## Tahoka Wins 5-A Basketball Crown

Tahoka Bulldogs had a close call Tuesday night, but barely pulled off a victory over the Seagraves Eagles 57 to 55 in the last nine seconds to cinch the District 5-A basketball title and the right to advance in the Texas Interscholastic League play-offs.

Plains Cowboys come here for games tonight, Friday, but regardless of the outcome, the Bulldogs are the champions because they have already won seven games and had no defeats in conference play. B-team boys play at 6:00 p. m., followed by the A-team boys at about 7:30 p. m. Plains has lost two games, one to Tahoka and one to Coahoma.

Tahoka will meet the winner of District 6-A either Monday, Feb. 20, or Tuesday, Feb. 21, at a place to be decided. Aspermont is leading the pack in that district by one game, but must defeat Roscoe at Aspermont this Friday night for the title. If Aspermont loses, that team and Roscoe will be tied and will have to have a play-off game for the title.

Coach Robert Ryan's Bulldogs started off slowly early in the season, but when they began conference play they "looked like an entirely different ball team," and have played good enough ball to win.

Tahoka's conference scores to date are:

- Tahoka 56, Coahoma 43.
- Tahoka 92, O'Donnell 50.
- Tahoka 78, Seagraves 63.
- Tahoka 69, Plains 47.
- Tahoka 63, Coahoma 61.
- Tahoka 65, O'Donnell 48.
- Tahoka 57, Seagraves 55.

Tuesday night against Seagraves here, the Bulldogs were "light as a fiddle string" and made many mistakes, especially in the first half, while the Eagles had little to lose and played a better brand of ball, although they committed mistakes also in the final stages.

## Mrs. Gus Gatzki Dies Wednesday

Mrs. Gus Gatzki, 74, of Wilson, a Lynn county resident nearly 30 years, died Wednesday at 4:20 p. m. after a week's illness following a stroke.

Funeral services will be held today, Friday at 3:00 p. m. in Wilson Methodist Church with the pastor, Rev. Max Browning, and a former pastor, Rev. W. O. Rucker of Lubbock, officiating. Burial will follow in Green Memorial Cemetery under direction of White Funeral Home.

Mrs. Gatzki, whose maiden name was Ida Witt, was born in Kieszno, Romania, on October 2, 1892. At the age of 14, she came to the United States in 1906. She and Mr. Gatzki were married on March 23, 1912, at Westover, Baylor county. They came to Lynn county in 1938, and Mr. Gatzki was a ginner for Thomas Brothers at Grassland for several years, then bought his own gin at Gordon. They moved to Wilson six years ago when Mr. Gatzki retired and built a home there. A year or two ago, they went back to Europe for a visit.

Mrs. Gatzki was a member of the Methodist Church and the Order of the Eastern Star.

She is survived by her husband; two sons, Raymond of Taft and Sam of Wilson; three daughters, Mrs. Les (Hilda) Cartwright of Artesia, N. M., and Mrs. W. W. (RUBY) Stewart and Mrs. V. L. (DOLLY) Clein, both of Brownfield; one sister, Mrs. Lydia Schneider of Denver, Colo.; three brothers, Sam Witt of Denver, Otto Witt of La Junta, and G. Witt of Ordway, all in Colorado; 15 grandchildren, and four great grandchildren.

Palbearers will be Bunyan Corbell, Fernan Chapman, Sam Crowson, A. C. Cash, Lee Mason, and Wm. G. Lunsden.

## '67 License Plates Are Now On Sale

Motor vehicle license plates for 1967 are now on sale at the Lynn County Tax Assessor and Collector's office and at several other places over the county.

Tuesday night, 402 sets of license plates had already been issued, compared to almost the same number, 405, that had been issued at the same time last year.

Plates must be on all motor vehicles operated on any public road or highway by April 1. License plates may also be obtained at the Co-op gins in Wilson and New Home and at Moore Insurance Agency in O'Donnell. New car inspection stickers will soon be needed, also, and these may be obtained at local inspection stations.

## 2,442 Register To Vote In County

Voter registration this year under the new law fell a little short of last year, when the old poll tax law was in effect, but still is a near-record for an "off-year," reports George McCracken, county tax assessor and collector.

A total of 2,442 had registered when the deadline was reached on January 31, compared to last year, an election year, when poll taxes and under-age exemptions were 2,491.

In 1964, there was a total of 2,853, and in 1965, an "off" year, there were 1,542.

Persons 60 years of age and older do not have to register in Lynn county to vote if they meet other qualifications.

## Grausons' Daughter Enters John Sealy

Mr. and Mrs. D. R. Grayson left Saturday for Galveston, where they expected to enter their daughter, Debbie, 16, in John Sealy Hospital for examination and possible treatment.

Mrs. Grayson's mother, Mrs. Merle Wilkins, accompanied them, and she and Mrs. Grayson were to remain there with Debbie.

The local March of Dimes Chapter, headed by Clifton Clark, made arrangements for her entrance in the hospital and also is giving the girl some financial help.

## Horace McQueen At Young Farmer Meet

Horace McQueen, farm editor of KLBK-TV station, brought the program to Tahoka Young Farmers Monday night, showing pictures and telling of the farm tour of Europe last year by a number of Texas farmers.

McQueen expressed disappointment on learning first hand that our Government representatives in Europe are not pushing trade in American farm products, particularly cotton.

He was leaving early Tuesday to visit Australia, and promised to bring the local Young Farmers a program on that country when he returns.

## SHERRILL IN HOSPITAL

J. E. Sherrill, a resident of Draw community for about 45 years, was taken to a Lamesa hospital Tuesday seriously ill. He suffered a light stroke some time ago.

Mr. and Mrs. Clayton Lawrence and daughter, now farming northwest of Friona, were here last week end visiting Mrs. Lawrence's mother, Mrs. Alice Fortenberry.

## Junior Stock Shows On Area Schedule

Junior Livestock Shows will claim the attention of many Lynn county 4-H and FFA boys the coming weeks.

Early this week, a number of youngsters were showing stock at the Southwestern Show in El Paso which ended Tuesday, but did not fare too well, County Agent Bill Griffin reports. David Pearson of O'Donnell placed 11th with his middleweight Angus steer.

This Saturday, the Tahoka FFA project show is being held here in the County Livestock Building.

New Home and Wilson have been holding a combined show, but they have split up this year and New Home will have its show at New Home on Saturday, Feb. 18.

Wilson will hold its community show in the County building here on the following Saturday, Feb. 25.

O'Donnell will hold its community show on the same date, Feb. 25, in the O'Donnell school building.

Lynn County Junior Livestock Show will be held in Tahoka on March 2, 3 and 4.

Several boys and girls will enter stock in the San Angelo Show on March 9, 10, and 11.

Annual South Plains Junior Livestock Show will be held in Lubbock on March 20, 21, and 22 this year.

## San Angelo Show Draws Lynn Entries

San Antonio—Forty 4-H and FFA members of Lynn County have a total of 83 entries at the San Antonio Livestock Exposition which runs Feb. 10-19 at the Joe Freeman Coliseum.

Youngsters from this area, who have entered 83 barrows in the San Antonio show include: Mac Young, David Savell, Gary Moore, Keith Wied, Lee Moore, Lawrence Stabeno, Robert McDonald, Delt on Moore, Dan Savell, Ronnie Baker, Dennis Moore, Dave Lee Stone, Dennis Verkamp, Donnie Abbe, Jim Adams, Billy Applewhite, Larry Arnold, Steve Braddock, Charlie Brown, Steve Chaney, Laylan Copelin, Billy Curry, Jody G. Edwards, Donnie H. Fitts, James Gormley, Michael Glenn, Mike Huffaker, Roy Isham, Mike McDonald, Kent Powers, David Rogers, Doyle Schneider, John Scott, Edward Smith, Doug Taylor, Greg Thomas, John Tyler, Randy White and Roger Williams.

## BUILDING NEW HOME

Lester Miller is having a foundation laid for a new home he will move to lots he has bought on W. Lockwood, the Brownfield highway, in the Owens Addition.

Lynn county's National Foundation March of Dimes to raise funds to aid children with birth defects and to continue the fight on polio will be completed next week, announces Clifton Clark, county chairman.

The annual Mothers' March will be held Monday night in Tahoka and O'Donnell, beginning at 6:00 p. m.

In Tahoka, the Pythian Sisters are in charge and will be helped by the Rebekah ladies and the Rainbow Girls, and other ladies are invited to offer their services in the house-to-house campaign, states Mrs. W. S. (Zella) Taylor, head of the Pythian Sisters. Cake and coffee will be served the workers at the hall.

Workers will meet at the WOW Hall promptly at 6:00 p. m. to start the drive. Fire Chief Pat Patterson will sound two blasts on the City fire siren to kick off the drive and to remind people to turn on their porch lights, tie up their dogs, and get their contributions ready.

Mr. Clark asks citizens to show the ladies and girls every courtesy possible such as turning on their lights and tying up dogs, for these people are working free for a community cause.

At O'Donnell, the drive will be conducted under direction of O'Donnell Fire Department, and Chief Leroy Mensch, and he asks similar cooperation for the ladies working there.

About 1,000 March of Dimes envelopes have been mailed to people in Tahoka and on rural routes out of here. Citizens may mail these back to the local chapter, or may give their checks to Garland Thornton at First National Bank.

Part of the funds raised will remain here for treatment of local children, but actually, Mr. Clark says, the National Foundation has spent more on Lynn county polio and birth defect patients than the county has put into National Foundation.

Just this week the Lynn County Chapter has financed admittance of a local girl with a birth defect in John Sealy Hospital at Galveston.

Since polio has virtually been wiped out, largely through financing by the National Foundation, attention has been turned primarily to birth defects.

## Mental Health Film Shown At School

"People Who Care" was the title of a film on mental health shown at Tahoka High School assembly Wednesday morning by Mrs. J. R. Harris, executive secretary of the Lubbock County Association for Mental Health.

The program was sponsored by the local Future Homemakers of America Chapter and Mrs. Madeline Heitz, who is the local director of the Mental Health Association.

Mrs. Harris announces a seminar on mental health will be held in Lubbock Tuesday, March 7, from 8:30 a. m. at the First Christian Church.

## Burglars Hit New Home, O'Donnell

Tuesday night, Mayfield Grocery at New Home was broken into, and a lot of merchandise taken, including T-shirts, blouses, cigarettes, shotgun and rifle shells.

Deputies Doyle Woody and Harmon Watts investigated the O'Donnell break-in, and Woody and Bill Wilkinson the New Home case.

Mrs. V. L. Botkin underwent surgery Wednesday in West Texas Hospital. She is reported doing nicely.

## Snow Fails To Dent Drouth

Light snow which fell Tuesday afternoon, and during Tuesday night measured about one inch in Tahoka and produced .08 inch of moisture in the U.S. Weather Bureau gauge kept by The News, the most moisture received here since Sept. 20, when .29 inch was measured. Last "good" rain was on Sept. 15, and total rain for September was 2.99 inches.

Since September 20, there has been a total of only .14 inch in 142 days, up until February 9, the driest period in the history of the South Plains.

Although local records have been kept since 1913, Tahoka's record for 1915 to 1929 were not complete or lost by the Weather

Bureau. However, Lubbock, Post, and Lamesa records all show more rainfall during the famed 1917-18 drouth than has been recorded the past four and a half months.

Normal rainfall for this period in Tahoka is about five inches. Following the .29 inch on Sept. 20, Tahoka received .05 in November, only a trace in December and January, and the .08 Tuesday.

There is still some deep moisture, farmers report, and land listed early turned out in pretty good shape in most areas of the county.

Farmers are not too discouraged, however, because most of them do not now expect too much moisture before April. But, a good

soaking rain or snow would work marvels over the Plains country.

## New Lynn Elm Tree History Is Revealed By Mrs. Ellen Terry

There's a bit of interesting history behind that elm tree that stands at the northeast corner of the New Lynn gin lot, where old New Lynn school once stood, according to Mrs. E. B. (Ellen) Terry.

Back in 1928, on February 22, there was a community gathering at New Lynn school, "dinner on the grounds", and 32 trees were set out by people of the school district on the campus.

Trees were being sold to school patrons for purposes of setting them out, and when tree No. 13 came up, no one would buy it. Not being "hexed" by No. 13, the late Mr. Terry, who passed away August 28, 1942, bought this tree and planted it. Mrs. Terry says that today this is the only one remaining of the 32 trees planted.

Teachers at New Lynn at the time were Mr. and Mrs. A. V. Price, Miss Genevieve Voss of Post and Miss Bobby Lee Rhodes of Slaton.

Nearly forty years ago, Mrs. Terry wrote these words as a record of the planting:

"One tree was set out by my husband, father of my three children, E. B. Terry, in their honor and in making the school beautiful. Long may the tree live and grow to grace the place where his children have gone to school." And in the name of the boys, she wrote: "We hope to be boys he will be proud to own, and also our only sister, Irene."

"Then another note by Mrs. Terry: "May we all remember this day's work. Written by Mother, for my dear children with love, my dear boys and little girl. I hope to see good from this work. Please remember this, my dear children, I am writing this for you all to read in years to come." The children are Doyle and C. B. Terry of Lamesa and Mrs. Otis Spears of Bovina.

Jerry Edwards returned to California last week end. He had been visiting visiting his parents, Mr. and Mrs. M. H. Edwards, following the recent death of his brother, Homan.

Mrs. J. B. Elmore is in El Paso for a few weeks for a visit with a sister.

# Mrs. May Still Drives At 90 Years "Young"

By GAYLE NOLL  
Sunday Avalanche-Journal

"I don't mind anyone knowing my age, except a cop. I'm afraid if one knew, he might make me quit driving. And if that day ever comes, I'd just as soon pass on."

This is the way Mrs. W. H. May, 3311 24th St., expresses her views on admitting her age, and on her zest for driving.

Her age? She'll be 90 Tuesday (Feb. 7).

Her driving? She does plenty of it. And during the past 75 years has driven a lot of covered wagons and cars without an accident.

"I am a careful driver, and guess the Lord just watches over me," she says.

A humorous, active great-grandmother, Mrs. May looks at least 20 years younger than the calendar would indicate.

Her "recipe" for a long life is: "Work hard, eat no breakfast, and sit up until midnight." And she lives by it.

Every day she labors diligently at one or more of her hobbies, rarely going to bed before midnight, and rising each morning by 7.

"I never did like to eat breakfast. A person can get more done if he'll skip eating and get started. It's a joy just to have something to do," she says.

She paints china every Friday, and has made hundreds of pieces, many of which have been given to friends and relatives.

And she does many types of sewing — needlepoint, crochet, knitting, making tablecloths. Also as might be expected, she quilts, and has made a quilt for each of her 13 great-grandchildren.

Each Saturday she drives to Slaton for a beauty shop appointment, and often jumps in her car and heads for Tahoka or Post to visit friends, or to Wilson, where she checks on the farmland and ranch she owns there.

She also finds time to clean her large seven-room (3-bedroom, 2-bath) home, but a maid comes

MRS. W. H. MAY

weekly to help her with this chore. And she does all her own cooking.

In honor of her birthday, her daughter, Mrs. B. W. Baker, 2503 53rd St., and granddaughter, Mrs. Bob Meador, 4518 W. 13th St., hosted an open house for Mrs. May at her home from 3-5 p.m. Sunday. Approximately 150 guests have been invited.

Born Feb. 7, 1877, in Hamilton County, her maiden name was Kate Brown. She went to a country school, and in 1896 at the age of 19, she and W. H. May were married in Hamilton County.

They lived there three years before moving to Floyd County in a covered wagon. Then in 1901 they moved to Lubbock County, where they lived two years before going to Lynn County near Wilson in 1903, where they farmed and ranched until 1950 when they moved to Lubbock.

Her husband died in 1955. They had three children, Mrs. Baker, the late Edwin May, and the late Mrs. Vernon Shaw. She has five grandchildren, and two living sisters, Mrs. S. A. Cummings of Wilson and Mrs. Bell Ingle of California.

An active member of First Baptist Church, Mrs. May is a member of Golden Circle Sunday

## Mrs. Durham's Kin Dies In Oklahoma

Miss Margaret Hutchinson, 67, sister of Mrs. K. R. Durham, passed away Tuesday, in Oklahoma City. She had been in ill health for about 2 years.

Miss Hutchinson was born in Little Rock, Arkansas. She was a graduate of Louisiana Baptist College, and the Baptist Seminary in New Orleans. She was the leader of the young people's Baptist Woman's Missionary Union in Arkansas, and for 15 years was executive secretary for the Baptist Woman's Missionary Union in Oklahoma. She served at that post until her retirement in 1963.

Miss Hutchinson is survived by one sister, Mrs. K. R. Durham, Tahoka, and three brothers, W. P. of Denver City, James of Corona, California, and Charlie of Shreveport, Louisiana.

Burial will be in Shreveport, Louisiana, Thursday, Feb. 9, 1967.

## Court Rules Against New Water District

South Plains Underground Water Conservation District No. 4 was declared "not a valid and legal district," as result of a court suit decision in 106th District Court at Seminole rendered Tuesday of last week.

A small portion of southwest Lynn county was a part of the proposed district which also included Terry, Dawson, Andrews, Gaines, Yoakum, and Cockran counties.

Suit to nullify the district was brought by C. R. Shaddix of Seminole and others against John Kendrick, president, and the water district. Vote forming the district had failed in large portions of the proposed area to be covered.

The green, white, red flag of Mexico contains the portrait of an eagle and cactus.

## School class.

One of Mrs. May's "pet peeves" is western movies that aren't realistic. "Soon as I see one on TV, I snap off the set. I lived in the West and I know what it was really like, and those TV shows don't usually portray it as it really was."

She never thought Lubbock would develop into a large city when she first saw it in 1901. "With all the sandstorms, I could not imagine a lot of people settling here."

Some of her opinions on: Space program — "They keep talking about going to the moon. Well, they might, but I doubt it. I'll have to see it before I believe it."

Senior citizens being required to take drivers' tests and physical examinations — "Well, I might not pass the tests, but I sure try to be a careful driver, and driving means a lot to me."

Retiring — "I haven't and don't ever expect to."

Her advice for the young generation? "I don't have any. I'm too old to give advice. Things change, and I don't feel qualified anymore."

RECEIVES PRESS HONOR — Sergeant Major of the Army, William O. Woodriddle of Brownwood, Texas, was honored by Texas Press Association with its 1967 "Distinguished Service Award" at the Association's Winter Meeting in San Antonio. Woodriddle, shown here with the copper, engraved plaque, presented by TPA, is the Army's Number One enlisted man and the first ever to hold the title of Sergeant Major of the Army, a position created in July, 1956. In making the plaque presentation, TPA Pres. Jim Barnhill, publisher of the Hillsboro Daily Mirror, said "We are most proud to pay tribute to the Sergeant Major for the tremendous service he has rendered our nation and for the fame he has brought to Texas."

Senator "Doc" Blanchard writes the 60th Legislative session promises to be an exciting one with many problems and surprises. Among other things, he says on the agenda for action are recommendations for amending the Code of Criminal Procedure. We think the legislature should not dilly-dally around on this one. The Supreme Court, together with some terrible faults in Texas' new Criminal Code, almost handcuffs officers in investigating crime. This has come home to Tahoka in hampering officers in the investigation of the Bray case. We are already doing too much codding of criminals. A life sentence no longer means life in the penitentiary, but just means a murderer or rapist may be turned loose in a few years to commit another crime. The law-abiding public should have some rights, too.

Naymon Everett, the O'Donnell barber who is a Borden County native, says he has a new hobby—collecting barbed wire samples. He already has several varieties of early makes. One is from the drift fence that ran over in Borden county west of Cedar Lake. Another is the so-called Slaughter drift fence across Southern Lynn county. These drift fences were put up back in the 1880's and 1890's in the day of open range, and were put up to keep the ranchers' cattle from drifting clear out of the country when a blue norther blew in. There should still be some of the old Slaughter fence wire on farms in the neighborhood of Redwine, Midway, and T-Bar.

Naymon is especially interested in Borden County history, a member of the Historical Society there which is to establish a museum, and he is hunting relics and records and stories to file there. He brought The Printer two little booklets, "A Drive Up Trail" by Ophelia Dorward Blackard about her family and "The Dorward Family Making History" by Adella Shaw Drew and Zedie Mae Bills Miller. The Dorwards were pioneer Borden County cattle people.

The Askew boys brought us a picture of their dad, the late P. E. Askew, riding a two row planter pulled by five mules and three horses.

Our thanks go to Harlan Dean, who brought us a copy of the book of poems, "One Who Works", published by his mother, Mrs. C. W. Dean, who passed away on December 29. Mrs. Dean was a lady of great talent whose verses revealed a warm, dedicated and understanding heart.

We showed Harlan the picture Happy Smith brought us of the somewhat famed, in this area, Tahoka football team of 1930. Harlan was a member of that team and his brother, Vernon Dean, now deceased, was assistant coach. Head coach was Weir Warsham. An All-Southwestern Conference back at Baylor and was in the terrible train-bus crash that took the lives of the Baylor football players in the 1920's.

Members of the Tahoka 1930 team were: Raymond Jackson, Dee, Eastridge, Robert Benson, Woodrow Walker, Curtis Stevens, Dayton Short, Boswell Edwards.

**O'Donnell Young Homemakers And Farmers In Meeting**

The O'Donnell Young Homemakers, their husbands and the Young Farmers and their wives met Feb. 2, in the Homemaking Dept. for a joint meeting.

The guest speaker was Mr. Harvey Pruitt, Superintendent of the Smithtown Maternity Home in Lubbock. He spoke on Parents and Juvenile Delinquency. He said that if parents would give more of their time, love and more of themselves to their children, we would see a great drop in the problems of today's young people. "We have the best group of young people in the history of our land, but they have too much pressure, are given too much opportunities and too much freedom," says Mr. Pruitt.

Twenty seven guests attended the meeting. Mrs. Kenneth Williams and Mrs. Jerald Barton served refreshments. An inspirational, "Home is where the Heart is" was given by Mrs. Harold Sanders.

In a business session, the Young Homemakers voted to assist with the Muscular Dystrophy drive, to provide a "Showmanship" trophy for the O'Donnell Livestock show and to assist the Young Farmers in a volleyball tournament. The tournament will be held the later part of the month of March.

Vance Tredway, Norvell Redwine, Captain Jack Minor, Billy Lester, Vernon Jolly, Harlan Dean, Clifton Janak, Dewey Curry, Coughran Ketter, Frank Fenton, and Amel Willingham Jimmy Applewhite was the mascot. Although defeated by Slaton, that was probably the greatest team of Bulldogs ever.

Some of the boys were discussing the children of Mr. and Mrs. Marcus Edwards following the sudden death of Homan, and The Printer was reminded of another son, Wells, who died in an airplane crash while in the Air Force. As a boy of age four or five, Wells had inherited his mother's musical talent and played a "red hot" jazz saxophone. He was quite a hit locally at school and theatre programs. Some one would have to lift him to the top of the piano, where he stood and played while his mother accompanied to the cheers of the audience.

There have been many developments in education since the Public Schools were established in Texas one hundred and thirteen years ago. The celebration of Texas Public Schools Week points this out. During this special week from March 6 through March 10, the Public Schools of Texas hold open house for everyone. It gives those who are interested the opportunity of seeing how our schools are equipped, how they are staffed, and how the children are taught. There will be many surprises for those who have not visited a public school in recent years. The Texas Public Schools have kept pace with the space age and are providing the type of instruction which you have a right to expect. The new scientific methods are combined with the three R's to give the children of today unparalleled opportunities to learn. The school administrators and teachers are eager to reveal new teaching techniques and to answer any questions about our Public Schools which you may have. Locally, the open house will be on March 7 at 7:00 p.m.

Swiped from exchanges: A legislator suggests that taxes could be a lot worse. Suppose we had to pay taxes on what we think we're worth.

You are genuinely happy if you don't know why. Only the rich can be eccentric—the poor must be satisfied with being nuts.

Becoming bored on a long auto trip a small boy suddenly said to his father behind the wheel: "I wish you'd let Mom drive. It's more exciting."

**Letters From News Readers**

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

Below is a sampling of many much appreciated letters and notes The News receives around subscription paying time. We get a lot of others, but we can't print them all—and some we don't always know whether or not the writers would want printed. Anyway, thanks to all of you!

**OLDTIMER WRITES**

Dear Editor:  
I'm sending your check for the renewal on the good old Lynn County News before my time runs out. I sure like my old home paper and really enjoy Printer's Inkings. I enjoy reading all the paper.

I know a lot of people I never see any more—can kindly keep up with them by reading your paper. Been thinking I might get up there and see you good people but have been so busy haven't got there yet.

Oh, Mr. Hill, wish you would send us a good rain—beginning to really need one all over the county, as it is almost farming time, again. Hope everybody can make good this year 1967.  
Best of luck to you all.  
Yours Truly, Mrs. Lon Light,  
512. North Ave. H. Lamesa.

Dear Old Time Friend Frank Hill:  
Here comes a check for one year's subscription to my beloved home town paper. It is read each week just like a letter from "The Folks". Your Ink-ings are always very-interesting and some time rate a pretty hearty laugh. The news of our friends of yesteryear is a joy to read, such as the mention of Lester F. Sheffy of Canyon, who is a former college friend of mine. When you mention Roscoe, Texas, I think of all the good cotton and also the wind in that West Texas area. Your good paper was read for many years by my dear deceased husband.

Your Friend,  
Mrs. Suma B. Fortenberry,  
Kerrville, Texas.

Dear Editor,  
I'm sorry you didn't let me know sooner when my subscription expired. But thanks a lot for

sending it. Mr. and I can't get along without the Lynn County News. I'll try not to forget next time. Just keep the paper coming my way.

Mr. and Mrs. C. E. Birdwell returned Monday from Royce City, where they visited relatives and friends. They saw Hugh Taylor, formerly "Taylor the Tailor" of Tahoka who told them he still enjoys reading The Lynn County News. They also saw the T. D. Dunlaps, who moved from here to Garland on retiring.

Plastratone is so easy to use, that even if you never touched a paint brush before, you can get professional looking results with very little effort. Considering the results, Plastratone is the most economical coating on the market. This expensive looking texture finish is over 1/16 of an inch thick and would cost \$100 to \$150 to have done professionally. Having this done professionally would necessitate an additional purchase of paint to color the surface. Plastratone eliminates these expensive and time consuming steps at a fraction of the cost.

While you re-surface you re-color in any one of 10 popular fashionable tones, in the same operation. Use on: wallboard, cement, stucco, plywood, wallpaper, plaster, brick, wood, metal and concrete.

### WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

An investigation of the U.S. Office of Economic Opportunity is advocated by 82 per cent of the nation's independent proprietors, according to a recent National Federation of Independent Business survey. The Federation has urged Sen. Everett Dirksen, Ill., to hasten action on his Senate Resolution No. 78 to probe the OEO and prevent waste of Federal funds, such as a recent questionable allocation of \$219,304, to train 40 Zuni Indians to manufacture the type of jewelry they have been making for generations. This could perhaps lead to a hypothetical situation such as No Running Water's.

One day a buyer from Tiffany's the famous New York jewelry firm came to the area, and was taken by a guide to No Running Water's tepee. The representative was very impressed with the Indian's talents and made him an on-the-spot offer to sell his gems in the exclusive 5th Avenue store.

No Running Water really branched out now, building additional tepees for use as an office and warehouses. Then

one day, another visitor appeared on the mountain side. He introduced himself as a representative of the U.S. Office of Economic Opportunity.

"I am here to inform you about a new Government course being offered by the OEO in jewelry making," announced the somber stranger. The Government has allocated \$219,304 to train 40 members of your tribe in the manufacture of jewelry."

"No needum school," responded No Running Water. "Make jewelry all life. Father make jewelry all his life. Grandfather make jewelry all his life."

"But," interrupted the official, "We want to instruct you in the most modern methods."

"Soundem loco. Besides, too busy with business to go to school."

"I'm sorry, but we must insist. It is a Government regulation that no one can make jewelry unless he has taken the prescribed course, 1001AZ. Never fear, you will be adequately compensated: almost 5 1/2 thousand dollars, to be exact."

"Just for going to jewel school?"

"Merely for attending classes," was the official reply.

So No Running Water enrolled in school, dropped his traditional tribal attire and donned the stylish Mod dress. He was last seen dancing the twist and monkey with the local coeds.

#### Cap Rows Visit Arkansas Relatives

The W. L. (Cap) Rowe's returned Monday from a two-week trip to Arkadelphia, Ark. They visited relatives and friends. Austin Rowe, Cap's brother, has a broken hip, but is doing fine and getting

around in a wheel chair. The Rowes visited the Johnnie Kirkhams, and feasted on fish, squirrels, and birds. Johnnie is an avid sportsman. They also saw Mr. and Mrs. A. B. Cox, formerly of Tahoka, and the supervisor of the ASCS office here, and the Ode Brewers.

About 25 families gathered at the Community Center for supper and visiting during their stay. Sunday they visited a little country church where an old fashioned singing convention was being held.

#### OLD STONE FORT Nacogdoches

The Old Stone Fort standing on the campus of the Stephen F. Austin State Teachers College at Nacogdoches is generally believed to have been built during 1779 or 1780.

It has been held and garrisoned at various times by Spain, Mexico, the Republic of Texas, the Confederacy and the United States.

It was truly an outpost in the wilderness!

Nacogdoches itself, one of the four oldest civilized settlements in Texas, was named for the Nacogdoches Indians. Here in 1716 the Spaniards established Mission Nuestra Senora de Guadalupe around whose deserted buildings Nacogdoches was permanently established in 1779.

# Weed Control Becomes Important To Farmers

Weed control will be the subject for discussion at a breakfast meeting for farmers at Al Smith Cafeteria here on Monday, Feb. 20, 6:30 to 7:15 a.m., according to County Agent Bill Griffin.

Dr. Rupert Palmer, Extension agronomist and weed control specialist, and Elmer Hudspeth of South Plains Research and Extension Center, Lubbock, will be present to present information following the breakfast.

Researchers serving the High Plains recently prepared their 19-67 recommendations for successful use of pre-plant herbicides in cotton.

The recommendations are based on tests, observations and county agents' comments from over the cotton production area, according to Dr. Allen Wiese, weed control researcher at the Southwestern Great Plains Research Center, Bushland.

Pre-plant herbicides are suggested for fields where severe weed problems exist and where hoeing costs have been high.

The pre-plant herbicides have acquired tremendous popularity recently although Wiese believes some farmers could save money with hand applications of pre-emergence herbicides.

Farmers seem to prefer broadcast pre-plant applications because they can be made before the busy planting season and because they reduce late cultivations which increase moisture loss and prune cotton roots.

Pre-plant herbicides have given best results on the South Plains when applied to dry, flat soil prior to bedding for pre-irrigation, Wiese says.

Heavy crop residue should be thoroughly worked into the soil before application.

The herbicides must be incorporated into the soil two to four inches within a few hours after application, he said.

Wiese attributes the few cases of poor results with the pre-plant herbicides to faulty application, to listing deeper than incorporation and failure to use follow-up weed control measures.

Faulty application comes from not calibrating the sprayer and from overlapping or skipping spots in the field.

"You can't use the tractor tracks as a guide for your spray-boom," Wiese says. "If you're applying the herbicide and discing in one operation, the spray boom should be the width of the area you cut with the disc. If you're just applying spray, I strongly urge the use of a row marker as a guide."

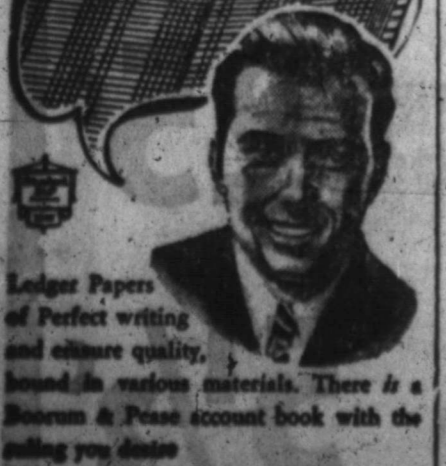

Elmer Hudspeth, ag-engineer at the South Plains Research and Extension Center near Lubbock, works closely with Wiese on weed control studies.

Hudspeth uses a method of sprayer calibration that is one of the easiest to remember and accomplish.

The first step is to record the number of seconds it takes your tractor to travel 100 feet at spraying speed.

The second step is to collect spray from the nozzles it takes to cover 40-inches for the same number of seconds it took the tractor to travel 100 feet.

## Campaign Against Smoking Is Project Of State PTA Body

The Texas PTA will be cooperating in a health project by the National PTA and the U. S. Public Health Service as they further the campaign against smoking for the school-age students.

This campaign, aimed at seventh and eighth grade students is centralized in a brochure, "His First

Cigarette May Be A Matter of Life or Death."

The U.S. Public Health Service findings indicate that every day more than 4,000 young people try smoking for the first time; by the age of 18 half the nation's teenagers smoke regularly.

"We believe that education based on scientific facts is in the public interest, and specifically, may help boys and girls live longer, healthier lives. This is one of

our basic commitments in PTA and I invite and encourage your participation." So states Mrs. L. L. Ledger, State PTA president.

## Driver Training Film At Rotary

Two Rotary Club officers were elected, and new directors were nominated at Thursday's Rotary meeting.

Robert Abbe was re-elected secretary and "Pete" Hewlett treasurer. Harold Reynolds in July will advance from vice president to president, succeeding Harold Roberts, and a new vice president will be elected by the board.

Nominated for three places on the board were Roberts, Dayton Parker, Leighton Knox, Maurice Small, and George McCracken. Holdover members are Binie White, Garland Thornton, Ralph Beistle, and Reynolds.

Clifton Gardner presented a program on "Driver Education" the purpose of which is to teach proper driving habits to youngsters in school, present the traffic picture of today and tomorrow, promote safety and efficient operation, develop personal skill and responsibility, and create high standards of performance and conduct.

School students have 30 hours of classroom instruction, and six hours behind the wheel with individual instruction in proper driving.

He presented statistics on the cost of driver accidents, and declared 41 of every 100 youths killed in Texas are in car accidents, and are between the ages of 15 and 24. By comparison, only one percent in this age group die of cancer.

Gardner also showed a film story of how even a safe driver can meet with tragedy by not making sure the car is safe from the other car.

Dr. Skiles Thomas was in charge of the program.

Farmers in Lynn County Soil and Water Conservation District have completed 587,000 feet of parallel terraces to date this season. Some additional 500,000 feet of parallel terraces are under construction. Some waterways and diversions have been installed in connection with parallel terraces. Grid maps have been completed on 32 farms, this is the first step in parallel terracing.

Fourteen farmers have completed parallel terraces systems on their farms this season. Recent terrace jobs completed are on B.

L. McLaurin, Larry Hagood, Ira Vaughn, Joe Brooks, Charles Brookshire, and Kenneth Huffaker farms.

Sheet and gully erosion exists on most farms in Lynn county that are not terraced says Arvel Woolsey, Soil Conservation Technician. Parallel terraces are relatively new in this area, however, they have been accepted by the farmers as the records show.

If you are interested in putting parallel terraces on your farm, contact the Soil Conservation District Board.

## Nematodes take their cut off the top.

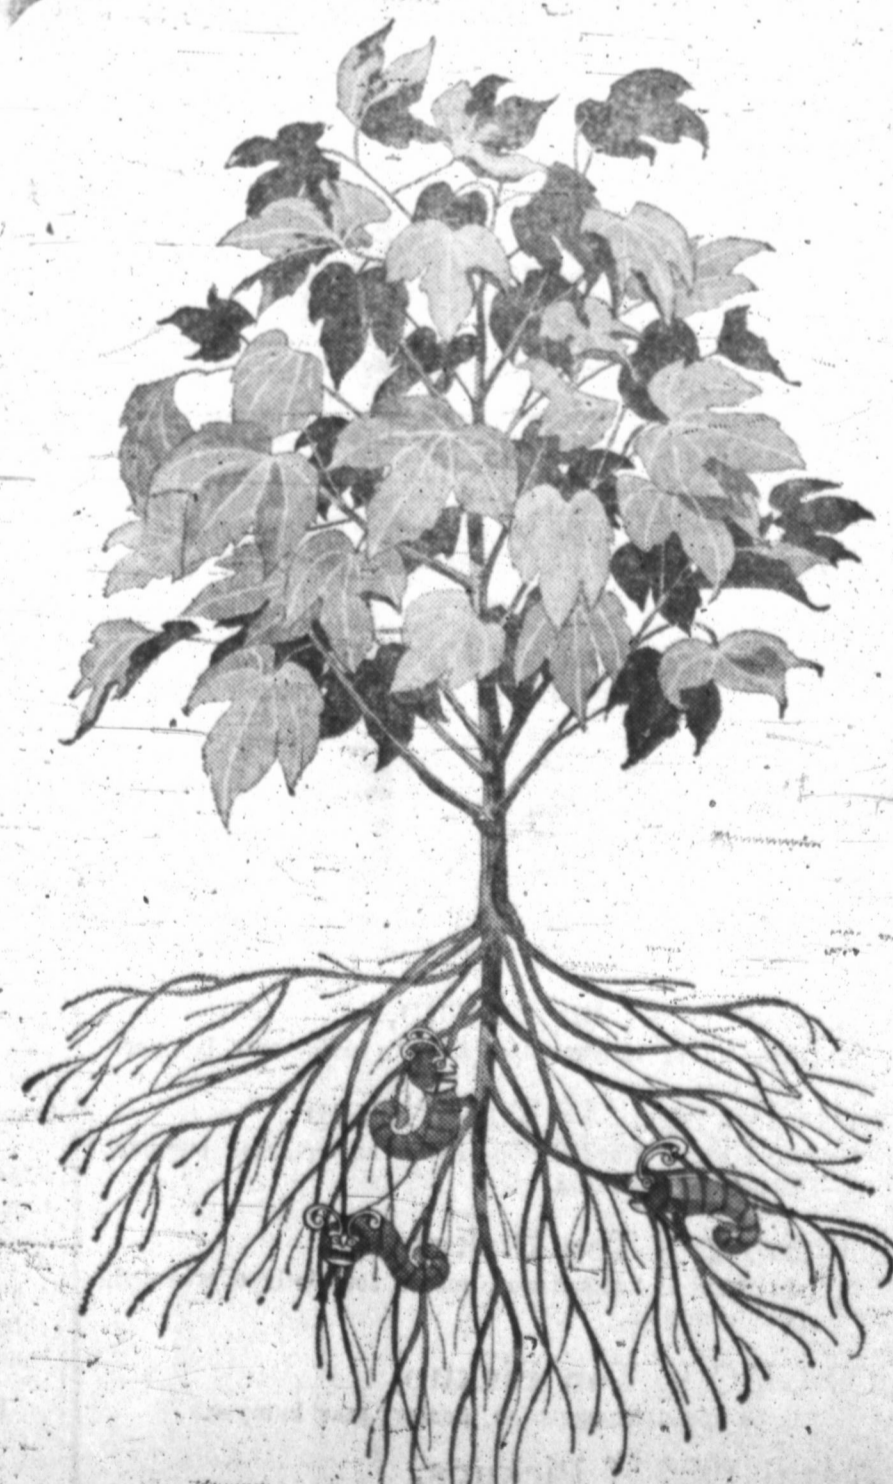

(Unless you cut them off at the bottom.)

Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE 86 soil fumigant applied at only 1 to 2 gallons over-all an acre, you can take care of root-knot, sting, meadow and other nematodes—those tiny soil pests that attack plant roots, suck away profits. FUMAZONE 86 soil fumigant increases yields up to \$200 an acre. Many High Plains ranchers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowsole method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow Farm Chemicals supplier about it. ## Two Junior High Teams Eye Title

Two Tahoka Junior High teams will win or tie for District Junior High championship this Thursday night when Frenship comes here for return games, states Coach Cecil Robinson.

Tahoka Seventh and Eighth Grade boys' teams are one game ahead of Frenship in district play. Seventh Grade girls are tied with Slaton for the lead, and Eighth Grade girls are in third place.

Monday night at Frenship, local Junior High teams won all four games.

Seventh Grade girls whipped Frenship 31 to 7, and Tommie Hale was high scorer with 12 points.

Seventh Grade boys won 42 to 24 with Jeff Atwell scoring 12 points and Ladd Roberts 11.

Eighth Grade girls won 14 to 10 as Suzanne Warren had five points for Tahoka.

Eighth Grade boys were victorious 34 to 22, as Robert Garza scored 11 points, and Larry Durham and Robert Montemayor each had 10 points.

## Basketball . . .

(Cont'd. from front page)  
The Bulldogs were hampered in the last two games by loss of John Tyler, hustling guard, who received a broken collar bone, and Tuesday night Cliff Thomas was not in top form by reason of having received a bad cut on the ball of a foot when he stepped on a piece of glass Sunday morning when he went barefooted for the morning paper in the yard. However, he played nearly three quarters of the game.

Seagraves took an early lead, was ahead 10 to 9 at the quarter and 26 to 19 at the half. Early in the third, Seagraves jumped to a nine-point lead, but the Bulldogs kept pushing and tied the score 36-36 with 1:14 left. The Eagles pulled back to a 42-38 lead by quarter's end.

The hectic fourth quarter saw the Bulldogs battling, caught up at 49-49 with 3:16 left, and from there on there was never more than two points difference as the score went, Tahoka first, 51-51, 53-51, 54-53, 55-54, and 55-55 with 31 seconds left. Doyle Schneider brought the ball down court after a foul shot by Seagraves tied the score. But an over-anxious Seagraves led fouled him with nine seconds left. Doyle sank the two free shots, and the Bulldogs then delayed the Eagles long enough for the time to run out before they could take a shot.

Tim Blair of Seagraves was high point man with 20. Phil Nash had 15, and the Eagles' "hot shot" artist, Danny Johnson was held to only eight points before he fouled out late in the fourth quarter.

For Tahoka, Schneider and Mitchell Williams tied with 18 points each, followed by Mike Lamford, Lewis Hise, Cliff Thomas, Wayne Thurman, and Gary Brooks, all of whom had good moments in the scramble.

Tahoka lost the B game to Seagraves 62 to 42. For Tahoka, Charlie Brown scored 14, Jody Edwards and Tim Walker 11 each, and for the Eagles Gilmore had 19 and Reed 13.

## Local Man Attends Two Water Meets

As a member of the Plains Cotton Growers water committee, Joe D. Unfred attended two meetings of interest this past week dealing with water problems of the present and future.

Friday, he attended the West Texas Water Institute held at Texas Tech, which was widely publicized in the Lubbock papers.

Saturday he attended the Southwest Water Resources Symposium held at Eastern New Mexico University at Portales, which was an outstanding session attended by experts and others interested from all over the west.

Water and its utilization is getting to be a national problem, and new concepts in its utilization and transportation are rapidly coming into being. In fact, the developments are coming so fast, there must quickly be some determination of water rights. People will need to get together quickly on their thinking and determine who owns water rights.

Things that once seemed impossible in water transportation are now common, and developments are moving fast with every new project such as the Canadian River aqueduct system.

For example, previously water tunnels through the Rocky Mountains in Colorado could only be drilled at a rate of only 40 to 50-feet a day, whereas workmen are now able to drill at the rate of 300 feet per day.

"Because of the dire need for water to be moved where the people are, cost of such transportation of water can no longer be expected to be paid for by electricity or agriculture alone, for the whole economy of an area must be considered in bearing the cost of such water improvement.

Water people are, therefore, taking a new look at water transportation problems.

Incidentally, Unfred says newest concept in use of water in this area for irrigation is use of more tail-water and lake modification systems.
