Tahoka Will Open Grid Play Tonight

Tahoka has a newly lighted field, a new coaching staff, and a lot of new varsity football players with a lot of enthusiasm.

The Bulldogs have only 10 lettermen back from last year's team which won three games in 10 starts, but new Coaches Don Smith, Jim Littlefield, and Jim Tollett hope their boys can make up for a lot of inexperience by desire and hustle.

Things look pretty dismal when one considers 16 boys are not back from last year's squad.

Tahoka will be running a winged-T formation with a split end. In workouts and in scrimmage with Ralls, the boys have run fairly well and the passing attack has great possibilities.

Lorenzo Hornets' Coach Carlton Smith, who runs the single wing and is said to be one of the best on this formation and also the

Heaviest rain was over the northwestern part of the county, extending over parts of the West Point, Petty, Dixie, and New Home areas and back toward Tahoka.

Season ticket sales to home Bulldog football games have been going very slowly this year. Those desiring reserved seat season tickets should get them today at the office of Mrs. Peggy Elliott, school district secretary, in the Fenton Insurance building. Reserved seats are only \$6.00 for five home games, \$1.00 more than general admission tickets, and are located in the center section of the east stands.

The \$4.00 monthly fee, which will be due the first day of each month, will go toward the payment of the student's refreshments and supplies.

School Enrollment Shows Slight Drop

Integration Plan Gets Approval

Tahoka's plan for complete integration of races in the local school system was approved last week by the U. S. Department of Health, Education and Welfare and Texas Education Agency, after several weeks of delay.

Approval is for the current year only, states Supt. Harold Reynolds. This assures Federal aid funds will come through for the 1965-66 term on the school lunchroom, vocational and other programs, which totaled about \$40,000 last year.

Following the budget hearing Thursday night of last week, Tahoka school board approved a 10 percent salary raise for all cafeteria personnel. Maintenance and clerical personnel have also been granted a 10 percent raise.

These salary increases were granted in keeping with the salary increases for all professional personnel, those with teaching certificates, granted by the Texas Legislature at its last session, Reynolds said.

Election Tuesday On Amendment

There's a state-wide election next Tuesday, Sept. 7, for Texas voters to decide for or against a Constitutional amendment raising the membership of the Texas Senate from 31 to 39 members, while retaining the present membership in the House of Representatives.

Voters are reminded there will be 10 other Constitutional amendments up for vote in November.

The amendment has been proposed because of the U. S. Supreme Court's "one man-one vote" decision that districts must be apportioned according to population.

Most rural leaders favor the increase from 31 to 39 senators. If the present 31 senatorial districts are retained, as now, under re-districting the big cities will gain eight for a total of 12 senators; lose eight and leave them only 19 senators.

If senatorial districts are increased to 39, metropolitan areas will still gain about eight but predominantly rural areas would have a total of 27 instead of 19. This would mean farming areas would

thus, so-called rural areas would have a little better break or Senate votes on legislation favorable to them.

Most Senators, however, favor the change for somewhat selfish reasons, the fact that most of them could retain their present districts without having to oppose a present colleague in the Senate. Texas Union Labor leaders oppose the increase on the theory that they gain by a larger proportion of city representation.

All good citizens should vote on the issue next Tuesday.

Kahlich And Gatzki Buy New Lynn Gin

Roy Lynn Kahlich, and Sam Gatzki of Wilson have bought the New Lynn gin from Paymaster, and have installed all new 490 Continental gin equipment. Mr. Kahlich will manage the gin. Mr. Gatzki is the owner and operator of a gin at Wilson.

MOVE FROM BROWNFIELD

Mr. and Mrs. John Freddy Thomas and baby moved to Tahoka this week from Brownfield after being transferred by Pioneer Natural Gas Co. Both are graduates of the Tahoka schools. Mrs. Thomas is the daughter of A. R. Milliken, and John Freddy is the son of Mrs. Norma Thomas.

Tahoka school enrollment was 983 through Wednesday, off 73 from the same first three days of last year and off 130 from the same time two years ago. On the third day of 1964 there were 1056 enrolled and in 1963 there were 1113, a record enrollment year.

However, there is a small increase in high school, the decrease being principally in the lower grades. The decrease is caused by fewer Latin-American students, probably because of last year's drought and a decrease in the use of farm laborers. Enrollment of these people is expected to take a jump next month.

There are 236 registered in high school, an increase of nine over last year's 227 the first three days. By grades, high school enrollment is 80 in ninth grade, 60 in tenth, 45 in eleventh, and 47 in twelfth.

In Junior High, enrollment almost the same, 80 in the seventh and 73 in the eighth, a total of 153, compared to 155 last year.

In North Elementary, there are 91 in the fourth, 85 in the fifth, and 86 in the sixth for a total of 262, exactly the same as last year.

In South Elementary, there are 124 in the first grade, 101 in the second, and 111 in the third for a total of 336, compared to 347 last year.

But, major difference shows up because of the closing of Dunbar School, where 69 enrolled at this time last year. Negroes have been integrated in the white school system through all grades this year.

Supt. Harold Reynolds reports opening went off relatively smoothly and students and teachers are already settling down into the routine year's work.

Grassland Man Gets First Bale

First bale of 1965 cotton raised and ginned in Lynn county was unloaded on the First National Bank corner Wednesday shortly before noon to claim the \$100.00 premium of Tahoka Chamber of Commerce.

Kenneth Huffaker raised the cotton, picked from the Miss Annah Jones farm southwest of Grassland, and ginned by Odis Tew at Grassland Cooperative Gin at 11:00 a. m. Wednesday.

Kenneth said the bale was picked from six acres of irrigated Blightmaster cotton planted last April 13. He had 1800 pounds of seed cotton in the load, which ginned out to 475 pounds of lint and 800 pounds of seed.

Mr. Tew said the gin was paying Huffaker \$50.00 per ton for the seed, 50 cents per pound for the cotton, and was furnishing the ginning and bagging free. The bale was wrapped in the new cotton bagging being used at the gin.

Kenneth grew up at Grassland the son of Mr. and Mrs. H. E. Huffaker. He graduated from Tahoka High in 1952, worked and farmed with his dad, and following service in the Army went to farming for himself. He farms about 500 acres of land including some of his own, his dad's and Miss Jones'. He and his wife, Sonja, have two sons.

O'Donnell ginned its first bale last Saturday at 5:00 p. m., raised by "Steve" Stephens and picked from 15 acres of Lankart 57. The bale weighed 630 pounds, turned out 950 pounds of seed at O'Donnell Gin & Grain Co. The town made up a \$400.00 premium, and the gin paid 50 cents per pound for the cotton and donated the ginning.

Clyde Spruiell was released from Tahoka Hospital Monday where he had been a patient several days receiving treatment for burns he received while working at McCord Motor Co.

Use more cotton!

WASHINGTON AND "SMALL-BUSINESS" BY C. WILSON HARDER

The question is often asked as to just how deeply dyed is socialism in the present leadership of unions.

This question was discussed in depth recently in an article in one of the nation's most respected and erudite magazines.

It was pointed out that the heads of many of the major transportation unions quite frequently advocated nationalization of transportation, principally the railroads.

Every time the unions fall to secure concessions from railroad

management for higher pay, requirements to keep on the payroll unneeded workers, or some other point, pronouncements are issued that the only solution to the problem is for government ownership of transportation. Of course the problem is merely the problem of the union leaders.

Thus, the article leaves as a question mark clarification of intent. Are these labor leaders actually committed to national socialism, or do they talk in this manner attempting to blackjack management.

© National Federation of Independent Business

On the other hand, if the advocacy of nationalization is merely an attempt to blackmail the labor leaders are playing a dangerous game which can bring the whole structure tumbling down.

Recently in the current investigation of food prices and the spread between the price the farmer receives and the consumer pays, some interesting facts came out. Among them was testimony by Western potato growers that it cost practically as much freight to the east coast as it does to grow, harvest and pack potatoes.

This can promote any question. Why does it cost so much to ship food?

Over the years, both by strike action, and also getting special laws passed, labor has pretty much put transportation management in handcuffs.

It is difficult to tell any management how to operate, then expect efficient management. When either labor, or government, or both, assume in any industry, management prerogatives, there is bound to be chaos. Too many cooks spoiling the broth perhaps is even more true when two of the cooks are not cooks but inexperienced bureaucrats from labor and government.

If the public is dissatisfied with transportation, and there is reason for that, the public should stand up on its hind legs and demand that management be completely unshackled and given the opportunity to prove that it can, without interference, deliver a more efficient service. After all, one doesn't hobble a horse to win the Kentucky derby.

Refund Due On Farm Gasoline

Farmers can get a four-cent per gallon refund on each gallon of gasoline used for farming purposes during the 12 month period ending June 30, by filing a claim with the Internal Revenue Service, reports Lynn County Agent Bill Griffin.

The tax refund claims are to be submitted on Form 2240 available at the county agent's office or through the Internal Revenue Service.

The claims must be postmarked no later than September 30. They should be mailed to District Director, Internal Revenue Service, Dallas, Texas, 75201, Griffin said.

Extension Farm Management Specialist John Seibert says sufficient records should be kept by each claimant to enable the Internal Revenue Service to verify the accuracy of the claim. Seibert said a farmer who uses 2,000 gallons of gasoline a year could probably compile the necessary records and fill out the form in about one hour and for the hours work he would get a refund of \$80.

Farm Bureau Has Tire Sales Deal

Lynn County Farm Bureau has entered into an agreement with Texas Agricultural Service Company of Waco, a recently incorporated, wholly-owned subsidiary of the Texas Farm Bureau, to set up a retail tire sales program for its members, according to T. B. Mason, local county FB president.

One of the world's largest tire manufacturers, General Tire and Rubber Company of Akron, Ohio, is manufacturing tires for TASC under the exclusive brand name of "Safemark". Several other state Farm Bureaus are already marketing the "Safemark" tire which is produced at the GT&R Waco plant.

All standard sizes in the premium deluxe grade of passenger car tires and first-line premium truck and tractor tires will be offered Lynn County Farm Bureau members. The cost will be the factory price plus a very nominal distribution charge which will make them available to members "at a very substantial saving," the county FB president declared.

Reynolds Tire Store, Tahoka, has been named the authorized Farm Bureau Tire Servicing Agent for the county. Tires can be purchased directly from him by any Farm Bureau member by presenting his current membership card. Members actively engaged in farming or ranching may buy any tires they need for all vehicles. All other members will be limited to passenger car tires.

"This is strictly a service-to-member program instituted to help cut costs of production and thereby increase net income of our members," the county FB leader explained. "Sales will be restricted in order to prevent buying through the program for commercial use by anyone other than farmers or ranchers."

Safemark tires will be guaranteed by TASC, and the servicing agent will make necessary adjustments on the basis of the original cost of the tire with no charge for mounting replacement tires.

The Texas Farm Bureau instituted the tire program "to help relieve the cost-price squeeze that has adversely affected net farm income of farmers and ranchers for many years. Farm Bureau's price support and adjustment programs have always been designed to increase agricultural income through higher prices at the market place. Farm Bureau leaders in approving this program felt that it would be a step in the right direction on the other end, that of reducing our costs."

Guest Speaker For First P-TA Meeting Next Tuesday Eve

The newly organized Tahoka Parent-Teacher Association will have its first meeting for the current school term next Tuesday, Sept. 7, at 7:30 p. m.

Guest speaker for the initial meeting this year is to be Virgil Trout, dynamic speaker in the field of education. Until recently, Mr. Trout has been a resident of Lubbock but is moving to Duncan, Okla. His speaking engagements during the past year have taken him to numerous states and to England. He currently is scheduled to speak on college campuses in eight states within the next two months.

His address promises to be not only highly interesting and informative, but also challenging to those who have an interest in effective education of their children.

Parents of all students in the Tahoka school system are urged to attend. Many parents enrolled at the time of the organizing of the PTA last spring, but those who have not become members will be given the opportunity to enroll at Tuesday night's meeting.

CORINE IZARD HOME

Corine IZARD returned to work at Tahoka Hospital this week after a 10-day trip to Ft. George G. Meade, Md., where she visited her brother, S-Sgt. Charles (Bugs) Pennington and family. Her niece, Helen Pennington came home with her and on Saturday night Mrs. Ruth Pennington of San Antonio came up to take her daughter, Helen, back home to enter school. Johnnie Pennington is spending the winter in Maryland with Bugs, and is going to school. Corine went by jet and made the trip in five hours flying time.

RATTLERS RIPPED BY WEST TEXAN

Rotan—Mrs. Jim Cave, living out in west Fisher county, read a story recently about a man successfully baiting a fish hook for a rattlesnake under his house.

And allowed as how they would make way for the star slugger in this sport!

Because Mrs. Cave, in one year, caught 18 rattlers under her house by using a Number 3 coyote trap. There was some slight strategy in that when the reptiles began using an air vent in the house foundation Mrs. Cave pinched the hole with a rock so that they would have to slither over the traps. Bong!

ORIENTALS INCLUDED

Selma, Ala., Times-Journal: "In any analysis of juvenile delinquency, children of Oriental descent have always been conspicuous by their absence from the statistics. . . . Unfortunately, there are indications this may no longer be true. Police in Sacramento, Calif. for instance, report increasing involvement of Chinese and Japanese youths in such things as thievery and knifings. . . . Such hitherto unheard of incidents have caused much soul-searching among the second-generation Japanese, the Nisei. 'Somewhere along the way we feel we are failing,' said one elder. Offered a captain of the Sacramento Police Juvenile Bureau: 'I imagine it's because the kids are becoming Americanized.' . . . What kind of society are we building where a police officer can matter-of-factly consider 'Americanized' and 'criminalized' as being virtually synonymous?"

Ina Ledbetter was dismissed from the Tahoka Hospital Thursday where she had received treatment for an injury to her left ankle.

Boys May Enroll Now For P.P.&K Ford Contest

Lynn county boys eight through 13 can start signing up now for the annual Punt, Pass & Kick competition, with prizes and trophies for youthful football enthusiasts most skillful in punting, passing and place-kicking.

Registration headquarters in Tahoka is Wayne Waters Ford, where entries will be accepted from September 1 through October 8. Entrants must be accompanied by a parent or guardian; the competition is free to boys eight through 13, and no special equipment is needed. No body contact is involved.

Upon registration, the future football stars will receive a booklet of PP&K competition tips written by Minnesota Vikings punter Bobby Walden, Cleveland Browns' star quarterback Frank Ryan, and St. Louis Cardinals' place-kicker Jim Bakken. . . . Included in the illustrated booklet are recommended tips on physical fitness.

Each participant also will receive an attractive PP&K tie-lapel pin.

Local boys will compete only against others their age in punting, passing and place-kicking skills. Points will be awarded for each foot of distance the ball travels on the fly. Points will be subtracted for each foot the ball lands to the left or right of a center line.

Winning 8-, 9- and 10-year-old boys will receive NFL-type warm-up jackets. Each second place winner will receive a sturdy football helmet. Third place winners will be awarded regulation-size PP&K footballs. Winning 11-, 12- and 13-year-old boys will receive gold, silver, and bronze trophies. A total of 18 awards will be presented.

Scores of the Tahoka winners will be compared with other winners to determine the six best scores in each of 362 Ford Zones, or 2,172 zone winners.

Next stop for these zone winners will be competitions in each of the 37 Ford Districts where 222 District champions will receive trophies. All 222 district champions will attend an NFL game (with their fathers) to compete for area champions. All area champions will travel to division events at two NFL cities to compete for 12 division championships.

The finalists, six from the NFL eastern division and six from the NFL western division, will get to go (with both of their parents) on a "Tour of Champions" to Washington, D.C. Following that, the 12 finalists and their parents will travel to the annual NFL Play-Off Bowl game at which will compete for national PP&K championships.

The Punt, Pass & Kick competition is sponsored nationally by Ford Dealers and the National Football League. Sponsors in Tahoka is Wayne Waters Ford.

NOTICE TO ADVERTISERS IN CLASSIFIED PAGE

A weekly newspaper, unlike a daily, is not all printed on one day. The News prints its first four pages on Tuesday afternoon. For mechanical reasons, we almost have to print the classified page on this first run. Therefore, new ads, changes and "kill" information must be in the hands of the printers by Tuesday noon. However, late ads, turned in up to early Thursday morning will be printed in the "Too Late to Classify" column.—The Publishers.

GRASSLAND NEWS

(Mrs. O. H. Hoover)

I did so fly to San Francisco on a jet and enjoyed every minute of it. The scenery was wonderful, as was my visit with Billy, Betty and children.

We were on the go a lot of the time sightseeing. We spent one day at the beach. I got a kick out of watching the tide come in and watching the children try to outrun the breakers.

Charlie and Ruby Bullock of Abilene are here on a visit and had lunch with his sisters Saturday.

Bill Savage passed away in a hospital at Eagle Pass Aug. 21 at 10:00 p. m. He was a former resident of the Grassland community for several years in the 1920's and was married to the former Winnie Pearl Bullock. We extend our sympathy to the family.

Mr. and Mrs. C. E. Short spent some vacation time in Colorado and visited friends, Dr. and Mrs. Stevens in Ft. Collins. They then went out to the northwestern part

of Colorado and just drove, rested and fished.

Gordon-Southland News

(By Mrs. Edmund Wilke)

I want to make a great big apology. Last week I put in this column that Mr. and Mrs. Ronnie Dunn had a brand new daughter! Well, it seems that it was a different Ronnie Dunn and wife that had a baby, and not OUR Ronnie and Delores Dunn. I am sorry that I gave out this wrong information and hope that you will accept my apology. Mrs. Dillard Dunn called and said that she didn't have a new granddaughter, but that she would like to have one. They were all very nice about the whole thing. Yes, my face is RED!

Mr. and Mrs. Edmund Stolle from Corpus Christi have been visiting relatives in this community for several days. Their son, Mr. and Mrs. Carlton Stolle from Bryan, have also been visiting here. Carlton will be teaching at A&M College this fall.

Mrs. J. F. Rackler, Mrs. J. B. Rackler and Beverly visited in Lubbock on Sunday at the Colonial Home with Elder and Mrs. James Vickery. They had gone to the home to visit with Mrs. Ross, mother of Elder and Mrs. Vickery, and was surprised to see the Vickerys. Elder and Mrs. Vickery had been on a world tour and had just returned to Lubbock.

Bronnie Winterrowd visited with Beverly Rackler on Monday night and Tuesday.

Mrs. Claud Roper and grandson Mike visited with Mrs. J. F. Rackler and a group from the Slaton 21st Street Baptist Church attended a Youth Program at Mt. Olive Church of Lubbock on Sunday. Jack Bateman was the guest speaker. He is a missionary from the Republic of China.

Larry Wilke was home from Lubbock for the week end. He has finished this summer semester at Tech and is employed at the Layne Pump Company of Lubbock and also works on the campus.

Edmund and I went to Giddings on Saturday to attend the funeral of Rev. Jimmie Herklotz who passed away early Friday morning. As a lot of you know, Rev. Herklotz was the pastor of Grace Lutheran Church of Slaton and preached his last sermon on the 25th of July.

Mr. and Mrs. Marcus Wilke have returned to LBJ Lake. They had been here for over a week. Mrs. Wilke had broken her wrist five weeks ago and the doctor will take it out of the cast this week, so they had to return to the Lake.

I am happy to report that Winston Lester is at last on the road to recovery. He has been in the West Texas Hospital for a couple of weeks and has had a pretty rough time. We sincerely hope that he will be up and around before too much longer.

Mr. and Mrs. Billy Lester and boys visited with Mr. and Mrs. John Kelly of Jayton on Saturday and Sunday night. On Sunday they went to Lake Stamford where they stayed until Tuesday.

Brother Ralph Cooper, our energetic Methodist preacher, is moving with his family to Aspermont. This community is surely going to miss him, because he was always doing something for

week in the Mercy Hospital at Salton. He hasn't been feeling up to snuff, so the doctor put him in the hospital and ran some tests. Mrs. Denton says that he feels some better now, and we certainly hope so.

Mrs. T. L. Barnes and Mrs. Delores Dunn visited with Mr. and Mrs. Ed Denton recently. Also visiting the Dentons were Mr. and Mrs. Bob Russell from Post. The Russells are former residents of this community.

Mrs. T. J. Bovell went to Mulehoe Wednesday where she will stay several weeks with her son's family.

Your "paper" money is actually 75 per cent cotton fiber.

HILLHOUSE VACATION

Mr. and Mrs. Otis Hillhouse and Johnny spent last week end in Colorado fishing at Lake City, where they reported excellent luck one day and fair luck the rest. Otis says they had a great time in spite of a little accident. While passing a road grader, a boulder was thrown by the machine out into their path and before he could stop severe damage was done to the underside of his car.

Mrs. Valentine Vasquez underwent an appendectomy in Tahoka Hospital Thursday. She was dismissed Tuesday.

Cotton has been grown in West Africa for several centuries.

How to save money regularly, in spite of yourself

Just ask your paymaster for a bond like the one above, and fill it out.

This makes you an official member of the Payroll Savings Plan, entitled to all the rights and privileges thereof.

From now on saving money is no problem. Every payday, your employer sets aside a little from your check and puts it toward the purchase of a U. S. Savings Bond. Your savings come automatically. There's no temptation. No back-sliding.

You can get your savings when you need them. But, of course, they'll be worth 33¼% more if you wait until your Bonds reach maturity.

Being a Payroll Saver entitles you to feel pretty proud of yourself, too. Because your savings help protect your country's future as they help provide for your own.

Why not talk to your employer and get started saving regularly this payday? You'll be amazed at your new perseverance.

Bulldog Booster Club Organized

Organization of Bulldog Boosters Club was perfected Monday night at a meeting of nearly a hundred fans and parents in the school cafeteria.

The club will meet next Monday evening at 6:00 o'clock when coaches will view the Lorenzo game pictures and hear something that may be expected at Crosbyton next week. After this next week, Booster Club meetings will be on Mondays at 7:30 p. m. in the cafeteria.

Booster Club membership will be made up of couples or individuals, and couples will hold joint office. John Wells, Chamber of Commerce president, was in charge of Monday night's meeting until officers were elected.

Following are the officers: Mr. and Mrs. Sam Edwards, president; Mr. and Mrs. James F. Roberts, vice president; Mr. and Mrs. Albert Curry, secretary; Mr. and Mrs. Pat Patterson, treasurer.

A membership committee is composed of the following: W. T. Kidwell, chairman; Jack Jaques, George Glenn, J. D. Atwell, Johnny Wells; Thomas Jolly, and Jimmy Bragg.

Each member will appoint four other fans to help him solicit memberships. Dues were set at \$5.00 per couple, family, or individual, and 23 member families signed up at the meeting.

Purpose of the club is to back the Bulldogs in their athletic endeavors and to raise some needed funds which the school cannot provide for aid of boys of the athletic teams.

The organization was the outgrowth of a proposal made by Coach Don Smith at a Bulldog Mothers and fan meeting the previous Thursday night.

Following the organization, Coach Smith reported on the scrimmage with Ralls and declared the boys did a good job, showed a lot of hustle and desire, and had good pass defense. Mistakes made at Ralls are being worked on, and preparations made to meet Lorenzo's single wing attack tonight.

Greek Visitor Tells Life, Customs of Home Land

"Greece and Its People," was the subject of an interesting talk at Tahoka Rotary Club Thursday noon by its 12th annual summer foreign student guest, Miss Olga Aivazis, 17, from Athens, Greece. Each year the club brings a foreign student here in cooperation with the Experiment in International Living, a non-profit organization interested in promoting better world understanding.

Her talk was on Greece as it is now, not as in the past. But, she said, although an ancient land, Greece is as young and as beautiful as ever, and has lasted through wars and revolutions and invasions, all of which have left an influence on the country. Greeks are simple people, and Greek life still remains the same struggle for life.

In the south of Europe, a part of the Balkan Peninsula, Greece is only 51,200 square miles, a fifth the size of Texas, and has 9 million population. About 27 percent of the land is in cultivation; mountains and forests cover the rest. Rural population is about 46 percent of the total; 36 percent are urban; the remainder semi-urban.

The government is a democracy, revised in 1952. Greek Orthodox is the predominant religion, 98 percent being of this faith; but, there is complete freedom of religion and one may attend any church of his choice.

Somewhat different school life exists in the villages, where there are public schools, than in the cities, where many schools are private. In the country, high school students go nowhere after 6:00 p. m., and may be expelled for violating the rule by going to a party.

In the cities, there is more freedom of students, who may go and come as in the rest of Europe.

But, school work in Greece is very, very difficult. Nine month terms are six days a week, seven hours a day. Last year, as a senior, Olga carried 16 subjects including Ancient and Modern Greek, French, English, and Latin, philosophy, two sciences, and three mathematics courses—algebra, geometry, and trigonometry.

There are two universities in Greece, but admission requirements are very strict and only about 3,000 of 30,000 to 40,000 gain entrance a year. But, there are special institutes for science, engineering, law, politics, agriculture, etc.

Greek families are very closely knit, usually not more than two or three children, join in many family activities. Young people do not drive a car until age 21.

She was one of 250 applying for one of five "Ambassador" appointments to come abroad under the student program, and she was one of the five winners of a six-hour examination to gain the opportunity. With 184 boys and girls from over the world, she received three days of briefing in Vermont, spent three each in New York City and Washington, D. C., before leaving on a three day bus trip to Tahoka.

She was born in Cairo, Egypt, and lived there 11 years before her Greek parents moved to Athens. Her father is a lawyer, her mother is principal of a private American school, and an older sister is an airport hostess and secretary.

Miss Aivazis said she was very grateful for the opportunity to come here, and she is highly desirous of getting a scholarship to attend a college or university in the U. S. to study law.

The speaker was introduced by A. M. Bray.

Kenley Gives Impressions On Attorney General's Conference

(By Paul Kenley)

It is hard for me to express my views of such an inspiring event as the Attorney General's Youth Conference. However, I would like to take this means to relate to you a few of the ideas which I gained from the conference that I feel can be very beneficial to the youth of our community when we try to put them into action.

In the various general assemblies and seminars which we attended during the conference, many statistics were related to us concerning juvenile crime in Texas. The overall conference has a main objective each year of combating this prominent source of crime in our state. However, I feel that our town has been very fortunate in its relatively low rate of juvenile crime, and therefore I feel that, as far as our own local purposes are concerned, juvenile crime was not the major emphasis. I feel that the major goal of the local delegates was seeking a way to draw our youth together into a common cause and then giving them a prominent place in

our society. In the various sessions our local delegates strived to learn both what the youth can do and what can be done for the youth to form an upstanding group of young people. We studied physical, mental, and spiritual aspects of the youth character and how each could be strengthened.

For example, in studying the spiritual character of our juvenile population, we discovered several ways to strengthen it. One is through an inter-denominational youth program in our town. Of course, all of these ideas are still just that—ideas. It is only through the cooperation and interest of both the youth and adults of our town that these ideas can become real working projects.

The specific point selected for major emphasis at the 1965 Attorney General's Youth Conference was the establishment of tutorial programs in the state of Texas. This is a youth project which can be very effective in developing youth leaders. Education is the key to success, and everyone would agree that a criminal is not a success—he is a failure. Through guided supplementary education given by capable youth, young people can be given a head start—a start which will be in the right direction.

We are privileged to live in a wonderful country with opportunities that increase in magnitude every day. Our present administration is scorned every day in newspapers and editor's columns across this great country of ours, but I would challenge the source of all this criticism to take the position of President for just one day. I think several minds would be changed.

The 1965 Attorney General's Youth Conference made me even more aware of what a great privilege it is to call myself an American citizen, and it is for this reason that I wish each of the young people in Tahoka could attend the conference. For as we have learned, education is the key to success, and I would like to take this opportunity to thank the Tahoka Rotary Club for contributing so much to my education and for the confidence placed in me to represent the city of Tahoka.

Lynn's Self Employed Far Exceed National Average

(Special to The News)
New York—The spirit of individual enterprise and adventure shines bright in Lynn county, judging from the number of local residents who have taken the financial plunge and gone into business for themselves.

Each year, an additional number of local men and women with the urge to be on their own, embark on new ventures. Some succeed and some don't. The mortality is high.

According to the latest Government tabulations, there are 1,409 local residents who make their living from their own businesses or professions.

They are the storekeepers, the doctors, the farmers, the barbers, the electricians, the gas station owners and the others who are self-employed.

They do not have such problems as getting and holding a job. For them there are different problems — rent, supplies, labor costs, sales volume, competition and net earnings.

The facts and figures on the number of business concerns in each section of the country, as well as the birth rate and the death rate among new firms, are given in Department of Labor and Department of Commerce statistics.

They show that 38.6 percent of Lynn County's working population is self-employed.

This compares favorably with the ratio in many areas of the

country. The average in the United States is 12.2 percent and, in the West South Central States, 14.7 percent.

Of the 1,409 in Lynn County who are their own bosses, 129 operate retail stores and 58 have service businesses. The others are farmers, professional people, wholesalers and manufacturers, for the most part.

What are the risks involved in starting a new business? How many of them last more than a few years?

Nationally, it is shown approximately 450,000 of them are launched each year and 400,000 existing ones close shop.

Here it is almost fall again... school, football, cool mornings, and gins all tuned up and ready to go.

If all the right-of-way in the four-mile gap remaining along US 87 through Tahoka is secured within the next few months, there's going to be a tremendous building job here next summer. A. W. Partain, the resident engineer, tells The Printer. The State Highway Department has again set aside funds for this project—and they're going all the way to build lateral roads, overpasses, underpasses—the whole works.

There will be four traffic exchange complexes. Principal one will be the underpass of US 87 under 380 here in town two blocks east of the present traffic intersection, complete with drainage facilities, exits and entrances from one highway to the other and lateral roads on each side for local traffic to reach the industrial area or downtown. Partain says there will be an overpass and exchange at the junction of FM 400, the Wilson road, two miles north of town; an overpass for entrance to Tahoka a mile north of the courthouse at about the old drive-in theatre site; and the fourth complex will be at the south edge of town for the cemetery road and access to downtown Tahoka.

U. S. 87 will soon be four-lane road all the way from Big Spring to Amarillo except for Lubbock south to the Lynn county line.

Partain also says there are plans in the making for improvement of US 380 across Lynn county, especially east of Tahoka, although there are no plans for making this a four-lane divided highway.

Work is now underway preparatory to rebuilding FM 1054 from four and a half miles southeast of Wilson on south to US 380, one mile of US 380 from Six Mile Store east to the Draw road, thence south to Redwine, Draw and the Borden county line. This is a very much needed improvement.

Football has changed a lot in 40 or 50 years since the days of the center rush, the flying wedge, the drop kick, etc., although many of the plays and principles of the game remain the same.

Biggest change is in facilities and equipment, we think. Forty years ago only a few of the larger colleges like University of Texas, SMU, Rice, and Texas A&M had stadiums or playing fields as good as Tahoka has today. High schools played on the open prairie, the ground scraped off by a road grader and the field laid off with lime.

When The Printer was a kid down on the T&P, little old Roscoe had been playing football since about 1909 or 1910 against Sweetwater, Colorado. City, and even some bigger towns. Usually, players bought their own equipment, or a collection was taken up from fans to buy equipment. The helmet was soft leather padded and with ear flaps and weren't too much protection when some bruiser stepped on your head. Shoulder pads fit a man just a little bit better than a horse collar would and rubbed sores about the same. The jersey sometimes

had pads and corset-like staves running up and down; and sometimes, when you were hit just right, one of these staves might break and jab into your chest or side. Pants were also reinforced with these wooden staves, and they too could jab you in the groin. Then, there were chin guards with more staves, because in those days not many players had any conscientious scruples about running cleats down an opposing player's shin. Then, there was that hard-rubber nose guard, which was a great help to the nose when some opponent accidentally or on purpose took a haymaker at your snout. Of course, that nose guard mouth piece caused many a player to spit out a few teeth in the heat of battle, but it did save the nose sometimes.

The ball was a little rounder and softer then and not so good for pass throwing, although there was passing then too; but the ball was much better for the drop kick, and we well remember one game in which Roscoe defeated Sweetwater three drop kicks to two, and no touchdowns. The old "Statue of Liberty" play was in use then as today, plus end around, tackle around, and guard around—anybody but the center could carry the ball, and some times there was a little trickery and the center ended up with the pigskin.

They say Knute Rockne invented the T-formation, but if he did it was before E. J. Woodward was coaching at old Roscoe about 1914, because E. J. had a lot of plays just like the T with the quarterback taking the ball and handing off or keeping. However, a lot of times the center would center the ball to either halfback or the fullback directly.

One thing we notice today we know is not quite as good in high school as back in the past. There are no more punters like Oran Short, or Jess Gurley, or Curtis Stevens, just to mention three local boys who could kick the ball a mile, or consistently out of bounds within the five from mid-field or further back. Old Oran once, with help of a little wind, punted about 95 yards (we've forgotten the exact distance, but it's in The News files away back yonder in the late 1920's), standing behind his own goal line he punted out-of-bounds within the Lamesa five-yard line—and Tahoka lost the game.

Incidentally, The Printer has been following Bulldog football 41 years this fall, beginning with the 1924 team, when Tahoka beat Snyder 19 to 0 and 24 to 10, Brownfield 14 to 10 and 13-7, and O'Donnell (just starting to play the game) 105 to 0; and lost to a great Post team 0-59, to Big Spring 0-44, and Lamesa 0-27 and 0-13. D. D. Shifflett was the coach. Players included: Jack Link and Eddie Hatchett, quarterbacks; Frank Edwards, Lee Roy Knight, P. A. Nowlin and Charles Hunter, halfbacks; Karr Wells, fullback; Charlie Curry, center; A. J. Minor, Loyd Nowlin, Paul King and Archie Reece, guards; Barney Davis, A. D. Sanders, Jack Fenton, tackles; and ends were Clay Bennett, Roy Taylor, Bonnie King, and H. E. Baldrige. With no discredit to our present team, we wish we had that material out there today. Now, that ought to start some "big windies."

UTOPIA IS HERE
Skowhegan, Me., Somerset Reporter: "The world of tomorrow should be quite a place to live in. With the President's signing of the Medicare bill another social benefit has been gained. Now we have unemployment benefits, social security benefits, poverty benefits and Medicare benefits. If we can get benefits for child birth and death we should have it made. The only question that arises in my mind is who is going to foot the bills when everyone is enjoying a roman holiday. Anyway, the Utopia we dreamed about yesterday is here today."

PRODUCERS WINNING Battle of the Boll Weevil!

BOLL WEEVIL CAN BE BEAT

The efficiency and effectiveness of the 1964 weevil control program, together with the continued support of producers, strongly points toward a complete High Plains victory over this most dreaded and costly of all cotton insects.

20% LESS REQUESTED FOR WAR CHEST

Economies effected in the first year's spraying, plus the fact that over 97% of producers helped finance it, made possible a substantial carryover of funds from 1964 to be used in 1965. This in turn has made it possible to reduce the requested producer contribution in 1965 from 50 cents to 40 cents a bale. And there is hope this can be further reduced in 1966.

The following is a financial report from the Boll Weevil Steering Committee of Plains Cotton Growers, Inc. to those who are so wisely investing in this vital program:
