Officers Break City Theft Ring

A theft ring operating here for at least two or three months was believed to have been broken up here last week with the arrest of two men and two boys, all Latin Americans.

Police Chief Jack Miller and Deputy Sheriff "Son" Guin broke up the theft ring and have recovered much of the stolen goods, and are said to have put in many hours on the cases.

Charged with theft are Ray Flores, about 38, and Jose Daniels, about 30, and their cases will be presented to the grand jury, states County Attorney Harold Green.

Flores has previously had a burglary charge probated, but served a term in the penitentiary on another burglary conviction as a result of entering the Claude Donaldson office a few years ago. Flores faces possible conviction as an habitual criminal.

Also charged in the thefts is Jose Daniels, whose bond has been set at \$1,000.

The two youths are 15 and 16 years of age and will be dealt with in Juvenile Court before Judge W. M. Mathis.

The group has signed statements admitting many thefts over the period, principally of car, truck and tractor batteries totaling about 15, tires, tubes, wheels, greases, battery chargers, tools, radiators, etc. They have been selling much of the loot to a local Negro, who in turn has been selling the stolen goods in Lubbock. He, too, faces possible charges. Much of the stolen goods has been recovered.

Loot has been taken from B. A. Young's farm and garage, Tatum Bros., Farmers Co-op, Gibson's, Buck's Body Shop, and other places.

Local Farmers Protest Cuts In Price Support For Cotton

Slightly more than 100 farmers and businessmen braved the 13-degree blizzard and rejected the opportunity to watch the Tech Baylor game on television Tuesday night in order to attend the Farm Program protest meeting in Tahoka school auditorium, sponsored by Young Farmers and presided over by Calloway Huffaker.

Following the meeting, most of those present signed a petition to President Johnson, Senators Yarborough and Tower, Congressman

Mahon, and Secretary of Agriculture Freeman requesting the Administration to "take proper steps to remedy the discrepancy between the over-all cost of production and the price which the farmer is receiving for his products, and particularly to rescind the price cuts of 1964 and 1965."

The petition further asked the Administration "to direct an examiner to hold public hearing throughout the cotton belt to develop full, complete and true facts

concerning the over-all economic condition of the farmers in the upland cotton belt."

In opening remarks, Huffaker pointed out the crisis presented by the current price squeeze on the farmer by higher costs and lower prices and allotments, and declared even up in counties like Lamb and Hale, where a big crop was produced through irrigation this year, farmers are facing disaster. The \$12 to \$15 per bale cut last year and the proposed \$5 per bale cut this year has the farmer in a tight spot.

Dr. Willard F. Williams, head of the Agricultural Economics department of Texas Tech, presented a learned analysis of cotton economic problems from the standpoint of an educator. He said he had no axe to grind and simply was presenting facts to help guide thinking in the cotton crisis.

Following his talk, three local men spoke briefly.

Clint Walker, representing business interests, said everyone in this area, regardless of vocation, is in the same price squeeze—the businessman is affected the same as the farmer. The price reduction on cotton in 1964 cost Lynn county \$1,300,000, he said, and the proposed additional cut this year will cost at least a half million. Considering the fact that an earned dollar is said to change hands seven times before it finds a home, he said we lost \$10 million in 1964.

Speaking from the farmers' standpoint, Cleve Littlepage said (Continued on Back Page)

Five Men Sent To Penitentiary

Five men were assessed terms in the state penitentiary Saturday on pleas of guilty in 106th District Court before Judge Truett Smith, according to County Attorney Harold Green.

Another man's probated sentence was revoked.

James D. Young of Posey charged with the theft of a television set from Echo 87 Motel here on June 24, was assessed a term of five years in the penitentiary.

John Melcher, Wilson, was assessed two years for driving while intoxicated, second offense.

Ernest Tealer, Austin, was given a two year term for forgery. He pleaded guilty to passing a forged check to Nelda Brent of Brent's Grocery, New Home, on October 9, 1964.

James Lacy DeMoss and George Wayne DeMoss, brothers from Corsicana, entered pleas of guilty to burglary of L. M. Lockaby's barn on July 8 last year. James was assessed a five year term and George a three year term.

The court revoked the three year probated sentence of Loyd Thomas McGary of Big Spring, found guilty of burglary of L. D. Jackson's Cafe at O'Donnell. McGary had failed to pay court costs and make restitution.

John Wells Is New C. of C. President

Nearly three hundred people turned out Monday night for the annual Farmer-Businessman banquet of Tahoka Chamber of Commerce in spite of several conflicting affairs, saw new officers installed, heard a humorous talk, folk music, a prize winning essay on conservation, honored a father-son farming team, and enjoyed visiting with friends.

John Wells, native of Tahoka and associated with Tahoka Drug, was installed as the new C. of C. president succeeding Harold Roberts, who was master of ceremonies at the banquet, held in the school cafeteria.

Robert and Vernon Lusk, the father and son, who farm 480 acres of irrigated land west of Grassland, were presented plaques by Blake Lovelace, soil conservationist, as the "Outstanding Conservation Farmers of the Year," selected by the board of Lynn County Soil Conservation District. Lovelace said they had done an outstanding job in building up fertility of their soil.

Miss Doris Behrend of Wilson was winner of the school essay contest on "Conservation, Our Insurance." Marilyn Wuensche of Wilson placed second and Luciano Soliz of Tahoka was third. Ward Eakin presented the winners with cash awards. Miss Behrend read her essay. Thirty-one students entered the contest.

Dr. James H. Granberry, orthodontist, Lubbock's outstanding young man of 1963 and one of five "outstanding young Texans of 1965", and past Jaycee president, was introduced by Dr. Gerald Wood, a college classmate.

The speaker, using a lot of wit and wisdom, pleased the crowd in a talk on the theme that six attributes are important in the development of an individual or a community, namely, Tolerance, Appreciation, Humility, Optimism, Kindness, and Attitude. In closing remarks he called attention to the fact that the first letters of these six attributes spell TAHOKA.

Wood also paid honor to Harold (Continued on Back Page)

Antique Items In Wilson Store

(By Mrs. Ted Melugin)
 The night of Saturday, Feb. 20, will long be remembered by the citizens of Wilson, Lynn County and visitors from surrounding towns, who participated in the Grand Opening of the Wilson Mercantile Store and Museum sights. They turned back the hands of time, and stepped into the 19th Century for a gala event that lasted from 7:00 until after 11:00 p. m. with all the employees and store operator, John Ramby, dressed in colorful 19th Century attire, from high topped buttoned shoes to dresses with bustles and gay flowered hats.

At the soda fountain, bartenders were serving coffee that had been freshly ground on a coffee mill purchased at a French Market in New Orleans by General Zachary Taylor. The Mercantile Store was proclaimed as a "Unique Institution" by Dr. J. W. Albert Richardson III, Antiquarian for the state of Louisiana, due to the valuable museum pieces that are represented.

The highlight for the festivities was the arrival of Mrs. W. D. Green of Lubbock, who is the proprietor and daughter-in-law of the founder of the town. She arrived with a group attired in colorful costumes riding in a 1940 Buick. The distinguished guests in the group were Dr. and Mrs. Clifford B. Jones, Mrs. Agnes Hemmle, Dr. and Mrs. William E. Oden, Mrs. Vernon Harris, Dr. and Mrs. W. C. Holden, Mrs. W. G. McMillan Sr., Dr. and Mrs. J. H. Stiles all of Lubbock. Wilson residents in attendance were Mayor Alfred Crowson, Doyle Woody, deputy sheriff, Dan Cook, president of Wilson State Bank; Mrs. L. Lumsden, first settler in the spring of 1907.

Bernie Howell of Lubbock provided the musical entertainment, on the piano, for the evening. Masters of Ceremonies were Dee Bowman and Jim Hughes of Slaton radio station. Dr. W. C. Holden, director of the West Texas Museum, traced back the history of the area in his speech, to the time of Coronado, to the advent of the settlers who came for ranching purposes to this region in 1907-1909. There were more than 500 persons in attendance at the grand opening of the store.

The grand door prize of groceries was won by Mrs. Selma Talkmit of Wilson.

The Coast Guard icebreaker Northwind and the Navy icebreaker Burton Island became the first vessels to traverse the previously impassable McClure Strait, the ice-locked western entrance to the Northwest Passage in the Canadian Arctic on September 4, 1954.

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

During the recent election a great deal of oratory was expended on what is fascism and what is communism.

Yet to the average person, on reflection there is basically no difference between the two. Both are based on the right of a state to control the lives of their people, and neither one hesitates to employ mass murder.

In addition to the gulf between them has never been too great ideologically; they have only clashed when personalities disagreed. Thus, when Germany was held down on military force before World War II, German soldiers were trained clandestinely on Russian soil. Hitler and Stalin agreed to divide up Eastern Europe, but eventually thieves fell out.

After World War II, the great German monopoly of Krupp was broken up. Alfred Krupp was sentenced to 12 years in jail for war crimes, but released after six.

Just recently it was announced that Krupp had regained control of the Westphalian Wire Industries at Hamm, which he had previously sold to a sister and a nephew. This added to the real points he had previously acquired; plus the engineering firms, and some other steel plants, resulted in the full restoration of the Krupp monopoly empire.

It is important to bear in mind that this was done with the knowledge and tacit consent of the American State Dept. to defend against communism.

Now it is interesting to compare theory with fact.

Krupp has become the world's largest supplier of factory installations to the communist bloc. It has built polyester fiber plants for Bulgaria, synthetic fiber plants and a steel mill for Russia, a tire factory for Romania, an oil refinery for Hungary and miscellaneous industrial plants for Poland and Czechoslovakia.

So Krupp which supported the NAZI outrages, and bears a mind NAZI is merely an abbreviation of what was called the socialist party in Germany, is now supporting the socialist states under communism.

Basically, to the Krupp mind there is nothing wrong with a socialistic order, as long as a monopoly is permitted to exploit the people.

In a fascist set-up, the political leaders know they do not have the ability to run the economy, therefore they control the people by letting economic monopolies oppress them. In communism, political leaders fail to recognize their lack of ability to run the economy and they oppress the people.

Thus, fascism is more economically efficient, while communism is economically inefficient. But the firing squads of both regimes show equal efficiency in liquidating opposition. This analysis points out the vital importance of enforcing U.S. antitrust laws.

MRS. SPEARS TRYING OUT NURSING HOME

Mrs. G. H. Spears has entered LaVoy's Nursing Home to spend a period and says she might decide to stay. She is continuing to show improvement, however.

Mrs. Eldon (Mary Ellen) Gattis stumbled and fell last Friday night near her home, landed on her left shoulder, and broke the member.

She was treated by a bone specialist at a Lubbock hospital, and was able to return home Monday.

Native Of Draw Dies Recently

Mrs. Bob Cleland, 42, born and reared at Draw, died suddenly on February 10 at her home in Bridgeman, Michigan. She was the former Ozella Williams and the daughter of Mrs. Ola Wilkins of Tahoka.

Mrs. Wilkins says Ozella's husband found her dead in the bath tub, apparently from a heart attack. Mrs. Wilkins, on account of illness, was unable to attend the funeral services held in Bridgeman on Feb. 15, delayed for arrival of a son in the service in Alaska.

Ozella Williams was born near Draw on July 29, 1922. She attended Draw school and was married on Feb. 7, 1942 to Bob Cleland. The couple left here about 21 years ago.

She is survived by her husband, two daughters, one son, one grandchild, her mother; one brother, David Williams of Hood River, Oregon; and four sisters, Eva Lay of Hood River, Gladys Fawver of Springfield, Ore., Inez Morgan of Prosser, Wash., and Edna Hulén of Azle, Texas.

GRASSLAND NEWS

(Mrs. O. H. Hoover)

I wish the weather man would make up his mind and give us either hot, cold or medium. Instead, it's cold mornings and hot in the p. m. and you don't know whether to wear overcoat, sweater, or sleeveless outfit. Well, we can't have everything.

Ben Hur Lawson of Los Angeles, Calif. visited his mother, Mrs. G. H. Spears last week. He left Monday. Gene Lawson and sister, Naomi, also went home. They have been here some time with their mother.

Mrs. Spears is in LaVoy Nursing home in Tahoka for the present. She plans to recuperate there for some time, then visit her sisters and children for awhile. She is doing nicely.

Mrs. W. A. Oden was an overnight guest of Mrs. Hoover last Wednesday night.

Mr. and Mrs. Forrest Chapman of Plainview attended church services at the Methodist Church Sunday and then spent the day and evening in the E. M. Norman home.

Mr. and Mrs. Gus Porterfield had lunch Sunday with Mrs. D. G. Cook in Tahoka.

Mrs. Lillian Stevens visited Mrs. Hoover Sunday afternoon.

Mrs. Eunice Thomas has gone to make an extended visit with her children in Lufkin.

Mrs. Lucille Walker has been baby sitting all week for her niece, Mrs. Doyle Rains. She went with her husband to a boxing tournament in Dallas. Doyle is a welter weight boxer.

Cherri Lee Norman was an overnight guest of Karen Laws Friday night.

The Carlos McCleskey family had supper with Mr. and Mrs. Don Spears.

Monday afternoon Mr. and Mrs. M. C. Ritchey, the W. G. McCleskeys and Mrs. W. L. Gribble visited John Warrick at his home in Lubbock. He seemed to be feeling some better.

Wednesday Mr. and Mrs. M. C. Ritchey left for San Benito, Tex.

as. They went in their car. She is in her late 70's and he is 83. They called back Thursday and said they made it fine and Uncle Mac said tell everyone he was full of fish. Such folks should be an inspiration to the rest of us.

Rev. and Mrs. Ira Campbell, Hoolie and Lavern McCleskey and Mrs. Bernice Gribble attended a Sunday School workshop in the First Church of the Nazarene Thursday and Friday of last week.

The James Murray family had lunch Sunday with the W. G. McCleskeys.

Rev. and Mrs. Campbell are going to Oklahoma to transact some business and of course will visit their children while there.

Steve Greer and boy friend spent the week end here. They go to Sul Ross College. Steve's dad, Alton Greer, and the boys had lunch Sunday with Mr. and Mrs. C. M. Greer. Afternoon visitors were Mr. and Mrs. A. L. Faubian and son of Lubbock and Morris McClendon and Larry and Mrs. Nannie Greer of Slaton.

Steve has received quite an honor from Sul Ross. He was on the honor roll first semester. It was not an honor easily won. The Dean said he was one among 15 who achieved this honor. We are justly proud of him. He finished high school in Tahoka.

Tommy Forbes, son of Rev. and Mrs. Ray Forbes of Draw, held the night services at the First Methodist Church in O'Donnell Sunday night.

Mrs. A. Z. Sewell visited Miss Emily Waller and Mrs. J. O. King in LaVoy Nursing Home in Tahoka Saturday afternoon and also visited Mrs. Martha McKay in her home.

The pre-watering of irrigated cropland is an important part of producing high yielding crops. Usually no other irrigation so efficiently uses water as does the pre-plant watering. The subsequent irrigations are applied when the temperature is usually considerably higher; therefore, the evaporation rate is much higher retaining less moisture in the soil.

During the pre-plant watering period the moisture penetration is deeper than other waterings. This deep moisture is very important for late summer use in maturing the crops. It has been proved that crops grown on land not pre-watered will be shallow rooted plants and more susceptible to going into stress in dry periods.

It is very important that plants avoid going into stress periods. In cotton, for example, it is especially important that the plant is not

in a stress during the early fruiting stage. At this time it is very easy to cause the plants to shed its fruit.

Of course it is impossible to grow crops under completely ideal conditions, yet measures such as pre-watering can be taken to avoid as many pit falls as possible.

Program Series Is Continued At New Home YF Meeting

The New Home Young Farmers held their regular meeting Monday night when the second program in a series of three was presented to 12 members and three visitors.

Advantages and disadvantages of partnership and cooperation farming were discussed by a farm specialist of the Extension Service of Lubbock.

The next meeting in March will be the last of the series entitled "Management of the Food Dollar." Both the Young Farmers and Young Homemakers will meet for the program and a supper will be served, according to R. L. Dulin, reporter.

Mrs. Mary Clark, mother of Clifton Clark of Pioneer Natural Gas Co., was taken to a Lubbock hospital Monday with a respiratory infection.

"Mystics" Play At Rotary Club

Tahoka Rotarians voted Thursday to sponsor another foreign graduate student on a summer visit to Lynn county this year, and this will be the 11th year the club has participated in the program.

All ten previous students have come from Europe or England. Each is selected by his country as an outstanding young man or woman. Students are brought here by the club in cooperation with the Experiment in International Living, a non-profit good-will organization.

In brief talks, Harold Green and A. M. Bray presented the proposal to again sponsor a foreign student, and the club accepted unanimously.

Warren Embree conducted the ceremony inducting a new club member, W. O. (Cap) Whorton, who recently moved here from Albany to join his brother, Winston, in the automobile business.

Thursday's program was presented by "The Mystics," a new musical organization made up of high school students. Members of the group are: Tommy Kidwell, guitar and MC; David Rogers, guitar; John Huffaker, saxophone; Mitchell Williams, drums and soloist; and Jimmy Billman, organ.

Although working together only a few weeks, the group proved a hit with the audience and brought repeated applause as they played such numbers as My Blue Heaven, Dream, Money, Under the Double Eagle, Blue Moon, Honky Tonk, Wheel, and There I've Said It Again.

Student guests for the month, Glenn Riddle and Eddie Howard, were introduced by Ralph Beistle and Tom Gill.

Marla Bray, club sweetheart, thanked Rotarians for a Valentine gift.

President Wilton Payne announced the annual 573rd District Rotary Conference will be held in Lubbock this year at Koko Inn on April 1, 2 and 3, and Harold Roberts was appointed coordinator to arrange attendance of local club members.

Mrs. E. A. Hargrave was a medical patient in Tahoka Hospital from Saturday until being released Wednesday.

The men were evaluated as individuals and as a unit operating under emergency conditions. This is the fourth time Airman Murray has achieved the rating.

They are part of the Strategic Air Command force which keeps the nation's intercontinental missiles on constant alert.

The airman is a graduate of Tahoka High School. He is married to the former Johanna Sauer of Germany.

Bi-District Game Here Monday

Sundown and Shallowater, two of the top girls' basketball teams of West Texas, will meet in Tahoka in the Class B bi-district play-offs next Monday night at 7:30 p. m.

Officials of the two schools met Saturday and agreed on the Tahoka gymnasium as a neutral site for the play-off game, according to local Athletic Director Jake Jacobs. The winner will represent this area in the regional meet at West Texas State the following week end.

Shallowater is the champion of District 9-B and is coached by Dalton Morrison, basketball coach at O'Donnell last year. Sundown is champion of District 10-B, its first girls' championship in 20 or 30 years.

Shallowater has won 25 games and lost eight. Three of the losses were to powerful Class A Roosevelt, one to Floydada, one to Post and one to Slaton by one point in an overtime game.

Sundown girls were state Class A champions for three years prior to last year, and dropped down to Class B competition this year.

Admission prices will be \$1.00 for adults and 50 cents for students.

Harlem Stars Are Scheduled Here

The Harlem Stars, billed as the "funniest basketball team in the country," are coming to Tahoka Friday, March 5, under sponsorship of the Tahoka Jaycees and will play a team of local Jaycees in Tahoka school gymnasium at 7:30 p. m.

The Negro stars, who tour the world for exhibition games, are famous for razzle-dazzle ball handling, intricate routines and both planned and impromptu comedy antics.

Admission to the game will be \$1.50 for adults, \$1.00 for students, and 50 cents for children under 12.

Proceeds will go to the Tahoka Special School, members of the Jaycees state.

A team made up of Jaycees and others has been working out in preparation for the game.

The Harlem Stars feature the owner-manager, Boyd Buie, a one-armed Negro that proves that he is no freak traveling with the team, but a basketball player; James (Big Daddy) Batiste, 6'4", of Houston; Bobby (Joe) Hill, 6'4", of Bryan; Henry (Handa) Johnson, 6'3", of Kansas City; Curtis (Young Blood) Williams, 6'5", of California; Taylor (Loud Mouth) Billingsley, 6', of Mississippi; and Delmas (Jr) Scorza, a shade shorter, of California.

The game promises fans an evening filled with an exhibition of fantastic ball-handling as well as a hilarity.

Everyone is urged to attend.

Junior Girls, "B" Boys Second In Two Tournaments

Tahoka junior basketball teams played in the district tournament at Frenship last week end while "B" squads were entered in the O'Donnell "B" tournament.

The local seventh grade girls emerged in second place, losing to Post in the finals in the district event. The eighth grade girls won their consolation game over Post.

Tahoka's "B" boys gained a berth in the finals at O'Donnell but were defeated by the Post "B" team.

Because of a lack of managers during the two tournaments, no score books were kept on the games. However, games won and lost follow:

Junior Tournament
Tahoka seventh grade girls drew a "bye" in the first round of play, then defeated Frenship to get a try at the championship, but lost in the finals to Post.

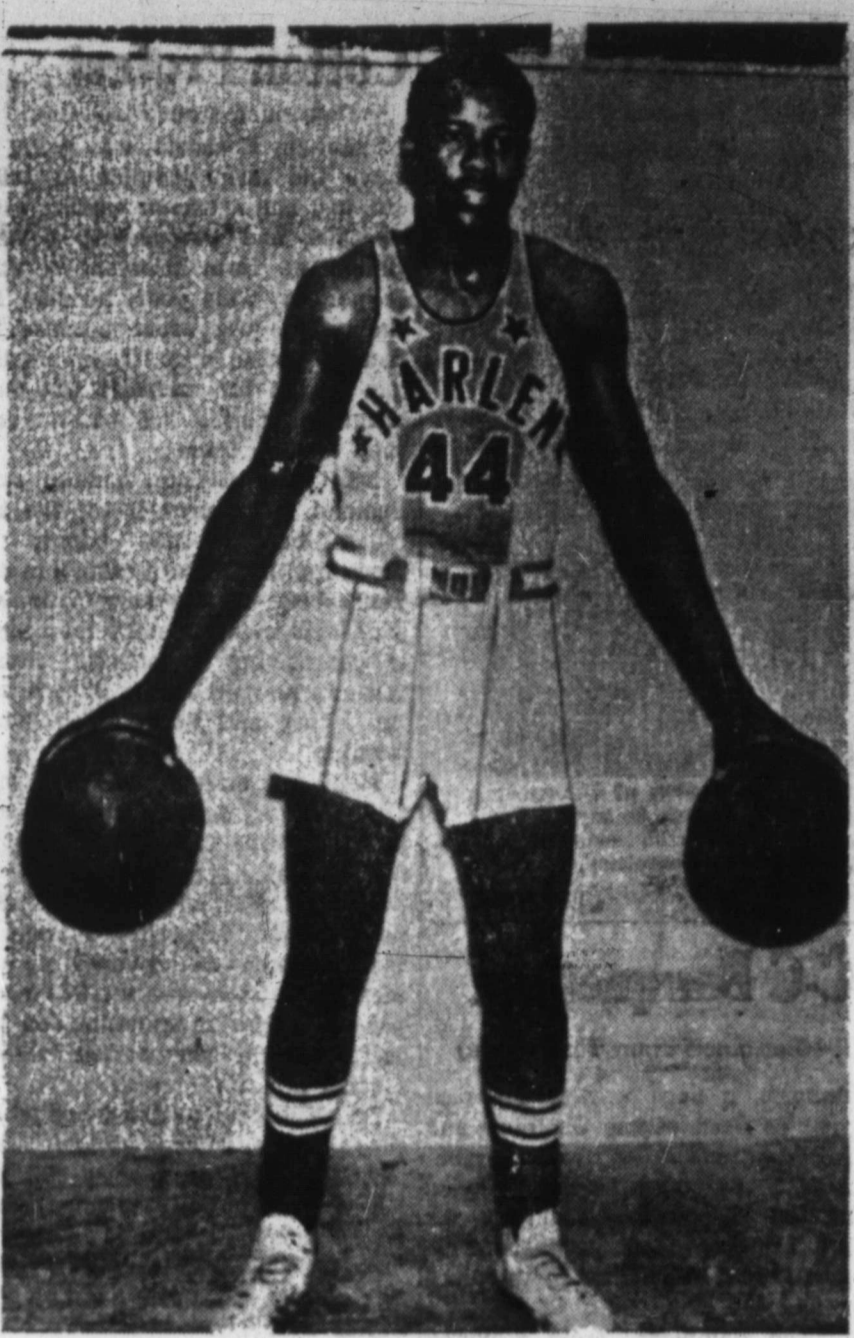

Seventh grade boys also drew a "bye" in first round of play and lost their only game to Frenship in the consolations.

Eighth grade girls lost to Frenship in a double overtime, but defeated Post to win the consolation bracket.

Eighth grade boys lost to Frenship and then lost to Post in consolation finals.

"B" Tournament
Post "B" squad outscored the Tahoka team to win the O'Donnell tournament. However, the local lads had downed Loop and O'Donnell to play in the finals of the event.

The local "B" girls team was not so lucky, losing first to Fren-

Mrs. L. C. Cruce Buried Monday

Mrs. L. C. Cruce, 64, Halfway, Hale county, formerly of Dixie community and grandmother of Elda and Margaret Cruce of Tahoka, died Friday of last week.

Funeral services were held Monday at 10:00 a. m. in Main Street Church of Christ in Olton, and burial followed in Plainview Memorial Park.

A native of Hood county, Mrs. Cruce and her husband and children lived at Dixie several years and at New Home a short time before moving to Hale county in 1943. She had been ill about six months.

Mr. and Mrs. Elmer Sproles, maternal grandparents of Elda and Margaret, accompanied the girls to the funeral rites for their paternal grandmother, mother of their father Bo Cruce, who was accidentally killed about two years ago. Their mother had also died in a car accident about two years prior to their father's death.

Mrs. Cruce is survived by her husband; two sons, M. T. of Lubbock and James of Kress; four daughters, Mrs. Albert Scribner of Olton, Mrs. Prather Standefer of Midland, Mrs. E. L. Noblett of Plainview, and Mrs. Charles Macdon of Lubbock; three sisters, 16 grandchildren and one great grandchild.

Student Body Elects Officers

Phil Adams was named president of the student body of Tahoka High School in an all-school election held last week, as were other officers, to serve during the 1965-'66 school term.

Others elected were Maria Bray, vice president; Stella Howle, secretary; Nancy Parker, treasurer; Paul Douglas Kenley, reporter; and Ronnie Hudgens, parliamentarian.

They will head the Student Council for which representatives will be chosen next fall.

The election created a high pitch of excitement with campaign speeches, candidate cards, posters, etc., and second and third run-offs were necessary in several of the races. Only officer named without a run-off was the president, who was running against only one other candidate, according to Jesse Limon, the current Student Council reporter.

Adams will be a senior student in Tahoka High School next year. He is the son of Mr. and Mrs. Lester Adams. The new president will succeed Mike Reid, who has served in that capacity this year.

Miss Susie Curry Invited To Play In Band At Denton

Miss Susie Curry, her mother and aunt, Mrs. Elmore Curry and Mrs. Harlan Cook of Lubbock, left Thursday for Denton where Susie has been invited to play in the "Swingettes" and in a concert band of high school students.

She was chosen by Texas Women's University from a field of 600 applicants to participate in the band clinic and to have the opportunity to apply for a band scholarship.

They were to spend the night Thursday in Mineral Wells with Mrs. Bob (Margie) Freeman and to go to Denton Friday where Susie is to attend the clinic Friday and Saturday and to play in the band concert on Saturday night.

Susie is a member of the Tahoka High School Band and also plays in the Stage Band. She is a senior in the local schools and plans to attend TWU next year.

Zip Code 79373 Mail Continues Arrive In Tahoka

Miss Patsy Powell from Kentucky, a civilian teacher of service men's children with the Army in Germany, recently sent her friend, Mill Draper, a clipping of the Tahoka Zip Code story from Stars & Stripes. She forgot to put the Zip Code No. 79373 on her letter to Mill.

Meanwhile, the local postoffice continues to receive mail from across the country. "John Does" in Galesburg, Ill.; Sturgeon Bay, Wis.; Las Vegas, Nevada; El Paso, Seattle, Wash.; Minneapolis, Minn.; Seminole, Okla.

Also, the story has brought letters to "Happy" Smith and Charles Townes from J. Fred Bucy, Dallas; George Price, Levelland; Gay Lovitt, Hayward, Calif.; Mrs. F. O. (Disheroon) Parr, Bourbonnais, Ill.; kinfolks of C. C. Markum in Waco; A. W. McClellan Clovis, N. M.; and Mr. and Mrs. J. Kohl, Jersey City, N. J.

Nationwide publicity came as the result of the recent story about the sample Zip Code address in books of postage stamps. Practical jokers continue sending letters addressed, "Mr. W. B. Jones, 103 Trenton Place, His Town, State 79373." The numerals are Tahoka's Zip Code, and Smith theorizes Seth Brewer, reared here and a Washington official in the Postoffice Department, may have used the Tahoka Zip Code number intentionally in honor of his home town. Return address on the sample is: "James Doe, 3800 Main Avenue, Your Town, State 20018," the latter being the Zip Code for Washington, D. C.

Cotton Protest ...

(Continued from Page One)

he thought Roosevelt was going to solve the farm problem in 1933. His dad had a tractor costing \$400 to \$500, and was having a hard time. The farm problem is still in politics. This year, he said he thought he was broke because he had no cotton crop. Then, he began to run into farmers who had irrigation, raised 300 bales, and they too are broke.

Dan Cook, Wilson banker, said demand for money is on the increase, but the cash supply is more limited. Since production expenses can be cut very little, he suggested many farmers may have to cut living standards. Some farmers he said, spend 50 percent for living and 50 percent for farming.

Near the close of the meeting, Tom Mason, representing Farm Bureau which he said has about 800 members, presented the proposals of this organization. He pointed out the 15-acre cotton farmers take no acreage allotments and are getting 33 cents per pound for their cotton, an injustice to the true cotton farmer of this area.

Dr. Williams outlined many of the economic "facts of life" concerning cotton economics, and declared the cotton industry may well become a "minor" industry. "It's already half-way," he cited the virtual disappearance of the better industry.

He told of the parity idea originated in the 1920's and put into effect in the 1930's. But, we have found that price supports and acreage allotments do not solve the problem. The farmer tries to produce more per acre, other lands start raising cotton to compete for world and domestic markets.

Returns from capital, labor, land and management are not as high in the agricultural field as in other lines.

But newer methods lead to more production, the carry-over grows larger, the price goes down, and then there must be another acreage cut. The President advocates taking 80 million acres of farm land out of production. What can you do with this land? Much of our land must remain in agriculture to produce its worth.

Cotton acreage has dropped from 45 million acres to 16 million, but we are still producing about the same amount of cotton.

Texas production per acre has doubled in just a few years. Mill usage remains about the same, not considering population increases, but our exports are disappointing.

Competition of man-made fibres has increased, and cotton use has dropped per capita. Now the 6.5 mill subsidy has placed cotton on a competitive basis, but time will be required to catch up—and we still have our big cotton surplus.

We have lost out on the free world market because foreign production has doubled since World War II. Our sales on the world

Washington Sale Was Big Success

R. W. (Randy) Rutherford reports his Washington Birthday sale on Monday was a great success, as a big crowd flocked into his store at 9:00 a. m. and most of his surplus merchandise was moved out during the day.

The Washington sale idea has spread across the country and many merchants on this day "clean up" their stocks by offering items which have not moved well in regular trade at below cost prices.

market have dropped from 50 to 55 percent of the total world production to about 25 percent of the total world production.

Foreign free world cotton consumption is 25 million bales, and free nations other than the U. S. are producing about 22 million, which leaves us about three million to fill the gap.

If we continue to produce as we have, cotton must move into world trade, he said.

Another problem he pointed out is that we are reaching the point where cost of pumping water for higher production about equals out to dryland farming production.

Of course, higher machinery and labor costs, as well as higher living costs, are major factors.

But, there's a vicious circle. High supports cause production to go up and consumption down; more acres mean more production.

Although he said he was not presenting answers to the problems, he thought the South Plains will have to adjust to the facts of life. Reduction in costs are necessary. Lower prices may be necessary. But this takes time for research and implementation, and the Plains farmer needs time for readjustment.

of sending agricultural experts around the world to teach other nations how to raise cotton with cheap labor; when it stops aiding and abetting such as Billie Sol Estes and Bobby Baker; when it quits granting union labor higher and higher prices for less and less work—then, we'll be in favor of completely doing away with all farm subsidies.

Several farmers have told us they could live with the reduced cotton prices if they were granted a 15 to 25 percent increase in acreage. We believe most favor such—if our government will really try to push our cotton into world trade. The cotton farmer is doomed unless we can sell more cotton on the world market.

The Lockney Beacon says: Wilmer Smith of New Home is a member of the Secretary of Agriculture's cotton advisory committee. He seems to be a man who is well versed in farm problems according to his talk at Floydada last Thursday night. Mr. Smith says that we are fortunate that the price of cotton wasn't slashed two cents instead of one cent for the 1965 crop year. The reasons he gave were these: The President's desire to keep the federal budget under 100 billion dollars, the large appropriation made to Appalachian relief program, and the necessity to trim other places in order to provide for the "anti-poverty" program and still keep the budget in bounds. Since the Agriculture Department and the Defense Department are the two biggest, they were cut first. The director of the budget bureau, Kermit Gordon, who seems to talk out of one side of his mouth one time, and the other side the next time, had the cotton support price slated for a full two cents per pound cut but Secretary Freeman wouldn't go on that so it was cut only one cent. After reading news reports of talks by President Johnson and Gordon, we wonder if the farmers of the county aren't going to find themselves on the short end of the stick before this Administration gets through with them.

One thing we agree with the longshoremen on is this: If we are going to sell soybeans, wheat and other products to Soviet Russia, at least half of these products should be shipped in American vessels.

THE HONEYMOON IS OVER

Albert Einstein, son of world-famous Dr. Albert Einstein, and other famed engineers.

A reader suggests there's a short stretch of farm road from Carter's Store, on US 87 east two and a half miles to FM 400 which, if paved, would be a big convenience to a lot of farmers, and others. He suggests the county might be able to get the State Highway Department to pave this stretch.

Ernest Herring, who is a member of Tahoka Rotary Club, drives to club meetings from Lubbock each Thursday, and is old enough to have celebrated his 50th wedding anniversary, was the district oil company agent who helped set Winston Wharton-up in business here 25 years ago. He and Wharton have maintained a close companionship ever since.

Maurice Bray missed a day from work last week on account of illness, the third day he had missed since 1950. He told his wife this illness absenteeism was getting to be a habit.

One of the good things that can be said for children is that they never pull out pictures of their grandchildren. If you don't think children know the value of money, try giving a child a penny. Conscience gets a lot of credit that should really belong to cold feet.—The Rotarian.

Bath mats are little dry rugs that children like to stand by. Steam is water gone crazy with the heat. Today's cars are supposed to be mechanically perfect and smooth running, but it seems there are still a lot of jerks in them.—Texas Outlook.

The Lynn County News was one of the area newspapers praised in Senate Resolution No. 79, introduced recently in the Texas Legislature by Senator H. J. (Doc) Blanchard and signed by Lieut. Gov. Preston Smith. The copy sent The News says, in part, "Texas journalists, like Texas Statesmen, have gained national recognition in representing to the ultimate the best interests of all the people. In this crises-age, it behooves all Texans to recognize the serious tasks and need for dedication in the men and women who are concerned with our receiving full knowledge of local, state and national events," and resolves that "The Texas Senate salute these institutions with all due respect and deep regard for their public service." Thanks, Doc, and you other Senators!

To put the world in order we must first put the nation in order; to put the nation in order, we must put our family in order; to put the family in order, we must cultivate our personal life; and to cultivate our personal life, we must first set our hearts right.—Confucius.

Mrs. Maxine (Oliver) Back of Waco writes for some extra copies of the "socialism column" and declares "our last stand must be for freedom of the press," and among other things, "The Communist party isn't nearly as big an enemy at the lethargy of 90 percent of the American people."
