Rodeo Draws Good Crowds

Local residents turned out in large numbers for the Lynn County Rodeo Parade last Thursday to view the various riding clubs and floats entered by businesses of Tahoka. The Wagon Wheel Saddle Club of Denver City won first place in the senior division and the Lubbock Rangers won first place in the junior division. Lyntegar Electric was the first place winner in the float division.

The rodeo queen was crowned at the opening performance of the rodeo. She is Denise McNeely, a New Home High School senior and the daughter of Mr. and Mrs. W.H. McNeely. Presenting the crown to her was

last year's rodeo queen, Kellie Paris, daughter of Mr. and Mrs. Leslie Paris.

The three-day rodeo was well attended, with Saturday night having the largest crowd. The rodeo purse totaled \$8,000 to be split by the winners of the various events.

Winner of the bull riding event was Chuck Tidwell with a score of 77. Jimmy Poiner was second, Brent Terry and Floyd Kemp tied for third place and Mark Wright, Phillip McCarty and Scott Davis had a three way tie for fourth place.

In the saddle bronc contest, Jud Sims took first place with a 69 score. Casey Fredricks was second and Monty Jones was third.

The bareback riding event had four winners. Steve White took first place with a score of 70. James Goslick and Scott Davis tied for second place and Randy Davis came in third.

In the calf roping competition, Jessie Doss came in with the winning time of 9.34 seconds. Perry Rowland was second, followed by Ross Kirkness, third; and Bobby Lewis, fourth.

The team roping contest was close but Roy deFort and Matt Lindsey took top honors with a 7.37 time. Mike Sego and Terry Maulding came in second and Sid Hart and Jay Hart followed in third place.

In the girls' competition, the barrel race was won by Sandra Dalton with a time of 17 seconds flat. Second place was Kay Sewell, and Sandy Sarten and Annette Tine tied for third place.

A dance followed the final rodeo performance Saturday night and was termed a large success by sponsors.

Edwin Pebbworth, president of the Lynn County Rodeo Assn. and Dan Taylor, vice president, expressed their appreciation to everyone who helped with the rodeo and putting the parade together and helping out at the dance.

THS Stars Honored At Banquet

Freddy Garcia and Ronald Lusk were named co-recipients of the coveted Fighting Heart Award for Tahoka High School footballers for their play during the last season, as high school athletes in all sports were honored at the annual banquet Tuesday night in the school cafeteria.

Garcia, a rugged defensive lineman, and Lusk, center on offense and linebacker on defense, were outstanding last season as the Bulldogs went 8-2.

Winners of the Rocky Award given by football fans of the Bulldogs were Freddy Garcia and Marty Lindsey.

These and other players in football, girls and boys track and basketball, tennis and golf were recognized at the banquet at which Don Beck, backfield coach at Eastern New Mexico University, was principal speaker.

Athletic Director A.D. Shaver and girl's Coach Sandy Oliver were presented plaques of appreciation from their players.

Beck urged all the young athletes to concentrate on developing a positive mental attitude, saying "you can't have success without a goal... don't ever give up, and don't be selfish." He also said a good philosophy to adopt is evidenced in an attitude of "we don't care who gets the credit, as long as the job gets done."

Owens, 2415 Lockwood, said tools worth \$180 were stolen in a burglary of a barn behind his home last week.

County jail had three in for public intoxication and one for disorderly conduct.

Lynn Population Final At 8,605

Lynn County's population is now official at 8,605 persons in the 1980 Census, County Judge Melvin Burks told the

commissioners court Monday. The judge said he had been notified of the final figure and also had received

a breakdown of population in the county by precincts. Equalization of precinct population was a major factor in a lawsuit against the county last year which brought about a realignment of precinct boundaries. It was not immediately known if any further changes in boundaries will be necessitated by the final population figures.

The total of 8,605 is 17 less than the preliminary count of Lynn County residents, and about 600 less than the population in 1970. However, all towns in the county showed population gains.

All Present
All commissioners were present for the meeting Monday at which the court also voted to hire Larry Ruiz of Tahoka as custodian for county facilities at \$9,000 per year, approved purchase of a dictating machine for the sheriff's department from Gerald Huffaker at a price of \$400, and agreed to pay jail

cook Mrs. Amelia Gonzales for time missed recently when her husband died.

The group also heard a presentation from Jim Solomon of the Clint Walker Agency regarding liability insurance covering county elected officials and employees and voted to put a binder on such a policy to make it immediately effective.

Financial Outlook
Judge Burks told the commissioners he hopes that no tax increase will be needed for next year's budget. He made this comment as finances were discussed and it was noted that tax collections in the county are a little lower than usual, percentage-wise.

Commissioners voted to donate the judge's chair from the old county courtroom to the museum at O'Donnell.

The group went into executive session after noon for a discussion of personnel matters.

WIN AWARDS--Freddy Garcia, left, and Ronald Lusk were named recipients of the Fighting Heart Award in football at the annual all-sports banquet for Tahoka High School athletes Tuesday night.

ORDERING THINGS is getting me into a lot of trouble, most of it my fault. In this computer age of billing and keeping track of stock and such, however, most of us have encountered the frustration of trying to explain to a computer how something isn't just right on your bill or your order.

First of all there was this garage door opener we wanted to get for my wife's mother. She needed a new one, so we told Sears by phone to write one up at their sale price and add installation charge and call the lady when they got ready to go out and install it.

She learned she was getting a new garage door opener and told us she had someone else she wanted to install it. So we called Sears and told them to take off the installation charge. The salesman said he'd have to write up a new ticket and credit memo because that other order was somewhere in the computer system being processed, irretrievable, I suppose, unless you are J. Fred Bucy.

Later it developed that the person who was to do the installing might not have time to do it, so I went by Sears again and told them to go ahead and install it (they still had the opener).

But then he was able to install it after all, so he picked it up at Sears and installed it. By that time, Sears no doubt was sick of us changing our minds, and I remarked that they probably would never get it all straightened out. Sure enough, to date we have been billed for two garage door openers and two installations. We're looking for two more to be charged to us before we go to Sears and try to clarify the mess.

Then a couple of weeks ago I got a letter from Texaco Marketing Center up in Illinois saying the merchandise I had ordered was being shipped. I tossed the letter aside, since I didn't remember ordering anything. The next day I got two more letters, identical to the first one. A day or two later I got a checkbook calculator, and the next day two more of them.

The things were kind of nice and when I looked at one I thought perhaps it might make a good birthday gift for my wife on April 28. So one of our daughters wrapped it, and I commented that "she'll never guess what this is."

Meanwhile, I called Illinois and told them I didn't order any calculators on my credit card and apparently there was some kind of computer foulup. The lady on the phone apologized and told me where to send them back, but I finally decided to keep all of them. "However, I do want to make sure that computer doesn't send me a couple of dozen more of those things," I told her. She

Fun Festival Adds Money For Monitor

A Fun and Food Festival at Lynn County Show Barn Saturday afternoon and evening drew a good crowd of relaxed participants and raised \$5,572.40 for the heart monitor fund.

Mrs. Nadine Dunlap, representative of the sponsoring Lynn County Hospital Auxiliary, said the campaign to raise money for a new heart monitor to be placed at the hospital now totals \$13,712. A new heart monitor will cost about \$20,000, she said, but it was noted that the group may consider a used monitor at a lower price.

The crowd at the festival obviously had a good time with the music, comedy and talent acts, the food booths and auction of various items.

Everything was donated for the festival, including the auctioned items and door prizes, and the auxiliary expressed appreciation to all those who donated articles, time, work or talent, and to all who attended and bought items.

Attempted Murder Trial Of Brothers Is Underway

Trial of two Lamesa brothers on charges of attempted murder was in its second day in 106th District Courtroom in Tahoka Wednesday, with the state still presenting its case at press time.

Juan Q. and Jose Luis Annalla are accused of shooting at Tahoka farmer Bill Barham as Barham came upon the two west of town last Dec. 15. Barham testified in the trial before Judge George Hansard Monday after a jury was selected.

Prosecuting the case was Dist. Atty. Joe Smith of Seminole, assisted by Ricky Smith, and attorneys for the defendants are Danny Hurley and Bonner Smith of Lubbock.

Two Collisions
Two vehicle accidents were reported in the city during the last week, with a 9-year-old boy injured in one of them. Michael Isbell, son of Mr. and Mrs. Jerry Isbell, 2023 N. 7th, reportedly suffered a broken leg Monday when the minibike he was

assured me I would get no more of them.

A few days before my wife's birthday we were driving up U.S. 84 and she was taking time to balance her checkbook. I thought to myself, "I should have given her the birthday present early."

She muttered something about the problem of balancing the checkbook and then remarked, "You know, I ordered a checkbook calculator a long time ago and they never have sent it."

"Who did you order it from?" I asked.

"I ordered it on your Texaco card...actually ordered three of them, since I thought somebody else might want one. Didn't I tell you?"

Well, good grief. In 25 years she had never before ordered anything on my Texaco card. Anyway, she got a gift she wanted.

QUALIFY FOR STATE--The Lynn County 4-H Senior Livestock Judging Team qualified for the state judging contest June 2-4 at Texas A&M, by placing second in overall competition at Texas Tech. As a team, the boys scored 1195 points for second place, second in cattle and swine and third in sheep. From left are John John Curry, Curt Terry, Mike Rivas and Greg Curry.

Dear People of Lynn County,

How do you say thank you to so many people for so many things? I must try. Thanks to O'Donnell for the ice cream booth and Donna Forbes and her singing group, items sent for auction and your people who came to bid and buy the items.

We had a number of people from Wilson who donated different items and services for the auction and then came to bid and buy. Thanks to you.

New Home sent her items for auction and people to bid. We had some cute tumblers to entertain from there too. Thank you.

Our entertainment was excellent. Dalton Wood and the Banknotes, The Sisters in Song from Post, The Sunshine Singers from Tahoka First Baptist Church, Daws and friends from the Tahoka Church of Christ. Thanks for this good music. Some dear sweet old lady dropped in early to speak you for us. We also had a fellow drop in to speak. We had a little microphone trouble and couldn't hear all he had to say, but appreciate his coming by. If you see him Lyndell, tell him thanks. Thanks to our own Myrtle White. We always enjoy you Myrtle. Thanks to the cute tap dancers. The Squatty Five (less two) had everyone laughing. Thanks to the Dunlap kids.

Clint, thank you for a job well done. We really feel blessed in Tahoka to have such a capable emcee. Our auctioneers were just great and worked so hard. They even sold one item that's not in existence yet. Thank you, Billy and Melvin. Thanks to the different organizations who had food booths. Chamber and Chamberettes had barbecue sandwiches, Auxiliary had beans and cornbread, 4-H'ers had drinks, Phebe K had desserts, St. Jude's Catholic had home made tamales. Thanks to Jim Bob Porterfield too, for bringing his cooking equipment and frying fish and potatoes for us. Everything was so good. Just like a big picnic.

Thanks to those who gave items for door prizes. It is always such fun to hear your name called out for a prize. We had candy from Parker Pharmacy, Summit Food, Thriftway and Tahoka Drug. Other door prizes from Adriana Barrientez, Vicky Summit and the Mirror. Thanks. Thanks to Lyntegar for chairs, Community Center for chairs, tables and stage. Art Guild for screens and peg boards for display, Baptist Church for PA system. Tahoka schools for piano and PA system. Jim Hucabay and Joe Hays for saw horses. We appreciate getting to use the show barn too. Thanks to the community.

Thanks to those men who helped to move everything in and out and the cleanup before and after. That is such a big job, but one that is fun when everyone helps.

Thanks to each business and individual who gave items to be auctioned. We had such a good and big selection of really good, pretty and useful articles and services. This brought in a big portion of our money.

We appreciate the support of the Hospital Board and staff. Most of the Board was there for the bidding and the work. Thank you.

We had so many favorable comments and we made over \$5,000 so we are considering making this an annual affair. We really did have a good time.

It will be a miracle if I haven't overlooked someone, so please forgive.

To all of Lynn County a big thank you. We are so glad this is home.

Clean Air Week Is Proclaimed

Mayor Mel Leslie of Tahoka has added emphasis to activities promoting clean air in Texas by joining Gov. William P. Clements in proclaiming May 3-9 as Clean Air Week.

The Texas Air Control Board, the State agency with responsibility for controlling and abating air pollution, and the American Lung Assn. of Texas are cosponsoring Clean Air Week at the State level. "Energy conservation is the theme for this year's Clean Air Week because of the relationship between energy production and air pollution," said Mrs. Clint Walker, representative director to the Lung Association's State Board and resident of Tahoka.

Mrs. Grace Prohl of Tahoka is a member of the Program Committee, West Texas Area American Lung Assn.

TABC Executive Director Bill Stewart said, "Because air is our most precious natural resource, it is important that air quality be maintained by limiting the amount of air pollutants. We hope that Texans will use this special week to become more aware of the relationship between energy use and environmental pollution and will think about ways to conserve energy."

Mrs. Walker said, "Our future respiratory health depends greatly on the choices we make about how much energy we use, how we generate it, and how well we control the pollution that results."

Explaining that Texans must work together to keep the air clean, Mrs. Walker suggested several ways to help reduce air pollution:

- do not burn leaves and trash;
- keep automobiles properly tuned and keep pollution control devices maintained;
- use car pools and public transportation and walk rather than ride as much as possible. Remember, the more cars on the road, the more pollution.
- conserve energy in the form of electricity and gasoline. The more energy we use, the more pollution we create.

The family of Glenn Lehman wishes to thank each of you for your loving care and kindness shown to us through our loss. Lynn County and the area counties can be very proud of their people, we are. As busy as this world is, you all took time for us when we needed you. Fishing was Glenn's third favorite thing to do. Second was farming and his family and first was his Lord and Church, St. Paul Lutheran.

While I pray my husband's death will make you all more careful around water, do not be afraid, because this was God's way of taking Glenn home. Glenn was not afraid to die, he told many of us this over the years, he said he was going to a better place. Had he not told me this numerous times I could not stand it. He is happy and with the Lord. The following people --we thank you.

Everyone who went to the lake, the fifth and sixth grade children, teachers of Tahoka Schools, St. Paul and St. John Lutheran Churches, the Youth Basketball Teams, all the fine friends of Tahoka, Post, Slaton, Wilson, O'Donnell, Snyder, Seminole, New Home, Plains, Gail and Lubbock.

It has not been intentional to leave out anyone who has helped us with the many acts of Christian love, if we have, it will be a favor to me, if you will call it to my attention. In closing I will ask each of you to please read Mark 13: 32-37.

Did You Know...

...That the Bible is some what like this newspaper? The word "gospel" means good news, and of course this paper is a news paper. Each of us enjoys the headlines, the news and notes from Wilson and New Home, and especially the Woodwork section. The Bible also has different sections within it and they deal with the same basic theme as well as different aspects of that theme.

Many of us will take out time to read every line in this paper, but how many of us will take out the time to read from the "good news" for all man-kind? God has spent time, effort, and great love to present the hope of Israel to the world that we might have hope in the judgement to come. Will we respond by simply hearing His news?

James tells us, however, that just hearing the news is not enough. Notice James 1: 21-22, "Therefore putting aside all filthiness and all that remains of wickedness, in humility receive the word implanted, which is able to save your souls. But prove yourselves doers of the word, and not merely hearers who delude themselves."

DONALD DAWES

Are you willing to be an active doer of the NEWS that is found in God's word to you, the Bible?

INSUR-MATION

By PAT GREEN

Lynn County Farm Bureau

Q. A friend just bought a life insurance policy with which I'm not familiar. What are the advantages of a permanent life policy with a limited payment life?

A. The key lies in the "limited payment". The basic advantage is premiums are payable during a specified period of years. Premiums which are paid, for example, in 20 years will usually have a more rapid accumulation of cash value than policies paid until age 65 or for life. In addition, you are able to borrow the accumulated cash value at the contractual interest rate. The interest on the loan would be due and payable on the anniversary date of the policy each year, until the loan is paid.

The next meeting of the club will be a guest luncheon on May 19.

THE HOW AND WHY OF TRANSPLANTING

While it's best to seed some vegetables directly in the home garden, others do best if transplanted.

In this area of Texas tomatoes, peppers and eggplant should always be set out in the garden as transplants. The reason for this is the weather. These vegetables are somewhat fickle when it comes to ideal environmental conditions for setting fruit. Bloom and fruit set must occur before temperatures get too high. Setting out transplants after danger of all frost allows these plants to bloom during ideal conditions and to set a bountiful harvest during optimum weather.

You can also transplant such as called "cool season" crops such as cabbage, cauliflower, broccoli, lettuce and onions. This allows them to mature under ideal conditions.

ions and also saves growing time by several months or more. However, setting out transplants of crops such as okra, squash, cucumbers and melons offers no real advantage and is usually not a recommended practice.

What about the "how" of transplanting? Handle transplants like eggs! Make every effort to avoid undue stress to young plants. Be sure plants do not suffer from lack of moisture, wind damage or excessive heat prior to and immediately after transplanting.

Most plants that are available locally will be growing in plantable containers such as peat pots or peat cubes. If possible, plan to transplant during late afternoon or at least on a cloudy day. I personally think it's a good idea to set your transplants in a bucket or pan of water for several minutes prior to planting so the root system is

thoroughly wet.

Determine the proper spacing for the crop and dig a hole 4 inches wide and 4 to 6 inches deep. Put about a cupful of water directly in the hole and allow it to soak in. Set the transplant in the center of the hole and fill in with soil. Make certain the peat container is completely beneath the soil level as it may act like a wick and rapidly dry out the rootball, thus killing the plant.

Depth of planting is important and often beginners make the mistake of setting plants too deep in the soil. Set most transplants only slightly deeper than they were originally growing.

If plant roots are set too deep below the soil level, especially in heavy soils, they will be slow to grow and the plant will have to produce roots along the stem near the surface. The original roots may, or may not, grow eventually. Either way, the advantages of transplanting are lost and harvest may be delayed greatly.

When filling the hole with soil at planting, leave a slight depression around the plant to hold additional water from spot watering or from rainfall. Also protect young plants for a week or so from high wind and excessive heat. This can be done easily by placing a shingle, board, milk carton or some similar protection on the windy or sunny side of the plant. A can placed around the transplant when it is set in the garden will also prevent damage from pesky cut worms.

Bullock urged anyone with problems or questions concerning state taxes to contact Mr. Rendleman at the courthouse in person or call the Lubbock Field Office at (806) 795-0691. A toll free number (1-800-252-5555) is also available to Texas Taxpayers.

COTTON TODAY

FIBER USE IMPROVES: Textile mill activity improved moderately in March, as the seasonally adjusted annual rate of U.S. mill fiber consumption reached 24.25-million-bale equivalents. That was up 3 % from Feb. but down 5.5 % compared with March a year ago, National Cotton Council reports.

Domestic mill use of cotton remained virtually unchanged during March, maintaining a 5.6-million-bale annual rate. Last month's rate of cotton consumption was 16.7 % lower than March, 1980. Through the first eight months of the 1980-81 crop year, cotton consumption averaged a 5.9-million-bale rate.

Cotton's share of total fiber consumption was 23.1 %, compared with 23.8 % in February and 26.2 % a year ago. On the cotton system spindles, cotton's share of fiber use was 57.4 % during March, up from February's level of 56.7 %.

MAID MAKES 'FIRST 100 DAYS' Visit by Maid of Cotton Karie Ross with President Reagan March 18 was one of events shown recently in the NBC television network program, "Reagan: The First 100 Days." The footage showed Karie pre-

senting the President with a miniature bale of cotton and a kiss on the cheek.

The Maid is now on a eight-week tour of countries in the Far East and Europe. The purpose of the tour sponsored by Cotton Council International and Foreign Agricultural Service is to promote exports of U.S. cotton.

EXPORTS LOOKING UP: The world will depend more and more on the United States for agricultural commodities, according to U.S. Department of Agriculture economist Patrick O'Brien.

He states the dependency may reach the 15 % level by 1985 and that demand will become increasingly volatile. In the early 1950's the U.S. supplied about 2 % of the world's agricultural needs. The total reached 11 % by the late 1970's.

Ground Meats Offer Variety

You may feed your family ground and stew meats every meal for a week and not exhaust their appetites, so versatile are the recipes for these meats. You can serve a dish at each meal that is so unique in flavor and construction that it does not resemble the one enjoyed last night. Recipes range from Creole burgers to tacos, and meatloaf to casseroles.

Ground meat, on a cost per serving basis, offers good value for your meat-buying dollar. And you can extend ground meat by combining it with vegetables or cereal products.

April is a good month to try some new ground meat recipes on your family. Pork is in plentiful supply and beef is adequate say U.S. Department of Agriculture marketing specialists.

See if you can tempt your family's appetite with any of the recipes below.

Creole Burgers
1 pound ground beef
1/2 cup chopped onion
1 tablespoon shortening
Dash pepper
1 can (10 1/2 oz.) vegetable soup
2 tablespoons ketchup
1 teaspoon prepared mustard
6 buns, toasted and buttered
Brown beef and onion in shortening; stir to separate meat particles. Add soup and seasonings; simmer 5 to 10 minutes to blend flavors. Stir now and then. Serve on buns. Makes 6 servings.

Scalloped Pork Dish Supper

2 cups cooked pork
3 cups thinly sliced potatoes
1 can (102 oz.) condensed cream of celery soup
1/2 cup milk
1 teaspoon salt
2 tablespoons finely chopped green pepper
2 tablespoons finely chopped onion
1/8 teaspoon pepper
1/8 teaspoon Savory
1/2 cup shredded cheese

Combine all ingredients except cheese in a 1-quart casserole. Bake in moderate oven (350 degree F.) for 30 minutes. Remove from oven, sprinkle with cheese and return to oven. Continue baking for about half hour or until potatoes are tender. Four generous servings.

Beef Tacos

1 pound ground beef
1/4 cup chopped onion
2 teaspoons chili powder
1 cup lettuce, shredded
Taco sauce as desired
12 Taco shells, fully cooked
1 can (8 oz.) tomato sauce
1 cup chopped tomato
1/2 cup (2 oz.) natural sharp cheddar cheese

Heat taco shells as directed on package. Brown ground beef and onion in a frypan. Drain off excess fat. Stir in tomato sauce and chili powder. Bring to a boil. Reduce heat. Sales Tax Rebate Told

State Comptroller Bob Bullock reported that gross sales in Texas during the final quarter of last year surged to \$89.8 billion.

Sales in the final three months of 1980, as reported by 341,539 outlets, outstripped third quarter sales by \$24.1 billion, Bullock said.

Total gross sales figures for 1980 in Texas reached \$281.1 billion, according to Bullock, compared to gross sales for 1979 of \$213.8 billion.

"The numbers speak for themselves," Bullock said, "showing most Texas companies closed out the year on an economic high note."

Bullock said the expanding Texas business picture was also partly responsible for the rapid increase in reporting outlets--up by nearly 100,000 from the third quarter to 341,539 at year's end.

Bullock also released a computer analysis showing reported sales for each of the state's 254 counties and a sales tax analysis broken down by the state's Standard Metropolitan Areas.

Lynn County's gross sales 17,010,821, amount subject to tax 1,674,794.

SCS NEWS

Irrigation storage tanks are being seen more and more around Lynn County. One reason is that these tanks are cost shared through the ACP and GPCP cost share programs. There are other reasons for the increase in the number of tanks being built. One reason is that several low producing wells (30 to 60 gal. per minute) can be brought to one point and from there a booster pump delivers it to a sprinkler system where the water is evenly distributed on the land. Land owners are finding that they save water using this method and they

cut out a lot of labor. For more information contact the SCS office in Tahoka.

PARADE OPENS LYNN COUNTY RODEO--A parade last Thursday afternoon in downtown Tahoka opened the 3-day rodeo. The color guard and the masked rider from Texas Tech are shown here leading the parade. (LYNN COUNTY NEWS PHOTO)

Rodeo Draws Good Crowds

Local residents turned out in large numbers for the Lynn County Rodeo Parade last Thursday to view the various riding clubs and floats entered by businesses of Tahoka. The Wagon Wheel Saddle Club of Denver City won first place in the senior division and the Lubbock Rangers won first place in the junior division. Lynter Electric was the first place winner in the float division.

The rodeo queen was crowned at the opening performance of the rodeo. She is Denise McNeely, a New Home High School senior and the daughter of Mr. and Mrs. W.H. McNeely. Presenting the crown to her was

last year's rodeo queen, Kellie Paris, daughter of Mr. and Mrs. Leslie Paris.

The three-day rodeo was well attended, with Saturday night having the largest crowd. The rodeo purse totaled \$8,000 to be split by the winners of the various events.

Winner of the bull riding event was Chuck Tidwell with a score of 77. Jimmy Poiner was second, Brent Terry and Floyd Kemp tied for third place and Mark Wright, Phillip McCarty and Scott Davis had a three way tie for fourth place.

In the saddle bronc contest, Jud Sims took first place with a 69 score. Casey Fredricks was second and Monty Jones was third.

The bareback riding event had four winners. Steve White took first place with a score of 70. James Goslick and Scott Davis tied for second place and Randy Davis came in third.

In the calf roping competition, Jessie Doss came in with the winning time of 9.34 seconds. Perry Rowland was second, followed by Ross Kirkness, third, and Bobby Lewis, fourth.

The team roping contest was close but Roy deFort and Matt Lindsey took top honors with a 7:37 time. Mike Sego and Terry Maulding came in second and Sid Hart and Jay Hart followed in third place.

In the girls' competition, the barrel race was won by Sandra Dalton with a time of 17 seconds flat. Second place was Kay Sewell, and Sandy Sarten and Annette Tine tied for third place.

A dance followed the final rodeo performance Saturday night and was termed a large success by sponsors.

Edwin Pebsworth, president of the Lynn County Rodeo Assn. and Dan Taylor, vice president, expressed their appreciation to everyone who helped with the rodeo and putting the parade together and helping out at the dance.

THS Stars Honored At Banquet

Freddy Garcia and Ronald Lusk were named co-recipients of the coveted Fighting Heart Award for Tahoka High School footballers for their play during the last season, as high school athletes in all sports were honored at the annual banquet Tuesday night in the school cafeteria.

Garcia, a rugged defensive lineman, and Lusk, center on offense and linebacker on defense, were outstanding last season as the Bulldogs went 8-2.

Winners of the Rocky Award given by football fans of the Bulldogs were Freddy Garcia and Marty Lindsey.

These and other players in football, girls and boys track and basketball, tennis and golf were recognized at the banquet at which Don Beck, backfield coach at Eastern New Mexico University, was principal speaker.

Athletic Director A.D. Shaver and girl's Coach Sandy Oliver were presented plaques of appreciation from their players.

Beck urged all the young athletes to concentrate on developing a positive mental attitude, saying "you can't have success without a goal... don't ever give up, and don't be selfish." He also said a good philosophy to adopt is evidenced in an attitude of "we don't care who gets the credit, as long as the job gets done."

Owens, 2415 Lockwood, said tools worth \$180 were stolen in a burglary of a barn behind his home last week. County jail had three in for public intoxication and one for disorderly conduct.

Lynn Population Final At 8,605

Lynn County's population is now official at 8,605 persons in the 1980 Census, County Judge Melvin Burks told the

commissioners court Monday. The judge said he had been notified of the final figure and also had received

a breakdown of population in the county by precincts.

Equalization of precinct population was a major factor in a lawsuit against the county last year which brought about a realignment of precinct boundaries. It was not immediately known if any further changes in boundaries will be necessitated by the final population figures.

The total of 8,605 is 17 less than the preliminary count of Lynn County residents, and about 600 less than the population in 1970. However, all towns in the county showed population gains.

All Present

All commissioners were present for the meeting Monday at which the court also voted to hire Larry Ruiz of Tahoka as custodian for county facilities at \$9,000 per year, approved purchase of a dictating machine for the sheriff's department from Gerald Huffaker at a price of \$400, and agreed to pay jail

cook Mrs. Amelia Gonzales for time missed recently when her husband died.

The group also heard a presentation from Jim Solomon of the Clint Walker Agency regarding liability insurance covering county elected officials and employees and voted to put a binder on such a policy to make it immediately effective.

Financial Outlook

Judge Burks told the commissioners he hopes that no tax increase will be needed for next year's budget. He made this comment as finances were discussed and it was noted that tax collections in the county are a little lower than usual, percentage-wise.

Commissioners voted to donate the judge's chair from the old county courtroom to the museum at O'Donnell.

The group went into executive session after noon for a discussion of personnel matters.

Fun Festival Adds Money For Monitor

A Fun and Food Festival at Lynn County Show Barn Saturday afternoon and evening drew a good crowd of relaxed participants and raised \$5,572.40 for the heart monitor fund.

Mrs. Nadine Dunlap, representative of the sponsoring Lynn County Hospital Auxiliary, said the campaign to raise money for a new heart monitor to be placed at the hospital now totals \$13,712.

A new heart monitor will cost about \$20,000, she said, but it was noted that the group may consider a used monitor at a lower price.

The crowd at the festival obviously had a good time with the music, comedy and talent acts, the food booths and auction of various items.

Everything was donated for the festival, including the auctioned items and door prizes, and the auxiliary expressed appreciation to all those who donated articles, time, work or talent, and to all who attended and bought items.

Two vehicle accidents were reported in the city during the last week, with a 9-year-old boy injured in one of them.

Michael Isbell, son of Mr. and Mrs. Jerry Isbell, 2023 N. 7th, reportedly suffered a broken leg Monday when the minibike he was

assured me I would get no more of them.

A few days before my wife's birthday we were driving up U.S. 84 and she was taking time to balance her checkbook. I thought to myself, "I should have given her the birthday present early."

She muttered something about the problem of balancing the checkbook and then remarked, "You know, I ordered a checkbook calculator a long time ago and they never have sent it."

"Who did you order it from?" I asked.

"I ordered it on your Texaco card...actually ordered three of them, since I thought somebody else might want one. Didn't I tell you?"

Well, good grief. In 25 years she had never before ordered anything on my Texaco card.

Anyway, she got a gift she wanted.

Attempted Murder Trial Of Brothers Is Underway

Trial of two Lamesa brothers on charges of attempted murder was in its second day in 106th District Courtroom in Tahoka Wednesday, with the state still presenting its case at press time.

Juan Q. and Jose Luis Annalla are accused of shooting at Tahoka farmer Bill Barham as Barham came upon the two west of town last Dec. 15. Barham testified in the trial before Judge George Hansard Monday after a jury was selected.

Prosecuting the case was Dist. Atty. Joe Smith of Seminole, assisted by Ricky Smith, and attorneys for the defendants are Danny Hurley and Bonner Smith of Lubbock.

Two Collisions

Two vehicle accidents were reported in the city during the last week, with a 9-year-old boy injured in one of them. Michael Isbell, son of Mr. and Mrs. Jerry Isbell, 2023 N. 7th, reportedly suffered a broken leg Monday when the minibike he was

riding was in collision with a pickup driven on N. 7th St. by Danny Preston of Tahoka. The boy was taken to Lynn County Hospital and later moved to a Lubbock hospital.

On Sunday a 1980 Pontiac driven by Mrs. Isabell Jolly struck a tree on S. 2nd near Ave. E. A passenger, Rachel Salinas was treated at Lynn County Hospital and released.

Eight tires and wheels were stolen off two new pickups and a new Buick on McCord Motor Co. lot last week. They

were valued at about \$1,600.

Vandals At School

Vandals broke some glass at New Home Elementary School Sunday night, the sheriff's office was told. Deputies also obtained this week a list of items stolen in an April 20 burglary of the Inez Smith home near New Home, with their value totaling \$3,626. The largest loss was a ruby ring valued at \$1,950.

Elmer Owens, 2501 N. 3rd, last Wednesday reported a .22 rifle, .410 shotgun and tools stolen from his pickup at his home. And J.W.

ORDERING THINGS is getting me into a lot of trouble, most of it my fault. In this computer age of billing and keeping track of stock and such, however, most of us have encountered the frustration of trying to explain to a computer how something isn't just right on your bill or your order.

First of all there was this garage door opener we wanted to get for my wife's mother. She needed a new one, so we told Sears by phone to write one up at their sale price and add installation charge and call the lady when they got ready to go out and install it.

She learned she was getting a new garage door opener and told us she had someone else she wanted to install it. So we called Sears and told them to take off the installation charge. The salesman said he'd have to write up a new ticket and credit memo because that other order was somewhere in the computer system being processed, irretrievable, I suppose, unless you are J. Fred Bucy.

Later it developed that the person who was to do the installing might not have time to do it, so I went by Sears again and told them to go ahead and install it (they still had the opener).

But then he was able to install it after all, so he picked it up at Sears and installed it. By that time, Sears no doubt was sick of us changing our minds, and I remarked that they probably would never get it all straightened out. Sure enough, to date we have been billed for two garage door openers and two installations. We're looking for two more to be charged to us before we go to Sears and try to clarify the mess.

Then a couple of weeks ago I got a letter from Texaco Marketing Center up in Illinois saying the merchandise I had ordered was being shipped. I tossed the letter aside, since I didn't remember ordering anything. The next day I got two more letters, identical to the first one. A day or two later I got a checkbook calculator, and the next day two more of them.

The things were kind of nice and when I looked at one I thought perhaps it might make a good birthday gift for my wife on April 28. So one of our daughters wrapped it, and I commented that "she'll never guess what this is."

Meanwhile, I called Illinois and told them I didn't order any calculators on my credit card and apparently there was some kind of computer foulup. The lady on the phone apologized and told me where to send them back, but I finally decided to keep all of them. "However, I do want to make sure that computer doesn't send me a couple of dozen more of those things," I told her. She

Students attending were Randall Stotts, Curt Terry, Jhoni Curry, Thomas Young, Roddy Williams, Steve Pierce, and Kim Bass. Mrs. Jody Roberson, student council sponsor accompanied them.

Dear People of Lynn County,

How do you say thank you to so many people for so many things? I must try.

Thanks to O'Donnell for the ice cream booth and Donna Forbes and her singing group, items sent for auction and your people who came to bid and buy the items.

We had a number of people from Wilson who donated different items and services for the auction and then came to bid and buy. Thanks to you.

New Home sent her items for auction and people to bid. We had some cute tumblers to entertain from there too. Thank you.

Our entertainment was excellent. Dalton Wood and the Banknotes, The Sisters in Song from Post, The Sonshine Singers from Tahoka First Baptist Church, Daws and friends from the Tahoka Church of Christ. Thanks for this good music. Some dear sweet old lady dropped in early to speak and sing. She was with the Hays children. Joe tell her thank you for us. We also had a fellow drop in to speak. We had a little microphone trouble and couldn't hear all he had to say, but appreciate his coming by. If you see him Lyndell, tell him thanks. Thanks to our own Myrtle White. We always enjoy you Myrtle. Thanks to the cute tap dancers. The Squatty Five (less two) had everyone laughing. Thanks to the Dunlap kids.

Clint, thank you for a job well done. We really feel blessed in Tahoka to have such a capable emcee. Our auctioneers were just great and worked so hard. They even sold one item that's not in existence yet. Thank you, Billy and Melvin.

Thanks to the different organizations who had food booths. Chamber and Chamberettes had barbecue sandwiches, Auxiliary had beans and cornbread, 4-H'ers had drinks, Phebe K had desserts, St. Jude's Catholic had home made tamales. Thanks to Jim Bob Porterfield too, for bringing his cooking equipment and frying fish and potatoes for us. Everything was so good. Just like a big picnic.

Thanks to those who gave items for door prizes. It is always such fun to hear your name called out for a prize. We had candy from Parker Pharmacy, Summit Food, Thriftway and Tahoka Drug. Other door prizes from Adriana Barrientez, Vicky Summit and the Mirror. Thanks.

Thanks to Lyntegar for chairs, Community Center for chairs, tables and stage. Art Guild for screens and peg boards for display, Baptist Church for PA system, Tahoka schools for piano and PA system, Jim Huckaby and Joe Hays for saw horses. We appreciate getting to use the show barn too. Thanks to the community.

Thanks to those men who helped to move everything in and out and the cleanup before and after. That is such a big job, but one that is fun when everyone helps.

Thanks to each business and individual who gave items to be auctioned. We had such a good and big selection of really good, pretty and useful articles and services. This brought in a big portion of our money.

We appreciate the support of the Hospital Board and staff. Most of the Board was there for the bidding and the work. Thank you.

We had so many favorable comments and we made over \$5,000 so we are considering making this an annual affair. We really did have a good time.

It will be a miracle if I haven't overlooked someone, so please forgive.

To all of Lynn County a big thank you. We are so glad this is home.

Clean Air Week Is Proclaimed

Mayor Mel Leslie of Tahoka has added emphasis to activities promoting clean air in Texas by joining Gov. William P. Clements in proclaiming May 3-9 as Clean Air Week.

The Texas Air Control Board, the State agency with responsibility for controlling and abating air pollution, and the American Lung Assn. of Texas are cosponsoring Clean Air Week at the State level. "Energy conservation is the theme for this year's Clean Air Week because of the relationship between energy production and air pollution," said Mrs. Clint Walker, representative director to the Lung Association's State Board and resident of Tahoka.

Mrs. Grace Prohl of Tahoka is a member of the Program Committee, West Texas Area American Lung Assn. TABC Executive Director Bill Stewart said, "Because air is our most precious natural resource, it is important that air quality be maintained by limiting the amount of air pollutants. We hope that Texans will use this special week to become more aware of the relationship between energy use and environmental pollution and will think about ways to conserve energy."

Mrs. Walker said, "Our future respiratory health depends greatly on the choices we make about how much energy we use, how we generate it, and how well we control the pollution that results."

Explaining that Texans must work together to keep the air clean, Mrs. Walker suggested several ways to help reduce air pollution:

- do not burn leaves and trash;
- keep automobiles properly tuned and keep pollution control devices maintained;
- use car pools and public transportation and walk rather than ride as much as possible. Remember, the more cars on the road, the more pollution.
- conserve energy in the form of electricity and gasoline. The more energy we use, the more pollution we create.

The family of Glenn Lehman wishes to thank each of you for your loving care and kindness shown to us through our loss. Lynn County and the area counties can be very proud of their people, we are. As busy as this world is, you all took time for us when we needed you. Fishing was Glenn's third favorite thing to do. Second was farming and his family and first was his Lord and Church, St. Paul Lutheran.

While I pray my husband's death will make you all more careful around water, do not be afraid, because this was God's way of taking Glenn home. Glenn was not afraid to die, he told many of us this over the years, he said he was going to a better place. Had he not told me this numerous times I could not stand it. He is happy and with the Lord. The following people --we thank you.

Everyone who went to the lake, the fifth and sixth grade children, teachers of Tahoka Schools, St. Paul and St. John Lutheran Churches, the Youth Basketball Teams, all the fine friends of Tahoka, Post, Slaton, Wilson, O'Donnell, Snyder, Seminole, New Home, Plains, Gail and Lubbock.

It has not been intentional to leave out anyone who has helped us with the many acts of Christian love, if we have, it will be a favor to me, if you will call it to my attention. In closing I will ask each of you to please read Mark 13: 32-37.

Did You Know...

...That the Bible is some what like this newspaper? The word "gospel" means good news, and of course this paper is a news paper. Each of us enjoys the headlines, the news and notes from Wilson and New Home, and especially the Woodwork section. The Bible also has different sections within it and they deal with the same basic theme as well as different aspects of that theme.

Many of us will take out time to read every line in this paper, but how many of us will take out the time to read from the "good news" for all man-kind? God has spent time, effort, and great love to present the hope of Israel to the world that we might have hope in the judgement to come. Will we respond by simply hearing His news?

James tells us, however, that just hearing the news is not enough. Notice James 1: 21-22, "Therefore putting aside all filthiness and all that remains of wickedness, in humility receive the word implanted, which is able to save your souls. But prove yourselves doers of the word, and not merely hearers who delude themselves."

DONALD DAWES

Are you willing to be an active doer of the NEWS that is found in God's word to you, the Bible?

INSUR-MATION

By PAT GREEN

Lynn County Farm Bureau

Q. A friend just bought a life insurance policy with which I'm not familiar. What are the advantages of a permanent life policy with a limited payment life?

A. The key lies in the "limited payment". The basic advantage is premiums are payable during a specified period of years. Premiums which are paid, for example, in 20 years will usually have a more rapid accumulation of cash value than policies paid until age 65 or for life. In addition, you are able to borrow the accumulated cash value at the contractual interest rate. The interest on the loan would be due and payable on the anniversary date of the policy each year, until the loan is paid.

THE HOW AND WHY OF TRANSPLANTING

While it's best to seed some vegetables directly in the home garden, others do best if transplanted.

In this area of Texas tomatoes, peppers and eggplant should always be set out in the garden as transplants. The reason for this is the weather. These vegetables are somewhat fickle when it comes to ideal environmental conditions for setting fruit. Bloom and fruit set must occur before temperatures get too high. Setting out transplants after danger of all frost allows these plants to bloom during ideal conditions and to set a bountiful harvest during optimum weather.

You can also transplant such as called "cool season" crops such as cabbage, cauliflower, broccoli, lettuce and onions. This allows them to mature under ideal conditions and also saves growing time by several months or more. However, setting out transplants of crops such as okra, squash, cucumbers and melons offers no real advantage and is usually not a recommended practice.

What about the "how" of transplanting? Handle transplants like eggs! Make every effort to avoid undue stress to young plants. Be sure plants do not suffer from lack of moisture, wind damage or excessive heat prior to and immediately after transplanting.

Most plants that are available locally will be growing in plantable containers such as peat pots or peat cubes. If possible, plan to transplant during late afternoon or at least on a cloudy day. I personally think it's a good idea to set your transplants in a bucket or pan of water for several minutes prior to planting so the root system is thoroughly wet.

Determine the proper spacing for the crop and dig a hole 4 inches wide and 4 to 6 inches deep. Put about a cupful of water directly in the hole and allow it to soak in. Set the transplant in the center of the hole and fill in with soil. Make certain the peat container is completely beneath the soil level as it may act like a wick and rapidly dry out the rootball, thus killing the plant.

Depth of planting is important and often beginners make the mistake of setting plants too deep in the soil. Set most transplants only slightly deeper than they were originally growing.

If plant roots are set too deep below the soil level, especially in heavy soils, they will be slow to grow and the plant will have to produce roots along the stem near the surface. The original roots may, or may not, grow eventually. Either way, the advantages of transplanting are lost and harvest may be delayed greatly.

When filling the hole with soil at planting, leave a slight depression around the plant to hold additional water from spot watering or from rainfall. Also protect young plants for a week or so from high wind and excessive heat. This can be done easily by placing a shingle, board, milk carton or some similar protection on the windy or sunny side of the plant. A can placed around the transplant when it is set in the garden will also prevent damage from pesky cut worms.

Textile mill activity improved moderately in March, as the seasonally adjusted annual rate of U.S. mill fiber consumption reached 24.25-million-bale equivalents. That was up 3 % from Feb. but down 5.5 % compared with March a year ago, National Cotton Council reports.

Domestic mill use of cotton remained virtually unchanged during March, maintaining a 5.6-million-bale annual rate. Last month's rate of cotton consumption was 16.7 % lower than March, 1980. Through the first eight months of the 1980-81 crop year, cotton consumption averaged a 5.9-million-bale rate.

Ground Meats Offer Variety

You may feed your family ground and stew meats every meal for a week and not exhaust their appetites, so versatile are the recipes for these meats. You can serve a dish at each meal that is so unique in flavor and construction that it does not resemble the one enjoyed last night. Recipes range from Creole burgers to tacos, and meatloaf to casseroles.

Ground meat, on a cost per serving basis, offers good value for your meat-buying dollar. And you can extend ground meat by combining it with vegetables or cereal products.

April is a good month to try some new ground meat recipes on your family. Pork is plentiful supply and beef is adequate say U.S. Department of Agriculture marketing specialists.

See if you can tempt your family's appetite with any of the recipes below.

Creole Burgers

1 pound ground beef
1/2 cup chopped onion
1 tablespoon shortening
Dash pepper
1 can (10 1/2 oz.) vegetable soup
2 tablespoons ketchup
1 teaspoon prepared mustard
6 buns, toasted and buttered
Brown beef and onion in shortening; stir to separate meat particles. Add soup and seasonings; simmer 5 to 10 minutes to blend flavors. Stir now and then. Serve on buns. Makes 6 servings.

Scalloped Pork Dish Supper

2 cups cooked pork
3 cups thinly sliced potatoes
1 can (102 oz.) condensed cream of celery soup
1/2 cup milk
1 teaspoon salt
2 tablespoons finely chopped green pepper
2 tablespoons finely chopped onion
1/8 teaspoon pepper
1/8 teaspoon Savory
1/2 cup shredded cheese

Combine all ingredients except cheese in a 1-quart casserole. Bake in moderate oven (350 degree F.) for 30 minutes. Remove from oven, sprinkle with cheese and return to oven. Continue baking for about half hour or until potatoes are tender. Four generous servings.

Beef Tacos

1 pound ground beef
1/2 cup chopped onion
2 teaspoons chili powder
1 cup lettuce, shredded
Taco sauce as desired
12 Taco shells, fully cooked
1 can (8 oz.) tomato sauce
1 cup chopped tomato
1/2 cup (2 oz.) natural sharp cheddar cheese

Heat taco shells as directed on package. Brown ground beef and onion in a frypan. Drain off excess fat. Stir in tomato sauce and chili powder. Bring to a boil. Reduce heat. Cook 10 to 15 minutes uncovered, stirring occasionally, until mixture is dry and crumbly. Fill heated taco shells with approximately 2 tablespoons meat mixture. Mix tomato, lettuce, and cheese. Spoon about 2 tablespoons over beef in taco shells. Drizzle with taco sauce as desired.

Spicy Pork Patties

3 parts ground pork
1 part ground veal
2 teaspoons salt
1/4 teaspoon pepper
2 teaspoons brown sugar
2 tablespoons minced parsley
1-1/2 teaspoons oregano
1 teaspoon sage
Pinch cayenne pepper
Blend together ingredients and shape into patties. Place into frying pan with 2 tablespoons of water and cover tightly. Simmer slowly about 10 minutes. Remove cover and cook patties slowly until browned on both sides or about 20 minutes.

Sales Tax Rebate Told

State Comptroller Bob Bullock reported that gross sales in Texas during the final quarter of last year surged to \$89.8 billion.

Sales in the final three months of 1980, as reported by 341,539 outlets, outstripped third quarter sales by \$24.1 billion, Bullock said.

Total gross sales figures for 1980 in Texas reached \$281.1 billion, according to Bullock, compared to gross sales for 1979 of \$213.8 billion.

"The numbers speak for themselves," Bullock said, "showing most Texas companies closed out the year on an economic high note."

Bullock said the expanding Texas business picture was also partly responsible for the rapid increase in reporting outlets--up by nearly 100,000 from the third quarter to 341,539 at year's end.

Bullock also released a computer analysis showing reported sales for each of the state's 254 counties and a sales tax analysis broken down by the state's Standard Metropolitan Areas.

Lynn County's gross sales 17,010,821, amount subject to tax 1,674,794.

SCS NEWS

Irrigation storage tanks are being seen more and more around Lynn County. One reason is that these tanks are cost shared through the ACP and GPCP cost share programs. There are other reasons for the increase in the number of tanks being built. One reason is that several low producing wells (30 to 60 gal. per minute) can be brought to one point and from there a booster pump delivers it to a sprinkler system where the water is evenly distributed on the land. Land owners are finding that they save water using this method and they

cut out a lot of labor. For more information contact the SCS office in Tahoka.

PRAISE THE LORD

BY LENDA WOOD

In writing a column regarding faith in God, there's always the danger of being misunderstood. Nevertheless, it is my prayer that the thoughts I share in this column will help to bring someone closer to God.

Do you practice the presence of Jesus?

There's an art to worship -- it doesn't just happen. We have to prepare for it just as surely as we plan and prepare a meal, or organize our thoughts and responsibilities for our jobs. Or even putting in a new yard or garden, we have to have some kind of plan if we expect to develop something that's worth anything. Think for a moment regarding the mighty miracle of Jesus' resurrection. How terrible His body was beaten and torn and how He gave up himself -- just for me and you -- and then only three days later He was given a brand new body, alive and whole and healthy!

That very same mighty power is available for each of us in our daily lives. And we need to claim it.

Dr. Norman Vincent Peale, and other Christians as well, teach that as we bring our troubles and cares in prayer to Jesus, that as we bring them we should, for a moment, get everything out of our minds and concentrate on Jesus, for "in Him we live, and move, and have our being." So as long as we are "in Him", we are in the flow of God's power and strength. Think about God's power and all the things He has done, and all the things that He wants to do for us.

THE HOW AND WHY OF TRANSPLANTING

While it's best to seed some vegetables directly in the home garden, others do best if transplanted.

In this area of Texas tomatoes, peppers and eggplant should always be set out in the garden as transplants. The reason for this is the weather. These vegetables are somewhat fickle when it comes to ideal environmental conditions for setting fruit. Bloom and fruit set must occur before temperatures get too high. Setting out transplants after danger of all frost allows these plants to bloom during ideal conditions and to set a bountiful harvest during optimum weather.

You can also transplant such as called "cool season" crops such as cabbage, cauliflower, broccoli, lettuce and onions. This allows them to mature under ideal conditions and also saves growing time by several months or more. However, setting out transplants of crops such as okra, squash, cucumbers and melons offers no real advantage and is usually not a recommended practice.

What about the "how" of transplanting? Handle transplants like eggs! Make every effort to avoid undue stress to young plants. Be sure plants do not suffer from lack of moisture, wind damage or excessive heat prior to and immediately after transplanting.

Most plants that are available locally will be growing in plantable containers such as peat pots or peat cubes. If possible, plan to transplant during late afternoon or at least on a cloudy day. I personally think it's a good idea to set your transplants in a bucket or pan of water for several minutes prior to planting so the root system is

thoroughly wet.

Determine the proper spacing for the crop and dig a hole 4 inches wide and 4 to 6 inches deep. Put about a cupful of water directly in the hole and allow it to soak in. Set the transplant in the center of the hole and fill in with soil. Make certain the peat container is completely beneath the soil level as it may act like a wick and rapidly dry out the rootball, thus killing the plant.

Depth of planting is important and often beginners make the mistake of setting plants too deep in the soil. Set most transplants only slightly deeper than they were originally growing. If plant roots are set too deep below the soil level, especially in heavy soils, they will be slow to grow and the plant will have to produce roots along the stem near the surface. The original roots may, or may not, grow eventually. Either way, the advantages of transplanting are lost and harvest may be delayed greatly.

When filling the hole with soil at planting, leave a slight depression around the plant to hold additional water from spot watering or from rainfall. Also protect young plants for a week or so from high wind and excessive heat. This can be done easily by placing a shingle, board, milk carton or some similar protection around the windy or sunny side of the plant. A can placed around the transplant when it is set in the garden will also prevent damage from pesky cut worms.

Sherry Etheredge Says ...

Ground Meats Offer Variety

You may feed your family ground and stew meats every meal for a week and not exhaust their appetites, so versatile are the recipes for these meats. You can serve a dish at each meal that is so unique in flavor and construction that it does not resemble the one enjoyed last night. Recipes range from Creole burgers to tacos, and meatloaf to casseroles.

Ground meat, on a cost per serving basis, offers good value for your meat-buying dollar. And you can extend ground meat by combining it with vegetables or cereal products.

April is a good month to try some new ground meat recipes on your family. Pork is in plentiful supply and beef is adequate say U.S. Department of Agriculture marketing specialists.

See if you can tempt your family's appetite with any of the recipes below.

Creole Burgers
1 pound ground beef
1/2 cup chopped onion
1 tablespoon shortening
Dash pepper
1 can (10 1/4 oz.) vegetable soup
2 tablespoons ketchup
1 teaspoon prepared mustard
6 buns, toasted and buttered
Brown beef and onion in shortening; stir to separate meat particles. Add soup and seasonings; simmer 5 to 10 minutes to blend flavors. Stir now and then. Serve on buns. Makes 6 servings.

Scalloped Pork Dish Supper

2 cups cooked pork
3 cups thinly sliced potatoes
1 can (102 oz.) condensed cream of celery soup
1/2 cup milk
1 teaspoon salt
2 tablespoons finely chopped green pepper
2 tablespoons finely chopped onion
1/8 teaspoon pepper
1/8 teaspoon Savory
1/2 cup shredded cheese

Combine all ingredients except cheese in a 1-quart casserole. Bake in moderate oven (350 degree F.) for 30 minutes. Remove from oven, sprinkle with cheese and return to oven. Continue baking for about half hour or until potatoes are tender. Four generous servings.

Beef Tacos

1 pound ground beef
1/4 cup chopped onion
2 teaspoons chili powder
1 cup lettuce, shredded
Taco sauce as desired
12 Taco shells, fully cooked
1 can (8 oz.) tomato sauce
1 cup chopped tomato
1/2 cup (2 oz.) natural sharp cheddar cheese

Heat taco shells as directed on package. Brown ground beef and onion in a frypan. Drain off excess fat. Stir in tomato sauce and chili powder. Bring to a boil. Reduce heat. Cook 10 to 15 minutes uncovered, stirring occasionally, until mixture is dry and crumbly. Fill heated taco shells with approximately 2 tablespoons meat mixture. Mix tomato, lettuce, and cheese. Spoon about 2 tablespoons over beef in taco shells. Drizzle with taco sauce as desired.

Spicy Pork Patties

3 parts ground pork
1 part ground veal
2 teaspoons salt
1/2 teaspoon pepper
2 teaspoons brown sugar
2 tablespoons minced parsley
1-1/2 teaspoons oregano
1 teaspoon sage
Pinch cayenne pepper
Blend together ingredients and shape into patties. Place into frying pan with 2 tablespoons of water and cover tightly. Simmer slowly about 10 minutes. Remove cover and cook patties slowly until browned on both sides or about 20 minutes.

Sales Tax Rebate Told

State Comptroller Bob Bullock reported that gross sales in Texas during the final quarter of last year surged to \$89.8 billion.

Sales in the final three months of 1980, as reported by 341,539 outlets, outstripped third quarter sales by \$24.1 billion, Bullock said.

Total gross sales figures for 1980 in Texas reached \$281.1 billion, according to Bullock, compared to gross sales for 1979 of \$213.8 billion.

"The numbers speak for themselves," Bullock said, "showing most Texas companies closed out the year on an economic high note."

Bullock said the expanding Texas business picture was also partly responsible for the rapid increase in reporting outlets--up by nearly 100,000 from the third quarter to 341,539 at year's end.

Bullock also released a computer analysis showing reported sales for each of the state's 254 counties and a sales tax analysis broken down by the state's Standard Metropolitan Areas.

Lynn County's gross sales 17,010,821, amount subject to tax 1,674,794.

SCS NEWS

Irrigation storage tanks are being seen more and more around Lynn County. One reason is that these tanks are cost shared through the ACP and GPCP cost share programs. There are other reasons for the increase in the number of tanks being built. One reason is that several low producing wells (30 to 60 gal. per minute) can be brought to one point and from there a booster pump delivers it to a sprinkler system where the water is evenly distributed on the land. Land owners are finding that they save water using this method and they

cut out a lot of labor. For more information contact the SCS office in Tahoka.
