### Young Homemakers At O'Donnell Hold Furniture Workshop

Young Homemakers of the O'Donnell chapter completed their workshop on refinishing furniture on Wednesday, June 16, and have agreed to put their items on display at O'Donnell Lumber and Hardware Store beginning Thursday, June 17 and continuing through Wednesday, June 23.

Many interesting woods were revealed as the girls removed old finishes and began their refinishing.

One of the more interesting pieces was a family clock that belongs to Oscar Telch. The clock was handcarved by Mr. Telch's grandfather and had been painted. Mrs. Telch removed the paint and used a hot oil treatment on the wood. The finished product was very satisfactory and more desirable to the furnishings of the present day.

Another interesting and revealing piece was a chest owned by Mrs. Harold Brumit which was covered with a cream enamel paint. As the paint remover began its work, a beautiful walnut wood was unveiled. The beauty of the wood had been hidden for many years by a dark stain and later by this enamel coating. It was one of the first pieces of furniture (second hand) the Brumits purchased when they married and has a lot of sentimental value. The sentiment remains—and yet they now have a beautiful chest.

There were many other pieces of furniture—some mahogany and blonde, which is now fruitwood, maple, walnut, dark oak and color.

Those attending the workshop in addition to those named above were Meses Gerald Barton, bed and table; Freddie James, rocking chair; Harold Hohn, family rocking chair; Jim Burkett, child's Early American rocker; Max Forbes, five-piece bedroom suite; Buster Snellgrove, rocking chair, upholstered; Bubs Allen, chest of drawers; Jerry Gass, sewing chest and sewing machine cabinet; and Harold Sanders, cedar chest and sewing cabinet.

The girls all feel they have acquired a great deal of knowledge along the line of refinishing as well as selecting furniture in the future and how to care for their present furnishings.

The chapter's next meeting will be held on July 1 at 8:00 p. m. in the O'Donnell homemaking department.

### Miss Doris Lamb, Richard Brinton Clayton Take Wedding Vows At Slaton Saturday

Miss Doris Jean Lamb and Richard Brinton Clayton were married in a double ring ceremony at 11:00 a. m. Saturday in St. Joseph's Catholic Church, Slaton. The Rt. Rev. Msgr. Peter Morsch was the officiating clergyman.

Given in marriage by her father, the bride wore a formal gown of white bridal satin. The fitted bodice featured a Florentine neckline and long tapered sleeves. Re-embroidered pau d'ange lace accented the bodice waistline and the front of the full skirt. Overlapping side pleats gave fullness to the chapel length train which was topped by a Parisian bow at the waistline.

The bride's veil of silk illusion fell from a jewel trimmed satin bow. She carried a white orchid surrounded by white roses.

Miss Carol Lamb of Lubbock was her sister's maid of honor. She wore a floor-length dress of blue satin. A double bias fold encircled the waistline. A bow in the back was featured above the floating panel. She wore a crushed pillbox of matching satin and carried a cascade arrangement of white pompons.

## Gordon-Southland News

(By Mrs. Edmund Wilke)  
The farmers in this community are as busy as a bunch of bees. Everywhere you look there is a steady movement of tractors planting, scratching, cultivating, knifing, sand-fighting and doing all the things that it takes to make a crop and to put money in our "jeans." I don't believe I have ever seen the crops looking any prettier and growing any faster than they are this year. I nearly hold my breath every time a cloud comes up, because everything seems to be going so good with the farmers around here this year, and as we all know, it doesn't take but a very few minutes to clean us out. There has been such bad weather in other places and it sure scares me, but if it does come this way, I guess we can take it, because we always have.

The Southland Church is a busy place this week because they are having their Vacation Church School each afternoon from 2:00 until 4:30, Monday through Friday. Everyone is invited.

Mr. Douglas Livingston is the new Church School Superintendent at the Methodist Church and he set a new goal for the Sunday School attendance. The new goal was 50, and guess what? The very first Sunday they met their goal! Isn't that wonderful?

Mrs. Bobby Crews and baby from Denison spent last week with her parents, Mr. and Mrs. R. L. Haliburton. Mrs. Haliburton returned home with Linda as her father was very ill.

Mr. and Mrs. Otis Neil of Slaton and granddaughters visited with Mr. and Mrs. Jack Hargrove on Sunday afternoon.

Mrs. F. W. Gallaway and Mrs. Jack Hargrove attended the Luncheon Workshop that was held at Texas Tech last week.

Mr. and Mrs. D. E. Adams from Lockney spent Saturday with Mr. and Mrs. Jack Hargrove.

Mr. and Mrs. Pete Krause and two daughters from Farmington, N. M. spent Friday night with the Edmund Wilkes. Also visiting the Wilkes were Mr. and Mrs. E. C. Stabeno and children of Wilson, and Mr. and Mrs. Leroy Zeischang of Slaton, and Miss Martha Blodgett from Post.

I would like to congratulate Mr. and Mrs. Glenn Kiesel upon their recent marriage. He farms here and she is a secretary at the Police Department in Lubbock. They are making their home in Lubbock at the present time.

Mr. and Mrs. Billy Lester and boys went to Brownfield on Saturday to visit friends, Mr. and Mrs. Elmer D. Jones. They spent Saturday morning with the Jones and then went on to Wellman where they visited with Mr. and Mrs. Oihell Carey and girls. The Careys used to live here.

Mrs. Robert Mason and Brenda from Post spent from Sunday until Wednesday in the home of Mr. and Mrs. Billy Lester. Mrs. Mason is the mother of Mrs. Lester.

Mr. and Mrs. Delmar Wilke and Angie have gone to Tennessee to visit with Barbara's grandfather. From what I have heard, the whole Max Arrants' family went, so I guess they are having a nice reunion. The grandfather has never seen little Angie, because she was born in Germany.

## WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

One of the best kept secrets in the world apparently is how many people are being laid off due to automation in nation's huge industrial complexes.

The big corporations themselves presumably do not want to release this type of information as public dissemination of it would only trigger more demands by the labor lead-

The fact that unemployment continues at a high level can be accounted for that in addition to the workers laid off by automation, new workers are coming into the potential working force.

Federation surveys also indicate that a greater expansion of small business, and hence jobs, will take place when the Great Brains of the Great Society learn what actually creates jobs.

Washington bureaus abound with degree holders. There is nothing wrong with education, but scholastic theories should be leavened by some practical experience and knowledge.

And it is on this score that the government is failing completely to solve the unemployment problem.

A few simple laws and regulations which would unleash the potent force contained in the aspirations of the independent entrepreneur would take care of the problem.

This then becomes the real problem. Or expressed in another way, the problem is one of people who have practical economic experience making their viewpoint heard so loudly in government, that they offset the untried and untested theories being expounded. The unemployment problem cannot be much longer handled by theory, for this government, nor any other government, can successfully cope with hordes of unemployed. It is questionable that anyone can fiddle with a Phi Beta Kappa key while Rome burns.

## Lynn County Soil Conservation District News

E. E. BLAKNEY  
WARD EAKIN  
JIGGS SWANN

Land leveling is a very good conservation practice on irrigated farms, says W. R. Aaron of the Soil Conservation Service.

Land leveling is a feasible conservation practice on land that has slope from zero to one percent. It allows a farmer to get more efficient use of his irrigation water, as well as from rainfall. Land leveling also protects the land from water erosion problems that would occur if the land were not leveled.

The farmer that irrigates land is more able to apply his water more efficiently by leveling land and cutting the length of runs of his rows. Land can be leveled in one direction or both.

Land leveling in The Lynn County Soil Conservation District costs approximately eighty dollars (\$80.00) per acre. Some farmers such as E. L. Brosch, who farms in the northeast part of the county levels their own land. This cuts the cost of land leveling.

Mr. Brosch, who has leveled

approximately forty (40) acres states that by leveling his land, he is able to irrigate more land and irrigate more efficiently. He plans to level approximately fifty (50) acres more of his land in the future.

Other farmers who have leveled their land are Pat Patterson, L. C. Unfred and N. A. Rodgers. There is assistance through the Soil Conservation Service and the Agricultural Stabilization Conservation offices for farmers who have land that would be feasible to level, Aaron says.

I have sworn upon the altar of God eternal hostility against every form of tyranny over the mind of man.—Thomas Jefferson.

### Young People Home From Washington

Paul Douglas Kenley and Jean Flippin, two of the four winners of Lyntegar Electric Cooperative's recent oratorical contest, returned Monday from an all-expense paid 10-day trip to Washington, D.C.

While there, they heard a talk by and got to shake hands with President Lyndon B. Johnson.

The Texas delegation about 75 strong traveled by bus to and from Washington, visiting 12 states. There were 600 young people and sponsors from 19 states at the meeting.

One day, June 9, was devoted to meetings in observance of National Rural Youth Day when several talks were made by Rural Electrification officials. They were given police escort to the White House, where the President spoke to them on the lawn.

Most of the remaining time, the group spent seeing the sights of the National Capitol, including the capitol building, Smithsonian Institute, Washington, Lincoln and Jefferson memorials, two Jim memorial National Cemetery and President Kennedy's grave, Mount Vernon, and others.

The two Tahoka young people brought home a number of slides and are prepared to make talks before club groups on their trip if desired.

**CARD OF THANKS**

To the Board of Directors, members and employees of Lyntegar Electric Cooperative, Inc.:

We have just returned from a truly memorable trip to Washington, D. C. Its purpose was to give young people an insight into the workings of their national government. Besides giving us this valuable knowledge, it has stimulated within us a deeper love, a greater patriotic feeling for our country. We can never forget the deep impression this trip has had on us as young citizens of America, its effect will remain with us for years to come.

None of this would be possible without you. We want to use this means, pitifully inadequate though it may be, to say a heartfelt thanks to you for giving us this opportunity. Your generosity and sincere concern for our future are deeply appreciated and will be long remembered. Our deepest gratitude goes out to you, along with our hope that your investment in us has not been in vain. Very gratefully yours, Zane Wright, Mary Lynn Gresham, Jean Flippin, Paul Kenley. 1tp

# Storm Emergency Plans Need Told

Storms and pre-arranged plans for protection against them was the subject of a talk at Tahoka Rotary Club Thursday by Harry N. Tower of the Lubbock Civil Defense organization.

Mr. Tower pointed out the importance of having a working Civil Defense plan in a community such as Tahoka. Even from a quasi-military standpoint, if a town has made proper preparations for war emergencies, that town will be prepared for any other disaster, including tornadoes.

In almost any emergency, he said, water is the most important thing. This was true in the Hale Center and in the Wichita Falls tornadoes. Plans in advance need to be made for uncontaminated water.

Explaining the difference in hurricanes and tornadoes, he said a hurricane is a giant storm possibly hundreds of miles wide and traveling a great distance.

Tornadoes, in which we are more vitally concerned in this area, are never more than 1200 feet wide, usually much less, travel an average of only 16 miles at 25 to 40 miles per hour and from a southwest to a northeast direction.

He explained a tornado is some-

thing like a vacuum cleaner in its action, sucking in air and objects from the bottom into its swirling vortex in which winds may reach 500 miles per hour. The giant whirlwind is caused by cooler air above sucking in the warmer air below.

In contrast to a hurricane, a tornado does not blow down a house. The house simply explodes from the vacuum created inside by the sucking action of the terrific wind on the outside. This is why that sometimes when windows and doors are open a house in the path of a tornado is not completely destroyed.

Most important thing, he said, is for a community to have a plan for action following a disaster, with certain men prepared to do certain things. With sufficient warning, most people can get out of the path of a tornado or get into properly built and equipped shelters such as storm cellars.

E. L. Short, program chairman, introduced the speaker. He also announced the Civil Defense meeting set for last Friday night.

President Wilton Payne announced the annual Rotary officer installation meeting will be held the night of Thursday, June 24, on the E. L. Short back lawn with wives of Rotarians bringing covered dishes.

He read a letter of thanks from Pat and Opal Hines for, honors conferred on Pat at his retirement from City of Tahoka service after 42 years.

## Honor Daughter Of Former Local Doctor

Miss Virginia Stapp, a sophomore in Crowell High School, has been selected as an active participant in the Secondary Science Training Program in Chemistry at Texas Woman's University in Denton.

The above information was furnished The News by Mrs. Clyde Allen, to whom the Stapps had sent a newspaper clipping.

Virginia is the daughter of Dr. and Mrs. Walter Stapp, who left Tahoka about 14 years ago. Upon leaving Tahoka, Dr. Stapp went into the service; served in Germany and then went to Africa.

Mike Davis and Weldon Freeman left June 5 for two weeks training in the Navy at San Diego.

members attended the District Rotary Assembly at South Plains College in Levelland Tuesday.

Warren Embree, on behalf of the club, conducted the ceremony inducting a new member, Garland Thornton, his fellow First National Bank vice-president, into Rotary.

OFFICE SUPPLIES—The News carries a fairly complete line of office supplies, most items lower than Lubbock prices.

## Three Injured In Rural Accidents

There were four rural accidents in Lynn county during the month of May, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area.

These crashes resulted in three persons injured, and an estimated property damage of \$1,775.00.

The rural traffic accident summary for this county for the first five months of 1965 shows a total of 26 accidents resulting in three persons killed, 10 persons injured, and an estimated property damage of \$11,568.00.

"Due to a man power shortage in the uniform services of the Texas Department of Public Safety, applications for the position of patrolman are now being accepted until July 6," announced the Patrol Supervisor. Examinations will be given throughout the state on July 14 and July 15. The four month training school will begin on August 31 at the Texas Department of Public Safety Law Enforcement Academy in Austin.

Young men between the ages of 21 and 35 that are interested should contact the nearest Texas Department of Public Safety Patrolman or office for additional information:

### SNAGS TREED BOBCAT

Clarksville—There's more than one way to corral a cat, says Game Warden Phil Brooks of Clarksville. He reports James Dawson of Manchester was horseback riding in his pasture when dogs jumped a large bobcat. He had no gun but when the cat treed he uncoiled his lariat, swung true on the first shot, and the cat rode home on the saddle. It weighed out at 27 pounds of fight.

It is our civic duty to guard and rise in defense of our own and our neighbor's rights. We must answer with outspoken criticism every attempt by a local or federal government to infringe upon our rights.—Dr. S. L. De Love.

### MISS ROSS GRADUATES

Miss Linda Kay Ross, daughter of Mr. and Mrs. Lonzell Ross of New Home, was one of the recent graduates at Lubbock Christian College.

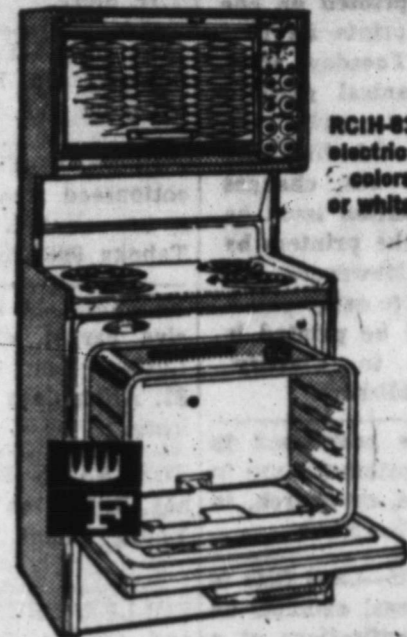

Karen Kidwell left for Houston June 5 where she is employed by an oil company. She is the daughter of Mr. and Mrs. W. T. Kidwell.

### BIRCH LARSENS HERE

Birch Larsen and family were here Monday visiting old friends while returning to Edinburg from a family reunion at Hereford, the first time his parents had had all nine children home at the same time in 14 years. Birch says he has sold his drug store in Mission, but has opened a second store in Edinburg, and has a third one in Mercedes.

Congratulations to Post! At long last, after many, many years of water shortages, the town now has an adequate supply from the White River lake over in southern Crosby county, it recently built in cooperation with Spur, Ralls, and Crosbytown. Away back in the 'teens, cereal king C. W. Post, the town's founder, started rain-making experiments by setting off dynamite explosions in an effort to make clouds drop their moisture. There was the Two Draw Lake supply for a while. But, through the years, the

town had to depend on small wells up on the Caprock. As the town grew and the underground water supply kept dwindling in spite of an almost continuous search, Post finally began to look elsewhere for water. Last week, the wells went dry on Monday and there was only 200,000 gallons remaining in reserve for a possible fire. Wednesday was a red-letter day—water from White River flowed into Post.

Tahoka C. of C. has been working, off and on, several years to get some kind of industry with a payroll for Tahoka. Once or twice, such a business was nearly landed and something happened. Last time, a manufacturing plant interested in Tahoka was all ready to move. But, as it turned out, it's financial structure was in terrible shape and the owners really wanted to be bailed out by some generous godfather. A local committee has started a different approach, and results may be obtained some day. Who knows? We don't get things we don't try to get. Let all of us give the C. of C. any help in this line we can.

The chief losers if 14b is repealed are relatively few in number, and have little political muscle: They're the workers who want the right, if they don't like a particular union, or its leaders, or its policies, or if they cherish their independence, not to join. It's extraordinary that a nation so dedicated to liberty should want to take away that right; and that compulsory unionism should become a rallying cry of people calling themselves "liberals." But we live in a strange world, even here at the gateway to the Great Society—New York Herald Tribune.

Yeah, but to heck with rights if it'll make LBJ and the Socialist-Democrats more votes!

If you are a Negro, a movie star, a prize fighter, or possibly a congressman, you might get special treatment from the Internal Revenue Service, it appears. The latest case is that of Congressman Adam Clayton Powell Jr. the Harlem Negro minister who chases around European night clubs with his white secretary at Government expense while his wife, also on a top salary as a "secretary" stayed "home" on a West Indies island living it up. Last week, IRS announced the government has agreed to settle its tax case against Powell for \$27,834 instead of for the \$41,014 it has claimed he owed for the years 1949 through 1955.

The above don't set very well with The Printer, if you'll pardon a personal reference, in view of the fact that Uncle Sam's boys once spent a lot of useless time and \$100 or more trying to collect \$2.35 off The News for Federal Unemployment Taxes the IRS finally discovered this firm didn't owe—which we had told them from the start. Like the Royal Canadian Mounted Police, the IRS always gets its man—or does it?

Just any day now, we may get The News barred from the mails for espousing such freedom and justice talk!

Vernon Turner of Lubbock, old Lynn county boy, says Ed Hamilton doesn't have much on him. Sixteen years ago, daughter, Mrs. Frank (Lana) Gollaher, got out of college. Two weeks ago, his son-in-law Wm. W. Smith, at age 24, got his Ph.D. degree at LSU and will teach at University of North Carolina at Chapel Hill. His wife, Billie Lee, is a certified public accountant.

SM/Sgt. D. W. Smith, stationed in Hawaii, writes he and wife greatly enjoy The News, and says they hope to be back on the mainland in October.

Wayne Shawn, senior vice president of The City National Bank of Colorado City, son of Mr. and Mrs. W. E. Shawn, and an old Tahoka-reared boy, writes that they greatly enjoy The News, reading about old friends, and frequently shows some of these "ink splatters" to his associates. He sends along some enclosures telling about his bank and town. He also sent along that hog story we ran here a few months ago.

James Hoffa and International Teamsters Union send The News a monthly magazine. Frankly, we enjoy reading the publication, although we disagree with many of its viewpoints. And we enjoy the joke page. Those in this column this week are from the Teamster's magazine.

Two ardent golfers, who had skipped church one Sunday morning to play a few holes, were feeling a little guilty about it. "I couldn't have gone to church anyhow," said one. "My wife is sick in bed."

When my brother was inducted into the army, the first sergeant said to him, "What were you in civilian life?" Answered my brother, "Happy."

He mumbled a few words in church—he was married. He mumbled a few words in his sleep—he was divorced.

OUR POVERTY STRICKEN Corvallis, Ore. Gazette-Times: There are 47 million families in the United States. One fifth or 9.3 million of these families have an income of less than \$3,000 a year and are classified as living in poverty. Federal, state and local welfare programs total \$44 billion, which, if divided without all the bureaucratic strings attached, could be apportioned so that each family now making less than \$3,000 could have \$4,400. But then how would we support all those unemployed bureaucrats? There are undoubtedly many good things about the poverty program and if we ever wake up in a positive mood, we may recall some of them.

CHICK-N-QUE A TREAT Barbecue sauce plus plump, tender-meated broiler chickens add up to a chick-n-que and fun for the family provided, say poultry marketing specialists at Texas A&M University, you have some charcoal and grill handy. Aztec, N. M., Independent-Review: The government is worried over the unemployment of youth, not seeming to realize that laws and regulations, and taxes for benefits, make it almost impossible to hire youth.

Two years after the U. S. Army was created Congress adopted a resolution on June 14, 1777, which gave birth to the American flag—the "Betsy Ross" flag with a circle of 13 stars. The records of the Pennsylvania Navy Board, May 29, 1777, show that she was paid \$43 for her "suggestion."
