Number 8

Number of Farms Show Decrease In This Area

A total of 851 farms were counted in Lynn county during the 1964 Census of Agriculture, the U. S. Department of Commerce's Bureau of the Census reports.

In the last previous Census of Agriculture (1959), the total counted in the county was 962 farms.

The 1964 total is published in a preliminary report on the county just issued. The report also shows that average farm size in the county was 67.3 acres and that the average value of the county's farms (land and buildings) in 1964 was \$176,458.

Other important county statistics in the report are:

1. Value of all farm products sold by farms in the county in 1964, \$17,244,708; in 1959, \$20,780,991.

2. Value of all crops sold by county farms in 1964, \$16,140,123; in 1959, \$19,648,046.

3. Value of all livestock and livestock products sold by county farms in 1964, \$1,104,485; in 1959, \$1,142,945.

Information obtained for the first time in an agricultural census included the amount of income received by the county's farmers from recreational services as well as data on the use of pest control chemicals in the county in 1964.

A Census of Agriculture is taken every 5 years in years ending in "4" and "9" to gather information on the nation's agricultural resources and production. The data are needed to make decisions affecting many segments of the U. S. economy. The 1964 farm census was the 18th in a series that began in 1840.

The preliminary report for the county contains more than 500 facts about agriculture in the county. Among additional facts it contains are the number of farms by size, type, and economic class; the number of farm operators by method of tenure, age, color, off-farm work, and number of school years completed; land in farms by use and by land-use practices; data on equipment and facilities; farm expenditures; number of hired workers; and number of farms reporting poultry and livestock production and those reporting crop production by acres and quantities as well as sales.

Mrs. McKibben Rites Wednesday

Funeral services for Mrs. Pat McKibben, 67, were conducted Thursday at 3:30 p.m. in the First Baptist Church with Rev. D. W. Coppel and Gatesville officiating. Burial was in Tahoka Cemetery under direction of White Funeral Home.

Mrs. McKibben died at 8:00 p.m. Tuesday in Methodist Hospital, Lubbock, following an illness of about 15 months. She had been hospitalized two weeks before her death.

Born in Whitney June 14, 1899, Lottie Evelena Kirkland came to Lynn County with her parents and lived in the Draw area several years before the family moved away. She was married to Pat McKibben Sept. 21, 1918 at Lancaster, and the couple came to Lynn county in 1926 from Wise county. They had lived in the Wells and T-Bar communities, Mr. McKibben owning farm land in the southwest part of the county. Retiring from farming about four years ago, the couple moved to Tahoka where they purchased a home at 1621 North Fourth.

Mrs. McKibben was a long time member of the Wells Baptist Church.

Survivors include the husband; nine daughters, Mrs. Ruby Griffith, Mrs. Shirley Reese, and Mrs. Glenda K. White, all of Lubbock; Mrs. Opal Belt and Mrs. Addie Pearl Triola, both of Houston. (Continued on Back Page)

Farmer Meeting Is Next Tuesday

All Lynn county farmers, farm owners, and others interested in the 1967 cotton and feed grain farm programs are being urged to attend a meeting here next Tuesday, Nov. 22, at 7:00 p.m. in Lyn-tegar meeting room.

The local ASCS office and county committee are scheduled to receive information that day, and Wallace Dove, the office manager, will relay this new information to farmers.

This meeting is of importance to all farmers, and a special effort should be made by everyone interested to be present, Dove says. Farmers will vote by mail from December 5 through 9 in the up-land cotton referendum.

Farmers will also vote on the proposal for deducting \$1.00 per bale for research and promotion of cotton.

Post Uncovers Burglary Ring

Three men arrested at Post two weeks ago resulting in the breaking up of a burglary ring and using a Post house and warehouse for storage of stolen loot have also been charged here with burglary and entry, according to Deputy Sheriff Bill Wilkinson.

The men are alleged to have taken wire from Lyn-tegar over a period of months, possibly years. Officers from Colby, Kansas, are said to have alerted Post officials of the trio, wanted in that state for burglary. Since their arrest, officers from a wide area have been inspecting the store loot and filing charges. Wilkinson said the men are wanted in five states and numerous Texas counties.

Police Chief Bill Gordon and Sgt. Otis G. Shepherd Jr. and Sheriff L. E. (Fay) Claborn and other officers found allegedly stolen articles in the two story house where they were living at 501 E. Main St. in Post, and also a nearby warehouse in which they were storing articles.

The huge stockpile of loot includes several truck loads of merchandise, including furniture, television sets, radios, guns, clothing, auto parts, tools of all sorts, and even a small light plant.

The men are Troy L. Roberts, 39, of Lubbock; L. R. Cullum, Jr., who claimed Post his home; and Byron E. March, 36, of Muskogee, Oklahoma. The latter two are originally from Oklahoma. Roberts was free on bond after being charged with murder with malice in connection with the death of a Houston man and a Hobbs, N. M., man in Lubbock on Oct. 9.

After being jailed at Post, the three were transferred to Lubbock for safe keeping.

Third Oil Well In Wilson Pool

Wilson has a third producing oil well, the W. Ridley Wheeler Estate No. 1 Ahrens-Heck well completed last week with a potential of 105 barrels of 36.8 gravity oil plus 30 barrels of water, gas-oil ratio 609-1, after treatment with 1,000 gallons of acid.

The well is just outside the Wilson city limits to the north in the Miriam Green Glorieta field and is 3,504 feet from the north and 5,999 feet from the west lines of League 4, Wilson County School Land survey.

Total depth was 4,930, but the driller lost tools in the hole and following a fishing job the hole was plugged back to 4,874, 5¼-inch casing set at 4,760 feet.

The recent 11,500-foot Fusselman test north of West Point was abandoned as a dry hole following acid treatment. This was the No. 1 Ivan McWhirter test by E. B. Clark Drilling Co. et al, located 660 feet from the south and west lines of Section 6, Block C-42, PSL Survey, southeast of the Mound Lake North Fusselman on the Lynn-Terry line.

Livestock Survey Is Set Next Week

Rural mail carriers from the Tahoka post office will leave some livestock survey cards along their routes beginning Nov. 21.

"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms," Postmaster Chas. Townes explains. "Rural carriers distribute the cards at random in boxes along their routes. This means that not every box will get a card, and for this reason it is important for everyone who gets a card to return it filled out so that USDA can get a true sample of the State's livestock holdings."

Carriers assisting in the survey are: Eldon Carroll, route 1; A. C. Weaver, route 2; D. C. Carroll, route 3; Clyde Ashcraft, route 4; and Jess Gurley, route 5.

Facts and figures secured in this survey are the basis for Texas and National pig crop report and inventories of livestock and poultry on farms as of the first of the year. Stockmen and many others use this information in making business decisions.

Survey results will be widely distributed through Texas Crop and Livestock Reporting Service releases, newspapers, farm magazines, radio and television.

Emergency Loans Available Here

Word was received this week from Representative George Mahon that Lynn and Garza counties have been designated by the U. S. Department of Agriculture for the making of Emergency loans through the Farmers Home Administration.

Billy H. Stewart, FHA County Supervisor for Lynn and Garza counties, stated that Emergency loans are made to eligible farmers and ranchers in designated areas where natural disasters have brought about a temporary need for credit not available from other sources.

Loans may be made for the purchase of seed, fertilizer, irrigation expenses, replacement of unusable equipment and other farming expenses necessary to maintain normal operations. Stewart explains the loans are scheduled for repayment when income from the crop financed is normally received. The interest rate is three (3) percent.

MRS. H. W. PENNINGTON IS HOSPITAL PATIENT

Mrs. H. W. Pennington, 83, pioneer Lynn county citizen, was taken to West Texas Hospital in Lubbock Monday morning by a White ambulance. She underwent tests and examinations on Wednesday and was reported feeling better Thursday morning.

Mr. and Mrs. E. W. (Pat) Paterson visited in Bovina Sunday with the Jake Jacobs family.

Crop harvest will be completed in record time this fall unless bad weather in the next week or two interferes. But due to the early freeze and the 35 percent reduction under the new Government program, cotton production is running away short.

Thursday morning, Tahoka gins reported a total of 8,600 bales ginned, and ginner estimated the cotton harvest from half to two-thirds complete.

Based on previous reports, this would indicate that between 45,000 and 50,000 bales have been ginned to date.

Ginner say a larger portion of the crop was damaged by the early freeze than many had first estimated. Some of the late planted cotton, and some of the cotton watered too late is very poor.

On the other hand, some of the dryland fields are making up to a bale per acre.

The milo crop is turning out better than expected in most cases, and one local buyer estimates production is about 25 percent above last year. He estimates the crop may average 1,200 pounds per acre, but this crop is also hard to estimate because some fields produced little or no grain while others produced a ton or more.

Tatum Bros. Elevators here said that at one time last week they had 10 million pounds of maize piled on the ground.

Under the new farm program, however, Lynn county farmers received about \$7.5 million in support price payments and in payments for reduced acreage.

Some farmers say this new farm program this year proved good insurance and saved some people from financial disaster.

GRASSLAND NEWS

(By Mrs. O. H. Hoover)
The cotton is coming into Grassland from every direction. Farmers Co-op gin has put on two crews, day and night. Up until report time, they have ginned around 1,000 bales, and they turn out about 200 every day. The Producers gin still has just one crew but they run a lot overtime. Sure hope this weather holds.

Kenneth Huffaker, Jim B. Porterfield, Dick King, Alton and J. B. Greer, Elmer Rash, Darin White and James Metchel have all gone to Rock Springs hunting for deer. Sure hope you have good luck, fellows.

Mrs. Hoover visited Bernice Propst, then she and Mrs. C. C. Jones visited Mrs. Bernice Gribble and Mr. and Mrs. Carl Greer in the afternoon. Doesn't seem like Mr. Greer gains much. He is just about the same.

Mr. and Mrs. L. S. Turner had their three grandsons, Kenneth, Keith, and Kane Turner of Tahoka, over the week end.

Mrs. W. A. Oden has gone to Fort Worth to attend the funeral services of her brother, Carroll Potter. He passed away Sunday at 2:30 a. m. with a heart ailment. We extend to Mrs. Oden and children our deepest sympathy.

Mr. and Mrs. Sonny Patterson and baby spent the day Sunday with her parents, the Raymond Fitts.

Mrs. Hoover visited her sister, Mrs. Edith Inklebarger, Saturday afternoon.

Bobby Huffaker and family were in this community last week. Bobby helped his brother Kenneth pull cotton a few days.

Laura Gerner came home over the week end, and Linda Kay Mueller spent the day with her Sunday, and they all went to church at Slaton.

Mrs. Lorene Gerner visited her mother, Mrs. O. F. Haley, Thursday afternoon.

Mrs. Gerner visited the Victor Kuykendall family Tuesday afternoon.

The Gerners had a letter from their son Jerry of Camp Pendleton, Calif. He wasn't feeling too well. Hope you feel better soon, Jerry.

Mr. and Mrs. Bob Norman visited with their daughter and family at San Angelo Sunday.

Mr. and Mrs. Olen Long also visited their daughter there; in fact, they all went together.

Wade Gerner, the Norman's grandson, is stationed at Fort Bragg, N. C. He was doing fine last report.

Mrs. W. L. Gribble visited the Greers Saturday.

Hoolie and Laverne McCleskey and Leonard and Bernice Gribble had lunch Sunday with Bernice's brother, the Harold Allens, in Lubbock.

Ann Stone of Tahoka visited Karen Laws Sunday afternoon.

Mr. and Mrs. H. E. Huffaker came home Wednesday from their trip to Colorado. They report a nice visit and everyone doing fine.

The James Murray family visited in the Carlos McCleskey home Sunday afternoon.

Mr. and Mrs. Tom Murray and Mr. and Mrs. W. G. McCleskey attended a big Sing-Song in the club house in Slaton Sunday.

Uncle Mac and Aunt Nora Richey had lunch Sunday with the Nazarene pastors, Rev. and Mrs. Rawlings.

Mr. and Mrs. Gus Sherrill and Paula visited the Frank Bailey family in Seminole Sunday afternoon.

Mr. J. E. Sherrill is recovering nicely from eye surgery.

Visitors in the C. A. Walker home Sunday were the Bill Moores of Seagraves. Cristy Lynn had spent the week end with her grandparents. Mrs. Doyle Terry and children came in the afternoon and they all stayed for supper.

Mr. and Mrs. G. C. Watson's small grandson, Gary Castle Watson, is in Methodist Hospital. He is improving now. We wish for him a speedy recovery.

Mrs. Watson's mother, Mrs. Spears, seems to be getting weaker these last three or four weeks. She doesn't get around much and stays in bed a lot.

The Sub-District meeting of the Brownfield District was held in the Methodist Church in O'Donnell Nov. 17. Mrs. Gus Porterfield is president. She had a very nice program prepared. Thense was "Faith for New Situations."

Mrs. Roy LeMond had the topic, "God's People or No People." She made a very good talk. Mrs. Wilmer Smith gave a talk on United Nations as only Mrs. Smith can.

After lunch, "Our New Set-Up" was very ably discussed by the Ropesville W.S.C.S. To close the meeting, Mrs. R. M. Stewart of Tahoka told us a lovely story that made all of us want to do better and work harder. It was an inspiring day.

Pastor's Wife Gets Deer In One Shot On Palo Duro Hunt

Rev. and Mrs. Hugh Daniel and Mr. and Mrs. M. L. McGehee each got a buck deer on a week end hunting trip on the McGehee ranch in the Palo Duro Canyon, east of Happy.

There were ten in the party and each got a deer. Rev. Daniel said they saw many deer, although many of the buck were young.

The local Methodist pastor's wife, Joy, felled her buck with one shot, and it was the first deer she had ever killed.

McGehee, who attends Texas Tech and his wife, Beth, teaches in the local schools, is a grandson of a pioneer ranching couple who settled on the brink of the Palo Duro in the early days.

Sunday morning, the group attended church at nearby Vigo Park, where Rev. Hugh Daniel's father, Rev. N. S. Daniel, now of Merkel, served his first pastorate and where Hugh started to school as a first grader.

In the meantime, Sunday was Layman's Day at the local Methodist Church, and Harold Green filled the pulpit while the pastor was away. The pastor a bit grudgingly admitted Layman's Day was delayed a few Sundays to coincide with the opening of the deer season.

The Tahoka Methodist pastor has two principal hobbies outside his church work, photography and hunting.

WATSON BABY IMPROVES

Airlift Service Extended to All Overseas MPO's

Postmaster Charles Townes today announced that henceforth all first class mail, personal sound recordings (voice letters), and parcels weighing 5 pounds or less and measuring not more than 60 inches in length and girth combined, will be airlifted on a space available basis between the United States and all military post offices overseas.

Also, under Public Law 89-725 —The Dulski Military Mail Act— which was signed by President Johnson on November 2, 1966, second class publications such as newspapers and magazines published weekly or more often, and featuring current news of interest to the military, will be airlifted from San Francisco to the armed forces serving in Viet Nam.

The postmaster explained that parcels weighing 5 pounds or less and not exceeding 60 inches in length and girth combined, paid at surface rates, will be moved by surface transportation within the United States from the points of mailing to the port of embarkation.

To speed up separation and delivery of these smaller parcels falling within this category, Postmaster General Lawrence F. O'Brien directed that all parcels be clearly marked upon acceptance at the post office with the letters SAM (surface airlift mail).

This will eliminate the task of reweighing and measuring the parcels at the San Francisco Concentration Center prior to dispatch to Viet Nam or other overseas military post offices.

The postmaster also reminded mailers that Christmas parcels weighing 5 pounds and under, though they are given airlift priority from San Francisco to Viet Nam on a space available basis,

Lynn County Soil Conservation District News

ELMER OWENS HAROLD PAYNE
E. R. BLAKNEY BOYD BARNES
JIGGS SWANN

The maintenance of crop residue on the soil surface is very important in retarding wind erosion and increasing water infiltration, says Donald H. Reed of the Soil Conservation Service. Experience has shown that when feed stubble is managed on the surface, soil blowing is greatly reduced.

Usually this is practiced by one of the following methods: (1) Leave the stubble standing; (2) Chiseling the stubble; or (3) list between rows. Probably the most common practice is chiseling. This helps to clod the soil but at the same time leaves the stubble on the surface for soil protection.

Where small amounts of residue are produced such as on cotton lands, mulches such as cotton burs, should be applied, says Reed. When managed on the soil surface, not only do burs retard wind erosion, but also reduces evaporation and act as a sponge in absorbing water. All these benefits are in addition to increasing

the organic materials in the soil. Although cotton burs are the common mulching material used in the Lynn County Soil Conservation District, any type of organic matter is good. Barnyard manure is very good. Generally it is recommended that at least 3 tons per acre should be applied. In order to aid in the decomposition of the burs it is generally recommended that Nitrogen be applied.

Tests supervised by County Agent W. B. Griffin has shown that in addition to helping retard wind erosion, the addition of mulches to the soil increases the net return to the producer and at the same time conserves soil and moisture.

Many members of the district are making use of the cotton burs that are available. There are also many burs being destroyed because no one wants them. Members should make use of the burs while they are available, says Reed.

McGuffey Reader Is Coming Back

Some Virginia schools have gone back to use of McGuffey's readers in order to teach phonics, literature, moral and patriotic ideals, states Mrs. Elta Lorene Reid, who recently visited in that state with her daughter & family, Mr. and Mrs. Dan (Mary Helen) Kamp and daughter, Holly.

Mrs. Reid, accompanied by Mrs. Violet West, flew up there for the visit.

Dan Kamp, formerly with the Soil Conservation Service here and later superintendent of parks in Lubbock, is now director of parks at Fairfax for Fairfax County, Virginia. Mrs. Reid says there are 80 parks in the county, most of them historic sites. Mount Vernon is in the county but not in his jurisdiction.

While there, Mrs. Reid and Mrs. West visited several times Washington, D. C., which is only 13 miles away and most of the historic sites and government buildings of the area.

The Kamp's daughter, Holly, age five, is attending kindergarten at Fairfax Christian School, a private school with 700 students from kindergarten through high school.

Mrs. Reid was impressed with the high quality of the school. The little five-year-old is studying German and already knows about 50 words. The school has gone back to using McGuffey's Eclectic Primers and Readers, the last copyrite on which was issued in 1909.

In fact, Mrs. Reid was so impressed with McGuffey's that she bought five copies, the Primer, first, second, third, and sixth "Eclectic Readers," to bring home with her and to show friends and to keep.

When you love your work, it shows.

And we love our work. So much that we couldn't bear to stop with the slickest-looking split grille ever to grace a Wide-Track. (Or any other car, for that matter.)

We went ahead and made the windshield wipers disappear. The car not only looks cleaner, but the wipers are less subject to icing and freezing, too.

Then we got rid of the vent windows on all Grand Prix hard-tops. We replaced them with nifty monograms and a flow-through ventilation system.

We even designed a rather unique hood-mounted tachometer

option that's available on all Pontiacs. As are our other new options like stereo tape and stereo radio.

And, of course, our handsome interiors have to be seen to be believed.

All Pontiacs have standard safety features that include a dual master cylinder brake system with warning light, outside rear-view mirror, and GM's energy absorbing steering column.

Isn't it time you decided to see your Pontiac dealer? If you love our work the way we do, it's the least you can do.

Rotary Observes Foundation Week

The Rotary Club of Tahoka joined more than 12,500 other Rotary clubs in 133 countries in this week's world-wide observance on "The Rotary Foundation Week," November 13-19. This year's celebration marks the beginning of a year-long observance by Rotary clubs everywhere of the 50th anniversary of the Rotary Foundation, according to club president Harold Roberts.

The objective of the Foundation is to further understanding and friendly relations between peoples of different nations. Supported by contributions from Rotary clubs and Rotarians around the world, the Foundation received more than \$1 million last year.

Since 1947, when a program for graduate study abroad was begun, The Rotary Foundation has awarded 2,300 Rotary Fellowships at a cost of more than \$6 million. Recent awards for the 1967-68 academic year totalled more than 160 and represent \$500,000 in Fellowships.

To enlarge its work in the field of international relations, the Foundation recently added two activities to its program: Awards for Technical Training to enable young men to improve their skills by studying in another country, and Group Study Exchanges of teams of young business and professional men between different countries. Harold Roberts reports that more than 450 persons throughout the Rotary world receive awards each year.

Tahoka Rotarians will celebrate the "Week" at their meeting on Nov. 17 at Community Center with a short talk by Dr. Emil Prohl on Rotary Foundation.

Nine Accidents Here Last Month

The Texas Highway Patrol investigated nine accidents on rural highways in Lynn County during the month of October, according to Sergeant A. E. Roberts, Highway Patrol Supervisor of this area.

These crashes resulted in 7 persons injured, and an estimated property damage of \$3,460.00.

The rural accident summary for this county during the first ten months of 1966, shows a total of 76 accidents resulting in 2 persons killed, 35 persons injured, and an estimated property damage of \$38,590.00.

Get the jump on the winter months by having your vehicle safety inspected by an authorized garage to assure its safe mechanical performance. Then have your car "winterized" by checking the following items: anti-freeze in radiator, battery, an engine tune-up, brakes, exhaust system, tires, windshield wipers, lights, turn signals, horn and defrosters. For an extra measure be sure you have ice scrapers, snow tires or tire chains.

The Sergeant stated, "Today's inspection is tomorrow's protection."

After washing items trimmed with cotton ball fringe, machine dry them to restore the fluffiness of fringe. If you don't have an automatic dryer, you can soften lined fringe by holding it over a steaming kettle.

Bulldogs Lose to Plains, End With 8-2 Record

Tahoka Bulldogs lost their final game of the season Friday night at Plains to the always tough Cowboys 17 to 6, a disappointing end to the most successful season a local team has had in a number of years.

The Bulldogs ended the season with an 8-2 record, 2-2 in conference 5-A play, losing only to Seagraves and Plains after having played a very tough schedule in which they defeated several top teams.

Although disappointing to the local fans, players and coaches, the Bulldogs have nothing for which to hang their heads. The games at Seagraves and at Plains were not the Bulldogs' best games, but still the boys turned in creditable performances. Local fans feel certain Tahoka could have gone a long ways had not Cliff Thomas, recognized as one of the best backs on the Plains, been injured at mid-season.

This was the last football game for six Tahoka boys, Mitchell Williams, Tommy Kidwell, Milton Edwards, Mike Chandler, Wayne Chandler, and Jerry Jolly, but Coach Don Smith will have some top boys back next year and has fine prospects if some reserves can be developed.

Bulldogs Start Well

Opening the first quarter at Plains, Tahoka controlled the ball most of the first quarter. Starting on its own 33, a pass Williams to Chris Roberts was good for 13, then one to Tyler went for 9, but after three running plays mixed in, the Bulldogs had to kick and Joel Inklebarger punted 41 yards over the goal line.

Plains made only 7 yards in three rushing plays, punted to the Tahoka 37, Chandler made 5, Williams 13, Chandler 3, Tyler 2, then Williams hit Doyle Schneider on a 11-yard pass to the Plains 29 but the ball was jarred loose from Doyle on the tackle and Plains recovered.

On the first play, tough FB Ricky Elmore went for 9 and fumbled when hit and Roberts recovered for Tahoka on the Plains 38. Chandler made 5, then Schneider caught a 9-yard pass, and Schneider, Chandler and Tyler moved the ball to the 14-yard line as the quarter ended.

Tahoka Fails to Score

Opening the second quarter, Chandler in three rushes moved the ball to the Plains 4, Williams made 2 to the 2, and on fourth down Williams' pass to Thurman was incomplete—and that could have been the turning point in the ball game.

Plains now moved 96 yards in 22 plays and 7 first downs to score, banging away at the left side of the Tahoka line, and the Bulldog defense was never able to stop the Cowboys completely.

In the drive, the Cowboys made only three yards in two plays, then on third down, and 7, quick-motivated HB Greg Jones broke off left tackle and went 31 yards to the Plains 36. From then on Jones and Elmore kept hammering at their right tackle, right guard to the Tahoka 2, drew a 5-yard offside penalty. Bulldog defense stiffened as HB Alton Rains made a yard, Jones 4, and Elmore was stopped at about the 3-inch line. Then, Jones went off right tackle for the score, and Elmore kicked the conversion with 35 seconds left in the half.

There was time for three passes, one complete to Tyler to the 46, and a running play Chandler to the Plains 49 as the half ended with Plains in the lead 7-0.

New Home Loses Basketball Final Contest

New Home Leopards finished the 1966 football season Friday night with a 39 to 0 loss to the Meadow Bronchos.

Meadow scored three times in the first quarter, one each by Terry Jones, Jim Wilkes, and Tim Melcher. Roy Cato scored in the second quarter, Melcher again in the fourth and Butch Tongate also in the fourth. Wilkes kicked three conversions.

Coach David Verner had a young squad at New Home this year, five of them seniors, and New Home fans have thought prospects for the future are much brighter as some potentially good players are coming on.

Wilson Playing At Ropes Today

Wilson Mustangs hope to make it a 6-2 Conference record and an 8-2 season mark tonight as they end up the season at Ropesville.

Last Friday the Mustangs ran past Whiteface 31 0 to improve their season record.

Wilson scored first on a one-yard buck by Gary Crews, and Mike Ward kicked the conversion. In the second period, Dennis Verkamp ran in the second touchdown then passed to Gary Moore for the conversion, and before the half, Ward kicked a 19-yard field goal to give the Mustangs an 18-0 halftime lead.

In the third, Crews scored again, QB Johnny Scott tossed a pass in the fourth to Moore for another, the play covering 55 yards, and Ward kicked another conversion.

Last week, Ropes lost to Amherst 36 to 6, a team Wilson nosed out 13 to 12 two weeks ago.

Well, the election has come and gone. Everyone has analyzed the results but this column. We think it all boils down to just one thing—LBJ's Great Society program and attempt to buy votes with "something for everyone" is not as popular as some have thought. By the way, why not just call it Socialism and quit beating around the bush?

And, old "Lefty" Yarborough blames Waggoner Carr's loss to Tower on Governor Connally. We'll make another suggestion: Carr might run against Yarborough when he comes up for re-election, and if he doesn't hang onto LBJ's coat-tail too tightly he can beat the Senator.

Most of the cotton people seem pleased that Rep. Bob Poage of Waco, veteran House member, is succeeding Rep. Harold Cooler of North Carolina, defeated in the Nov. 8 election, as chairman of the House Agriculture Committee. Poage knows Texas and Plains cotton problems, is a strong defender of Agriculture in general, and is sincerely interested in pushing our products into world trade. Although sometimes in disagreement with things we want on

the Plains, he is far more friendly to us than Cooley ever was.

We believe we people in the cotton country must do everything possible to push cotton, and therefore should support the \$1.00 per bale proposal for research and promotion. Rep. Poage recently said, "If farmers show by their votes that they are ready to give up on cotton, I think the Congress will be ready to give up too. As things now stand—under the emergency four-year program in effect—the government has gone just about the last mile in making cotton competitive in price, in the domestic as well as the foreign market." Nuf sed!

One night recently on the sidelines at a Tahoka football game, The Printer had a visit with a highly respected official who has worked a number of Tahoka games. He said he always enjoyed working Tahoka games, all had the best of relations with our coaches over the years. But, he cited a couple of faults he thinks we should correct.

Jokingly, he brought up the subject in this manner: "I don't see why you go out of town to hire your coaches—you have more coaches in the stands that know more about football and basketball (or it seems) than any of those fellows you hire." Then, more seriously: "I know, 95 percent of your fans are great sports and fine people. But, how does it happen you have so many experts in the stands who hollar advice to the field and yell criticisms at the officials?"

"Of course, most of us pay no attention to your cat calls," he continued in substance, "but, after all, those few 'experts' hurt you and your boys more than anyone else, and those 'experts' yelling at the officials and coaches and boys hurt your image."

A few minutes later, some fan yelled out advice to the Tahoka ball team, and the official called The Printers attention to the fact that at least two or three of our football boys looked toward the stands and were possibly distracted from the game. Well, The Printer has been guilty, too. For one, he's going to quit any yells but those of encouragement. How about it, folks?

The Printer started writing football in college, and since then we've covered between 300 and 400 high school games—and still we don't know enough to be yell-

Pistone Talks On Argentina

Rev. Sidney Pistone, who succeeded his brother, John, as pastor of Getsemani Baptist Mission here, was the speaker Thursday noon at the Rotary Club, and showed color slides of his native country, Argentina.

Now an American citizen, he is the eldest son of the family, all from Argentina, all now in the States, and is of English-Italian blood. He was the first to come to the U.S. in 1959, first to Los Angeles, then to Abernathy as a Mexican missionary while attending Wayland College, and lately to Tahoka while attending Texas Tech.

His pictures and talk dealt with Buenos Aires, government buildings and often changing government, resort cities, rural life, the Indians of that country, customs, gaucho life, and much of the beautiful scenery including the mountains, lakes, rivers and waterfalls.

There are several political parties, frequent upheavals in government resulting in take-overs by the military. In fact, Peron was the last president to serve as long as six years.

In addition to the Spanish, there are many Italians, Germans, British and other people in Argentina. Native language is Spanish, but English is the second language and is now required study in the schools.

Argentines are very jealous of Americans because we have so many things they can not have. Only the rich can own American-made cars, and our 1966 models are sold there as 1967 models, but most cars are the small European type.

Rev. Pistone mixed a lot of humor in with his talk, and his comments were interesting, and entertaining.

The speaker was introduced by George McCracken, in charge of the program.

Club Sweetheart Marla Bray introduced the student guests for the month, Lewis Hise and Mike Lankford.

A number of Tahoka Rotarians were among the 400 from this area attending the annual Lubbock Rotary Club inter-city meeting Thursday night when the Texas Tech music department presented a variety program.

ing advice from the stands.

By the way, we must have a few Saturday morning quarterbacks in the Boosters Club, too.

Bill Cathcart brought The News four pages of an old Star-Telegram dated Oct. 1932, printed during the "depression" which he found in the old house he recently bought from Willis Willets, across the street from Ivan Cathcart Market. Abilene, Breckenridge and Ranger were the big football powerhouses. Pictures were being shown in Fort Worth of the Max Schmeling-Mickey Walker fight. The market price on hens was 7 to 9 cents, old roosters 4 cents; No. 1 eggs 15 cents, No. 2 eggs 8 cents; hogs, \$3.75 per 100 lb. tops; grass steers, \$2.75 to \$3.50; wheat 50 cents, and grain sorghum 60 cents. We could find no price quotations on cotton.

Cal Farley of Boy's Ranch tells this one: School was out for the day, Gary, 6, and Webb, 7, were walking home. "We have a picture of George Washington in my room," Gary said, "I think he was my forefather."

"I don't know if I had four fathers or not," replied Webb, "If I did, three of them never came home. One was all I ever saw."

And also this one: The father found a map of the world in a magazine. Hoping to give his son a lesson in geography, he tore the map into several pieces and asked the lad to put it together again. In a few minutes he was finished and his father asked: "How did you do it so quickly?" The youngster said: "There was a picture of a boy on the back. I figured if the boy was put together right, the world would come out right, too."

National 4-H Is Meeting In Chicago

SPECIAL—Sixteen hundred of the nation's finest youth will open the 45th National 4-H Congress in Chicago on Sunday, November 27. They will represent the 50 states and Puerto Rico. A group of Canadian 4-H'ers will be special guests. About 700 adults associated with 4-H Club work are also expected to attend.

The Congress will open with an impressive program based on the 1967 theme: Pursuit of Excellence. The keynote speaker will be a woman who has pioneered a long list of "firsts" for women, and who will add yet another "first" to her record. She will be the first woman ever to keynote the opening assembly of the National 4-H Club Congress, now in its 45th year.

She is Mary G. Roebing, chairman of the board of Trenton Trust Company, Trenton, N. J. She is first board chairman of a major commercial bank and the first woman governor of the American Stock Exchange.

Mrs. Roebing is one of the nation's outstanding women in finance, public service, social and educational activities. A widow, she has a married son and daughter and five grandchildren, so she seems to be well qualified as a parent to speak to a teen-age audience.

Before the 4-H'ers leave home, they are oriented as to what they will encounter on the trip to Chicago, which for many will be the first time away from home. They will travel by bus, train or plane. They will be briefed on staying

Every boy and girl who attends the Congress is sponsored by a business concern or private enterprise. The sponsor also is host to the young people during the week-long event.

It is traditional that the 4-H Congress be held during the same week as the International Live

Stock Exposition, although none of the delegates show animals there. Some may have in previous years, but it is a Congress rule, the delegates cannot be exhibitors.

However, they do visit the Exposition on Wednesday afternoon and evening as guests of the International management. They will travel by chartered bus from the Conrad Hilton Hotel, Congress headquarters, to the International Ampitheatre where an impressive evening program will take place.

Its new look is just one nice thing about the '67 Chevy pickup

THERE ARE LOTS OF OTHERS.

For instance, new durability: New sheet metal construction discourages rust. Eliminates exposed joints on cargo box and tailgate. Provides self-washing wheelhousings with special splash shields. Inner cab is specially treated against rust.

Also, added comfort, safety and convenience: Improved visibility all around. Dual master cylinder brake system. Telescoping lower steering shaft. Energy-absorbing instrument panel. Interior color-keyed to go with exterior paint. One-hand tailgate latch.

And extra strength: Full-depth double-wall side panels (Fleetside models). Double-wall steel in cab roof and other important areas.

Plus famous Chevrolet truck features: Independent Front Suspension that gives a smooth ride—like a car. The most popular truck 6's and V8's. (And there are lots more, as your Chevrolet dealer will show you.)

Bulldogs Lose...

(Continued from Page 1, Sec. 2) 25 to its 17, then had to punt. But, taking over on their own 46, Tahoka couldn't get an offense going.

The next series, Plains moved in six plays to the Tahoka 15, and Tahoka defense forced the Cowboys to give up the ball four plays later on the Tahoka 6.

Two plays later, Tahoka lost on a fumble at its own 12. Plains made only one yard in three plays, one an incomplete pass. Then, Elmore made a perfect place kick from about the 17 to make the score 10-0 Plains with 1:25 left in the quarter.

Opens Up Passing Attack
Tahoka now opened up a passing attack, as Williams fired to Roberts for 12, then to Schneider for 8, Chandler ran for 4, but early in the fourth quarter, Tahoka drew a 15-yard holding penalty, and Inklebarger put the Cowboys in another hole on their 8, Bulldog defense got ruggid again, and Plains punt went only 21 yards from their 9 to their 32.

Now, Tahoka lost 2, gained 11 on a pass to Roberts, but bogged down and Plains took over, drew a 15-yard penalty, made 9 in three plays, and another punt gave Tahoka new life when the ball went only to the Plains 34.

Freshman Back Scores
Tahoka gained another penetration when Williams found Schneider on a 19-yard pass and run play then hit Roberts on a 7 yard catch to the Plains 8-yard line. A pass to Schneider failed, and on third down Freshman HB Tim Walker was called on, the line gave him a hole, and he scooted through right guard, avoided a couple of tacklers and went in for Tahoka's only score. A pass for conversion failed, but although there was only 3:55 left, fans felt the Bulldogs might be back in the game as Plains led now only 10-6.

Plains Scores Quickly
Tahoka tried a short kick-off, Tahoka almost covered the ball, but a Plains lad wrestled it into his arms on the Plains 36. Two plays made only 2 yards, then, QB Lynn Rollins faded, hurled a long pass down the field to end Mike DeVries, and Walker caught him at the Tahoka 22.
Elmore made 3, and on the next play broke through the right side of the Tahoka line and dashed 19 yards for a quick TD, then kicked the conversion to make the score 17-6.
With time running out, Tahoka

Tahoka Soldier Is Given Promotion

Ft. Bliss, Tex. (AHTNC)—Joe Castellon, 19, son of Mr. and Mrs. Thomas Castellon, Route 1, Box 8, Tahoka, received an early promotion to Army pay grade private E-2 on completion of basic combat training at Ft. Bliss, Tex., Oct. 20.

He was awarded the promotion two months earlier than is customary because of his accuracy in firing the M-14 rifle, high score on the physical combat proficiency test and his military bearing and leadership abilities.

The early promotion program is an Army policy providing incentive for outstanding trainees.

Mrs. Pat Swann Now Doing Fine

Pat Swann of Wilson, while visiting The News Friday, declared his wife has made a remarkable recovery from her heart surgery of nearly two years ago, does her own cooking, and is able to come down every Friday "to have Echo fix her hair."

Mrs. Swann underwent open heart surgery three times, the first early in December 1964, followed by two more operations and success.

tried 9 passes in about a minute and a half, one good to Roberts for 15 yards, another to Roberts for 10 yards, and finally a pass was intercepted by Plains' Greg Jones on the 50 yard line and he ran the ball to the Tahoka 33. Jones made 3, Tahoka drew a 15-yard penalty, and as the clock ran out Elmore failed to make good on another place kick.

Tackling Not So Good
Tahoka defense may not have looked quite so good as in some games, but the Bulldogs were up against another big, rugged line and some very hard runners on a team that had admittedly improved considerably from early season and were keyed up for Tahoka.

Twenty boys saw action in the game for Tahoka, including the starters, Chris Roberts, Wayne Thurman, Tommy Kidwell, Jodie Edwards, Richard White, Milton Edwards, Gary Brooks, Doyle Schneider, Mike Chandler, John Tyler, and Mitchell Williams.
Also seeing action were Charley Brown, Tim Walker, Jerry Jolly, Dewayne Schuknecht, Randy White, Joel Inklebarger, Billy Curry, David Rogers, and Willie Ewing.

The term "spot" cotton originally meant cotton actually on the spot at any market.

D. G. Phipps of San Antonio was up last week visiting relatives and looking after his farming interests. He says his son, Buster Phipps, has the best crop he has ever had since he has owned the land and is making a bale to the acre across the field.

To give cotton draperies a custom-made look, make scalloped hems, using a plate or round dish for a pattern. Place the dish on the wrong side of fabric and trace partly around it with pencil or chalk. Trim scallops with cotton tassel fringe.

In 5 years how much cotton will you plant?

Can you save your acres and profits?

Cotton acreage and profits *could* be going up, because people all over the world are buying more textile products.

But right now people are buying products made from synthetic fibers. As a result, not enough of our fiber is being used. Our carryover of cotton is the highest in history, and our acreage is the lowest in almost 100 years. The message is crystal clear—if we want to keep on growing cotton at a profit, we must sell more cotton.

The only answer... Cotton Research and Promotion

Expanded research and promotion are cotton's only hope. With these same two tools, producers of higher-priced synthetic fibers have taken a total market now equal to nearly 7 million bales of cotton. They have gained over 2 million bales in the last 2 years... and new plants are scheduled with capacity equal to another 3.5 million bales.

Growers also can use these tools effectively. Experience has proved it. The only problem is to get enough money to use them on a big enough scale.

New legislation makes that possible. It enables farmers to vote, in a Beltwide referendum, on establishing a uniform assessment of \$1.00 per bale for research and promotion. The law provides that individual farmers

who do not want to participate can have their assessments refunded.

Funds from uniform collection will attract other money—more than two times as much on the average.

This plan originated with farmers. Thousands of growers and 61 cotton organizations across the Belt have endorsed it—overwhelmingly.

All projects must be initiated by grower trustees elected by cotton farmer organizations. Other provisions give equal assurance of producer control.

We, the undersigned, strongly endorse and recommend this uniform collection plan for research and promotion. We urge you to join us in working and voting for its approval in the upcoming referendum.
