United Fund Is At \$2,000 Mark

Worker's of Tahoka's United Fund reported that \$2,000 had been collected up until Wednesday morning, one-third of this year's goal of \$6,000.

The drive, this year headed by Harold Roberts, was kicked off Monday morning at a coffee meeting at Al Smith's. That night the local FHA girls made a door-to-door campaign in the city and received collections of \$657.00. Johnny Wells, chairman of the residential drive, says the girls are to be commended for their fine work as this is the chapter's third year in making the drive and several of the girls used their own cars.

Anyone who was missed in the local drive may send his contribution to Tahoka United Fund, Box 1388, Tahoka, Texas.

Roberts states that people involved with United Fund hope to complete the drive this week and have final reports Monday.

The four agencies of the United Fund here are Boy Scouts, Girl Scouts, Red Cross and Salvation Army. Contributors may give all these in one lump sum, may pay quarterly and monthly, or they may eliminate one or more of the agencies to which they contribute by designation on their checks.

Herb Lewis Is Still Alive In Spite Of 1918 War Records

Although officially dead since Dec. 19, 1918, Herb Lewis, longtime Tahoka citizen, is still alive and kicking, but after 48 years he still has not been able to break through Government red tape and get his World War I service records straightened out.

Early in the summer of 1918, Herb entered the service, was assigned to the Marines, trained briefly at Paris Island, N.C., and then was sent overseas to France with Headquarters Company, 5th U.S. Marines.

Following the signing of the Armistice on Nov. 11, 1918, Herb's outfit proceeded into Germany, he received an injury en route, was hospitalized, then given a medical discharge and was scheduled to embark for the States.

Somehow, though, he got sidetracked and had to stay over there some time longer.

In the meantime, he was evidently reported dead, since the following memorial, which he still has, was sent his mother, Mrs. J. W. (Molly A.) Lewis:

"In memory of Herbert C. Lewis, Hq. Co., 5th U.S. Marines, who died Dec. 15, 1918. He bravely laid down his life for the cause of his country. His name will ever remain fresh in the hearts of his friends and comrades. The record of his honorable service will be preserved in the archives of the American Expeditionary Forces. John J. Pershing, Commander-in-Chief."

MRS. CALLAWAY IMPROVES

Mrs. E. E. (Pearl) Callaway, who was critically ill in Hendrix Memorial Hospital at Abilene for several days, is now reported by her nephew, Q. T. Brian, who was here last week end from Abilene, to be much improved. In fact, he says her doctors may let her go home soon.

The will be two ballots on which farmers will determine the question: 1. Will marketing quotas be approved? 2. Will the \$1.00 per bale promotion and research order be approved by upland cotton producers?

The vote on marketing quotas is basically the same as it has been since 1953. A two-thirds favorable vote would mean that farmers will have about the same cotton program as they had this year. A non-favorable vote will mean no diversion or price support payments, with a loan rate of 50 percent of parity for farms staying within the farm allotment.

The vote on the proposed promotion and research order, the \$1.00 per bale check-off proposition, will be to determine whether cotton producers believe that they should contribute \$1.00 per bale to the cotton board to be used to find ways to improve the quality, uses and sale of upland cotton.

If this proposition carries, a cotton handler, to be appointed by the cotton board, will collect one dollar per bale from each producer, beginning with the 1967 crop. Anyone who doesn't want to pay may obtain a refund by filing a written application.

Approval by two-thirds of the growers voting, or by a majority if that majority accounts for two-thirds of the volume of production represented in the referendum, will be necessary for the research-promotion program to become effective.

Care Is Urged In Buying Presents

Christmas is just around the corner—Santa's arrival usually means toys and clothing for "little ones", and extra presents from Mom and Dad. The lure of the toy counter can become overpowering.

Ann Duncan, County Home Demonstration Agent, suggests that before you buy ask yourself some simple questions. What about this toy, will it interest the child? How long will it interest him? Is it safe, durable, sanitary and attractive? Is it a size and weight the child can handle easily? Can it be used in a variety of ways? If it came apart would there be danger in the child's swallowing a piece or cutting himself? Are the toys suitable for play and storage space available? How much adult supervision does the toy require?

When selecting children's clothing look for "self-help" features. Buy clothing which allows the child to dress himself. Some things to look for are: front openings, zippers with handles for small fingers, slip-on articles, mittens rather than gloves, back of garment easily distinguishable from front and large buttons and bottom holes.

Toys and clothing play an important part in the child's social, mental and physical development. Consider his needs and interest before buying. More information is available from Lynn County Extension Office.

T. B. Mason Opposes \$1 Per Bale Proposal

"By T. B. Mason"
There is a big publicity campaign urging farmers to vote for the \$1.00 per bale assessment for research and promotion of cotton.

All businesses that profit by the production of cotton are telling us cotton farmers we had better vote for the \$1.00 per bale so they can stay in business and make some money. Notice, none of these businesses are putting any money in, even though their business depends on the farmers continuing to produce cotton. I feel that related industries that depend on cotton production should help finance any program we all benefit from.

We are told the lack of research and promotion is the cause of our present cotton situation. This is not so. We have had the Cotton Producers Institute in operation the last few years that spent several million dollars per year in addition to all the other programs being carried on. The decline of our cotton exports has been the result of U.S. assistance to foreign producers and at the same time a non-competitive foreign sale program by our U.S. Government. Our Government pretty well controls exports of cotton to foreign countries. All the change I can see in our Government export policy has been reducing the basic price from 24c to 22c per pound this year.

One of the first official acts of Secy. Freeman as Secretary of Agriculture was to set the cotton price support at 32.5c lb., which was 2.5c more than the domestic mills had to pay in 1959-60. At that time (1961) the Secretary could set the support price any where from 26c to 36c per pound. But, to please farmers insisting on higher price for cotton, the economics of price competition with synthetic fibers was not given

much consideration. Legislation has been passed twice since 1961 giving the Secretary more authority each time to regulate and manipulate the cotton production industry.

Now, this research and promotion act, if approved by the farmers, gives the Secretary full and complete authority in selecting organizations that will be permitted to make nominations to serve on the cotton board. He makes appointments to serve on the board from these nominations. I think it should mention that this cotton act specifically states that one of the considerations in selecting board members is that they be in agreement with the Secretary in general cotton policy. I would also like to emphasize that no research or promotion project can be put into operation without approval by the Secretary.

I am voting against this \$1.00 per bale assessment because of this additional authority it gives the Secretary of Agriculture. It seems to me we cotton farmers have just about been legislated, regulated, and manipulated out of the cotton producing business already.

Other areas of the U.S., such as California, have for years been selling all the cotton they produce at several cents per pound above our price here because they produced high quality uniform cotton.

Remember, we are in direct competition with all other cotton growing areas in the U.S. and in the world in selling our cotton to the mills.

It will take a special effort to move our cotton into the market. First, we must produce uniform high quality fiber. To do this, we probably will need one variety communities or gins so that the mills will not have the mixtures of varieties and different spinning characteristics that is common with our West Texas cotton now.

The initiative for starting and continuing this improvement must come from us farmers and not from the Secretary of Agriculture or any program that the Research and Promotion Act may carry out. For example, how would you like for the U.S. Government to decide which variety for you to plant on your farm?

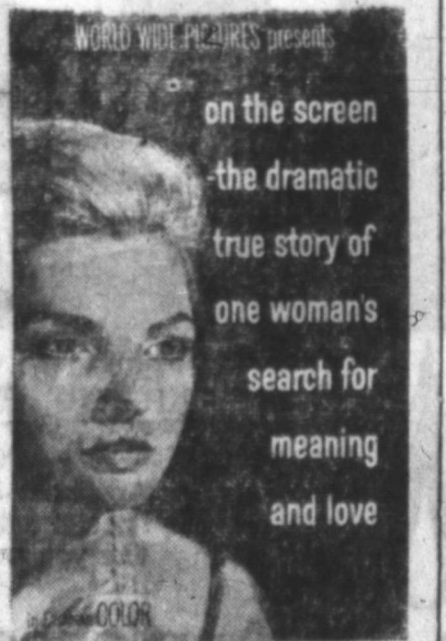

The Plains Cotton Growers have the financial support of 90 percent of the South Plains farmers in the campaign to control the boll weevil. A similar plan can be used to finance a program of research and promotion for our West Texas cotton. We will need such a program if we are to compete with other cotton growing areas, regardless of whether or not the \$1.00 per bale assessment is put into operation.—T. B. Mason.

CENTRAL NEWS

(By Mrs. R. L. Craig)
Thanksgiving day has passed. Seems like everyone is talking about Christmas and the family's Christmas tree and get-togethers. We have lots to be thankful for. Each of us should give thanks to the Good Lord for our many blessings He has given us to enjoy.

Received a letter from my son, Lt. Col. Lawrence R. Hulsey, who is stationed in Bangkok, Thailand. They are very busy getting ready to start back to the States Dec. 10. They are hoping they will be home by Christmas.

We can get good news and sad news at the same time. Mrs. Craig received news that her sister's husband had passed away at Graton, Calif. He had suffered a stroke several months ago and was paralyzed and could not walk or talk. Mr. and Mrs. Henry Farmer had visited Lynn county about three years ago.

Rev. Aaron Covert from Lubbock preached at Central Baptist Church Sunday morning in the absence of our pastor, Rev. Joe Sarrett. His wife and sons came with him. The Sarretts went on a few days' vacation trip.

Mr. and Mrs. Ruel Smith spent the week end in Fort Smith, Ark., with Mr. and Mrs. Berry and family.

Mr. and Mrs. Bill Lusk and Mr. and Mrs. H. D. Daniel visited

ed Sunday afternoon in the home of Mr. and Mrs. A. B. Bush. Patti Pendleton from Brownfield spent Thursday night in Tahoka with her grandmother, Mrs. A. Pendleton, and Saturday with Karen Craig.

Mr. and Mrs. Bill Craig and family visited Sunday evening with Mr. and Mrs. Dean Laws and family.

Those visiting in the T. B. Mason home Thursday and enjoyed a turkey dinner were Mr. and Mrs. Brown and son from Hobbs, N. M., Mr. and Mrs. Charley Mason and son Ray from Ragtown, Joe Mason from San Angelo College, Jack Mason from Texas Tech, and Mrs. Mason's brother and wife, Wade and Thelma Ray from Los Lunas, N. M., and her mother, Mrs. E. E. Ray.

Mr. and Mrs. George Davis of Lubbock and Mr. and Mrs. Earl Chesser of Waco visited a while Friday night with the R. L. Craigs. Eunice Tolleson of Amarillo and Patti Pendleton of Brownfield and Karen Craig from Tahoka spent Friday night with the Craigs. Other visitors were Cardie Laws of Tahoka, who spent Saturday night and Sunday and attended Church and Sunday School at Central Sunday morning.

Cardie Laws spent Sunday night with her sister, Mrs. C. C. Jones. Mr. and Mrs. Charlie Craig went

to O'Donnell Sunday afternoon and visited their son and family, Mr. and Mrs. Wayland Craig and children.

Mrs. Randy Workman and Mrs. Norris Workman, Gary, Ila, Tina, Christie, Donna, Mike and Roland spent Thanksgiving in Baird with Syble's sister, Mr. and Mrs. Travis Hunt and family.

Cecil and Martha Gray of Lubbock visited his parents, Mr. and Mrs. Elmer Gray, Saturday.

Mrs. J. B. Ray spent the week end with her son Johnny and Opal Ray and family of Post.

Mr. and Mrs. Dean Laws and family went to Lamesa Thanksgiving and ate dinner with Mary Lee's sister, Mr. and Mrs. Donnie Fairweather. They came back home by Tahoka and had Thanksgiving supper with Dean's mother, Cardie Laws. Others who visited Mrs. Laws were Mr. and Mrs. Kelly Laws and family.

Mr. and Mrs. Fred Pendleton and Freddie and Patricia from Seminole, Mr. and Mrs. Biff Davis and son Mark of Brownfield, Mrs. A. Pendleton of Tahoka and Mrs. Craig ate Thanksgiving dinner with Mr. and Mrs. Sport Pendleton and family in Brownfield.

ily, Mr. and Mrs. Berry, and other relatives. Marie and Shery Gerner of San Angelo and Lorene and Carl Ragan Reed from Brownfield also went with the Norman family to Fort Smith. They all had a wonderful Thanksgiving and it came a big rain on them coming home near Sherman.

Hints Given On Christmas Cards

Every envelope bearing the 1966 Christmas postage stamp will be a masterpiece, Postmaster Charles Townes said today.

The special holiday stamp is a replica of a painting by Hans Memling, Flemish master of the Renaissance Era, now hanging in the National Gallery of Art in Washington, D. C.

The stamp, which is now on sale at Tahoka post office was designed from the central portion of Memling's oil, "Madonna and Child with Angels" which was painted on wood about 1480. The use of the stamp for the sending of greeting cards assures first-class handling. That means the cards will be forwarded if the addressee has moved or will be returned if there is a return address.

Unsealed cards with no written message may still be sent for 4c each, but they will not be returned or forwarded if they are undeliverable as addressed.

This is the fifth in a series of holiday stamps and the Postal Service expects it to be another best seller. The initial print order was for one billion, two hundred million stamps.

The Postmaster estimated that 21,000 of the stamps will be sold locally.

The stamp design was unanimously recommended to Postmaster General Lawrence F. O'Brien by the Citizen's Stamp Advisory Committee which passes on all stamps.

Mrs. Grace Meroney of Olney is here visiting with her brother and wife, Mr. and Mrs. Don Bradley for a week.

At a Special Meeting of the Board of Directors of Lamesa Federal Savings & Loan Association on Sept. 30, 1966, the Board approved an anticipated dividend rate of 4 3/4% per annum, effective July 1, 1966, for this semi-annual period. This rate applying to both the passbook and certificates issued prior to December 1, 1966.

Again on November 7, 1966, the Board of Directors took this further action: Special Certificates would be issued for all those qualifying and wishing to do so. Two classes of certificates were established, each carrying a different rate as follows:

SPECIAL CERTIFICATES: ANTICIPATED RATES

(For example \$5,000 or \$6,000 or \$7,000 or \$8,000 or \$9,000)

\$10,000 minimum and in multiples of \$1,000 at 5 1/4%

Minimum term for certificates 6 months, maximum term 1 year. Present accounts may be converted to certificates or Special Certificates purchased beginning Dec. 1, 1966, with a grace period of 10 days to give everyone wishing to convert or make new purchases ample opportunity to do so. Certificates converted or purchased during these 10 days will earn from the 1st of December, those converting or purchasing after the 10th will earn from date of conversion or purchase. All certificates issued between Dec. 1, 1966, and Jan. 10, 1967 will mature June 30, 1967. All those issued after Jan 10th will mature Dec. 31, 1967. All certificates carry the provision of automatic renewal for 6 months unless you are otherwise notified in writing at least 30 days prior to the end of the dividend period.

Present accounts converted to Certificates will earn at the passbook rate to date of conversion accrued dividends payable at the end of this dividend period.

We realize there will be questions, so we invite you to come in so that we can further clarify the conditions contained in these certificates.

You may make a new purchase or bring or mail your passbooks or present certificates in if you wish to convert them. You must actually convert them in order to receive the higher rate.

50,000 People Contract Tuberculosis Every Year, Most Could Be Cured

(Editor's Note: The following is one of a series of articles prepared by the West Texas Tuberculosis Association to remind the people it serves in 23 West Texas counties that Christmas Seals do a continuing job all year long. Where case histories are used, identities and locations are disguised to protect the privacy of individuals.)

Who can get tuberculosis? Anybody can. Fifty thousand Americans get it every year. Of these, about 3,000 are Texans. And in West Texas, in the first six months of this year, 51 persons were hospitalized from 16 of the 23 counties represented by the West Texas Tuberculosis Association.

The same people who get TB, give it. Your child can bring it home from school. Grandfather can breathe it in at the grocery store and pass it along to the family at home. You can even get it from a casual customer at the store where you work. Take the case of the healthy, successful saleswoman. Give her a name — Grace Brown. She's a friendly kind of person whom everybody likes. People laugh a lot

Lynn County Soil Conservation District News

ELMER OWENS HAROLD PAYNE
E. R. BLAKNEY BOYD BARNES
JIGGS SWANN

Robbie Gill has just completed bench leveling 15 acres of his farm and the remainder is scheduled to be leveled over the next two years.

Land leveling is a good conservation practice on irrigated farms, says Fred Graff of the Soil Conservation Service. More efficient use of irrigation water, and more efficient use of rainfall may be obtained from land that has been leveled. It also cuts soil erosion to a bare minimum.

All of the land on the Gill farm is situated around a lake. Therefore, due to the slope, all of it will be bench leveled. Each bench was constructed to be level within itself. This gives a stair step effect down the slope with benches parallel and point rows taken up at point benches. The fall from the upper side of the bench to the lower side did not exceed one-tenth foot.

Mr. Gill will now receive greater efficiency from his water than he could if he were using graded furrow system of irrigation. He achieves this by cutting the length of runs and forcing the water on the level.

Others having done land leveling or plan to level this year are E. L. Brosch, Melvin Wuenache, and Jiggs Swann.

This is the time of the year when members throughout the district should be thinking of

around Grace, and sometimes they cough. One fairly ordinary spring, Grace underwent a fairly ordinary operation.

Her surgeon assured her the operation was completely successful. That was good news, but Grace didn't feel good. She couldn't seem to get any pep back.

She suspected she might be running a fever in the afternoons, and she suspected she also might be showing the symptoms of a neurosis.

She hated to keep running to the doctor. While she debated the point, she noticed one day that the WTTA mobile x-ray unit was parked near the store.

It took her a minute and a half to fill out the blue card. She stood a few minutes in line. She felt so tired, she almost dropped out. But her turn came and she stood a second before the x-ray camera. She was through. She provided a contribution in the box stuffed and started back to work.

"Well, that takes care of that possibility," she thought. Here Grace was wrong. Here was the possibility that proved her problem. When her x-ray was checked, she was notified to see her doctor for further tests.

A few years back, Grace would have been told she had "galloping consumption," a devastating form of tuberculosis.

Her husband, her children and

Guest Speaker At Church of Christ

The Tahoka Church of Christ will hear a guest speaker this Sunday, as Jim McGuigan, a native of Belfast, North Ireland, occupies the pulpit. A second year student at the Sunset School of Preaching in Lubbock, McGuigan has preached extensively during the past two years in area towns as well as in other parts of the South and Southwest.

McGuigan's subject for sermons to be preached at the regular worship hours are: 10:00 a.m. worship service, "Skin for Skin," and at 6:00 p.m. worship service, "Hell." In addition to the regular worship services Sunday, the Church of Christ is hosting an area-wide Youth Rally at 2:30, at which time the speaker's subject will be, "Some Young People of the Bible."

Mr. McGuigan speaks with characteristic Irish wit and wisdom, and has an unusual capability of presenting a poignant message that will be long remembered.

Everyone is invited to attend these services, and all the young people of the community have a special invitation to attend the Youth Rally.

Dr. Fred Haney, Son Visit Tahoka

Dr. Fred Haney and son, Tommy of Houston, visited here over the week end with his brother, L. C. Haney, and family, after the group had attended a family reunion in Roscoe on Thanksgiving Day.

Dr. Haney was associated with his brother here in Tahoka Drug from 1923 until 1927, when he decided to make a doctor. He owns and operates his own clinic in Houston.

Reared in the city, this was one of Tommy's few visits to the West Texas farming country. He is a junior college student and is preparing to enter the service. Fred and his wife, a native of Louisiana, have another son who is now in the service.

NOTE OF APPRECIATION

The residents and administrators of LaVoy's Nursing Home would like to thank the sophomore group of the Y.W.A.'s from the Wilson Baptist Church for the place cards with scriptures given them recently. The girl's counselor is Mrs. Cecil Fields.

The folks express their appreciation to Mrs. Helen Ellis of Tahoka and John Burkett of O'Donnell for the useful items donated to the home. A piano stool was also given the home by Jack Waldrip and W. L. Lemon.

Each item given the home is greatly appreciated.—Mrs. Morris Bingham.

HALES IN HOSPITALS

Tom (Tee) Hale underwent surgery in Methodist Hospital Wednesday of last week and was able to return home this Wednesday. His daughter, Alta, in the meantime has been ill with a kidney infection at the home of his mother. And, Tee's dad, Tom Hale, expects to return to the hospital this week for the third operation on his foot. Otherwise, the Hales are doing fine, Mrs. Hale says.

close associates were checked. All these first reports proved negative.

For Grace, and important to others, her report meant a stay in a TB hospital until her disease could be brought under control.

Because TB plays cruel tricks, a close check was kept on her family. Within a short time, her husband developed an active case of tuberculosis; then a daughter; later a son.

The final outcome was a happy ending. Through immediate and good medical care and by good health habits, this is a lucky family.

Last year, 434 persons in Texas were too late in discovering they had TB. They were among the 9,000 Americans who dies of tuberculosis.

Christmas Seals helped purchase and help maintain the WTTA mobile x-ray unit which discovered Grace Brown's infection. They help pay for research to eradicate this disease. They help educate everybody to its danger.

Mahurins In Battle With Hawk In Car

Mrs. Joe Mahurin reported her husband's parents, Mr. and Mrs. E. C. Mahurin of Lubbock, formerly of O'Donnell, and grandmother, Mrs. R. M. Mahurin of O'Donnell, recently had a peculiar accident that could have been serious.

While en route home from a Midland visit, about ten miles north of that city, a hawk flew into the path of their car, and crashed through the windshield into the laps of Mr. and Mrs. Mahurin.

Before Mr. Mahurin could stop the car, the hawk had grabbed both Mr. Mahurin and his wife with his talons and would not let loose. On stopping the car, they killed the hawk. Only injuries to the three people were slivers of glass which they had to pick out of their flesh.

MRS. JIMMY ALDRIDGE (nee Miss Carolyn Reed)

Miss Carolyn Reed And Jimmy Aldridge Are Married Thanksgiving At O'Donnell

Double ring vows were pledged by Miss Carolyn Jean Reed and Jimmy Lynn Aldridge at 8:00 o'clock Thursday evening, Nov. 24, in the First Methodist Church of O'Donnell. The Rev. C. R. Nixon, pastor of the Hermleigh Methodist Church, officiated.

Parents of the bride are Mr. and Mrs. James W. Reed of O'Donnell, and Mr. and Mrs. T. O. Aldridge, route 2, Tahoka, are parents of the bridegroom.

Given in marriage by her father, the bride wore a formal gown of white velvet with empire waistline, long tapered sleeves, a bateau neckline, and a floor-length train extended from the shoulders. A cathedral Spanish mantilla of silk illusion, trimmed with Alencon lace outlined with small seed pearls attached to a small self covered pill box hat decorated with small seed pearls and crystal stones, covered the gown.

The bride carried a white Bible sent by her father to her mother 22 years ago from Honolulu. Atop the Bible was a lace fan with a large archid outlined with white roses.

Matron of honor was Mrs. Judy Boykin, cousin of the bride from

Nacogdoches, and bridesmaids were Mrs. Judy Crabtree and Mrs. Sarah Masten of Plainview. They wore dresses of deep gold velvet with A-line skirts hanging from the empire waistline. The sleeveless dresses were accented by long white gloves and shoes. They wore small caplet gold mantillas and carried small white Bibles given to them by the bride. Their bouquets, which hung from the wrists, were balls of multi-colored mums with tones of greens and golds of net and ribbon mixed.

Tom Hoskins of O'Donnell was the best man and groomsmen were Terry Colley of Klondike and Donald Richardson of O'Donnell.

Seating guests were Johnny Anderson, Bill Cook, James Williams, all of O'Donnell, and Jimmy Koehler of Klondike.

Candlelighters were Greg Reed, brother of the bride, and Miss Charla Cook, both of O'Donnell. Gift bearer was Richard Cook of O'Donnell, and Miss Cindy Cook was flower girl.

The girl candlelighter was attired identically to the attendants with a Spanish mantilla and had a wristlet bouquet. The boy candlelighter had on dark trousers with a soft green coat to blend. The flower girl was dressed like attendants but had a halo of flowers instead of the mantilla, and carried a basket of flowers.

Mrs. Carl Sprayberry, organist, accompanied W. J. Buchanan in wedding selections.

The couple greeted guests at a reception in the Fellowship Hall of the church before traveling to parts of New Mexico for a wedding trip. The bride wore a pink light weight wool fitted A-line dress with three-quarter length sleeves and a pink wool mohair sleeveless fingertip jacket. Her shoes and bag were multi-colored of pinks, wines, greens and black to blend in with her dress.

M. F. Jones Observe Golden Anniversary

Mrs. Peggy Beckum presented to Phebe K. Warner Club members and guests a very interesting and informative program on "New Reading Concepts."

Reading is a skill which improves and develops the person's ability to become a better student in all other subjects. Filmstrip instructional media was demonstrated by Mrs. Beckum.

Mrs. Carl Griffing was hostess for the club. A delightful Thanksgiving motif was carried out in her decorations and refreshments.

Stays Fresh Longer

What'd you expect us to put our Overhead Cam Six in?

An ordinary car?

Our revolutionary 165-hp OHC 6 is so revolutionary we had to do something special with it. So we made it standard in all Tempests and Le Mans. You see, it was inspired by those famous overhead cam engines in expensive European sports cars. With a few Pontiac refinements, of course. And with a power reserve for expressway passing you'd normally expect from a V-8.

We even offer a 215-hp version that makes a

lot of big V-8s seem awfully extravagant. Which is why we say, with a six like this who needs an eight?

Incidentally, a four-way hazard warning flasher, backup lights, and GM's energy absorbing steering column are some of the safety features also standard in Tempests and Le Mans. How can you resist seeing your Pontiac dealer today?

Here's a good example of how the Great Society works. Wilson Lions Club, through an arrangement with doctors, has been furnishing glasses to needy children at a cost of \$5.00 per pair. Then along comes the Federal Government with its program, takes over, and now the glasses are costing about \$50.00 per pair—paid for by taxpayers instead of the big-hearted Wilson Lions.

In regard to our growing Big Brother Government Bureaucracy, Sen. Edward V. Long, Missouri Democrat, following sub-committee hearings stated: "The Food and Drug Administration has bugged teachers, raided churches, harassed honest businessmen and maybe even used perjured testimony trying to convict the innocent. The Post Office has delivered private letters to federal agents for opening and spied on loyal employees in restrooms. Other government agencies even now are engaged in wholesale violations of the law. Our thoughts, hopes and aspirations are being scrutinized, evaluated, filed and kept for possible future use against us. It is terrible to contemplate, but we are permitting practices which, left unchecked, have resulted in police states in other countries."

In 1965, President Johnson made a plea for economy and promised cuts in government per-

sonnel. But, in two months, The Readers Digest reports, federal employment jumped 31,037. The Great Society planner decreed that jobs be cut back 25,000 by July, 1968. Instead, they shot up another 187,506. Approximately 540 more people were being hired every hour of every working day! How long can we tax payers in the cotton country keep taking on added burdens like this?

We're still looking for one of those pins bearing the label: "LBJ all the way."
If what people say who come to The News office to pay their subscriptions is any indication, our elected Federal government officials better be slowing down on this unprecedented spending for new far-out programs. People are getting pretty concerned about this inflation trend, reduced farm income, increased government controls, government doles to people who don't want to work, continued foreign aid give-aways, etc. We've heard some "old line" Democrats make some pretty strong statements about what they may do in the future if things don't change.

Cecil Waggoner in Claude News:

World of Make-Believe
A leading TV comic recently drew \$10,000 for a 10-minute guest appearance whereas an outstanding brain surgeon averages \$900 for a 6-hour operation.

A famous comic strip artist makes \$150,000 a year. The salary of the most distinguished professor at Harvard is no more than \$23,000.

A world champion boxer who fights with padded gloves made \$1 million in one year. An infantry PFC, who fights with live ammunition, gets \$2,014 a year.

A youngster who writes rock n' roll tunes took in \$500,000 last year. The man who wrote the lyrics for our National Anthem didn't get ten cents for them.

A football rookie, who has yet to play a pro-game, signed a contract for \$500,000. Our leading astronauts who have clocked the most time in space gets \$15,886 a year.

Should we teach our young people to concentrate on the shallows?

"Uncle Claude" also says: Most of us are suckers for the big lie... but gossips, politicians, and Communists continue to use the technique and we bite every time. In fact, the big lie fascinates us like a cobra swaying to a flute and it is usually as deadly.

Last week's Gaines County News carried a 60-inch advertisement by an automobile dealer advertising the Seagraves High Band and its director, Mickey Owens for its Division I rating in the interscholastic marching contests. Mickey is the son of Mr. and Mrs. J. W. Owens and is a graduate of Tahoka High and Texas Tech. Seagraves has long been noted for its top-rated bands.

Mrs. Cassie Fallin brought us a copy of The News dated May 15, 1950. Sugar was advertised at 17 pounds for \$1.00. Ford and Chevrolet two-door sedans were advertised at \$500.

When Earl Grider got the arch of his foot broken while working at a local gin, Rayford Smith wisecracked: "Earl quit work when compensation set-in on his foot."

We hope all our cotton producers are reading the series of advertisements being run by the Lynn County Committee For Cotton Promotion and Research. Some one asked us "Who is this committee?" Well, the advertising is being paid for by a few farmers and business men interested in the welfare of cotton. But, more than anyone else, we guess we could say the principal instigators are L. C. and Joe D. Unfred, two of our most progressive and aggressive farmers who are also spending a lot of their own money and time on this and other projects for benefit of Lynn county and the Plains farming country. Give them a hand, boys; they are at least fighting for our interests.

Some small twons just wither away; others get in the harness and keep going forward.

Thanks to Mrs. Lorene Tinsley, 2802 21st, Lubbock for these kind words: "Still can't get along without The News. Sure miss the Ink-lings when you don't enclose a generous amount of them. The world needs more people like you who will speak up."

Some people were traveling south out of Virginia, they lost track of where they were geographically, they were not sure whether they were in Virginia or Carolina, they soon came to a house by the side of the road, where some negroes lived, they asked is this Virginia or Carolina? The lady replied; "I am Virginia and Carolina is in the back wash."

"Grand Coulee," shouted the bishop when he hit his thumb with a hammer.

"Why Grand Coulee?" asked a friend.

"Well," said the bishop, that's the world's biggest dam."

Letters From News Readers

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

Dear Frank:

Greetings after many days! First I want to take this opportunity to thank you for The Lynn County News. I don't think a person can come to fully appreciate a paper like The News until he has been in a situation such as I am now. It has made my existence over here seem much less remote and it's enabled me to bring a small part of Tahoka into my daily life over here. Without it, I'm sure I would not have enjoyed this past year as much as I have. Right now I'm about 70 miles NW of Ibadan helping another

volunteer build a maize drier and silo for demonstration during the Agriculture Show. Driers and silos are almost non-existent in Nigeria. The farmers have to sell their maize as soon as it's harvested, therefore the type of drier we're building is made out of local materials and is cheap but effective solution to the problem. As soon as I finish here, I'll return to Ijebu-Ode and build four there. These will spread out over the province so as many farmers as possible will be able to see them working. The total cost is \$17.

Please excuse the handwriting, but the lantern I have is rather dim.

Sincerely,
Andy Bray, Peace Corps Volunteer, Ijebu-Ode, Nigeria.

(Editor's Note: Andy sends his regards to all the people of Tahoka, and promises to write an article or series of articles soon on life in that part of Africa and his work there.)

VOTE YES ON COTTON RESEARCH AND PROMOTION DEC. 5-9

Because:

- Higher-priced synthetics are taking our markets — over 2 million bales in the last 2 years.
- New synthetic fiber plants are scheduled; additional manufacturing capacity equal to another 3.5 million bales of cotton by end of 1967.
- Carryover is at all-time high; acreage lowest since 1872.
- 1966 acreage cut averaged 30%; further cuts will come unless carryover is reduced.
- Research odds (5 to 1) and promotion odds (16 to 1) must be reduced if cotton is to survive.
- Farmers originated research and promotion proposal; farmers will run it.
- Plan is voluntary; any farmer not wishing to participate can get a refund.
- 42 cotton producer organizations have endorsed this approach —officially.
- All projects must be initiated and administered by producer trustees elected by cotton producer organizations.
- If we want to keep on growing cotton, we must sell more cotton.
- Most farmers put nearly \$100 or more into growing, harvesting, and ginning a bale; can you afford not to spend \$1 to sell a bale?
