## School Enrollment Near To Last Year

All Lynn county schools opened Monday on schedule with enrollments virtually the same as last year but short a few teachers.

Tahoka had a total enrollment 1,002 the first two days, up about 17 from last year. O'Donnell reported 625, and New Home and Wilson reported "about the same" as opening last year.

Supt. Harold Reynolds reported Wednesday that Tahoka is still looking for a high school science and girls physical education teacher, O'Donnell and Wilson were each short one teacher, but New Home had a complete faculty.

Principal J. B. Howell reported 326 enrolled at South Elementary, 136 in the first grade, 103 in the second, 88 in the third, and seven in a new Special Education class.

At North Elementary, Principal Floyd Tubb reported 281 students, 106 in the fourth, 97 in the fifth, and 78 in the sixth.

High School enrollment represents a drop of nine from first three days of last year.

Enrollment is expected to increase slightly in the next few weeks.

One long-time member of the North Elementary faculty, Mrs. T. L. (Velma) Gill, is retiring, and her resignation was accepted at a meeting of the school board last Thursday night.

Mrs. Leona Waldrip was hired to teach a first grade section. She has taught in the school before.

The board adopted the budget for the coming year 1966-67, set at \$526,495. District valuation is \$13,512,958, and the tax rate is \$1.70, of which \$1.18 is maintenance tax and 52 cents for bond service. The budget is based on 96 percent tax collections.

Not included in the budget is the Title I Federal program, for which application has been made for \$37,292, of which \$4,914 is for administration and \$32,378 is for instruction.

### PCG Directors Elected Monday

New Lynn county directors were elected and work of the past year by Plains Cotton Growers, Inc., was reviewed at a meeting of Lynn farmers and businessmen here Monday night.

Ardis Pace, manager of Wells gin, was elected the businessman director, and Joe D. Unfred of New Home was elected the cotton farmer member to represent Lynn county in the 23-county organization.

Pace will serve for one year, Unfred for two years, and in the future producer directors will be elected on even years and businessmen directors on odd years, each to serve a two-year term.

Bertice Askew, county chairman, who served as chairman of the meeting, was re-elected.

Ed Dean of PCG gave a breakdown of expenditures the past year in reporting on the body's activities.

Unfred presented an interesting talk on the Texas Water Plan.

### Water Hearing Set In Lubbock

Final hearing on the Texas Water Plan as it affects West Texas will be held in Lubbock Friday, Sept. 9, at Municipal Auditorium on Tech campus beginning at 9:30 a. m., announces Joe G. Moore Jr. of Austin, executive director of the Texas Water Development Board.

The meeting is open to the public, and those desiring to testify should, if possible, present written statements of their testimony. There will be opportunity, however, to speak extemporaneously.

The plan virtually leaves West Texas out of the gigantic program.

Joe D. Unfred of the Water Committee of Plains Cotton Growers, Inc., in testifying at the recent Wichita Falls hearing, pointed out that 23 Plains counties produce almost half the cotton grown in Texas and about one-eighth of the cotton grown in the nation, in addition to other crops of grain sorghum, wheat, soybeans, castors, vegetables, etc.

He made a plea for a water plan of benefit to the entire state, not one which leaves West Texas out of the picture, and one which would benefit land already in production rather than for new farm areas in South Texas.

In the Texas Water Plan, West Texas is left largely to rustle for itself in getting waters diverted from other states, which may or may not be possible.

Joe B. Pate Jr., also of the PCG water committee, testified in similar manner at the Amarillo hearing Wednesday of last week.

### City Is Sprayed For Mosquitoes

City of Tahoka sprayed the town Tuesday night to kill adult mosquitoes.

Dr. Skiles Thomas suggests that citizens take further precautions by emptying cans and other containers filled by rain and pour kerosene on stagnant pools to help prevent more mosquitoes hatching out.

### More rains, damaging hail and wind have visited Lynn county the past week making this one of the most unusual Augusts on record. For the most part, crops are excellent, and farmers only wish for hot, dry weather—believe it or not.

Tahoka had only .25 inch Sunday and Monday, another .36 on Wednesday afternoon, bringing total rain for August to 4.43 inches. But, many areas of the county have had much more than this, some claiming up to 12 inches or more.

A Sunday night storm wiped out or badly damaged crops over several sections of land in two areas, generally from T-Bar to O'Donnell and from east of Draw south to the Borden county line. High winds also blew down ripening milo in parts of the T-Bar, O'Donnell, Wells, and Newmoore areas, and blew down some outhouses.

Most severe hail damage extended from about the Fred McGinty section seven miles south of Tahoka west and south, wiping out crops of the Draper brothers, the McKibben section, parts of the Dan Curry and Albert Curry crops, Horace Strickland, the Darman, Leverett, McMillan, Childress, and others. The hail area extended almost to O'Donnell.

O'Donnell had three inches of rain, and a number of farmers reported from two to five inches northwest of there, also six to seven miles southeast and south of Tahoka.

Several outhouses were blown away, some roofs beaten or blown off, trees uprooted, and maize blown down in the southwestern area.

East of Draw, the situation was almost as bad but possibly the hail territory was not quite so large.

Crops were reported destroyed or badly damaged by Gus Sherrill, Clyde Childress, Louis Pierce, Raymond Crain, J. H. Proctor, Julian Pirtle, J. C. Durham, parts of the James Brookshire and L. D. Parker crops. W. E. Pierce on the Calloway section on the Borden county line said he lost 137 acres of cotton.

Southeast of Wilson lighter hail damage was done to the A. N. Crowson and Preston Hall crops on the May Estate lands.

Torrential rains caused U. S. Hwy. 87 to be closed a few hours by water rushing over the paving at the Fred McGinty and Cleve Littlepage places.

C. E. Birdwell, six miles southeast of Tahoka, reported 3.7 inches of rain in an hour and 20 minutes, and said the lake there is the fullest he has seen it in 17 years.

North of Newmoore, A. W. Snider reported three inches and J. F. Brandon Jr. two inches.

# Bulldog Prospects Are Encouraging

Tahoka Bulldogs, who got back on the victory trail in 1965 after a drought of several years, give promise of improving on last year's 6-3-1 record.

A crowd of fans turned out Friday night to watch the Bulldogs scrimmage Ralls Jackrabbits and were pleased with what they saw, in spite of some ragged play as is expected in early workouts.

The Bulldogs open with Lorenzo Hornets there Friday night of next week, but first home game is not until Sept. 16, when Deane Wright brings his tough Crosbyton Chiefs to Tahoka.

Coach Don Smith has 11 returning lettermen, only six of them seniors, but lost 12 by graduation from last year's team, several of them key boys.

Although very short on replacements, some of the reserves looked good against Ralls and gave heart to fans.

Tahoka has a tougher schedule than last year. Post Antelopes return to the Bulldogs' schedule, replacing Freshin, in a non-conference game. Kress Kangaroos, another tough outfit, comes here in the last non-conference set.

Then, Tahoka opens with some more Bulldogs, the Coahoma boys, new in District 5-A, who hopped Plains 52 to 14 last year after Plains had taken Tahoka 35 to 12. Coahoma lost nearly all its first string and its coaches, but with 60 or 70 boys out for football it is bound to be strong again.

Wink and Stanton are both out of this district, but Seagraves has 65 boys out and defeated Wink handily in a scrimmage, and Plains figures to be strong again.

Coach Smith is assisted by Jim Littlefield, both from A&M and in their second year, and have additional coaching help from two new men, Robert Ryan from Hardin-Simmons and Cecil Robinson from McMurry.

This week the squad had increased to 46 boys.

Tahoka schedule follows:

# GRASSLAND NEWS

(By Mrs. O. H. Hoover)  
We want to extend our sincere sympathy to the family of Rollin McCord on his death. May God in His infinite mercy and love comfort and care for you.

My what a rain. The fall varied from 1 1/4 to 3.2 inches, and the electrical display was terrific. The lightning hit my TV and knocked it out. No hail here, but at Draw, it hailed several farmers out, including Mrs. A. Z. Sewell and Gus Sherrill. I was unable to get an exact amount because of the phone service. They also got 3.2 inches of rain.

Won't be much news this week — it's all wet.

The Jim Norman family has been on vacation. Monday they drove to LBJ Lake and fished a while, then on to Six Flags for a tour of the fun spots, then sight-seeing the rest of the week. They came home Saturday.

Dr. Ted Fridmore's ship docked in New York and as he has two weeks between assignments, he came to Grassland to see his wife, Jerri, and his mother, Mrs. Beulah Fridmore of Tahoka. His leave will be up Sept. 4.

Visitors in the C. A. Walker home Sunday were Mr. and Mrs. Bill Moore and family of Seagraves. Cristy Lynn had been here all week but went home with her parents as school began Monday.

Other visitors were Mr. and Mrs. L. J. Walker and sons, Tim and Denny of Littlefield and Mrs. Lucian Walker. Mrs. Walker attended the reunion of the Church of Christ at Graham and came back to the C. A. Walkers for the afternoon.

Mr. and Mrs. C. A. Walker and granddaughter, Cristy Lynn Moore, went to Lake Thomas two days last week for an outing. The Doyle Terry family met them there for a picnic supper and some fishing.

Mrs. Montie Huddleston entered the hospital in Lamesa last Thursday. She has been very ill but we are glad to report she is some better. We wish for her a speedy recovery.

Howard Conrad, who with his family have just returned from Peru in South America, showed slides of their work there and also held the morning service in the Church of the Nazarene.

Mr. and Mrs. W. M. Dubose of Brownfield visited the W. G. McCleskeys Friday.

Rev. and Mrs. Onnie Reed and three grandchildren of Texline visited Mrs. Lucy Cunningham last week.

Mrs. Hoover visited Bernice Propst Friday afternoon. Mrs. O. R. Cook was also a visitor.

The McCleskey clan all had lunch Sunday with Hoolie and Lavern. Karen Laws was also a visitor.

J. W. Warrick had another bad spell and is in West Texas Hospital and very ill. His daughter and husband, Mr. and Mrs. Leonard Gribble are at his bedside.

Cordie Laws was an overnight guest Saturday night of Mrs. Grace Norman.

The Tom Murray clan all had lunch Sunday with the Bert McDonalds. The Howard Conrad family will leave for Pasadena, Calif. this week. He will attend school and do research regarding his work in Peru.

Mr. and Mrs. Rusty Dean visited his sister, Mr. and Mrs. McCamey in Post Sunday afternoon.

Mrs. G. H. Spears has rallied and is quite some better. She is able to be up part time—in fact her daughter, Rosebud Watson, took her for a short drive Friday and she enjoyed it a lot.

Jerry Gerner is home on furlough. Glad you're back, Jerry.

Visitors in the Gerner home Sunday were Jerry Gerner, Edna Mason, Mrs. O. F. Haley, Ruby Claborn, and Charles Huffman. Charles is helping Jerry work on his car. Edna Mason and Linda Kay Muller were visitors Friday.

Amos Gerner and Otis Tew spent the week end in Rudoso, N. M.

Mr. and Mrs. Gus Sherrill and Paula attended church services in O'Donnell Sunday night.

Guy LeMond of Snyder had lunch Sunday with his sister, Mrs. A. Z. Sewell.

Mr. and Mrs. Tom Ferguson of Ralls visited Mr. and Mrs. J. A. Propst Saturday. Bernice Propst visited Mrs. Will Wright in Post Wednesday.

Bernice Propst and grandfather, Pam, visited Mrs. Hays in Post Tuesday.

Charlie and Ruby Bullock of Abilene visited his sister, Mrs. C. C. Jones Saturday.

Please call news to 327-5046.

**Mrs. Renfro Helps Write Handbook**

Mrs. Margaret Renfro, teacher of Lynn County Special School, says she had a very happy and beneficial summer.

She did graduate work at West Texas State University, studying under the Achiever and Education Work Conference, attended lectures on the Pasa Program, wrote up abstracts on each and helped other graduate students in compiling a "Handbook of Remedial Techniques for Children and Young Adolescents with Psycholinguistic Disabilities" under Professor Wilma Jo Bush. This is a 202 page work which yet has to be edited before publication.

Mrs. Renfro also visited and helped in an Orphan's Home near Tulsa. She says the children, not all being orphans, were allowed to go home for two weeks vacation if parents or other responsible people came for them. Some what pitiful to her was the fact "some precious children were left behind," and some parents who left their children in the home have never been back to see them.

Following this visit, she went to Los Angeles, where she visited her son, and he took her to Hollywood, Disneyland, and other interesting places.

She says, "I am happy to be back in Tahoka and am anxious to see my precious children."

## Midland Youth Rotary Speaker

Tom Robinson of Midland, 1965 Rotary Fellow from the 573rd district of Rotary International, was the speaker at the local club last Thursday.

Tom is a 1961 graduate of Midland High School, a 1965 graduate of George Washington University, and has just returned from a year's study at University of Aberdeen, Scotland, and visits to England.

He found the Scottish people to be frugal but friendly and outgoing and proud to be Scotsmen, adhering closely to tradition, class conscious, but very likable. The old aristocracy accepts most people for what they are but are still a little jealous of the new wealthy class.

Interesting to him was the Great Britain elections, which lasted only two weeks.

Although the Labor Government has nationalized the steel industry, he said there really wasn't much difference than in the U. S. as the president recently used his power to force steel management in both prices and wages.

In England about 7 percent of the young people of college age attend institutions of higher learning compared to about 30 percent in the U. S.

University of Aberdeen, in a city of 180,000, had its beginning in 1495, one of the present main buildings was erected in 1500 and the "new" building in 1905. The University is composed of two colleges, Kings' College, Catholic and established in King James IV rule; and Marshall College, Protestant, established in 1593. The two were joined into the University in 1858. There is more formality than in the U. S. There are 3,000 students. He lived in Crumley Hall, which had modern heating.

The speaker was introduced by Warren Embree.

The club welcomed its sweet heart, Maria Bray, back to meetings. Dr. Emil Prohl introduced the student guest, Miss Claudia Bards from Italy.

### NOTE OF APPRECIATION

I wish to thank my many white friends of Tahoka and O'Donnell, as well as my colored friends, for helping me win the queen contest of the 33rd annual session of the Caprock District Association which was held in Lorenzo August 9-12. I also want to thank my local president for her good support, and a special thanks also to the Police staff in this effort. Winning the contest was not an easy thing to do, but with God it was possible. We must fight if we hope to win. I won with \$107.50, the Caprock Women raised \$580.00, the queen raised \$292.00. Grand total of the Caprock District Association is \$1780.00. Thanks again, with a big smile, Mrs. Mary Davis. 1tc

## SPOKEN WORDS HAVE A WAY OF BECOMING DISTORTED

If you've ever tried to track down a rumor, or unscramble a piece of gossip, you know how elusive is the spoken word! Or maybe you've noticed that you can't quite recall that funny quip by your favorite radio or TV comedian, yet you have no trouble quoting a joke you've read. It's a natural thing with all of us. That's why newspaper advertising gets such good results. It's there to read—in black and white (color too if you want it) and to refer back to, at your leisure.

Just a few questions: If we're gonna limit the sale of firearms to law-abiding citizens, how about putting a stop to throwing Molotov cocktails? If our President is going to get so incensed when some corporation raises its prices, like steel, why not hold the line when the unions howl for a wage increase? If dirty, long-haired beatniks can hamper the war effort, why can't we draft them into the service to help out the boys dying for their right to freedom, the right to protest? Or, maybe better, ship 'em to North Vietnam, Cuba, China, or Russia? If it's right for Negroes to march in Baltimore, why wasn't it right for white men to march? If it's right to put the farmer in a cost-price squeeze, why isn't it right to quit helping 49 nations around the world produce more cotton?

Rev. George A. Dale of Lubbock, retired Baptist pastor who was pastor at Tahoka when the present main auditorium was built on top of the basement, attended Rotary here Thursday of last week and obviously enjoyed the visit tremendously. He helped organize, with the late Jack Applewhite, the old Tahoka Luncheon

Mrs. A. C. Surman, chairman of Garza County Historical Survey Committee, who recently met with the Lynn committee, writes, in part:

"We are especially excited over your prospects of having a safe place to store your history and Archives in the old bank vault. It inspires us to see what you (the county) have done with the old building. It is a good example of Restoring and Preserving—two of our especially stressed points in the RAMPS program.

"It is good to think that in our program we are not trying to IMPEDE PROGRESS — but we just want to keep the Wheels of Progress from grinding up ALL of our historical spots."

Mrs. Surman, wife of a pioneer physician, has suggested Lynn and Garza counties join in a marker for Moor's Draw, named for the famed buffalo hunter, J. Wright Moor.

## Kay Warren Tells Ed Hamilton Tells of Farming In Near East, Visit to Cedars of Lebanon

The following article was written by Kay Warren, daughter of Mr. and Mrs. O. H. Warren, telling of a five-week tour she made with Mr. and Mrs. Alex Sanders of Wayside, which she calls "The Incredible Journey":

On July 5, my aunt and uncle, Mr. and Mrs. Alex Sanders, and I started on a trip which will be one to remember always, pulling the Sanders' Airstream trailer.

First stop was at Vaughn, N.M., where we had a bang of a time—during the night something or someone ran into the car, knocking everyone out of bed. Later, someone was browsing around outside. There wasn't much sleep that night.

The next stop was the South Rim of Grand Canyon, where we stayed a few days touring the canyon and sight-seeing.

From there, we went to Las Vegas, Nevada, to visit kinfolks. A cousin of mine took me "out on the town. Of course, being under 21, you couldn't do anything but watch. Las Vegas is a rough town, too rough for me. It made me realize how great a small town like Tahoka is!

A few days were spent at Zion National Park, Utah. Here we walked, rested, rode, and walked some more.

Then on to Salt Lake City, the Mormon town. At a trailer park we met people from everywhere across the nation, just a wonderful national feeling. A day was spent at Temple Square, Salt Lake and Bingham Copper Mine. We were most fascinated by the mine, known as the largest man-made open pit mine in the world. It is a mile deep, two miles wide. Work is carried on 24 hours a day, seven days a week throughout the year. Nineteen million tons of dirt, rock, and copper are brought out of the mine a day. They were blasting the day we were out there. You could see the blast before you could hear it.

We left Salt Lake City after an enjoyable and restful weekend, traveling on to Idaho, Oregon and Washington.

In Walla Walla, Wash., we spent a day in the yester-years of Marcus and Narcissa Whitman, who were missionaries to the Cayuse Indians in the 1880's.

From there we went on to Moscow—Idaho, that is. Up to Glacier National Park, Montana, over "Going to the Sun Highway"—

What a road it was! At times there was hardly room for two cars to pass and we were pulling a 26-foot trailer. I just closed my eyes and said a fast prayer. You talk about snow—I have never seen so much snow in my life and right in the middle of July, too!

Through the customs line we went, and we were in Canada. At Waterton Lakes Park we saw two cars from Texas. We talked to the people in them and found out one couple was from O'Donnell—small world!

We camped at Lethbridge, Alberta, for the week end. We visited the Nikka Yuko Centennial Garden. It is a Japanese garden in about four acres and cost \$275,000. As you enter the tea house, you are asked to remove your shoes. The tea house is made of rare wood, cyprus from Taiwan. All the buildings and bridges were built in Japan, shipped in 72

Ed Hamilton, now back home, continues his day-to-day story of his recent visit to the Near East:

There are 3.5 million people in Cairo. On our way back to Cairo from Luxor, I had another two hours' look at the Nile Valley, where farming is done on foot with wooden plows pulled by camels, oxen, water buffalo, donkeys, and small horses.

We saw one dead man, a dead dog, anything else you can think of floating in the river, washing, cooking, carrying water, etc. along the river. There is a general odor about the river caused by never getting a rain to give the country a good bath.

Leaving Cairo, we got a good view of the Suez Canal, then flew over the Mediterranean Sea to Beirut, a city of 800,000 of the two million in Lebanon. No sales taxes, very little income tax, climate very good, and people seem happy and prosperous. Stores are nearer like ours than any I have seen. Our supper was best since leaving home.

We have a day off from the tour, so I made a special trip alone for the day, hired a taxi for \$20.00 to take me 100 miles north and back to see Cedars of Lebanon.

During the drive, we went along the sea shore to Byblas, then turned east to the mountains and cedars. On the drive, we passed banana, grape, olive, apple, fig, lemon, orange, grapefruit, tangerine, apricot, peach orchards and tobacco fields. I was told there are 500,000 fig trees here, 500,000 peach, 3 million olive, 3 million banana, 1.5 million apple trees and 1 million grape vines. Fruit is packed and exported to other countries, and like our packing plants then even "catch the squeal." In the mountains, they scrape off a ledge about every 20 feet, level it off and plant trees or vines.

We passed a large cement plant and salt plants. When the soil on the seashore side runs out and turns to rock, they just put them

crates to Lethbridge and reassembled there by five carpenters from Japan and four from Lethbridge. Nikka Yuko means Japan-Canada Friendship. I could talk all day on the garden, for it is just beautiful.

We ate out one night. I ordered a hamburger and said to cut the onions. The waitress looked at me and politely told me the onions were already cut. Finally, we got it straight that I didn't want any onions at all.

We re-entered the States Monday, July 25. I suddenly realized that I had been a foreigner for a short time. Now I know how one feels to come to the States.

The bears were plentiful in Yellowstone, and so were the tourists, but there is always room for one more.

On to Lander, Wyoming, where we visited the Sinks and Atlantic City, a ghost town. There we met up with some cousins of Mr. Sanders and went to Boyesen Reservoir to fish. The pike fish are there and we caught plenty.

From Jeffery City, we traveled to Ouray, Colo., a quiet mining town. I believe that there were more Texans there than in Texas!

Between Silverton and Durango the Million Dollar Highway is built. It is called such because it is surfaced with gold-bearing gravel.

On to Santa Fe, N. M., and the last stop before home. We spent Monday morning seeing the Old House, 1200 A. D., and the Oldest Church, 1610, in the USA. Also, we visited the Miraculous Staircase at Our Lady of Light Chapel. We left Santa Fe before noon. We ended our incredible journey at 9:00 p. m. Monday.

The three of us saw the beautiful USA that God has created for people to see and enjoy. We did many exciting things, met many different types of people, stayed in all kinds of trailer parks, and camped along the road and stayed in state parks. I feel like I have come home with a little more knowledge and happiness.

in to a drying plant for salt, fill the vats 5-6 inches deep with sea water, which evaporates in about a week leaving salt, which is then taken to a processing plant, and it is then ready for market.

We passed several large bunches of goats high up in the mountains, and the herders were rough looking characters.

Cedars of Lebanon, up in the mountains, consist of about 400 trees, one still standing said to be 6,000 years old, and I managed to get a few souvenirs to carry home. Wood is reported to be as durable as stone. This was the wood that was used in building King Solomon's temple about 1,000 years B. C. They are continually planting new trees and will not allow any trees to be cut down.

Coming back to Byblas, we were told some of the construction there is supposed to be 7,000 years old, had been under many different rulers, and at one time there were 16 walls to protect the people from the enemy. I couldn't see much to be fighting over.

Next day we were on the "Road to Damascus", in Syria, by bus, driving east over the mountains from Beirut. When we got to the top of the mountain, we looked down on "The Promised Land" just like Moses did, only he was on a different mountain. "The Promised Land" lays north and south about eight miles wide and 100 long, surrounded by mountains on all sides.

### WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

It is doubtful that anyone, following a heated argument with the wife at the breakfast table, rushes out and throws rocks through the windows of all the houses down the block.

This would be considered as quite an unwarranted action, and would lead to some grave consequences.

The judge would undoubtedly hold that your domestic problem is not one that is shared by the neighbors.

In essence, this explains the resolution before the Congress by Rep. Craig Hoamer of California which is supported by the nation's independent business proprietors by a majority of 72 per cent in a poll by the National Federation of Independent Business.

Congressman Hoamer's resolution would put the Congress on record as asserting that the right of society in general, and the individual in particular, has a right to protection of property and life that is paramount to all other rights.

Unless this basic right is reaffirmed, the Great Society could well turn into the Disastrous Society.

So far, mankind has found no substitute for law and order, and it has been the experience of history that whenever law and order breaks down, no mat-

ter how the reason for such infringement is rationalized, chaos and anarchy results.

One of the grave manifestations of the times is the reported fact that in the localities around Watts, Rochester, and other places where riots have occurred, there has been a phenomenal jump in the sale of firearms.

No one can blame any person for taking such precautions for protecting life and property. But it is quite significant, and not pleasantly so, that hundreds and perhaps thousands of people who would not normally have a gun in the house now feel it is essential.

Thus, the Great Society is transforming into the Shaky Society, where decent, law-abiding citizens feel they can no longer depend on forces of law and order to protect them.

This is, without doubt, one of the most serious problems, if not the most serious, to ever face the American Republic.

In the storied old West, the principle of every man for himself was the law. One only has to visit the "Boot Hill" cemetery in Tucson, Arizona, where there was buried the losers in countless altercations, to note that justice depended on who could draw fastest and shoot the straightest.

It seems high time that the Congress recognize Congressman Hoamer's effort to establish that there are no excuses for violating law and order.

C. W. Harder

### Warren Smith In Trouble When Car Runs In Deep Water

Mr. and Mrs. Warren Smith, O'Donnell, had a scare during the heavy rainstorm seven miles south of Tahoka Sunday night when their car was washed off the highway by rushing waters crossing the pavement from west to east from the Fred McGinty pasture area to the Cleve Littlepage lake.

Mrs. Smith told The News they were really in no great danger but the experience was frightening.

They were returning home shortly after 10:00 p. m. from visiting Mr. Smith's father, Harold Smith of O'Donnell, who has been critically ill for some time, and they were driving Mr. Smith's Lincoln car.

Before they hardly knew what happened they were in the median

ditch between the west and east lanes of the four-laned divided highway, and water was up in the car. When she got out, Mrs. Smith said the water was more than waist deep.

State Highway employees, however, were on hand quickly, and J. D. Davis and "Slim" Fyburn rescued them and pulled their car to safety.

"We are truly grateful for the fine work of these alert highway employees," Mrs. Smith said. They were glad to get out with only damage to clothing and a soaked car.

A man who has not visited Tahoka since he was a boy 50 years ago, came back to town Monday to see what the old town looked like.

Franklin L. Childress, 155 Mill Stream Lane, Houston, and wife were en route to Plainview to visit, and stopped in Tahoka.

He said he first came to Tahoka as a boy of about eight with his parents, Mr. and Mrs. Walter C. Childress, in a covered wagon. This time, he came in a modern car. He recognized only a few buildings.

He said his dad, who died last May, moved the old court house when the present one was being built. The old building was moved with two horses, later became the St. Clair Hotel, which sat where Proffitt's Gulf Station and "Toe" Roberts laundry now stand. Years ago Oscar Roberts bought the hotel, wrecked it, and built the service station.
