REED IN HOSPITAL

James O. Reed, vocational agriculture teacher at O'Donnell, entered West Texas Hospital last week end.

Texas uses more natural gas than any other state—about half of the gas it produces.

The only real cotton is 100 percent cotton.

We know you're in for a lot of worry if you employ five or ten or more people in a year. This will take a few more bales of cotton.

Mrs. Fenner Tibbs of Lubbock, the former Miss Juanella Windham, has sent The News 11 early day pictures of Tahoka citizens and street and ranch scenes for preservation as a part of Lynn County's history collection, only one of which this writer had ever seen before. Included is a picture of her father, Dr. S. H. Windham, pioneer physician killed in 1924 by a derailed ranch hand. The pictures had been preserved by her mother, who married Attorney Tom Garrard years later and passed away here last year. We need the help of some of you oldtimers to identify people in the pictures.

One of our subscribers inquired a few days ago if Bray Chevrolet Co. had ever missed having an advertisement in The News. Well, we checked back, and so far as we can determine, the Bray firm has had an advertisement in The News every week but one since the late Maurice Bray came here in 1948.

We got to thinking about our regular advertisers, and first to pop into mind is the First National Bank. If this firm has missed an issue since 1923, we don't know when it was—and maybe they've been in The News every week since back to 1907.

Then, there is W. T. Kidwell's Piggly Wiggly, The News' biggest advertiser, who says advertising in the home paper has been a "must" in building his business, has been advertising regularly since he came here in 1938 and some competitors gave him only six months to survive. Then, there is H. B. McCord, John Witt, Tatum Bros., and others who have been in the paper every week over a long period of time. Also, a lot of others find advertising pays in building their business and we appreciate every one of them. Randy Rutherford was our second largest advertiser until he voluntarily closed up shop to retire and take things easier, but he used advertising space generously to build up a big business.

We've had a few businessmen tell us advertising doesn't pay. They don't really believe this, because they put a sign over their stores and usually just love some free publicity. If they really believed this they should tell General Motors and Ford and Chrysler, because these firms and a lot of others are throwing away billions of dollars.

The News goes to 1,800 subscribers through the mails, and another 300 to 400 buy individual copies each week. Surveys indicate at least four people read a weekly newspaper, or about 8,800 in our case, and the weekly paper lays around the house an average of five days after the daily paper.

Letters From News Readers

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

Editor, The News:

I am an old timer of Lynn county. I came there with my father and mother, Mr. and Mrs. C. C. Johnson, settling a mile north and a quarter mile east of Draw. That was in January of 1917, and as you know that 1917-18 was very dry, so in September of 1917 went to Clarendon in Donley county to work.

We came back the first of January in 1918, landing on the 8th, and on the 10th a blizzard came. Lots of cattle froze to death.

There has been a lot of water run under the bridge since then, and some of it was muddy.

I moved up here in December, 1935, and have lived here ever since at a little place called Enoch, in the south part of Bally county. There is a lot of good farming land here.

I have retired from all work on a pension and am doing very well. Very truly yours,
W. C. (Curtis) Johnson, Enoch, Texas.

is thrown away. Some of these 8,800 people are bound to be interested in what the advertiser has to say about his wares or services.

Mrs. Ted Jourden, formerly Sandra Warren, of Sundown, writes that she doesn't want to miss a single copy of The News, and "Keep the Printer's Inklings coming, and I like reading about the early days in Lynn County."

Jim and Janey Adams, 4883 Mt. Casas Dr., San Diego, Calif., write some compliments on their old home paper and apologize for not visiting The News while in Tahoka Christmas.

Dr. Joe M. Lehman of Lubbock writes: "I still enjoy reading the paper each week!"

After working many hours the past week and filling out reports we have to make to Uncle Sam every year, we discovered that neither the Bureau of Census, Bureau of Manufacturers, or the Internal Revenue Service in Dallas furnished us a ZIP Code number of the office to which we are ordered under penalty of fine to send said reports. IRS doesn't even furnish a street or box address. We got a wee bit hot under the collar considering the fact we had been ordered to have ZIP Code numbers on out-of-town newspapers and considering the fact we had just spent about \$400.00 in labor and mailing stencils to comply with the order. If the Government is going to get so demanding on the people, George, why can't the Government use ZIP Codes if it's so all-fired important in delivering the mail economically. But, such is life when Big White Father in Washington takes over!

The same BIG WHITE FATHER is now warning farmers they had better keep records on employees, wages and hours, and report promptly Social Security and Withholding Taxes. We've had to do this many years, and

The telephone will always revolve around people. There is—and always will be—a courteous, willing operator as close to you as your telephone dial. She is ready to serve you in any situation or emergency where her personal help is needed. The very fact that she is there every hour of the day and night is a comforting thought in itself. The next time you routinely dial a number to talk to a friend or transact business, we hope you'll remember that the telephone is still a very personal instrument. It wouldn't work at all without our people, nor serve so well without our operators. That is the way it will always be.

Miss Cherri Lee Norman Becomes Bride Of A. G. Cook In Double Ring Ceremony Here

Miss Cherri Lee Norman became the bride of A. G. Cook in a double ring ceremony at 6:30 p.m. Friday in the sanctuary of the First Baptist Church with the Rev. Ray Martin of Coleman officiating.

Parents of the couple are Mr. and Mrs. A. L. Norman of Grassland and E. A. Cook of Tahoka.

Vows were taken before an altar featuring a large oval candelabra, flanked by greenery and baskets of bronze cysanthemums to complete the setting.

Given in marriage by her father, the bride chose a formal length gown of white peau fashioned with Florentine neckline, long fitted petal point sleeves and an A-line silhouette. The empire bodice and skirt front were accented with re-embroidered Alencon lace. The removable mantle coat featured bows at the shoulders and swept into a train. Clusters of pearl trimmed roses held her elbow-length veil of imported silk illusion. Her bouquet was a cascading arrangement of stephanotis and white orchid.

Miss Nan Saage of Slaton, cousin of the bride, was maid of honor, and Mrs. Dale Kincer of Floydada, the bride's sister, was matron of honor. They wore formal length dresses with scooped necklines and elbow-length sleeves of antique gold velvet.

Bridesmaids were Miss Judy Connolly of Tahoka and Mrs. Tommy Jones of Lubbock. Their dresses were the same as the honor attendants. They carried ball-shaped arrangements of bronze pom-pom mums and ivy with brown velvet tubing.

Dawn Kincer of Floydada, niece of the bride, was flower girl; ringbearer was Donny Kincer, her nephew; and Auvie Dale Kincer, nephew, was candlelighter.

Best man was Gary Dan Thomas and groomsmen were Dennis Clem, and two brothers of the bridegroom, Lynn Cook of Patricia and Bobby Cook of Tahoka. Serving as ushers were B. J. Patton of Levelland, Joe Bell of Meadow, Mike Northcutt of Tulla, and Milton Miller.

Mrs. Glenn Norman of Post played wedding music and accompanied the soloist, Vernon Scott of Post, who sang, "More and 'I Love You, Truly."

Following a reception in Fellowship Hall of the church, the couple left on a wedding trip to New Mexico. For travel, the bride chose a yellow wool shift dress with matching coat, brown accessories, and an orchid corsage.

Both the bride and groom are graduates of Tahoka High School, and both are attending West Texas State University in Canyon, where they will live at Apartment 4, 117 28th street. The bride formerly attended Baylor University, and was the State Farm Bureau queen for 1966. A. G. is a member of Phi Delta Theta Fraternity at WTSU.

Out of town guests at the wedding included the bride's grandmother, Mrs. S. L. Cox of Miami, Okla., and the groom's sister, Mrs. Charles Bragg of Fairfax, Virginia.

The only real cotton is 100 percent cotton.

MRS. A. G. COOK (nee Miss Cherri Lee Norman)

Mrs. Taylor Heads Pythian Sisters

Mrs. W. S. (Zella) Taylor was recently installed as the Most Excellent Chief and Mrs. Clifford Tankersley as Most Excellent Senior by the Pythian Sisters of Lynn Temple No. 45.

Names of these two most important officers of the Lodge were omitted in the story last week in The News about the installation ceremonies.

Lynn H. D. Council In Meeting Here

The Lynn County Home Demonstration Council met Thursday, January 19, at 2:30 p.m. in the Lyntegar Board Room. There were eleven members and Miss Ann Duncan, agent, present.

The meeting was called to order by the chairman, Mrs. Wayne Tekell. Mrs. Sam Pridmore called the roll and read the minutes of the last meeting.

Mrs. Tommy Sterling of West Point, representing the Friends of the Lynn County Library, told what the library committee is trying to do for the library.

Mrs. Troy Copelin read the standing rules. The time for council meetings was changed from 2:30 to 2:00 p.m.

Miss Duncan explained the 4-H Club work and the work with the home demonstration clubs.

The next council meeting will be February 16 in the board room.

Humorous Skits At Warner Club Meet

The Phebe K. Warner Club met in the home of Mrs. Warren Embree Tuesday afternoon, Jan. 24, and were entertained with humorous skits put on by the club members.

"Memory Saving Time" was acted out by Mmes. Emil Phrol, W. E. Cantrell and Beth McGehee. Characters for "Operations" were Joy Daniels, Peggy Atwell and Louise Wyatt. Jerri Pridmore and Dot Sparks were well cast in "The Hat". "Charmed, I'm Sure" climaxed the hour of fun and was well portrayed by Peggy Atwell, Zuma McWhirter, Joy Daniels, Madeline Hegi, Beth McGehee, Anita Billman, Marie Embree and Betty Green.

The twenty members present agreed with Drackery, who once said "Good Humor is one of the best articles of dress one can wear in society".

Bulldogs Upset Plains Cowboys

Tahoka Bulldogs, hitting their fine potential, staged a mild upset and completely snowed under the highly favored Plains Cowboys Tuesday night in the Cowboys' own gymnasium, winning by 22 points 69 to 47 in a rough and rugged affair.

Actually, the Cowboys, picked to repeat as 5-A District Champions, were never closer than 9 points after the first half, as the Bulldogs threw up a stout defense, had superb rebounding from Mike Lankford and Cliff Thomas, and had four boys scoring in double figures. Thomas had 13 rebounds and Lankford 12.

Both teams were nervous and cold in the first quarter, but the Bulldogs took a 10-4 lead, then scored 17 to Plains 14 in the second period for a 27-18 halftime lead.

The Bulldogs really went to work in the third and pushed the score 47 to 30. Early in the fourth, Plains cut the lead to nine points, but Tahoka bounced back for a convincing scoring of 22 points while Plains was hitting 17 for the 69-47 score.

Mitch Williams had 26 points, Doyle Schneider 13, Lewis Hise 13, Cliff Thomas 11, and Mike Lankford. Calvin Smith led Plains scoring with 21 points.

Lankford and Hise fouled out in the fourth quarter, but Gary Brooks and Wayne Thurman came

Tahoka Winner Over Seagraves

Tahoka Bulldogs won their third straight 5-A conference game at Seagraves Friday night 78 to 63 as five of the local boys scored in double figures. Tahoka lost the B-team boys' game 54 to 44.

In the varsity game, Tahoka led 17 to 12 in the first quarter, then hit an extremely hot streak in the second quarter to move into a 45-23 halftime lead to virtually ice away the game. Each team scored 17 points in the third period, and Seagraves out-scored the Bulldogs 23-16 in the fourth but it was too late.

Mitchell Williams had 23 points and Doyle Schneider 17. Lewis Hise 12, John Tyler 11, Cliff Thomas 11, and Mike Lankford 4, but Mike had 12 rebounds.

For Seagraves, Tim Blair scored 21 points and Phil Nash 20. In the B-game, Bill Curry was high for Tahoka with 14 points.

off the bench to help keep the game under control.

Coach Robert Ryan was highly pleased with the boys performance, and thinks they have been improving with each conference game. In fact, the Plains game was their best.

Tahoka lost the B-team boys' game 49 to 40. Chafey Brown led Tahoka scoring with 13 points, and Kennedy was high for Plains with 13.

Junior Teams Win Second In Tourney

Eighth Grade nosed by Seagraves 35 to 34 in its opener with Robert Garza and Robert Montemayor each scoring nine points. But, in the finals, they lost to Brownfield 36 to 31 with Larry Durham leading the Tahoka scoring with 15 points.

Each team brought home a second place trophy.

Tahoka Freshmen Lose Two Games

Tahoka Freshmen lost two games in the Seagraves tournament last week end, dropping the first to Seagraves 61 to 46 and the second to Morton 40 to 27.

THE NEWS

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Associated Press recently announced General Electric Company has blueprinted plans to add ready built cities to its regular product line which includes TV's, bulbs, and toasters. These cities are expected to cost about \$800 million to \$1 billion each, over a 15-20 year stretch.

GE isn't alone in this building venture. Goodyear Tire is already investing \$1 billion in a city for 100,000 inhabitants near Phoenix, Arizona.

Humble Oil and Refining Co. is doing the same in Clear Lake City, Tex. Similar investments have been made in Reston, Va., and Columbia, Md.

Not content with merely putting up houses, the corporations are also erecting churches, museums, schools, police, and fire departments.

The alarming image brought to mind with this news is that the "city" will be but another company product rather than an independent American community exuding its own individuality. The company town might well, instead, bear the stamp of the company trademark on its homes, schools, churches and civic center.

Goodyear rationalizes city-building by blaming the popu-

lation boom. Executives claim they are meeting this people's expansion with a new form of the housing development idea.

Way back in World War I, Goodyear purchased 13,000 acres of arable property on which to grow long staple cotton for tires. In the course of advanced chemical research, synthetic fibres replaced cotton for tire components, and the company was stuck with a lot of leftover land.

Not willing to let any sage grow under his shoes, the rubber giant decided to make the property pay off by constructing homes and buildings on it.

Patrick Cusick, Goodyear general manager, stresses the creativity and pioneering of the corporate project which already houses 600. Cusick claims that city construction is just catching on and won't really be a corporate pattern for another 5 to 10 years.

While city structuring may appear to be a benevolent sideline, and a trend of the corporate-giant times, the action impels some alarming questions. Far among these qualifications is whether or not existing home builders and contractors will be hurt or demolished by the corporate bulldozing? Secondly, how much power will the corporate master wield in the community? Will city building by the giants be a boon to the economy, or merely another economic encroachment?

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

The profile of a typical independent businessman in the medium bracket was recently outlined in an extensive study by Leo Cherne's Research Institute of America.

In this survey, researchers questioned 600 presidents heading independent firms with less than \$10 million a year in sales.

It was learned that 28 per cent of this group founded the businesses they headed, C. W. Harder and 27 per cent of them came from business owning families.

This was compared with presidents of firms with over \$100 millions in annual sales, and only 1 per cent founded the business, the rest serving as employees of the corporation.

Over 75 per cent of the heads of these medium sized independent firms had college training, corresponding quite closely to the presidents of the big corporations.

The background of these independent proprietors of medium size firms shows that 44 per cent are from families of a similar business background, almost 25 per cent arose from the ranks of white collar workers, and 31 per cent came from blue collar workers, or farm families.

Contrasted to the system of "moving up the chairs" to become the top employee of the

C. W. Harder

corporation's stockholders, sacrifices made by the independent proprietor... include working without relief, enjoying a minimum of family companionship, amusement, personal interest and hobbies. Although he maintains a certain enthusiasm for his work, he worries about the dwindling profits after taxes, the estate he can leave his survivors. Tension afflicts 33 per cent and 40 per cent are under time pressures.

And while the independent proprietor would like to devote more time to reading, he finds that the pressures of operating his business under present conditions confines his time to the extent of reading the local papers, the trade magazines, and perhaps scanning a general business publication.

While it is recognized that the independent business proprietor is usually conservative in political outlook, the survey showed that in 1964 a surprising 74 per cent voted republican, 22 per cent democratic, with 4 per cent declining to state. Only 37 per cent express any approval of current domestic policies.

And paradoxically, while big business is still considered to be the vanguard of the republican party, some big business leaders have publicly supported Great Society programs as the example of 22 of the heads of the nation's biggest corporations endorsing the Demonstration Cities Bill. In this respect, it is largely overlooked that the government has become a major customer of many of the huge corporations.

Lynn County Soil Conservation District News

ELMER OWENS HAROLD PAYNE
E.R. BLAKNEY BOYD BARNES
JIGGS SWANN

The value of crop residue in controlling wind erosion has been proven this winter, says Donald H. Reed of the local Soil Conservation Service office. "Where residues have been handled properly, the producers are having no problems with blowing. This is particularly evident where there is not a sufficient amount of moisture to list or chisel successfully. Crop residues with some supplemental surface roughing has proved effective for many producers over the district.

"Many tons of soil are lost each year in the Lynn County Soil and Water Conservation District due to improper utilization of crop residues. By using residues properly, farmers can reduce soil losses due to erosion and will be able to make better use of the moisture once the rains do come. "Where insufficient residue is on the surface, roughing such as listing or chiseling should be performed in an effort to control blowing," says Reed.

What kind of installs Gas Air Conditioning in the Winter?

A WISE ONE! He's the kind of nut that's hard-headed about solving a problem before there is a problem. That's the story in a nutshell. Install gas air conditioning now. You'll like the way it makes big cooling jobs seem small. Next summer you'll be the cool one while others are cracking under the heat.

Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE 86 soil fumigant applied at only 1 to 2 gallons over-all an acre, you can take care of root-knot, sting, meadow and other nematodes—those tiny soil pests that attack plant roots, suck away profits. FUMAZONE 86 soil fumigant increases yields up to \$200 an acre. Many High Plains ranchers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No

mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowsole method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow Farm Chemicals supplier about it. CENTRAL NEWS

(By Mrs. R. L. Craig)

Well, Sunday was a real nice warm day. We were real proud of it. But as we are writing the news, looks like West Texas winds will soon have the dust storms moving. But maybe it will snow. Had a good snow last year on January 20.

Our fourth Sunday singing was held at Central Baptist Church from 2:30 until 4. We had a good attendance. All had a wonderful time together. We had visitors from Post, Berry Flat and Tahoka. Rev. and Mrs. Surret and son David of Lubbock were Sunday visitors and dinner guests of Mr. and Mrs. Bill Ingle and family.

Mr. and Mrs. Ragan Reed and family of Brownfield were Sunday visitors of Lorane's parents, Mr. and Mrs. Bob Norman. Maudie Rose from Post came Friday and visited with her grandmother, Mrs. J. B. Ray.

Victor and Vera Lindsey and son Stephen of Jal, N.M., came Wednesday evening and spent the night with her sister and brother-in-law, Charlie and Vivian Craig. The Lindseys took their son back to Methodist Hospital in Lubbock for a check-up Thursday morning. They returned home Friday. Others visiting the Charlie Craigs Friday were their son and family, Mr. and Mrs. Wayland Craig and children of O'Donnell. They helped Vivian celebrate her birthday.

R-by Ray went to Spur Friday afternoon and visited her parents, Mr. and Mrs. H. D. Gartman. Her father, who has not been well for several months is about the same. Mrs. B. T. Green from Idalou, spent last Thursday visiting in the home of Mr. and Mrs. Jurd Young.

Mr. and Mrs. H. M. Thorton went to Ralls one day last week and visited Mrs. C. P. Carter, his mother, who is in a nursing home there. She hasn't been feeling so well. Hope she'll be better real soon.

Ruel and Mable Smith went to Abilene Saturday and visited with Bert Cash who is in a hospital there. Cash lived in this community many years before moving there. He has been in ill health several years.

Mutt and Montie Huddleston went to Bethney, Okla., Sunday to visit her brother and other relatives. Montie's brother, Mr. Jones, was to undergo heart surgery Monday in a hospital there.

Mr. and Mrs. William Young of Lubbock ate dinner Sunday with his parents, Jurd and Artie Young Sunday afternoon. Ruth and Artie visited in the home of Hi and Reba Turner.

William took his parents with them Sunday evening to spend the night. Jurd had a check-up at West Texas Hospital Monday morning.

My son, Lawrence Hulseley from Sherman AFB visited me Saturday morning. We went to the Grassland Cemetery and visited the graves of his grandparents. Lawrence and family visited Friday night with his brother, the Robert Craigs. Saturday afternoon his daughter, Pam, was playing and fell and broke her leg while swinging. She was taken to West Texas Hospital.

Our daughter, Mr. and Mrs. Dennis Herman and girls from Lubbock came down Sunday and ate a birthday dinner Pearl's mother had fixed for her and visited with us.

We are sorry to hear of Mrs. Hap Winkler being sick. She was taken to Garza Memorial Hospital in Post Wednesday for tests. Mrs. Winkler was my neighbor years ago.

Mr. and Mrs. Jurd Young visited Mrs. Winkler in the hospital Saturday evening.

Ruby Sheed of Post is staying with her father, Elmer Gray, while her mother is in Houston at M. D. Anderson Hospital for another check-up. We are hoping she will be home real soon.

Wesley Sales of Grassland visited his sister, Mrs. S. B. Mathis, last Tuesday. Other visitors were Colonel and Vernon Roberts of Post. They came by on their way to Plainview and visited a while with the Mathis.

Winifred L. Hallman died early Sunday in West Texas Hospital, where he had been hospitalized several days. He was reared in this community and graduated from Southland High in 1941. He was the son of Mr. and Mrs. H. D. Hallman, and is also survived by his wife, Fern, one son, three daughters, one grandson and three brothers. His funeral was held on Tuesday, Jan. 25, at the Epworth Methodist Church and burial was in City of Lubbock Cemetery. He was a brother-in-law of Mrs. Leo Stolle.

Mrs. G. D. Ellis' brother-in-law, Mr. Gene Murr of Frederick, Okla. died and was buried last week. Mr. and Mrs. Ellis attended the funeral.

Three Southland High basketball teams played at New Home on Tuesday of last week. The boys' team was defeated by the New Home team, but Southland won the other two games. Darrell Wilke got his ankle twisted in the very first play of the game and will be out of action for a while. On Friday night, Wilson Mustangs came to Southland to play and our girls beat their girls, 96-34, but Southland boys got beat 71-57. Our girls have won all their district games so far and the boys have lost two games.

Patsy Gindorf woke up on Saturday morning with the mumps. She played a fine game against Wilson on Friday night.

Mr. and Mrs. Arno and son, Warren, of Corpus Christi arrived in Southland early Monday to be with their daughter, Mrs. Winifred Hallman, in her time of need and sorrow. They had just been up here visiting with the Hallmans and the Leo Stollés and had returned to the home in Corpus one day last week.

Mr. R. D. Eckert is still confined in John Sealy Hospital in Galveston and still isn't doing well. Mrs. Eckert and daughter, Marie, are still in Galveston with him.

We were so sorry to hear that Mrs. Ed Lieske's grandson who lives in Wichita Falls received a very bad arm injury recently.

Rev. and Mrs. Billy Wilson of Wellington visited last week end with Rev. and Mrs. Tommy Wilson and Tommie Jean. The two Rev. Wilsons are brothers. Rev. Billy Wilson preached at Southland Methodist Church Sunday. On Saturday, Mrs. Tommy Wil-

son went to Roby to get her mother-in-law, Mrs. H. E. Wilson, and brought her back here for a visit. She also visited her own mother, Mrs. Gladys Williams, at Sylvester on the way down.

Friends of Minister and Mrs. Cline Drake bid them a fond farewell at a supper party given in their honor in the home of Mr. and Mrs. Weldon Megehee. There were 22 present. The Drakes were presented a beautiful wall clock. Mr. Drake has been the pastor of Gordon Church of Christ for a number of years and has made many friends in this area. They are moving to Cotton Center.

South Africa Much Like U.S., Says Speaker In Defending That Nation

"South Africa is more like the U. S. as a democracy than any other country in the world, yet it gets more trouble from the United States than from anywhere else, including the Communists," stated Tom Wallace, minister of Crescent Hill Church of Christ in Brownfield, in a talk at the Rotary Club last Thursday.

Mr. Wallace spent several years in Union of South Africa as a missionary, and he predicted South Africa is destined to become one of the greatest nations of the world. He corrected a lot of misconceptions about that nation.

He said South Africa is about

twice the size of France, has 17 million population, of which 3.5 million are white, 12 million African, and 1.5 million are "colored."

He also showed colored slides of the ultra modern cities of Johannesburg and Durban with their modern skyscrapers and more building all the time, and also of wildlife such as elephants, lions, etc.

South Africa is very rich in gold, uranium, gem deposits, and iron ore. Also there are large coal deposits, a supply estimated to last 2,000 years and this is the only place in the world where there is adequate coal supply adjacent to huge iron ore deposits. The country is highly industrialized and has 800,000 workers in 15,000 industries.

South Africa has segregation without apology and has little race trouble. He declares the American press overplays the troubles they do have, for actually black and white work in harmony for the most part.

The lot of the black man is superior in South Africa to any other place in the world except possibly in the U.S. There are many tribes, and they are all self-governing, but mostly recognize they are not ready for the atomic age in government.

Laboring classes are paid well, live well, and 85 percent of the population is literate. Hospitalization and education is offered all. It is so far ahead of other African nations that many black people from other countries try to enter South Africa each year.

There is no national debt, no unemployment, and he recommen-

led the country to young people as a land of opportunity. South Africans like Americans, especially Texans, but are apprehensive about American do-gooders trying to interfere in African affairs.

"South Africa is the only country in Africa that cares whether the U. S. lives or dies," the speaker said in closing.

Ralph Beistle, in charge of the program, introduced the speaker. Prior to the program, Dr. K. R. Durham in a humorous talk presented one of his "engraved" walking canes to a new "grandpa" member of the club, Maurice Small, the grandfather of a new boy, son of Jimmy Dumas Small of Muleshoe.

In response, Maurice, never at a loss for words, told how the new grandson would keep the Small name chain going for some time to come.

Lynn Bryant, new senior in the local high school from Littlefield, was introduced by Marla Bray, club sweetheart.
