Lynn County Schools Will Begin New Year Monday

School bells will ring Monday, August 29, in all Lynn county schools to begin the 1966-67 school term.

Registration was conducted this week in all the schools for most of the students, and faculty members held their annual pre-school workshops.

Tahoka—students—high school, junior, and North and South Elementary—have all registered, the first faculty meeting has been held, and preparations are complete for the opening day of school. Buses will make their regular routes Monday with the first bell to sound at 8:25 a. m.

J. B. Howell, principal of South Elementary, announces that first grade students will be dismissed at 1:00 p. m. each day for the first three weeks of school. A bus room will be available for students whose parents cannot pick them up.

Supt. W. S. Talley states New Home's faculty is complete, registration has been held, and classes begin on full schedule Monday at 8:25 a. m., dismissing at 3:46 p. m.

New Home junior high students will register Monday during the first class period, according to Doyle Pruitt, principal.

Junior high students, seventh and eighth grades, at Wilson did not have pre-registration, but will report to their rooms Monday, Aug. 29, announces Supt. Leroy Scott. Classes will begin at 8:40 a. m.

O'Donnell students registered this week and the faculty held its general meeting Wednesday. Charles Yarbrough is superintendent of the O'Donnell schools.

New Home Has Faculty Complete

Three new faculty members have been approved for the New Home schools, making the faculty complete for the beginning of school Monday, August 29, states W. S. Talley, superintendent.

Mrs. D. H. McGinley will teach a section of the first grade. She comes to New Home from Bala and is a graduate of Texas Tech.

Mrs. N. B. (Betty) Hancock, a resident of the New Home community, will teach fourth grade. The Tech graduate taught in the New Home school system in 1949.

Bob Ballard, a new Tech graduate, has been employed as the vocational agriculture teacher. This will be his first year to teach. The Rochester native is filling the vacancy left recently by Leonard Wilson, who resigned to become a faculty member in the agriculture department at West Texas State University, Canyon.

Members of the New Home faculty were holding their annual workshop Thursday and Friday of this week in preparation for the first day of school. High school students registered this week and junior high students will register Monday, August 29, during the first class period, according to Principal Doyle Pruitt.

Tahoka plays Lorenzo there to open the season on Sept. 9, and first game in Tahoka will be with Crosbyton on Sept. 16.

She will represent District II at the annual Texas Farm Bureau convention at Corpus Christi November 13.

Runnerup was Cindy Garvin, 15, granddaughter of Mr. and Mrs. R. D. Garvin of Abernathy. Ronnie Wood, son of Mr. and Mrs. Jack Wood of O'Donnell, was winner of the discussion meet which preceded the queen contest. Runnerup was the representative from Lubbock county, David McDougal.

Winner of the talent find was Linda Burleson, daughter of Mr. and Mrs. Loyd Nunley of New Home. Miss Burleson presented a solo. Mrs. Joe Taylor of Floyd county was runnerup in the talent event.

He closed his laundry Saturday of last week after having operated this business 24 years, five months and 10 days, and expects to dispose of his laundry equipment.

Soaking rains the past week have been declared about the finest ever at this time of year, many past records have been broken, crops will be materially benefited, and everyone was wearing a smile Thursday morning when the sun broke through the clouds the first time since Sunday morning.

Tahoka received only 2.51 inches of rain, according to official U. S. Weather Bureau gauge measurement, bringing the total for August to 3.82 inches, but much of the county received more than this.

Much of the New Home and Dixie areas received from six to 9 inches. Mrs. Florence Davies measured 7.2 inches, others there measured 8 inches, and Clarence Eades three miles northeast measured 9 inches. E. E. McManis, between New Home and Lakeview, said this was the most rain he had ever seen in August.

North of Newmore, A. W. Snider reported 6.8 inches, Jack Webb 7 inches, M. W. Weatherly 6.6 inches, Jack Hoskins, 5.5 inches.

Although rain was very heavy in places, damage to crops and land has been slight. Only losses will be in a few lakes.

Parts of the Draw area had received very light rain until Tuesday night when a good rain fell bringing the total for three days to 1.75 on up.

Most of the county received 2.5 up, however.

The rain filled in all the dry spots, and will be of tremendous benefit to many crops if warm dry weather follows, a strange statement to make in late August in Lynn county.

All-time August rainfall records doubtless were set in many areas of the county, as well as at Plains, where up to 10 or 11 inches fell, and Lubbock, where up to 8 or 9 inches were officially measured.

But, in Tahoka, the rainfall was not an August record. Total rainfall in Tahoka, officially, has been 3.82 so far this August.

In August, 1937, a record total in Tahoka was set with 7.24 inches. Last year, 3.39 fell in August, 2.37 of it on August 15.

Tahoka received 3.70 inches in August 1915, 3.75 in August 1934, and 4.26 in August 1935, to mention a few, but usually the Plains is very dry in August. Average rainfall for August in Tahoka is 1.88 inches.

Another record set for August in Tahoka has been temperature-wise. Maximum temperature for Tuesday was 58 degrees, an all-time low for August, and the next morning Wednesday, the temperature dropped to 54 degrees, another record low.

However, this is not a summer record, for on July 4, 1924, the temperature dropped to the low 40's.

Mist began falling mid-day Sunday, followed by rain, and by Monday morning 1.40 had fallen in Tahoka, .06 in mist and sprinkles by Tuesday morning, and another 1.03 by Wednesday morning, and then .02 before the sun broke out Thursday mid-morning.

Hamilton Writes About Farming In Nile Valley

Ed Hamilton wrote his wife early this week "We finally got out of the hot spot in Israel. We had war and then an airline pilot strike. At Galilee we witnessed an air battle on the sea. We were four miles from it. We saw the planes, heard the shooting, saw the plane burning."

He explained they finally got to Athens, Greece, when the Prime Minister of Israel let 140 tourists use his plane.

Following is the second installment of his description of the trip to the Holy Land; which The News has condensed greatly:

Cairo, Egypt. At the museum, we viewed merchandise taken from King Tut's tomb, which must have been something very elaborate. Two statues made of sycamore were painted black and had actual gold skirts. There was a lock of Mrs. Tut's hair; it had been preserved by putting inside a small box and then putting four more boxes over it, each box a little larger than the first. We take a picture of one of the 6 or 8 chariots taken from the tomb such as used in days B. C. in which a man stood and drove two horses in races. One discovery was the corpse which was in gold cas-

ket with a larger one over it. This was unearthed by the English in 1922.

I visited and took pictures of the bullrushes on the Nile River where Moses was hidden as an infant. Today, a much-traveled highway goes by the place, it is on the south side of Cairo some five miles from the Pyramids.

(He then tells about many boys begging for money that had to be run off by his taxi driver, and then the driver wanting extra money for the job. He tells of the two-wheel cars pulled by a mule or horse hauling produce house to house.)

The Nile valley is supposed to be the richest soil in the country. I saw some of the finest crops growing I have ever seen. Since the beginning of time, the Nile has overflowed each year at about the same time, depositing new soil over the ground for next year's crop fertilizer. They farm with horses, mules, donkeys, and camels. The soil is so fertile and the weather so tropical that they raise more than one crop a year—four crops on some kinds.

We went by train to Luxor, the Valley of the Kings, leaving at 7 p. m. in a sleeper with refrigerated air... a very comfortable trip... 450 miles up the Nile... only six towns between Cairo and Luxor... They raise cotton, corn, melons, squash, grain sorghum, and anything else they care to plant. The farms seem about 5 to 10 acres in size. Farmers live in small villages consisting of 30 to 50 families. Farming is done much the same as in the days of Moses—no tractors that I have seen.

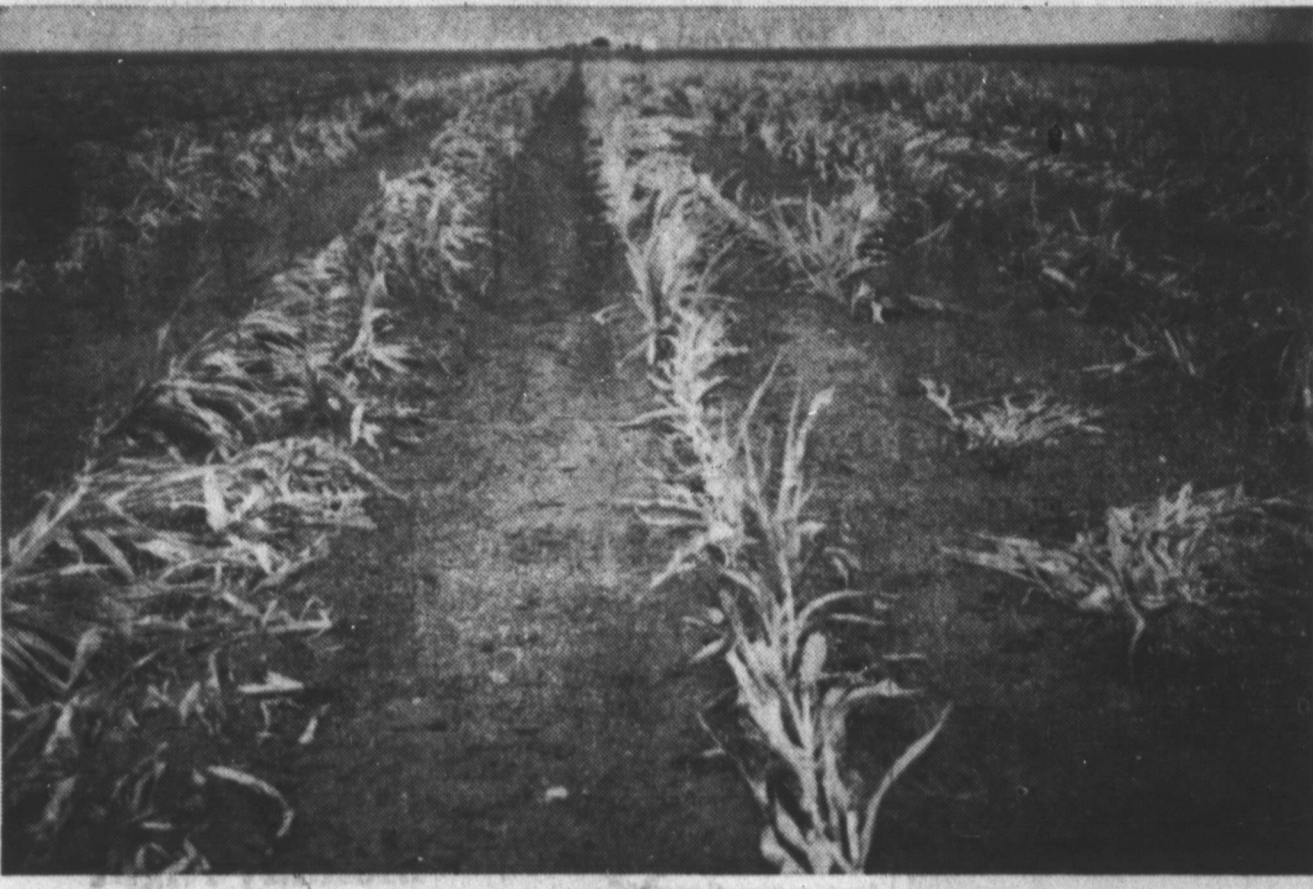

Water is drawn from the river by different means—one method is a group of containers pulled by a cow or donkey going around and around; another is a pole with a bucket on one end, a rock on the other, and the man moving from one end to the other. The methods seem very crude, but you could not argue with the results. They raise as fine crops as I've ever seen in a country that never gets under 50 degrees and has plenty of water and sunshine.

Some of the better homes are made of stone, a majority are made of what looks like mud and grass, some from cane stalks for outside walls and fodder or grass for roof.

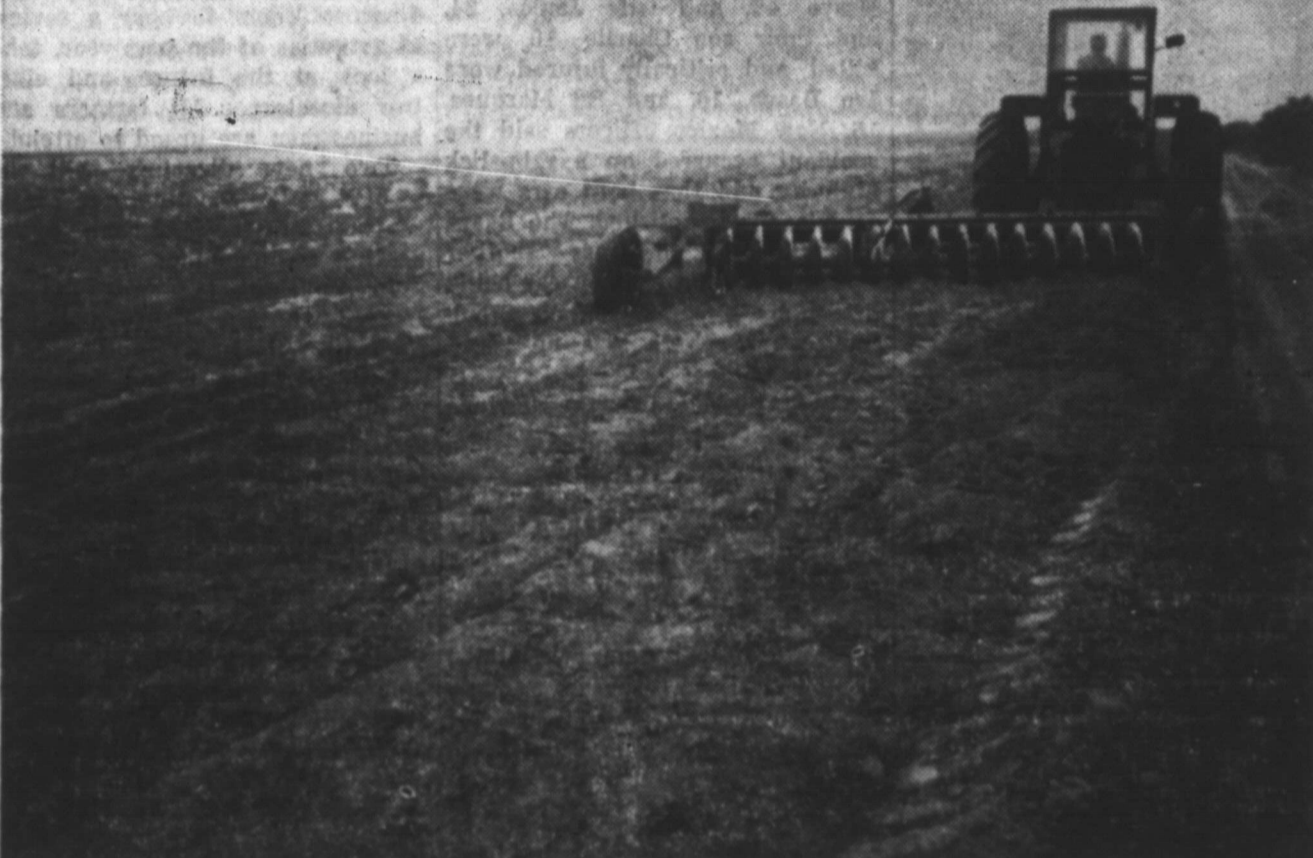

Luxor—I was surprised at the state of economy that exists here, practically no cars, and our conveyance was a single horse to a two-seated surrey in which we rode about a mile to the hotel.

Valley of the Kings is very hot and dry. I was told it rains only every 6 to 10 years and for only about 10 minutes then. This is where the old Egyptian Kings were entombed. We visited three

Good Land Management Will Help Prevent Blowing

Pictured above is a good example of how residue should be managed on land for wind erosion protection this winter and spring. Residues cut down on tillage operations needed during winter and help conserve moisture.

The above shows land plowed to blow this winter. Residues are destroyed. The only method to control blowing is tillage. Tillage is expensive and causes loss of moisture. Many times in a dry winter land can not be protected from blowing by tillage alone. (Photos courtesy Lynn County Soil Conservation District).

of the 64—the tombs of King Rameses, King Tut, and King Seti. They are in a mountain of solid rock, in which they made a room large enough to put what they thought the King would need when time was no more.

King Seti was supposed to have been King during the time of Moses. His tomb was in solid rock 200 feet down at an angle of 45 degrees, and there were several rooms about 12x14 feet in size.

The tomb of King Tut was about 12 feet wide by 12 high and 40 long. His body was not in a good state of preservation as he died at 19 of TB and he could not be embalmed properly.

I can't figure out how anybody would have the time to build some of the tombs that take so much labor. I had always heard that the buildings here were built by slave labor, but our guide said it was not that way. He said the people loved the kings so much that they would work for nothing.

This morning we saw a new irrigation project being put in, using hand labor, laborers carrying dirt in baskets. We are all financially interested in the irrigation project, as I think this is where our money on foreign aid is going. From the information I get, the government owns all the land, only rents to the tenants. I would like to know how many individual farmers there are in the Nile Valley. There are 43 million Egyptians.

Back in Cairo. We are going to Beirut in Lebanon.

CHARLEY MASON HOPES HE IS MAKING PROGRESS

Charley Mason, who returned two weeks ago from the Veterans' Hospital at Dallas where he was under treatment for three and a half weeks, says he has orders to do no work and he hopes for ultimate recovery.

Twice he has been to the hospital for treatment when blood clots formed in the back of his neck. He has little or no feeling in his left side, including his face, arm and leg, but with proper care the doctors hope the condition will heal.

Lynn County Soil Conservation District News

E. R. BLAKNEY HAROLD PAYNE
ELMER OWENS BOYD BARNES
JIGGS SWANN

Good rains this past week in the Lynn County Soil and Water Conservation District has given farmers a chance to plant winter cover crops on their land, says Blake E. Lovelace, Work Unit Conservationist with the Soil Conservation Service in Tahoka.

With the present moisture this is the best time of the year to plant crops such as rye, wheat and barley for cover. Planted now they will produce good growth before the weather gets cold enough to slow down or stop their growth.

Good growth of these crops means better soil protection from wind erosion and more organic material for soil improvement.

Land that needs cover crops are areas that have been summer-fallowed and are clean at this time of the year. This land will be hard to keep from blowing from now to planting time next spring without cover. The extra amount of tillage operations required in trying to control blowing on clean land will pay for planting the cover crop. Also land that has been bare all year needs

addition of residues to replace that lost during the year.

Terraces that have been diverted are also a good place to plant cover crops. They protect the terraces during the winter, if left on the rainy season in the spring they will protect the terraces during this season also. Some farmers mulch the residue when the crop matures for protection during all of the year. This method of protecting terraces requires less tillage operations and helps maintain effective height.

Jude Taylor Mules On Magazine Cover

"The good old days" are recalled on the August cover of the Southwestern Crop and Stock magazine—a team of mules, Pete and Jack, and a walking cultivator in a cotton field. The owner Jude Taylor, is shown standing near the front of the team.

Taylor operates a farm in the Newmoore community and actually uses the team some in the farming operation, on the 570-acre farm. He has tractor equipment, of course, to do the major jobs and uses the "hardtails" somewhat as a novelty. He said he has plowed as much as eight acres a day with them.

CENTRAL NEWS

(By Mrs. R. L. Craig)
Our fourth Sunday singing will be held at Central Baptist Church this Sunday from 2:30 until 4:00 p. m. Everyone is invited.

We keep getting rain—it's rained 3 inches since Sunday evening. In fact, we can say it has really rained when the frogs begin to holler.

All the school students are beginning to talk about school, and all are in a hurry getting ready for the new school term.

Mrs. Maudie Dobbs and Mrs. Thresa Thompson of Post visited Saturday with their sister, Mr. and Mrs. Jurd Young.

Mr. and Mrs. Robert Craig and family visited a while Sunday evening with the R. L. Craigs and brought some nice peaches, watermelons, corn, cantaloupes. How nice—many thanks.

Mr. and Mrs. Elmer Gray are back home from the West Texas Hospital of Lubbock. We are glad to hear they are back home again. Mr. Gray is some better.

Mrs. Craig's granddaughter, Cindy Craig, of Tahoka fell and broke her left wrist Saturday night while at the Hootenanny. Cindy was taken to a hospital in Lamesa where Dr. Smiley put her wrist in a cast. She is doing well at this time.

Mr. and Mrs. H. M. Thornton and family spent last week visiting their son and family, Jerry Thornton, wife and baby in Cove, Ark. They came back by way of Garland and visited their daughter and family, Mr. and Mrs. Wiley Lee Curry—a very enjoyable trip.

Mr. and Mrs. Jurd Young went to Roby Saturday afternoon and spent the night with Artie's two sisters, Alpha Davis and Carolyn Carroll. Sunday morning the Youngs attended church services at the new Church of Christ and that afternoon went to Rotan to attend the 50th wedding anniversary of Mr. and Mrs. Lonnie Weems—long time friends of the Youngs.

Mr. and Mrs. Richard Ray and son from Lubbock visited her parents, Mr. and Mrs. J. E. Ramsey Sunday and attended church at Central that morning.

Mr. and Mrs. Floyd Cline from Druver visited with Mr. and Mrs. Rual Smith Wednesday night and Thursday.

Mr. and Mrs. L. H. Mathis were visitors at Central Baptist Church for Sunday School and church services. We are always glad to have visitors.

Montie Huddleston returned home Saturday from Long Monte, Colo., where she had been visiting her sister, Mrs. Nona Hammond who had surgery recently. Montie reports her sister was doing well.

Mr. and Mrs. Victor Lindsey and family from Jal, N. M., visited last week with her sister and brother-in-law, Mr. and Mrs. Charlie Craig from Monday until Thursday morning.

Vera Fairweather from Lamesa spent a few days last week with her sister, the Dean Laws. Donnie Fairweather of Lamesa visited the Laws family a while Saturday evening and took his wife home.

Mr. and Mrs. James Bovossett and sons from Lubbock visited Saturday night in the home of Mr. and Mrs. J. H. Huddleston.

Joe Craig, son of Mr. and Mrs. Robert Craig, was taken to West Texas Hospital in Lubbock Monday evening. He underwent surgery Tuesday.

Mr. and Mrs. Charlie Craig and Mrs. Craig attended the Farmers Co-op meeting held Friday at Tahoka School Cafeteria. A barbecue lunch was served at noon and door prizes presented. Mrs. Craig won a prize, a tire for a pickup. It pays to be members and receive dividend checks.

Mrs. Craig received a letter last week from her son who is in Bangkok, Thailand. He thinks he will get to come home in December. Hulsey was graduated from Post High School. He would be glad to hear from his classmates. His address—Lt. Co. Law.

BIG FAMILY is that of Mr. and Mrs. Carl Williams, pictured above, as 44 members attended a reunion here last Friday, following which 31 members went to the Williams cabin at Lake Thomas for the week end and a Sunday noon barbecue. All the descendants and in-laws but one son-in-law, Lynn Davis, and one grandson are in the picture above. (Photo by Finney)

(By Mrs. Edmund Wilke)

"School days, school days, dear old golden rule days" is a familiar and well voiced saying around the community these days, because it is that time of year again.

The school will be open on Friday, August 26, for registering and classes will begin on Monday, August 29. In some ways this summer has gone by in a hurry and in other ways it has been a regular drag. Guess everyone is enjoying the good rain that we got yesterday (Sunday) and last night. We got 2 inches and it has rained off and on all morning.

Mr. and Mrs. Pete Kellum from Banning, Calif., visited Mrs. Nellie Mathis recently. They also visited with Mr. and Mrs. Walter Kellum of Slaton, and Mr. and Mrs. Walter Wilke of Dimmitt.

We are sorry to report that Mrs. F. E. Weaver has been confined to Mercy Hospital in Slaton. She suffered a stroke and was taken to the hospital a week ago last Saturday.

Sherri Wilke spent a week in Dimmitt visiting with her aunt and uncle, Mr. and Mrs. Walter Wilke and Dolores.

Mr. and Mrs. Elmer Belk and children are spending several days in Carlsbad, N. M. visiting her parents, Mr. and Mrs. M. E. Beck.

We would like to congratulate Miss Benny Chandler and Harvey Louis Pennell, who will be united in marriage on September 2. May they have a long and blessed marriage.

Mr. and Mrs. Jerry Pennell and Kim, Harvey Louis Pennell and Bennie Chandler all of Lubbock, and Mr. and Mrs. Kenneth Callaway and children of Southland visited in the home of Mr. and Mrs. D. D. Pennell on Sunday.

Mrs. Opal Pennell visited with Mrs. Lee Fredrickson out at Reese Air Force Hospital on Sunday. Lee is doing pretty good and may be moved to Colonial Nursing Home in Lubbock sometime this week.

Mrs. Mitchell Malouf Jr. and children from Plainview visited in the D. D. Pennell home the first part of the week.

Visiting in the home of Mr. and Mrs. James Mason on Saturday was Mr. Elmer Perdue of Washington D. C. Mr. Perdue is with the Department of Agriculture and makes yearly inspection tours of Co-op Oil Mills in the southwest. Every year when he is in this part of the country he comes by or calls the Masons. The Co-op Oil Mill in Lubbock is one of the main mills that he visits.

Mike Mason returned this week from Orange where he had been visiting friends for a week. While there, he learned to surf, and he thinks it is more fun!

Mr. and Mrs. W. S. (Skip) Taylor returned home Sunday after a week's visit with relatives in Abilene and Stephenville.

Cut-Off Date For Irrigation Is Here

Cotton irrigation will soon end for this season over the South Plains as producers comply with the water "cut-off" dates suggested for both efficient water use and production of quality fiber.

August 20 is the recommended cut-off date for the northern portion of the High Plains cotton production region, says Extension Irrigation Specialist Bill Lyle, of Lubbock.

The recommended cut-off date is August 25 for the central part of the area and September 1 for the south part, he says.

The cut-off times have been established from research on cotton's growth pattern and from data on first-frost dates and expected rainfall.

Quality of late-watered cotton is consistently reduced by a top crop of bolls with low micronaire values and poorer spinning characteristics, Lyle said.

Average first-frost date is October 22 in the north part of the area, November 1 in the central part and November 10 in the south part. The irrigation specialist said the cooler temperatures that preceded frost slow cotton development.

September rainfall averages about 2.30 inches and it will usually supply enough moisture for the crops final development, according to scientists at the South Plains Research and Extension Center near Lubbock.

Mr. and Mrs. W. S. (Skip) Taylor returned home Sunday after a week's visit with relatives in Abilene and Stephenville.

Proposed CONSTITUTIONAL AMENDMENT NUMBER TWELVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 48 proposing an Amendment to Article IX of the Constitution of the State of Texas, providing the method of hospital districts created under Article IX of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas be amended to read as follows:

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer of the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all

the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxing electors thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxing voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute for:

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

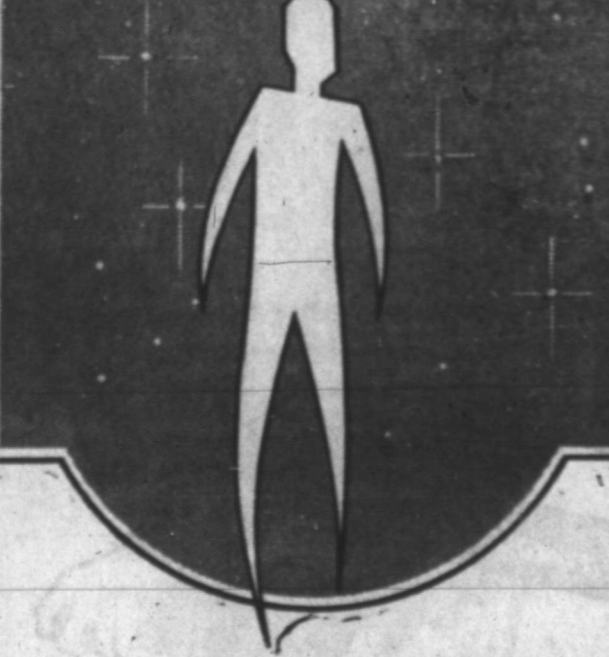

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts."

"AGAINST the constitutional amendment providing the method and manner for dissolution of hospital districts."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

Local Folk In Plainview Blast

Six Tahoka people were slightly injured Monday night in the explosion which wrecked the Church of God in Christ building at Plainview Monday night, killing one and injuring 53 others of the 200 Negroes attending a district meet ing.

Those from Tahoka were Elder and Mrs. Johnny Evans, Mr. and Mrs. Tommy Lee Graves, and Mr. and Mrs. James Scott.

Tommy Graves had two teeth knocked out and received a bruised hip, and his wife, Shirley received body bruises. James Scott had a cut on his forehead, and his wife, Dorothy, received a bruised leg. Elder Evans and wife also had body bruises.

Shirley Graves was pinned under some church benches and had to be pulled out.

Mrs. Ennis A. (Mother) Dukes of Pampa, district auxiliary president, was killed in the explosion.

The tile building was completely destroyed by what is believed to have been an explosion caused by an accumulation of gas under the floor from a leaky line, set off when an electric organ started playing.

Mrs. Shirley Graves says she distinctly saw a streak of fire flash across the rear of the building.

The three women told The News they were literally lifted into the air and came down among the wreckage. The piano was blown clear from the building. They say "the hand of God" must have been on the packed building because they think it miraculous no more were killed.

Coach Reviews Bulldog Football Candidates

Coach Don Smith reviewed Tahoka's football personnel and season prospects in a talk at the Rotary Club Thursday noon of last week.

Coach Smith declares his squad is very short on reserves and he is disappointed that there were not more boys out for the team this year. Uniforms were issued to 43 boys, including 11 lettermen, whereas he had expected 50 to 55, among them some boys capable of making the team. But, a few have seen fit to drop out before the first week of practice was up, in spite of the fact the workouts have not been as hard as last year. He hopes a few more will report at school opening.

He thinks parents should encourage their boys to play football, that they need to take a tougher attitude. "If boys don't learn to take the hard knocks now, they may not be able to take them later in life," he declared. Besides, it's better for a boy to be busy in sports than to be loafing around the halls, hootrodding and maybe getting hurt or in trouble, he said.

Coach Smith thinks he has the possible nucleus of a fine team if no one gets sick or hurt, but will be handicapped by reason of lack of speed and experienced reserves. Loss of 12 seniors by graduation has to hurt a team.

Whereas only two formations were used last year, about 10 will be used this year, there will be a lot of motion, some pitch-outs, and the team could put on an interesting show for fans.

If he can stay well, Quarterback Mitchell Williams, 165-pound senior letterman, should have a fine year. But, he may be pressed by Charley Brown, 150, sophomore, who has a lot of desire. Mitch is a fine passer if some good receivers can be developed.

Larry Arnold, 165, sophomore, was the only fullback candidate last week and has good prospects. The coach had hoped to have Mike Chandler, 175, a rugged senior, or Ray Chapa, 155, a freshman with great potential, but Chandler decided to work instead and Chapa's parents didn't want him to play. Jerry Jolly, 150, a senior ineligible last year, is expected to see action at fullback and wingback.

At the running back slot, Cliff Thomas, 185, junior letterman, could be an all-state candidate and is expected to be one of the best backs in the district. Doyle Schneider, 152, junior squadman,

is expected to be the wingback and is potentially a fine runner. John Tyler, who has gained weight from 105 to 132, a junior, one of the toughest boys on the squad, pound for pound, may alternate at quarterback, wingback, halfback, split end, and on defense.

At weakside tackle, Jodie Edwards, 175, sophomore letterman, is expected to have a fine season. He will be backed up by Joel Inklebarger, 180, sophomore letterman, one of the most improved boys on the squad.

Strong tackle will be Tommy Kidwell, 183, junior letterman, who can be real rugged. Behind him is Billy Curry, 150, a sophomore with a lot of desire and hustle.

Weak-side guard will be Richard White, 178, junior letterman and another greatly improved boy with good attitude, and backing him is his brother, Randy White, 150, sophomore.

Milton Edwards, 220, senior, all-district and all-South Plains, will be the strongside guard and great things are expected from him. Backing Edwards is Gary Gunnels, 160, junior, who has fine potential and is very rugged but did not play last year.

Chris Roberts, 150, junior letterman, will start at split end and also has great desire. Wayne Thurman, 165, senior letterman, will be at the tight end and he should come through this year with improvement. He is backed up by Buz Owens, 140, a junior.

Gary Brooks, 182, senior letterman, is expected to come through at center. Another rugged boy out for the position is David Schuknecht, 172, a junior who did not play last year.

There are other boys with fine potential for this year and coming years who may come through, Coach Smith says.

Strongest point of the team should be the interior line, which will be the key to the success or failure of the new formations being used this year.

Warren Embree, program chairman, introduced Coach Smith, who played under Chesty Walker at Phillips High 1952-54, under Bear Bryant at Texas A&M 1955-58, was an A&M assistant a year, then an assistant at Monterey in Lubbock five years before coming to Tahoka last year.

Farmers Co-op Pays Dividend

About 600 people were fed 1100 pounds of beef and all the trimmings at the 37th annual membership meeting of Farmers Cooperative Association No. 1 of Tahoka held Friday in the school cafeteria.

But, most welcomed by farmers was the issuance of checks on net margins and stock retirement totaling \$213,000, of which \$108,000 was from the gin and \$107,000 from regional cooperatives.

Manager Curtis Stevens reports last year was the gin's biggest, as 18,707 bales were processed and net margins were \$11.82 per bale ginned.

President Cleve Littlepage said he was proud of the gin's progress in running assets to \$620,578.85 while debt to the Houston Bank for Cooperatives has been cut to \$62,110.68.

Robert Edwards was re-elected to the board, and Elmer McAllister was elected a new member to replace E. D. Howell, who is retiring from the board. Other board members include R. L. Warren, Daniel Thomas, Othell Meeks, and Charlie Lichey.

Mr. Littlepage served as master of ceremonies, Mr. Stevens gave the manager's report, and Robert Warren presented resolutions of respect to two departed members, M. H. Brasher and Lewis Allsup.

Brief reports were presented on the year's operation and returns from regional cooperatives. Mr. Meeks reported on the Compress and Marketing Association, and Mr. Stevens on the Oil Mill and Seed Growers Association, a new operation.

Special tribute was paid to three men, Elmer Sproles, C. E. (Bunk) Chandler, and "Red" Denzy, who have since about 1938 prepared

signed, on the board of directors. Dr. Emil Prohl introduced the summer student guest, Miss Claudia Barda from Milano, Italy.

Collier Is Honored At TPA Banquet

Bob Collier, outgoing president of Texas Pharmaceutical Association, was honored Saturday night at the closing banquet of the annual meeting held in El Paso.

As honoree at the banquet, he was presented a plaque in recognition of his service to TPA. Also, he was announced as winner of the A. H. Robbins Hygia award for "outstanding service to pharmacy in Texas" for the year, and will receive an all expense-paid trip to Virginia in October.

In addition to operating the Bob Collier store in Post, he is a partner in Collier-Parker Pharmacy in Tahoka along with his sister-in-law, Mrs. Coye Collier, and Dayton Parker.

Also attending the convention were Bob's wife, Miss Lucille Collier, Mrs. Coye Collier and son, Jack.

The late Wynne Collier was TPA president in 1956-57, and this is possibly the first time brothers have served as head of the state organization.

The barbecue for the meeting, termed among the best served anywhere. The three have served a total of more than 80 years.

During the meal, music was furnished by a string band composed of Leighton Knox, H. C. and Rocky Gribble, and Hugh Jack Norwood.

Terry Reunion This Saturday

The sixth annual reunion of the Terry County Pioneers Association is scheduled to be held in Brownfield on Saturday, August 27. The affair will be held at the American Legion Hall, located at 800 Seagraves Road, and registration will begin at 8:00 a. m.

Present members of the association, who now number about 500, as well as former residents and their children who have lived in Terry County for 40 years or more, are invited to attend and bring a picnic lunch. All persons who qualify for membership are especially urged to attend and register, as this organization affords an excellent opportunity to renew acquaintances, meet new friends, and reminisce about the pioneer days in Terry County.

CARAWAY VISITORS

Mr. and Mrs. LaVaughn "Seabiscuit" Caraway and three children of El Paso and Mr. and Mrs. Don Caraway and daughter of Hamilton were here last week end visiting the two men's parents, Mr. and Mrs. Cecil Caraway, "Seabiscuit," who got here in time to attend the gin barbecue, expects to be transferred to San Francisco this fall. Don is stockfarming near Hamilton.

Daughter, Son of Couple Who Died Here In 1918 Get Death Details

Two orphan children of the late Mr. and Mrs. John S. Preston, who died at Tahoka in April, 1918, now have some information on the death and burial of their parents.

A few weeks ago, Mrs. C. R. (Nora) Gammon, 1533 Connally Terrace, Arlington, Texas, set out to find out something about the parents so that she and her brother, Ray Preston, might erect a suitable monument in Tahoka Cemetery to their memory.

An inquiry to Tahoka Ministers' Association came into the hands of Mrs. Betty Curry, secretary at First Baptist Church, and she and her husband, Rogers, found the information desired in the files of The News.

Sallie Bett Sherrill Preston, age 40, born in Alabama, died here on April 15, 1918. Her husband, John S. Preston, age 43, born at Valley Mills, died nine days later, on April 24, 1918. They left two small children, Nora and Ray, who were taken away, presumably to

Buckner Orphans Home by two Mr. Preston's brothers, Boardman and Judson.

Mrs. Preston was a member of the Methodist Church and Mr. Preston of the Baptist. Obituaries in The News were written by Rev. R. F. Dunn, Methodist pastor.

In a letter to Mrs. Curry, Mrs. Gammon says she was 9 years old at the time of her parents' death, her brother was 12, and she recalls "The people of Tahoka were most kind to me and my brother, and families named Redwine, Reed and Nowlin are the ones I remember."

These Prestons were some relation to the late I. C. Prestons of Tahoka and their children, Mary, Margaret, Esther, Annie and Loyd.

Mrs. Borger, her husband and their 4 children stay delightfully cool during the hot summer months—thanks to their electric air conditioner. The News, along with other newspapers, receives periodic letters from FBI Director J. Edgar Hoover, who is a fixture in our United States government that no one, to date, has been able to discredit or accuse of playing politics with much degree of success. Anyway, Mr. Hoover, in his latest report, says crime in the U. S. increased 6 percent in 1965 over 1964, that crime in our country has risen 46 percent since 1960, and is due to show a tremendous increase in 1966. Although he doesn't say so in so many words, Mr. Hoover hints strongly that crime increase may be attributed at least in part to the encouragement by "high-ups" given depressed people to march, protest and riot, to take the law in their own hands, and restrictions being placed on officers of the law and the courts by Supreme Court edicts.

Not long ago, Northern do-gooders were coming South to crusade, instigate trouble, marches and riots, hate. But, now the "chickens are coming home to roost." Northern cities are exercised because Negroes are demanding equal treatment. Even Rev. Martin Luther King stated there was no place in the South where conditions were so bad (for the Negro) as in Chicago. But, King operates on the thesis that it is right for one to violate a law he does not agree with.

to let their youngsters take "the easy way"—a car or motorcycle, a pocket full of money, idle time, and maybe-so trouble. Seagraves has 65 boys out for the team, Crosbyton 52, Tahoka 40, but a lot of other schools over the area are also reporting a light turn-out of boys for football.

Denver City schools has some stiff regulations as to dress and grooming of students, and no student will be admitted to school next week who does not meet standards. Girls must wear dresses or skirts and blouses designed not to attract undue attention, boys' clothes must be worn in keeping with those worn by gentlemen, no odd regalia or tight-fitting clothes, and there will be no hair of either boys or girls dyed an unnatural color and no wierd haircuts or hair-dos that attract undue attention. School is for learning, not for show-offs, wierdies, beatniks, glamour queens, and the like. School is for educating young ladies and gentlemen in a wholesome environment, and no foolishness in unusual or daring dress, hair-dos, make-up, or actions will be tolerated. Hooray for Denver City!

A lot of us miss old Jake Leedy. A little bit of Tahoka died with the passing of Jake—a little bit died when he moved away about 20 years ago. You couldn't say Jake was a great man, a successful man, or one to point out as an example to follow. But, he had his good points. He would give his last penny to any person in need, then go hungry himself. He had ideas—original ideas—and some of them worked, although he never harnessed many to the dollar sign. He had a sense of humor, was the originator of countless practical jokes that were inoffensive, and he enjoyed life to the fullest. He imparted cheer, good-will, and humor to others. You couldn't help liking Jake Leedy.

John Slover found a porcupine dead on the highway near his home last week, killed by a car. He said that was the second porcupine he had ever seen in this county.

Moody Courier calls attention to the fact times have changed in agriculture with this illustration. In 1901, 18 men were required to thresh grain. All grain had to be cut by a binder, shocked, loaded on wagons and hauled to the thresher, operated by a steam engine, and several men required to operate the thresher. Nowaday, one man can operate a combine that required 18 men 65 years or less ago.

Mrs. Etta Lorene Reid calls attention to the fact that we missed one interesting nick-name right under our nose—that of "Happy" Smith.

Ralph Aldridge of Loop says Lynn county has no better citizen than Joe Durham. "The bread man." In spite of living in Lubbock, old Joe is one of the biggest boosters for the area he serves, is always ready to lend a helping hand in any Lynn county project, and is usually at the right place at the right time. We agree! So, here's a flower for Joe Durham!

Someone else, we've forgotten who, asked us to give the Highway maintenance crews a pat on the back for the newly-mowed clean appearance of US 87 from Tahoka to the Lubbock county line. We have noticed this, too, and were impressed.

Ward Eakin brought The News some Holland apples raised at the farm this year that are as fine as one ever saw coming from Washington or any other apple producing country. With a little care and spraying to prevent worms, the finest of apples may be raised here.

Roy Botkin Has Large Carrot Crop

Roy Botkin, who lives in Hereford but farms about 900 acres of irrigated land southwest of there, sent by his parents, Mr. and Mrs. V. L. Botkin, to The News a bag of carrots and a "pod" of Japanese okra.

The "pod" of okra was 34 inches long, 9 inches in diameter, and looked and smelled a little like a cucumber. But, when sliced, dipped in batter, and fried the vegetable was delicious.

Vester says Roy had 60 acres of carrots which were harvesting 15 tons to the acre. He also raises some other vegetables in addition to cotton, milo, and wheat.

SERVING IN TURKEY

Mrs. Dorothy Gandy reports her son, James L. Brown, has gone to Turkey for a tour of duty in the U. S. Army.

The Printer also has received a big sack of the finest peaches one ever saw from Mrs. Anton Ahrens of Wilson. Her son, Edgar H. Ahrens, says they have several fine trees loaded with peaches they are canning, putting in deep freeze, and might even have a few to sell. There's nothing we like better and get less of than peaches.

Bertice Askew clipped this from the Palo Pinto News: A lone cowboy riding across the range comes upon a grave. Dismounting, he read with interest the epitaph on the tombstone: "As I am now you soon will be; prepare, dear friend, to follow me." The cowboy scratched his head and pondered for awhile. Finally, he took a rock and scratched the following under the epitaph: "To follow you I am not content unless I knew which way you went."

Letters From News Readers

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

Dear Editor,

Many thoughts crossed my mind as I read the "Letters From News Readers" column containing the article entitled "Vanishing Americanism." As I read these words by an anonymous author, I began to ask myself this question, "Is there anything good about our America today?" There is no great difficulty in seeing our problems and inadequacies. Neither is it hard to be negative and critical. Some are so committed that they feel disloyal if they criticize their country's policies. This is shortsightedness. Some are critical without being committed. This produces a pessimistic and negative attitude. The proper perspective in any attitude is to be first fully committed to a cause and then critical. Only with this attitude can we be wholesome in our analysis.

Whatever is wrong with America, there is much which is still right about her. So with our leaders. All politicians are not crooked and deceitful. Many of our leaders are men of strength and virtue. And it is up to the voter to decide who is best qualified to serve our nation. Too, we should pray for our leaders, and "do unto them as we would have them do unto us" if we were in their positions.

Even with all of America's faults, she is still the greatest nation on earth. She is still the land

of the free and the home of the brave. I am very thankful that God permitted me to be born and reared in America. To Him I am grateful for the opportunity to bring up my family in this sweet land of liberty. When nighttime comes and I hold either of my three children in my arms to lay them upon their beds, I know they have a full stomach. And I also know that the other half of the world's parents may hear their children cry for food, but there is none to give them.

I go to an untroubled sleep at night because I know I live in the most protected nation in the world. And when I awake I know I am free to publicly agree or disagree with our leaders and their policies. I can speak or write these attitudes. I can also publicly express either my belief or unbelief in God.

These things and many more are realities because I live in America. But with the recognition of all these privileges, comes also the overwhelming knowledge of my responsibility to so relate myself to God, family, and country that America shall become a bet-

Ruel Smith Raises Huge Cucumbers

Ruel Smith of the Central area brought a cucumber to The News office Monday that should take the championship.

This one cucumber was 36 inches long, 12 inches in diameter, and weighed four pounds. He said he had another at home 32 inches long.

However, this was some special variety Ruel didn't know the name for, but the seed was sent his wife by Mrs. Raymond Gerner of San Angelo.

What to do while the line is busy

1 Take for granted that whoever is talking on the line will hang up soon.

2 Hope that no one left his receiver carelessly off the hook.

3 Think about how reliable a telephone connection is once you get it. And how Gen Tel is constantly at work to modernize and improve service.

4 Be patient. After all, you may have talked for 20 or 30 minutes once yourself. So decide not to call the telephone company to report an out-of-order phone.

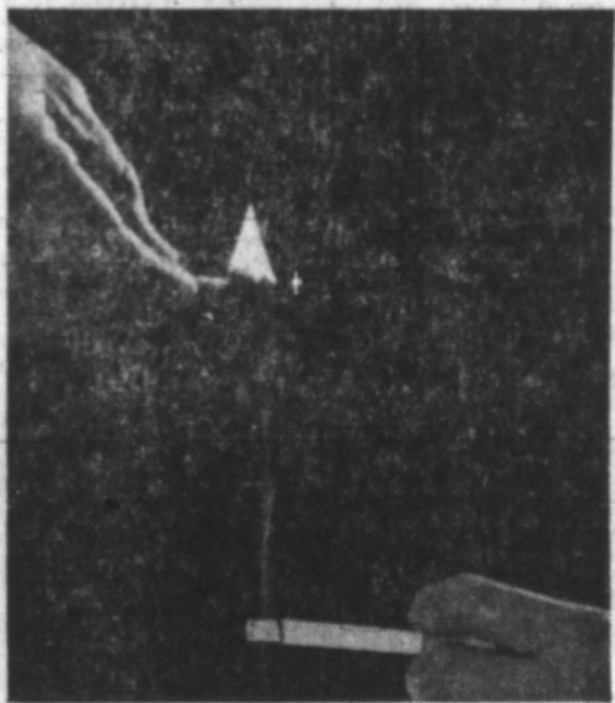

5 Think again about trouble-free telephone service. Then, when you get a line, think of the other party, too.

Testing... 1-2-3-

1. Take a lighted cigarette.
2. Hold a match flame in path of smoke.
3. Watch smoke disappear.

This simple test shows why GAS cooking is cleaner. The flame consumes smoke. It means you can enjoy smokeless, closed-door broiling with GAS. Put a modern GAS range to any test. You'll find it can't be equalled.
