

Burglary, Arson Reports Checked

Burglary of a home in Tahoka and a fire set in a restroom at Tahoka High School were the main incidents investigated by Tahoka Police Dept. during the last week.

Community Calendar To Resume In Fall

The Community Calendar which has been published in the News for the last two months will be suspended for the summer, since many organizations do not meet in the summer.

More sponsors are needed for the calendar which will run once a month starting with the September listings in August. Anyone interested in being a sponsor is asked to contact the News or Nadine Dunlap of the Chamberettes, which assembles the information for the calendar.

The home of Reed Yandell, 2520 N. 3rd, was burglarized Monday, with no immediate indication of what was taken. Police also talked with some students in connection with the fire set in trash cans in the boys restroom at the fieldhouse last Thursday.

Police answered several family disturbance calls, one prowler call and gave one ticket for exhibition of acceleration.

Sheriff's deputies picked up two young boys who had run away from the South Plains Children's Shelter, stolen two bicycles and rode them to New Home. The boys had then turned west, intending to go to California, deputies said.

In jail were one person for disorderly conduct and one for public intoxication.

WOODWORK

by DALTON

HOW WOULD you like to have a math teacher whose voice is changing, or who couldn't reach the top part of the blackboard? Well, the local school probably won't get him, and he probably isn't interested in teaching anyway. But a 12-year-old boy just graduated from some college with a degree in math, and with an average of B or better, according to the Associated Press.

I don't know what it would be like to have a kid that smart around the house. Probably unbearable. But being smart enough to finish college at such a young age would have advantages for the parent. The main one would be that with costs of educating a youngster going up every day, the parents would save a lot of money.

(Okay, junior, you've got your degree and you're 12 years old. So hit the road and start earning enough to support old Dad).

YOU THINK your old gas guzzler is expensive to operate? How about a vehicle which gets about two-tenths of a mile per gallon of fuel?

Here's a potential classified ad, which we may see any day now: "For sale, large vehicle, dependable transportation, plenty

of power and lots of room, terms to suit. Your choice of four Boeing 747s; Braniff Airways, Dallas. Ask For Howard."

Actually, those of us who fly occasionally on the big planes, and certainly those who fly a lot, hate to see Braniff and Continental fold up. When all the airlines who have money problems go out of business, the other airlines are certain to increase fares to try to keep from going broke themselves. And while this is understandable, it is going to hurt the passengers who could just barely afford to fly in the first place.

Incidentally, to get back to costs of flying—that is, the expense to the operator—we read the other day that it costs \$5,000 an hour to operate Air Force 1, the President's plane.

Don't blame Ronnie, though. It cost just as much when Jimmy Carter was flying it. Except when Tip O'Neill was a passenger. Then it was only about \$4,500 an hour because of all the extra hot air on board.

The 747s? Well, if you want one, be prepared to spend about \$11,000 an hour to keep it going. A 10-second flight from Tahoka to Wilson would cost about \$31, and the sudden stop would be murder.

Tahoka Fire Department Is One Of Top Volunteer Units

Tahoka Volunteer Fire Dept. has the reputation of being one of the best equipped and trained volunteer units in Texas. Assistant Fire Chief Billy Miller told Tahoka Rotary Club May 13.

The department's varied services and activities, training and equipment were discussed Thursday by Miller, who observed that firemen do much more than just fight fires.

Fire fighting, of course, is the major activity, but Miller said, the 20-man force of local men give help at wreck sites; have a well-equipped ambulance to back up the Lynn County Hospital ambulance and station their ambulance at football games and rodeos; have a "cloud watching" program in cooperation with the National Weather Service; police and sheriff's departments; assist in recovering victims of drowning; help direct traffic in emergencies when needed; assist in burning weeds in the spring; and perform other services to the community.

69 Alarms In 1981
The past six years, 1976 through 1981, the Fire Department has made an average of 76 fire runs a year. And, in 1981 for example, there were 69 fire alarms, 31 in the city and 38 to rural areas. The men put in 746 man-hours fighting fires, equivalent to 93.5 8 hour working days. Training drills totaling 24, or twice

a week on first and third Mondays, feature latest fire fighting methods and equipment use. Some men attend area and state-wide training sessions.

When a fire is reported, the City Police Department activates the fire sirens, which remain on until an adequate number of men respond. Normally, two fire vehicles are enroute to the fire scene before the sirens are turned off by later arriving firemen.

On rural fire calls, the smaller truck and the tanker unit go to the fire site, and the big truck remains at the station to protect against fires in town.

Building Truck

Currently, the firemen are assisting in building a new small truck, using a 1-ton chassis with a 200-gallon water tank to back up the other trucks and for faster runs to rural fires.

The large 1963 pumper truck carries 1,200 feet of hose to reach almost any house in town from a fire hydrant.

In addition, the 1974 model tank truck carries 1,200 gallons of water for use when needed.

The 1979 model van usually makes the first arrival at a fire to assess the necessary fire fighting procedures. If needed the ambulance may also make the fire run.

"The department is very proud of

its fine auxiliary equipment, the very best that can be bought and equipment that many other small volunteer departments do not have," Miller said.

Thankfully, it has not had to use its new \$7,200 "Jaws of Life" equipment, used to free occupants from wrecked cars, but this equipment was described as "fantastic". One tool has 12,000 pounds of working force that can cut a car door post in 15 seconds, can pry open the side of a car, and a power cutting tool can rip open the side of a car or truck cab to gain access to a victim trapped inside a wrecked vehicle.

The department has equipment used several times to drag lakes for drowning victims.

Other new equipment includes a portable power unit, four Scott breathing units and two large exhaust fans to pull smoke out of burning buildings so that firemen can see to work inside.

Special Equipment

Each individual fireman is equipped with special boots, jacket, helmet, gloves, and flashlight which cost \$295 for each man.

The Fire Department is financed by City of Tahoka, which has been "very cooperative" in furnishing equipment, by the firemen who raise

funds at an annual fish fry, by the members who do much of the repair work, and by private citizens.

Miller said the Fire Department is "very appreciative of the fine support and cooperation given by the city, individuals, and the citizens in general."

Incidentally, the Fire Department has also given support to Lynn County Show Barn, Pioneer Museum, Little League, and other community endeavors.

The 20 Fire Department volunteer members, all trained, include four self-employed farmers, four men from Lyntegar, two from Poka-Lambro, four mechanics, two from the Extension Service, one from ASCS, one from Taylor Tractor, and one from Energas. There is one vacancy.

Backing up Miller at the Rotary program was Fire Chief J.T. Miller, Captain Steve Miller, and Training Officer Stanley Young, who arranged and introduced the program. Also, Wesley Boone is lieutenant.

Officers are: Jacky Henry, president; Young, vice president; Steve Miller, secretary; and Jimmy Woodard, treasurer. Fred McGinty is chaplain.

NEW HOME HONOR STUDENTS—Kristi Maeker, right, is valedictorian of the 1982 New Home graduating class, and Paige Pridmore, left, daughter of Mr. and Mrs. Sam Pridmore, is salutatorian. Miss Maeker, daughter of Mr. and Mrs. Lynn Maeker, had a four-year average of 95.24 and Miss Pridmore's average was 92.58.

MRS. LYNDAL STOVAL nee BRENDA BARNETT

"If a man is gracious and courteous to strangers, it shows he is a citizen of the world." Francis Bacon

Brenda Barnett-Lyndal Stovall Married In Double Ring Rites

Brenda Jo Barnett and Lyndal T. Stovall were united in marriage on Saturday, May 22, in a candlelight ceremony at the United Methodist Church of New Home. The Rev. Rick Wolfe officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. J.W. "Tiny" Barnett of New Home and the granddaughter of Mr. Jim Barnett of Lubbock, formerly of New Home.

The groom is the son of Mr. and Mrs. Bob Stovall of Muleshoe.

The bride, escorted to the altar by her father, wore a gown of white organza which was fashioned with a fitted re-embroidered lace bodice trimmed with seed pearls. The full-length lace sleeves were accented with a slitted over sleeve of lace trimmed organza cuffed

with lace.

The full A-line skirt flowed into a chapel train and was trimmed with intermittent pearl motifs. A pinch-pleated flounce which surrounded the over-skirt was bordered in lace.

The bride chose for something old, a cameo brooch, which was borrowed from her maternal aunt, Mrs. Mickey Clark of Austin.

To complete her ensemble, the bride chose a picture hat with matching lace crown and pleated marquisette brim trimmed with matching lace and pearl motifs and white satin streamers.

She carried a cascade shaped bouquet of white cushion mums, minuet roses, miniature carnations and accented with white streamers of lace and apricot ribbons.

Mrs. Jerry McNeely of New Home presented the wedding music and accompanied soloist, Mike Hill of Sudan, as he sang "My Sweet Lady" and "The Rose".

Mrs. Pam Harmonson, sister of the bride, was matron of honor and Mrs. Susan Raphael of Lubbock, Mrs. Sheryl Kimbrough of Muleshoe, sister of the groom, served as bridesmaids. They wore matching dresses of burgandy quiana with pinch pleated skirts and carried bouquets of mixed flowers attached to white lace fans.

Mike Mills of Muleshoe served as best man. Other attendants were Doug Massey of Levelland and Kyle Kimbrough, brother-in-law of the groom, of Muleshoe.

Russell Barnett, brother of the bride, and Ronnie Harmonson, brother-in-law of the bride, both of New Home, served as ushers.

Rebecca Lismby of New Home and Barrett Smith of Sweetwater served as flower girl and ring bearer.

Mrs. Jolene Barnett of New Home, sister of the bride, registered guests.

Shannon Kreger of New Home served as a reception hostess and distributed rice bags to the guests.

A reception was held in the fellowship hall immediately following the ceremony. Serving at the reception were Marla Lehmann of Lubbock, Kay Lynn Prather of Muleshoe, Shonnee Hodnett of Sudan, Mrs. Reena Austin of Post Mrs. Julia Robb of Lubbock and Mrs. Monica Henry of Muleshoe.

The bride is a graduate of New Home High School and South Plains College. She is employed at Plains Cotton Co-Op in Lubbock. Stovall is a graduate of Muleshoe High School and South Plains College and is employed at Stewart and Stevenson Services Inc.

MRS. DAVID MOCZYGEMBA nee STEPHANIE COOK

Cook - Moczygemba Are Married In Wilson

Stephanie Jean Cook and David Randall Moczygemba were united in marriage Tuesday, May 18, at 5 a.m. in the home of the bride's parents. Rev. Mark Scott of Wilson performed the ceremony.

Parents of the couple are Mr. and Mrs. Dan H. Cook of Wilson and Mr. L.B. Moczygemba of Austin.

The bride, given in marriage by her father, wore a formal length gown of white organza fashioned with a scoop neckline edged with a ruffle of chantilly lace and full length bishop sleeves with a deep petal point lace cuff. From the empire bodice flowed an A-line skirt that cascaded into a chapel length train. A deep flare ruffle with a lace border formed the hemline of the skirt and train.

Methodist Conference Scheduled

The 73rd session of the Northwest Texas Annual Conference of the United Methodist Church will convene at Polk Street United Methodist Church in Amarillo Thursday, June 3, and continue through Saturday, June 5. Several major items of business are on the agenda.

One proposal to be discussed calls for the formation of a long-range study committee to make plans for improvements and renovation at the Conference's two campgrounds at Ceta Canyon and Camp Butman.

Bishop Louis W. Schowengerdt will preside over the three-day meeting.

Other business at the June meeting will include the ordination of deacons and elders, and the announcement of pastoral appointments for 1982-83.

The first representative assembly in America convened at Jamestown, Virginia, July 30, 1619.

Deadline For News Items Tuesday Noon

The headpiece was a picture hat of matching lace holding a veil of illusion.

The bridal bouquet was a flowing cascade of silk butterfly orchids, stephenotis, and baby's breath. Silky white ribbons were attached with love knots.

Mrs. Michelle Livingston, sister of the bride, served as matron of honor. Le Roy Moczygemba, brother of the groom, served as best man.

The vows were exchanged in a scene of white gladiolus, spider mums and lighted candles.

The couple attended Wilson High School and West Texas State University in Canyon.

After a morning brunch in the home of the bride's parents, the couple left for a trip to the Hawaiian Islands. They will make their home in Slaton.

Pythian Sisters

Reobligation Service was the main program of the evening led by Excellent Senior, Trutie Schuknecht Sister Teddie B. Kelley will be the Temple Representative at Grand Temple which will be held at Abilene in June. She was elected at the May 7 meeting.

This organization was instituted Oct. 9, 1944. Three charter members were present at this meeting, namely Florine McCracken, Nina Short and Helen Farr.

The Sisters wish to thank Nina and Oran Short, Omega and Tom Smith for getting the air conditioner working for the meeting and for mowing and cleaning the lawn. Collectively we can continue our work in supporting the children's home at Weatherford as well as the Home For the Aged at Greenville.

Omega Smith was hostess and 13 ladies were present.

 OPTOMETRIST

CONTACTS AND THE NATURAL LOOK

Millions of people wear contact lenses today. Contact lenses correct vision problems, in most cases better than glasses do. But they have the advantage of giving you face a "natural" look. Unless you tell them, others would never know you're wearing corrective lenses.

They do require more care than glasses. And, like glasses, they should be prescribed and fitted by a professional. Because they float on the tears over the eye, however, extra care must be taken in keeping them clean and germ-free.

Your eye specialist will show you how contact lenses should be applied and removed. This

must be done carefully and hygienically. Both your eyes and your contact lenses should be checked periodically by your optometrist.

If you follow these rules, contact lenses will serve your corrective vision needs even better than glasses. Contact lenses give more natural vision (especially peripheral) because they are closer to the eye (in fact, in "contact" with the cornea) while glasses must be worn about a half inch away from it.

Southwestern Public Service Company uses woven fiberglass bags in its air-quality control system at Harrington Station near Amarillo. The fiberglass is more heat-resistant than standard cloth bags and is not affected by the high temperatures common in flue gas emissions. This keeps the air around the plant, and in your community, cleaner.

Wanda Hooks, Production Chemist, Harrington Station, Amarillo.

In many towns within the SPS service territory, you can pay your electric bill at drive-up locations. Many SPS offices have drive-up windows. You also may pay your bill at selected banks or savings and loan companies. Contact your local SPS office to find out if drive-up service is available in your area.

Ramona Knight, Cashier, Seagraves.

SPS offers free booklets on a variety of subjects. These booklets are designed to help customers understand the process of providing electric service and how to use electricity wisely. Booklets are available on electric ranges and water heating, microwave cooking, insulating your home, and many other topics.

New Home Girl Earns High Honors

Tawn Dulin, daughter of Mr. and Mrs. Ronnie Dulin of New Home, is graduating from Lubbock Christian High School with honors, compiling a 3.55 grade point average.

Miss Dulin received a Christian Leadership Scholarship and an Academic Scholarship to Lubbock Christian College. She will attend Abilene Christian University this fall.

She was named Miss Lubbock Christian High School, and has been a cheerleader for six years, serving as head varsity cheerleader her senior year. Tawn was also a member of the National Honor Society, Who's Who (three years), The Distinguished American High School Students (2 years), an officer in the Student Senate, band, chorus, drama and basketball (3 years).

She has also received the Rotarian Award and the Optimist Award and two track awards-field events and distance.

Miss Dulin was selected to sing this summer with the Broadway Church of Christ youth group, New Beginnings, which will go on tour this summer.

She is the granddaughter of Mr. and Mrs. J.E. Dulin of Tahoka and Mr. and Mrs. Jim Bob Smith of New Home.

Committee Recommends Rate Increase

Southwestern Public Service Company today announced it would accept a 9 percent rate increase recommended by the Steering Committee which represents 66 Texas municipalities served by the electric utility.

The agreement was reached following a study by the cities' rate study committee, and represents 71 percent of the 12.7 percent Texas retail rate increase requested by the Company.

If approved by the Public Utility Commission of Texas (PUCT), the new rate would be effective July 1, 1982, and would be expected to provide additional revenues of approximately \$13.6 million annually from customers inside the cities. The agreement only covers the rates for service supplied within city jurisdictions. Rates outside the cities, which are regulated by the PUCT, would generate approximately an addi-

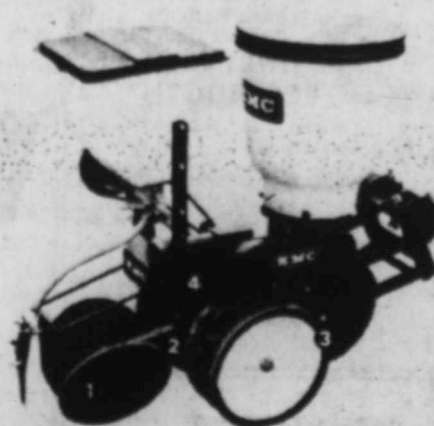

tional \$15.8 million annually at the 71 percent figure.

Company president Bert Ballengee said, "SPS agreed reluctantly because the combined revenues of \$29.4 million from city and rural customers is less than had been requested, less than is needed, and less than is justified by today's high money costs and the commitment the Company has made to its customers to change to coal as the fuel source in new power plants."

International Early Riser planter row units offer control over the seed environment to get your crops off to a better start. Offset double disk openers form a sharper cutting edge to slice through heavy stalks, tough soils.

Depth gauge wheels are self-adjusting to provide uniform seed depth and keep most soils close to the furrow.

Hi patented narrow point forms loose soil, assuring moisture concentration around seeds.

Twin inverted covering disks place moist soil from both sides of furrow on top of seeds. Working depth is controlled automatically.

Extra wide, center ribbed press wheel gently compacts soil over the seed and eliminates moisture robbing air pockets.

Country Music Show In Mini-Park Planned

Country music will come to life this summer in dozens of West Texas cities and towns, thanks partly to the efforts of a couple of teachers who team up their talents in arranging the music for what has become a tradition in the region.

"Raisin' a Ruckus," the sixth annual country music summer show produced by South Plains College in Levelland, is again making its round of performances this summer throughout West Texas and eastern New Mexico.

The show will come to Tahoka June 3. Showtime is 8 p.m. in the Mini-Park. Co-sponsor is the Tahoka

Chamberettes.

"We spend a lot of time listening to records and getting the sound as close as possible to the original," explained John Hartin, director of SPC's degree program in country/bluegrass music, a veteran performer of the road show circuit and composer in his own right. (He's written hundreds of songs.)

"We try to bring back a lot of good memories of that music, that particular time, for example with Bob Wills' 'Faded Love' and 'San Antonio Rose,'" he added.

Hartin and Ed Marsh, SPC fiddle and bluegrass music instructor, have

teamed up for the past five summers to arrange the music for SPC's road shows. They also wrote and arranged an original score for SPC's original musical, "The Black Rose," and won an Amoco Award for Excellence in Musicals for their efforts.

Marsh has performed professionally with bluegrass bands and toured the Caribbean with a USO troupe, but he has never been more impressed than with SPC's annual summer road show. "The facilities for the show are just tremendous. I've always been on the road with a small budget, where compromises had to be made, either in numbers of people in the band or equipment of stage facilities; never until the SPC experience have I been able to go on the road with all the lights, portable stage, all the people in the band we wanted," he added.

The show uses equip-

ment from SPC's two-year degree program in country/bluegrass music and also uses the expertise and facilities of the sound technology program. A Showmobile that can seat a 60-piece band, portable state-of-the-art sound system, acoustical equipment, instruments, costumes for dozens of costume changes and lighting all combine to make SPC's road show comparable to a professional country music awards show, Hartin says.

This year's show features some country rock and a Beatles medley, which Hartin feels were influenced by country music. "In the 60s and 70s, pop, country and rock music sort of fused, with country songs going into the pop market, and vice versa.

"Always be ready to speak your mind and a base man will avoid you."

William Blake

"RAISIN' A RUCKUS!"—South Plains College's "Raisin' A Ruckus!" will be in Tahoka to bring a special brand of country music song and dance on June 3 in the Mini-Park. The "Ruckus" will start at 8 p.m. and is sponsored by the Tahoka Chamberettes. In its sixth year of touring West Texas and Eastern New Mexico, the show's cast is composed of South Plains College faculty and students. Performing in this summer's show are (left to right) Darrell Thrash of Ropesville; John Hartin, SPC's country music director; Bunk Lawson of Levelland; Scott Barton of Levelland; Doyle Marvin of Lewiston, Idaho; Kay Stephens of Plains; Kathy Tutt of Muleshoe; Ira White of Tahoka; Randy Ellis, SPC's sound technology instructor; Carol Howell of Levelland; and Ed Marsh, SPC bluegrass music instructor. Refreshments will be sold by the Chamberettes. All tickets may be purchased for \$1 per ticket from any Tahoka Chamberette. (SPC Photo)

We have had an exciting month of golf, just trying to find a day without rain. On our ladies playdays I won a ball for Most Bogies (that is about as good as I can get). Novis

Curry won for Most Pars and Jean McCord for Birdies.

We had another good luncheon so all you ladies who didn't come missed out.

The Red Raiders had a sunny day to play with bar-b-que afterwards on the Mel Leslie Ranch. From all reports it was a fun day. All help sure was appreciated.

Our first Thursday night scramble was also a success. The first place team was Jim Chambers, George Glenn, Jerry Griffin and Joy Bragg.

Second place was Jim Bragg, Martin Warren, Margaret Ashcraft and Wanda Glenn.

Be sure and call me at 998-5227 to sign up for this Thursday night. Tee off time is 6 p.m. for men and women.

Today (Thursday) we are at the Senior Olympics in Lubbock. We plan to have a good time and bring home some ribbons and trophies for Lynn County. Two of our people, Tennie Meeks and Earl Gryder, were on Channel 28 Morning Magazine show Tuesday morning to talk about the Senior Olympics. Mrs. Willie Thomas will be representing us as Outstanding Senior Citizen.

Blood pressure check will be June 1 at 11 a.m. Social Security and hearing aid representatives will be here the second Wednesday of June.

Our monthly singing will be June 7. We have two ladies from New Home coming to present a musical chalk talk. There will also be some good group singing.

Night-flying Moths Create
Nuisance
Night-flying moths have

been creating a nuisance for many homeowners in the South Plains the past few weeks. Most of these moths are army cutworms which are undergoing spring emergence. They are attracted to lights and are sometimes called candle moths. When spring emergence is completed in another week or two, the nuisance problem should subside.

Control of night-flying moths attracted to lights is very difficult. However, there are several steps which can be taken that will help provide relief.

First, the attraction of the house or building to moths can be reduced by proper light management. Minimize outside lighting where practical. Yellow light bulbs can be used in porch lights. Indirect lighting should be used when possible so the source of light is shielded from areas from which the moths may come. Light fixtures inside the buildings should be placed so moths can't see the lamp itself.

Exclusion of moths from the house involves proper screening and tightfitting windows and doors. Moths can also gain entry through air vents and ducts.

Some degree of control can be obtained with sprays of household insecticides applied to places where the moths collect and rest outside, such as door frames, porches and garages. Since the moths do not feed on anything where they are resting and are protected by a heavy coating of scales, sprays will not provide any immediate or spectacular results. Ready-to-use household sprays containing diazinon or baygon may be applied to these resting sites. Follow label instructions for nuisance pest control in applying the sprays.

funds by \$4.2 million.

Testifying before a Senate Agriculture subcommittee, Weeth also urged a GSM-5 revolving credit fund for agricultural exports to be initiated at a level of at least \$1 billion.

During his appearance, Weeth detailed CCI's market development programs to build exports for U.S. cotton.

Export Sales Reported: Net new sales of cotton for the 1981-82 marketing year reached 64,000 running bales during the week ended May 13, bringing the season's total commitments to 6,691,000.

Sales for 1982-83 were 3,200 bales. Japan was the largest purchaser in both categories with 64,400 bales for the current year and 63,200 for 1982-83.

Three top cotton producers will share their experience and views with the audience at the National Cotton Outlook Conference June 15-16 in the Lower Rio Grande Valley of Texas.

Brude Brumfield, Inverness, Miss.; James Mitchell, Wolfforth, and Brude Heiden, Buckeye, Ariz.; will discuss current production problems and technology needed to increase cotton yields and reduce costs.

Conferees also will tour cotton production in the Valley. The headquarters hotel is Bahia Mar, South Padre Island.

Export Funds Requested Cotton Council International President Harold Weeth, Coalinga, Calif., producer has urged Congress to act favorably on a proposal to increase foreign market development

Destruction of moths inside the home can sometimes best be accomplished by using a vacuum cleaner. Additionally, household pyrethrum sprays will control moths inside a room.

The moths are strictly a nuisance pest and will not damage fabric, infest stored food, etc. Spring emergence of the moths should be complete in the next one to two weeks and the problem will greatly diminish after that time.

DISCUSS CANCER STUDY—Mrs. Macky Turner, right, of Tahoka and Lawrence Garfinkel of New York City, discuss a proposed cancer study at a meeting of the American Cancer Society in Dallas March 30.

Lynn Residents To Join Six-Year Cancer Study

The American Cancer Society announced that 52 persons in Lynn County will soon be asked to participate in a nationwide, six-year study to determine environmental and lifestyle factors related to cancer and other diseases.

Termed Cancer Prevention Study II and set to launch Sept. 1, 1982, the project is one of the largest epidemiologic studies ever undertaken. It will be equal in size but wider in scope than the Society's first study from 1959-1972. The first study is credited with having provided important evidence to link cigarette smoking conclusively to lung cancer.

Mrs. Kenneth Turner of Tahoka and Mrs. Molly Hall of Lubbock, Area I coordinators for this study, recently attended a meeting in Dallas. Some 80 communities in Texas will participate—with ACS volunteers recruiting 80,000 persons to be studied. Nationwide, more than one million American men and women will be enrolled representing all racial, ethnic and economic groups.

At Dallas Meeting

Also attending the Dallas meeting was Lawrence Garfinkel of New York, national ACS vice president for Epidemiology and Statistics and director of Cancer Prevention Study II.

In presenting a background of the study and explaining its purpose Garfinkel commented, "Many landmark discoveries about human cancer come from this kind of effort. That's how we learned about the cancer-causing nature of cigarettes, x-rays, sunlight, arsenic, vinyl

chloride, asbestos and a variety of chemicals and dyes."

Garfinkel added that lifestyle and environmental changes since the first study have prompted the need for new data.

"We hope to identify those factors that increase a person's chance of getting cancer, those that carry little or no risk, and those that actually may help prevent cancer. We'll then be able to develop programs to help people follow lifestyles that minimize their cancer risk," he said.

Expects Help

Mrs. Turner added that while the study is a massive project, she feels local citizens will do all they can to help. "What we need now are volunteer researchers to enroll subjects. All of the questionnaires and data are designed to be confidential and to elicit nearly 500 items of information from each enrollee."

Recruitment and training of volunteer researchers will continue from now until September 1, the day distribution for questionnaires begin nationwide.

Mrs. Turner stated that in this area, 14 units have been selected to participate in this study and in this district only four counties—Hale, Lubbock, Lynn, and Terry have been chosen. "I feel very fortunate that Lynn County was among those units asked to join in this study."

At a recent board meeting of the local unit, Wendell E. McClendon of O'Donnell was appointed chairman for Lynn County. Persons interested in being volunteer researchers may contact either McClendon in O'Donnell at 428-3274 or Mrs. Turner at 998-4146 in Tahoka.

Heart Fund Memorials Proposed

"It is gratifying to find so many Lynn County residents using Heart Fund Memorials as a way of paying respect to relatives, friends and associates who have passed away, and giving hope to the living by supporting projects designed to help reduce the toll of death and disability resulting from the various forms of heart and circulatory diseases," stated Darlene Gurley, Memorial Chairman of the American Heart Association, Lynn County Division.

"Memorial funds received throughout the year are added to funds contributed during the annual Heart Fund Campaign to be used in the Association's programs of Research, Public and Professional Education and Community Service."

Mrs. Gurley said that memorial gifts received by the association are not only in memory of those who have died, but that many people are using the Memorial Fund to honor happier events such as birthdays and anniversaries.

LT. GOVERNOR CANDIDATE—George Strake, left, talks with Larry Hagood of Tahoka last Thursday as Strake came through Tahoka on a swing through West Texas. Strake is a Republican candidate for lieutenant governor of Texas. (LYNN COUNTY NEWS PHOTO)

Lt. Gov. Candidate Strake Visits Here

A Republican candidate for lieutenant governor of Texas who says "I am determined to get some kind of water bill through the senate which will benefit all of the state," visited in Tahoka last Thursday as a part of a West Texas tour to drum up support for his candidacy in the November election.

George Strake, who was campaign manager for Gov. Bill Clements in the governor's 1978 campaign for that office, and who also was secretary of state for Clements, said the water plan is one of the things he would like to see implemented and promoted in a way that people downstate can understand that when West Texas is aided in this area the entire state can benefit.

Strake said his opponent, Lt. Gov. Bill Hobby, opposed the water plan when it was put before the voters and made no effort to explain to people in Houston, Hobby's hometown, how the plan could help everybody.

Strake, also from Houston, said "the plan was sold in Houston as a

West Texas bill." Strake is an oil operator and a graduate of Notre Dame. He and his wife have six children.

The GOP candidate, who came to Tahoka Thursday after being in Abilene and Lamesa earlier in the day, also said he supports the Reagan concept of letting states take over certain federal programs.

"This is the first time the national administration has offered the states a chance to control their own destiny," he said. "I'm willing to accept the challenge of new federalism, while Hobby has been bad-mouthing it."

The lieutenant governor in Texas wields much influence, Strake said. He noted that the lieutenant governor is president of the senate and appoints all committee members and chairmen, and assigns the legislation to those committees. He also is chairman of the budget board which oversees all funding of state agencies.
