## Showers Monday Help Large Area

Heavy showers Monday afternoon covered southeastern Lynn county with amounts ranging up to two and a half inches. The rain covered about a third of the county.

Tahoka received only .21 inches of rain in the northwestern part of town where the U. S. Weather Bureau gauge is located, but southeast Tahoka received a much heavier fall. Another little shower Tuesday amounted to .04 inch. The .25 inch week brought total precipitation in Tahoka for the year to 1.71 inches.

O'Donnell reported .50 to .60 inch, but parts of the T-Bar, Midway, Joe Bailey, Draw, and old South Ward areas received from nearly two inches up to 2.50.

The rain extended from the Three Lakes area around the southern section to down in, Borden and Dawson counties and over to Grassland and New Lynn, where the fall was very light.

Cleve Littlepage and Fred McGinty reported two inches or more seven miles south of Tahoka. To the south and east of there, Claude Vaughn and Lynn Birdwell had an inch, but on southeast of there they said the fall was up to two inches.

Although a big help, due to the lack of bottom season moisture, most farmers say some more rain will be needed for cotton planting. Some maize and some cotton is being planted, however.

## Little League Opens Monday

In opening ceremonies Mayor Meldon Leslie will be on hand and players of the four local teams will be introduced, along with their managers and coaches. A flag raising ceremony is also scheduled.

On Tuesday night Minor League baseball gets underway with the Dodgers and Pirates playing at 6:00 p. m.

### Tahoka's proposed Civil Rights compliance plan for integration of whites and Negroes in the local school system has been rejected.

Francis Keppel, U. S. Commissioner, Department of Health, Education and Welfare in Washington, D. C., has notified Supt. Harold Reynolds.

Tahoka is one of the many schools not completely integrated required to file such a compliance plan for integration in the immediate future.

The local schools receive approximately \$43,000 in Federal funds, however it now seems all schools will be forced into complete integration regardless of whether accepting Federal funds or not.

According to best information, a school must integrate the first year, or immediately, the first grade, the first year of Junior High and the last year of Senior High.

Tahoka's high school is now integrated. Mr. Reynolds says the board must take some action soon. Next meeting of the board of trustees is on May 13.

## Band Director Resigns Position

Vic Kyler, Tahoka band director for the past three years, has resigned effective at the end of this school year. His resignation was approved at the semi-monthly meeting of Tahoka School Board Monday night.

Kyler has been here three years, and has built up the school band wonderfully well. He says there should be 80 to 85 students in the two bands this coming year if his present program is continued.

He says he hates to leave Tahoka, but has been offered a better position at Gruver, on the North Plains.

In other action, Mrs. Bettye Green, Baylor University graduate in music and former public school music teacher here, was elected to succeed Mrs. Kyler as public school music teacher in North Elementary.

The board, of which Clifton Hamilton is the new president, heard a report on the supplemental reading program in South Elementary from Principal J. B. Howell and Mrs. Minnie Lou Ash, one of the primary teachers, who gave some demonstrations using two second grade pupils, Doug Curry, son of Mr. and Mrs. Rogers Curry, and Sherry Craig, daughter of Mr. and Mrs. Bill Craig.

Melvin Burks, guidance director, also presented a report on the school guidance and testing program.

The board entered an agreement with Wayne Waters Ford Sales whereby the firm will furnish use of a car for driver training and administration use for a fee of \$50.00 per month.

Approval was given sale to highest bidder on sealed bids of the 1957 Chevrolet station wagon used by the school.

Mr. Reynolds reported repairs necessitated by damage to High School in the most recent break-in totaled \$464.10.

### CAWTHRON INJURED

A. G. Cawthron received injuries to his fingers on the right hand when the members were caught in a fan belt on a tractor Monday.

The fore finger was lost at the middle joint, but repair work on the middle finger was done at Tahoka Hospital in hopes of saving it. He is now a patient in the hospital here.

R. R. Luttrell was a medical patient in Tahoka Hospital Sunday and Monday.

Young Farmer Wayne Huffaker has large farming operation.

## Wayne Huffaker Is Selected As Young Farmer Of Month

(By Donald Williams)  
Tahoka Chapter of Young Farmers has selected Wayne Huffaker as "Young Farmer of the Month" for May.

Wayne is the son of Calloway Huffaker, a 1955 graduate of Tahoka High School, following which he attended Texas Tech, where he met and married the former Miss Rachel Wells, daughter of Dr. and Mrs. Ralph Wells of Brandon, Vermont. Rachel graduated from high school in 1955 in Lexington, Mass. They have two small sons, Cal and Ralph. They are members of First Methodist Church, Wayne is a Jaycee and Rachel is a member of Tahoka Young Homemakers. Huffaker & Son run a five-section farming operation, and Wayne is in direct charge. They have one of the most diversified operations in Lynn county and probably on the South Plains.

They have approximately 1,000 acres of cotton, of which 200 is irrigated. They have 50 acres of Midland Bermuda grass, 150 acres of sweet sorghums for silage, and use rye for winter pasture. They plant approximately 500 acres of maize, and are planning to have some castor beans this year.

The Huffakers have approximately 100 head of registered Charolais cattle and 30 head of mixed breed. Wayne says he will have plenty of yearling bulls to sell this year.

Wayne breaks about 350 acres of his land each year to aid in weed control and to give better root and water penetration. He says breaking gives him a better return on his money than any other operation he performs.

He chisels the rest of his land to break up the hard-pan created the year before from working the land and to aid in water penetration.

This year, as for the last several years, he has been skip-rowing his cotton to help boost yields and to help build up the land.

Wayne has put down 50 acres of

labor savers and the most profitable operation in his farming.

Wayne has a very good shop in which many of his ideas for farming equipment originate. He has built quite a bit of equipment in the shop and does almost all of his repair work.

At the present time, he is building a new type knifing rig which shows promise of being a fine piece of equipment. His shop is a big factor in running such a large and efficient farming operation.

Wayne and his dad are lovers of good bird dogs. They have several good bird dogs in which they take great pride.

Through the combined efforts of hard work and good management, Wayne has built a highly successful farming operation.

# 4-H Club Adult Leaders Tell Of National Forum

Mrs. Robert Mock of Northeastern Lynn county, Post, route 3, and Paul Gentry of Lamesa, 813 N. 17th, who recently represented District 2 at the National 4-H Leaders' Forum in Washington, D.C., have made the following report (condensed by The News) to the area people interested in 4-H work.

We were among the 30 representatives who met at Texas A&M University on April 1, where we got acquainted, received orientation in preparation for getting the most out of the National Forum, and were honored that night with a banquet.

Friday, aboard a chartered bus, we traveled to Little Rock, Ark., and Saturday traveled through the rain to Nashville, Tenn., barely arriving in time to make it to the "Grand Old Opry," which we thoroughly enjoyed to the last note.

Sunday, April 4, we stopped at about 9:30 a. m. at a beautiful roadside setting for an inspirational worship service. Late that day we stopped to see one of the seven wonders of the world, "The Natural Bridge" in Virginia, and arrived at Roanoke, Va., late that night. We were impressed by this lovely old town.

Monday, April 5, we were really able to view beautiful scenery as the sun shone the first time since leaving College Station. After lunch, we stopped at Monticello, the home of Thomas Jefferson, which was a wonderful experience. The one thing we will always remember is the painting of Herodias holding the platter with John the Baptist's head lying upon it.

We arrived at National 4-H Center in Chevy Chase, Md., at 4:30 p. m. just as the Forum was to begin. We put on our best smiles, hats, gloves, etc., and in marched "The Texans" in grand style. We might say we caused quite a stir. Incidentally the National 4-H Center was built by private donations.

Tuesday, Pennsylvania was in charge of the program, and Francis Pressly, leader of International Program, gave a lecture of "World Horizons of 4-H."

We were aware that 4-H is an international youth organization working in 78 countries when we met Rudolph Baumgardner of Plainview and Norman Warminsky of White Deer, who were at the Center training to leave on Friday for Europe for seven months in the International Foreign Youth Exchange program.

After lunch, we visited Washington Cathedral in which President Woodrow Wilson is buried, the Curtis-Lee mansion, Arlington Cemetery, where we saw the changing of the guard at the Tomb of the Unknown Soldier, President Kennedy's grave, Iwo Jima Memorial, and Lincoln Memorial.

Evening Assembly, with Texas in charge, we had a program of which we were proud. Speaker was Miss Dorothy Emerson on "Confidence in Leadership," in which this dynamic speaker told us "Strangers are the friends we haven't met yet," and that "mistakes are learning experiences."

Wednesday, April 7, we went to Capitol Hill to meet our Congressmen and Senators. We and Gene Irwin of Andrews went to Con. Geo. Mahon's office in the new Rayburn Building, were greeted by him and given a grand tour by one of his aides to the House of Representatives, where we sat in the Speaker's chair; then to the Senate, where we sat in V. P. Humphrey's chair; and on to the Supreme Court building.

At 11 a. m. the entire Texas delegation met at Senator Tower's office for a very interesting and

informing discussion and picture making session. At 12, we thré from Mr. Mahon's district met him at the Congressional Restaurant for a delightful lunch, including a cup of the famous "bean soup." At 2 p. m., Texans met at Sen. Yarbrough's office for coffee, discussion and picture taking.

Following a special buffet dinner at 4-H Center, the evening lecture was "Applying What We Have Learned Thus Far" by William Stone, Citizenship-Leadership specialist. Considering the activities of government we had seen in action, we were made more appreciative of the efforts of our elected leaders, the heritage and sacrifice of our forefathers, and we all agreed "We are proud to be Americans" and that this is the greatest government in the world."

Thursday, April 8, lecturing on "Understanding Boys and Girls," W. W. Eure, associate director of National 4-H Center, left such thoughts as "Boys and girls have changing ideas and feelings about themselves and others, and want acceptance of others. Gathered in small groups, our topic was "Helping young people prepare for tomorrow," led by Wm. Stone, and we decided "our most important task is to help boys and girls become responsible citizens."

After lunch, we visited the Dept. of Agriculture, Jefferson Memorial, and the Wax Museum, which again deepened our appreciation of our National heritage. This was a free evening and a few of us attended a state play at National Theatre starring Gertrude Berg in "Dear Me The Sky is Falling."

Friday, we went on the visit to the White House (in the rain) we hoped to see the President, since a personal friend was in our group, but this was not possible. There is an exciting thrill in seeing where our "First Family" lives.

We visited the National Archives to see all the original documents of our nation, the John F. Kennedy Library exhibit, and over to Smithsonian Institute, where a few things we saw included the First Ladies' gowns, the Kitty Hawk, the Mercury capsule that John Glenn used in his space flight. Next came Washington Monument, and what an impressive view—one we will not soon forget.

After lunch, back to work and a lecture by Eugene Selfrit, asst. program leader on "Helping Young Citizens Prepare for Tomorrow," emphasizing that citizenship is more than just saluting the flag and voting—that we need values to live by.

The Evaluation Committee gave a program on "What We Have Learned This Week," then to a party planned by the recreation committee for the last night.

Saturday, April 10, at 6:30 a. m. we were aboard bus headed for home, saw some of the Skyline Drive, spent the night in Andrew Jackson Hotel in Knoxville, Tenn., and Sunday held another inspiring worship service under God's sky with visions and sounds of Nature all around. Late in the evening we ran into rain, the Mississippi river was already out of it's banks, and we thought how we in West Texas could use all that water they didn't need.

Spending the night at Little Rock, we headed toward Texas and were back where we started from Texas A&M 10 days before.

We are not really the same people inside, for our lives have been touched by (1) the impressiveness of the National and State 4-H Foundations and their origin, (2) the importance of our lives as we guide the nation's citizens of tomorrow to values of living, (3) the wonderful heritage of our country given to us by our forefathers, and (4) the fact that our responsibility is to give ourselves to others.

If the world is not a better place for our having been here, it would have been better had we not come.

We thought of this as a wonderful opportunity and it is now a priceless experience, one we shall never forget.

As we drove to our homes, seeing the fields of bluebonnets in bloom made us realize we were back in Texas, "the most beautiful state that we know."

# Dr. Thorn Speaks At Rotary Club

"What I Believe About People" was the subject of an inspirational and entertaining talk Thursday at the Rotary Club by Dr. W. E. Thorn, pastor of Metropolitan Baptist Church in Wichita, Kansas.

He was here last week doing the preaching in the First Baptist Church revival.

"I believe people are really better than they seem to be," the minister declared, "but live far below possibilities and potentialities of their lives."

"I believe one of the greatest causes of failure is the lack of imagination. . . . Most people let someone else do our thinking for us, particularly in the fields of politics and religion. . . . I believe fifty percent of our problems are caused by letting someone else think."

"I believe too many of us live lives without plan. We have no earthly idea of where we are going. . . ."

"But, I believe people, with all their faults, still bear the imprint of Almighty God."

The speaker filled his talk with a lot of humorous stories. He said he was a Rotarian before going to Wichita, where he became and now is a Lion. "The president of Lions International is my deacon," he declared, "and I am not very smart but I'm not stupid."

He was introduced by an old friend, Rev. James Efrid, First Baptist pastor, as a former Texan come home and "a Thorn in the flesh."

Leighton Knox introduced the Rotary candidate for rodeo queen, Pat Sarien, and E. L. Short made announcements concerning rodeo activities.

Garland Thornton, a relatively new man here with the First National Bank, was presented as a new member and was to be inducted this week.

WASHINGTON AND  
"SMALL BUSINESS"

By C. WILSON HARDER

One view of history is the incessant struggle of men to enslave—other men, and the struggle of men to be free.

In ancient times Moses freed his people from the slavery of the Pharaohs, and the early Christian Church struggled to free in Rome the slaves who had been used to build the Coliseum, the Circus Maximus, and other edifices.

A hundred years ago there was coming to close a great conflict on American soil which has often been called a struggle to end slavery. While the purpose of the war was not for this end, as a result, slavery was ended.

Twenty years ago the closing scenes were being enacted in blood of the struggle of decent people to end the enslavement of others by the Nazis.

And now, in 1965 the curtains rise in Washington on another attempt to enslave men.

For in 26 states of the union, there are laws which protect men from paying tribute and swearing allegiance to the Hof-fas of the land in order to work.

For the current attempt to repeal certain sections of the Taft-Hartley Act that permit states to pass "right-to-work" laws are just another manifestation of men seeking to enslave other men for gain.

Twenty states have laws which provide that a man's

right to hold a job depends on his own ability and energy, rather than the dictates of a union boss, or the determination by a hiring hall.

And now this freedom of the individual is being attacked to make it come to pass wherever men labor, they shall first swear allegiance to a union boss and pay part of their earnings to him in order to work.

And the sad part of it is that the determination for the future of these millions of workers is being made by others.

The Israelites did not vote themselves in slavery; it was the well fed Egyptian courtiers who determined they should enslave. The natives of Africa did not vote themselves into slavery, it was the affluent Arab slave traders who put them in bondage. And it was the high living jack booted lackeys of Hitler who enslaved the European millions.

And today in Washington it is not those who labored all their lives at heavy tasks who are seeking to place themselves under the bondage to the Hof-fas. Rather it is being attempted by those who avoid toil by currying favor with the Hof-fas.

The nation's independent business proprietors, voting through the National Federation of Independent Business by a heavy majority support the right of states to protect their citizens from bondage.

For of what avail shall it be for America to pour out lives and wealth to seek freedom throughout the world while forging shackles for millions of people at home?

Gordon-Southland News

(By Mrs. Edmund Wilke)

We were so sorry to read about the death of Miss Bobby Merrell Wicker, daughter of Mrs. Fern Bourne of the Gordon community. She went to the Southland School and graduated there in 1956.

Mr. Zack Kemp McKee, who has been on the sick list for quite awhile, passed away at his home here in Southland on Saturday night. He had farmed in this community for a great many years and had only in the last year or two, moved into our little town of Southland and had bought the old Baptist Parsonage and was in the process of remodeling it when he became sick.

Miss Lenora Ingle and Mrs. Abbie Davis, from Granbury, have been visiting their sister, Mrs. W. P. Lester. On Wednesday, Mrs. Lester accompanied them home and plans to visit with them for a week or longer.

Mr. and Mrs. Carl Wartes and Mr. and Mrs. Edmund Wilke, Sherri and Darrell, spent Sunday in Crosbyton at the ranch home of Mr. and Mrs. Leroy Voigt. Saturday was Leroy's birthday and 36 of us helped him celebrate it on Sunday. He served us a most delicious barbeque dinner and as usual most of us ate too much.

Mrs. Selma Kiesel and Judy spent Sunday afternoon with Mr. and Mrs. Leroy Voigt at Crosbyton.

Mr. and Mrs. Harold Wayne Donahoo and son Mark of Lubbock visited Mr. and Mrs. Wes Donahoo and Mrs. Edmund Wilke on Saturday.

Mr. Ed Denton has been in the hospital but he is out now. They are at Possum Kingdom.

Larry Wilke, Martha Blodgett, Connie Wartes, and Billy Mitchell spent Sunday at Lake Thomas.

It is a well known fact that most fishermen kinda stretch a few of their fish stories, so last week I decided to stretch my fish story just to see if I would get any comments, and sure enough I got quite a few. I said that due to one thing and another, each one of our fish cost us \$5 a piece. Well, I've had a lot of fun this week talking to different ones about the price of those fish and I will have to admit that I did stretch it a bit! Really they only cost \$4.98 a piece! ha ha.

Mr. and Mrs. Hubert Dunn Dayneen and Patsy drove out to the White River Dam on Sunday on a sightseeing trip. They reported that things are beginning to look pretty good out there. The lake isn't too large yet but it is pretty deep at the dam and if we could just get some rain, it wouldn't take too long to fill the lake up and make it a real nice place to go. Mrs. Dunn said that there is a nice new highway leading down to the lake and that it doesn't take very long to drive from Southland to the lake, which is very good news to me.

Rev. and Mrs. Bean of Cone visited friends in Southland and with Mr. and Mrs. Morris of Slaton, last week. Rev. Bean is a former Methodist minister of Southland and Grassland.

Mrs. J. E. Day of Muleshoe has been visiting in the home of her daughter, Mrs. Hurbert Dunn.

Mr. Riley Woods fell and broke his leg and is in the Methodist Hospital at Lubbock. I was so sorry to hear it because he broke his hip several years ago and had so much trouble with it and now he has broken his other leg. They say that he is in good spirits and they are giving him therapy on both of his legs.

Mrs. D. D. Pennell, Mrs. Betty Pennell and Mrs. Kenneth Callaway attended a bridal shower honoring Miss Margie Harrison, bride-elect of Donnie Pennell. It was held Friday night in the home of Mrs. Jerry Thuett of Post.

Donnie and Harvey Pennell and Misses Margie Harrison and Shirley Sappington visited in the home of Mr. and Mrs. Kenneth Callaway Saturday night.

Mrs. Lee Fredrickson returned to the Reese Air Base Hospital this past week. She became quite ill and had to be taken there by

J. Fred Bucy Is Speaker At Tech

Growing up in Tahoka, J. Fred was interested in science almost from the time he started to school, and carried on experiments in a garage workroom, in his bedroom, and even in his mother's living room.

After graduating here in about 1947, he attended Texas Tech and finished there in 1951, following which he took work for his master of science degree at University of Texas.

On joining Texas Instruments, a rapidly expanding company, he was assigned to Central Research Laboratories with responsibility for the development of geophysical instrumentation.

He developed a hybrid analog/digital data processor; seismic magnetic automatic computer (SeisMAC) for geophysical interpretation. Later, he was assigned to the development of the first all-transistor seismic amplifier, the 8000 system "Explorer" which was introduced in 1958.

J. Fred is the son of Mr. and Mrs. Fred Bucy of Brownfield, formerly of Tahoka. His wife is the former Miss Odette Greer of Grassland, daughter of Mrs. W. R. Greer of Slaton. The couple has three children, Freddie III, Roxanne, and Diane.

A football player, playing a game of four full quarters, will lose from eight to ten pounds.

Dr. Henry Thomas, head of Tech's physics department, said the visiting engineer-executive would also inspect classroom and laboratory facilities and talk informally with students during his visit.

Marie and Delroy Odom visited with Nellie Mathis last Saturday. Mrs. Mathis kept the baby while Marie and Delroy went to Lubbock.

Mrs. Betty Bryson and children spent Sunday night with her parents at South Plains.

Another Senior Citizen of our community that has a lot of visitors every week is Mrs. J. F. Rackler. Visiting with her this past week was Mrs. Fred Scott and Iru, Mrs. Claud Roper, Mrs. Robert Hagler Sr. and Velma, Opal Hagler and her mother, Mrs. Susie Bradshaw, Mrs. Howton Haire, and Mrs. Carl Stone and son Ricky.

The 27th annual Hackberry Gin stockholders held their meeting on Tuesday, April 27. A delicious barbeque dinner was served by Underwoods of Lubbock and approximately 260 guests were served.

Rev. Cline Drake, of the Gordon Church of Christ, and Mrs. Drake and Mr. and Mrs. Robert Lee Hagler visited Mrs. J. F. Rackler Sunday.

The Dionne quintuplets were born on May 28, 1934.

J. Fred Bucy Is Speaker At Tech

J. Fred Bucy Jr., native of Tahoka and graduate of the local schools, was the final speaker this Thursday afternoon in this year's Texas Tech School of Engineering series.

He now lives in Richardson but is vice president of Texas Instruments in Dallas and general manager of the firm's apparatus division.

J. Fred spoke on the subject "Responsibility and Authority of a Projects Engineer" before students in the Architecture auditorium at 4:00 p. m.

Dr. Henry Thomas, head of Tech's physics department, said the visiting engineer-executive would also inspect classroom and laboratory facilities and talk informally with students during his visit.

Mahon Had Error In Cotton Story

Rep. George Mahon writes there was an error in the news release he issued last week on the Department of Agriculture's proposed modification of the cotton skip-row program for 1966 which would reduce by 30 per cent the advantage which the present program grants to producers who plant two rows of cotton and skip one or who plant two rows of cotton and skip two or who plant two

rows and skip four (not two rows and skip two, as stated).

Also, the next paragraph should have read: The advantage granted under the present program to those who plant four rows and skip two (not two rows and skip four, as stated), or who plant four rows and skip four would be reduced by 15 per cent.

Mr. and Mrs. E. E. Flowers of Chico arrived Sunday for a visit here with her sister, Mrs. W. A. Reddell, and husband.

Spray Propazine to control weeds and grasses in sorghum.

One spray of Propazine® 80W herbicide controls most annual broadleaf weeds and grasses in sorghum for the entire season. This can reduce or even eliminate the need for cultivating because Propazine takes care of problem weeds for you. Propazine is particularly effective on carelessweed (pigweed) and annual morning glory.

Sprayed before weeds and sorghum are up and activated by moisture, Propazine gives your crop an entire season without weed competition for moisture and soil nutrients. The result? Higher yields and more profit for you.

Contact your local supplier now for Propazine.

Anyone need a hub cap for a Durant automobile? If so, see Harvey Freeman. He unearths such a hub cap while working on housing project south of Sunshine Inn. The Durant was an automobile being built in about 1920.

Harvey Freeman farms three miles east and three north of Tahoka, also works in Levelland and his wife has opened a coffee and snack bar here in town. In spite of outside work, on his farm he has a sow and 12 pigs, chickens, turkeys, guineas, peacocks, bees and sheep. He just recently got rid of a milch cow and a horse.

Some of you word experts: How come it's MILK a cow gives, but she is properly a MILCH cow?

Garland Pennington says you've got to have faith. Monday he bought a lake pump. Before night, the east and southeast parts of the county had showers. He says he believes he'll need that lake pump soon.

For a month, Leighton Knox of Tatum Bros. has been advertising for a lost fertilizer spreader, and was getting a little aggravated because he thought he had loaned

it to some one who failed to return it. Then, last week he found it right where he left it the last time he used the spreader last summer—at the Little League ball park. We don't know whether there was any connection or not, but when he went fishing that week end he took wife Helen with him.

Clint Sikes has been going fishing for years, leaving wife Emily at home. Then, a week or two ago Emily decided to go to Buchanan Lake with him—probably to see why he was wasting money on such foolishness. Friends declare Clint spent most of his time putting on bait and taking off fish—from Emily's hook. From here on, if there's any fishing done, Emily will be there, too.

One day last week, Otis Hillhouse slipped out of town about daylight, drove down on Champion Creek Lake South of Colorado City, tossed a Pico perch bait in the water a few times, and by 9:30 a. m. was ready to come home. He only caught three fish, but one of them was a black bass weighing 7 3/4 pounds, 22 inches long, and with a mouth nearly big enough to stretch over a barrel. Otis said he had a six-pound test line and it took him nearly a half hour to land Mr. Bass. The Printer's been bait casting since about 1936 and has never yet landed a bass weighing five pounds—and here comes an upstart barber to pull a stunt like this.

Thanks to Roy Bland of Smyer, an old Lynn county boy, for some kind words about this column, and to Newman Bartley, Mrs. "Pete" Dorman, Mr. and Mrs. Paul Walker of Lubbock, and the latter sent us another parody on the 23rd Psalm we may use some time; and Mrs. Jack (Ruth) Link of Presidio, who says she can't get along without The News.

Mrs. Charlie (VeNoy Coughran) Sanders of Ralls has gathered a large scrapbook of historical stories of the Plains, and more recently has been digging up McDaniel and Coughran family history, both these families being pioneers of Lynn county. She recently gave The Printer a copy of the constitution and by-laws and a photostatic copy of the charter of the "Anti-Horse Thief Association of the State of Texas and Indian Territory" organized in 1894 at Veto, Jack County, Texas, of which her grandfather, the late S. N. McDaniel, was general manager. We hope to carry a story one of these days on this Association. She also sent us a photostatic copy of Mr. and Mrs. McDaniel's wedding picture.

Mrs. Odessa Browne Powell, 801 S. Beverly Blvd., Los Angeles, writes: "My son and I enjoy The News very much—keeps us in contact with Texas land and folks. . . I have written a story of Chambers and Henderson—and many other old pioneer founders and organizers of Lynn county. I will reorganize material and send to you one of these days, I promise." The Printer has asked Odessa to record as much of this history as possible.

Mrs. Annie Mae Smelser Welty, 2010 W. 16th, Plainview, sends greetings to old Tahoka friends and former students, says she enjoys keeping up with them through The News, although there are many new names in the paper since she left here seven years ago. She has married but gave The News no details.

We had a much appreciated note from Dr. Joe M. Lehman of Lubbock, a Tahoka native and former practitioner at O'Donnell. We've seen "Jo-Jo" grow up from a baby to a highly regarded specialist in the medical field. We never cease to be amazed at the great number of Tahoka graduates making a mark in life.

Other recent notes from former Lynn county people have come from the Martin Wuensches of Irving, Georgia Flint of Amarillo, Ruth Jolly Mason of Paris.

J. E. (Guy) LeMond of Snyder, pioneer of Lynn county, has written an interesting account of his recent trip to the Holy Land, which we may have to hold over for another week—but we will run the story when possible.

Con. John Dowdy (D-Texas) says:

"Easter weekend some 16,000 beatnik type students demonstrated in Washington, passing out copies of the 'Young Socialist' and other extreme left literature. Included were the regular 'civil rights' demonstrators, pacifist and communist frontiers. None of the Eastern newspaper editorialists seemed to be much disturbed that a radical extreme left group could assemble 16,000 students for such a demonstration. If a conservative group had put on a comparable demonstration, the federal attorney general would likely have re-assembled his army of marshals, with tear gas guns and turned them loose on the people, and the controlled newspapers would be editorializing for weeks about the dangers of conservative groups demonstrating."

Billye Stockton in Crosbyton Review:

"You know, I'm just not democratic enough to give a hang about the "constitutional rights" of a communist. I don't recall our government getting into a lather about violating the constitutional rights of a Fifth Columnist. After all, our nation was at war back then, just as we really are now. The Fifth Column wasn't nearly as big a threat then as communist infiltration is now. You can see a bomb explode, but brain-washing, though just as deadly, is so subtle it's hard to recognize until the damage is done. I'll go to bat for every person's rights as long as they don't endanger all our rights as communism does."

As of June 30, 1963, the Federal government owned 33.9 percent of all the land in the United States, and now wants to buy up \$100 million more. State lands and Indian lands bring total tax-free government-owned lands in the U. S. to 39.5 (two years ago). Maybe it's later than we think!

Uncle Zeb in The Claude News: Taxes that go to maintain an expanding government to do the things for the individual which he should do for himself is in itself a redistribution of wealth. Likewise, taxes which are spent to provide welfare to those who do not have a justifiable need can well be put in the same category. But politicians have long since found out that promising to take from the "haves" and giving it to all those who have a vote is the short-cut to victory—this was once called political expediency.

Elbert King submits this one: Golf is a lot like taxes—you drive hard to get to the green and then wind up in the hole.

A mother was astonished recently when her small fry son began his bedtime prayer with a solemn "Dear Howard."  
"That's not God's name," protested his mother.  
"Yes it is," the boy assured her. "They taught us in Sunday School 'Our Father who are in Heaven, Howard be Thy Name.'"

**Joe Warf Sells New Mexico Ranch**

Joe Warf, owner of two Lynn county farms, was here Monday and told The News he has sold his Corona, New Mexico, ranch and he and wife are moving to Lubbock, where they are buying a home.

Mr. Warf owns a quarter section farm a mile west of Draw and an 80-acre place on the north county line east of Highway 87, out of the old Bill Nevels place.

For several years, he has made a hobby and vocation of hunting rattlesnakes, and he had with him a number of action pictures showing him in the process of taking

rattlers from dens and putting them in tow sacks.

### Young Farmers To Continue Drive For Light At Crossing

Tahoka Young Farmers pursued its project of obtaining a signal light at the railroad crossing in east Tahoka at the regular monthly meeting held Monday night in Lyntegar board room.

Although the Highway Department has turned down a request for a signal light, the club feels there is still a chance to obtain one. Calloway Huffaker has agreed to handle the legal work of the campaign.

In other business a committee was nominated to study the qualifications of the Young Farmers to determine the ones best suited to run for "Outstanding Young Farmer of the Year."

The group also discussed plans for an awards and installation banquet in July.

Arwin (Bo) Bolin, of the Baker Castor Oil Co. of Texas, presented the program. He showed films on the various uses of castor oil and the future of the castor oil industry.

The door prize was presented by Lynn County News, a one year's subscription, which was won by Walton Terry.

An ice cream supper is being planned for this month with the Young Homemakers.

At the meeting of the group in June, next officers will be elected for the coming year, Donald Williams, reporter, said.
