## School Boosts Bonus For Tahoka Teachers

Tahoka school teachers were given a \$200 annual raise above what already has been mandated by the state as school board members last Thursday acted on the recommendations of Supt. Jim Coulston who said the additional amount is needed to show faculty members they are appreciated and

bring the school closer to other schools in the area in total pay for teachers.

The \$200 boost brings to \$800 the amount Tahoka schools pay above state schedule, Supt. Coulston presented a sheet comparing area school salaries, as of last year, noting that most schools have since increased

pay over the amounts listed on the sheet.

### Other Schools

It showed Post paying \$1,200 above schedule last year (reportedly now raised to \$3,700). Slaton \$500, O'Donnell \$1,000, Roosevelt \$100 and Denver City \$4,000 above state schedule. The vote to increase Tahoka's

amount to \$800 was 4-1 in favor, with Jim Wells voting against the motion and member Tommy Lawson not present. The board also voted to give five non-teaching employees raises of 10 per cent. These five were the ones not covered by a state-mandated increase for secretaries and other school personnel.

The board voted to lease an additional vehicle to be used by all school personnel on school business only.

The board took note of the recent resignation of ag teacher Danny Preston, and that Mark Harmon Edens already has been hired to replace Preston. Edens will assist Leroy McDaniel, who recently was hired as vo-ag instructor.

### Minor To Plains

Head Basketball Coach Dean Minor and Diane Hope did not return their contracts and will not be returning, Supt. Coulston noted. He said Minor will be head basketball coach at Plains and Mrs. Hope will move to Amarillo, where her husband has been named tennis coach at one of the high schools.

Ron Boggs, who has been teaching in the Dallas ISD for several years, was hired as junior high math teacher at base plus \$2,000.

Joe Hays was elected as delegate and Betty Green as alternate to the convention of school board members in San Antonio in September.

After some discussion of banks and finances, Supt. Coulston was authorized by the board to present to several financial institutions the current depository pledge contract for the school.

## Commissioners Say No County Tax Hike Coming

Lynn County Commissioners Monday took another long look at proposed budget figures for next year and then agreed informally to grant raises to county employees, with most to get about 10 per cent increases.

The commissioners then told the News "there will be no county tax increase this year."

A formal public hearing on a proposed budget for next year is scheduled for 10 a.m. July 27, at which time the commissioners are to adopt the budget.

The group voted to require all department heads in the county to approve bills in advance before they will be paid.

Rex Childress was approved as new deputy in the sheriff's office.

All commissioners and Judge Melvin Burks were present as the group also approved a list of election judges for polling places in the county for the next year.

Judges listed first, followed by alternates, for the various voting boxes:

## Green Murder Suspect Still Sought

Officers investigating the slaying of a former New Home woman July 3 have reported no new leads in the case, but the victim's mother, Mrs. Geneva Carter

of Tahoka, told the News this week that officers may have some new information.

Mrs. Carter said she had a report that a witness sought in connection with the incident had come forward to talk to officers, but the officers did not tell her this.

Geneva Louise Green, 37, was slain at a Callahan County rest stop on Interstate 20 about four miles east of Abilene. She was en route to a July 4th reunion at the Carter home in Tahoka when she was stabbed once in the breast and had her abdomen slashed after she went into the women's restroom at the rest stop about 5:30 a.m. that Friday.

The Abilene Reporter News said in a story last weekend that there were no leads at that time in the case, but a relative of Mrs. Carter told her by phone July 7 that he had seen on Dallas-Fort Worth area television that a woman seen running from the restroom before the suspect came out, followed by Mrs. Green, had contacted law enforcement officials.

Mrs. Carter said her daughter had planned to pick up her two sons, John, 15, and Robert, 13, who had been visiting their grandmother.

The family gathering was to have included Mrs. Green's grandmother, Myrtle Patterson of New Home; her sister, Sandra Hester of Tahoka; a brother, Buck Carter of Dimmitt; and other family members. Mrs. Green lived in Euless and was to have returned there Monday.

Mrs. Carter described her daughter as a "good Christian girl who...always had a smile on her face," and said many Lynn County friends had expressed shock and sympathy.

The family moved to Lynn County from Lamesa in 1950 and lived in New Home until 1964.

Officials in Callahan County (Baird) have been searching for a black man driving a light-colored Toyota camper.

THE OTHER DAY I had to get up 30 minutes earlier than usual to come down to the office and chop weeds out of the cracks on the sidewalk out front. There were several things which motivated me to do this, but mainly I did it to get a head start on the cleanup campaign which the chamber of commerce and City of Tahoka are pushing next week.

There just simply was no way I could sit down and write something encouraging everyone to cut their weeds and get rid of their trash when our own customers almost needed a machete to get into the front door.

I noticed the weeds a few weeks ago when I tripped on one, and at that time I suggested to one of our employees that she should cut those things down the first chance she got. She never got a chance. Actually, in her defense, I'll admit we kept her pretty busy with other things.

Then three civic-minded guys came around and poisoned them, hinting that I should have done it myself. The weeds, now mostly brown, were still there when I attended a meeting of the city council at which a cleanup was discussed with some representatives of the chamber. Some of the comments really hurt. Said the mayor:

"It's a disgrace the way some of these people over in this part of town (he waved in the general direction of the News office) have let the weeds take over."  
"Yeah," said a chamber representative, "When visitors come to town, they sure get a poor impression from the terrible state of trash and weeds right downtown...we ought give some of the folks a Mess of the Month award." He was still looking at me as he added, "Even those people who have had their weeds poisoned still need to cut them down."

Later they all agreed that a cleanup campaign should help some, even if others might pay no attention to it. Said another man, "Some folks are just slob (I squirmed in my seat and tried to tuck in my shirt tail) and no matter what we say they're not gonna keep their businesses, homes or themselves neat, but it's worth a try."

The very next morning I got up and cut down the blamed weeds. I hope all the rest of the slob in town will join me in showing these do-gooders that we can be as neat as anybody when we really want to.

## Tahoka C-C Leaders Meet

The board of directors of the Tahoka Chamber of Commerce met Tuesday, July 7, at noon with President Frank Barrow presiding. The Barrow presiding.

Barrow announced that a community calendar is now in the Chamber office and all clubs and organizations should call to have their events recorded.

Vickie Summitt announced that the date of the Harvest Festival has been set for Saturday, Oct. 3.

The Chamber set the week of July 20-24 as Clean-Up Week and asked all citizens in Tahoka to make a major effort to clean up their own property during this week.

An 18-year-old Lardeo man was charged with murder and was in Lynn County jail this week in lieu of \$50,000 bond in the shooting death last Friday night of a Lamesa man.

Ruben DeLeon Jr. was charged in the slaying which occurred in O'Donnell after a car in which the victim of the shooting was a passenger struck a car in which DeLeon reportedly was a passenger. Damage was slight in the collision, but the ensuing argument turned into a fight and the shooting resulted in the death of Alan Dale Parker, 24.

Parker was shot once in the chest with a small-caliber pistol. Services were conducted Monday at Branon Funeral

Home Chapel in Lamesa. Burial was in O'Donnell Cemetery.

Parker was born and grew up in O'Donnell. He moved to Lamesa three years ago. He was a sergeant in the Air Force and recently re-

enlisted.

Survivors include his parents, Darrell and Cleo Parker of Lamesa; his grandparents, Mr. and Mrs. H.L. Cathy of Lamesa and Lester Parker of O'Donnell; three sisters, Linda Gleghorn of Lubbock, Brenda Isbell of Tahoka and Cindy Bearden of Welch; three brothers, Will of Lubbock and Terry and Dwayne, both of Lamesa.

The family suggests memorials to the American Heart Association.

District Judge George Hansard was presiding over court here this week with a jury hearing a civil case styled James Calvin Womack II and Tom B. Mason against Raymond Ashbrook and Charles Ray Ashbrook. Testimony began Tuesday in the case, in which the plaintiffs

A typographical error which resulted in a garbled paragraph in the police report in the News' last week could have been misinterpreted regarding a burglary at the home of Raymundo Vasquez of Tahoka. The burglary was committed at the Vasquez home and the stolen articles later were recovered elsewhere from two juvenile suspects. The News apologizes for the accidental wording of the report.

## Cleanup Week Starts Monday

All Tahoka citizens are urged to get involved in a city wide cleanup campaign starting Monday and winding up Thursday and Friday with special city pickup of trash and garbage.

Tahoka Chamber of Commerce is sponsoring the Clean Up-Fix Up Week in both the residential and business areas and a spokesman said "we hope everything will be spruced up, but particular emphasis is being placed on the commercial areas where weeds are growing in the sidewalk and those vacant lots that need to be mowed."

Anyone who has trash that needs to be hauled away should place it beside a dumpster and the city will pick it up Thursday and Friday, July 23-24. Also the city shredder will be available to shred any vacant areas. The city has set a minimum charge of \$10 for the use of the shredder, and this would include any lot up to 100 feet frontage. Persons desiring that service should call the city at 998-4211.

"We hope every property owner will see that his business or home is attractive and will encourage his neighbor to take pride and keep his property neat," said Frank Barrow, president of the chamber.

sought \$19,000 and \$10,000 respectively in the suit involving the flow of water allegedly changed because the defendants constructed an earthen embankment which the suit also asks be removed.

Attorneys for the plaintiffs are Tom Milam and Walter Taylor and defense attorney is Jimmy Wright.

The district court was scheduled to take up the criminal case against Thomas Calvin Parks, 54, of Slaton, charged with involuntary manslaughter in the April death of Bert Stevens of Tahoka, after a collision at U.S. 380 and U.S. 87 access road.

The sheriff's office is in-

vestigating a report of burglary at the home of Freddie Riley 10 miles north and one mile east of Tahoka, reported on Sunday. Missing items included \$500 worth of frozen meat, a television set, boots and a record player. Total value of the stolen goods was set at \$1045.

City police issued two tickets for illegal parking, one for passing on the wrong side, two for public intoxication and one for excessive speed.

Richard Green of Tahoka reported the outside speaker on a 1978 Chevrolet pickup broken by vandals, and a Tahoka woman complained to police that her husband had struck her in the face.

# INSUR-MATION

By PAT GREEN  
Lynn County Farm Bureau

With inflation as high as it is, isn't whole life insurance a bad fixed dollar investment? Life insurance is not really intended to be an "investment" such as stocks and bonds, etc. Life insurance answers the question: Without you, would your spouse, children or parents suffer economically? If the answer is yes - you need life insurance. True, inflation does erode the value of future dollars but this erosion also points out the need for greater protection for your family. Whole life offers this protection along with the attractive addition in building a nest egg in the form of cash value which will be there if you need it. Many experts suggest setting aside a fixed percentage of your income for insurance premiums. As your income increases (due partly to inflation), your insurance protection will also increase accordingly.

## Hospitals Meet Stiff Rules In State Of Texas

Stiff regulations that hospitals today must meet in order to be accredited and qualify for the Medicare program were outlined at the Rotary Club last Thursday by C. L. Fisher, Zone 5 of Texas Department of Health.

His job is to inspect and monitor in a vast West Texas area, and surveys hospitals in the fields of management, laboratory, personnel, cleanliness, and diets for patients.

He said his zone is one of the best anywhere, and all hospitals meet the guidelines if they try hard enough. Biggest problem is finding sufficient registered nurses, in which field there is a shortage.

Texas has the largest number of rural hospitals, but among the best in many of the small towns such as Tahoka. About one-half of the patients are on Medicare.

The speaker said the current Federal economy program may cut down on the staff of his department, but said he favored economy in government even if it costs him his job.

Lynn County Hospital Administrator, John Brooks, arranged the program and introduced the speaker.

Women's roles in medicine have expanded recently and promise more rapid growth in the future, says Dr. Mary Ann Shirer, a health education specialist.

While only six percent of all physicians were female in 1963, the numbers reached 11 percent by 1979, she says.

## Scanning Social Security

Jim Latimer

### \$121 BILLION PAID IN BENEFITS IN 1980

Social Security paid monthly cash benefits totaling \$121 billion in 1981 to over 35 million men, women and children.

The impact of social security on people's lives and on the economy is tremendous. These benefits represent a large part of these people's income. Total payments represent about one-fourth of all Federal expenditures.

Social security has been improved many times over the years. Coverage has been expanded so that today 9 out of 10 working people and their families are protected. Disability insurance was added in the 1950s and Medicare in 1965. Automatic cost-of-living benefit increases started in 1975 and provide a cushion against inflation.

Social security provides comprehensive lifetime protection--people of all ages receive monthly benefits. They include the factory worker who just retired as well as his 89-year-old aunt who has been getting widow's payments since 1955. Then there are the two young children of the woman who died of cancer, and the worker laid up more than a year after an accident. They receive checks, too.

Nearly all of the people on benefit roles receive the right check at the right address and on time each and every month.

An addition to monthly benefits, there is Medicare. This helps pay costly hospital doctor and other medical bills for most people 65 or older, for the disabled people who have been receiving benefits at least 2 years, and for many people with permanent kidney failure. In 1980, Medicare paid about \$35 billion on their behalf.

At a time that social security taxes have just increased, it is important to remember the benefit side of the program as well as the tax side.

## Luau Offers Good Time, Music, Food

Participants in the luau at Tahoka Mini-Park Saturday night played games, ate roast pig and listened to Hawaiian and other-type music from a band brought in from the shores of Slaton and Lamesa.

Awards were given for Hawaiian costumes, with judging by band members. Best male Hawaiian costume award went to David Midkiff, and the Midkiffs' daughter Ann-Marie received the award for little girls. Best-dressed woman was Cordie Swann, and a special mention was given to Frank Barrow for the oddest-looking Hawaiian costume.

## Sherry Etheredge Says...

**Broilers On The Grill**  
Are you getting tired of the usual barbecue fare? If you're looking for something different, remember that chicken cooks perfectly on the grill, provided that you remember to raise the grill from its usual height (to about 6 to 8 inches) because chicken takes longer to cook.

Now is the perfect time to try broilers on the grill because they will be plentiful supply throughout July, according to marketing specialists with the U.S. Department of Agriculture.

Halve or quarter the chickens. You might want to marinate them for a few hours, or overnight, in a barbecue sauce for added flavor. Here's a favored Polynesian method: Combine 1 jar 1890 salad dressing, 1 jar barbecue sauce, 1 jar Chinese duck sauce, and 1 small can crushed pineapple. This makes enough for two chickens.

Here's another marinade suggestion: Beat 2 tablespoons of mustard into 1 cup of olive oil, and add 2 cloves pressed garlic, 1/4 teaspoon cayenne pepper, salt to taste, 2 tablespoons each of wine vinegar and white wine, 1 teaspoon dried thyme, and 1 crumbled bay leaf. For best results, allow the chicken to stand in marinade 24 hours before grilling.

For a simpler preparation, merely combine melted butter with paprika, salt, red and black peppers, and pressed garlic. Baste several times during cooking.

# COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

**TRADE TEAM NAMED:**  
 A trade team will depart August 7 for two weeks of contacts with U.S. cotton customers in Taiwan, the Philippines, Indonesia, Malaysia, Thailand, and Bangladesh.  
 These countries imported almost 1.4 million U.S. bales in 1979-80 and as of June 25 are committed to purchase almost a million bales this marketing year.

The team is sponsored by Cotton Council International and USDA's Foreign Agricultural Service. Members are William C. Tharp, Las Cruces, N.M., and Winford McGehee, Memphis, representing American Cotton Shippers Assn; Bruce Grofsema, Bakersfield, Calif., AMCOT; Charles R. Bell, Ginn, Phoenix; Jack Wilson, warehouseman, Phoenix; Kenneth A. Howland, Washington, D.C. USDA-FAS; and John Maguire, Hong Kong, CCI.

**COTTON NURSERY TO MOVE:** The winter cotton nursery, established in 1950 by the National Cotton Council at Iguala, Mexico, will begin its 32nd year of service to the American cotton industry next month.

The operation is moving to the experiment station at Tecoman, Mexico, near the west coast city of Manzanillo. For the season just ended, 46 private and public plant breeders used the service. Their main emphasis was on hybrids, insect resistance, improved fiber and seed quality, earlier maturing varieties, and higher yields.

**KOREA GETS ADDITIONAL CREDIT:** The U.S. Department of Agriculture has announced an additional \$70 million in GSM 102 credit guarantees to Korea for cotton purchases during 1981 fiscal year. The action brought the total approved to \$300 million, the amount originally requested by Korea.

Many programs for Vietnam Era veterans are administered by the Veterans Administration. Among them are the GI Bill, special life insurance programs, readjustment, and a wide variety of medical services. Details are available at all VA regional offices and medical centers.

## TDA Fungicide Request Approved For Live Oaks

**AUSITN--**The Texas Department of Agriculture's (TDA) request for use of a fungicide on live oak trees in the state has been approved by the Environmental Protection Agency, Commissioner Reagan V. Brown has reported.

Arbotect has been previously tested for use in preventive and therapeutic treatment of live oaks to control Live Oak Decline (LOD). Brown noted, "Test reports indicated good activity of the fungicide with adequate control of the disease," Brown said.

"LOD has killed many beautiful trees in some areas of the state over the past several years," Brown continued. "Trees are valuable aesthetic assets adding charm and beauty to any home or business. We feel use of this product will help owners of such trees stricken by the disease in yards, parks and recreational areas."

The fungicide is thiabendazole with a low order mammalian toxicity, Brown explained. State Special Local Need Labels have been approved for the following products: Merk, reg. 618-88; Dewill Arbotect 20-S, reg. 618-88-4191; Hopkins Arbotect 20-S, reg. 618-88-2393 and Hopkins Arbotect S, reg. 618-89-2393.

"Directions for all products are similar," Brown noted. "The products are diluted in water and injected into the conductive tissue of the tree."

## Bullock Against Gas Tax Raise

State Comptroller Bob Bullock warned that Texas taxpayers—not taxpayers in other states—would bear the burden of Attorney General Mark White's proposal to raise Texas oil and gas severance taxes.

"Texas would be shooting itself in the foot by raising oil and gas taxes," Bullock said of White's suggestion that Texas raise its taxes in retaliation to the State of Montana's 30 percent severance tax on its coal.

Bullock pointed out that Texas residents and Texas industries use 72 percent of the natural gas and 63 percent of the crude oil produced in Texas.

"In other words, the Attorney General's proposal wouldn't ship our tax burdens to New York or Illinois. It would ship the tax burden no further than down the street to a fellow Texan," Bullock said.

"With even the slightest increase we would be talking about millions or even billions of dollars in new taxes," he said.

Taxes on natural gas is set at 7.5 percent of the value and there is a 4.6 percent tax on the value of oil produced. The two taxes will hit the state about \$5 billion in revenue in the next two years.

Bullock said he supports a move by Congress to put a federal ceiling on state severance taxes although he basically doesn't believe in federal intervention in state tax matters.

## 1981 Cotton Varieties Planted

GSA 71 and Paymaster 303 were the leading cotton varieties planted in the Lubbock area this year, according to USDA's Agricultural Marketing Service, Cotton Division. "GSA 71 led Paymaster 303 by less than one percentage point and therefore was the leading variety in this area for the fifth consecutive year," said Mack Bennett, Area Director at the Lubbock Marketing Services Office.

"Ginners, cottonseed dealers, growers and other industry sources were interviewed during this survey," Bennett continued. "The top five varieties by percentages were GSA 71 - 18 percent; Paymaster 303 - 17 percent; Quapaw - 6 percent; Paymaster 266 - 6 percent and Paymaster 792 - 5 percent."

The survey showed the following varieties accounted for two to four percent:

Variety	Percentage
Cascot L-7	2
Deltapine SR-5	2
Dunn 119	2
Dunn 120	4
Lockett 77	2
Paymaster 18	2
Stripper 31	4
Tamcot SP-21	3

The following varieties were planted on a significant acreage and accounted for about one percent each: Blightmaster A-5; Cascot B-2; Coker 312; Coker 5110; Deltapine SR-4; Dunn 219; GSA 75; GSA 78; Lankart 57; Lankart 611; Morcot M-70-A; Paymaster 134; Paymaster 404; Paymaster 785; Stripper 31-A; Stripper 32; Tamcot CAMD-E; and Tamcot SP 21-S.

About 107 different cotton varieties were planted in the Lubbock area for the 1981-crop year.

The first dues increase in the organization's 25-year history was voted July 8 by the 50-man Board of Directors of Lubbock-based Plains Cotton Growers, Inc.

The action to raise combined producer and ginner dues from 16 cents to 25 cents per bale came after the Board adopted a \$283,150 budget for 1981-82, \$64,000 above total dues income from the 1980 crop.

PCG, organized in 1956, serves cotton producers in 25 High Plains counties surrounding Lubbock, providing research, market development, legislative and other services.

"The deflated value of the dollar today compared to 1956 or even 1976," PCG President Gary Ivey of Ralls told the Board, "has brought us to the point that without additional revenue it would only take one or two disastrous crop years to destroy the financial stability and the effectiveness of our organization."

The 1981-82 budget figure was developed for the Board's approval by PCG's Finance Committee, chaired by Myrl Mitchell of Lenora in Martin County, and the dues increase was a recommendation made jointly by the Finance and Executive Committees. President Ivey chairs the Executive Committee.

Board discussion revealed that PCG dues revenue in five of the past ten years has failed to cover budgeted expenditures, despite the curtailment or postponement of badly needed production and utilization research projects, and some "less than all out" efforts in legislative and other areas.

PCG also receives some dues from cotton oil mills, compresses, banks and other cotton-related businesses (amounting to about 15 percent of total revenues), but the Board concurred with the Finance-Executive Committee recommendation that "appropriate dues adjustments" for these segments be implemented by the Executive Committee after further study.

The 16 cents per bale producer-ginner dues in the past have been split, 15 cents from the producer and 1 cent from the ginner, all collected as a part of ginning charges. Beginning in 1981, while dues will still be a part of ginning charges, the two will be combined into a single 25 cents per bale rate.

"This change," Ivey explains, "gives greater recognition to the indispensable service provided by ginners in our dues collection system but does not deny him the opportunity to make a financial contribution as well."

What Mitchell termed the "tight" 1981-82 budget is only \$9,600 above the 1980-81 budget, "barely enough to cover increases in the cost of such fixed overhead items as postage, utilities, travel, telephone, insurance, etc."

In other action the Board supplemented its legislative policy by voting strong opposition to a USDA requirement that all farmers financed through the Farmers Home Administration carry federal crop insurance.

## Scanning Social Security

By Jim Latimer, Field Representative  
Social Security Administration  
1205 Texas Ave., Room 102  
Lubbock, Tx 79401

Today's column is written in the hope that those drawing a social security check, and those who hope to draw a social security check in the future, will not worry unduly about talk of the system going into bankruptcy.

John A. Svahn, present Commissioner of Social Security, recently stated, "I have set two goals. One of them—the one that I think is most critical to the nation—is to restore the public's confidence in Social Security both as a concept and as an operating entity."

Regarding social security's financing problems, Svahn says, "Our administration's economic program, when passed, and we hope it will

be, will resolve the short term problem. Unfortunately, when changes were made in 1977 that were supposed to shore up the Trust Fund well into the next century, they were based on some pretty optimistic assumptions, which did not come true. So now we have to look at some very pessimistic economic assumptions and decide how we are going to be able to make it through the next six or seven years regardless of what happens to the economy."

"We have had a working group looking at all the options that have been recommended by the National Commission (on Social Security) and others and some

**DISTRICT 4-H DELEGATES**—Perry Dunlap and Jubal Dunlap have recently been elected and initiated as District 4-H Delegates from Lynn County. Their parents are Nadine and Jake Dunlap of Taboka. They were initiated along with delegates from nineteen other counties at 4-H Leader Lab held in June at South Plains College. They will represent Lynn County at all District Council meetings for the next year. They were elected as representatives by the County 4-H Council held in the spring. (Photo taken by County Agent's Office).

36 million Americans who now receive monthly benefits. Further, many more will depend on this program for their retirement or for their dependents in the event of death or disability.

Therefore, social security will not be allowed to "go broke" or to fade into oblivion.

Changes are coming, yes, but they will not alter the basic plan nor be enacted in a haphazard, irresponsible manner.

### MEDICARE COVERAGE OF KIDNEY TRANSPLANTS

One of the least publicized features of the Medicare program is the fact that it helps pay for some of the 4,000 kidney transplants performed each year in the United States. Although the success rate for the operation is steadily improving, its cost would put it out of reach of many people were it not for Medicare.

The Hospital Insurance portion of Medicare covers inpatient hospital services when a person is admitted for transplant surgery, including any services needed to prepare the patient for the operation. Coverage also includes the Kidney Registry Fee and laboratory and other tests needed to evaluate the patient's medical condition, as well as that of potential donors.

The preparatory services do not necessarily have to be furnished by the hospital in which the kidney transplant

new ones of our own. And we have been looking at different combinations that would solve the short term problem under the most pessimistic assumptions."

Robert J. Myers, recently returned former chief of the Social Security Administration, after an absence of eleven years, is now the Deputy Commissioner for Programs. Myers, an extremely capable actuary and top level SSA employee, recently stated regarding the state of Social Security, "The

thing that motivated me most (about returning to work for SSA) is that I am extremely interested and concerned about the social security system. I have always maintained that the system is here to stay. Although it has problems, they can be solved

readily. Many of the headlines of gloom and inevitable bankruptcy just are not valid. The thing to remember is that Social Security is basic to the income maintenance of

**WHOZIT**—Last week's Whozit was identified by Mrs. Thelma Sherrod, second from right in the front row, who said it was of members of a Lynn County Home Demonstration Club who went to a Texas A&M short course in July of 1929. From left to right, back row; Mmes. L.H. Moore, A.A. Lawson, J.B. Lowe, A.L. faubion, Veach. Second row, Mmes. J.R. Strain, Moore, D.G. Cook, J.L. Earles, Front, Mmes. surgery is to be performed; Medicare will pay the costs as long as the service is provided by a Medicare-approved hospital. In addition, if there is no kidney donor, the cost of obtaining a suitable kidney will be covered.

When a patient's admission to an approved hospital for kidney transplant surgery starts a benefit period, Medicare hospital insurance pays for all covered inpatient hospital services for up to 60 days after the \$204 hospital insurance deductible. If additional hospital care is needed, or the patient must be hospitalized again during the same benefit period, hospital insurance will pay for all covered services for the 61st through the 90th day, except for \$51 a day.

In addition to the 90 inpatient days in one benefit period, a person has a lifetime total of 60 inpatient hospital reserve days; these are not renewable. Hospital insurance pays for all covered services for the 61st through the 90th day, except for \$51 a day.

If a person in need of a kidney transplant is entitled to Medicare, hospital insurance will cover the full cost of care for the person who donates a kidney. This includes all reasonable preparatory expenses as well as the cost of the operation and postoperative care. Moreover, Medicare will pay for any inpatient hospital care required by the donor for complications resulting from the donation. Donors are not subject to a deductible or daily amount for their hospital stay, nor does the number of days a donor uses reduce the number of inpatient days in a benefit period available to the person awaiting the transplant.

Medicare medical insurance helps pay for the surgeon's services in performing the kidney transplant, including preoperative and postoperative care. It also covers physicians' services for the donor during his or her hospital stay.

After the \$60 annual medical insurance deductible is met, Medicare medical insurance will pay 80 percent of the approved charge for the services of the surgeon performing the transplant, and for the physicians' services provided the kidney donor.
