Girl Is Top Award Winner At Show

Lynn county's annual Junior Livestock Show last Friday and Saturday was again outstanding as competition was keen and a large crowd was present both days.

There were 215 hogs, 74 sheep, and 26 calves in competition. Of these, 72 hogs, 35 lambs and 17 calves have been entered in the South Plains Show at Lubbock.

Myrna Bartley, Tahoka 4-H girl, showed the grand champion steer, a lightweight Angus weighing 770 pounds; and Jim Adams, Tahoka FFA boy, had the reserve champion, also a lightweight 775-pound Angus.

Benny Hancock, O'Donnell 4-H, showed the grand champion barrow, a lightweight Hampshire; and Barry Clayton, O'Donnell 4-H, had the reserve grand champion, also a lightweight Hamp.

LaNita Wood of O'Donnell had the champion fine wool lamb; Benny Barton of O'Donnell had the champion medium wool lamb; and Sheila McNealey, New Home 4-H, showed the champion South-down.

Showmanship awards went to: Myrna Bartley of Tahoka, steers; Randy Bessire of O'Donnell, swine; and Kent Wood of O'Donnell, sheep.

One boy, Mike Ward of Wilson, had the misfortune of having the hog he had groomed for many weeks die on him at the show.

Prize money totaling \$565.50 was paid out to winners by Tahoka Chamber of Commerce and Tahoka Rotary Club. The C. of C. also finances other show expenses.

Also, \$1,416.00 was paid out in bonus money from a fund raised by businessmen and a few farmers. Each calf exhibitor, whether he won or not, received a \$10.00 bonus check, and \$4.00 was paid for each hog and lamb shown.

Judges were Scottie Windham of Lubbudde, hogs; Sid Long of Gall, lambs; and Sid Conner of Post, steers.

Complete show results are printed on another page of this issue.

Deadline Near On Farm Sign-Up

March 17 is the last day for farmers to sign up in the cotton, feed grain and wheat programs, announces Wallace Dove, ASCS office manager.

Advance payments of cotton and feed grain programs are now being made by the local office.

On March 20, the office will begin accepting cotton production records. Last year, these records helped Lynn county tremendously, Dove says, but how much, if any, new records for 1964, 1965, and 1966 will help no one knows at this time.

Forms for certifying records for these years will be available at the ASCS office on March 20 and at all county gins. Both the gins and the farmer must certify to production on these forms.

Highway Work Is Planned

Several highway projects are either in progress or are set for early contract letting in Lynn county by the Texas Highway Department.

Highway US 87 north of Tahoka will receive a new seal coat this spring or summer. District Highway Engineer O. L. Crain of Lubbock announces. A total of 13.7 miles are involved in the US 87 job.

This is a part of a 194.6-mile project in 24 area counties let on a low bid contract to McElroy Transport Co. of Fort Worth for \$640,636.95. The contract calls for completion of the entire project in 75 working days.

Work has started on the second roadside park three miles north of Tahoka on US 87 to serve northbound traffic. This is a \$27,000 project which will include a water system, landscaping, and completion of shelters, etc. started last year. The older roadside park, now serving southbound traffic, is reported to be one of the outstanding ones in the southwest, and has been featured in at least one state highway map.

Bids have been called for on the proposed new Highway Department shop building to be erected just north of town adjacent to the old drive-in theatre site.

Work has been completed on the 8-mile rebuilding and widening project on US 380 from Tahoka, east, and a seal-coat surface will be added later, probably this summer.

Highway engineers are rushing plans on the big four-mile four-lane project through town for which rights-of-way have been secured and most of the buildings cleared along the route. US 87 will go under US 380, and there will also be intersection complexities at the south edge of Tahoka, at the north edge, and also at the junction of FM 400 two miles north of town.

for us on account of these unfilled promises. All Asia will fall if Vietnam falls. Australia, the Philippines, and maybe Hawaii would be next. Then, next? But, we can't understand a "holding action." We can't understand shedding blood for a stalemate. We'll never win a war on a compromise. The only thing the Communists understand is power.

We apologize to the ladies of Tahoka Garden Club. Last week, we failed to mention the Garden Club was responsible for the beautiful decorations at the annual Chamber of Commerce banquet which carried out the Texas Independence Day theme. We assure you ladies, this was not an intentional slight. No one could help but notice the decorations. We just goofed.

Soon, it will be time to start talking-up that down-town beautification program the Garden Club is sponsoring. If all of us would just cooperate, our down-town area could compare with famed Neosho, Missouri, at little cost to the individual businesses.

The News had a little sad experience, though, last summer with its sidewalk planters. The west front, brick wall, concrete sidewalks and paved street just contracted too much heat and our \$30.00 worth of plants couldn't take it. Maybe we'll try again.

Yokum county is getting into the pickle business. Plains C. of C. has made arrangements for farmers to plant 600 acres of cucumbers for Morton Food Company which will add \$150,000 to the economy over there.

The Dennis Kolodziejczyk family of Wilson who came to Lynn county from Yorktown, Texas, has an interesting background, as well as name. The great grandfather came to Karnes county, Texas, in 1844, from Posnan, Poland. He served as a soldier under Napoleon and was wounded in the arm during the invasion of Russia. Years later, he gave up his land and fled the country to save his life. The family has been in Texas 123 years, and three sons of Dennis served the U.S. during World War H. Not all good Americans are named Jones and Smith and Hill.

Mrs. S. A. (Loyce) Fleming, Cashion, Arizona: "Thanks a million for keeping my Lynn County News in force. I appreciate The News more each year. Have been away eight years and only missed getting the paper twice—a real efficient force, I think. I read each item and all the advertisements. Ha! So, keep it coming out Arizona way. So sad about Mr. Bray—such a wonderful person!"

Sullivan, Ill. Progress: "Since our government demands such a strict accounting of every penny handled by every citizen, for taxing purposes, those taxpayers, by the same right, should be entitled

to a strict accounting of how all those tax dollars are being spent."

Here's a little verse about "The Country Town," which fits in with some of our comments here recently:

THE COUNTRY TOWN
I like living in a small country town,
That's where friendly people are always found.
The streets are not paved, most houses are old,
But the people all have hearts of pure gold.
When troubles arise, there are friends who stand by,
To lighten our load and brighten our sky.
Sharing our troubles, our happiness, they are tried and true.
This is my kind of people, now how about you?
Money may be scarce, and the furniture old,
But they are rich in blessings and love untold.
Life may be slow, no excitement or thrill,
Never a need for tranquilizers and pills.
The people are happy, no rushing through life.
They escape the city's hustle, bustle and strife.
Give me the country town where I can settle down,
In a rose covered cottage and a small plot of ground.

Writes From Vietnam
Dear Lynn County News:
Thought I would drop y'all a short line.
The monsoon season has ended now and it really started getting hot. A lot of the insects are coming out. We have found BIG stinging scorpions, centipedes, etc., about three times the size back in Texas.
The humidity is so heavy over here now it takes clothes a full day to dry out, even when the sun is shining direct at 95 or 110 degrees.
Things are about as good as could be expected, though. Doing fine so far and will be glad to get back in the States.
I would like to thank Gary Dan Thomas for sending me The News. It really makes a difference to be getting it.
I will close for now; so, be careful and thanks for the paper.
Sincerely,
Pfc. Larry K. Kizziar, 2193461, Hq. Co., Com. Plt., 7th Marines, 1st Marine Division, care of FPO, San Francisco, Calif., 96602.

VISIT AT BAYLOR U.
Mr. and Mrs. Ivan McWhirter and Mr. and Mrs. J. C. Womack spent last week end at Waco visiting their sons, Macky Joe McWhirter and wife, and Larry Price students in Baylor University. They also attended "The Sing," an annual entertainment feature, Saturday night at Baylor U.

CARD OF THANKS
I want to express my appreciation to my friends for their thoughtfulness during my illness. The ladies that came for my surgery, the flowers and get well cards sent, to my Sunday School Class for the gift they sent, everything was so much appreciated.—Mrs. Pat Hines 24-11p

GRASSLAND NEWS

by Mrs. O. H. Hoover

We had a short summer, didn't we? That wind hunted over the thin places. Guess it will be hot enough soon if it doesn't rain.

Dr. Ronald Huddleston, son of Mr. and Mrs. J. H. Huddleston, will be coming home from Africa late this month.

Mr. and Mrs. O. C. Harrison had as visitors over the week end their grandchildren, A'leta and Chip Parks of Lubbock.

Mrs. A. Z. Sewell attended the singing at Berry Flat Sunday afternoon.

Mr. and Mrs. Clyde Childress visited in Gail Sunday afternoon. Rev. and Mrs. Rawlings visited Mrs. C. C. Jones last Tuesday.

Mrs. Cordie Laws came home this week from three months in California.

Mrs. Ora Braswell and daughter Martha plan to leave for their home in Mexico March 7. They have been visiting her parents, Uncle Mac and Aunt Nora Richey for some time.

Miss Karen Laws had as house guest over the week end her room mate, Bobbie Smith of Tech.

Archie Moore spent the weekend in Lubbock with Tom and Lavonia Crutchfield.

Queda Murray spent the week end in Lubbock with Jarvis Adamson.

Mr. and Mrs. Willie Daniels visited in the Rusty Dean home Sunday afternoon.

Neta Dean has had the croup lately. She is better now but still can't talk. That's terrible for a woman.

Mr. and Mrs. W. G. McCleskey visited in Brownfield Tuesday with Mr. and Mrs. W. M. Dubose. The W. G. McCleskeys and W. L. Gribbles had lunch with Mrs. Lucy Cunningham Thursday. In the afternoon, the ladies visited with Billie Stanley.

Last Tuesday a group of folks took their lunch and gathered in the home of Uncle Mac and Aunt Nora Richey for a visit. Those present were the C. O. McCleskeys, W. L. Gribbles, Rawlings, Mrs. Vada Warrick and the J. C. Allens of Lubbock and their granddaughter.

Mr. H. D. Gartman is able to stay at home now, we hear.

Mr. and Mrs. McCleskey, Mrs. Hoover, and Mrs. Grace Thomas visited with friends in the hospital and nursing home in Post Saturday.

Mrs. L. F. Haley is still improving slowly. She is up in a wheel chair some how and is wanting to go home, but that will be some time yet. Visitors included Mr. and Mrs. Jurd Young, Mrs. Victor Kuykendall, and Mrs. Carl Cedarholm.

Mrs. Ruth Mathis and Mrs. Gerner visited Mr. and Mrs. Elmer Gray one day last week.

There will be a revival meeting at the Church of the Nazarene in Grassland beginning on Monday night, March 13. Rev. C. B. Pugett will be the evangelist. Services will be at 7:30 p. m., but not sure about the day services. Come out and hear some good preaching.

Guests for lunch in the Gus Porterfield home were their son, Jim, Janette, Don, Amy, and their grandmother, Mrs. Georgia Cook.

Attending a book review on Job Monday in Tahoka were Letha Porterfield, Mrs. A. Z. Sewell, Mrs. W. T. Luttrell, Martha McKay, Mary Sherrill, and Mrs. Hoover.

O'Donnell Farmers Hear Talk On Use Of New Herbicides

Travis Herring, representative for Rowland-Gordon in Plainview, was the guest speaker at the O'Donnell Young Farmers monthly meeting, Thursday, March 2.

Mr. Herring showed a film on the uses, application and effectiveness of trifluralin, a herbicide used in the production of cotton. Of most interest to the Young Farmers was the method that has been most successful in the banding of this herbicide.

A rotary cultivator was shown, followed by finger-like mixers attached to the planter. Anyone who would like more information on this banding should contact any O'Donnell Young Farmer. After the meeting, refreshments were served in a joint social hour.

Airman E. M. Rudd Promoted At Reese

Lubbock, Tex.—Elbert M. Rudd, son of Mr. and Mrs. E. M. Rudd, of Rt. 1, Wilson, Tex., has been promoted to airman second class in the U.S. Air Force.

Airman Rudd is a jet aircraft mechanic at Reese AFB, Tex. He is a member of the Air Training Command which provides the flying, technical, and specialized education programs for the Air Force.

The airman, a graduate of New Home (Tex.) High School, attended Texas Technological College.

CRACKED WALLS—CEILINGS IN ONE OPERATION

WITH THE NEW MIRACLE Plastratone

Plastratone is so easy to use, that even if you never touched a paint brush before, you can get professional looking results with very little effort. Considering the results, Plastratone is the most economical coating on the market. This expensive looking texture finish is over 1/16 of an inch thick and would cost \$100 to \$150 to have done professionally. Having this done professionally would necessitate an additional purchase of paint to color the surface. Plastratone eliminates these expensive and time consuming steps at a fraction of the cost.

While you re-surface you re-color in any one of 10 popular fashionable tones, in the same operation. Use on: wallboard, cement, stucco, plywood, wallpaper, plaster, brick, wood, metal and concrete.

Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE® 86 soil fumigant applied at only 1 to 2 gallons overall an acre, you can take care of root-knot, sting, meadow and other nematodes—those microscopic, worm-like soil pests that attack plant roots, suck away profits.

FUMAZONE 86 soil fumigant increases yields up to 1/2 bale an acre. Many High Plains farmers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No

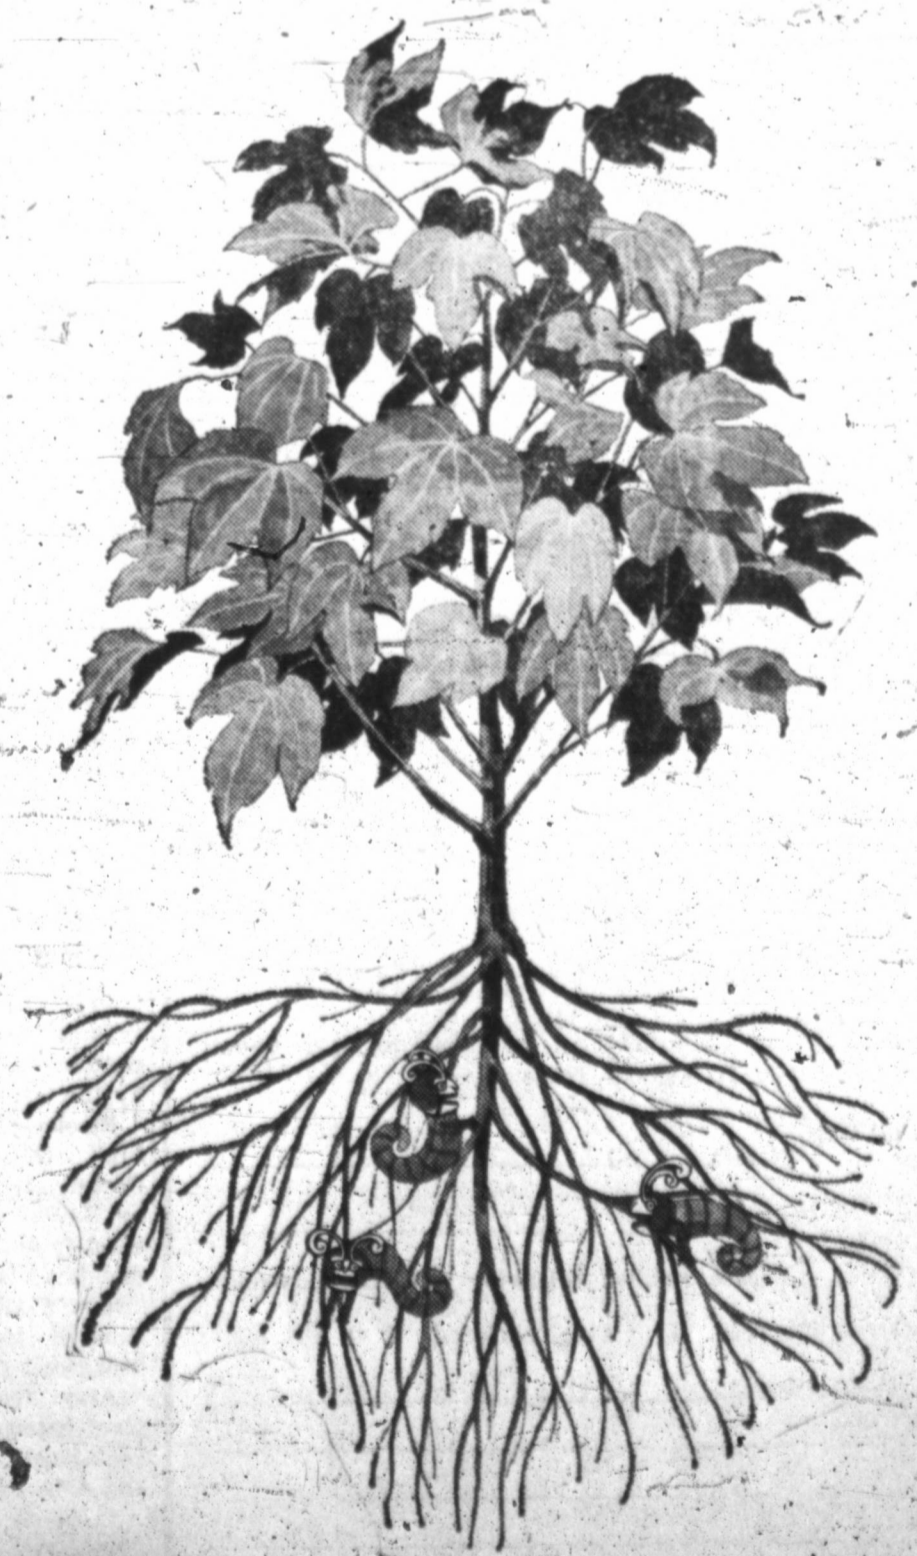

mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowsole method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow farm chemicals supplier about it.

The Dow Chemical Company, Agricultural & Industrial Bioproducts Sales, Midland, Michigan 48640.

Nematodes take their cut off the top.

Miss Sharon Payne Of O'Donnell Is Author Of Essay On Conservation

Miss Sharon Payne, daughter of Mr. and Mrs. Harold Payne, was second place winner in the annual essay on conservation sponsored by Lynn County Soil Conservation District and Tahoka Chamber of Commerce. Following is her essay:

A MOST IMPORTANT TIME

By Sharon Payne
What an exciting time for conservation! Never before have there been so many challenging opportunities as there are in conservation today. Our attention is drawn to the fantastic achievements of space and we are temporarily lulled into believing that everything is dull down on the farm.

Don't you believe it! The most exciting blast off in the world today is still the stir of nature that brings a sleeping seed to life and causes it to push forth through a crusted soil and bring food and contentment to mankind. The full potential of this process can be useful to Texas and its future citizens only if we practice strict conservation of our natural resources now.

Yes, there is excitement in conservation. We only have to look around and see marvels which have been wrought in conservation. The food we live on and most of the clothes Texans wear are more abundant because of the producer's careful planning. Conservation U.S.A. is literally a miracle of our time. Never before in the recorded history of mankind, has man had so much for so little. Foodpower U.S.A. is the envy of the world.

There is a need for every farm and ranch in Texas, to provide and use a soil and water conservation plan fitted to the resources of each operating unit. As a matter of good business, a farmer can do a better job of farming with a conservation plan than without one. Piecemeal and uncoordinated conservation efforts can not be fully effective. When each acre is protected according to its needs and uses within its capabilities, the cost of production is reduced and per acre yields are normally increased.

In resolving to be more aware of the needs for and the benefits of conservation practices, Texans could well paraphrase C. G. Scruggs' "Declaration of the Ideals of American Agriculture."

"We, as Americans (Texans) Conservationists, hold these truths to be self evident and thus proudly declare that:

"We, as American (Texans) Conservationists, believing in God, our country, our conservational heritage, and ourselves.

"We believe conservation is an essential American (Texan) business entitled to equality in all respects, but coveting no rights or privileges of others.

"In freedom, we produce the world's finest and most abundant food and fiber at less cost than has ever before been known by man.

"We shall continually strive to increase the efficiency and abundance of our food and fiber production.

"We believe soil to be God's noblest gift; to be used and improved for the good of all mankind, remembering that while it is in our care we are merely tenants of the Almighty.

"We expect nothing which is not rightly and pridefully earned from our own honest and persevering toil.

"We believe rural America (Texas) produces the strongest citizens, the finest patriots, and most vigorous families necessary to keep the moral fiber of America (Texas) strong and bright.

"We shall diligently pursue the American (Texan) ideal of competitive free enterprise, and service to our fellow man.

"We shall vigorously champion the right of ownership, the right of hire, the right of opportunity and the obligation of personal responsibility as a citizen.

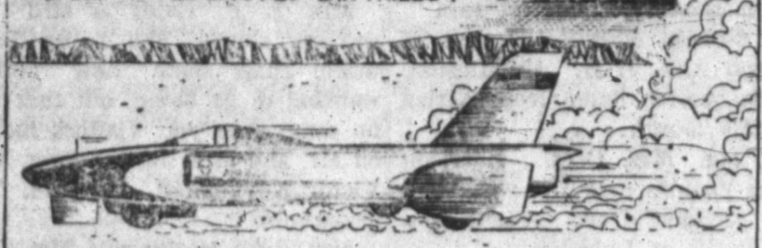

"We are proud to be Americans (Texans).

Above all, Texans must quit mumbling in embarrassment that "I'm just a farmer." Farming is a noble calling. It will be the preserver of our food and clothing and of human beings themselves.

All Texans must stand up for conservation. They must stand up, proud, square and tall and say, "I am a Texan conservationist, on the farm or ranch. If they will do this, they will find many of their troubles and worries will disappear. They will then produce more. And they will serve better and more fully this great land in which we are privileged to live—and the generous God whom we should thank daily for our blessings.

Medicare Status Told By Doctor

"Medicare—Some Advantages and Limitations," was the subject of a talk at Tahoka Rotary Club last Thursday by Dr. Skiles Thomas.

Medicare is nothing more than insurance, he said, and will not "pay for everything" as some people have imagined. However, the program so far is working out better than many of those connected with it had expected.

Like automobile insurance, Medicare has \$50.00 deductible for first care under a physician and the patient must also pay the first \$40.00 on hospital care as well as many other extras such as anything but a semi-private room, the regular run of nurses, a television set in the room, and prescription drugs.

Causing some confusion is just lack of understanding, the doctor said. Most of the forms are relatively simple, but they must be filled in exactly right to get Medicare assistance. One requirement, for example, is that the patient must have a receipted bill showing he has paid the doctor the first \$50.00 before he can successfully secure Medicare payment on the rest of his bill.

Like other Federal programs, however, Medicare can get into politics. Already, the Administration is proposing a \$4 billion per year extension of Medicare to certain persons under 65 years of age.

Clifton Gardner was in charge of the program.

Charles Carpenter was introduced by Marla Bray as the student guest of the month.

Other guests included James Eubanks of Midland, Charles Polk of Olton, and four Rotarians from Brownfield.

MR. AND MRS. PAT HINES BACK HOME FROM HOSPITAL

Mr. and Mrs. Pat Hines returned home Saturday from Colorado City, where they spent nearly two months.

They went down there to be with Mrs. Hines' sister who is ill. While there, Mrs. Hines went through the clinic, resulting in surgery being performed on her on Feb. 7.

Their son, Truman, and family live at near-by Silver.

R. F. Cook of Idalou and Louis Henderson of Muleshoe, both formerly of Wells and T-Bar area, were here Tuesday. They are brothers-in-law, having married Crews girls.

Wilson Principals, Coaches Re-elected

Principals and coaches of the Wilson Schools have had their contracts extended another year by the school board.

Re-elected were Kenneth Baker, high school principal; Owen C. Comer, elementary principal; Bobby Davis, athletic director and head football coach; John Alexander, head basketball coach and assistant football coach; and Mickey Rundell, junior high and girls' basketball coach.

Also receiving one-year contract extensions were Bobby Lee, vocational agriculture teacher; and Coy Cooks, band director.

The Texas State Board of Education consists of 21 persons elected by the people.

Mrs. W. P. Lester's sister, Mrs. G. E. Davis of Grandview, spent two weeks in the Lester home recently.

Mr. Willie Becker spent last week fishing at Falcon Lake. The men who went with Hackberry Gin Co. to Falcon recently report they had good luck fishing and fairly good weather.

Mrs. Elmer Bek spent several days last week at Methodist Hospital. She is at home now and is doing pretty well.

Jackie Abshire won second in the 800 yard run at Idalou Track Meet Saturday. Bill Bevers won fifth in the pole vault.

Southland Eaglettes were in the 1-B Girls' Basketball playoffs at Canyon Friday and Saturday. They played Quitaque on Friday in a thrilling game. At one time the Eaglettes were ahead 16 points. Sherri Wilke did a good job of guarding Quitaque's 6'-2" forward but fouled out with 3:22 left in the third quarter. With only 1:03 remaining in the game, Southland led 53-50, then Quitaque tossed in two points. But Southland lost the ball out of bounds, and Quitaque tallied to put them ahead 53-52. With only 25 seconds to play, Quitaque intercepted a pass and put the ball in deep freeze until the game's end. I've never seen our girls play any better and they are to be congratulated.

Southland was very unhappy with the officiating.

Mrs. Herbert Dunn and Yours Truly went with the team as their sponsors, along with Coach and Mrs. Dyess. The Coach took all of us to the Palo Duro Canyon on Saturday afternoon.

Libby Sales was chosen as a forward on the All-Tournament team.

Southland Senior Class will be presenting their play this Friday night at 7:30. The name of the play is "The Skeleton Walks," and the cast includes David Dabbs, Libby Sales, Mickey Mason, Jerry Bourne, Gloria Cisneros, Dennis McGohee, Patsy Dunn, Carmen Martinez, Jackie Abshire, Emma Espinosa.

A group of fans of this community presented the Southland basketball girls with a gold basketball bi-district championship trophy on Monday.

"ALL I KNOW IS WHAT I READ IN THE PAPERS"

America's best-loved humorist also was one of the best-informed persons in his time. Nothing, it seemed, escaped his notice. His comments on the passing scene were applauded and repeated by millions the world over. "All I know is what I read in the papers" became his trade-mark. Will Rogers recognized that newspapers, more than any other media, are the common source of information of all the people. The simple fact that everyone knew immediately what he was talking about provided an important basis for his fabulous popularity.

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

A hard drive for a Congressional investigation into the case in which foreign groups and mutual investment funds slide into control of American business and broadcasting has been launched by Senator Thomas Kuchel of California.

Kuchel stated to the San Francisco Examiner that the recent Securities and Exchange Commission report "only serves to emphasize the need for Congressional attention into the entire securities area."

The Examiner reports of the "cops and robbers" thriller case that began when 675,000 shares of Columbia Pictures Corp., including 3 TV and radio stations, were bought up by a Swiss branch of a Paris bank.

The bank then proceeded to assign great blocs of shares to two mutual fund organizations, Madison and Dreyfus, after which the film executives were informed "the group" was now in control of 51 per cent of Columbia's stock and proposed to assume management.

Meanwhile, explosions from the financial war were heard on Wall St. and in Washington, by the SEC and FCC, whose laws restrict foreign interest in U.S. broadcasting to 25 per cent.

Sen. Kuchel embarked upon his Paul-Revere mission, alerting the SEC and FCC of the planned invasion and demanding immediate retaliation, warning "This power of..."

life or death over any American business or industry, directly or indirectly in the hands of a foreign group is patently against the national interest... that includes the power to use or to misuse, to liquidate or to destroy."

Kuchel further advised an investigation of the movie company manipulation by the Madison and Dreyfus funds.

Through swift and cooperative action, the 40 year old film organization eluded the foreign snare and wasn't swallowed up. But similar traps await other American firms, and also aware of this peril, Sen. Harrison Williams N.J., promises to reintroduce his modified 1956 bill to foil foreign invaders.

The phenomenal success of mutual fund manipulators has been headline news, and recently, the Wall St. Journal ran a front page rags-to-riches story of a Philadelphia, social worker who went into the money business and created a \$500 million dollar financial empire, Overseas Investors, Ltd., parent company to a global complex of mutual fund management and investment companies, banks, insurance firms, loan companies, paper, and real estate holdings.

Ex-civil servant Cornfield offers his success formula: "Scatter a myriad of subsidiary companies in tax havens all over the world and attack the world market with an army of well-trained, hard-driving salesmen." But the warning has been sounded, and American companies must be protected from foreign raiders grown fat from immunity to U.S. tax levies, further aided by the huge U.S. foreign "giveaway" programs.

FORAGE MANAGEMENT IS NECESSARY TO SOUND LIVESTOCK OPERATIONS

Forage management plans are very necessary for sound economical livestock enterprises in this area of West Texas due to the frequency of drought conditions in the area, says John Graves, Range Conservationist. Sound forage management plans will usually provide for about a two year emergency feed reserve, with a one year reserve being a minimum. Surplus feed produced from cropland during good production years can be stored in bales, bundles, or as ensilage. Forage stored in this manner can be stored for

one to several years in this area. Small grains planted for cover crops are a good source of baled forage when good spring production is made. Irrigated bermuda and alfalfa are excellent sources of baled forage. The hybrids of forage sorghums can be baled or hauled, and excellent tonage is being obtained from these hybrids. Almost any green forage can be utilized for ensilage. The best time for forage harvesting is when the plant is in the pre bloom and early bloom stage. Harvesting the plants at this stage of growth produces the highest quality forage.

Some ranchers in this area are stacking of about 50 percent of the ranch carrying capacity, and reserving the surplus grass for use during short drought periods. This method of storing forage is a good method to use when improving range conditions, and is the cheapest method of storage, but surplus forage stored in bales, bundles or ensilage is necessary if livestock are to be properly fed during extended drought conditions. A properly managed forage plan can prevent the livestock produced from being forced to sell livestock on a depressed market during drought periods.

The local Soil Conservation Service office can be contacted for assistance in developing forage management plans with will adjust livestock to available forage now existing or planned on the farm or ranch.

Coldwater, Kan., Star: "Food for peace is a grand-sounding designation for a government program, but when the program is used indirectly to feed our avowed enemies the people of the United States may not think it is so grand. Communism is a society which can keep its people from starving only with aid from the freedom countries."

Tooele City, Utah, Transcript: "A government is no gronger than the character of its duly elected servants. Likewise, a political party or its elected representatives are either a source of integrity, industry and accomplishment, or a source of indifference, carelessness and failure."

Special School Displays Work

Lynn County Special School has a display of some of the students' work in the windows of Collier-Parker Drug Mrs. Margaret Renfro, teacher, reports.

She says Mrs. L. B. Thompson and Mrs. Lovelle Crahn supervised the work done, and Mrs. Thompson arranged the window display.

"The children have made many pieces of art and artifacts," Mrs. Renfro says, "such as bird houses, bird cages, tables, ceramics, pot holders, letter files, pencil holders, and many others."

"They have a workshop separate from the class room in which they have tables, chairs, shelves, peg boards, carpentry and garden tools, finger paints, crayolas, water colors, enamels, glitter spray and oil paints, plaster molds, and other supplies. They sometimes use scraps of wood, metal, china, wire, etc., in their creative work."

"Most of these children have an innate art ability. All they need is motivation, supplies, and supervision."

"All of the children hope that the people of Lynn county will see their display at Collier-Parker's and visit them at school and see them at work, study and play."

Thomas ran first in the 330-yard hurdles in 43.8 seconds, took first place in the broad jump at 21 ft., 3 in., and was third in the shot put on a heave of 43 ft., 3 in.

Thomas also ran on the sprint medley relay team with Tim Walker, Lewis Hise, and Chris Roberts. Although finishing sixth, the team had a time of 43.7 seconds.

Jodie Edwards ran the 120 high hurdles in 18.1 seconds but had the misfortune of knocking down a hurdle.

Richard White failed to place, but threw the discus 115 feet, and in the first competition of his career S. R. Pena ran the 880 in 2:23.

Coach Jim Littlefield is pleased with the progress the boys are making. As a whole, he says Tahoka may not be outstanding as a team, but the boys are getting some valuable training and experience.

This Saturday, Tahoka will be in the Wink track meet, and other meets are being scheduled for the next few weeks.

Robert Harvick underwent minor surgery Friday in West Texas Hospital. He was able to come home Tuesday.

VISIT WILSON EDWARDS

Mr. and Mrs. M. H. Edwards were in Waco recently on business and visited his elder brother and wife, Mr. and Mrs. A. W. (Wilson) Edwards, also formerly of Tahoka. Mr. Edwards is now 98 but in reasonably good health for his age. Marcus says they enjoyed the visit immensely.

GREG LOHR VISITS HERE

Greg Loehr, son-in-law of the late Homan Edwards, from Riverside, Calif., was here over the week end on business. He is in the Airforce and both he and wife, the former Kelly Edwards, are college students.
