If we made Gladiola Flour for Horse Cave, Ky...

we wouldn't have to be so careful

...but we make it for you

We make Gladiola Flour for the state of Texas and our neighbors right next door. We have to make it good enough to satisfy the best home bakers in America.

We've been doing that for 47 years, and women appreciate it. They buy far more Gladiola Flour than any other brand. For the kind of biscuits, cakes and pies they bake, nothing else will do.

Snow-white Gladiola is the one flour good enough for your family, too—even if you came here from Horse Cave, Ky. And it costs only about 1/2¢ a day more than the cheapest brand on the shelf.

Letters TO THE EDITOR

The Journal is in receipt of a communication from Mrs. W. B. Kittrell regarding a bill in Congress numbered 9150 as follows:

Dear Mr. Forbes, I want you to publish the following information as a public interest article.

How many food purchasers have noticed the storehouse of chemicals being put in our food, some are stated on the label, but all our fresh fruits and vegetables get some chemical treatment.

Recently introduced into Congress was a bill and a joint resolution which should have our support, the bill is numbered HR 9150. It proposes a law establishing a commission to conduct an impartial and scientific study and investigation to determine the effects on the public health of the practice of adding various chemicals to water and food products.

The joint resolution, H. J. Res. 523, is to prohibit officers and employees of the United States from treating communal water supplies with fluoride compounds until a report from the Commission on Food and Water Contamination shall have been submitted to the Congress of the U. S.

These IMPORTANT pieces of legislation were presented by Rep. David S. King of Utah. He also gave a very good speech in the house, to quote him in part, "When the housewife buys the food, she is only dimly aware, if at all, that it is almost impossible for her to purchase any article of food that has not been chemically treated, such as bleaches, preservatives, additives, dyes, adulteratives and other foreign substances added to it."

We need some laws with some teeth, our Food and Drug Administration are helpless with our present laws, with all the LOOPHOLES. We are thankful for the Delaney Commission, but then again the loopholes.

Let us all write to our own Representative George Mahon and urge him to support this very important bill, be sure to state the bill no. and the joint resolution no. which are given as: H. R. 9150 and Joint Resolution H. J. Res. 523. Address: House Office Building, Washington, D. C. 20515.

Sincerely, Mrs. W. B. (Buster) Kittrell

Training Union In Hilarious Evening

Training Union members of the First Baptist church, enjoyed food, fun, and fellowship at the church Monday night Feb. 1.

The meal was served from wheelbarrows and jugs by men dressed as hillbilly men and women.

Personalities on the program were as follows: a vocal solo by Bobby Noblett; a guitar solo by Maurice Jones and electric guitar music by LeLand Dean; a pantomime by James Towns. Bob Jacobs was master of ceremonies on a panel called "Keep Talking".

The meeting was closed with the hillbilly waiters and waitresses singing a barber shop melody. There were approximately 125 guests. A hilarious evening was enjoyed by all.

SS For Farmers Is Not Optional

"Some farm operators may be losing valuable social security protection because of misunderstanding," John G. Hutton, district manager of the Lubbock Social Security Office reported today. "Some farmers have commented to us that they believe the filing of social security reports of farm earnings was optional in every case," he said.

Self-employed farmers having net earnings of at least \$400 in a taxable year are required to file social security reports and pay the social security tax. Only when a farmer's net earnings are less than \$400 may he consider using the "optional method" of reporting to get social security credits. The "optional method" allows a farmer with gross farm income of at least \$600 a year to report sufficient net earnings to receive some social security credits.

"We believe that some farmers with low earnings have missed getting social security protection because they were unaware of the 'optional method' for reporting," Hutton remarked. "Tax returns for the past three years can still be filed if gross income amounted to \$600 or more in each year. These social security credits may be needed to qualify for retirement benefits later on," he added.

Workers reaching retirement age this year need from four to five years social security coverage to qualify. Coverage requirements increase for persons reaching a retirement age in the future. A representative of the Lubbock Social Security Office will be in Muleshoe on Thursday, Feb. 11 at 9:30 a.m. in the County Courthouse and will be glad to assist in all matters pertaining to Social Security.

Grow a "Dream Vacation" in a cotton field?

It's not fantastic! And here is why:

One prominent Texas farmer used Phillips 66 Ammonia to realize an added net profit of \$54.32 per acre on his cotton, after deducting the cost of ammonia. Just 50 acres of cotton like this means over \$2,700 extra profit... enough to enable a family vacation in some of the world's finest spots.

Ask your Phillips 66 Distributor to help you work out a complete fertilizer program on all your crops.

	*Using Phillips Ammonia	Without Ammonia
Fixed Cost Per Acre	\$75	\$75
Ammonia Cost Per Acre	\$5.60	—
Yield Per Acre	847 lbs.	633 lbs.
Net Profit Per Acre	\$156.56	\$102.24
INCREASED PROFIT PER ACRE \$54.32		

*Cotton at 28¢/lb. Example only. Results vary according to soil fertility, available moisture and cultural practices.

'1960 License Plates On Sale

AUSTIN — New license plates for 1960 went on sale at all county courthouses Monday morning, February 1, State Highway Engineer D. C. Greer announced. The plates have white letters and numerals on a black background.

Greer stated that 4.7 million motor vehicle registrations were bought by Texans in 1959 and predicted that 1960 registrations would approach the five million mark.

Greer urged Texas vehicle owners to register early. "The registration deadline is midnight, April 1. Greer stressed the importance of registering all automobiles and trucks in the home county of the vehicle owner.

"Take your certificate of title and your last year's registration receipt to the tax collector in your home county. Penalty for improper registration of a vehicle can be as much as \$200. Don't risk an illegal registration. Remember too, that a portion of all registration fees stays in your home county to benefit your local community," Greer said.

Baylor U. Next Tech Opponent

Texas Tech's next basketball game in the coliseum here will be against Baylor University Saturday, (Feb. 13) at 8 p.m.

In the meantime, the Red Raiders meet Texas A&M in College Station Saturday night and University of Texas in Austin Monday night. Both games will be broadcast by Jack Dale over a network of West Texas and South Texas stations.

Baylor downed the Raiders by a 71-60 count in Waco earlier this season. Other home games remaining are slated with University of Texas Feb. 20, Texas A&M Feb. 26, and Southern Methodist Feb. 29.

Texas Tech rallied from a 13-point deficit at half time to defeat Texas Christian University 75-66 here Saturday night. A pair of former Panhandle high school stars — Perryton's Del Ray Mounis with 26 and Amarillo's (Palo Duro) Gene Arrington with 25 paced the Raiders.

PERKINS IMPROVING

Arthur Perkins, son of Mrs. J. E. Perkins of Muleshoe, underwent major surgery at the West Plains Hospital here on Jan. 21. He is at home now and is doing exceptionally well.

20 Congregations At Witnesses Meet

Twenty congregations of Jehovah's Witnesses from parts of three states, Texas, New Mexico, and Oklahoma, climaxed their three-day training program Sunday in Lubbock at the Fair Park Coliseum, attended by 882.

Boyd Lowery, presiding minister of the Muleshoe congregation, said throughout the assembly emphasis was given to the theme, "Do The Divine Will."

R. L. Anderson, District Minister of New York, spoke on the subject, "When is God's Will to be Done On Earth?" He said, "It is within this generation that God's Will is to be enforced upon all, with the penalty of death or the blessings of life emanate. He will not do this by national armies or even by the forces of the UN, but by His invisible Kingdom, which is now ruling by Christ Jesus."

DALLAS EDWIN McCURRY

Mr. and Mrs. Dallas McCurry of Littlefield are the proud parents of an 8 lb. 14 oz. baby boy. He made his arrival on January 19 and his name is Dallas Edwin. He was born in a Littlefield hospital. The father farms near Littlefield.

The grandparents of the boy are Mr. and Mrs. J. J. Redwine of Muleshoe and Mrs. R. M. McCurry of Littlefield.

STEP OUT IN IT

Get the quiet proof of Chevrolet's superior performance on the road—No other car in the low-priced three can match the borne-on-the-wind sensation you get from a ride in the 1960 Chevrolet. But that's not surprising when you consider to what lengths Chevy has gone to provide for your comfort at no extra cost to you. As you drive, count the ways Chevrolet has been thoughtful:

Supple Full Coil suspension—Coil springs at all four wheels melt bumps as no other suspension can. Taking the punch out of rough roads is their only function—they don't have to anchor the rear axle.

Butyl rubber body mounts—Thicker, newly designed body mounts

further insulate you from the road. **Body by Fisher**—Only Chevy in its field offers the polish and craftsmanship of Body by Fisher.

Foam cushioned seats—Chevy offers foam cushioned seats in both front and rear in all series but one.

Safety-Girder frame—X-built and not merely X-braced, the Safety-Girder frame affords greater rigidity to minimize twisting and squeaks.

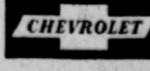

Hydraulic valve lifters—Oil hushed hydraulic valve lifters reduce engine noise to a whisper.

Cushioned steering shaft—A universal joint and cushioned coupling keep those annoying road tremors from the steering wheel.

Precision balanced wheels and tires—Here again Chevy has shown concern for your comfort by eliminating vibration in this vital area—tire life is longer, too.

Easy steering ratio—Chevy's high ratio Ball Race steering takes the work out of steering for you.

Superior weight distribution—Chevy rides better, handles better and stops better because the car's weight is more equally divided between the front and rear wheels.

Wide choice of power teams—Choose from 24 different power combinations to satisfy the itchiest driving foot—more than any other car.

BAHSON DISCUSSES

What Khrushchev Thinks

AMERICA'S MISSIONARIES

Babson Park, Mass., Feb. 4. I thought that a previous column of mine had covered all the facts gathered in my trip to Moscow, but here are a few more things worthy of thought.

AMERICA'S GOD
My recent release on "Khrushchev and Christianity" has caused readers to ask me just what Mr. K thinks is America's "God." I must reply: "The Automobile." Although the first automobile was built only during my lifetime, yet America today has more money invested in autos than all the churches, hospitals, schoolhouses, and homes of mercy built since Columbus discovered America in 1492.

It has been said that 90% of the women of America spend more on lipstick than they contribute to their church. Furthermore, I am told by cosmetics experts that lipstick are but one of the offshoots of the automobile. Even John D. Rockefeller, Sr. told me personally that automobiles built the magnificent Rockefeller fortune; that when he was at his prime, he considered selling only kerosene.

When I was a boy, my mother was much interested in foreign missions. I even helped pack barrels of old clothes for the missionaries, who were then our real ambassadors. Now the ladies of most churches get together once a month to talk foreign missions — and collect perhaps \$300 for the cause; yet the value of their automobiles and furs represent \$500,000! The whole setup seems cockeyed to Mr. K. Our real missionaries today

are the heads of the U. S. Embassies all over the world (let me say that all were very helpful to me during my recent trip to Berlin, Warsaw, and Moscow.) But most of them were selected for their very important positions because they contributed large sums of money to the political party which won the last national election — whether or not they can speak the language of the country to which they are assigned. Mr. K feels this is most inefficient.

HOW KRUSHCHEV SELECTS TEACHERS

When Mr. K wants teachers he pays what is necessary to get the very best. I have been told that top professors get about \$10,000 per year in terms of our dollars — and prestige. They are the leading men in every large Russian city. They live in the best suburbs, have the best tables at restaurants and private boxes at the opera. Their children are looked up to as are those of our richest families. Yet some of our universities pay more for a football coach than for the head of the Physics Department.

While in Moscow getting facts on education, I was asked what is meant by our term "eggheads". When I tried to explain that this is what our scientists and other men of learning are called, I was not believed. I was then asked if it is true that any American manufacturer will get a better reception at Congressional hearings than University Presidents; and if we allow an average of 30 students to a classroom while Mr. K insists that 17 must be a maximum.

CAN DEMOCRACY COMPETE?

I believe democracy is the ultimate form of government. History shows that no dictatorship has very long existed. But I am far from certain whether our present form of democracy can survive. There will inevitably be more rapid basic changes due to the constant leveling down of those who have property and the building up of those who have not. The masses are on the move and will continue to be. However, the desires of our people must change from glorification of wealth and so-called "success" to love for unselfish service and trained efficiency.

Mr. K's apparent objective is to eliminate private property, but he is not alone. Six means to this end are now being employed in six different countries: (1) By confis-

SAND HILLS PHILOSOPHER

Still Trying To Get Banks To Get Up On The International Level

Editor's note: The Sandhills Philosopher on his Johnson grass farm views international banking this week, with a certain amount of envy.

Dear editor:
The more I read the Newspapers, the more convinced I am that one of the main financial troubles of us private citizens is the fault of the banks. They don't operate on the international level.

For example, I was reading last night about the latest banking arguments between the United States and Russia. As I understand it, during the war, the U. S. gave Russia ten billion dollars in lend-lease materials.

Eight and two-thirds of this was used up in the war, and the U. S. said forget about it, we were allies, but a Billion and a third dollars worth of stuff was left over and the Russians used it in their civilian economy. That part the U. S. has been contending ought to be paid back.

Well, last week representatives of the two countries met to talk the situation over.

The Russians said, well, maybe you're right, we ought to pay you, and we will, under one or two conditions. First you have to lower tariff charges to Russia and second you have to guarantee a new line of long term credit to us.

On hearing this, the United States called the debt discussions off.

There are three reasons for nationalization in Russia; (2) by nationalization in England; (3) by taxation in East Germany; (4) by public executions in China; (5) by unwarranted price and wage legislation in Cuba; and (6) by labor-union demands and inflation as in the U. S.

Meanwhile, let us expend more time and more money developing our children's character, health, education and other fundamentals which cannot be wiped out by another World War.

the apostles and prophets hewed out of stone. High over the entrance he sees a round window. It looks as gray as the stone walls.

When he goes inside, however, and looks toward the window, he is filled with wonder. As the light streams in through the rose window, he sees a color combination which makes him exclaim, "How wonderful!" One must be inside the church to see this beauty.

The person who stands outside the church of Jesus Christ cannot see all the beauties and riches of the Christian way of life.

To see the glory of the church and participate in its fellowship, one must first enter into personal fellowship with Christ.

PRAYER: O God, whose divine love has given to us the church as a means of grace, make us good members in it. Give us strength to remain loyal to Christ and His church. In the name of Thy Son we pray, as He taught us, "Our Father who are in heaven . . . Amen."

THOUGHT FOR THE DAY
To be in Christ is to be a member of the church.

FOR ALL WE HOLD SACRED . . . ATTEND CHURCH!

Diligently Pray For The Work Of Your Church

THERE IS STRENGTH IN PRAYER

Read Philippians 1:1-7.

That which we have seen and heard declare we unto you, that ye also may have fellowship with us. (1 John 1:3.)

When I think of our fellowship in the church, I recall young Edward. He was baptized, attended church school, and was confirmed in a church where I once was rector.

The Sunday after he was confirmed, I watched him slowly climb the chancel steps, and slide his hand along the choir stall. He knelt reverently at the spot where he had been confirmed. He gazed intently at the cross. Then he lifted his eyes above the altar to the picture of Christ with hands stretched out in blessing.

Edward seemed to say, "This is my church! I belong! I am loved and wanted here!" I know that Edward found in the fellowship of the church much that he had failed to find in his home, for his father was shiftless and his mother was overworked.

The Christian church is a family of individuals ordained to express the light, the love, and the life of Jesus Christ where they live.

PRAYER

O Father, I thank Thee for planting Thy church where I live, and for accepting me in it. Fit me, I pray, to serve Thee by serving others thru the church. Thus may I glorify Thee in my neighborhood. For Jesus' sake and in His name. Amen.

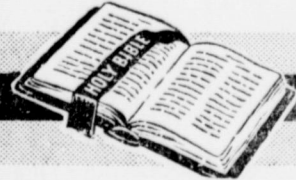

BROTHER

WHEN A MAN HAS A

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I John	2	9-12
Monday	I John	4	20-21
Tuesday	Romans	12	9-10
Wednesday	Proverbs	17	17
Thursday	I Corinthians	16	13-14
Friday	John	10	9-10
Saturday	Psalms	55	13-14

A man's got to look after his brother. That's what Timmy said the other day, as he stood beside our baby. And I told him he was right. "You are so much stronger than this tiny, little creature," I said. "From now on, you've got a real responsibility!"

A man *does* have to look after his brother . . . especially when that brother is weak. But there are moments, too, when even the strongest man may need a brother!

In the eyes of the Church, all men are brothers, just as all men are equally beloved. As long as there is a church near you, you are not alone. You have only to open the door and walk in and you will be at one with your fellow man . . . and at home with your brothers.

Lazbuddie News Letter

by Penny Grusendorf

Mr. and Mrs. Major Lucky and their two children, Kay and Doug, of Spearman, Texas visited in the home of W. R. Broadhurst over the week end.

Those having birthdays this past week were: Maria Salinas — Feb. 1. George Salas and Lydia Salas — Feb. 2. Gayla Seaton — Feb. 3. Lypta Reyna — Feb. 3. Thomas Ketchum — Feb. 4. Sue Windham — Feb. 6. We hope they all had a very Happy Birthday.

Mrs. Iva Carpenter has returned after a stay in Olney visiting her sick father and sister.

The Methodist Church will have Youth Day Sunday, Feb.

ruary 7th when the youth will be in charge of the morning worship service.

The Methodist Church will have their Sweetheart Banquet February 10th.

The Lazbuddie Longhorns played two more conference games this past week, the first one on Tuesday night against Happy with the girls losing and the boys winning. Their second game was with Bovina with both teams winning. They now stand with the girls winning 3 and losing 2, the boys winning 4 and losing 1.

The Johnson family of Lazbuddie moved to Oklahoma this past week. The sophomores sure hated to see Gary move and the seventh grade will miss Kren. We hope they will be happy.

Sig Kimbrough, Finis Kimbrough, Ed Nickels, Bob Kimbrough, Don Sanders, Glen Splawn and Allen Grusendorf went to Falcon Lake and spent a week fishing, and report a good catch.

Battle Border

(Editor's Note: This is the tenth in a series of articles outlining the numerous boundary conflicts dating back to 1716, pointing up little known facts which shaped the Texas of today.)

New Mexico took another small but potent bite out of Texas.

"In taking this bite New Mexico made a dent in the Texas liquor laws," Attorney General Will Wilson says.

People driving west from El Paso on U. S. Highway 80 across into New Mexico and 500 yards later are confused to find themselves back in Texas. There isn't a curve in the road.

The main result is a neon lighted area in El Paso where mixed drinks are sold across the bar—illegal in Texas but legal in New Mexico.

After the United States defeated Mexico in 1848 came the treaty of Guadalupe Hidalgo ceding the western one third of the present United States.

The line fixed in this treaty was based on an incorrect map location of El Paso. This led to much confusion in land grants since lands in Texas were handled through the Texas state government and lands in New Mexico through the federal government.

To make matters worse the Rio Grande changed its course.

A compromise was reached by making the boundary the river bed as it was in 1850.

But where was the river in 1850?

New Mexico said the Rio Grande ran on the eastern side of the valley while Texas insisted it ran mainly on the western side.

Private land suits followed and eventually came a suit in the U. S. Supreme Court between New Mexico and Texas.

New Mexico relied chiefly on some old Indian and Mexican witnesses who testified from personal observations. The court cocked a judicial eye at these ancients when Texas pointed out that the witnesses traveled mostly at night because the country was wild and hot.

New Mexico won and established a beachhead in El Paso.

Baker Eddy states in part: "God gives the lesser idea of Himself for a link to the greater, and in return, the higher always protects the lower. The rich in spirit help the poor in one grand brotherhood, all having the same principle, or Father; and blessed is that man who seeth his brother's need and supplieth it, seeking his own in another's good." (518:13-19).

BULA NEWS BRIEFS

by Mrs. John Blackman

Superintendent Jo Turner reports that the Bula school was visited Monday of this week by Mr. Don Schmidt, consultant in department of school education, and Mr. J. C. Conradt, supervisor of child accounting and research, from the accreditation department of Texas Education Agency.

The purpose of the accreditation inspection was to see if school itself came up to minimum requirements.

All phases of the program were inspected. It is to be emphasized the purpose of the inspection is a part of the many efforts on the agency and other school officials to improve instruction in both rural and municipal areas.

The inspection team seemed to be pleased with the program here but it is felt they took recognition of needed improvements for the future as well as those improvements that had been made in the past.

Mr. and Mrs. James Cash of Hereford, spent Saturday night in the Ed Crume home.

Mr. and Mrs. Carl Tidwell were both admitted to the Littlefield hospital the first of the week. Mrs. Tidwell having the flu and Mr. Tidwell suffering from a heart ailment.

Mr. and Mrs. Ronnie Fisher were honored with a house warming Wednesday evening. A group of friends following the Fishers home from church gave them a surprise when they began carrying in beautiful gifts for their new home. Approximately 60 guests attended, ladies of the Bula Church of Christ acting as hostesses served cookies, coffee and punch to the group. Friends and relatives from Sudan, Friendship, Littlefield and Bula attended.

Dennis Medlin won one 4th place, two 5th places and one 8th place with his black Hampshire pigs he entered in the exposition and fat stock show in Fort Worth last week. Dennis is a 4-H club member.

Dennis along with his parents, Mr. and Mrs. Buck Medlin and Gerald Reid attended the show.

This unique situation developed in 1913 when the U. S. Supreme Court was asked to settle a conflict between New Mexico and Texas concerning the location of their common boundary in El Paso county.

This line ran along the Rio Grande 15 miles as the crow flies, roughly from near Anthony, Texas to El Paso.

Attorney General Wilson says that the chunk of territory she scrapped over was four miles wide and over 15 miles long.

Each state agreed that the true boundary line was the middle of the river channel as it existed on the date the Compromise of 1850 became effective.

While Spain had all this territory she established El Paso Del Norte where the Camino Real route between Chihuahua and Santa Fe crossed the Rio Grande. There was no clear cut and fixed boundary between Chihuahua and New Mexico.

In 1824 the Mexican government settled this by a line drawn from east to west from the town of El Paso del Norte.

Hence, the man who orders a martini thinking he is slipping one by the law finds he is drinking a perfectly legal New Mexico martini. Only the highway signs note the difference.

Christian Science Services

Universal brotherhood will be a theme dealt with at Christian Science services this Sunday. Peter's awakening to a higher sense of brotherhood highlights the Lesson-Sermon entitled "Spirit".

The account of Peter's meeting with the centurion called Cornelius will be read, including the following: "Then Peter opened his mouth, and said, Of a truth I perceive that God is no respecter of persons: But in every nation he that feareth Him, and worketh righteousness, is accepted with him: (Acts 10:34, 35)

LONE STAR AGRICULTURE

By John C. White
CERTIFIED SEED PROGRAM EXPANDS

Expansion of the Texas Certified Seed Program is such that it has prompted the Texas Department of Agriculture to plan a new seed laboratory for East Texas, construction of which will begin in Tyler about March 15.

Texas has now taken the lead from California as the nation's top producing state for certified seeds. Texas acreage dedicated to the production of certified seed is now in the neighborhood of 200,000 acres, while California's certified seed acreage has dropped about 16,000 acres, from 178,296 acres to 161,297 acres.

The Texas Certified Seed Program is a voluntary program. Farmers or individuals apply voluntarily for inspection of their acreage and they must meet all of the requirements necessary for the Foundation of their acreage and they

The Texas Department of Agriculture used some 55 inspectors in 1959, who inspected around 200,000 acres of 20 different field crops consisting of 190 different varieties. An average of 2 1/2 inspections was made on each field, and in 1959 the department issued more than 250,000 Foundation and Registered tags and more than 2,000,000 Certified tags.

This service is paid for by those making application for certification, without cost to the taxpayers of the state. In 1959, the department took in a total of \$193,485 for services rendered to seed producers and spent \$181,781 to provide these services and certifications.

A field upon which application for inspection is made must show evidence of good management. The Texas Department of Agriculture approved inspector must inspect for isolation varietal purity, other crop diseases, weed and noxious weeds. The field must meet high standards for each of these factors. Seed eligible under the Certification Program must pass high laboratory standards for purity, other crop seeds, inert mater-

ial, weed seed, noxious weed seed, and germination.

The Texas Department of Agriculture inspector draws official seed samples from tagged Foundation, Registered and Certified seed for testing by the department's seed laboratories as a further means of checking to see that such seed meets with seed certification standards.

Parmer County Farm Bureau News

By Raymond Euler

Roy V. Miller, with his helpers, Gilbert Kaltwasser and Ralph Smith, audited the books of your organization Monday morning of this week. The by-laws call for an annual audit, and at the direction of President Herman Gerles, they were complying with this provision. Mr Gerles attended the Pres-

ident's conference in Waco last week, and then he and his wife went to Georgia to visit her sister, the former Wilma Norton, our last County Farm Bureau Queen.

Donald Christian and his captains met in the Bovina Restaurant Tuesday night to complete plans for a new member drive to be held the latter part of February. Since there will not be a drive in March, the month when several hundred memberships are due for renewal, Mr. Christian requests that those of you who received dues notice for March remit them promptly to save the cost of second notices.

This money saved can be used to give you better service during the year. Remember that you will not be contacted personally in March as you have been in the past. Al Grauer, Executive Director of Texas Farm Bureau spoke briefly to the captains and their wives at the Bovina meeting.

We would like to urge your consideration of becoming a Farm Bureau member, if you are not already. With continuing increase in margin, three out of four farmers who be-

long to a general farm organization, belong to Farm Bureau. You may find that this is the organization to which you should like to belong. Your consideration would be appreciated, and worthwhile, regardless of your decision.

Farm Bureau members urge farmers to know what all organizations calling themselves farm organizations stand for. Then, they believe, you should give your active support and advice to that group. You, or some other farmer, speaks for you through the strength of numbers. You should be in a position to know whether someone is speaking correctly for you.

CONSIDER THIS: The king by judgement establisheth the land; but he that receiveth gifts overthroweth it. Proverbs 29:4
