

Thieves Swap Items

Thieves exchanged batteries and stolen pickups with Lynn County residents during the last week and burglars also took several items from a service station at New Home.

A 1978 Chevrolet pickup owned by Tim Raindl, Rt. 4, Tahoka, was stolen from the Raindl residence a mile north of Tahoka Saturday night. Left in its place, out of gas, was a 1978 GMC pickup which had been stolen in Lubbock.

Raindl's pickup was recovered 15

miles north of Big Spring, also out of gas. Officers were seeking a suspect.

A battery was taken from a pickup at John Edwards Shop in New Home Saturday night, but an old battery had been installed in its place. Officers were still puzzling over that exchange.

New Home 66 Station was burglarized Sunday night and taken were items valued at a total of \$824. Owner Servando Benavidez said among the articles stolen were five

new Interstate batteries, cigarettes, money from a coin machine and two boxes of cigars. Crime Line has offered a reward in this burglary.

A 15-year-old Del Rio youth was arrested early Sunday morning after being involved in a fight at a dance north of O'Donnell and after threatening officers with a rock. The intoxicated youth was held overnight in Lynn County jail, then released in custody of his parents. However, the case has been referred to the Lynn-Dawson juvenile officer for possible charges.

Tuesday afternoon's rain in the Tahoka area was blamed for one accident, when a Merchants' freight truck driven by Samuel Joe McGuire of Irving jackknifed on U.S. 87 just north of the north overpass. The driver was treated at Lynn County Hospital for bruises following the accident about 2:15 p.m.

Tahoka police assisted DPS in pursuit of a vehicle that was trying to elude officers at approximately 8:20 p.m. on Thursday. The chase ended up at S. 3rd and Ave. B where two subjects were apprehended and arrested.

On Saturday, John Castallon reported to police that someone had torn up his mailbox at his residence located south of Louder Gin. Also, on Saturday night, a Tahoka resident reported that her neighbor was throwing beer bottles in her yard.

Police issued tickets during the past week including two for possession of an alcoholic beverage by a minor, one for exhibition of acceleration, one for driving without headlights when required, and one ticket for depositing aluminum cans on a public roadway.

In jail during the week were one person each for assault, driving while intoxicated and fleeing officers, and revocation of probation. Two persons also were jailed for public intoxication.

O'Donnell Schools Start Classes Aug. 22

Classes for O'Donnell Schools will begin Monday, Aug. 22. High school students will report for class at 8:20 a.m. and be dismissed at 3:35 p.m. Elementary school students will report at 8:20 a.m. and be dismissed at 3:30 p.m.

Kindergarten classes are tentatively set for morning and afternoon, according to an O'Donnell School representative, with further plans to be announced.

LARGE CROWD — Approximately 3,100 persons attended the 45th annual Lyntegar supper in Tahoka, Tuesday night.

Lyntegar's Meeting Draws Stadium Crowd

Lyntegar Electric Cooperative's 45th annual meeting Tuesday night in Tahoka football stadium was declared a big success by company officials.

A total of 3,125 persons from over the Lyntegar service area attended, enjoyed a barbecue meal, visiting with friends, heard various reports on the Co-op's operation, elected three directors and 52 persons were lucky enough to win door prizes.

Weldon Mason of Meadow, representing district 1; Billy Fred Weaver, Post, district 6 and Leonard Nettles, New Home, district 7 were re-elected for 3-year terms to the board.

Following the meal, with Attorney Calloway Huffaker acting as master of ceremonies, G.Q. Hensley, Lyntegar board president, called the meeting to order. Invocation was given by Rev. Lloyd Hamilton of Wilson.

Attorney Harold Green read the results of the board member election

and a report was made by auditor, Barbee Word.

From the first year of operation, 1939, until the present time, Lyntegar serves all or parts of 11 counties with about 5,000 customers on nearly 16,000 meters and has assets totaling \$29 million.

A refund of capital credits has been made annually since 1960 and the one to be made this month will be the 24th consecutive refund. The total amount refunded to date is \$6,544,414.75. "This means that all electricity received by everyone through 1965 was received at cost and that the Cooperative is now owned by those receiving service since then," a company spokesman said.

According to Hensley, oil field services grew considerably, there was a decline in irrigation pumping and cotton ginning, and other classes of service remained steady during the last year.

School Board Meeting Postponed

The regularly scheduled meeting of the Tahoka School Board on Thursday, Aug. 11 has been cancelled. It has been rescheduled for Tuesday, Aug. 16 at 8 p.m.

Small Squad Starts Practice

About 20 boys reported early this week for football practice at Tahoka High School, but Coach A.D. Shaver said some had not yet had their physicals, and a dozen or more boys should be added in a few days.

Coach Shaver also reminded junior high athletes that all 7th and 8th graders in athletics should report to Dr. Richard Wright's office at 2 p.m. Saturday for physicals.

Scrimmages for the high school teams are scheduled against Morton, tentatively on Aug. 19, and against Littlefield on Aug. 26.

First game of the season will be against Stanton, here, on Sept. 2.

Juvenile Detention Facilities Contracted

Lynn County Commissioners Monday voted to renew a contract with the juvenile detention center in Lubbock to provide space for keeping juveniles from Lynn County whenever needed during the next year.

The county pays \$2745 annually to reserve space at the rate of half a bed each day. It was noted that the county seldom has more than one juvenile offender at the facility at a time; but regular jail cells do not meet the government-established criteria for keeping juveniles more than overnight.

Commissioners Boyd Barnes, Bart Anderson and Eldon Gattis and Judge J.F. Brandon were present at Monday's meeting. Precinct 4 Com-

missioner E.R. Blakney was absent because of illness.

First National Bank officers Frank Barrow and Will Parker appeared to discuss a recent Supreme Court decision in favor of banks in regard to the taxability of bank stock.

A resolution concerning student loans and the colleges' taking over the loan papers from financial institutions was approved by the commissioners.

Sheriff Stanley Krause was authorized to proceed in the matter of seeking compensation for equipment which allegedly was damaged at the county radio tower because of lower than standard electric power.

County officials' reports and payment of bills also were approved.

PUNS are built on the fact that some words sound a little like some others with completely different meanings. Puns are bad. I was showing some slides I took in England the other day and one came up with a couple of sheep, only the exposure wasn't right, and the slide was a little too bright and washed out. I told them it was a ba-a-ad picture. The people there started throwing things and I had to take it on the lamb.

I remember a couple of little stories from years ago. One was about a student who was supposed to make up a sentence using the words, defense, detail, defeat and deduct. Yeah, she came up with "Deduct jumped over defense, defeat before detail."

And the other was a question asked of someone as to whether he could make up words to a song using the words anatomy and

analyze. So he conceived "My Anna-lyze over the ocean; my analyze over the sea; my analyze over the ocean; O bring back my anatomy."

It's things like that which I remember from college; I can't begin to recall anything about light waves or who fought in the Boer War (a bunch of pigs?).

"SO," SAID the lawyer, "you want a divorce on the grounds that your husband is careless about his appearance?"

"That's right," said the woman. "He hasn't made an appearance in over three years."

Patterson Nominated For Service Award

Chief E.W. "Pat" Patterson (Retired), of Tahoka, was awarded one of five nominations for Fire Service Instructor of the Year from the Texas Society of Fire Service Instructors.

He was recognized for his outstanding service, leadership and dedication to the fire services of Texas at the Texas A&M Fireman's Training School July 26, 1983.

Patterson now serves as

Assistant Safety Supervisor at the Texas Fireman's Municipal Training School at Texas A&M and as coordinator for the Lubbock Area Fireman's Training Conference. In addition to these, he serves as Safety Coordinator and Advisor for fire schools at Canyon, Abilene and San Angelo. Patterson has taught countless Red Cross First Aid and CPR classes throughout the

South Plains area since 1962.

Patterson has been employed by Southwestern Public Service for 39 years; during this time, he has been an integral part of their safety programs and has instructed many of their company in-service first aid programs.

J.F. "Dinks" Eckert, Director of the Texas Society of Fire Service Instructors, states that "the men and women who have

met Patterson, worked and trained with him can readily feel the dedication, the zeal and the love he has for the fire service, our goals as firefighters and instructors. Patterson, known throughout Texas, has been the model, the leader, the 'old timer' to listen to learn from and follow for many young men and women starting their own career in the fire service."

Firemen's Fish Fry Set Saturday

The Tahoka Volunteer Fire Department will have its 6th annual "Firemen's Fish Fry" Saturday at the Tahoka Mini Park beginning at 6 p.m.

The Hugh Jack Norwood family of Lubbock will provide entertainment.

Tickets for the event are \$4 and may be purchased at Bartley-Weaver Fertilizer Co., Whitaker Hardware,

Ayer-Way Cleaners or from a fireman.

Proceeds will be used to upgrade fire fighting equipment, Chief J.T. Miller said this week.

In the past, firemen have used proceeds for such equipment as an emergency ambulance, jaws of life, museum donation, exhaust fans used when fighting fire in a burning building and air packs for breathing. There are 20 firemen in the

volunteer department, Miller said. "These men serve with only a token pay of \$10 a month, answering alarms at all hours of day or night, and sometimes get involved in very dangerous situations, actually risking their lives for the people of the community."

He said the fish fry is the department's only fund-raising event of the year.

Henderson-Harvick Exchange Vows in Wedding Ceremony

Tammie Dee Henderson and Kevin Harvick of Gainesville exchanged wedding vows Saturday, July 23, at 7:30 p.m. in the Temple Baptist Church with Rev. Jimmy Davis of Custer City Baptist Church in Callisburg, officiating.

Parents of the couple are Mr. and Mrs. Doyle Dan Henderson and Mr. and Mrs. Joe E. Harvick of Gainesville.

The couple exchanged vows before an altar decorated with a brass arch with stephanotis, greenery and two spiral candelabras with orchid carnations and lavender bows.

The bride, escorted by her father, chose a formal gown of white chiffon, featuring a high neck-line appliqued with venise lace and long tapered sleeves on the fitted bodice. The skirt of chantilly type lace over English net flowed into a cathedral train. Her Juliet head piece featured matching lace and seed pearls attached to a veil of bridal illusion.

The bride carried a bouquet of silk rosebuds in shades of lilac accented with white satin stephanotis and stardust gypsophila trimmed with satin streamers and backed by lace.

Mrs. Annetta Earl, organist, and Mrs. Paula Winters, pianist, accompanied Randy and Pam Hardin as they sang "The Rose and 'That's the Way'" (before the

VOE Students To Paint Addresses On Street Curbs

Beginning this week, VOE students of Tahoka High School will be contacting residents of the city in a community wide effort to enhance emergency response and delivery services to your residence or business by painting your street address on your curb.

The proceeds from this project will go to future community service projects.

The cost will be \$4 for one street address or \$6 for two of the same. Please support this effort to properly identify every business or residence by street address. For more information, call Barbara Jaquess, VOE advisor, at 998-4975.

Harvest Festival Committee to Meet

A meeting will be held Thursday, Aug. 11 to discuss this year's Harvest Festival, co-sponsored by the Tahoka Chamberettes and Chamber of Commerce. It will be held at 8 o'clock at the SPS Reddy Room.

Anyone interested may come to the meeting.

Do You Have A "Hidden" Disease?

High blood pressure (hypertension), which afflicts some 35,000,000 Americans, can affect anyone—regardless of age, sex, race or physical condition. If you do have it, the disease can be easily treated before it leads to serious complications. It's one of the easiest conditions for your doctor to diagnose and treat.

Of great concern, however, is that you can have hypertension and not know it. Very often—particularly in its early stages—hypertension has no symptoms. Two out of every six Americans have hypertension and don't know it. That's why it's referred to as a "hidden" disease. If left untreated, it can lead to hardening of the arteries, heart attacks, strokes or kidney damage.

How do you know if you are likely to get hypertension, or if, perhaps, you already have it? According to Pfizer Pharmaceuticals, here are some factors to consider. Hypertension can occur at almost any age, but is more likely to occur after the age of 40. The risks

also increase if you have a family history of hypertension, are overweight, smoke, use too much salt, are under stress and anxiety, and do not have a program for exercise, rest and relaxation.

Half of Americans aged 65 or over have high blood pressure. Under 50, it's more common in men than women; but after 55 or 60, it's the other way around. More men than women die from complications of hypertension.

Make it a point to have your blood pressure checked regularly by a doctor. It may be that diet and/or lifestyle modifications are all that are necessary. Hypertension can be controlled but will require accurate diagnosis and treatment by a doctor.

Remember, even a little high blood pressure requires your immediate attention. It's up to you to take control.

NOTICE OF CALCULATION OF EFFECTIVE TAX RATE AND PUBLICATION OF ESTIMATED UNENCUMBERED FUND BALANCES

I, Shirley A. Smith, Tax Assessor/Collector for New Home I.S.D., in accordance with the provisions of Sec. 26.04, Property Tax Code, have calculated the tax rate which may not be exceeded by more than three percent by the governing body of the New Home I.S.D., without holding a public hearing as required by the code. That rate is as follows: \$.98 per \$100 of value.

The estimated unencumbered fund balance for Maintenance & Operation fund: \$ 30,000.
The estimated unencumbered fund balance for Interest & Sinking fund: \$ 7,000.

BACK TO SCHOOL HEALTH IDEAS

Kids Are Bringing Home A Lot More Than Homework

They look so adorable, going off to school... freshly dressed and spanking clean. But these days, they're bringing home some unwelcome guests.

In public schools and private schools alike, kids are coming home with head lice. In fact, children are more likely to come home with lice than chicken pox.

Ten million Americans

will come down with lice this year; more than in any year since 1940. Most people are embarrassed to discuss the problem because of the myth that lice thrive only in unclean areas.

Wrong! According to Dr. Harvey Prince, medical director for Pfizer, a company that manufactures a non-prescription lice treatment kit called RID:

"Lice have nothing to do

with cleanliness... nor length of hair... nor income level. And, head lice do not carry disease. They are merely a nuisance problem."

How do lice spread? Schools are a favorite breeding ground for these pesky insects. It's because kids love to trade not only their books and lunches, but their caps, scarfs, and earmuffs.

Treatment: Forget the kerosene, coal tar, blue ointment, tincture of larkspur—just some of the home remedies used to "treat" these bugs. There are newer medical developments for treating lice. According to an FDA panel

HEAD LOUSE (Pediculus humanus capitis)—Head lice, now a common problem among school kids, can be treated with non-prescription lotions which are less toxic than prescription insecticides.

of experts, there are treatments which you can buy at the corner drugstore without a prescription which are safe and effective.

Reports of increasing numbers of head lice have coincided with a controversy over the prescription treatments. The prescription drug lindane was, until recently, the most commonly used lice treatment, but the California based Consumers Union has petitioned the FDA to have lindane removed from the market because it is potentially harmful to humans. Nader's Health Research Group also spoke out against lindane:

"It is medically indefensible to expose millions of people with non-life-threatening skin parasites to a substantial risk of central nervous system damage, blood toxicity, and cancer—especially when safer alternatives exist."

Meanwhile scientists have discovered that chrysanthemum plants produce natural substances (pyrethrins) which are deadly to lice, yet safe for people. These pyrethrins are not readily absorbed by the skin, so they're extremely safe to use. Medical studies show these pyrethrin-based products, like Pfizer's Rid, to be as effective as products made with the potentially toxic insecticide lindane. And the FDA considers them safe enough to be sold without prescription.

What to do if your child comes home with lice: Dr. Prince counsels parents not to panic: "Lice today are as ordinary as mosquito bites." He suggests:

1. Get a pyrethrin lice-killing lotion from your drugstore.
2. Use as directed. When wet, carefully comb the hair with a specially designed fine tooth comb (these come with some OTC lice products) to remove all lice and their eggs (nits).
3. Check all family members and treat them if necessary.
4. Treat again, 7 to 10 days later, to remove any lice hatched from unremoved eggs.

For more information, a free booklet is available, called "Treating Lice Infestation," by writing to RID: c/o Pfizer; 235 East 42nd Street; New York, N.Y. 10017.

Northwestern University conferred an honorary degree on ventriloquist Edgar Bergen's dummy, Charlie McCarthy.

Setting Our Sight On Safety

Many motorcyclists overlook an important piece of their safety wardrobe—eye protection—when they dress to ride.

In order to ride safely, you must be able to see clearly. A bug or small rock flying into your face can distract or injure you. In an automobile, the windshield protects the driver's eyes from wind, rain, and flying bugs or rocks. On a motorcycle a face shield or pair of goggles serves the same function.

The Motorcycle Safety Foundation suggests your face shield or goggles should be:

- Free from scratches and shatterproof (bearing the Z21 or VESC 8 standard in the upper right hand corner). Scratches on eye protection are particularly dangerous at night because they reflect the glare of streetlights and oncoming headlights.
- Securely fastened so they won't blow off.
- Constructed to protect the eyes from dirt, bugs, dust, water, and other foreign objects. Regular sunglasses do not provide proper eye protection on a motorcycle.
- Well-ventilated to prevent fogging that can distort vision.
- Equipped with clear lenses if used at night. After dark, tinted lenses can reduce vision significantly.

TIME-SAVING SHORTCUTS DRYERS

Although the primary purpose of a clothes dryer is to dry clothes, according to home economists from Whirlpool Corporation, it can help you do some other things, too. You can remove creases from rumpled (but not soiled) garments by simply letting the dryer do the pressing.

The home economists advise that the following technique works great for woollens, velvet or corduroy:

- Spray the garment lightly with water, or put a damp, lint-free towel into the dryer along with the clothing.
- Set the dryer control for about 20 minutes.
- Select temperature setting according to the type of fabric.
- Remove items and place immediately on hangers. You can also use your dryer to "Air" draperies and bedding.

The "Air" setting provides room temperature air to fluff bedding, pillows, rugs and to dust draperies and clothing. Use this setting also to dry items such as plastics, foam or sponge rubber that cannot withstand heat.

Now it's easy to read Bible

By Gordon Quarstrom Travel News Service

The couple to my left on a recent flight from San Diego to Chicago spent their time, apart from the lunch, reading the Bible, each from a well-marked copy.

Now I have resolved to finish the project begun so long ago in a university course on the history of religion: To read the Good Book.

And it has been made easy since publication of the new Reader's Digest Bible, condensed from the regular standard version.

The cornerstone of Western civilization, the Bible is a whole library within a single volume, a repository of history, law, religion, poetry, philosophy and ethics. It has been the best seller of all time, yet it is one of the least read.

Everyone has read part of the Bible. Many people have read whole books; still others read the Bible on a selective basis. But few have read it cover to cover.

Publication of the new Reader's Digest version makes that possible.

I have found the version, which is a condensation and not an abridgement, is designed to supplement the full text. It is a 767-page volume, in easy to read type, which can bring the marvelous stories of the Old and New Testaments before the reader in interesting fashion.

The book is available from Reader's Digest Books, Pleasantville, N.Y. Proof of its quick acceptance can be seen in the steadily increasing sales.

WILSON NEWS

The Wilson High School football team began two-a-day practice sessions Monday at 6:30 a.m. They are headed by two new coaches this year, Coach Lewis and Coach Morton. The first scrimmage will be Aug. 19 against Anton at Mustang Field (time not yet known).

Back to School Blast-Off Youth Emphasis - Community-Wide Weekend Revival at First Baptist Church, Wilson, Aug. 19-21. Evangelist will be Mike Woodard, pastor of Pecan Grove Baptist Church at San Saba, Tex. Music evangelists will be Paul and Christi Newberry, who served as fulltime Minister of Music until entering full-time music

evangelism in Southern Baptist Convention in 1981.

Congratulations goes to Bro. Mark and Kathy Pastor of First Baptist Church, for being honored as Pastor of the Week by KJAK radio, the week of July 30.

Mustang Booster Club will meet Tuesday, Aug. 16 in the school cafeteria. Meeting will begin at 8:30 p.m.

Wilson school students will register for classes Friday, Aug. 19 with elementary classes registering from 9 a.m. to 12 noon. Seniors will register at 8 a.m.; juniors, 7th and 8th grade at 10 a.m. and 9th grade at 11 a.m.

Students will report to classes at 8:30 a.m. Monday, Aug. 22 with high school, elementary grades 4-6 and junior high grades 4-6 and junior high grades 4-6 will be dismissed at 3:30 p.m. Kindergarten through grade 3 will be dismissed at 2:45 p.m.

Many families are finding that a really down-to-earth way to get together for fun is to get into an uplifting hobby.

One such is building—and flying—model airplanes. Once regarded as an activity primarily for youngsters, the average age for a model aviator today is 37. The planes they fly can be scale models of full-size aircraft or original creations. They can be sailplanes, powered, or fly indoors or outdoors.

The Academy of Model Aeronautics has a membership of more than 85,000. It is a non-profit organization dedicated to serving the modelers and acts as liaison between members and government agencies. It also offers low cost insurance, publications, and other member benefits.

Tahoka Classes Start Aug. 19

The Tahoka ISD will implement a seven period day beginning with the first day of classes on Aug. 19. Students of Tahoka schools will register Wednesday, Aug. 17 at their respective schools at 1 p.m. Classes will begin for grades K-3rd at 8:35 a.m. Classes for grades 4-6 will begin at 8:20 a.m. Grades 7-12 will begin classes at 8:15 a.m. All classes will dismiss at 3:45 p.m. Buses will run at 3:50 p.m. Lunchroom schedule is as follows: K-3 10:45 a.m. to 11:30 a.m. 4-6 11:40 a.m. to 12:15 p.m. 7-12 12:15 p.m. to 12:50 p.m. All students in kindergarten must be five years of age on or before Sept. 1. All kindergarten students must bring their birth certificates and health records. Any first grade student who was not in school in Tahoka last year will need a birth certificate or school record from prior school. All other students entering Tahoka schools for the first time must bring school record and

health record from prior school. Wilson and New Home Schools will begin classes on Monday, Aug. 22. All county schools require the following immunizations for school attendance: Polio- At least one of these doses must have been received on or after the fourth birthday, or during the month prior to, or of, the fourth birthday. DPT and/or Td-At least one of these doses must have been received since the fourth birthday, or during the month prior to, or of, the fourth birthday, and within the past ten years. Measles--Measles vaccine is required for twelve-year old students. Mumps-- Mumps vaccine is required for students through 11 years old. Those students needing immunizations may obtain them during the month of August and Sept. 2 from 9 a.m. to 4 p.m. at the Texas Dept. of Health, 1640 South 1st.

Drivers Get Schooltime Warning

The summer vacation will soon be over and thousands of youngsters will be starting back to school, many of those for the first time. Last year in Texas pedestrian fatalities accounted for 732 traffic deaths, according to Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety. "Motorists need to slow down as they drive through school zones and in and around school areas."

He added, "Those big yellow buses will also be back on our streets and highways, and Texas law requires the driver of a vehicle meeting or overtaking a school bus displaying red flashing warning lights that is in the process of loading or unloading passengers to stop until the school bus starts moving, the red lights are no longer flashing, or the bus driver directs motorists to proceed."

Cawthon said, "It is most important that drivers observe speed limits in school zones and the school bus loading laws for the protection of children, because no one wants to be responsible for the death or injury of a young child."

Many Americans are getting rid of their tensions in an extremely positive and healthful way—they've taken up a sport. Whether you prefer tennis, swimming, golf or basketball, psychologists say, working up a sweat is really one of the best ways to relax. Then, after you've finished exercising, you can refresh yourself with a tall glass of iced tea, with a wedge of lemon on the side. It can put you in a good mood that could very well last throughout your day.

The Texas Extension Homemakers Association (TEHA) received honors for membership recruitment and young homemakers programming in ceremonies held this week at the 47th annual National Extension Homemakers Conference in Laramie, Wyo. The 1982 leadership and recruitment committee, headed by Arvilla Neal, Kerrville, was recognized for recruiting more than 500 new members. The 1982 young homemakers committee also captured a third-place award for programs on child-development, budgeting and consumer education aimed at homemakers under 35. Theresa Leatherman, Weatherford, chaired the committee. The 22,000-member TEHA was represented at the conference by a delegation of 35 state officers, committee chairmen and members.

A broken air conditioner can be the best thing that ever happened to your household budget.

The add-on heat pump is an efficient air conditioner that cools your home when it's hot. But that's not all.

In cold weather, the add-on heat pump works with your present furnace to help heat your home.

When your air conditioner breaks down, you have several choices. Repair. Replace. Buy a whole new system. All major investments.

Southwestern Public Service Company suggests that you consider a more efficient alternative, for much less than a new heating and cooling system: the electric add-on heat pump. The add-on heat pump is a very special air conditioner that works with your present furnace. Besides cooling your home in the summer, it helps heat your home in the winter.

As one of the most efficient ways to heat and cool, the add-on heat pump can really make a difference. And helping you manage electricity efficiently is one way we're working to justify your trust.

Obituaries

Jackie Ausburn

Services for Jackie De-wayne Ausburn, 32, were held Wednesday at the Sweet Street Baptist Church in Tahoka with Cecil Ray Owen of Post and Dale Kitchens of Midland officiating.

Burial was in Tahoka Cemetery under the direction of White Funeral Home.

Ausburn was killed Sunday night in a motorcycle accident on U.S. 87 south of Lamesa.

The Seagraves native moved to Lynn County in 1965. He married Tressia Hardt Dec. 23, 1968, at Tahoka. He was a mechanic and had served in the armed forces.

Survivors include his wife; his father, A.C. "Jack" of Gilmer; his mother, Fay of Lamesa; his grandmother, Vera Tedford of Lamesa; a daughter, Maritua of Tahoka; a son, Douglas of Tahoka; two sisters, Linda Owen of Tahoka and Linda Ruth Humphrey of California; and three brothers, Gayland of Fort Stockton and Charles Walker of Grand Saline.

Pallbearers were Charlie Stice, Andy Dunlap, Johnny Owen, Blake Dunn, Randy Hall, Ricky Hall, Charlie Stice Jr. and Dewayne Schuknekht.

Lois Ingle

Services for Lois Ingle, 72, of Tahoka, were at 2 p.m. Tuesday at Sweet Street Baptist Church with the Rev. L.C. Landers, pastor, and the Rev. George Ray, pastor of First Baptist Church, officiating.

Burial was in Tahoka Cemetery under direction of White Funeral Home.

She died at 1:45 a.m. Monday at Methodist Hospital in Lubbock.

A native of Boss, she had lived in Lynn County since 1926. She married Clifford Ingle Nov. 23, 1932, at Roswell, N.M.

Survivors include her husband; a daughter, Joretta Jones of Garland; two sons, Bill of Weatherford and Gene of Tahoka; three sisters, Edith Lawson of Carlsbad, N.M., Maria Culbertson of San Bernardino, Calif., and Edna Trammell of Medford, Ore.; three brothers, Joe and Ray Pollard, of San Bernardino, Calif., and Bill Pollard of Beaumont, Calif.; eight grandchildren; and four great-grandchildren.

Grandsons were pallbearers.

Boys Ranch Rodeo Begins Labor Day

The nationally-famous Boys Ranch Rodeo is expected to attract 10,000 people to the Ranch when the event is held over the Labor Day weekend.

Afternoon performances are scheduled for 2:30 p.m. Sunday, Sept. 4, and Monday, Sept. 5. Nearly 250 boys of the Ranch are the only contestants, riding calves, steers, bulls and bareback broncs. This is the 39th year for the rodeo that also features a Grand Entry of area riding clubs and a homecoming of Ranch graduates who travel from towns and cities all over the United States.

It is a rodeo for all of the Ranch's 350 boys. Those who do not compete as contestants will be selling soft drinks, popcorn and barbecue beef plates for \$3.00. Reserve box seats are \$3.50, general admission \$2.50, and children age six through twelve are \$1.00.

The rodeo is the only one of its kind in the nation in which the only contestants are boys riding professional rodeo stock under RCA rules.

Askew Reunion Held Here

Descendants of P.E. and Hettie Askew met at the Tahoka Country Club for a family reunion Sunday, Aug. 7.

The Askews moved to Lynn County in 1920 and farmed in the Wells Community. P.E. died in 1961 at age 76 and Hettie died in 1980 at age 94. Their descendants at this date include 10 children, 19 grandchildren, 30 great-grandchildren, and 2 great-great grandchildren. Three sons and one granddaughter have died.

Sixty-eight family members enjoyed the good food, visiting, viewing a video tape of last year's reunion and picture taking and video taping of this reunion. The door prize, a water color by Betty Newsom, was won by Clay Caswell.

TRACI GREEN
Traci Green Participant In Sul Ross Orientation

Traci Green, a graduate of Tahoka High School, recently participated in freshman orientation at Sul Ross State University in Alpine in preparation for the fall semester.

Ms. Green, daughter of Pat and Francine Green of Tahoka, was among more than 150 participants in the three day event.

Students and their families toured the campus, the Davis Mountain area, the McDonald Observatory and the Fort Davis National Historical Site.

Grassland Hobby Club Meets

NOTICE OF CALCULATION OF EFFECTIVE TAX RATE AND PUBLICATION OF ESTIMATED UNENCUMBERED FUND BALANCES

1. **Dovie Miller**, Chief Appraiser for Lynn County, in accordance with the provisions of Sec. 28.04, Property Tax Code, has calculated the tax rate which may not be exceeded by more than three percent by the Commissioner's Court of the Lynn County without holding a public hearing as required by the code. That rate is as follows:

\$ -0-	per \$100 for farm-to-market/flood control tax;
\$ -28798	per \$100 for the general fund, permanent improvement fund and road and bridge fund tax;
\$ -0-	per \$100 for public road maintenance tax; thus
\$ -28798	per \$100 TOTAL COUNTY EFFECTIVE TAX RATE

The estimated unencumbered fund balances are as follows:

Farm-to-Market/Flood Control	Public Road Maintenance
Maintenance & Operation: \$ -0-	Maintenance & Operation: \$ -0-
Interest & Sinking: \$ -0-	Interest & Sinking: \$ -0-
General Fund	
Maintenance & Operation: \$ 30,000	
Interest & Sinking: \$ -0-

Letters to the editor do not necessarily express the views of this newspaper. All correspondence must be signed, and in good taste before it will be published, and the name of the writer must be published also. Letters to the editor may not be more than two double-spaced typewritten pages.

To the Editor:

On March 31, 1983 the town of Popayon, Colombia was destroyed by an earthquake. Consequently, schools will not open there next year.

Sixteen year old Mauricio Jose Lopez would like to become an Exchange Student to the U.S.A. and it is hoped, through your newspaper, a local family might be located to host him.

Jose is entering the 12th grade. He speaks English

Wildlife Is Endangered

Will Parker showed a film at Tahoka Rotary Thursday on wildlife and the importance of vegetation in the life of various species of animals, fowls and fish.

The show also emphasized the importance of preservation of wildlife.

Club president Nick Summitt announced two new members will be inducted into Rotary this Thursday. They are Bruce Gunning and Ray Don Box, both of whom are with Love, Hays and Schaffner accounting firm.

and plans to be an M.D. like his father who is a professor in a school of medicine. His interests include basketball, swimming, bicycling, reading and listening to music. He has four older brothers and sisters plus a twin sister.

Any family willing to provide a bed, 3 meals daily and transportation to school and church should contact Wm. R. Smith, International Fellowship, Inc., P.O. Box 1212, Sedona, Az. 86336, or phone 602-284-1413, collect.

Jose will have his own funds for personal expenses and will be fully insured. He will be one of the family for the school year, sharing in the tasks, joys and concerns, and tax deductible.

WEDNESDAY BRIDGE

Wednesday afternoon bridge played Aug. 3rd at T-Bar Country Club. Winners were: 1st, Mildred LeMond and Jacquie Chessir (Brownfield); 2nd, Jan Chiles (Lamesa) and Fern Leslie; and 3rd, Mabel Gurley and Vinita Hamilton.

While parents should not be alarmed if their pre-schooler stutters, they should be concerned if that speech disfluency persists as the child gets ready to start school. "Parents should be assured that 80 percent of all children between two and seven frequently stutter, but will outgrow it by adolescence," says Dr. Delores Stegelin, a family life education specialist with Texas A&M's Agricultural Extension Service. But for children whose stuttering becomes more pronounced with age, early detection and treatment is best, says Stegelin.

Newer methods of intervention for stuttering actively involve the parents and include family counseling as well as speech therapy for the child. Parents who are concerned about their child's stuttering may obtain information and assistance through their local school district (which may employ a speech pathologist), health department and the county Extension office, says the specialist.

Varsity Cheerleaders Receive Awards

The 1983-84 Varsity Cheerleaders of Tahoka High School attended TCU camp at Fort Worth recently. Among the awards received were three ribbons of excellence, two of superior, and the spirit stick.

Parents May Qualify For Child Care

Working parents who meet income eligibility requirements can be subsidized up to 90 percent of the cost of their children's day care through a Department of Human Resources program. The funds for this program are funneled from the State to the Department of Human Resources to the South Plains Community Action where they are dispersed.

The program is planned to help low income families. The children who are recipients of AFDC, SSI assistance, or food stamps, as well as other income eligible children may qualify if the day care allows their parents or caretakers to participate in employment or training. Children of parents who are in school full time to receive a high school diploma are also eligible for day care. Children of parents who are in training up to one year beyond high school or its equivalent are eligible for the day care service.

Eligibility for the day care assistance is based on family size and income. Parents must be employed or in training and will place their children in licensed day care homes with whom the Agency has a contract.

Presently the South Plains Community Action Day Care Broker is able to help 80 children from 13 counties (Hockley, Lamb, Bailey, Cochran, Yoakum, Garza, Lynn, Terry, Floyd, Dickens, Hale, Crosby and Lubbock (rural).

The program has been in existence for over a year. It has helped Day Care Group homes get started as well as placing children in existing Day Care facilities.

For more information call Community Action at 998-5094.

IT'S A FACT

Back in the year 350 A.D., this was one medical sage's "cure" for acne: "Watch a falling star, then instantly, while the star is still shooting from the sky, wipe the pimples with a cloth or anything that comes to hand. Just as the star falls from the sky, so the pimples will fall from the body."

Fortunately, doctors have made significant breakthroughs in the treatment of acne during recent years. Acne causes and treatments are no longer speculation—they have become part of medical science. One important recent development is the availability of antibiotic solutions that are applied to the surface of the skin. These prescription medications, such as Cleocin T, are very effective acne treatments. Consult the person who can design a treatment program specifically for you—a physician who specializes in the care of the skin, a dermatologist, or your family doctor.

COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

Loan Program Expansion Urged: Lloyd Cline, Lamesa, Texas, cotton producer and chairman of the National Cotton Council's Special Agricultural Credit Task Force, recently urged expansion of the Small Business Administration's agribusiness loan program.

In a letter to the SBA, Cline said such expansion is essential if the credit needs of agriculture, including cotton, are to be adequately met.

"This is particularly true," Cline said, "with regard to agribusinesses such as cotton gins which have been adversely affected by the government's payment-in-kind (PIK) program."

Cotton Under Loan Increases: Upland cotton under Commodity Credit Corporation loan for 1982-83 decreased by a net 46,232 running bales dur-

ing the week ended July 20, according to the National Cotton Council. The season's totals include 5,054,932 entered and 2,676,374 repaid, leaving 2,378,558 bales outstanding.

NCC Board Will Meet: The National Cotton Council Board of Directors will meet September 8-9 at the Holiday Inn Civic Center, Lubbock, Texas.

Session I of the Cotton Leadership Program, sponsored by the Agricultural Division of DuPont through a special Cotton Foundation project, will be held at the same location Sept. 6-10 and members of the class will attend the Board meeting.

New Measure In Effect For PIK Program

Suspension of USDA's "plant-for-PIK" program averted at least a \$50-per-bale loss for cotton farmers, the National Cotton Council president said last week.

The suspension, announced by USDA, resulted from Council-supported legislation passed late last week by Congress and signed into law by President Reagan shortly before midnight Saturday. It requires the Department to reopen bids to acquire 1982 and earlier crop cotton to meet PIK obligations without the 7 percent cap that hobbled the previous bid program.

Council President Gerald Brewer explained that the new measure in effect prohibits USDA from forcing cotton growers who did not have sufficient loan cotton for their own PIK to sell their 1983 crop to the government at below-market prices.

"This also would have forced many of them to default on forward contracts which they had made with the expectation of receiving PIK cotton," he added.

Agriculture Secretary Block, in announcing reopening of the bid program in Washington, said offers to sell cotton to CCC may be submitted without regard to any maximum bid percentage.

Brewer said USDA's announcement concerning reopening of the bid pro-

gram includes an option that could be especially helpful to producers who had already entered their 1982 cotton under the earlier bid program.

"As I understand it, these producers can now submit new bids at a higher rate and their earlier bids of up to 7 percent will be totally invalidated," the Council president said.

About 417,000 bales were acquired by CCC under the 7 percent bid program.

Brewer cautioned, however, that if the higher bid is not accepted, a producer would be expected to reimburse CCC at the loan rate for those bales received as payment under the earlier bid program.

The bid program was due to be reopened on Aug. 8 and continue through Aug. 24.

"Hopefully, this will mean that county ASCS offices should receive notification by Sept. 1 as to whether an individual producer's bid is accepted," the Council president said.

NEWS OF SAFETY

Facts From The Medical Society Of The State Of New York
Your Backyard Swimming Pool

Swimming pool safety is no accident. If you have a pool, here are a few simple precautions that may help you avoid a tragedy.

To protect wandering toddlers, make sure that your pool is fenced in and that there is a lock on the gate.

LUBBOCK, Friday, August 5, 1983

Congress July 29 sired a more robust sibling to replace the ill-fated "Son of PIK" bid program which in May proved too anemic to bring in the cotton USDA needs to meet its payment-in-kind commitments.

Son of PIK, which offered producers clear title to a maximum of one bale of cotton out of CCC stocks for each fourteen bales they agreed to let CCC have, attracted only 417,000 bales, less than half the 900,000 to 1.1 million needed. Then USDA brought down wails of anguish from producers, merchants and mills by announcing that producers without enough cotton in the loan to meet their PIK requirements would be required to relinquish, at loan price, 1983 crop production for that purpose.

Producers had sold ahead or had the opportunity to sell both PIK cotton and 1983 crops at prices well above loan values. Merchants had contracted and promised to mills cotton which, if the USDA ruling stood, producers would not be able to deliver.

Cotton-state congressmen and senators, at the request of Plains Cotton Growers, Inc., Lubbock, and many other individuals and organizations, entered the fray with legislation requiring USDA to initiate a new and more attractive bid procedure. The measure, skillfully grafted to the supplemental agriculture appropriations bill, passed July 29 and was signed into law by President Reagan July 30.

So the "Harvest for PIK" requirement has been suspended, and from Monday August 8 through Wednesday August 24 county ASCS offices again will be accepting bids from producers for loan forgiveness plus a premium. But this time bids may be submitted "without regard to a maximum bid percent of the total bales offered."

Moreover, the legislation in effect prohibits USDA from rejecting any bid on 1982 crop cotton which asks for a premium not in excess of 20 percent, or two bales out of 10, unless USDA PIK requirements have been met by previously accepted bids. Bids will be taken on 1980 and 1981 crop cotton also, but USDA has a free hand in deciding which of these to accept.

Producers who submitted bids in May to accept one for 15, or about seven percent for their cotton, may resubmit those bids at a higher premium and the original bid automatically will be nullified. However if the new bid is not accepted and the producer has already taken title to bales awarded on the earlier bid, the producer will be required to repay the loan principle, interest and warehouse charges paid by CCC on those bales.

The big question in cotton country now is whether enough cotton is eligible for the bidding and will be offered by producers to fill USDA's requirement. "Too close to call" is about all USDA officials will say, but, right or wrong, many in the industry are of the opinion that at the end of the new bid procedure USDA still will be needing cotton.

USDA will allow for that possibility by informing producers they still may be required to harvest 1983 crop cotton for PIK if CCC doesn't get the cotton to satisfy PIK needs.

Official details of the new bid program, says PGC's Executive Vice President Donald Johnson, should be obtained from county ASCS offices.

Block Cuts Loan For 1984 Wheat

AUSTIN—Two versions of a 1984 wheat program were unveiled recently by U.S. Secretary of Agriculture John Block, with both calling for a ten percent cut in basic price support loan rates.

Block conceded that neither proposal is as attractive as the 1983 plan. He said that farmer participation would be lower under either plan, total wheat production would be higher, and wheat prices would probably stay near the loan level in 1984.

Block offered the two plans hoping to induce farm support for a freeze in wheat target prices currently under debate in Congress. Target prices, if the freeze is defeated, will increase to \$4.45 per bushel from the current \$4.30. The freeze would hold the target price at the present level. The loan rate in both plans would be \$3.30, down from this year's \$3.65.

If the average market price for wheat is below the target price level, the government will make up the difference to farmers who participate in the government's program with a subsidy known as a deficiency payment. The crop loan rate represents the approximate minimum price for wheat grown by participating

farmers. If Congress freezes target prices at the current level, farmers will be required to idle 25 percent of their crop land to participate in the program. The farmers will not receive any direct compensation for the acreage reduction. Farmers may elect to idle an additional 10 to 25 percent of their land in return for free surplus wheat equal to 80 percent of what they would normally harvest from the PIK acres.

If target prices are not frozen, Block's plan will require wheat farmers to idle 30 percent of their crop land to be eligible for price supports, without receiving any direct compensation. Farmers may decide to idle another 10 to 20 percent of their land in return for free surplus wheat equal to 75 percent of what they would normally harvest from the PIK acres.

In order to participate in either payment-in-kind program, wheat farmers would be required to have enough wheat in the government reserve to cover their PIK entitlement, or else to agree to commit an equivalent amount of their 1984 crop to the program.

1984 WHEAT PIK Block offers political deal

U.S. Secretary of Agriculture John Block recently unveiled two versions of a 1984 payment-in-kind program for wheat, one dependent on a target price freeze for 1984, the other Block's choice if Congress refuses to enact the freeze. Both plans lower the CCC crop loan price floor from \$3.65 per bushel to \$3.30.

PIK policy option	1	2
Target price	\$4.30	\$4.45
Loan rate	\$3.30	\$3.30
Basic acreage reduction (unpaid)	25%	30%
Acres eligible for PIK	10-25%	10-20%
PIK compensation rate, percent of normal yield	80%	75%
