## Overworked Words . . . . JUVENILES AND TEENAGERS

Two of the most overworked words in the American language today are "juvenile" and "teenager."  
 Juvenile simply means a young or youthful person. Teenage means a person between the ages of 12 years and 20 years. But you take ordinary words like these, with well defined meanings, and after being kicked around a few years, they take on meanings entirely foreign to their dictionary definitions.

Now days you call a person a juvenile, and he or she feels insulted. The reason for this, we feel sure, is that it has been tied in so many times with "delinquent" until the two words have become inseparable "juvenile delinquency."  
 The same is true with teenagers. This term in its strict meaning just refers to a period of time in a person's life when "teen" is used after the number of years of his life.

## Babson Discusses . . . . THE STOCK AVERAGES

Babson Park, Mass., July 2—Investors, like most of us, are getting lazier and lazier. This is partly due to our poor eyesight and the fine type used on the financial pages. Instead of hunting the quotations for a few stocks in which we are especially interested, we look at the average stock change, noting whether this is up or down, and then conclude that our own special stocks have acted likewise. If the Stock Average has shown no appreciable change from the previous day, most investors assume that his special stocks have not made any change either.

### The Four Main Daily Averages

The most popular indexes are the Dow-Jones Averages. These stocks are divided into three groups—(1) The average of 30 Industrial Stocks; (2) the average of 20 Railroad Stocks; (3) the average of 15 Utility Stocks; then a general average of all of these 65 stocks. Another popular Average is that of the Associated Press, which consists of 60 stocks mixed and weighted into one Average. There is a fairly constant relationship between these two Averages.

But it has been applied so many times to those in this age group who are often found outside the limits of the law, that no decent young person wants to be called a teenager any more.

This is one of the frailties of the American people, and particularly of the press, when we find a good word, we work it to the limit—it is not right; and the kids are beginning to resent it.

### 4 NEW IRRIGATION WELLS FOR COUNTY IN MAY

Ten permits for new irrigation wells in Bailey County were issued by the High Plains Underground Water Conservation District, according to news from Lubbock headquarters of the District.  
 Four new wells were drilled and one replacement well was completed. No dry holes were drilled.

### CHARLES ALSUP DOING WELL IN VA HOSPITAL

Charles Alsup is doing well in the Veterans Hospital at Fort Lyon, Colo., Mrs. Alsup reports. She and the children visited with him on Fathers' Day.

He would like to have some mail from his old friends here. Address him like this: Charles Hugh Alsup, Ward 4C, Veterans Hospital, Fort Lyon, Colo. He told his family that all he wanted was The Muleshoe Journal, and the paper's management has taken care of this little matter, so he will receive it each week.

All kinds of Office Supplies in stock at The Journal.

Law of Average is a very wonderful law and it is a great time-saver for investors who use it intelligently in studying the stock market.

### How The Dow-Jones Averages Are Compiled

To provide for the numerous splits, stock dividends, etc., through the years, it is necessary to add the quotations together and then divide the total by an arbitrary divisor, which amounted to 4.13 on the last day that Telephone stock was quoted on its old basis, namely, at \$250 a share. When this was replaced by the new Telephone stock, it was necessary to use a different divisor. The change to Telephone's new quotation (around \$84), plus four substitutions in the Industrial list which were made at the same time, brought the divisor down from 4.13 to 3.964. This little figure will be used until there is another split in Telephone or in some other stock in the list, or until another substitution is made. Then the divisor must be revised again.

## Sandhills Philosopher Doubts . . . . Wisdom of Suing Government Men For Work They Didn't Perform

Editor's note: The Sandhills Philosopher on his Johnson grass farm sounds like he's afraid somebody may try to make him work. We doubt it.  
 Dear editor:  
 I'm not opposed to new ideas, as long as they're sound, and you and I both know by sound I mean any idea that's convenient for you and me to live with, but when a new idea is hatched up by some smart-aleck that threatens the very way of our existence, it's time to strike back.  
 I read in a newspaper yesterday afternoon which blew off my tractor seat while I went to the house for a drink of water—the paper was left there to keep the sun off the seat while I was gone and since by then the seat was too hot to use and no chance of

when it could have been done in three, it's true the government loses three-months of taxes, but on the other hand, you've got to remember, the tax payers gain three months. This is worth thinking about.  
 And just because a government worker is working is no sign the people are better off than if he was loafing. A lot of people for example object when a bunch of Congressmen go off on a trip to Europe, but I've sometimes felt it was cheaper in the long run to keep some Congressmen in Europe than Washington.  
 It's not how long a session of the Legislature takes that worries me, it's how much it takes, when the tax bills are written.  
 You start suing people for not working and I know one farmer and occasionally some editors who'll be looking for the best defense lawyers they can find.

Yours faithfully,  
 J.A.

# Mr. Tax-payer: Which of these pipes will your city use?

## Texas-made Lone Star cast iron pressure pipe will last over a hundred years!

The use of cheap substitutes, such as foreign-made cement-asbestos pipe, is wasteful and means probable replacement in a very few years. (This pipe was taken from a Texas city's water system. Photo is unretouched.)

Officials of most Texas municipalities know that when they buy and install cast iron pipe they are helping to support the American economy and the high standard of living we all enjoy. They are buying products made in America for use by Americans. They are not fooled by the slightly lower initial cost of foreign goods because they realize that this "paper savings" will be more than offset by the cost of excessive maintenance.

Domestic cast iron pressure pipe is time-honored, centuries-proved, and is backed by strong, resourceful American companies that will be in business for years on end to guarantee their product.

Really, who backs foreign-made pipe? Who answers for it when it fails? To whom will the few ill-advised pipe-buyers look for the answers to these questions when trouble develops? Were they penny wise and pound foolish?

Take a look at some of these important factors back of the initial price tag, then pick up the telephone and call the first city official you think of and tell him you appreciate his good judgment in buying American-made cast iron pipe with your tax dollars. If he has been buying Lone Star pipe, tell him that we, too, appreciate the business!

Cast iron pipe, such as Lone Star's dependable pressure pipe, will last for over a hundred years. It saves millions in tax dollars by eliminating repeated repairs that are inherent in cheap, foreign-made substitutes. Lone Star pipe bears the "quality check" of the Cast Iron Pipe Research Association and the approval of Underwriters' Laboratories, Inc.

### Senator Rogers Will Be Governor Of Texas For A Day, July 9th

A signal honor has been accorded Senator Andy Rogers of Childress and our 30th Senatorial District by his election as President Pro Tempore of the State Senate for the Second Called Session of the 56th Legislature in Austin. This makes Senator Rogers the third ranking state official and the Acting Governor in the absence from the state of both the Governor and Lieutenant Governor. The day following his election, June 18, Senator Rogers presided over the Senate session, which is one of his duties, in the absence of Lt. Governor Ramsey.

It is a tradition of long standing that on one day during his tenure of office, the President Pro Tempore ex-

tended the privileges, courtesies and honor of the Governor's office for a day. Since both Governor Daniel and Lt. Governor Ramsey will be absent from the state on Thursday, July 9, that date has been picked to honor Senator Rogers with the traditional "Governor for a Day" festivities.

On that date, July 9, Senator Rogers will perform all the customary functions of the Governor, including holding a press conference, signing proclamations, land patents, paroles, and other duties. During the morning hours, from 9:30 to 12:00 and in the afternoon from 2:00 to 5:00 p.m., Acting Governor and Mrs. Rogers will receive

friends and guests in the Governor's Reception Room on the second floor of the State Capitol Building. At noon, he and his immediate family will be honored with a luncheon at the Governor's Mansion. That evening Senator Rogers and his family will be given a banquet and program in their honor at the Villa Capri Restaurant in Austin. All occasions of the day, with the exception of the noon luncheon, are open to the public and a cordial invitation is extended by Senator and Mrs. Rogers to their many friends all over the state and especially those in the 30th Senatorial District to participate in this full day of activities.

Since it is necessary that arrangements for the dinner be made in advance, it is urgently requested that those desiring to attend the banquet in Senator Rogers' honor, write or call Jimmy Willson, Jr., Chairman in Charge of Dinner Arrangements, P. O. Drawer 788, in Floydada, not later than July 6. There is no charge for the dinner but it is essential that arrangements for the number planning to attend be made in advance.

This is the first time that the people or a Senator from our Senatorial District have been so recognized and honored and it is hoped that a large number of people from the 30th Senatorial District will be able to attend this "once in a lifetime" occasion. Senator Rogers stressed the fact that since the time element and the distance between Austin and his District made it impossible to send out individual invitations to his many friends and supporters, he asked that each and every person consider this public

counsel to the Galatians (3:1): "Stand fast therefore in the liberty wherewith Christ hath made us free, and be not entangled with the yoke of bondage."

Also emphasizing man's right to freedom is this correlative passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (228:14-15): "Mortals will some day assert their freedom in the name of Almighty God." The Golden Text is from

Psalms (46:1): "God is our refuge and strength, a very present help in trouble."
