Rain Showers Are Big Help To Many Areas Of County

Roads Topped In Local Cemetery

Work is beginning this week on improving all streets in Tahoka Cemetery by laying a topping of rock chat to make the streets usable in wet weather.

Tahoka Cemetery Association is receiving help on the project from Woodrow (Ode) Brewer, commissioner of Precinct 2, who is having the chat hauled from the Lone Star Materials plant south of O'Donnell. About 500 yards of rock chat will be required for the job. Mr. Brewer is donating both the chat and the hauling.

This is a part of the Cemetery improvement work being done, which also includes taking up of 30 to 50 dead trees, cleaning and shaping up the grounds, and possibly other work will be done.

Tahoka Chamber of Commerce, headed by John Wells, president, has contributed \$200.00 to help out on the clean-up and improvement project.

Mr. Davis said Commissioner Brewer's contribution is greatly appreciated and will release the C. of C. contribution and Cemetery funds for other needed improvements.

Borden Davis is head of the committee from the Cemetery Association in charge of the project.

Officers of Tahoka Cemetery Association are: Garland Pennington, president; Maurice Small, vice president; Mrs. Helen Ellis, secretary-treasurer; Mrs. Ethel Robinson and Borden Davis, directors.

DON SMITH

New Coach Plans Football Program

Tahoka Bulldog 1965 team candidates will not start working out until August 16, but boys who expect to play are urged to begin getting in condition for the workouts, states Don Smith, new head football coach who moved here from Lubbock several weeks ago.

Although there can be no organized meeting under Interscholastic League rules until August 16, Coach Smith says it would be highly beneficial to boys to start running on their own now. Shoes can be issued the boys on August 11.

Coach Smith says all seventh and eighth grade Junior High boys will buy their own shoes this year. Puma shoes will be used, and these can be purchased for about \$8.00 at sporting goods stores. These shoes are safe, serviceable, and can also be used for baseball, he says.

The new Tahoka coach has been an assistant at Monterey High School in Lubbock since 1960. He played high school football under "Chesty" Walker at Phillips, and college ball under "Bear" Bryant at Texas A&M. He was an assistant at A&M one year.

He and his wife and baby daughter reside at 2012 North Third in the former home of H. B. McCord Jr.

Mr. and Mrs. John Wells and two children spent last week end visiting his brother, Glenn, and other relatives in the Fort Worth-Dallas area.

Spotted showers the past week have helped a number of county crops, but a good general rain is still needed to produce a big crop this year. In fact, farmers say the next few days will determine the extent of this fall's cotton crop.

Much feed has already burned up, some has already been cut back, but there is still considerable maize that would produce with a good soaker.

Tahoka has received 47 inch, of which 16 fell Sunday, 05 Monday, and 26 during this Wednesday night. This brings the rain in town to 91 inch for July and 9.99 for the year.

Showers Sunday included an inch west and southwest in the vicinity of the Ross Smith and Barham farms. Up to an inch in parts of the old South Ward and Midway areas, where a high wind blew away a part of Roy Miller's porch. Derwood Howard reported an inch. A shower from one-fourth up to an inch extended from Six Mile Station east of town northwest of there to north of Tahoka, where Winston Wharton had an inch.

Monday heavy showers fell south of Tahoka at the same time 05 was received in town.

On Wednesday, New Home received a half inch and Petty a half inch, and Othell Meeks reported an inch on the George place south of New Home. West of Tahoka, Chester Smith and Red Brown had heavy showers. An area north of Tahoka received another shower, and parts of the Wilson area received rain.

Down toward Wells, 70 inch was reported at the Ledbetter place.

Heaviest rain Wednesday was southeast of Tahoka. Although very spotted, a large area of farmland received helpful rains, again in the Midway community, the Joe Bailey area, and Draw section, where from a half to an inch fell. Also, Grover Stewart's ranch area received a good shower. South of Draw, C. O. Carmack reported a helpful rain.

Biggest shower of the day was east of O'Donnell, where up to two inches was reported. O'Donnell measured .15 inch.

New Lynn also reported up to a half inch Wednesday.

Skies were still cloudy in Tahoka Thursday morning, following the slow rain of 26 inch in the early morning hours, and U. S. Weather Bureau in Lubbock told The News prospects were very good for more showers over Lynn county.

New Director For Band Visits Here

Gary Hall, new Tahoka school band director, was here last week end, rented an apartment from Mrs. I. I. Gattis, and expects to move here about the middle of August.

Hall is a native of New Boston and is a graduate of East Texas State of Commerce, where he majored in band. This will be his first teaching experience, but he said he was pleased with the town, school and prospects.

Mrs. Harley Henderson expects to be home today from Plainview, where she has been over a week with her new grandson, the son of Mr. and Mrs. Claude Chapman, formerly of Tahoka.

Letter To Editor 60 Years Ago Tells Of Lynn Prospects

Lynn county as it was in 1906 is described in a letter to the editor of a Dallas newspaper written by the late A. R. McGonagill, a clipping of which was found recently by his daughter, Mrs. Gladys M. Stokes.

Mr. and Mrs. McGonagill and children had moved here in 1905 from the North Wichita near Benjamin and bought two sections of land out northeast of the Botkin farm, later known as the Shattuck place and now owned by Mrs. R. W. Allen. They lived there a couple of years, sold out and built a home in town; later owned the Twin Wells section, the Park place; and finally settled on the place filed on by Ellis Payne at Edith, still owned by the family.

There were four girls, Mrs. Bud (Cleo) Milliken, Mrs. Gladys Stokes, Mrs. Ward (Doris) Eakin, and Miss Attye Belle McGonagill; and one son, Buddy, now deceased. Mrs. McGonagill passed away in 1933 and Mr. McGonagill in 1938.

Mr. McGonagill was an old time cowboy in the early days up on the North Plains, and his first love was stock raising until the day he died, but back in 1906 he was a booster of Lynn county as a future productive farming area as indicated in the letter below:

From Lynn County, Tex.

Some three weeks ago I wrote a letter to The News giving a partial description of Lynn County. Since then letters of inquiry have been coming in at a lively rate from people seeking further information concerning this country. I have accumulated quite a bundle of these letters and to answer them all personally is next to impossible, so if the editor will kindly publish this I will try to describe this section of country to the satisfaction of those interested. The county has been organized about four years. It was first settled up by the "bonus man," who put on only such improvements as were necessary to hold it. Then came "the man with the hoe," and I believe he has come to stay. The land is a light sandy and dark sandy and will produce anything that grows. Water can be had at from 50 to 150 feet, which for the greater part is fine—some soda water. The price of land ranges from \$5 to \$10 per acre, fruit of all kinds does well with the exception of figs. This county is situated on the south plains, seventy-five miles north of Big Spring, which at present is the nearest railroad station, although there is a road graded into Plainview, sixty-five miles north of us. Surveyors surveyed a line of road through our town last week. We have had a road or two built through here (on paper), but I think we will have one in reality

at no far distant date. Plenty of wood twenty-five miles east of us in Garza County, although plenty of wood can be had right here if one will grub it out. Health is fine.

In my last letter it should have read, "We had green butter beans the 26th of November, 1905," instead of "last month." Frost comes late and fall gardens do fine. Tahoka is the county seat and has five general stores, hardware and implement house, two drug stores, two banks, two meat markets, hotel, restaurant, saddle shop, mill and gin, livery stable, schoolhouse, fine court house; \$2,000 Baptist Church in course of construction. The Methodist people are contemplating erecting a modern church building in the near future. I would advise those who contemplate moving to this county to come and see for yourself before you make any preparations to move, as I have only described it as I see it. It suits me; it may not suit you, and what suits one man probably will not suit another. I am no land agent; am a stock farmer.

W. C. Wallis of Dallas County, who says he has passed through this county, in a letter to the Forum, "charges the farmers here with writing "highly colored and wonderfully misleading" letters to the Forum concerning the Plains. It is not my intention or wish to mislead any one by making false statements in my letters, so have confined myself strictly to facts. One who could pass through this country without seeing hundreds of newly improved farms certainly needs the services of an optician. He says cotton is "sorry" through this part. We can cite him to plenty of cotton here that will make three-fourths of a bale per acre; also beets that weigh three pounds, and sweet potatoes that weigh four pounds. The yield of June corn this year here is forty to sixty bushels per acre. The south plains will have a produce exhibit this fall at the State Fair, which will show who was mistaken. This part of the State is enjoying a greater prosperity than any other section. It is flooded with homeseekers who are buying land and building homes. Land that was selling for \$2.50 to \$3.00 a year ago is selling today for \$10, and yet Mr. Wallis could see no signs of prosperity. Instead of the spirit of unrest, our people are prosperous, happy and contented with a permanent home in the Golden West.—Melbue McGonagill, Tahoka, Lynn County, Tex.

Little League Is District Loser

Tahoka won the first game over Crosbyton but dropped the second to Lamesa in the Little League Area 4 tournament at Crosbyton last week end. Lamesa went on to defeat O'Donnell 11-2 for the title.

In the opening game Thursday, Tahoka took a 4-3 victory over Crosbyton behind the pitching of Robert Montemayer.

Joe Thomas hit the second pitch of the ball game over the fence for his first home run as a Little Leaguer, Tahoka scored again in the second, and Ronnie Schneider slammed out a homer in the third with one aboard for Tahoka's four scores.

Crosbyton scored single runs in the second, third and fifth innings.

Slaton defeated Post 8-7 the opening night, while O'Donnell and Lamesa drew byes.

The second night, Friday, Lamesa took a 7-4 win over Tahoka

Rep. R. Pendleton On State Council

Austin—Speaker Ben Barnes today announced the appointment of Representative R. G. (Randy) Pendleton of Andrews to the Texas Legislative Council of the 59th Legislature.

The Council, of which Barnes is vice chairman, is a permanent legislative service agency with a full-time professional staff which provides research, statutory revision and bill-drafting assistance. Council members, who determine policy and provide general direction for the agency's work, are designated by the presiding officers of the House of Representatives and the Senate after each regular session of the Legislature. They participate actively in dealing during the interim with problems of state-wide significance confronting the next Legislature. Appointments to the Council are considered choice assignments by legislators because of the influence and prestige attached to membership.

In announcing the appointment, Speaker Barnes said, "Representative Pendleton, serving his second term in the House, has distinguished himself as a legislator. His knowledge and experience will enable him to make significant contributions to the work of the Council and to the development of a constructive program for the 1967 legislative session."

During the 59th Legislature this year, Pendleton was vice chairman of the House standing Committee on State Affairs and also served as a member of Committees on Congressional and Legislative Districts, Municipal and Private Corporations, Public Health, and Rules.

which Tahoka fans felt was just an unfortunate turn of events.

Tahoka took a quick 1-0 lead in the opening inning, but when Lamesa came to bat with Rayford Gage on the mound the bases were quickly loaded, and Lamesa's Mike Wright hit a grand-slam homer for the Dawson county boys to give them a 4-1 lead. Tahoka could never recover.

But, Jeff Atwell went in as pitcher and did a fine job the rest of the way. Frosty Walker and Robert Montemayer each had home runs.

O'Donnell had advanced to the finals with a victory over Slaton, but the South Lynn boys took a 11-2 loss in the Saturday night game to Lamesa, which will represent Area 4 in the district tournament at Crosbyton this week end.

Lynn County Soil Conservation District News

E. R. BLAKNEY HAROLD PAYNE
WARD EAKIN BOYD BARNES
JIGGS SWANN

Many people, both rural and urban, are not familiar with the need and purpose of local Soil Conservation Districts, says Blake Lovelace, SCS Technician.

Soil Conservation Districts, as The Lynn County Soil Conservation District, are a necessity for the following reasons, he says:

They are self-governed State subdivisions which are established by the people through popular vote to promote soil and water conservation in the local area. They concentrate and exercise authority in the local community where it should be.

Soil Conservation District law provides that locally elected land owners are responsible for its administration. Just as patrons rather than teachers form school district policies, landowners rather than public employees formulate the policies of Soil Conservation Districts.

The farmers and ranchers who own the land, are the people who actually use the necessary conservation measures to protect and improve it. They accept and use the Soil Conservation District program because they develop it.

Due to the variations of soil, climate, types of farming, and needs of the people, it is not possible to use a statewide or national program. The local district provides a program adapted to local conditions and needs.

The Soil Conservation District provides the medium through which the abilities and resources of the local people as well as state and federal agencies can be jointly used to carry out a locally developed program for conserving our soil, water, plant, and wildlife resources.

The late John F. Kennedy said "Locally controlled Soil Conservation Districts, with the leadership and aid of the federal government, have done much to restore beauty to our countryside, and to save our natural wealth for future generations."

Mrs. S. P. Spruiell was released from Tahoka Hospital Wednesday where she had received treatment for pneumonia since July 23.

We think we've got troubles! Just read that the world's population will double in 40 years and double again in another 40. What will we be doing for water in 40 years? And living space, and bread, and cotton? Well, we ain't a-gonna worry too much because LBJ and Company have everything all planned out.

Seriously, if we can hold out long enough, one day there may be a bigger demand for cotton. Or, will there?

Back in 1911, U. S. cotton production was about the same it is today, 15.7 million bales. But, what's happened in these 54 years? World population has grown tremendously. At the same time world cotton production has doubled, and the U. S. production is the same. World Almanac figures show world production in 1911 was 25.3 million bales, according to figures compiled by U. S. Dept. of Agriculture. In 1964, U. S. production was 15.2 million bales, and world production was 51.6 million bales, according to the same source. Thus, in 54 years the U. S. has failed to keep pace with the world increase, mainly because our price and control programs have caused us to lose

our world markets, and our government policies have failed to push our crop into competitive world trade.

We also read a while back that the U. S. Government, through loans and gifts and technical knowledge of experts sent abroad by the Agriculture and State Departments, has been directly responsible for putting 26 nations in the cotton production business. Be that as it may, the fact is that less than 20 nations produced cotton before 1920, and today 49 nations raise cotton in substantial amounts. These are not our figures. They are figures of the U. S. Department of Agriculture.

We've been a long time getting to this position. Back in 1936, our dad warned in this newspaper: "If farmers of the South are looking for a money crop they will have to consider something other than cotton, for with the keen foreign competition, the large world carry-over and the loss of our foreign markets will continue to beat down the price of cotton. Better look to a crop you can eat if you can't market it." The war finally came along, though, and cotton was saved temporarily. But, for thirty years, we've experimented trying to keep the price up—all the time losing our world position.

A reader and good friend suggests we "put up or shut up"—meaning, if we don't like the LBJ-Freeman-Cooley plan that we give constructive criticism by offering a plan of our own. Well, we're not smart enough, but we have thought there have been better plans offered, which would take columns to describe. We do know we're rapidly going out of the cotton business.

Maybe the new Cooley program is what we need. One thing about it, we can take it or leave it—that is, it gives us a choice of cutting acreage still further, or staying out of the program entirely and planting fence to fence and selling on the open market.

Incidentally, last week we had an error in the column in one place, saying 640 acres when we meant 320. Come to think of it, some people think this column is a complete error all the time; and some think the paper and town would be better off without The Printer. But, folks, you're gonna have to put up with us until the Government forces us out of business, or at least until we get on Social Security and Medicare—then, younger folks are gonna have to pay our way.

We take our part of the blame. We've always wanted the highest price possible for our own cotton. But, the farmer is not responsible for the Government bowing to the Labor Kings. He's not the man

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

It is not beyond the realm of possibility that there will be one of these days an avowed card carrying communist as United States president.

This can come about, because the United States Supreme Court has been doing the best it can to make communists respectable members of the American society.

In another recent 5-4 decision, the high court overruled the law passed by the Congress prohibiting known communists from holding office, in labor unions.

Prior to this time it ruled that Congress had no right to impede the delivery free through United States mails communist propaganda from abroad. It also ruled State Department has no right to refuse passports to communists.

In other words, the sum total of these most peculiar decisions is to the effect that communists have the full rights and privileges of any citizen.

This is somewhat tantamount to a situation that would result if local Humane Society, or SPCA was able to enforce a rule that you could no way interfere with any rattlesnake you may find slithering around your home.

What makes this court position even queerer, if anything, can, is at the same time Americans are killed in Santo Domingo, in Vietnam, seeking to

stop communist conspiracy.

If it be true that no one can serve both God and Mammon, how can anyone equally serve the American flag and the communist manifesto.

If it also be true that the billions spent in foreign give aways, and in foreign information services, and in the Peace Corps are for the purpose of selling the world on the evils of communism, what do decisions like this do to the achievement of this noble purpose? How can the Congolese, the Vietnamese, or even the man in Bologna, Paris, or Vienna be impressed with the dangers of communism when U. S. highest court says that communists should be treated with full privileges of a loyal American citizen.

It is also interesting that this decision comes at a time a drive is on in Congress to repeal that section of Taft-Hartley labor law which permits states to have laws that allow people to work without paying tribute to a union.

By huge majorities the nation's independent business proprietors, voting through the National Federation of Independent Business, have opposed any such repeal. Now, all should be opposed.

Because if unions can force everyone to pay tribute to them, and if they can be headed by avowed, known communists, the Kremlin has won the cold war. There is often a difference between technical legality and common sense. It should never be forgotten that Adolf Hitler seized Germany without committing illegality against the constitution of the Weimer Republic.

who initiated or passed drastic labor legislation. He's not the man who caused the price of everything else but farm products to increase and increase. He's not the man who put 26 new nations into the cotton business, from Thailand to Yugoslavia, or who sent farm experts to Russia to teach the Communists how to raise cotton with cheap labor. And, not many farmers gave our Congress, the Agriculture Department, the State Department, and the various administrations the authority to take our tax money and spend it abroad building up competition to home people.

We really believe things may get worse before they get better, but we're really optimistic enough to believe something good will come finally to restore our product. In the meantime, we've got to find new uses for cotton, a better product, cheaper means of production. You're not going to whip the farmer, yet.

We hear Chas. G. (Buddy) Bragg, Tahoka native farm son now with the Department of Agriculture in Washington, has been transferred from the cotton division to the tobacco division. Maybe he knew too much about cotton.

We know a graduate engineer in electronics who, on being drafted into the Army, was put to digging sewer ditches. We have a Wisconsin lawyer administering the farm program.

Now for some more jokes!

An exchange says: "First, Johnson took over Texas. Then he took over the whole country. Then his daughter became a member of the Catholic Church. We don't know what Lyndon has in mind, but if we were the Pope we would begin worrying."

A lady at a supermarket check-out counter unloaded a quart of milk, a dozen eggs, a TV dinner, six cartons of cigarettes, hand lotion, suntan lotion, face cream, work gloves, flashlight batteries, two magazines, and the latest hit record. She paid her bill and went out grumbling: "Food costs so much these days. No wonder the farmers are getting rich."

"Just what's my trouble, Doc?" the patient asked.

"I'm not too sure," he replied, "but if you were a building, you'd be condemned."

Worried wife as she watched her husband fishing in a bucket of water in the living room, to a friend: "I'd take him to a psychiatrist, but we need the fish."

Outdoor Survey For Lynn County

Denver, July 29 (Spl. to News)—Lynn is one of 230 counties in the nation selected by interviewers gathering information on private outdoor recreation according to W. W. Dresskell, Regional Director, Bureau of Outdoor Recreation of Denver, Colorado.

"The inventory to begin August 15 will be conducted by the Chilton Research Services of Philadelphia, Pennsylvania, on contract with the Bureau. Representatives of the firm will be in the County visiting with residents soon after the opening date," Dresskell said. Private outdoor recreation area operators will be asked about land they use for recreation purposes, the types of recreation they of-

fer, and about problems and difficulties.

Information collected will be confidential and used only in national summary tabulations. There will be no identification of individual enterprises.

County inventories will be part of the nationwide long-range outdoor recreation plan, as will similar studies of public facilities on both the local and State levels. Results of the survey are expected early in 1966.

"The nationwide plan will serve as a guide for future public and private outdoor recreation developments and will complement State plans," Dresskell adds.

"The Best of Everything"

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

This year there is scheduled full scale investigation into the differential in the price of foods paid by consumer, compared to prices farmer receives.

There is no question but what the farmer's proportion of the consumer's food dollar has been shrinking, and the problem is serious. The vociferous declaiming on this issue is attributing everything to an assertion C. W. Harder that chain stores are rigging the meat prices to the detriment of the farmer. There may or may not be some merit to this claim, however the farmer's problem does not seem to lend itself to being neatly wrapped up into one area.

At the end of April, the U.S. Department of Labor issued reports that on their method of basing prices their index of wholesale market prices showed advances in all areas but one. Farm products declined in price, but processed foods advanced. Wholesale meat prices advanced.

The report also states that part of the decline in farm products was due to lower prices for prime steers, but on the other hand the processed food prices rose because of higher wholesale prices of beef.

Thus, if the forthcoming investigation of food pricing is on the level there are many areas that should be explored.

It undoubtedly should be in

the area of growing concentration in the slaughter house and packing house industry to ferret out monopoly growth.

And if the same zeal for an honest, objective investigation is carried through without political considerations, it will probably also be found that the labor monopoly in the trucking industry and the butchering trade is also ruining the farmer.

The problem of the American farmer is serious.

Recently Senator A. Willis Robertson of Virginia stated that unless labor exercises restraint in wage and fringe demands unions will probably be put under the antitrust laws. For some time the nation's independent business proprietors, voting through the National Federation of Independent Business, have been heavily in favor of unions being put under the antitrust laws. If this investigation is honest need for such legislation will probably be highlighted.

Obviously there is a limit to what the consumer can pay for any type of food.

Any unnecessary cost imposed between the farmer and the consumer either forces the farmer to operate at a loss or consumer to forego buying.

Obviously union feather bedding, excessive wage and fringe payments and monopolistic pricing practices both not only transcend all laws of reason, but also interfere with orderly marketing. A Great Society can never be if the producers of that society's food are either impoverished, or kept solvent by subsidies.

Food, Autos Take Big Bite Consumer On Dollar

(Special to The News)

New York—A change in the spending habits of Lynn county families has been taking place in recent years, a study shows.

Although their rising incomes have enabled them to spend more money than ever before, they are spending it in different ways.

More of it is going for luxuries, personal services, travel, and better living in general. What has made this shift possible is that smaller proportion of their weekly earnings is now needed to pay for the basic necessities.

The manner in which local residents and those in other areas spent their retail dollar in the past year is brought out in a new, nationwide market study released by the Standard Rate and Data Service.

It shows that, in Lynn county, stores selling food and automotive equipment captured a major part of the market. They accounted for 53 percent of all retail business locally.

By comparison, only 42 percent was thus spent elsewhere in the United States and 44 percent in the State of Texas.

Food purchases alone, in bakeries, meat markets, delicatessens and the like, amounted to \$3,003,000, the report shows.

This total, which was equivalent to 22 percent of all retail sales, covers only food that was bought for home consumption. It is exclusive of money spent in lunchrooms, restaurants and in other eating and drinking places.

What the take-home food purchases represented, on a per family basis, was determined by dividing the dollar total by the number of families. It came to \$941 per family.

Business was in high gear, also, in the automotive field, where sales of new and used cars, boats, motorcycles and related products came to \$4,251,000, equal to 31 percent of the retail dollar.

Market strength was in evidence in most other lines as well. Department stores and variety shops selling general merchandise grossed \$258,000, or 2 percent of the dollar.

Those selling shoes, hats, gloves and other wearing apparel had receipts of \$506,000, amounting to 4 percent.

Sales of furniture and other home furnishings totaled \$93,000, or almost one percent.

Nationally, according to the report, retail business rose 5.5 percent over the previous year.

O'Donnell Man Is Named Peace Corps Assistant Director

Washington (Spl.)—Phillip D. Hardberger, O'Donnell, a 31-year-old Baylor University graduate, Monday was named executive director to Peace Corps director Sargent Shriver.

Shriver also is head of the Federal Poverty Office, but Hardberger's important assignment is with Shriver when he wears his Peace Corps hat—and to act for him when he is occupied with his other job.

Hardberger has been deputy director of public information for the Peace Corps for the past year. "Hardberger brings a vast amount of experience to this job," Shriver stated. "He has been with the Peace Corps since its early days and has worked in several different capacities. His knowledge of the Peace Corps operation makes him particularly well-suited for this job."

Hardberger was a reporter for the Waco News-Tribune and was a free lance writer in Mexico. He also was in the Air Force for three years as a jet pilot.

He said he plans to return to Texas briefly in September to take the Texas State Bar examination. He holds a law degree from Georgetown University Law School here.

Insect Control Short Course Will Be Held At O'Donnell Starting Monday

An insect control short course will be held August 2-5, under the sponsorship of the O'Donnell Young Farmers. The course will be held in the Vocational Agriculture department, according to Charlie White, Superintendent of Schools and James W. Reed, teacher of Vocational Agriculture.

Pat Henry, entomology specialist with the vocational agriculture division of the Texas Education Agency and the department of entomology at Texas A&M University, will be the instructor in the course. He is headquartered at Texas A&M University.

Henry has completed his Master's Degree in Entomology. He worked three years with the Department of Entomology at Texas A&M University as a graduate research assistant in the cotton program. He also worked with the Entomology Department at several field stations throughout the state.

"Many insect control short courses in various parts of the state have been taught by Mr. Henry and all have met with outstanding success," according to Mr. Hulian Harris, Area II supervisor of Vocational Agriculture, Big Spring. Arrangements for adult education short courses in insect control and in other fields are made through Harris' office.

The short course at O'Donnell is scheduled to begin August 2 at 8:00 p. m. in the vocational agriculture building. Other meetings in this series will be held in the future. During the dates the short course is in progress, Mr. Henry will be available to assist farmers with individual problems and provide on-the-farm instruction, according to Mr. Reed, Vocational Agriculture.

Farmers interested in attending the shortcourse should write or call the superintendent of schools, Mr. White, or the teacher of vocational agriculture, Mr. Reed. An entry fee of \$2.50 will be charged. Insect control short-course certificates are to be presented to each farmer who attends all the training sessions.

Mr. Henry states that these sessions will be adjusted to the problems that the farmers are faced with in their community. He will discuss these problems and the insect or insects that might be causing the damage and the insecticides needed to do the job. He will also discuss the timing and method of applying insecticides to get the best results. The course will be as practicable and simple as possible. Time will be allowed each meeting for any questions that may arise.

Sanders Tell Of Trip Out West

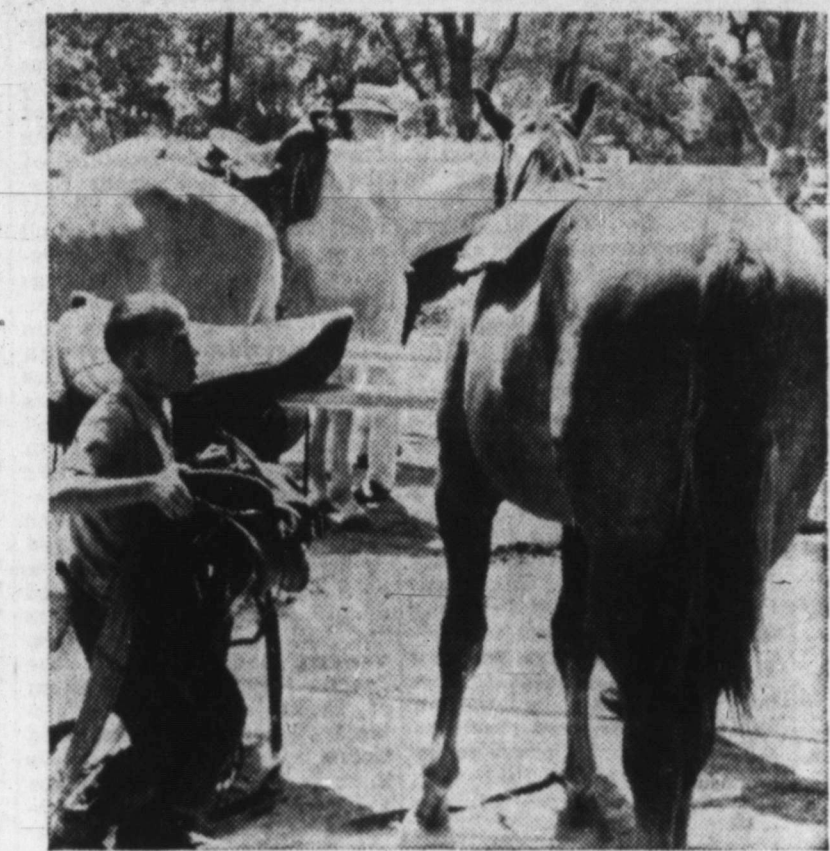

Mr. and Mrs. Alex Sanders, accompanied by a niece, Kay Warren, returned last week from a trip to Wyoming, Utah, Idaho, Arizona, Colorado and New Mexico.

Leaving on June 25, the trio spent the first night at Denver, Colo. From there they went to Laramie, Wyo., where they attended the eighth annual Wally-Baum Airstream Trailer Rally. There were over 2500 trailers at this rally which represented all 50 states, as well as Mexico, Canada and England. These eight days were filled with strenuous but enjoyable activities. President Lyndon Johnson's daughter, Lynda, spoke to the teenagers there upon one occasion.

From Laramie the group went to Jeremy, Wyo., where they visited with a cousin of Mr. Sanders, and then went to Landers, Wyo. for two-days stay.

Later they enjoyed trout fishing at Boysen Lake and a three-day sightseeing tour through Yellowstone National Park.

The Sanders and Miss Warren then enjoyed a stop at Idaho Falls, Idaho, before going to Salt

SHORT COWBOY, HIGH HORSE—At Cal Farley's Boys Ranch, a point of tourist interest at Old Tascosa, 36 miles northwest of Amarillo, each youngster must learn to saddle his own horse.

Lake City, Utah, where they toured the state capitol. Next stop was a Brice Canyon where Kay accompanied a group on a two-mile hike down in the canyon.

Grand Canyon in Arizona and a visit to the Indian reservation were their last stops before going to Albuquerque, N. M., where they were met by Mrs. O. H. Warren and Mike, Kay's mother and brother. They enjoyed a visit with a sister of Mrs. Sanders and Mrs. Warren before returning home on Thursday.

Mr. and Mrs. Sanders and niece, Kay, were gone a month, lacking three days, and experienced no accidents of any type.

But on their return home, seeing that not much rain had come our way during their absence, Mrs. Sanders went to turn on their water pump to water flowers in the yard, and somehow cut off a part of a forefinger as she turned the switch on.

She was admitted to Tahoka

Kenley Shows Trip Pictures

Highlights of a recent trip to Washington, D.C., were told, illustrated by color slides, by Paul Douglas Kenley at the Rotary Club meeting Thursday.

Paul was one of four oratorical contest winners from Lyntegar Electric Cooperative's territory sent on the trip, another being Jean Flippin, also of Tahoka. Other two were Zane Wright of Meadow and Mary Lynn Gresham of Ropesville.

He told how much the youths were impressed by meeting some of the nation's leaders, standing on spots where noted Americans had stood, and the deep sense of patriotism instilled by the visit.

Electric cooperatives from over the nation had held similar contests, and there were 650 students from 24 states at the youth meeting in the nation's capitol. Youths

from Texas gathered in Dallas and went by bus, there being 63 in the Texas delegation.

Garland Thornton introduced the program. President Ross Smith reported that District Governor G. C. (Jerry) Ratcliff of this Rotary district No. 573 has resigned, having suffered a heart attack recently. Jimmy Willson of Floydada, a former district governor, will fill out his unexpired term.

He also announced this year's foreign student guest, Miss Olga Aivazis, 17, from Athens, Greece, will arrive here on August 6.

Jerry Cain was introduced as a new member of the Tahoka club.

Miss Barbara Whorton served as pianist in the place of Miss Marla Bray, who is away on a vacation trip to Washington, D. C.

Pony All-Stars Are Eliminated

Lynn County Pony League All-Stars were swamped by Lubbock Southern 16 to 2 Thursday night in Area 3, District 3, at Kuykendall-Bennett field in Lubbock.

Southern snowed Lynn under with a barrage of 14 base hits, eight of which were of the extra-base variety.

Lynn County held a 2-1 lead after three innings. Charlie Brown pitched the first two innings and gave up only one run.

Olvera came in to relieve opening the third inning and got through that frame without any trouble. But, in the fourth, the roof caved in on Olvera and his mates as Southern scored five runs on four hits and one error.

In the fifth, Southern put the game completely out of reach, scoring seven runs on five hits and two errors. Benetz relieved Olvera in the fifth but fared no better. The sixth inning was scoreless, and in the seventh Southern put the icing on the cake with three more runs.

North Lubbock, tournament winner, will play in the sectional tournament at Tulsa, Okla.

O'Donnell Looking For New Coaches

Head football coach of the O'Donnell schools, Alan Holliday, has resigned to accept a similar position in Lufkin, according to O'Donnell Superintendent of Schools Charley White.

Malcolm Kennedy, West Texas State graduate and former assistant at Adrian, Bovina and O'Donnell has been elevated to the position vacated by Holliday.

White said O'Donnell is now seeking applicants for three assistant vacancies; basketball coach and assistant football with math teaching duties, assistant football with math and science duties and junior high coach with math and science duties.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 17 of Article VII of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven Cents (7¢) on the One Hundred Dollars (\$100.00) valuation heretofore permitted to be levied by Section 51 of Article III, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two Cents (2¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the continuing payment of Confederate pensions as provided under Section 51, Article III, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article III, of the Constitution.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Ten Cents (10¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings or other permanent improvements at the designated institutions of higher learning provided that none of the proceeds of this tax shall be used for auxiliary enterprises and the governing board of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as

Stephen F. Austin State College at Nacogdoches
Sul Ross State College at Alpine
Angelo State College at San Angelo.

"Eighty-five per cent (85%) of such funds shall be allocated by the Comptroller of Public Accounts of the State of Texas on June 1, 1966, and fifteen per cent (15%) of such funds shall be allocated by said Comptroller on June 1, 1972, based on the following determinations:

"(1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, Texas College and University System for fall 1966 to fall 1978.

"(2) Ten per cent (10%) of the funds allocated on June 1, 1966 shall be allocated to certain of the eligible state institutions based on the number of additional square feet needed—in educational and general facilities by such eligible state institution to meet the average square feet per full time equivalent student of all state senior institutions (currently numbering twenty-two).

"(3) All of the funds allocated on June 1, 1972, shall be allocated to certain of the eligible state institutions based on determinations used in the June 1, 1966, allocations except that the allocations of fifty per cent (50%) of the funds allocated on June 1, 1972, shall be based on projected enrollment increases for fall 1972 to fall 1978, and fifty per cent (50%) of such funds allocated on June 1, 1972, shall be based on the need for additional square feet of educational and general facilities.

semester of the tenth year. All such designated institutions of higher learning shall not thereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Ten Cent (10¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This Amendment shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment but such notes or bonds shall be paid, both as to principal and interest, from the fund as allocated to any such institution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election to be held on the first Tuesday after the first Monday in November, A.D., 1965, at which election all ballots shall have printed thereon:

Unfred Attends Arizona Meeting

Joe D. Unfred of New Home, local dealer and public relations man for Gifford-Hill Western, irrigation pipe manufacturers, attended opening ceremonies for the company's new manufacturing plant at Willcox, Arizona, last Saturday along with a number of company officials from Lubbock. Joe D. operated the movie projector at the open house, and had the privilege of introducing to the audience Rex Allen, a favorite Western movie star. Joe D. got a big kick out of the latter, since Rex Allen is a native of that area and Joe D. is a West Texan.

Arizona Range News, weekly newspaper published at Willcox, published a special edition paying tribute to Gifford-Hill Western.

Willcox is the place where much new farming activity is taking place due to sale of lands in a new irrigation country. A number of Wilson and New Home farmers have bought land out there. Joe D. saw Kenneth and C. L. Rogers, New Home, John Turner from Wilson who is farming George Williamson's land, and Judge Smith Jr. from Slatten; who was county agent here during World War II.

MRS. EDWARDS HERE

Mrs. Harold Edwards of Houston arrived Friday of last week and is visiting her mother, Mrs. Roy E. (Kate) Poer. Kathryn and Harold now have five grandchildren. Their daughter, Mrs. Earl D. (Janice) Moore of LaMarque, has two boys, and their son, J. H. Edwards III of Pearland has three girls.

Cotton Legislation Effects Are Cited

Another person has come up with some figures on the effect of the proposed cotton legislation on gross income of the farmer, and offers the following comparisons:

1. In the 1965 crop, 100 acres of cotton allotment producing a bale per acre at a loan support of 29 cents would gross 100 x \$145, or \$14,500.

2. Under provisions of the Cooley Bill for 1966, if a producer elects to qualify for the program on the 100 acres producing 100 bales, he would gross \$12,675. This is 87 per cent of this year or No. 1 above. This 13 per cent reduction in income is the same as it would have been had the 29-cent loan been reduced by 3.75 cents per pound or in other words the 29-cent loan might have been reduced to 25.25 cents per pound.

3. If in 1966 the producer elects to qualify for the program and reduces the full 35 per cent, his gross income would be \$11,675, which is 80 per cent of this year, or No. 1. This reduction in income is the same as if the 29-cent loan had been reduced 5.80 cents, or a loan of 23.20 cents.

Counting the South Plains crop at two million bales, the gross income to the farmer under No. 2 will be reduced by \$37,500,000. Under No. 3, the gross income to the producer will be reduced by \$58,000,000. The above figures are assuming that cotton will not sell above the loan, and no one can guarantee that it will.

This does not take into consideration the fact that farm income will be further reduced by reason of the fact the bill would do away with reapportionment of acres, which has helped the Plains farmer.

Neither does it reflect what might happen the second, third

and fourth year. World price may follow our lowered price set at 21 cents. Since the Secretary must set the price at 90 percent of the world price, this could mean 18.90 cents in 1967, 17.01 in 1968, and 15.30 cents in 1969 middling one-inch. Plains cotton is usually about three cents below this.

SENATE JOINT RESOLUTION NO. 14 proposing Amendments to Section 4, 22 and 23 of Article IV of the Constitution of the State of Texas, so as to provide a four-year term of office for the Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office and Secretary of State; and certain statutory state officers; providing for the necessary election and the form of the ballot; and providing for the necessary proclamation and publication.

RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 4, Article IV of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 4. The Governor shall be installed on the first Tuesday after the organization of the Legislature, or as soon thereafter as practicable, and shall hold his office for the term of four years, or until his successor shall be duly installed. He shall, whenever sufficient cause exists, seek a judicial forfeiture of such charters, unless otherwise expressly directed by law, and give legal advice in writing to the Governor and other executive officers, when requested by them, and perform such other duties as may be required by law. He shall reside at the seat of government during his continuance in office. He shall receive for his services an annual salary in an amount to be fixed by the Legislature."

They and the Secretary of State shall not

receive to their own use any fees, costs or perquisites of office. All fees that may be payable by law for any service performed by any officer specified in this Section or in his office, shall be paid, when received, into the State Treasury."

Sec. 5. Nothing contained in this Resolution shall be construed so as to extend the term of office of any officerholder previously elected to a two-year term.

Sec. 6. The Governor shall issue the necessary Proclamation for the said election and have the same published as required by the Constitution and laws of this state.

Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section the following provisions:

requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate, and hold hearings in respect of, disability and misconduct of District and Appellate Judges and to make recommendations to the Supreme Court of Texas for involuntary retirement or removal of such Judges; empowering the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the aforesaid Commission and consideration of the record made before it; defining misconduct for which said Judges may be so removed; providing that the proceedings and recommendations of the Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions hereby established shall be alternative to and cumulative of those provided elsewhere in the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said Section shall hereafter read as follows:

"Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and compensation of Justices and Judges of the Appellate Courts and District and Criminal District Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice and Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

him from serving the remainder of said term nor be applicable to him before his period or periods of judicial service shall have reached a total of ten (10) years.

(2) There is hereby created the State Judicial Qualifications Commission, to consist of nine (9) members, to wit: (i) two (2) Justices of Courts of Civil Appeals; (ii) two (2) District Judges; (iii) two (2) members of the State Bar, who have respectively practiced law for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried public office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within this State, or who resides in, or holds a judgeship within or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be chosen by the Supreme Court with advice and consent of the Senate, those of class (iii) by appointment of the Governor with advice and consent of the Senate.

(3) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for respective terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

(4) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expense for the operation of the Commission.

(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine, but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

(6) Any Justice or Judge within the scope of this Section 1-a may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

(8) The Commission may, after such investigation as it deems necessary, order a hearing to be held before it concerning the removal or retirement of a Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefore, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the Justice or Judge in question, and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

(9) The Supreme Court shall review the record of the proceedings on the law and facts and, in its discretion, may, for good cause shown, permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary.

(10) All papers filed with and proceedings before the Commission or a Master shall be confidential, and the filing of papers with, and the giv-

ing of testimony before, the Commission, Master, or the Supreme Court shall be privileged; provided that upon being filed in the Supreme Court the record loses its confidential character.

(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misconduct is charged, upon proof of which a penalty may be imposed.

(12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

(13) This Section 1-a is alternative to, and cumulative of, the methods of removal of Justices and Judges provided elsewhere in this Constitution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such Judges in cases of disability."

"AGAINST the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such Judges in cases of disability."

Sec. 3. The Governor shall issue the necessary proclamation for the election, and this Amendment shall be published as required by the Constitution and laws of this State.

T. B. Mason Writes Of Trip Through Midwest

T. B. Mason, president of Lynn County Farm Bureau, recently went on the "Institute on Wheels" tour, July 11-17, sponsored by the Farm Bureau, and following is a condensed account of his trip:

My bus left Lubbock at 9:00 a. m., July 11, with 32 farmers from this area. Other buses left from Abilene, San Antonio and Houston; also two from Oklahoma and three from Arkansas.

First day, the Texas groups toured Oklahoma State Farm Bureau office building, a beautiful five-story structure near the State Capitol, and we spent the night in that city.

Monday, we traveled through Oklahoma and Kansas to Kansas City for the night.

This was a working tour, and we got the full treatment. We received mimeographed copies telling about FB activities and programs of the states and counties we passed through, information about crops grown, number and size of farms, etc., thus giving us a good idea of the economic, political and social conditions of the counties as we visited them. Also, we had from one to three FB officials traveling with us constantly, changing from area to area, to explain and answer questions.

We had breakfast and were on the bus for the day's tour by 7:00 a. m. and it was usually 6:00 p. m. or after when we stopped for the night. Usually local FB members were hosts at various stops.

Our State Board of Texas Farm Bureau and full time employees arranged details of planning for the trip.

We spent July 13 in Missouri and July 14 in Illinois, finishing the day at Bloomington with a banquet at which Mr. Shuman, American Farm Bureau Federation president, was the principal speaker.

July 15 was spent in Southern Illinois, and in St. Louis, Mo., we saw a major league ball game, the Mets vs. the Cards.

Friday night, we were back in Oklahoma City, and Saturday at 3:00 p. m. we were back in Lubbock.

Purpose of the tour was to better acquaint us with farming and farm organizations in the areas visited. One side benefit was to get better acquainted with some of our Texas people, particularly those who rode the same buses.

The areas visited produce some wheat and soybeans; however, Iowa and Illinois are big corn producers, with hay and pasture land, most of which is marketed through livestock, principally cattle and hogs.

Good farm land seems to sell for \$400 to \$800 per acre in Illinois; then in Iowa, pasture land sells for \$100 to \$200 per acre. Ad valorem taxes are much higher there than here, the better land paying as much as \$10.00 per acre per year, a new tractor paying as much as \$100 per year, and a cow or 1,000-lb. steer is often taxed as much as \$5.00 per year.

This is something we should watch very carefully as the farmers are finding that once a tax is set up, it is almost impossible to get it lowered or removed.

It seems to me that we are facing some major adjustments in farming in this area over the next few years. Over approximately the last 20 years, with the exception of a few drouth years or hail, the farmers in this area have probably been the most prosperous of any in the U. S. This prosperous economy is based largely on cotton. There seems to be a strong probability that beginning with 1966, we are faced with a reduction in volume (acreage) or a lower price, or both. It we are greatly reduced in cotton production in this area, what other crops will we grow? If the price of cotton is reduced, at what price will we quit planting our cotton and grow another crop?

With increasing machinery and operating costs, with U. S. Dept. of Labor (under the control of big unions) making every effort to force higher and higher wages and compulsory unionism, repeal of Section 14-B, with fewer legislators from rural areas, I think we farmers are in for some rough going in the coming years.

In spite of these problems, I am optimistic about the future of farming. There are enough hungry and naked people in the world to use all the farm products we can produce at the present time, and we are told that the world population will double every 40 years.

Our big problem is marketing our products as well as holding the line on production costs. We need to work on these problems in an organized manner. Farm Bureau has made a start in the right direction on this; but we need much more active support from the farmers and everyone interested in agriculture in order to be more effective. We urge you to attend and take part in every Farm Bureau activity we have. Help us formulate policies and programs and help us carry them out.

My notebook with detailed information of the tour is at the Lynn County Farm Bureau and you are invited to come by, look through it, have a coke or cup of coffee, and visit with the office personnel.—T. B. Mason.

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 5 proposing an Amendment to Section 49-b, Article III of the Constitution of Texas so as to authorize an increase in the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Four Hundred Million Dollars (\$400,000,000); providing for, and authorizing the State of Texas under the conditions relating thereto and the use of the Veterans' Land Fund; and providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes specified in all of the prior Constitutional Amendments except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) citizens of the State of Texas, one (1) of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall, with the advice and consent of the Senate, be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of the resignation or death of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature.

"The Commissioner of the General Land Office shall act as Chairman of said Board and shall be the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner would have if present.

"The Veterans' Land Board may provide for, issue and sell not to exceed Four Hundred Million Dollars (\$400,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for

not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of all the bonds issued and sold in any installment of any bonds may not exceed four and one-half per cent (4½%). All bonds or obligations issued and sold hereunder shall, after execution by the State of Texas under the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or purchasers, be noncontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preferential right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Fund and the Permanent School Funds.

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board, until the sale price therefor, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of the moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of such lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of such lands, or rights therein, purchased with other moneys attributable to such bonds; the interest and penalties received from the sale or resale of such lands, or rights therein, purchased with other moneys attributable to such bonds; and any other pecuniary benefit received by said Board from any such lands; sums received by way of indemnity or forfeiture for the failure of any bidder for the purchase of any such bonds to comply with his bid and accept and pay for such bonds or for the failure of any bidder for the purchase of any lands comprising a part of said Fund to comply with his bid and accept and pay for any such lands; and interest received from investments of any such moneys. The principal and interest on the bonds heretofore and hereafter issued by said Board shall be paid out of the

moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes here provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund hereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization) and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion as may be needed to retire all of the bonds secured by such Division, shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the principal and the interest thereon, together with the expenses herein authorized, of any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violation of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to

shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds heretofore issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds hereafter issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it believes necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law"; and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$200,000,000; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1955; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the votes cast were in favor of same Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

SENATE JOINT RESOLUTION NO. 47 proposing an Amendment to Section 4, Article III, Constitution of the State of Texas, to provide four-year terms of office for State Representatives.

"Section 4. The members of the House of Representatives shall be chosen by the qualified electors for the term of four years; but a new House of Representatives shall be chosen after every apportionment, and the members elected after each apportionment shall be divided by lot into two classes.
