hack. En route to Dixie Ranch, they spent the first night at Gooch Ranch, west of present O'Donnell, and came by the new town of Tahoka, "just a wide place in the road." Next stop was Miller's Dixie Ranch, 10 or 12 miles north of Tahoka, where she was to make her home until married.

One day, Charley Brown brought a prospector to the Miller home. While the men were talking, Miss Bessie peeped through a keyhole and saw her future husband, Henry Minor, for the first time.

Married in Pasture

Nearly four years later, on May 1, 1907, the two were married in the Rieger pasture up north of New Home by Rev. B. M. Dixon, Baptist minister, who came down from Lubbock to tie the knot. Witnesses were the Miller families and Mr. and Mrs. J. F. McManis. All had gone out in buggies to meet the preacher.

They set up housekeeping on the New Home section, and Mae and Ray came from Snyder to live with them.

There was a new problem be-

coming acute as several settlers with children had moved in. The Minors had Mae and Ray, and there were the Jack Whites with about five, Jim and Sam Smith with three or four each, the Hiltons, Herrons, Renfrogs, Izards, McManises, Stuarts, and others with kids.

Build First School

A group of parents got together and made arrangements for a school house to be built. Mr. Minor furnished the land, the northwest corner of his section. Ed McManus, who was freighted at the time, hauled the first load of lumber from Big Spring, and the men built a one room school, which also served as a place of worship and a community center. The school was first called Minor, but later changed to New Home.

Mr. Minor and J. M. Herron were first trustees. Miss Dora Burdett was selected as first teacher, and the Minors recall that some of the other teachers that followed were Miss Mary Howell, Miss Ethel McCarley (Mrs. Walter Slaton), and Mr. Phillips, and Mr. Nunnally.

School Enlarged

Soon, more room was needed. The first building was blown down by a storm, and a larger frame building was erected, which stood until the first brick was built in the north part of town in the 1920's.

The Minors tried to leave old Lynn county once, but they were so glad to get back that they have never wanted to leave since. It was in 1910, that they moved to (Cont'd. on Back Page)

Parallel terraces are proving to be real assets on the farms in Lynn county Soil Conservation District, technicians say.

They are much easier to farm because of eliminating point rows between terraces that exist on conventional terraces. Parallel terraces may cost a little more to construct if land leveling is necessary between terraces and can not be constructed at a low cost on all farm land that needs them.

However, where parallel terraces can be built economically, they save the farmer a good percent of his time and cost later on. The Soil Conservation Service has assisted building some parallel terraces under the Great Plains Conservation Program and some under Agriculture Stabilization Conservation Service.

The SCS recommends to farmers who need their land terraced to check out the possibilities of a parallel terrace system on his farm.

YOU MAY VOTE AS YOU PLEASE ON NOVEMBER 3RD!

There is no legal requirement—no moral obligation

Regardless of how you have ever voted ...

Or in which primary you voted ...

Or whether or not you voted ...

Or how your poll tax receipt was stamped ...

YOU CAN VOTE FOR ANY CANDIDATE OF ANY PARTY ON THE NOVEMBER 3RD BALLOT

Governor Price Daniel, while Attorney General, wrote an opinion on the question of party loyalty in which he said, "The courts of Texas have answered this question by holding that the pledge taken at the time of voting in the primary election DOES NOT create a legal obligation."

Governor Daniel repeated that opinion by saying that the pledge on the primary ballot does not obligate anyone "legally or morally" to vote for the Democratic ticket in the general election.

H. R. Minors . . .

(Continued from Page One)
Old Mexico, a story we'll relate next week.

Like other first settlers, the Minors went through all the hardships such as droughts, hail and sandstorms, worms in the crops, rattlesnakes under the floor, long slow wagon trips for supplies, cotton picking and maize heading and low prices, and depressions. But, they managed to stay with the land and the land stayed with them.

Organize Baptist Church. Rev. Miller helped organize New Home Baptist Church in 1906, but before that Mrs. Minor recalls that services were held in homes over northern Lynn county. Sometimes they went to Slide, New Lynn, or Tahoka to church, and recalls services being held away over to the east at the Hatchett and Walter May homes.

Mr. Minor traded the New Home place to J. R. Strain in 1936 for a farm at Midway, to which they moved in 1938. On retiring in 1948, they moved to their present home in Tahoka at 1821 North Second street. They sold the Midway farm this year, but they own a small farm in the Lower Rio Grande Valley that produces two to three bales of cotton per acre.

Mr. and Mrs. Minor have four living daughters of their own, Mrs. Oscar (Lenna Vae) Arman of Midland, Mrs. Neva Campbell of Lubbock, Mrs. Horace (Ava Marie) Askew of Fort Sumner, N. M., and Mrs. Merl (Ina Faye) Stevens of Pueblo, Colo.; and Mr. Minor's daughter, Mrs. Alphas A. (Clara Mae) Michael of Odessa. One daughter died as a child, and Ray Minor died in a construction accident at Cisco in 1922. They have three grandchildren and four great grandchildren.

Next week, The News will tell the interesting story of their year in Mexico.

G. H. Spears was dismissed from Tahoka Hospital Thursday where he had been a medical patient for five days.

At each place, Phillips spoke briefly on the return to "responsible conservative and sensible practices" in Federal government, a cessation of foreign aid to Communist countries, and establishment of a definite foreign policy.

THE THINKING WOMAN'S

MAKE-UP STRATEGY

A beautiful woman walks into the room. She has that cool, poreless, melted pearls complexion that makes men effuse... women charthouse. A luminous radiance lights her face, star-dusts her eyes. Later, you wonder, "Was she really all that beautiful—or did she just seem beautiful?"

Illusion. All magnificent illusion. Her secret? **Make-up lighting**... a camouflage long practiced by photographers, models, great actresses. Now you, too, can play these make-up tricks with wondrous **JACQUET Translucid Foundation** in White Magic. Working on a light-refracting principle, the white under-foundation blots out the unbecoming... soft focuses the complexion in a flattering new light.

Completely non-detectable, **JACQUET Translucid White Magic** is worn right under your Translucid complexion color. This is the first foundation *chiffon-sheer* enough to be worn in 2 tones—white and a flattering complexion tone.

JACQUET'S wonder-under make-up creates some amazing illusions; White Magic whites out shadows under eyes, dark circles, little age-insinuating lines. Blemishes fade politely. Use a pink tone Translucid over the White Magic and sallow skin—fin!

White Magic is like giving yourself hours of beauty sleep in a few seconds! Drying? Quite the contrary! **JACQUET Translucid Foundations** contain effective ingredients to keep your skin delectably dewy all day. It will never cake or change color. Choose from seven outrageously beautiful shades... created to color-bathe your complexion in the most flattering light imaginable!

Why Pay Twice?

You already pay taxes to support a generous federal-state medical program for those over 65 who need it. Why pay again for a plan that isn't needed?

Surprised? Chances are you never heard of the Kerr-Mills Law, passed by Congress in 1960. We call it... Health Opportunity Program for the Elderly.

This program enables individual states, with federal assistance, to guarantee to every elderly person who needs it the health care he or she requires. Thousands of people every day are being helped by its broad benefits.

Yet, the supporters of the proposed Medicare Tax would have you believe that its passage is urgent...that persons over 65 are deprived of needed medical care because they can't pay for it.

So why pay twice? Find out about the health program you're already supporting. For information on health care for the elderly in your area, ask your doctor or contact your local medical society.

Plains Beats Tahoka 35-0 In First Conference Game

Tahoka Bulldogs went to Plains Friday night with high hopes of starting off the 5-A Conference season with an upset. But the tired up Cowboys, playing before a homecoming crowd, handed the Lynn county boys a stunning 35-0 defeat.

Most of the season, the Bulldogs have had a fine defense but little offense. Friday night, they just couldn't seem to get their defense working properly. The Cowboys scored on a 37-yard run, a one-yard plunge, a 10-yard run, a field goal, a 76 yard punt return, and a 65-yard return of an intercepted pass.

Tahoka's offense was hurt by the loss of Danny Coburn early in the game and defensive specialist Rett Patterson went out shortly with a shoulder injury. Also, unable to play were Milton Edwards, suffering from boils, and Tommy Kidwell and Mike Reid, both of whom received injuries in practice last week.

But, this is taking nothing away from the Cowboys, who just ate

the Bulldogs up, taking advantage of miscues and poor tackling.

Opening the game, Tahoka and Plains exchanged the ball twice, Chapa making one first down for the Bulldogs; but each team was forced to punt twice. Then, Plains' Dan Smith covered a Tahoka fumble on the Tahoka 37. On the next play, FB Joe Dan Cook went through left tackle, evaded a bunch of Bulldogs and raced in to the goal line. Attempted conversion kick was blocked.

Tahoka couldn't move, Davis got off a 50-yard quick kick. Plains started its first consistent drive, marching 75 yards to score, with QB Jack Lowe bucking in the last yard early in the second quarter. Kick failed. Score 12-0.

Tahoka started a passing attack, Jim Wells caught one from Harvick for 14, but the attempted drive failed, and soon Plains was off on a new drive, this one for 80 yards with Cooke doing most of the carrying and HB Dennis Crutcher going the last 10 yards. End Butch Gayle kicked, and Plains led 19-0 at halftime.

In the third quarter, Tahoka stopped the first drive, but couldn't move and Harvick got off a 60-yard punt. However, Cooke ate up yardage in two good runs, and when Tahoka defense tightened, Lowe kicked a 34-yard field goal. Score 22-0.

The fourth quarter was a wild one with Tahoka taking desperate measures to get on the score

O'Donnell Plays Plains Tonight

O'Donnell Eagles entertain the Plains Cowboys as a feature of the school's annual Homecoming festivities, and prospects are none too good for an Eagle victory.

O'Donnell has lost six and won none, while the Cowboys have won five and lost one.

The Eagles lost their 5-A conference opener at Stanton Friday night to the Buffaloes by a score of 27 to 6. But, the Eagles threw a scare into the Buffaloes early in the game when Bud White scored on a 72-yard pass play. Stanton tied it up soon later, scored again in the second period and twice in the fourth.

However, the game was much better than the score indicates, as the Eagles made 16 first downs and 321 yards offensively to 17 first downs and 367 yards for Stanton.

Fen Taylor, the Eagles' ace who has been out with injuries, was rated by Stanton as the outstanding O'Donnell defensive man.

Muslims of ancient Dacca were the sheerest ever known.

board. Tomlinson had intercepted a pass to stop Plains once, and now Mike Curry covered a fumble to stop another. Plains got off a long 52-yard punt.

Now, Harvick punted back on fourth down 42 yards to the Plains 24, where Freshman Halfback Gregg Jones fumbled the ball, finally picked it up, the Bulldogs thought the official had touched the ball and ruled it dead; but, instead, Jones took off, to his right, blocking for him formed, and he zig-zagged 76 yards to paydirt. The kick was no good. Score 28-0.

After being set back twice by penalties, Adolph Chapa turned in two fine runs totaling 40 yards, but the Bulldogs bogged down on the Plains 46. Then, with less than a half minute left, Linebacker Calvin Smith intercepted a Harvick pass, raced 65 yards for a TD, and this time Lowe's conversion was good. Final score 35-0.

Tahoka really threatened only once, in the second quarter, when Chapa went for 8. Plains was penalized 15 for roughness, and Wells took a 14-yard pass. With a first down on the Plains 22, one running play was good for two, then three passes were incomplete, in the end zone.

Tomlinson got in a few short gains, but Chapa was the only boy picking up much yardage for Tahoka. Wells caught five passes for a total of 61 yards. Harvick looked better throwing than any time this season, but still the Bulldogs had trouble snagging them. Freshman Cliff Thomas played a part of the game.

Exes At O'Donnell Honor Class of '39

Homecoming for O'Donnell High School has been set for October 23 with the graduating class of 1939 to be honored.

Homecoming events include a pep rally at 3:00 p. m. tour of the school plant. A District 5-A football game between the O'Donnell Eagles and Plains Cowboys will climax the day at 7:30 p. m.

A reunion reception will be held in the school cafeteria following the game. It will be prepared and served by the O'Donnell Young Homemakers Club.

All ex-students are urged to attend this reception and to join the Ex-student Association.

New Home Wins Over Anton 16-0

Enthusiasm in the New Home Leopard camp took a big rise Friday night as Coach Maurice Warren's boys took a 16 to 0 victory over the Anton Bulldogs.

Today, the Leopards entertain Cooper Pirates in the first 3-B conference game. The Leopards have won two and lost three. For comparison, Cooper and Anton tied 6-6 on Sept. 25.

New Home's first score in the game Friday came in the second quarter when Halfback Kenneth McClung went the last eight yards, and Lonnie Ford ran over the conversion.

In the fourth quarter, Fullback Dickie Turner went the last 15 yards to score for the Leopards,

Mustangs Win Over New Deal

Wilson Mustangs took an easy 32-14 victory over New Deal Friday night, and are scheduled for a warm-up game with Crosbyton B team tonight in preparation to District 3-B conference season.

Coach Doug Duncan's Mustangs, defending district champions, let a Lion get loose on an 80 yard touchdown run from a kickoff, and gave up one successful scoring drive, but otherwise it was just about all Wilson, fans declare.

Royce Baker and Sammy Crowson teamed up to take care of the Wilson scoring duties as the Mustangs coasted in for the victory.

New Deal, however, was playing without the services of its high scoring top back, Randy Peoples, out with an injury.

Mauldin Winner In Golf Meet

Mack Mauldin, formerly with Lynn County Soil Conservation District, was winner of the golf tournament Friday at Amarillo Country Club for 48 players in a Gifford-Hill Western salesmen's contest. Mauldin joined the company only a few weeks ago.

The tournament was held in connection with the fifth annual Salesmen's Banquet of the company, states Joe D. Unfred, now public relations man for the firm. The banquet honored the top ten salesmen of the company.

Joe D. Unfred made the golf presentations at the banquet. He says he was named "public relations man, Ltd." on October 1 for Gifford-Hill Western.

MARTIN WUENSCH HERE

Mr. and Mrs. Martin (Junior) Wuensch and two children of Bismark, Ark. were here last week end visiting the Stakeup and Wuensch families briefly. They are considering moving to Dallas, Junior says.

Cotton is the top "cash" crop.

Early History Of Area Related

Some early day history of the Plains and Lynn county, including the so-called "Lost Negro Expedition" of 1877, was recounted by Frank Hill at Tahoka Rotary Club last Thursday.

He told briefly of visits by the Spanish, beginning with Coronado's expedition more than 400 years ago, down to the coming of the ranchers and the farmers.

Alton Cain, in charge of the program, introduced the speaker. President Wilton Payne read a letter of appreciation to the club, town, county and American people from Guido Pabis of Rome, Italy, student guest of the club last summer. He also read a certificate presented Harold Green of the club by Experiment in International Living in appreciation for helping promote the program.

Student guests for October, Mike Reid and Stanley Price, were introduced by A. M. Bray.

A great number of Lynn county citizens are disillusioned by and disappointed in most of our national leaders. They don't like the trend of government. We know a lot of responsible people in Lynn county are concerned, because they tell us they are. Some say they can not vote for Johnson and Humphrey, some say they will hold their noses and vote the ticket straight, and a few say they're going all the way with the liberals.

While our leaders dilly-dally and talk big. Communism spreads to within 90 miles of our shores, where a little pip-squeek confiscates American property, hurls insults at Uncle Sam, and old Uncle is afraid to move for fear Russia will retaliate.

We have had documentary evidence presented by U. S. Congressmen of Communist sympathizers and influence in the State Department. Our president brags about our strength while we are still having American boys killed by Communists in Southeast Asia in a war we apparently don't intend to win. We are still trusting Soviet leaders when their entire history has been one of lies, lies, lies. And, we continue to send American dollars to Communist countries who have promised to bury us.

Many people have questioned LBJ's past political integrity. Latest question mark is the Walter Jenkins case. There has been no satisfactory answer to corrupt Bobby Baker's relationship to the President, who said, "Bobby is the last man I see at night and the first I see in the morning." Others wonder how he has been able to get a monopoly in the Austin area in television and radio rights, the only such area monopoly in the United States. Then, there are his complete reversals on states rights, aid to Communist nations, and Civil Rights. Eighteen times, he voted against mild civil rights bills and then came up with a proposal far more radical than any previous rights bill. Also, subject to question are his new proposals for big spending on poverty, medicare, aid to cities, and his proposals for more and more federal control in many areas.

Less said about Hubert Humphrey the better. He's one of the organizers of the socialistic, Communist-appealing ADA, and the man who said four years ago let the South get out of the Democratic party if it didn't like the ultra-liberal line.

But, if the polls are right, the liberal pitch is appealing to voters in great numbers, and we're going to have some more of the same.

We can not conscientiously vote for Ralph Yarborough for senator simply because we do not believe he represents the people of our area. His voting record has been, from start to finish, with the ADA and other ultra-liberals, party bosses, Union Labor, NAACP, and for every big-spending bill that has come before Congress. He supports give-aways to foreign nations, even to the Communists. He supports Union Labor in doing away with bracero labor, and has promised the Unions he will support the move to unionize farm labor.

We believe George Bush, the Republican from Houston and Midland, is a better Democrat than Ralph.

Can you imagine Hubert Humphrey calling somebody a radical? But, there's that old saying about the pot calling the kettle black; and that saying about everyone being a radical but you and me and sometimes I think you are radical.

Our old friend Fred Mathews of Ontario, Oregon, the former Grassland political seer, writes his prediction that Goldwater will carry six states, Alabama, Mississippi, South Carolina, Louisiana, Arizona, and Utah; that Johnson will carry the other 44. Fred was at least 30 years ahead of the times, as he advocated a lot of the liberal programs 30 to 40 years ago that the Democrats have now adopted—and local people called Fred a Socialist. On second thought, we don't believe Fred ever advocated any such idea as the U. S. trying to support the rest of the world with aid, or even the public accommodations idea, or medicare, or a poverty program.

Jack Blevins says there are about 150 people of the New Home area engaged in the sport of bowling and they are having a great time.

Winston Wharton brought us some of the most delicious cantaloupes we ever ate, raised on his farm north of town. He also brought us a big yam 13 inches long and 15 inches in diameter. He has been raising vegetables commercially for several years, but says there are many hazards involved. Anyway, he is proving that the finest of vegetables can be raised here profitably.

Charles and Faye (Nurdyke) Kennedy of Lubbock write that they enjoy The News very much, including The Inklings. They hope to be here for homecoming.

A young mother was changing her baby while a four-year-old relative was watching. When she neglected to sprinkle the baby with powder, the youngster asked, "Aren't you going to salt him this time?"

Did you hear about the Hollywood youngster who was so proud because he had the most parents at the P.T.A. meeting?

Now, they tell us they have discovered a new cigaret with a filter that also contains a tranquilizer. You may still get lung cancer, but you won't give a darn.

Rodney Maeker Is College Choir Head

Seguin—Membership in Texas Lutheran College's A cappella Concert Choir carry the names of 49 selected undergraduate students who have auditioned before Director Walter Farrier.

Rodney Maeker, son of Mr. and Mrs. Edmund Maeker, Wilson, is president of the TLC Concert Choir for 1964-'65. He is a senior sociology major. Maeker attends St. John Lutheran church in Wilson where he has presided over several youth organizations.

For its 36th annual tour the Southwest's oldest touring college choir will visit South Texas cities from April 10-19, 1965. (Holy Week) starting in the Houston area and ending in the Rio Grande Valley.

The TLC Concert Choir was founded in 1929 by the late Dr. Hugo Gibson. It has performed in most of the 50 states, Canada and Mexico.

Tax Advantages For Some At 65

"The way farmers utilize the 1964 Income Tax Regulations will determine their net farm income for 1964," says John J. Seibert, Area Extension Farm Management Specialist, Lubbock. "Changes in this year's internal revenue code can be beneficial to the taxpayer where certain qualifications are met."

The payment rate schedule on taxable income has decreased from that of 1963. This means less tax is due for those who have the same taxable income as 1963.

Tax Advantages for "Sr. Citizens"
Farm people over 65 years of age can have an additional tax advantage if they have sold their personal residence during 1964. Part of the gain can be excluded from taxable income if the sale price exceeded \$20,000, or all of the gain can be excluded if the sales price was under \$20,000. This exclusion applies to a one-time sale of residence after the taxpayer is 65 years of age and if the home was used as a residence at least 5 of the last 8 years preceding the sale.

Taxpayers sixty-five years of age or over may deduct all medicine and drug expenses from income for tax purposes. Prior to 1964, the amount deductible was that amount in excess of 1% of the adjusted gross income.

Individuals with large fluctuations in income may be eligible for the income averaging provision. If "averageable income" is more than \$3,000 (excluding capital gains, wagering gains and income from gifts and bequests, etc.) a taxpayer's tax liability may be reduced.

Cheerful songs of tree frogs are heard most often during damp weather and before a storm. Thus the frogs have been given an undeserved reputation as weather prophets. But really it is only because they are stirred to life by unusual moisture in the air.

Although there are over 500 different species of hummingbirds, the only one you are likely to see east of Texas is the ruby throat.

Visitor in Tahoka Recalls Discovery Of Silica Here

An Arizona lady who once lived south of Tahoka was here Friday and declared she was the first person to recognize the value of the silica deposits on the old J. B. Nance farm.

She is now Mrs. L. A. Hickman, but back in 1929 she was Mrs. Roy Saxon. She and her husband then operated the service station on the Nance farm, which was then owned by V. S. Cassel, then a Tahoka ginnee and later a gin owner at Littlefield.

She said she mailed a sample of the silica to Washington, D. C., for analysis, which action caused the fine quality of the sand to become recognized.

Several efforts were made over the years to develop the rich deposit, some heavy machinery was moved here to mine and process the silica, but a succession of promoters finally got the mineral right and equipment into a legal tangle, and the deposit has never been developed.

She and her present husband were en route home from a visit back east, and she came by Tahoka to see if she could establish definite as to the ownership of these minerals. She says she was given half the mineral rights by Mr. Cassel.
