## New Features Planned At Annual Tahoka Rodeo

Emphasis will again be placed on the parade opening day of the annual Tahoka Rodeo on Thursday, April 29, and businesses and organizations are being asked to start planning now for an entry.

Several Sheriff's Poses, bands, floats, and scores of mounted riders will take part in the parade set for 4:30.

Rodeo performances will be nights of April 29 and 30 and May 1, and many outstanding cowboys of the West will enter.

The Rodeo Association is sponsoring a big Western music jamboree here on Saturday night, April 24, in the county agricultural building, and at least 20 musical groups are expected.

There will be no admission charge, as such, but entrance to spectators on the showing of an advance rodeo ticket by each person appearing.

Rodeo tickets may be purchased from one of eight girls in the queen contest, at the door at the Jamboree, or at the rodeo gates.

Services of a top clown, Roy Meadow of Carlsbad, N. M., and he and his assistant are said to have some outstanding acts. Aside from entertaining the crowd, the clowns protect cowboy contestants from mean animals in the arena. But, Meadow is said to be a "spectator's bull fighter," who puts on an added show with the bulls.

Another rodeo feature this year will be a goat sacking contest for kids under 12 years of age, an event that proved popular with the kids and the crowd one year in the past.

Tahoka Jaycees are selling shaving permits down town at \$1.00 each. A water tank has been placed on the square, and some citizens caught without a beard or a permit not to have a beard may get "dunked," the Jaycees say.

Oran Short, president of the Rodeo Association, says everything indicates that this may be the best show ever held here. The Tahoka rodeo has become one of the best outdoor shows in this area.

## Cotton Sign-Up Deadline Today

Today is the last day for sign-up for the domestic cotton program, unless another extension is granted. Original deadline was March 26, then was extended two weeks, and last Friday was extended another week to today, April 16.

Tuesday, 404 farmers of this county's 1475 had signed up for the program, states Don Saverance of the ASCS office. This is possibly the highest percentage of any county in the area.

Under the plan, the farmer would sign up to cut back cotton acreage to 65 percent of allotted acres and receive a subsidy of about \$16.00 per acre for the 65 percent planted. Since he has until August 15 to plow back for compliance, many farmers are taking this plan as a sort of drouth insurance.

## Atwell Wins Trip To Hot Springs

J. D. Atwell, special insurance agent with Lynn County Farm Bureau, last week attended the Farm Bureau Roundtable meeting of agents from over the South held in Hot Springs, Ark., April 3-7.

J. D. won the expense-paid trip for top achievement in selling life insurance during the year 1964.

In addition to a busy schedule of training meetings, J. D. says he managed to get in a few rounds of golf on the most beautiful golf course he ever played on.

Rev. and Mrs. Joe Webb of Brownwood were here over the week end visiting Mr. and Mrs. O. E. Eubank and old friends.

## Hootennany Is Set For Tonight

Third monthly Tahoka Hootennanny will be held tonight, Friday, in the Community building beginning at 7:30 o'clock, states Raymond Ashbrook.

Some new musicians are expected to be present, and all people who enjoy string band "country" and Western music are invited to come out. Admission is free.

There has been a bit of confusion by some people with the Western music Jamboree Saturday night of next week in the County Livestock building. There is no connection between the two events except that the meeting next week will be similar and sponsors hope a larger crowd will be present.

## Tax Equalization Board Named

The Tahoka school board met for its regular monthly meeting Friday night with mostly routine business on its agenda.

This year's board of equalization was named, including Cleve Littlepage, Wilton Payne and Roy Edwards, with Maurice Huffaker serving as an alternate.

The resignation of Mrs. Margaret Lee, high school science teacher, was accepted, as well as the resignation of George Wright, elected about a month ago as head football coach for next year. The resignations are effective at the end of this year's school term.

Mrs. Lee has taught in the Tahoka schools as science teacher the past two years. Before that, she was high school English teacher, going to Houston for a year or two, and returning as science teacher.

The board extended a contract for a period of six months with Reed Quilliam, who has served as delinquent tax attorney for the Tahoka Independent School District.

A budget report was heard, a financial statement of all funds, and the financial report of the cafeteria operations for the month of March.

## Seniors' Salad Supper Tuesday

A salad-supper, sponsored by parents of the Senior Class, will be held Tuesday, April 20, from 5:00 until 8:00 p. m. in the Lynter building.

Profits will go into the senior trip fund. The trip will also be sponsored by the parents.

Advance tickets may be obtained from any member of the senior class, or may be purchased at the door.

## Small Appointed C. of C. Secretary

Maurice Small has been elected by the board as the new secretary of Tahoka Chamber of Commerce, effective last Monday.

His office is at the same location, in the Federal Land Bank building, formerly the Dean Nowlin building, and he will operate the office in conjunction with his bookkeeping business.

The office will be open most Mondays and each week day afternoon from 1:00 to 5:00 p. m.

Tuesday night's general rain which covered the South Plains was the most general Lynn county had received in months and ranged from 4 inch up to two and a half inches or more. Tahoka received .62 inch official measurement.

Although the rain was not a drouth-breaker for most of the county, it was of great benefit. The sandstorm following on Wednesday, however, "took a little starch out," as one farmer stated.

The rain was the most measured in Tahoka since December 9, when .76 inch fell; and September 26, when there was .81 inch. Tahoka has now measured only 12.89 inches since January 1, 1964, as compared to an annual average of 18.6 inches.

Heaviest rain Tuesday was over the north part of the county.

Wilson received two inches, but north and northeast of the town there were reports of up to 3.5 inches. School buses were unable to run Wednesday. East from Wilson, 1.5 was reported on the Davies farm just west of Southland.

The rain was also heavy north of Tahoka, ranging up to 1.8 at Carter store, and 1.7 at Guion Cobb's.

West of Dixie up to two inches or more were reported. Most of the New Home area received about 1.5 inches, although a streak to the east was lighter. L. D. Halford reported 1.5 inches.

Over at Lakeview, a little over an inch was reported, and similar amounts or more in the Petty area.

West Point area had 3 to an inch, eight miles west of Tahoka an inch or more, and from Three Lakes to Newmoore the fall was .75 up.

In the New Lynn area, J. C. Dunlap reported about .9 inch, heavier to the north and in spots to the east. Grassland and Draw both reported from a half to an inch.

Immediately south of Tahoka, rainfall was from .4 and a half inch up to 1.00 inch at the George Henry Midway farm.

## Mrs. Claude Thomas Writes Editor, The News:

We enjoy The News, and more so after we return from a trip. So glad Mr. Cap Rowe wrote about "the other side of Alabama."

We returned Saturday, April 10, from a four week trip to Alabama and Florida. Alabama is hurt because of the wrong way their state was publicized. All the states we were in are in sympathy with Alabama on the racial situation.

The Eastern states are in their beauty—with the dogwood, azaleas, redbuds, and so many other flowers in full bloom.

We are now getting home delivery. Our address is 1221 Ave. B, Denver City.

## School Principals At Houston Meet

J. B. Howell and L. F. (Jake) Jacobs attended the annual meeting of the Texas Elementary Principals and Supervisors Association on Wednesday, Thursday and Friday of last week in the Rice Hotel at Houston.

The three-day program dealt with educational problems and modern trends in elementary schools. They went to Houston by train.

Friday night, Jacobs and Howell saw the opening game in Houston's famed new domed stadium

between the Yankees and the Astros, the first baseball game ever played indoors. Jacobs also saw the afternoon game Saturday between Baltimore and the Astros. He says the stadium is the most fantastic thing he has ever seen. You've got to see it to believe it, he says, and then you hardly believe it.

The Dome seats 45,000 for baseball, covers 9 1/2 acres, is 710 feet in diameter, 208 feet high, and is air-conditioned.

Species of cotton are found native in all continents except Europe.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

In view of the fact that TV could well use a new approach to humor programming, it is unfortunate that the medium depends on its existence for licenses issued by a bureaucracy. It could do a great show, entitled something like "Idiotic Episodes Along the Potomac."

The first episode could well be called "The Peanut Politicians Approach to Peanuts."

As is well known, the nation faces a debt situation with the world. In other words, they are getting more of our money than we are getting of theirs.

So now, what is the new approach to solve this problem. Make everybody who wants to go out of the country pay a special \$100 tax.

This, they believe would discourage people from going abroad and spending money. But who would it discourage? Apparently, they don't believe it would discourage those with means, but it would discourage the little people. This fact is recognized in the discussion of how to collect this tax, as it is freely admitted that it would never do to try and collect when they return to the country as most of them do not return with this much money. Hence, the talk of collecting it before they leave.

Now of course this group of people, students, school teachers, et al, are encouraged to broaden their viewpoint. And it is National Federation of Independent Business.

is a cinch that people who fly to Europe on group plans clutching the guide book "Europe on \$5-Per Day" are really big spenders undermining U.S. financial strength.

By comparison, the billions thrown away in so-called foreign aid are merely peanuts. The money used to buy extra wives for Kenya chiefs, the money used to give curative preparations to aged Chinese males in Formosa afflicted with declining potency are all mere bagatelles and prudent investments. After all, how can aged Chinese males combat communism if they are impotent? On the other hand, just how does one go about combatting communism?

Of course, State Dept. spends huge sums travelling jazz bands around world to expose American "Culture."

And of course, the thousands of people engaged in travel agency work, the people who work in transportation, the people who make and sell the items of necessity a traveller must buy, what happens to them? Who says the war on poverty cannot be expanded to include them, too.

After all, if an impotent Chinese, or an African chief needs another wife or so, this nation must be prepared to dig up the dollars without worry about the balance of trade. After all unless people are wealthy enough to pay an extra \$100 in tax, they have no business travelling, anyway. It makes facilities too crowded for swarms of bureaucrats running all over the world on government expense.

### Alabama Lady Tells Of Strife

A visitor here this week from Tuscaloosa, Alabama, confirms a lot of the information contained in the "Other Side of the Selma Story" as told by a local citizen and published in The News recently that has caused widespread comment and which has been reprinted in a number of periodicals.

She is Mrs. Paul Kuykendall of Tuscaloosa, Alabama, who is here visiting her aunt, Mrs. R. B. McCord, the Short and McCord families. She came to Tahoka with her cousins, Mr. and Mrs. Claude Thomas of Denver City, who have been visiting in Alabama and sight-seeing in Florida Tuesday, Mrs. E. L. (Dink) Short brought Mrs. Kuykendall and Mrs. McCord to The News for a visit, as the local paper wanted to further confirm the situation in Alabama.

Mrs. Kuykendall says the only thing wrong with "Cap" Rowe's story is that he gave only a part of the true picture, and that her state is still being grossly misrepresented by the nation's press. She says a high percentage of their Negroes are good citizens, are not now and will not give trouble in the future. Most are respected. A fine Negro man has been working for her husband many years. Some good Negroes have been stirred up by outside Civil Rights workers, but most of the trouble is caused by outsiders and ne'er-do-wells. Most of the latter wouldn't work if they were offered a job, and many are on relief.

She says Tuscaloosa has had about 2,000 Negro voters for years. They have for years been able to register if qualified, exactly as whites. She, herself, worked in the county court house for years and knows, personally, "we do not try to fix up examinations they can't pass."

Like many states, Alabama has a certain week each month for registering voters and has certain literacy tests for Negroes the same as whites. The trouble-makers do not try to register at the proper time, but storm the registration places on days they are closed by State law. A white man could not register on those days, either.

Some illiterates, non-residents and trouble-makers have tried to register and been turned down, but not on account of race. Some illiterates have been handed a list of answers to literacy tests and tried to pass in this manner, and some may have been given special questions to see if they were frauds. Even some stirred-up white people have tried to discourage some Negroes from registering, she admits.

But most people of Alabama are just like most people in Tahoka or Texas, and we don't blame a Tahoka college student attending SMU in Dallas for the

death of President Kennedy. She says Rev. Martin Luther King's proposal to boycott Alabama will hurt, but it would probably hurt the Negro as bad or worse than the whites.

For example, at nearby Greensboro there's a big chicken plant employing 275 Negroes. Under the boycott, these Negroes are the first to lose their jobs.

She says Negro schools in Tuscaloosa are as good or better than the white schools. Many of their Negroes are making progress, but the present crisis and the proposal to put thousands more on the Federal dole will make conditions worse.

Mrs. Kuykendall says Alabama has been unjustly harmed for years to come. Her state needs a lot of "Cap" Rowe's to speak for the truth.

Andrew Jackson's first official act as president of the U. S. was to buy 20 spittoons for the White House at a price of \$12.50.

### Rain Knocks Out Many Telephones

Many Tahoka telephones on General Telephone lines and many rural phones on Puka-Lambro lines were knocked out during the rainstorm Tuesday night, and some remained out of commission all day Wednesday.

The News' telephone was among

those out until Wednesday night. Telephone representatives said the disruption of service was due to water from the rain seeping into cracked cables.

Deryl Sherrill, son of Mr. and Mrs. Ronald Sherrill, was released from Tahoka Hospital Thursday of last week, where he was an overnight patient after receiving

a severe bruise to his left knee while playing ball at school.

The Junior High band students traveled to Muleshoe Saturday, April 10, and received a first rating in concert and a second rating in sight reading, bringing a nice trophy back with them. They played at the concert under the direction of Coy Cook. Congratulations to this fine group of band students. Several mothers accompanied the group to Muleshoe on the bus.

Lynda Melugin enjoyed attending the Abilene Christian High School Day in Abilene Saturday. A group of eleven traveled to Abilene from Slaton. They enjoyed the open house in downs, special chapel, luncheon, the ACC band concert, and outdoor track meet while there. Accompanying the group was minister of the Slaton Church of Christ, James Wilbanks.

The hypnosis act was quite amusing, as several Wilsonites participated and some were chasing birds that weren't there and believing an onion to taste like a peach. The show was sponsored by the Lions Club.

Mr. and Mrs. John Ramby, Roni, Rhoda, Brad, and Gini Gatzki, enjoyed the week end traveling to El Paso, visiting in Juarez, Mexico, and on their return trip they toured the Carlsbad Caverns of New Mexico. Call Wilson news to 628-2956.

Spray new Caparol when planting your cotton to control weeds.

Spray new Caparol\* in a band or broadcast when planting your cotton for effective, early-season control of most annual broadleaf weeds... like carelessweed (pigweed), annual morning glory, cocklebur, lambsquarter and many other problem weeds.

You'll also get control of many grass-type weeds, such as crabgrass and goosegrass.

Early-season weed control with Caparol means you'll be able to eliminate that first, slow cultivation. So you won't be plowing out or covering up young cotton. All it takes is moisture to move Caparol into the soil.

You can also apply new Caparol after your cotton is up six inches or higher, or at layby. Just direct the

spray to the base of the plants and apply to weeds no larger than two inches in height.

Whatever program you decide on, you'll have no soil residue carryover to harm next year's spring-seeded crops when you use Caparol.

Ask your local supplier or custom spray applicator for new Caparol. Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Ardsley, New York.

## Gordon News

(By Mrs. Edmund Wilke)

"It's Fishing Time!" When you read this, yours truly will be sitting out under a big shade tree on Buchanan Lake dragging in the fish like crazy! (I hope.) Edmund, Larry, Darrell, Sherri and I plan to leave early Wednesday morning and be gone until after Easter Sunday. Mr. and Mrs. Leroy Zieschang, who live close to Lubbock, are going with us. I probably won't be back in time to write my column next week, so if you have any news, please call me the following week.

Ed Cummings, Elmer Hitt, and Billy Johnson have just come back from a fishing trip. They went to Falcon Dam and Eagle Pass, and sounds like they brought home some pretty nice fish.

Mrs. O. B. Franklin underwent surgery last week at the West Texas Hospital in Lubbock. The last I heard, she was doing very well.

Miss Mickey Mason of Southland and Miss Connie Brake of Slaton attended the Texas Tech Band Concert at the Municipal Auditorium in Lubbock on Sunday afternoon.

Mr. and Mrs. F. W. Callaway and Red and Mr. and Mrs. Weldon McGehee and Dennis are leaving Tuesday morning to go to Falcon Lake for a few days fishing. Mr. and Mrs. Herman Dabbs and David might join them on Wednesday. I never did get in touch with Mrs. Dabbs, so I might be correcting this statement next time.

I would like to correct one mistake that was made last week. In the paragraph about the Sunday visitors of Mrs. Ed Millikens, it said that Mr. and Mrs. Joe Bob Henderson from New Deal visited them. Well, Joe Bob is only nine years old and a little too young to have a wife. He is a grandson of the Millikens. I am sorry about this mistake.

Sunday visitors in the Edmund Wilke home were: Mr. and Mrs. Walter Voigt, Mr. and Mrs. Harold Voigt and Van, Mrs. A. Wilke, and Rev. and Mrs. Jimmy Herklotz, Timmy and David, all of Slaton; Mr. and Mrs. Elmer Gindorf and Mr. and Mrs. E. C. Stabeno, Lynn, Lawrence and Lonnie, all of Wilson and Miss Martha Blodgett of Post.

Mr. and Mrs. Kenneth Callaway have gone to Ruidoso, New Mexico, to attend a Humble Oil Company convention. On Saturday night they visited with Mr. and Mrs. Don Kelley in Clovis, New Mexico and then went on to Alamogordo and visited with Mr. and Mrs. Jim Bryant.

Mr. and Mrs. Herman Havis are leaving Tuesday to go to DeLeon to visit over the Easter holidays. While they are there, they are going to do a little fishing also. Mrs. Havis says that Herman loves to fish and will sit all day with his hook in the water if the fish are biting or not. She says that she is not quite that patient, but loves to be out in the open.

Mrs. Lee Frederickson is back in the Reese Air Base Hospital and Mr. and Mrs. D. D. Pennell visited with her on Sunday.

Mr. and Mrs. D. D. Pennell visited with a cousin, Bus Pennell, who is a patient at St. Mary's Hospital in Lubbock. A horse fell on Bus and he is in traction. We

hope that everything goes well with him.

Mr. and Mrs. Jerry Pennell from Lubbock visited his parents, the D. D. Pennells.

Mrs. Delbert Abshire is at home now after having surgery. Her mother is staying with her and taking care of the family.

Mr. and Mrs. Jay Martin Basinger and Mrs. Haywood Basinger have gone to Kingsland and Granite Shoals. Mrs. Haywood Basinger will remain there for a visit with her daughter, Mrs. Dub Pierce, or better known to all of us as Betty Sue.

Mr. and Mrs. Ed Denton have returned to Possum Kingdom for the Easter holidays. Mrs. Dick Denton and son and the Denton's daughter, Myrtle and her family, will join the Dentons at the lake.

Mr. and Mrs. Ronnie Ragland of Slaton and Mr. and Mrs. Ned Myers of Post visited with Mr. and Mrs. Grady Hunt in Lubbock.

Kelly Jo Myers and Tom Moore of Texas Tech visited Kelley's parents, Mr. and Mrs. Jack Myers.

Sunday visitors in the Otto Klaus home were: Mr. and Mrs. Donald Klaus and baby girl, Mr. and Mrs. Werner Klaus and Mr. Calvin Klaus and Calvin Wayne.

The news is short this week, seems like everyone must be gone. Please call me at 998-2423. In my next column, I hope to be bragging about all the fish I caught. Ha ha.

### Firemen Offer Public Service

Fire Chief Pat Patterson of the Tahoka Volunteer Fire Dept. made two announcements this week, one concerning fires in the business district of town, and the other concerning tornado season.

He stated that in case of a fire during the night at any business institution, the owner or operator of the business will be notified immediately by a member of the Fire Department.

This service is designed for the benefit of business men so that they will not feel the necessity of checking on their place of business when a fire is reported after store hours.

Patterson reminded citizens that this is tornado season and Tahoka has an additional two sirens, making a total of four, that can now be heard in every section of town. The two new sirens are located in the south part of town, one on South Sixth between Ave. J and K, and the other between Lockwood and First Street and between Ave. D and E.

Others are located at City Hall and on North Fourth near the schools.

The tornado warning signal is four short blasts of the siren and the warning will be repeated he said. In addition, during times of bad weather the City Police, Sheriff's department and Highway Patrol will patrol the highways on the lookout for such threats.

To help speed reports of tornadoes, or of any situation needing the help of the City Police, a radio was installed in the new office of the police at City Hall last fall.

Someone is on duty there at all times, 24 hours a day, and may be reached by phone.

### Coach G. Hough To Richardson

Coach Gilbert Hough, football coach here for three years, has accepted a position in the Richardson schools on the coaching staff. He and his family will move there at the end of this school term.

He has not been placed as yet in the AAAA school, but has been retained for next year. Coach Hough originally applied for a junior high coaching position in a new junior high building now under construction, but was told this week that he may be needed in another capacity.

Coach Hough came to Tahoka from Goddard, Kansas where he had coached for six years as head football coach. He received his bachelor's degree from Southwestern College in Winfield, Kansas after serving several years in the Navy.

A graduate of Tahoka High School, he lettered here in both football and basketball before returning to his native state.

He resigned his coaching duties in Tahoka in January, along with Coach Dave Easterday, assistant football coach, who is now working on his master's degree at Western State College in Gunnison, Colorado.

Jaques offered use of a tractor to plow up yards for planting of grass and for other work to prevent blowing dirt.

The City has offered to put caliche on two streets to help get the area out of the mud and to furnish trucks for hauling away junk.

The proposal brought an enthusiastic response from colored citizens, and additional ideas were presented in talks by Jernigan, Graves, T. Bookman, Myrtle White, Minnie Sayles, Prince Smith, and others.

Local Negro citizens expressed a desire to join in the city beautification program, promote civic pride and self respect, improve themselves and their living conditions, and promote their image in the community.

The general committee headed by Tommy Lee Graves named five sub-committees, each headed by a general committee member as follows:

# Lynn Income Tax Total May Reach \$1.9 Million

(Special to The News)  
New York—With April 15th just behind us, taxpayers in Lynn County have made their peace with Uncle Sam.

What was the price of this peace? Just about what it was last April, despite the tax cut that was voted a year ago and despite the lower rates that are now in effect.

The answer is that incomes have risen since that time to the point where the taxes on the larger incomes, even at the reduced rates, will be even greater, in many instances, than they were before.

This is indicated on a national scale in the Federal budget, which lists the expected receipts from individual income taxes at \$47.0 billion this year, or only 3.5 percent less than in 1964.

In some parts of the country and with some families, the change will be more than this and, in others, less. Overall income is the determining factor.

Last year, payments of individual taxes by residents of Lynn County came to approximately \$1,867,000, according to a break-

down of the statewide returns reported by the Internal Revenue Service. Included is what was paid in the form of withholding taxes.

Local residents, as a result, contributed 0.10 percent of the taxes collected in the State of Texas as a whole, which amounted to \$1,867,000,000.

Because of the changed situation since that time, the returns from the local area this year, based on preliminary earnings reports, are expected to be in the neighborhood of \$1,910,000, a rise of \$43,000.

The tax rates that went into effect in 1964 after the reductions, when they dropped to a range of 16 to 77 percent on personal income, went down still further on January 1, 1965. The range now is from 14 to 70 percent.

Despite this additional cut in rates, which will apply to income received this year, the Administration estimates that tax receipts from individuals will rise by \$1.2 billion in the coming fiscal year.

It counts on a continued expansion of the economy, duplicating the achievements of 1964, when the gross national product rose

## Automation Demands Changes In Labor Force, Speaker Says

We must re-adjust our educational and vocational training processes to meet the demands of new technology in the current industrial revolution, was the theme of a talk on "Automation and the Changing World" at the Rotary Club Thursday by Sam W. King of Dallas, field director of the Office of Manpower, Automation and Training, U. S. Department of Labor.

Substitution of mechanical devices for human muscle and now electronic computers for other human work, plus the establishment of entirely new industries, are bringing up a need for entirely new types of manpower and bringing on many complex problems, the speaker said.

For example, today 22,000 types of jobs have been classified, 6,000 of them entirely new. There is a great need for new knowledge and more technical workers. New knowledge is even needed for carpenters.

Therefore, manpower must be planned to meet the need of the present and also with the ability to adjust for the future.

Need for education and vocational training is growing greater day by day, and school drop-outs are becoming a greater factor in our labor force.

Mr. King declared we must make education a meaningful process to meet the problems of unemployment.

Clifton Gardner, who introduced the speaker, a native West Texan, said King was his high school math teacher.

President Wilton Payne announced Harold Roberts as the new club vice president for the new year beginning July 1, when the present vice president, Ross Smith, moves to the club president.

He also announced local club members are invited to the El Paso International Rotary meeting on May 1 and 2, when President Chas. Pettengill will be the speaker.

Jim Wells and Terry Harvick, student guests for April, were introduced by Dr. K. R. Durham and Maurice Small.

## Revival Opens At Grassland

Rev. Mrs. Emma Irick, a colorful and dynamic fulltime evangelist, will do the preaching in a revival meeting at Grassland Church of the Nazarene starting Sunday, April 25, according to the pastor, Rev. Ira L. Campbell.

Services will be at 7:30 each evening and 10:00 a. m. weekdays and 11:00 Sunday mornings. There will be special music at each service.

Mrs. Irick has had a long career in the church. She and her late husband, Rev. Allie Irick, joined the Church of the Nazarene at Peniel, Texas, on April 13, 1908, six months before the union ceremony at Pilot Point which officially launched the church as an international denomination.

She attended Northwestern Teachers College at Alva, Okla., and the former Peniel University, and taught three years in Oklahoma public schools.

She and her late husband helped organize more than fifty Nazarene churches during the early years of the denomination in the southwest. He was superintendent of Abilene District six years, and Mrs. Irick worked closely with him.

She served as pastor of the Church in Lufkin from 1933 through 1959, and now is devoting full time to evangelism.

Irvin Dunagan, who attended funeral services for both his aunt and uncle, says there now is only one of his dad's brothers and sisters still living.

## Zing into spring! in a new Chevrolet

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

**Chevrolet.** It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

**Chevelle.** This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

**Chevy II.** No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

**Corvair.** Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

**CARD OF THANKS**

We deeply appreciate every kindness shown us during the loss of our loved one. We thank those who called, sent flowers, food or helped in any way. Words are too futile to express our gratitude to Dr. Prohl, the nurses and the ladies who sat with us and those who offered their service in any way. Every kindness shown her during her many years of illness will always be remembered. May God bless you.—Mrs. Sarah A. Richards and family.

Back in our barefoot boy days this was the time of year for biliousness, and out came the "spring tonic". All the kids just had to have a perogative—calomel, castor oil, or at least sulphur and molasses. Those were "the good old days"???

While daily papers are filled with stories about racial conflicts, mostly generated by politicians, do-gooders, and radicals, we overlook the fact that white and black are living in peace and harmony in most communities where there is not outside interference. The Negro is making progress and gaining respect in many areas.

Mr. and Mrs. Frank Jernigan, Raymond Peppers, and Miss Para Lee Sayles, we hear, are doing a fine job down at Dunbar School, but we are told they need more time to get many of the kids ready to take their places in the classrooms of white children where the educational program has been stepped-up considerably.

When Negro schools held their district track meet here on a recent Saturday, seven Tahoka Jaycees took time out to help our Colored teachers stage the event. The Jaycees report the meet was a most harmonious event, and our Negro friends were very appreciative of the help.

O. G. Smith had this little item in last week's O'Donnell Index-Press:

"Dr. Martin Luther King should have been in O'Donnell Sunday at 6 p. m. A two year old Negro child was crushed to death in a mishap in the Flats. A junked pool table fell on the child. Our local physician, Dr. Toohey, and Deputy Sheriff Frank Lindsey gave artificial respiration for what seemed hours. Fire Chief Jones supplied oxygen. So many white people, Latin Americans and fellow Negro neighbors offered help, I oft wonder how Dr. King sees boogers in the dark when he fails to see people in the sunlight."

Federal waste and boondoggle makes many of us sick. We read that Ford is building a new special bullet-proof car (one) for President Johnson that will cost \$337,000 and "maybe more." Repeat, ONE car. That is more than our new high school building cost. We read that the jet plane he flies to and from LBJ ranch costs \$4,600 per hour to fly. We read that King Martin Luther is being furnished a jet plane by somebody to fly around the country. We read that Senator Bobby Kennedy is having an office rigged up at government expense of \$200,000 in the New York postoffice building for him to use when he is "home". And, we now read that cost of the Rayburn House office building boondoggle may finally run to \$122 million, instead of \$86 million, or about \$700,000 per congressman. Guess who pays! Maybe Lyndon needs to turn off a few more lights in the White House to help make up the difference. Oh, no, some of our politicians say, we are in fine shape. Our "economic growth" will take care of such things.

The government is already out of the hands of the people.

Another reader sends some material on Americans for Democratic Action from which we glean: J. Edgar Hoover charges ADA with trying to undermine public confidence in FBI, which is an investigative body and not a law enforcement agency. . . . ADA seeks to dominate domestic and foreign policies, promotes Socialism, and has little quarrel with Communism. . . . ADA celebrates UN Day instead of Fourth of July. . . . And while in the Senate, our Vice President Humphrey, one of the ADA organizers, voted 192 times for ADA legislative programs.

A small boy who had a part in a play was to appear on the stage and say, "Be not afraid, it is I." When time came, however, he said in a scary voice, "Don't get skeered . . . Tain't nobody but me!"

Thanks to many readers for letters, visits, and calls backing some of the views expressed in this column. We've had only one protest on the Selma story that we've known about. We presume this letter was intended for publication, but we have chosen not to print it because it involves others and is so bitter we feel it would cause embarrassment.

Mrs. R. L. Craig is pretty unhappy. Some one shot holes in her mail box. This is a violation of the law and she gives warning against a repetition of the offense.

The News has been furnished the following, distributed by a manufacturing firm:

**Frogs and Freedom**  
There's an old story that says you can't kill a frog by dropping him in boiling water. He reacts so quickly to the sudden heat that he jumps out before he's hurt. But if you put him in cold water and then warm it up gradually, he never decides to jump till it's too late. By then he's cooked!  
Men are just as foolish. Take away their freedom overnight, and you've got a violent revolution. But steal it from them gradually (under the guise of "security", "peace", or "progress") and you can paralyze an entire generation. Look at the income tax. It started out at a harmless sounding 1%. It would have been easy to jump out of water as tepid as this, but like the frog, we waited while it climbed ever higher. (Try jumping now!)  
Worst of all, we never learn. Even today we cannot believe that Medicare is the same warm water that will one day boil us in Socialized Medicine. We see no connection between farm price supports and Nationalized Agriculture. And if we draw a parallel between subsidized teachers' pay and federal control of education, we are called "extremist".  
The tragedies of history are always repeated by those who refuse to learn them. To seek guidance from the past is not "turning the clock back" as we are so often told. It is merely a good way to keep out of hot water.

A reader sends in this little story: There were two men in a small town. They were drinking coffee in a cafe. They were pounding on the table with vigor. A stranger commented: "Say, those two men are sure having a big fuss." To this the native replied: "Aw, you don't know those men. They are agreeing now. You should be here when they disagree."

Three young boys were bragging about their dads.  
"My dad writes a couple of lines," the first boy said, "calls it a poem and gets \$10 for it."  
"My dad makes dots on paper, calls it a song," the second said, "and gets \$25 for it."  
"That's nothing," said the third boy. "My dad writes a sermon on a sheet of paper, gets up in the pulpit and reads it and it takes four men to bring the money in."

A man was telling his grandson the story of Cinderella. When he finished, the wide-eyed lad looked at him and asked, "When the pumpkin turns into a beautiful coach, is that figured as straight income or capital gain?"

During its 2300 years of life a pound of radium will give off 250,000 times as much energy as released by the burning of a pound of coal.

Dear Editor:  
I want you to know how much I enjoy The News.  
My father was the late Frank McGlaun Sr. Although I haven't lived in Tahoka for 15 years, I still look forward to it each week.  
The picture in last week's paper of the historical site in Alto was of interest because my husband is from Alto. This is a very beautiful place this time of the year. You see rows and rows of trees.  
Thank you.

**THANK YOU JEAN**  
The people of this and other communities have been so very nice to me in their comments about my "Sounds of Patriotism", but we must not forget that a singer must have an accompanist. I feel confident in saying that I have been fortunate in having a splendid one, Jean Flippin. Jean is a dear friend and an extremely talented girl. This seems to little, and yet I want to take this opportunity to say a big Thank You to Jean Flippin.

### Summer Golf Schedule Set

Local golf activities through May have been announced by T-Bar tournament committee and include a series of team matches with Post teams, a men's partnership tournament April 24-25, and the annual City Open May 24-30.

Tahoka men began qualifying Sunday for the Tahoka-Post team matches, the first of which will be held May 2 beginning at 1:30 p.m. on the Post golf course. The second will be at Tahoka in June and others will follow in September and October, according to Reble Thomas, tournament committee chairman.

In the series, the top 20 T-Bar men players will be matched against the top 20 Post men in team matches.

Although 20 men will be selected initially, Thomas says, any other man who fails to make the team may challenge any team member at any time. On defeating the team member, the aspirant will take a place on the team.

The Men's Partnership Tournament will be held again this year in which each club member invites an out-of-town non-member guest to play as a partner. Qualifying starts Sunday and continues through April 23. Play will be on Saturday and Sunday, April 24 and 25.

Annual City Open tournament for both men and women, and open to anyone in the county, both members and non-members, will be held in May. Qualifying will be May 16 through 23, with medalist play on May 23. Tournament play begins on May 24, second round to be completed by May 29, and finals will be on Sunday, May 30.

On the committee with Thomas are Ray Adams and Walton Terry, and Mrs. Aleta Lois Thomas, women's chairman.

### Huffaker Heads Youth Conference

Attorney General Waggoner Carr has announced the appointment of Calloway Huffaker of Tahoka to serve as official representative for Lynn County for the 1965 Attorney General's Youth Conference on Crime.

This Third Annual Conference will attract over 1600 outstanding youth leaders from throughout Texas to study projects for implementing in Texas communities for the prevention of delinquency. Many outstanding programs have already begun in Texas as a result of the first two conferences, including youth juries, programs for tutoring students to prevent drop-outs, and various other community service projects. Civic clubs, churches and other organizations or interested individuals will sponsor delegates, and individuals interested in participating should contact 1629 Avenue K.

The conference will be held in Austin August 20 through 22nd, 1965.

### Mrs. Joe A. Webb In Honor Society

Mrs. Webb is the daughter of Mrs. O. E. Eubank of Tahoka and was reared here. Her husband, also formerly a Lynn county youth, later became a minister and served as pastor of Sweet Street Baptist Church several years before moving to Brownwood, where he is now pastor of a Baptist Church.

### WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

As this is written, no one can tell if the Vietnam situation will wind up with complete U. S. withdrawal, continuation of status quo, or major warfare.

But whatever happens, there is going to be criticism. Unfortunately, the criticism will be directed at some recent act, either committed, or not committed. This is wrong in perspective.

International bargaining is a great deal like playing poker. This is especially true when the monstrous enemy of communism stalks the world. In a poker game nobody who believes the fellow across the table holds a royal flush will raise the ante.

If the American nation is to be the stabilizing force of the Western World then there must never be doubt American leadership holds flush cards.

In Vietnam American servicemen were slaughtered. This fact precludes everything else. The nation struck back on a limited basis to establish that the U.S. will refuse to accept the killing of Americans.

But immediately, mass demonstrations against that American action were undertaken, practically free of molestation, in U.S. cities. State Politicians fired telegrams all around the world seeking foreign support for these protests.

No one knows for sure what the impact of this evidence of National Federation of Independent Business

internal revolting accomplished abroad to tear down the American image. It must be born in mind that in both European and Asiatic wars, each side has depended upon treason, internal revolt, and other factors as a weapon for victory. In World War I the Germans provided safe, secret conduct for Lenin from exile into Russia, knowing that he would be more valuable to the German war effort against Russia than several divisions.

This should give many politicians some moments of serious consideration and reappraisal. All who have either encouraged, or condoned mass demonstrations, rioting, seizure of public property by students or any other group, are guilty of spilling American blood.

While this is not an attempt to appraise the Eisenhower years, it is significant that during those years there was a better than average world tranquility.

This is no doubt due to the image projected by this singularly uncomplicated personality. He knew and abhorred war. Yet there was no question in anyone's mind that he was a pushover.

Whether one agreed or not with his administration is immaterial. What is material is that he never encouraged mass demonstration, or any manifestations of civil disobedience to curry favor with any group of present or potential voters. No one, on either side of the Iron Curtain, could gain the idea that there existed any divided American will.

Moral integrity does have superiority over political acumen.

#### PASTURE PLANTING

It is advisable to dry plant grass seed now to use to advantage any moisture that may come this spring, says Larry Dobbs, Soil Conservation Service Technician. The small grass seed have to be planted very shallow in a well prepared seedbed. After a rain,

by the time the ground has dried enough to get on the land and plant, much of the moisture is gone. Under irrigation, the grass can be watered to a stand. Rainfall must be best used on dry land plantings by planting prior to rains.

After grass is to a stand, the next enemy is weeds. This must be taken in consideration before planting. The plantings can be placed in rows so cultivation can be practiced. Also chemical herbicides and mowing or shredding are good for weed control. Due to the weed problem encountered in grass planting, it is not advisable to fertilize until the grass is to a good stand. Usually fertilizing is started the second year.

It is not easy to establish and maintain a good stand of grass. The first essential after planting is sufficient moisture to allow substantial plant growth and development. Grass that is to be planted under dryland conditions should be planted now to take full advantage of spring rain and cooler temperatures.
