County Library Planning Expansion Of Services Lynn County Pioneer Reunion Here Saturday

Lynn County Library board is planning an extensive expansion program when the library moves to the west 40 percent of the county building now being rejuvenated at the northwest corner of the square.

Several meetings of the board, of which Garland Thornton is chairman, have been held recently, the latest on Tuesday of this week, to make plans for expanded use and service of the facility.

The library has grown steadily over the years until there are now 10,000 books on the shelves. When the move is made to the new quarters, some of the books will be discarded, but the organization is qualifying for 2,000 new books from the State.

Started about 35 years ago by Phebe K. Warner Club, Mrs. G. M. Stewart has long been the leader in the work, and for a number of years Mrs. A. J. Kaddatz has been the librarian.

Operating funds have come from book rental fees, monthly allowance from the county, City of Tahoka, and many individuals. Many citizens have contributed books, and others are planning to give books when more room is available.

But, in the future, the board hopes to offer further services and encourage even more use of the library.

Last year, the County Commissioners' Court set up a library board to operate directly under county supervision, which is necessary for the library to move forward and affiliate with the State organization and receive benefit of State services. Board members represent the major county communities of Tahoka, O'Donnell, Wilson, and New Home, and workers in other communities will be sought.

At Tuesday's meeting, plans were discussed for formation of a "Friends of Library" organization which would have annual membership dues of \$1.00 to promote and help finance expanded library services.

Members of the board appointed by the Commissioners Court are: Garland Thornton, Mrs. G. M. Stewart, Mrs. Madeline Hegl, Robert Abbe, and Frank Hill, all

Arrangements For Pioneer Dance Set

The Old Settlers Dance will again this year be held at the Community Center, this Saturday, thanks to members of the Pleasant Grove Baptist Church, who had previously rented the building for a talent show scheduled for the same night.

Instead, the talent show and coronation will be held a week later on Saturday night, July 2, at 7:30 p. m. Tickets for the event are 25 cents each with all proceeds going toward the building fund.

Lynn County Pioneer Association and Mr. and Mrs. George Claude Wells, who are in charge of this year's dance, are grateful to the church for its consideration given them in this event.

Unpaid Taxes Are Delinquent July 1

Thursday, June 30, is the deadline for paying State and county taxes for 1965 before taxes are entered on the delinquent tax roll, according to George McCracken, Lynn county tax assessor-collector.

Taxpayers can avoid additional penalty and interest by paying their taxes no later than June 30, as the law requires that all taxes not paid on or before that date to be entered on the delinquent list.

Members of the board appointed by the Commissioners Court are: Garland Thornton, Mrs. G. M. Stewart, Mrs. Madeline Hegl, Robert Abbe, and Frank Hill, all

There's gonna be a lot of visiting and handshaking come Saturday—that's Lynn County Pioneer Reunion day in Tahoka.

The annual event will be held in the school cafeteria with registration beginning at 10:00 a. m., states Mrs. Peggy Elliott, secretary. Preparations have been made for the usual 400 to 500 attendants. There will be visiting in the morning, barbecue dinner at noon, and a fun program following the noon hour.

Prizes will be presented the oldest man and lady and person coming the greatest distance to the reunion. These awards are limited to persons who have not received such a trophy previously.

John Curry is president of the organization this year.

Johnny Wells will act as master of ceremonies and will give the welcome. Musical numbers will be presented by a band made up of local students, and Mark and Jack Filippin will also give some selections. Following the program, an election of officers will be held to determine who will head the organization next year.

Saturday night the annual old-settlers dance will be held in the Community Center with Mr. and Mrs. George Claude Wells in charge.

Heading the committees for the meal and meeting place arrangements are Elmer Sproles and "Booger" Redwine, Dan Curry, Turner Rogers, Kenneth Turner, Milt Draper, Clint Sikes, and A. R. Milliken.

Those attending the reunion this year will pay dues of \$1.00 which will include the noon meal and the dance Saturday night.

Fire Destroys New Lynn Farm Home

The farm home occupied by Mr. and Mrs. Gene Ingle at New Lynn was destroyed by fire last Wednesday evening. A farm tractor was also destroyed and a butane tank damaged as a result of the blaze.

Most of the house furnishings were saved from the fire, but text books belonging to Mrs. Ingle, a Texas Tech student, were destroyed. Tahoka firemen were called to the scene and one remained there until about 11:30 p. m. to make certain the fire was distinguished.

The house is on the farm operated by the C. T. Ingles and the Gene Ingles and is located about 14 miles from Tahoka.

Scope Chemicals Opens Fertilizer Plant Here

A new industry for Tahoka came into being this week with the announcement of the opening of Scope Chemicals of Texas, makers of the liquid fertilizer Tri 40. The plant, with operations beginning Wednesday of this week, is a mixing and distribution center for a large portion of west Texas, eastern New Mexico and southern Oklahoma.

Manager of the operation here is Carl Gene Spears, and the plant is located in the Spears Building on the O'Donnell highway in south Tahoka. Scope Chemicals headquarters is in Houston, with general offices in Fort Worth.

In Tahoka this week to assist in the installation of the machinery and the beginning of the operation here was Mr. John Williams, president of the company. He has expressed his optimism in the future of the company in west Texas, and was pleased with the reception of the plant and the product thus far.

Tri 40 is a liquid fertilizer recommended for all field crops, and vegetables, orchards, lawns, flowers, etc. It is easily and economically applied, and will be applied in this area by use of Hi-Boy and helicopter. Williams says that Tri 40 is especially recommended for failed-out cotton, and he has on file many testimonies from farmers throughout the area bearing on his claim.

Mr. Williams said that Tri 40 will be packaged in many different sizes of containers, from the 4-oz. bottle to the 55-gallon drum, to suit the needs of the varied number of users.

The Tahoka plant has a capacity of 3,600 gallons of Tri 40 per day, according to Carl Gene Spears, and will have three men in its permanent employ. As the need demands, additional machinery will be installed and more men will be employed. Spears will head up a group of 225 dealers already handling and distributing the fertilizer. He said the orders for shipment of 55-gallon drums of the liquid already received by him is almost beyond his hopes at this stage of the operation.

Spears said that sufficient Hi-Boys and one helicopter would be available for use in spraying the fertilizer in this area.

The manager said that a formal opening of the plant will be held in about two weeks, when all the

machinery, building, etc., will be prepared for showing. In the meantime anyone interested in seeing the operation is cordially invited to come by, he said.

County Plans Tax Rate Cut

County taxes are almost certain to be reduced this year and the tax rate may be cut as much as 70 cents on the \$100 valuation, members of Lynn County Commissioners' Court inform The News.

The rate reduction will become possible principally because final payment on the 1946 road bond issue of \$850,000 was made in March of this year.

For a number of years the county tax rate has been \$1.90. The Court hopes to cut this rate to \$1.20.

Exact amount will not be determined until the firm of tax equalization specialists who have been working on valuations for several months complete their figures.

NEEDED: BY THE TAHOKA GARDEN CLUB

The Tahoka Garden Club needs more downtown merchants and businessmen, also residential areas to participate in the flower box program. We appreciate the good number that has responded, but do need more.

Why not get busy and help beautify your home town? Use whatever containers you may have on hand. Coleus, petunias, verbenas, geraniums, and rose moss make very attractive planting and these can be bought at greatly reduced prices now.

Tahoka Garden Club will also be sponsoring a "yard of the month" contest this summer. More information on this later.

More Rain And Hail Hits Lynn County Past Week

Farmers in the southern section of Lynn county are boasting of very good crops, while some farmers in the northern part of the county were still planting cotton Wednesday of this week.

Rainfall has been very spotted over the county, from less than one inch in some places to six inches in others.

Tahoka received .48 inch early Friday morning, .82 Saturday, .02 Sunday, and .26 Monday for a total of 1.58 inches this past week. Total amount for June is 1.99 inches and amount for the year is 7.94 inches.

Two to three inches of rain fell in the O'Donnell-Wells area this week where cotton is reported to be squaring. However, the rains the last few days have delayed farmers from working the crops and some fields are getting weedy. Crops in the Grassland-Draw area are also good, but rainfall there the past week has been less than one inch in places. The Central area each of Tahoka received about two inches.

In the New Home-Lakeview vi-

city, farmers received from three to six inches of rain from last Thursday until press time this week. Hail and heavy rain continued to take their toll of crops Thursday evening east and northeast of New Home. Some of the farmers included in the damaged area are Frank Liseby, Jim Barnett, Stuart Rice, Joe Lewis, Jerry Harston, Virgil Haley and Elmer Blankenship. This was the third such storm to hit sections of northwestern Lynn county since crops have been planted.

North of Tahoka to Wilson rainfall amounted to less than an inch in most places but was spotted as in the rest of the county.

Farmers in the West Point community west of Tahoka were planting again this week following good showers over the weekend. Moisture ranged from a trace west of town to nearly three inches in some areas.

This week's rains were welcomed by most farmers, and now with some sunshine and favorable weather Lynn county can have a good crop production.

White Sox Lose To Cooper Colts

The Tahoka White Sox must be wondering who decided to invite the Cooper Colts to join the Lynn County Pony League this year after the homesteaders bit the dust again Tuesday night for their third straight loss to the newcomers—this time by the score of 3-0. Pending the outcome of a protested game with O'Donnell, the Sox now have a record of 6 wins and 4 defeats and would be in sole possession of first place if it were not for those three losses to Cooper. And a Cooper fan was only slightly exaggerating Tuesday night when he quipped, "We would be in last place if it were not for the White Sox."

Tuesday night's game must have set some sort of record in that it was completed in the phenomenal time of about one hour and twenty-five minutes. The story of the game can be accurately condensed into a few statistics. The Colts played errorless ball while the Sox were committing three errors and allowing two unearned runs. Cooper ace Amondo Acebedo, struck out eleven, walked only one batter, and scattered six hits, all of them singles. White Sox pitchers Robert Garza and Larry Durham could get only one strike out apiece and Garza gave up eight hits in 6 innings and walked two. For the winners, Johnny Neal, son of the Cooper manager, had a single and double and, for the losers, James Sayles and Danny Martinez had two hits each. In addition, Martinez drew the applause of the crowd with six sparkling defensive plays.

Last Friday, the White Sox beat the Tahoka Braves again, 12-2, but not before getting a mild scare for the first four innings. The Braves came out fighting and trailed by only one run, 3-2, before the White Sox broke the game wide open with seven runs in the fifth inning. James Sayles was the winning pitcher and Robert Garza, who pitched the last two frames, paced the hitters with two singles and a double. Dan Reid got the only hit for the losers, a double in the second inning.

Tonight, the White Sox will host the league-leading New Home Eagles at 8:00 o'clock and the Braves will meet the Dodgers in O'Donnell. In the last meeting between the two clubs, the Sox defeated the Eagles 14-9.

Patrol Reports 14 Accidents For May

The Texas Highway Patrol investigated 14 accidents in Lynn County during the month of May, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area.

The crashes resulted in one person killed, 3 persons injured and an estimated property damage of \$6,560.00.

The rural traffic accident summary for this county during the first five months of 1966 shows a total of 42 accidents resulting in 2 persons killed, 15 persons injured, and an estimated property damage of \$21,315.00.

The number of traffic deaths in Texas has risen steadily since 1960 with 2254 deaths to 3028 deaths in 1965. "For the first five months of 1966, 1137 persons have died in traffic compared to 1032 deaths for the same period of 1965," the Sergeant stated. This 10% increase is very alarming, and when you realize our heavy volume traffic months are still ahead, we must anticipate increasing problems in the accident picture.

The Sergeant appealed to the

Gordon-Southland News

(By Mrs. Edmund Wilke)
Greetings to each of you. It has been quoted: "You can never hope to become a skilled conversationalist until you learn how to put your foot tactfully through the television set." Do you agree? Sometimes I think that television has just about ruined our social life. Sometimes it is so much easier to sit down in front of the TV set than to get ourselves ready and go and visit our friends and neighbors.

I reported last week that Mrs. Moore, mother of Mrs. Elsin Crawford, had broken both of her arms. Well it is even worse than that! She also broke her hip when she fell and broke her left arm. We were so very sorry to hear this!

Wes Donahoo spent several days last week in Mercy Hospital. Mr. and Mrs. Jack Hargrove went to Mesquite last week to take Mrs. Docia Copeland home. Mrs. Copeland, Jean's mother, had been out here visiting for quite some time. They returned home the last part of the week. Mr. and Mrs. Billy Basinger and two daughters from Mercedes visited with his parents, Mr. and Mrs. W. A. Basinger, recently. They also visited with other relatives here.

Miss Sylvia Basinger, daughter of Mr. and Mrs. Billy Basinger, and granddaughters of Mr. and Mrs. W. A. Basinger is planning a July 8th wedding in Mercedes. Kenneth and Karen Gayle Callaway will be moving to Post some time in the future, and he will be operating a new station.

Riley Woods was confined to Mercy Hospital for several days last week. We sincerely hope that he is feeling much better by now. Mr. and Mrs. D. D. Pennell went to Wichita Falls this past week end to attend the annual Goolsby Reunion.

Mr. and Mrs. Kenneth Callaway and children spent this past week end in Clovis, N. M., visiting with Mr. and Mrs. Don Kelly and family—(better known to most of you as Chub and Kay.)

Mr. and Mrs. F. W. Callaway spent this past week end in Fairfield, Tex., attending the Callaway reunion.

Harvey Pennell and Miss Bennie Chandler visited with Mr. and Mrs. D. D. Pennell on Sunday night. Harvey and Bennie are from Lubbock.

Mr. and Mrs. Bill Castner and children from Lubbock visited with Mr. and Mrs. Wes Donahoo and Mr. and Mrs. Edmund Wilke on Sunday.

Mrs. Lizzie Truelock and Mr. and Mrs. James Truelock and family visited with Mrs. Nellie Mathis on Sunday. Also visiting Mrs. Mathis was Mr. and Mrs. Delroy Odom and little Dickey from Post. Marje Odom and little Dickey spent the night with Mrs. Mathis on Sunday.

Mrs. Ed Denton was confined to Mercy Hospital for several days after receiving injuries from a washing machine accident. She got her hand and arm caught in the wringer. They were down at Possum Kingdom when the accident happened.

Carolyn and Dee Hodges and Mr. and Mrs. Reese Hodges visited on Sunday with Mr. and Mrs. Tom Kasinger.

Marie Odom called her father, Dick Mathis, who lives in Oregon, on Father's Day and wished him a happy Father's Day. Mrs. Nellie Mathis also talked to him, and she said that everyone up there is okay and that it sure was good to talk to Dick.

Mr. and Mrs. Jimmy Ferguson from Raleigh, N. C., visited with Mr. and Mrs. D. D. Pennell on Friday of last week. Also visiting were Mr. and Mrs. Arvil Ferguson

Seagraves Site Of Little Britches Rodeo

This will be the third of a series of the Little Britches Rodeo Circuit competing for championship trophies. The championship rodeo at the end of the season will be decided by the point system. Points can be compiled from all rodeos in this series.

The rodeo is sponsored by the Gaines County Rodeo Assn. and livestock is furnished by the Little Britches Rodeo Co.

Trophies will be awarded to first and second places, and rosettes to third, fourth, and fifth places in each event. There are two classes in each event—one for youngsters 12 years and under, and the other for those 13 through 16 years.

Twenty-two members of the Lynn County Soil and Water Conservation District have signed conservation agreements under the Great Plains Program with the Soil Conservation Service this past year. Among the latest members who have applied for assistance include Mrs. E. E. Fagg, S. M. Clayton Jr., Billy Williams, Miss Martye Poindexter and Sybil Jordan. There are many others who also have applied or have signed new contracts. All of those listed are planning parallel terraces. Under the Great Plains Program

PRINTER'S INK-LINGS
We know the oldtimers are going to have a big time Saturday. The reunion is about the only time a lot of old friends get a chance to meet, visit, and recall the days gone by. But, it's getting where most of the "old-timers" belong to the second and third generation. We are having to miss this one because this is the only time we could get a chance to work in a vacation trip—but our mind and heart will be with you folks at the meeting Saturday.

Naymon Everett of O'Donnell, an old Borden county boy, sent us a copy of a rare picture we are going to frame and show at the reunion next year. It is a picture of about 200 men at the "land rush" at Gall on August 3, 1903. We know there are a lot of Lynn county faces in this picture.

Mrs. Charlie Sanders, the former Venoy Coughran, of Ralls, has also given us copies of some interesting pictures from her collection pertaining to early day Tahoka. Two pictures show some Sanders and Henderson and Vaughn "boys" on their "bonuses" east of Tahoka before the town was established, another a bunch hunting wood below the cap, still another is of the McDaniel family

in front of the Baptist Church in the early days, and a fifth is printed on the front page of this issue.

Pictures such as these, we think, should be hung in the Lynn County Library when the new building is ready, and people who have similar pictures could do future generations a service by having them hung there. Do we have a second to the motion?

Carroll Koch reveals in his Quannah Tribune-Chief column that the Ace of Spades is helping win the war against the Vietcong. U. S. Playing Card Co. sent thousands of Aces of Spades to U. S. troops to drop over enemy territory. You see, many Vietcong regard the card as a death omen.

We're told many of the Vietnamese people are uneducated, know or understand little about democracy, and have never really known freedom. If this is true, we seriously doubt if they have the aptitude, knowledge, and judgment to vote in an election as we propose to have them do to decide their future.

We'll never forget what a wise old German, a native of Prussia, once told us when The Printer was a kid working for him down at Roscoe. He was trying to explain how hard it was to understand our ways (democracy), and his love for his Fatherland while disapproving the actions of Kaiser Wilhelm and the war lords when he told us: "Frank, for 600 years my people have no vote, no money, no say in anything. We work on a big estate. We take our farm products to the storage barns and get to take back a small portion for ourselves. For 600 years my people have no say. I've been here 20 years, but I still hardly believe my vote is as good as Mr. Norris' vote." Mr. Norris was his highly respected Anglo neighbor.

We are beginning to wonder a bit ourselves about this so-called democracy stuff. Once it was good. But, now, we are getting a lot of laws and regulations, orders, demands, arm-twistings, bureaus, aide agencies, and so forth and so on that we never voted for or that we never even asked our Congressman to vote for and some that he never even voted for. We suppose the Great White Father in Washington knows best. Anyway, you yokels don't have much say-so, anymore. The Great White Father has to take care of the Colored people and the Union

WASHINGTON AND "SMALL BUSINESS"
By C. WILSON HARDER

There is much discussion of job training as a part of the ballyhooed War on Poverty. So far, little results have been shown compared against the millions of dollars of tax funds spent on this activity.

On the other hand, much is made of the fact that the unemployment rate is now down to 3.7. Yet how valid is this figure?

Rep. Thomas Curtis of Missouri points out that affecting this figure is the fact that 500,000 additional people have been put to work due to the Vietnam war, and that 300,000 young men have also been drafted.

This, he points out, is an artificial means of contracting the force of the unemployed, and unless it is planned to keep wars going, is not a solution to the basic problem. The National Federation of Independent Business finds an interesting development in data from its current year's continuous field survey.

It is finding that 66 per cent of the nation's independent business proprietors report they when they need employees they can, and are willing, to train unskilled workers in their operations without one cent being paid by the taxpayers to teach to them skills. Of course, it must be recognized that 85 per cent of

Pension Checks Getting Higher For Local People

(Special to The News)
New York — Federal pension checks going to Lynn County residents have grown by leaps and bounds in the last three years.

Because of the vast changes made in the social security law, the number of local beneficiaries and the size of their payments are greater than ever.

According to the official figures covering the past year, retirement payments are being sent each month to 956 in the county as compared with 749 in 1962.

Also, the amount they are receiving is 48.0 percent more than it was at that time.

The facts and figures are presented by the Social Security Administration in its current report.

Nationally, it shows, there are now nearly 21 million men, women and children receiving benefits. This is about 3 million more than in 1962. They collected \$17 billion during the past year.

The major part of it went to retired workers or to their widows and children. Most of the remainder was paid to disabled workers and their dependents.

As of the end of the year, payments to Lynn County recipients were at the rate of \$741 a year, as against \$640 in 1962.

The rise, 15.8 percent, compares favorably with the rise in the United States, which was 11.1 per-

cent. It was 10.9 percent in the State of Texas.

The size of the pension check, in each individual case, depends on the amount that was collected from the worker and his employer in social security taxes over the years.

Locally, the combination of more beneficiaries and larger pension checks is causing a record influx of cash into the county each month. It has become an important factor in the economy. The figures show that no less than \$709,000 a year is entering the county now via the social security route. In 1962 it was \$479,000.

Plans are under way for a further expansion of benefits next year. The Administration has disclosed that it will propose across-the-board increases to the Congress that will convene in January, 1967.

Higher minimum payments and higher maximums will be sought as well as a new system for financing dental care for young children.

Claude News: You're slipping, brother, when... you feel your oats and corns at the same time... it takes you just as long to get tired and twice as long to get rested... you prefer not to have a good time than to get over it... your wife tells you to pull in your stomach after you already have... you pay more attention to the food than to the waitress... you are more interested in chasing a little white ball over a pasture than anything else... you stop hoping for the best and try to avoid the worst... you look to see if a garter is dragging when a girl looks twice at you... and your idea of getting ahead is staying even.

Joe D. Unfred says he's afraid that the way the farm program is shaping up, the farmer will know how the Negro felt when he (the Negro) was the forgotten minority.

Mrs. May Tells Early Day Experiences Working Stock

(Editor's Note: Following is another article by Mrs. W. H. May, 3311 24th Street, Lubbock, pioneer Lynn county lady, admired and loved by many, whose accounts of early day life are interesting and give the true flavor of life when this country was first being settled.)

By MRS. W. H. MAY
In the early days in Lynn County, we didn't have Sunday School and Church to go to—people were few in number and no preachers. But the neighbors visited on Sunday.

We had neighbors come and spend the day with us when we lived in the little two room shack. We didn't have room in the house for all of them, but the men would sit in the shade of the windmill and we really enjoyed life.

But times changed and we got telephones. A neighbor fifteen miles west of us phoned one Sunday morning they were coming to spend the day.

We were always glad to see neighbors on Sunday after working all week.

One fall Mr. May bought a bunch of sheep over in Terry County and all the help he could get was two little boys, Gene Patterson, about 12 years old, and another boy. Gene drove the wagon and the other boy helped drive the sheep. They were gone several days.

Edwin was on a binder cutting feed and I was on the other one, and Clara and Celia were shocking the feed. We looked up and saw a car drive up to the front gate and two men got out and went to the door, and no one answered. They spied the farmers in the field and drove down there; we stopped to see them. They were the girls' science teacher and his chauffeur from Abilene, just came by to see them. They were a little embarrassed for a University teacher to catch them so dirty, but he went back to Abilene and told his class he admired the May girls for helping out when help was so scarce. That helped their feelings to know he admired working girls.

In 1903, not every family had a car, and we got our first one that year. Temp Skinner had an old Buick he was trying to sell to Mr. May and I didn't want him to get an old car. I told him we didn't know a thing about cars, and if he got a new one by the time it needed fixing we would know a little about it, so he decided to get a new Ford. It was a Model T, the arm strong cranking kind. He got it from Vernon Bradley in Lubbock and Mr. Bradley got it all ready and brought it out one morning and Mr. May had to take him to Wilson to catch the train back to Lubbock. He told us to be ready when he got back and we would go and spend the day with the Walter Roberson family, and we were ready before he got back.

We started on our way and made it fine going over there. It was about six miles. When we started back and got to the first gate the motor died. Mr. May got out and he cranked and cranked, but it wouldn't start. Clara was out looking at the new car and she said, "It sure is pretty, isn't it Pappa?" He said, "It doesn't look very pretty to me if I can't crank it," and he quit'n't. But we happened to know that Ross Ketter was gathering corn on our place and he walked about a mile and got Ross to come and crank it, and we rode on to the house.

Ross went on with his corn gathering, and we started on home but we had another gate about a mile and a half from the house. When we stopped the motor stopped, too. Mr. May cranked till he gave out and started to walk to the house to get a team to pull it in. He got about 300 yards away and looked back and saw Ross coming with a load of corn; he came back and Ross cranked the car and drove it to the house and Mr. May rode with the corn. But it wasn't long till we all could crank the car.

When Carl Sherrod was working for us, we were hauling cotton seed hulls from Wilson. We all had a wagon and team, and Mr. May led the way. I was next, then Carl. I was driving a pair

of big mules. It was open prairie nearly all the way to Wilson. About a mile out of Wilson, one of my mule's bridle bits came in two and that blind bridle slipped back, and when that mule saw what was behind him, they started to run. I was sitting on a spring seat on top of a wagon bed four feet deep and somehow they broke a singletree and a trace and the wagon tongue came down. They ran in a quarter of a mile circle and made the fourth circle before Mr. May could catch the back of the wagon and get in. But they stayed one on each side of that wagon tongue the whole round. When he got them stopped, I got down off that seat, Carl was sitting in his wagon watching the show. Mr. May said "Carl, why didn't you try to help me stop them?" He said, "I didn't think about it, I was too scared."

One day we were going to the old place horse back and it had rained and the road was muddy. My pony wanted to stay in the road and Mr. May told me two or three times I had better keep her out of the mud or she would slip down. Next thing I knew she would be back in the mud, and sure enough down she came. We scrambled around and got up. I had a little mud in my hair and broke a saddle horn but wasn't hurt.

I always rode a side saddle. I remember the first woman I ever saw ride astride. It was Ethel Cooke, Mrs. Hall Robinson. She rode from Tahoka Lake Ranch in Union in Lubbock County. She was getting up a music class and came to Mr. Bounds house and I was there. Eva Bounds went out to talk to her, and she came in the house and asked her mother if she could take music from Miss Cooke, and Mrs. Bounds said "No you can't take music from any woman that rides a-straddle." That was back in 1902 or 1903.

We had some amusing experiences breaking young broncs to ride. Cecil Shaw and another old boy came one day to have some fun, and they all three saddled a horse apiece and they would ride them in the pen 'till they quit pitching, then I would open the gate and let them out. Mr. May's and the other boys' horses started off together, but Cecil's went northwest as fast as he could run and he didn't stop 'till he got to the fence. He couldn't do a thing with him. I was the only one on a gentle horse, so I had to go and bring him back.

We had one old boy 17 years old and six feet tall and weighed 175 pounds. After his horse got out of the pen and started pitching, the boy went off over the horse's head. He got up and came to the house crying and said "I am not going to ride any more of Mr. May's old horses."

In working the cattle it was funny to see an old wild cow get after a boy and see him run and climb on the fence.

In 1903, Mr. May had some little spots on his face, and we kept trying to get him to go to Dallas and let Dr. Shellmire take them off. Finally he decided to go, and Clara and Vernon went with us. When we got there and they started the treatments, they moved him to three or four different rooms, and I went right along and carried his hat, and I saw the nurses look at each other and

The motto of the nation's more than 2.2 million 4-Hers is "to make the best better."

Finally, they finished up and we went to the desk to pay the bill and I signed the check. Dr. Shellmire and three nurses were standing there, and Dr. Shellmire said, "I want to ask you a question." I said, "all right." He said, "How long have you two been married?" I said, "Well, if we live till the 23rd of August, we will have been married 37 years." And he said, "Oh, good Lord, woman, your reward in Heaven will be great. I said 'Thank you,' and we left. When we got in the car I told Clara and Vernon what he said. I told them that they thought her Daddy was a rich old cow man and I was about twenty years younger than he was and I married him to get his property. He said, "O good Lord."

This is a summary of our first fifty years in Lynn County. Mrs. W. H. May

Conditions In Viet Nam Is Subject Of Talk By Reese Air Force Captain

Our service men in Vietnam are the best in the world, dedicated to the job of stopping advance of the Communists, and are specialists in their fields. Capt. James H. Ayers of Reese Air Force Base who served in that country from May 1964 to May 1965 said in a talk to Tahoka Rotary Club last Thursday.

He illustrated his talk with pictures of the country, planes, bases, the people, etc.

Capt. Ayers flew a C-123 transport plane taking cargo to virtually every part of the country and bringing back wounded soldiers at times. His plane landed many times where there was no runway or just a primitive landing strip, other times he dropped supplies by parachute, and many missions were to drop flares over battle areas at night to aid our ground troops in seeing the Vietcong. This plane can handle bulky cargo up to a 2-ton truck.

Warfare in that country is very difficult for state-side people to understand, he said, for it is unlike any other we have fought.

South half of Vietnam is a continuous series of rice paddies, canals, and rivers, not more than 20 feet above sea level. During the rainy season, especially, mobile warfare is impossible and there are Vietcong hiding in every canal.

North half is mountainous and jungles are so dense foot paths have to be hacked out and sometimes when a plane falls it is completely hidden in the lush growth. Vietcong are entrenched in the jungles, have tunnels dug deep in the ground and are hard to dislodge.

The U. S. has special forces camps scattered over the country in out of the way places which act as forts from which to fight the Vietcong and from which to train friendly natives.

The Vietnam soldier, he said, is the fiercest fighting man in the world with the possible exception of the Turks. He weighs only 98 pounds, is five feet tall, and carries 60 pounds of equipment. They live and die to kill their neighbor Vietcong. But, the Vietcong dress like the peasant-farmer class in black pajama suits, and are hard to detect as one doesn't always know who is friend-

O'Donnell Girl Is Chosen Delegate

Suzanne Morrison of O'Donnell has been selected as a delegate to the 4th Annual Texas Youth Conference to be held in Austin August 18-21 on the University of Texas campus.

The conference will attract over 1200 outstanding youth leaders from throughout Texas to study projects for the prevention of juvenile delinquency in Texas communities.

The program was formerly the Attorney General's Youth Conference but has now become a project of the Texas Law Enforcement and Youth Development Foundation of Austin. Many outstanding programs have already resulted from the first three conferences, including Texas teen injuries, programs for tutoring students to prevent 6th grade drop-outs, and various other community service projects.

Delegates are selected by schools, churches and civic organizations on the basis of their proven leadership in their own communities. The unique youth led program, only one of its kind in America is credited by many law enforcement officers with playing a major role in the reduced delinquency rate in Texas for 1965-66.

Austin attorney, Robert T. (Sonny) Davis, will continue to serve as director for the conference.

Suzanne is a member of the National Honor Society. She is the daughter of Mr. and Mrs. Ben Morrison of O'Donnell.

Mrs. E. A. Howle underwent surgery in Methodist Hospital in Lubbock Friday of last week. She was expecting to come home this week.

ly and who is an enemy. He showed pictures of Vietcong supplies to prove every Communist country in the world is supplying the Vietcong soldiers.

Vietnamese people for years back have known nothing but war. The Japanese were in control and exploited the country until the 1940's. The French took over then and drained the country of every resource possible before the Vietnamese ran them out in 1954.

In the truce, the Communists took the north half, the loyal Vietnamese the south half but Vietcong remained in the south to try to take things over.

Then, in 1961, with South Vietnam's freedom threatened, we went in advisors, then troops to preserve peace and their freedom. Turmoil in such a land is hard for Americans to understand. Vietnamese and Vietcong are the same peoples of the same land. But the Buddhists are afraid the Catholics will get the upper hand, the Catholics are afraid of the Buddhists, and both are afraid of the military.

But, he thinks most Vietnamese and the military wants peace, freedom, and democracy. The political coups hurt the war effort, though.

Cap Whorton, who introduced the speaker, said Capt. Ayers is a 1950 graduate of Texas Tech in engineering, when he was commissioned a second lieutenant. He holds the Distinguished Flying Cross with 13 clusters, is married and has three children. He is a brother-in-law of Mason Davidson of Wilson, and Ann Davidson was a guest at the program.

Conference . . .

(Continued from Front Page)

The expenses of these delegates will be paid by the Rotary Club and First National Bank.

Marla Bray will serve this year as a junior counselor at the Attorney General's Youth Conference. As State third vice president in Future Homemakers of America, Marla attended the Youth Conference last year. Junior counselors are chosen from those who have previously attended the conference.

Tahoka students having attended the Austin meeting are John Huffaker, Ralph Brock, Paul Kenley, Chloie Jan Huffaker and Marla Bray.

The Texas Youth Conference operates on three basic concepts which have been essential to its successful acceptance by the public: (1) The use of existing human resources in each community. (2) A strong "youth-led" accent involves the youth of Texas themselves in a major role. The youth conference grants perhaps more responsibility to these youth than any other program currently in operation in the state or nation.

(3) At each annual conference, a series of projects are presented in seminars and in general assembly programs. These projects have been determined to be successful and effective programs for combating delinquency during field visits throughout the year.

Eddie Ray Cook, 3-year-old son of Mr. and Mrs. William Cook of Tahoka, received a painful injury Wednesday morning when he fell into a storm cellar. He was taken to Tahoka Hospital.

Marla Bray And Richard White Report On Trip

Miss Marla Bray and Richard White were among more than eighty young people visiting Washington, D. C., on the Government in Action Youth Tour sponsored by the rural electric systems of Texas.

The three-bus caravan left Dallas on June 3, and traveled to the nation's capital by way of Little Rock, Nashville and Roanoke. After five days in Washington, the group returned to Dallas June 14, via Knoxville, Memphis and Texarkana.

Four participants, winners of oratorical contests sponsored by local electric cooperatives, will have a set of colored slides of their trip for showing to any interested group.

Following is a short article by Marla and Richard:

The trip was the chance of a lifetime. Seeing our government at work has stimulated within us a deeper love, a greater patriotic feeling for our country. The monuments and memorials to the men who built our nation serves as a constant reminder of our great American heritage.

We encourage the students of Tahoka High School to take advantage of this great opportunity. The memories and lasting friendships gained during those two weeks will live with us always.

We deeply appreciate the interest Lyntegar has in youth. Our heartfelt thanks to the Board of Directors and member-owners of Lyntegar Electric Cooperative for making this memorable experience possible. Marla Bray and Richard White.
