Cotton Records Report Deadline Is This Friday

Today, Friday, is the final day for farmers to turn in to the Lynn County ASCS office records on cotton production for 1963, 1964, and 1965 so that a county total may be substituted to the state office, states Wallace Dove, ASCS office manager.

Without these production records, Lynn county ASCS will be handicapped in notifying the state office of the amount of yield, and the state office will not have reliable information to use in determining yield for the county.

"Farmers who fail to turn in their records will be subject to a drastic cut in yield for 1967," Dove says. Therefore, these records are important to the individual farmer and to the economy of the county.

Also, farmers are advised that they should certify planted acres of cotton and food grain as soon as possible and avoid the last minute rush on the deadline of August 15.

In disposing of crops, shredding of grain sorghum or cotton is not enough, but these crops must be destroyed by plowing under. Plow-ups should be of rectangular shape with not more than four sides and contain at least one-tenth of an acre.

Final check on a farm acreage will be determined by the pattern of the crop left standing.

Measuring is almost complete. After it is finished, the ASCS workers will measure plow-ups on a day to day basis, Mr. Dove says.

Local Group Studies Means Of Securing Hospital Here

T. J. Taylor, administrative manager of Crosbyton Hospital one of the most successful small town hospitals in the area, discussed the many phases of hospital operation before a committee of local citizens last Friday night.

He gave the group advice on various hospital programs, Federal aid, hospital districts, county and city, cooperative, and privately operated hospitals, together with good and bad points and pitfalls to avoid. He also explained staffing, equipment, policies, business operation, and other phases, as well as possible changes in the future because of Medicare and the possible coming of socialized medicine.

He emphasized that no hospital can succeed unless it has the full cooperation of the doctors and un-

less they have a free hand in operation of their part of the hospital. He said it can succeed only with good business management.

Mr. Taylor told the group how Crosbyton Hospital started out as a cooperative effort, founded for a time, became a sort of private community enterprise, and now pays its own way while paying income taxes and building up a reserve for additions. Last year, Crosbyton Hospital showed a \$40,000 profit after paying debt interest, which debt has almost been retired, and it is now adding six more rooms to make it a 42-bed institution that is full most of the time.

But, he cautioned a lot of hospitals are not breaking even, many of them because of charity cases and laxness and politics when operated by counties or cities.

Members of a local committee appointed by the Chamber of Commerce to gather information on a possible hospital here, present at the meeting, were Garland Thornton, Clint Walker, Johnny Wells, Melton Leslie, Harold Roberts, C. W. Roberts, Jerry Cain, Dayton Parker, Frank Hill, Martin White, Clifton Hamilton, and Bob Haney.

The group will advise with local doctors and present a report to the community of their findings at a later date. Information is also being furnished by State and Federal agencies and Congressman George Mahon on possible steps to take.

Hot Weather Hurting Maize

Hot weather ranging from 90 to 100 degrees during July is beginning to take its toll of much early maize and a little cotton is beginning to suffer.

However, for the most part, farmers report cotton doing exceedingly well and developing rapidly. As it fruits up heavily, rain will be needed soon on most cotton to keep up with the fruiting.

Where showers fell in the Grassland, Gordon, Wilson, and Dixie communities and nearby areas last week, all maize is doing very well.

Much of the hail damaged cotton east and southeast of Wilson is also coming out and gives promise of making something. The News is informed.

Water Usage High But No Shortage Expected

Mosquito Control Advice Is Given

Citizens can do a lot to prevent the next crop of mosquitoes from hatching out by emptying old cans containing water and spraying with an insecticide puddles, containers, etc. where the mosquito may breed.

This is the advice offered by Dr. C. Skiles Thomas, county health officer.

During this dry weather, not too many of the type which carry encephalitis are breeding, but come a rain and they will be out in full force, he says.

Incidentally, the Doctor says a mosquito seldom ranges more than a mile from the place of birth.

Charlie Holland In "Biggest Naval Battle" Of War In North Vietnam

Aboard USS Rogers (Special) —July 1, 1966 was the grayest days in the Gulf of Tonkin. The bleakness of the sky echoed the crew's fatigue after a long and strenuous patrol in international waters off the North Vietnamese coast.

Aboard the destroyer, USS Rogers, ICFN Charlie McCoy Holland, USN, was serving a tour of duty with the U.S. Seventh Fleet. Fireman Holland is the son of Mr. and Mrs. Wade Holland, who reside at 2204 North 4th, Tahoka.

The "Tonkin Tiger" (USS Rogers) was scheduled to depart station for a well earned rest... but that rest was not to come quite yet. Straining through the afternoon haze, Rogers' sensitive electronic equipment continued, as always, to search for signs of possible enemy activity. The sea that day was choppy than usual, making detection of small radar surface contacts difficult. In the ship's combat information center, the watch section worked to separate actual radar contacts from useless sea returns.

A Navy jet fighter, returning from a mission over North Vietnam, suddenly reported suspicious looking surface craft only 10 miles to the Northwest. Immediately three distinct blips appeared on Rogers' radar scope. Skilled radarmen instantly began plotting their movement. Within seconds all suspicions were confirmed. The intruders were closing at high speed, preparing to attack.

Set General Quarters! Three hundred men rushed to their assigned battle stations, prepared to meet the enemy in open combat. As the high speed craft continued to close, visual identification was made by Rogers' lookouts. No one was surprised at their evaluation —North Vietnamese PT Boats —three of them, with all guns manned.

Rogers was designated by the Task Unit Commander as guide of the formation consisting of herself, the Destroyer USS Gurke, the Guided Missile Frigates USS King and USS Coontz. From her exposed forward position, Rogers observed the attacking PT boats split into two groups. Lookouts and radar operators teamed together to provide a constant flow of information to higher authority regarding the enemy's movements.

As the formation of sleek American warships turned toward them, the PT boats hesitated a moment, then turned to open range. Meanwhile, attack aircraft that had been summoned to the scene began diving toward the enemy.

Explosion off the starboard bow! A direct hit from a destroy-er-controlled Navy jet stopped one PT dead in the water. With all four boilers at maximum steam,

Rogers continued to race toward the startled enemy. Armed and loaded, her guns were ready to fire the instant the enemy came within range. Another explosion... then another... and all three North Vietnamese boats sank out of sight.

A total of 19 survivors were recovered. As night began to fall, the four American warships regained formation and headed off for other duties. The men of Rogers got their liberty ashore and, as a bonus, the satisfaction of helping to win the largest naval engagement of the Vietnamese conflict.

Mrs. Jean Harvick's Father Is Buried

Mrs. W. C. (Jean) Harvick's father, G. M. Gregg, 83, was buried Sunday, July 10, at Eustace, Henderson county. He died the previous Friday in an Athens hospital following a brief illness.

Mrs. Harvick and daughter, Beverly, went to Eustace on June 23 for a week's vacation visiting her parents and her dad became ill while she was there. Her husband, "Dub", went down for the services.

Mr. Eustace, in spite of his age, had been very active and his death was unexpected. He is survived by his wife and nine children.

In 1959 in the United States there were 4,105,000 farms averaging 288 acres in size. Nation's Agriculture reports a continuing trend of fewer but larger farms in America. This year they number 3,286,000 with an average acreage of 350—a 20 per cent decline.

Lubbock Men Explain Community Action Program To Local Rotarians

The Community Action Program, designed to eliminate poverty on the local scene, was explained at Tahoka Rotary Club Thursday noon by Joe Meador of the Lubbock Office of Economic Opportunity.

Meador declared we live in the richest nation of the globe, in the richest area and that our state has many of the very finest schools and colleges. Yet, one-fourth of our people are classed as being in poverty.

In 1960, Texas had 731,318 people who couldn't read and write sufficiently well to carry on business, and 600,000 poverty families. Lynn county, he said, has 35.4 percent on or below the poverty line, or 979 families. He said 11.2 percent of the people of Lynn county are non-functional illiterates, or 1,220 age 25 or older.

Texas' Governor has set up a plan whereby local communities may form Community Action Agencies for the town, community or county, made up entirely of local people, to study local conditions, make an analysis thereof, and seek out remedies for improving the poverty status.

This committee would determine whether or not the local people want a Community Action Program to improve conditions. If so, a coordinator would be furnished, but otherwise all direction and decisions would be handled on a local basis with the Federal government participating up to 90 percent of the cost and 10 percent of the local expense might include rent on quarters or other materials or services furnished.

The CAP would work in any one or more of a number of fields, including education, job training, employment, counseling, health and vocational rehabilitation, wel-

fare, mutual aid, legal aid, consumer education, neighborhood centers, day care, head start, basic adult education, etc.

Initiative for instituting the program rests entirely on the local level, Meador said.

Father John Dillon, who accompanied Meador, in a brief talk, said it is hard for a man to be a Christian who is destitute; that it is economically sound to reclaim poverty stricken people to take a useful place in society; that "instead of giving a man a piece of bread, give him a job."

Joe Meador is a former Chamber of Commerce manager at Ralls, Lovington, and Vernon.

ELMER RICHEY'S RETURN TO CALIFORNIA HOME

Mr. and Mrs. Elmer Richey left Saturday for their home in North Highland, Calif., after having spent two weeks here with his parents, Mr. and Mrs. M. C. Richey, at Grassland. Mrs. Richey is the former Miss Lela Braswell.

Elmer was critically injured in 1954 and doctors said he would never walk or talk again, but he does both. Although not able to work, he is able to enjoy life.

It costs more than \$50 million in taxes just to clean up American primary highways each year, reports a litter-prevention organization.

Dr. Emil Prohl, in charge of the program, introduced the speaker.

Vietnam Soldiers Write Homemakers

Mrs. Lanny Brewer of the O'Donnell Young Homemakers recently received these letters from two U.S. Soldiers in Vietnam.

Dear Mrs. Brewer,
Hi. I am one of the soldiers here at the 8th Field Hospital who received your get well card. Thank you very much. A gesture such as yours, though seemingly small, really makes a man feel good.

I'm 25 years old, and hail from Pennsylvania. I've been in Vietnam for 11 months (exactly today) and if the Doc. permits I'll be heading home in four weeks or less. It's been a long hard year but fortunately I'll be going home under my own power and healthy as ever.

Thanks again and God bless you.
Sincerely,
SP/4 George Molnar.

Dear Mrs. Brewer,
Hi. Hope you received this in the best of health. May God be with you all of the time.

I sure was glad to get the card and letter from you. I've only been here in Viet Nam 45 days. Received two bullet wounds on the 29th of May. I'll be getting out in a week to go back and join my company.

Back in the States I live at Wenatchee, Washington. Plan on returning and settle down there and start a new life. Hope to become a landscaper with C. O. Nursery there. Like I said it was nice to hear from you. Thanks a lot.
Your friend,
PFC Robert E. White.

According to the U. S. Bureau of Advertising, ADVERTISING ranks first with women, over all other newspaper content, for interest and readership! Women actually read ads in preference to anything else in the newspaper. (For that matter, ads rank third with men for readership!) And reading the newspaper is a favorite habit with American women.

So, if you have a product to sell—display it in an ad in your local newspaper. If it's for the home, write it to the housewife's point of view. For, more than anyone else, she'll read it. And, more than anyone else, she's the one who does the buying for the family!

In fact, she started writing last week, but for some unexplainable reason, her letter failed to arrive at The News office. But, she had so much interesting news last week, that we are publishing both weeks' Grassland news this week.—The Publishers.

(By Mrs. O. H. Hoover)
Well! It's still hot and dry up here on the Plains. Some few got a little shower Sunday afternoon, but I wasn't one of the lucky ones. Cotton still looks good, but the feed is burning good.

Mr. and Mrs. McCleskey's oldest son and family of San Diego, Calif., have been here visiting. They all had lunch Monday in the C. O. McCleskey home. Other visitors were Mr. and Mrs. W. J. Dubose of Brownfield and Rev. and Mrs. J. C. Allen of Lubbock. Mrs. Etta Burk of Tahoka visited Mrs. Lucile Walker Monday afternoon.

Mrs. C. C. Jones visited Mrs. Carl Greer and Mrs. C. B. King Monday afternoon.

Mr. Greer doesn't seem to improve much. He has some fairly good days and then some that are not so good. We wish for him better days soon.

Mrs. E. M. Walker, who is in the John Hopkins Hospital in Baltimore, Maryland, is some better at times. She has been in and out of the hospital for a year now. She surely has had a bad time of it. Her friends all hope and pray she will be better soon, and get to come home. We miss her very much.

The Thomas Fowler family of Jackson, Georgia stopped on their way home from Colorado and put on a program of gospel songs in the Grassland Nazarene Church Tuesday night. It was really inspirational.

noon and her mother, Mrs. O. F. Haley, Tuesday evening.

Mr. and Mrs. C. A. Walker and Mrs. Lucian Walker visited in Littlefield Sunday with the L. J. Walker family.

Mrs. Lucian Walker celebrated her 80th birthday on the 18th in the home of her son and wife, Cleetie and Lucile Walker. Lucile made a lovely dinner for her which she enjoyed very much. Mrs. Walker has lived 37 of her 80 years in Grassland. May this little lady have many more happy birthdays.

I had quite a surprise one day last week. Mr. and Mrs. M. C. Richey and their son, Elmer and wife from California visited me in my home. I have lived here 50 years and this was their first visit. I sure enjoyed them.

Mrs. Mae Johnson, a colored lady, who so generously helps a group of us with our cleaning has been ill for some two weeks. Boy, have we missed her. She is able to be back on the job again now for which we are grateful.

Phone news to 327-5046.

(Delayed from Last Week)
Due to the urging of my friends here I am again, I will try to write the Grassland news for you again.

Wasn't that a wonderful rain we had? Of course, we could have done without the hard wind and hail but the hail didn't hurt too much so we will take things as they come and count our blessings. The crops sure are pretty in this area.

Craig Son-In-Law Gets Commission

Benny Hawkins of Waco was among four Wacoans receiving commissions in ceremonies at Austin recently on completion of the year-long Texas National Guard Academy program. He has been commissioned second lieutenant.

The Academy program consisted of two 15-day summer encampments at Camp Mabry in Austin and Dallas. The training is designed to place candidates under physical, mental, and emotional stress and fatigue of combat. The training develops and tests leadership, physical fitness, and military skills.

The Academy has a wash-out rate of about 40 per cent, most

of this due to changes in civilian status, physical disabilities and academic failures.

Applicants for the Academy are selected by unit commanders on a basis of proven leadership traits. Applicants must be approved by battalion review boards.

Benny is the son-in-law of Mr. and Mrs. R. L. Craig.

In a recent survey, only one half of all drivers buying gasoline in Virginia knew within one cent how much they were paying per gallon. Only about 35 per cent came within one cent of knowing what the total state and federal gasoline tax was, and only 15 per cent were that close on the amount of the federal tax. Men drivers were twice as price and tax conscious as women.

Abraham Lincoln said: "Those who deny freedom to others deserve it not for themselves."

Compulsory unionism is simply another type of slavery.

The Watts riots in Los Angeles which brought tremendous property loss and injury and death were Communist inspired. "Communists have been moving into Watts in large numbers and much of the continued agitation is Communist inspired." The quotations are not from some radical-rightist or a racist, but is a statement from a Negro educator, Thurman Johnson, of Willowbrook School District (in the heart of Watts) to a Quannah Tribune-Chief reporter recently while he was visiting relatives in Quannah while in Texas to help conduct a workshop for Panhandle Educational Service Organization at West Texas State University in Canyon.

Once before we mentioned a scrapbook built up by the late Rev. C. F. Carmack which came into the hands of his son, C. O., when Mrs. Carmack passed away a year or two ago. Condy recently loaned the scrapbook to us and we spent several hours reading

clippings therein, many, many of which are gems of literature, philosophy, etc., as well as history, church activities, folklore, and general information, and personal experiences of the colorful oldtime Methodist minister. Most of the clippings are from newspapers in the period 1889 to 1900. Some are classics that we wish we had space to reprint. Some of them are from such early day West Texas newspapers as those at Stephenville, Anson, Estacado, and Lubbock.

Rev. Carmack, who would be 100 years old if still living, grew up in the Stephenville country, attended Granbury College and Weatherford College while teaching in between, then became a Methodist preacher and preached all over West Texas, first settled in Crosby county in the 1890's on trading a horse for a quarter section of land, taught at Emma, and later pastored churches all over this country, while Mrs. Carmack raised children and taught, also.

Old Emma was the second town in Crosby county, came into being as a rival to Estacado, the first town on the South Plains, and finally was the county seat until moved to Crosbyton in 1910. One clipping indicates there was much jealousy between Emma and Estacado. Estacado had a newspaper, and somebody advertised a tract of land for sale at \$4.50 per acre. An Emma booster wrote the newspaper, evidently a pretty hot letter, in which he informed the editor the tract of land adjoined Emma townsite, which fact the Estacado newspaper had failed to reveal, and the writer was hot because the fact was not stated.

There's a picture in the scrapbook of W. H. Henthorn, "The Lightning Tooth Extractor," announcing the "Mexican," as he called himself, would be in Stephenville. This brought memories to The Printer, because he remembers Dr. W. H. Henthorn, the itinerate dentist, who called himself an "Indian" when we knew him about 1909 or 1910.

"Doc" Henthorn was a colorful character, wore long hair down over his shoulders, a mustache, a Mexican sombrero, and colorful attire. When The Printer was a boy of about seven or eight years of age, we remember him on several occasions driving into old Roscoe with his "ambulance" (a covered hack) pulled by a team of horses, carrying a dentist's chair and other equipment. With eyes bugged out and mouth open,

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Paraphrasing an old saying, it can now be written "what politicians propose, bureaucrats often dispose."

Millions of words have been written and spoken on opportunity for the American negro.

But at least one enterprising, resourceful negro found his opportunity closed tight. He was thrown out onto the streets by a group that is commonly known by three letters. Those letters, however, are not KKK, but ICC, the Interstate Commerce Commission.

Joe Jones, Jr. is a 42 year old negro resident of Atlanta, Georgia, a disabled veteran, father of ten children, a man of character and initiative.

To make his own way, he was operating a mortgaged rig hauling chickens from Georgia poultry growers to northern markets. Agricultural product hauling is exempt from regulation by ICC.

However, in the north, it is not easy to find exempt cargo to haul back to Georgia, and it is expensive to return empty. So Joe Jones did something about it. He secured from the Small Business Administration a loan of \$25,000 to buy three trucks and engage on a larger scale in the industry in which he had been active for some 25 years.

He also secured from shippers letters attesting to the

fact that they needed the type of service he provided.

So Jones made application to ICC for a permit to operate. The big trucking combines immediately filed protests with ICC with the result that the bureau turned down the application from Joe Jones although his customers filed additional letters with the ICC saying that if the application was not granted, rather than attempt to use the other unsatisfactory shipping services they would follow the lead of many other firms and own and operate their own trucks.

The ICC, now caught in a bind, came up with the statement that it was felt that Joe Jones was not financially equipped for the economics of today's trucking business.

Then ICC officials suggested to him that he lease his trucks to some big outfit and take a job driving one of his own trucks for them.

But Jones insisted he wanted to run his own business, and he was supported in this stand by both Senators Richard Russell and Herman Talmadge.

But ICC stood firm, with the result that Joe Jones had to give up, some \$40,000 in debt. At this writing, nobody, but nobody, has done anything to correct this wrong.

The fact that Joe Jones Jr. is a negro is incidental. The important fact is that a government bureau can deny opportunity to any qualified, resourceful person of any color. Perhaps there should be a clause on all civil rights laws protecting all citizens from the bigotry of bureaucracy.

we remember listening to tales he liked to tell of the Old West. If a crowd gathered, he could put on a "medicine show." But, his vocation sometimes was pulling teeth, and he could pull them either in the "ambulance," in the dental chair out on the sidewalk, or in some office space he would acquire temporarily.

Once, "Doc" Henthorn helped W. L. Edmonson, the leading merchant, and some others stage a big celebration over at Lorraine that we remember as something special. He imported a tribe of Comanche Indians from Oklahoma, who set up teepees at Lorraine, enlisted many natives, and staged a great extravaganza featuring the coming of the settlers, a wagon train, and the attack by the Indians. This was pretty impressive to a kid who had just come to West Texas with his folks and had been told of the dangers of Indians in "wild and woolly West Texas."

We'll bet The News has something this week that no other Texas newspaper has. We have our State Queen of Texas Farm Bureau, Cherri Lee Norman, daughter of Mr. and Mrs. A. L. Norman of Grassland and a sophomore in Baylor University, substituting for our stand-by and right hand "man", Sue Tekell, who is on vacation. Incidentally, last week Cherri appeared with a short talk before the 5,000 boys at the Texas FFA convention in Austin on Thursday night, and on Friday night she appeared on the program at Floydada for the crowning of this year's Floyd county FB queen. She will crown the Lynn county Queen July 30, the district Queen August 18, and the State Queen, her successor, in Corpus Christi in November. In addition, she will crown several other county queens. Cherri says she's having a lot of fun, making new friends, and getting some experience meeting the public that she thinks will help her in future life. She is a charming girl, has a very pleasing personality, and her appearances are giving Lynn county and Tahoka some good publicity.

Joe Meador, a Lubbock visitor here last week said the Highway Department roadside park north of town is one of the most beautiful anywhere, is a fine asset to Tahoka, and is of great worth as a "welcome" to our town. He declared a picture of the park is being used to promote Texas Tourism.

Jack Huffmyer, now a Tulsa oil geologist, graduated from Tahoka High School in 1934, and still keeps up with a lot of old friends by correspondence with a classmate, Dr. Skiles Thomas. In a recent letter he enclosed the following "poem":

The Great Society

Farm Safety Week July 24-30

County Judge W. M. Mathis has officially proclaimed July 24-30, 1966, as Farm Safety Week in Lynn County, according to L. C. Unfred, president of the county Farm Bureau. The local farm organization is coordinating activities for the special farm safety campaign.

President Johnson and Governor Connally have previously designated that week on national and state levels as a period to call attention to worthwhile safety practices that can reduce disabling injuries and death.

The county farm leader said that the accidental death rate for farm residents has increased since 1961. "Your efforts are vital if this trend is to be reversed, and needless suffering and losses substantially reduced," Mr. Unfred continued. He emphasized that farming remains one of the most hazardous occupations in America today.

In his official proclamation, County Judge Mathis said: "All the citizens of Lynn county are deeply concerned about the safety and well-being of farm families from whom we receive our abun-

Mrs. Nettie Richards, 258 W. Grand Ave., Dayton, Ohio: "It is always great to get the news from home. I have lived in Wilson, Tahoka and O'Donnell."

A hunter rushed into camp one night and hollered: "Is John here?" His fellow hunters replied that John was in camp.

"Is Henry here?" The fellows said he was.

dance of food and other essential agricultural commodities. "Farm and ranch accidents reap a grim harvest of approximately 150 fatalities and thousands more suffer painful disabling injuries each year in Texas, plus the great economic loss, causes profound physical and psychological damage suffered by members of farm families that are involved."

"During this special week, a statewide farm accident prevention education program will be undertaken by the Texas Farm Bureau, the Texas Farm and Ranch Safety Council, the Texas Agricultural Extension Service, 4-H Clubs, the Texas Safety Association, Future Farmers and Future Homemakers of America, Young Farmers and Young Homemakers of Texas and the Lynn County Farm Bureau, with the theme "Safety Is Victory Over Accidents."

County Farm Bureau President Unfred said that a different phase of safety would be emphasized each day during the week; Sunday—reverence for life; Monday—safety begins at home; Tuesday—agricultural chemicals; Wednesday—prevent falls; Thursday—rural highway safety; Friday—farm machinery; Saturday—recreation safety.

Gordon-Southland News

(By Mrs. Edmund Wilke) A good good morning to you from your friends and neighbors of Southland. We are so happy to report that we got a nice rain this past Saturday afternoon.

First let me say that I made several mistakes in this column last week and I am sorry about them and want to correct them. I put in the paper that Robert Lee Hagler had surgery on Monday of last week and it should have read: T. J. Bradshaw, brother of Mrs. Robert Lee Hagler, underwent surgery on Monday.

Another correction is Mr. and Mrs. Jerry Kotrola are moving to San Antonio instead of to San Angelo.

Another correction - Marian Eckert has been visiting in Sweetwater instead of Marian Anderson. Mrs. Anderson is the grandmother of Marian, and I just put down the wrong name.

Mr. and Mrs. Ralph Motheral of Olustee, Okla., were Sunday dinner guests of Mr. and Mrs. G. D. Ellis. Mrs. Motheral and Mrs. Ellis are sisters. Also visiting were Mr. and Mrs. Ben Vernon from Lubbock and Mr. and Mrs. Sam Ellis of Southland.

We would like to extend our congratulations to Miss LaVerne Bredemeyer and Mr. Cecil Stolle who will be united in marriage on September 3 at the Calvary Lutheran Church in Sweetwater.

Jettie Crawford has been confined to Mercy Hospital in Slaton for several days, but might get to come home today (Monday).

We would like to extend our sincerest sympathies to Mr. and Mrs. Elmer Belk and family. Mrs. Belk's 18 year old nephew was killed in an accident at Albuquerque, N. M., on Saturday night, July 9, and was buried on Wednesday.

Mrs. M. E. Beck from Carlsbad, N. M., mother of Mrs. Elmer Belk, is still visiting with the Belks. Mrs. Bessie Becker and Mrs. Tommie Wilke attended a bridal shower in Wilson on Tuesday night in honor of Miss Patsy Shaw, bride-elect of Don Schneider.

Larry Wilke and Martha Blodgett from Lubbock and Mr. and Mrs. Gilbert Blodgett spent Saturday night and Sunday at Lometa and Grand Falls.

Mrs. J. F. Rackler visited in Lubbock on Friday with Mr. and Mrs. G. D. Rackler. On Friday night she spent the night with Mr. and Mrs. Claude Roper.

Saturday night supper guests in the home of Mrs. J. F. Rackler were Mr. and Mrs. Hardy Starnes, Steve and Alta from Pittsburg, Calif. Mrs. Starnes' daughter, Mrs. Maxwell and two little daughters from San Antonio, Miss Ora Mining and Mrs. Corinne Warren from Slaton, Mrs. Claude Roper and Mr. and Mrs. J. B. Rackler and Beverly.

Beverly Rackler spent Sunday in Lubbock in the home of Donna Hayslip.

Visiting with Mr. and Mrs. Wes Donahoo are two of their sons, Wilburn Donahoo from California and Odell Donahoo from Nebraska. Harold Wayne Donahoo and Mark Wayne from Lubbock visited the Donahoos on Sunday.

Mr. and Mrs. Herbert Dunn, Dayneen and Patsy returned Sunday from a nice vacation trip to Galveston, Houston, New Orleans, Memphis, and met were met by E. L. Dunn, their son, at Blythville, Ark. They watched E. L. make some parachute jumps and found it quite interesting. E. L. took Dayneen and Patsy up in an airplane, parachutes and all, and I think the girls got quite a bang out of it.

The Southland Baptist Church will be starting their revival on July 29th. Ted Bryant from Plainview will be doing the preaching and Billy Skipper from Abernathy will be the song leader. Everyone is invited, so keep this date in mind.

Mr. and Mrs. Jack Lancaster were here over the week end visiting their parents. On Sunday they were guests at the Baptist Church.

Mr. and Mrs. Tom Buchanan from Canyon visited with Mr. and Mrs. Jack Hargrove on Sunday.

Mrs. Docia Copeland, mother of Mrs. Jean Hargrove, is visiting in the Hargrove home.

Rural Accidents Reported For June

The Texas Highway Patrol investigated six accidents on rural highways in Lynn County during the month of June, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area.

These crashes resulted in three persons injured and an estimated property damage of \$2,860.00.

The rural traffic accident summary for this county during the first six months of 1966 shows a total of 48 accidents resulting in two persons killed, 18 persons injured, and an estimated property damage of \$24,175.00.

The number of traffic deaths in Texas continues to rise. For the first six months of 1966 there have been 1470 traffic deaths compared to 1325 traffic deaths for the first months of 1965. This 11% increase is very alarming, and chances are it will become very critical because of vacation months and holiday periods still ahead to intensify the magnitude of the accident picture.

The Sergeant stated, "It is estimated that at the end of 1966 traffic deaths in Texas will increase about 10% over 1965 which means approximately 3300 persons will be killed in traffic accidents." The Sergeant added one other comment, "To control accidents, we must first learn to control ourselves."

The U. S. Commerce Department has reported that the total debt in the American economy was up to \$1.3 trillion last year. Of the total, \$905.4 billion was private and \$362.1 billion public.

Lynn County Soil Conservation District News

The Great Plains Conservation Program differs from other programs directed at conserving soil and water. It requires the farmer or rancher to develop a complete long-range plan for making the needed changes in his land use or cropping system needed to conserve the soil and water resources.

Last year, which ended July 22, members of the Lynn County Soil and Water Conservation District entered into agreement under the Great Plains Program, says Donald Reed of the local Soil Conservation Service Office. Under the program last year 630,000 feet of parallel terraces were constructed and cost shared in the district. There were several thousand feet of diversions also installed.

Besides the terraces, says Reed, there were several acres of grass seeded for improved pastures and underground irrigation pipelines to improve irrigation systems.

There has been a large number of farmers making applications for assistance under the program this year. Therefore, anyone interested should make application in the near future because funds are limited.

Your local County Agent, SCS, ASC, or FHA representative or a member of your local board of soil conservation district supervisors may help you get further information on the Great Plains Conservation Program.

NEW HOME SENIORS ARE WANTING WORK

New Home Seniors are seeking odd jobs in the community to raise funds for the annual class trip next spring, according to Donnie Todd. He says they will do almost anything like mowing lawns, washing cars, cleaning house, and other odd jobs.

Also, they would appreciate people of the community contributing any extra coat hangers they can gather up.

Anyone wishing odd jobs performed should contact Miss Jarone Harris, class sponsor, phone 924-3353; Nancy Unfred, 924-3683; or Donnie Todd, 924-3365.

REV. McCLUNG WRITES FROM NEW PASTORATE

Dear Frank,

I want to tell you how much we are enjoying the Lynn County News. After seven years in a community it's hard to sever ties and move as far away as we have. The News helps us to keep track of happenings there.

As we get acclimated here we are enjoying mountain life. A couple of things might interest you:

One is the bear story I clipped from yesterday's local paper here. Maysville is a community near here where Burr Morrow from New Home used to own a ranch. The family mentioned in the article belongs to our church here.

The other news is fresh snow on the peak of Mt. Shavano (eight miles from our house). Heavy clouds hung up there all morning and when they moved on a fresh snow cover was visible.

Residents of Maysville who found overturned garbage cans this morning and wondered what happened last night will be glad to know the mystery has been solved.

Mr. and Mrs. Cecil Ritter and family were awakened around 2 a. m. this morning by a disturbance around their trash can and, getting up to investigate, looked out the window to see a 250 to 300 pound bear staring right back at them in the beam of their flashlight.

The entire family then arose to watch the bear who stood for several minutes before ambling back into the forest.

Thank you again for sending the paper.

Sincerely yours,
Paul McClung.

Judy Connolly is visiting this week in Hobbs, New Mexico, with Cynthia Wells. Cynthia was Judy's roommate at West Texas State University and will return for a short visit with Judy on Friday.
