## Suspect Is Arrested After Rape Report

A 22-year-old mother of a small child reported to police early Saturday morning that a man had broken into her home in south Tahoka and raped her after threatening her around 4 a.m. Saturday.

The woman said she was awakened by the noise of a kitchen door being forced open and when she went to see what the noise was, she encountered the intruder in the living room. She said he threw her to the floor, put a towel around her neck and raped her. The child was asleep in the home at the time.

After the attack, the man left and she notified a neighbor, who called police. The victim identified a suspect, and on Monday police arrested Raul Atonislado Acosta Jr., 24, of Tahoka.

Acosta posted bond of \$10,000 set by Justice of the Peace Ed Hamilton on a charge of rape by force or threats.

Two persons reported guns stolen from pickups in Tahoka Saturday. Leighton Knox said a 12-gauge Revelation shotgun and a Remington .22 rifle were stolen from his pickup parked at Main and Lockwood between noon and 4 p.m. Saturday, and Donald Williams reported a Remington 12-gauge shotgun stolen from a pickup parked at 1628 N. 3rd. Crime Line, 998-5145, has offered a \$200 reward for information leading to the clearing of either of the gun

A car left by U.S. 87 north near the Lubbock County line was damaged and tires and wheels and a stereo system stolen from it Monday night, owner Jose Alfonso Charles of Lamesa reported. Total loss was set at \$1450.

In jail during the week were one person each for rape, felony theft by check and traffic violation.

Tahoka police answered a disturbance call from Nick Summitt Texico last Wednesday. Two men had tried to break into the cash register while the attendant was checking a customer's oil.

Also on Wednesday night, Tahoka resident in the 1600 block of Ave. L reported to police that some one had tried to break into her house by cutting her screen door.

Police also answered a family disturbance call, a prowler call, and more complaints about traffic keeping residents awake late at night.

998-5145 Offers \$200 Reward

For information on either of two gun burglaries from pickups Saturday. A shotgun and rifle were stolen from the pickup of Leighton Knox and a shotgun from Donald Williams. See story above and left for details.

GOOD GAIN-Bulldog running back Jerry Alvarado ran for a 14-yard gain on this play before being tackled. Tahoka did not make many such gains last Friday as Post won the game 60-6.

(LYNN COUNTY NEWS PHOTO by Gary Jones)

worn, they (we) really blew it. That's got to be one of the dumbest laws ever passed. Statistics show that when a person is involved in an accident, the injuries.

LYNN COUNTY NEWS

Tahoka's scrappy Bulldogs were outclassed at Homecoming last Friday night against the talented Post Antelopes and went down to a 60-6 defeat after giving the Antelopes plenty of trouble in the first half.

By DALTON WOOD

Post's Milton Williams scored five touchdowns, but the longest was on a 30-yard run as the visitors were just too quick and strong for Tahoka to contend with most of the time.

The Bulldogs never quit, however, on defense, and there was some hard hitting even after Tahoka fell far behind.

Williams, who gained 157 yards in 21 carries, scored on runs of 30 and 1 yard in the first period and back Chuck Morris kicked two extra points to put Post up 14-0.

In the second quarter, however, Bulldog running back Steve Pierce broke free down the right side to go 38 yards for a TD, the longest run of the game for either team. The point was missed and it was 14-6.

Pierce gained 65 yards in the first half, but had minus yardage in the second half and wound up with just 50 yards in 22 carries.

Williams ran 15 to score before the half ended, 21-6.

Opening the second half, Post drove to a TD with Williams going a yard, and shortly afterward, Post

recovered a fumble deep in Tahoka turf and Williams then ran 12 to score. Danny Gonzales ran 16 yards for still another Post touchdown, and the Antelope defense held Tahoka to a net of 6 yards in the third period--and 7 more in the fourth.

Post got some easy scores in the fourth quarter as Tahoka's kicking game, usually good, broke down completely, with two blocked (one of them by a Tahoka player backing up to block a rusher) and one going 8

Giles Dalby scored on a run of a yard and a recovery of one of the blocked kicks in the end zone, and after the 8-yard punt, Michael Ollison ran 5 for a TD.

The battered Dogs should find things not quite so tough this Friday as they journey to Seminole for the district opener, with the game starting at 7:30 p.m. Seminole last week lost to Slaton 37-21.

#### Carriker To **Host Open** House

Seventy-eighth District State Rep. Steve Carriker will host an open house in his District Legislative office in Roby Tuesday evening, Oct. 11. The office, located on West Highway 180, serves as legislative headquarters for the representative during the interim between sessions. The public is cordially invited between the hours of 5 and 6:30 p.m to meet and visit with Rep.

Carriker and his staff. Following the open house, friends and supporters of Rep. Carriker are sponsoring a barbecue and fund-raiser at the Fisher County Fair Grounds in Roby. The Country and Western music of the popular Cole Younger band of Abilene will provide the backdrop for a home-cooked barbecue meal, starting at 6:30 p.m. Tickets are available at the door.

About one-fourth of the average American's calorie intake is from sugar, says Mary K. Sweeten, a foods and nutrition special ist. Natural forms of sugar found in fruits, vegetables and dairy products contribute six percent of these calories and the remaining 19 percent come from sugars added to foods. About two-thirds of the sugar added to foods comes from eating processed foods and the rest from sugar used for cooking or taken from the sugar bowl at home.

MR. AND MRS. CECIL KIETH

#### Cecil Kieths To Celebrate 50th Wedding Anniversary

Mr. and Mrs. Cecil Kieth of New Home will be honored with a reception Sunday, Oct. 9, from 2 to 4 p.m. in their home on the occasion of their 50th wedding anniversary. Hosting the event will be their children and grandchildren.

Kieth and the former Nita Crossan were married Oct.

12, 1933, in Sayre, Oklahoma. All friends of the couple are invited to attend. Your friendship through the years are gifts enough, therefore, they respectfully request no other.

#### **New Home FFA News**

The New Home FFA chapter held its second annual crops fair Friday. Sept. 23, in the ag shop. Approximately 150 entries were exhibited at the local fair. Ribbons were awarded to the top three items in each division. Andy Fillingim and Leland Zant judged the annual event. Also on display were the Ag Mechanics projects that were built by junior and senior FFA students. Items on display were a portable barbecue pit and two portable blocking tables.

These projects were also exhibited at the Panhandle South Plains Fair. A blocking table placed fourth in the small livestock equipment group. The portable barbecue pit was sixth in the large home and recreational group along with a satellite stand that placed fifth in the same division.

An educational exhibit was also exhibited by the juniors and seniors which placed in the second group and received a red ribbon. The exhibit was focused on Low Pressure Irrigation.

The junior barrow show was held on Monday, Sept. 26, at the fair. Gerry Paul and Lance Kieth exhibited barrows in the event. Lance Kieth exhibited a second place light weight cross barrow.

#### 4-H'ers Place At Fair

Lynn County 4-H Club members participated in the 66th annual South Plains Fair lamb and steer show, held Friday, Sept. 30. The lamb show began at 9 a.m. with Kris Belew taking two top honors by placing second with her light weight Hampshire and third with a light weight Hampshire Cross. Other Lynn County 4-H'ers placing in the lamb show were Shawn Ballard, third light weight Southdown and seventh Dorsett lambs; Cory Ballard, 10th lightweight Southdown; Jason Belew, 12th heavyweight Hampshire: Brian Upshaw, 15th place lightweight Hampshire and 17th place lightweight Suffolk.

Two other Lynn County 4-H'ers also took honors in the steer show. Cory Ballard and Cody Smith each placed 11th in their respective classes with their purebred Hereford

COW POKES

The Wilson Athletic Booster Club met Tuesday night in the school cafeteria and viewed video films of the junior and high school football games against Ropes.

Booster Club president, Kelly Livingston, expressed the club's appreciation. for all the effort that made this year's homecoming the largest and most successful in several years. Ex-students were present from Colorado, Arizona, Oklahoma throughout Texas.

Special recognition was given to American Airlines and its employees for their interest and support in our small community. They worked with the Booster Club and made possible the special trip that was given away during halftime activities. Tom Freitag won the trip, along with two tickets to a Dallas Cowboy football

The club's homecoming money making project was a sell-out and the club made a good profit; all of which will go back into the school's athletic program.

The Wilson High School Cheerleaders are selling key chains for \$3 and bumper stickers \$1.50, for their fund raiser this year. Anyone wishing to purchase these items may contact one of the cheerleaders.

Wilson Booster Club meets every Tuesday night at 7:30 p.m. in the Wilson school cafeteria. All members are encouraged to attend.

First Baptist Church of Wilson held their revival last week with guest Evangelist Dr. Bill Thorn, recently moved to Wilson and Music Evangelist Bobie Miller. An ice cream fellowship was held Wednesday night after the

\$4 for adults in advance (\$4.50 at the door) and \$3 for children under 12 and

Wilson High School Band marched in the South Plains Fair parade Sept. 27. There were 53 band members in attendance.

Wilson senior citizens have a dinner at noon every Monday and Wednesday at the Wilson Mercantile. All senior citizens are invited to attend. The lunches are catered by the Lynn County Senior Citizens Center of Tahoka. Senior citizens wishing to have lunch should call 628-2616 by 10 a.m. on that day. Donations are accepted for the lunches. Persons not able to attend may have their lunch delivered to their home at no charge.

The volunteer fire department met Monday night at the fire house. During the business meeting plans were outlined for the annual turkey dinner in December in the school cafeteria. The date will be announced later. Present were Chief Gilbert Steinhauser, and firemen Keith Wied, Ray Crispin, Oscar Follis, James Wuensche, Donald Klaus, Don Morton, Robert Abbe and Brian Autry.

Ed Conway, 58, of Lubbock, died Sept. 25 and funeral services were held Oct. 1. The former Wilson resident was the son-inlaw of Sam and Nettie

Mark and Carla Cavender and son have from Michigan. Carla is the daughter of Mr. and Mrs. Carlton Wilke.

Floyd Bartley of Arlington visited Saturday with Tracy and Jayson

Mrs. Dawn Shipley and

over the weekend with her grandmother, Mrs. Clara Phillips.

Mrs. Margaret Morton spent the weekend in Lubbock with her daughter, Donna Donaldson, and

portent of good weather. On cloudless nights the earth loses its heat more rapidly, and a heavier dew

#### **Pose Pets For Pretty Pictures**

anounced after a drawing at halftime activities of

Getting a good picture of your pet is not unlike catching the animal when it wants to run. To be successful, you need patience, imagination and the right location. Quick reactions don't hurt either.

Wilson's Homecoming.

Before you even pick up your camera, take a close look at your pet and his or her habits. Make a note, at least mentally, of expressions, poses or actions that are characteristic of your pet and that you'd like to capture in a photograph. Then load your camera and get ready to shoot.

There are essentially two approaches you can take to the pet photograph. You can unobtrusively stalk your pet and try to catch the animal being naturally charming, or you can attempt to initiate that behavior in a more controlled (and probably more has the advantages of naturalness and spontaneity. The controlled setting gives you more chance to avoid distracting backgrounds, poor lighting and a subject running out of the camera's You may want to try

both methods. In any case, keep these other tips in mind

· Try to take your pic tures from the pet's level. The photos will be more

natural and your animal will

be more relaxed. · Get in close, as close as your pet-and your camera-will allow. Minimum focusing distances vary among cameras. A Kodak disc 6000 camera, for instance, can focus as close as 18 inches from a subject.

· Elicit an animate pose by using a squeaky toy or other noisemaker; many animals will perk up their ears at the sound. To encourage an animal to stay still, offer a food treat.

· Take plenty of pictures to capture just the right look. The rapid automatic film advance of the disc camera will be a big help since you don't have to take your eye from the viewfinder to be ready for

· Try to avoid distractng backgrounds - brightl patterned curtains, or table egs that appear to grow from your pet's head are not good backgrounds.

## Unravel Ropes, 22-15

Ropes got on the board

line, Keith Spears threw a touchdown pass to Adam

Ropes came back in the 4th quarter and scored on a 7 yard run by Carry Collins and made a 2 point conversion to tie the game at 15 all.

Wilson scored again with three minutes remaining with a 24 yard pass from Spears to Nava. Ortiz extra point was good. Wilson regained the

Ropes again drove to the Wilson 10 yard line and with only three seconds left, was intercepted by S. Nava to clinch the win for the Mustangs.

# Mustangs

The Wilson Mustangs passed for three touchdowns to defeat the Ropesville Eagles on Friday night by a score of 22-15.

first with a 2 yard run from line of scrimmage and PAT good in the second quarter to lead 7-0 at halftime. In the second half,

Wilson received the kickoff, drove down the field, and on 3rd and goal from the Ropes 6 yard Vaca. A two point conversion was good from Richard Ortiz to Justin Bednarz. Wilson took the lead, 8-7.

Later in the 3rd quarter, the Mustangs scored on a 2 yard pass from Sammy Nava to Bradley Wright. Richard Ortiz kicked the PAT. Wilson extended their lead to 15-7.

lead, 22-15.

Spears completed 8 out of 23 for 157 yards. Nava caught three passes for 92 yards, followed by Wright with 3 for 28 yards, Vaca with 2 for 26 and Bednarz with 2 for 15. Wilson compiled 161 yards in the air and 76 yards on the ground for a total of 237

yards on offense. The Mustangs will host Whiteface for a district game this Friday.

Soil Testing More Important Than Ever

Getting your soil tested has always been important, but now this proven practice is more important

Making a profit, or in some instances, surviving in farming is more crucial now than ever before, so producers must get the most from their fertilizer dollar. Getting a profitable return from fertilizer depends on the supply of available nutrients already in the soil. A soil test can provide an estimate of this supply.

A soil test will determine which nutrients are deficient in the soil for a particular crop so that a producer can fertilize to supplement the soil supply. It's not profitable to supply nutrients already available in the soil in sufficient quantities for a particular crop or to supply added nutrients that

#### **Brownfield Slates Harvest Festival**

The 1983 Harvest Festival in Brownfield is planned for Saturday, Oct. 8, according to Don Ivie and Sandra Hinkle, General Co-Chairmen.

All surrounding communities are invited to join in the festivities beginning at 10 a.m. with a parade. At 12 noon, an afternoon of continuous entertainment gets underway at the American Legion Memorial Amphitheatre in Coleman

The Harvest Festival Queen will be crowned at 7:30 p.m. and the Grand Prize, a trip to Walt Disney World Magic Kingdom in Orlando, will be given away.

the crop does not need or cannot use.

Now is an excellent time to take soil samples since soil test results can be obtained more quickly this time of the year due to a smaller volume than in the spring. And, once producers have their test results, they can order the fertilizer they need for the coming season.

So, to plan the best fertilizer program, get your soil tested now, sug gests Young.

#### From The ACEA's Desk **GREG HENLEY**

"4-H: Building on Experience" is the yearlong theme of the 4-H program in Texas and across the nation, and that theme will get special emphasis during National Week, Oct. 2-8.

A number of local activities and programs are being planned to support the 4-H theme, says Greg Henley, county 4-H program coordinator with the Texas Agricultural Extension Service, Texas A&M University System.

Several of the 4-H activities scheduled for Lynn County during 4-H Week are: 4-H poster contest, 4-H Sunday and Lynn County 4-H Awards Ban-"4-H Building on Exper-

ience" highlights the educational projects which help young people gain practical skills, develop good nutrition and health habits, explore career opportunities, generate leadership capabilities and become involved as citizens in their local communities, the state and the nation

CLOSE COMBAT--Lots of players are in on this action during the Post-Tahoka game last Friday. Somebody down (LYNN COUNTY NEWS PHOTO) in the pile has the ball.

The 4-H program is built on experiences of an impressive past, points out Henley. By providing useful knowledge to help vouths develop as leaders of tomorrow, 4-H has enabled many young people to gain insights and experiences in careers they would enjoy. 4-H has also contributed to international understanding through change programs with countries around

world. Youths from all backgrounds and walks of life can enjoy the unique learning experiences that 4-H has to offer. Through their 4-H experiences, these young people can play an important part in a more satisfying and rewarding future for all Americans.

Nutrition-conscious dieters who are concerned about getting enough vitamin B-6, iron and zinc will often take costly vitamin pills and dietary supplements. Yet beef is an easily available source of these nutrients, says Marilyn Haggard, a foods and nutrition specialist. They key to including beef low-calorie diets is selecting lean meat and eating in appropriate amounts, says the nutritionist. For example, a 3-oz. serving of cooked lean meat will provide a considerable quantity of B-vitamins, minerals and trace minerals like iron and zinc, but contains only 200 calories. Increasing consumption of lean meat is one way to improve the zinc and iron content of a

"A mobile home, like any other home, can be sealed too tightly for your health," says Dr. Peggy Owens, a housing specialist. "Some exchange between indoor and outdor air should go on all the time. When you weatherize make sure you do not seal or block openings intended to ventilate the wall cavity," says Owens. If the inside air seems stuffy, homeowners should ventilate with exhaust fans or open a window a crack, says the specialist.

# OTTON COUNCIL

WEEVILS FOUND IN NEW MEXICO: Boll weevils were found in cotton in southwest New Mexico this month, according to the National Cotton Council.

Dr. Jim Brown of the Council staff said addi-. tional catches have been made in traps in areas around Animas, Rodeo, and Deming. The patterns indicates the weevil, which

#### Hydrogen fuel search takes another step forward at Texas A&M

COLLEGE STATION-The search for technology to make hydrogen fuel commercially competitive with other fuels has taken another step forward at Texas A&M University with the awarding of a \$150,000 grant from the National Science Foundation.

The support will allow continuation of hydrogen fuel studies being conducted by researchers working under internationally acclaimed electrochemist Dr. John Bockris.

Under Bockris' leadership, the researchers are investigating a method to efficiently obtain hydrogen from ordinary water using solar power and a centuries-old technique called electrolysis to split water is believed to be a Sonoran strain, is reproducing at these locations.

Dr. Jim Brazzel of the USDA believes this is the highest elevation (above 4,000 feet) at which weevils have been found in this country. Unless it has adapted to the higher altitude, the weevil may have a hard time surviving the cold winter in the area, Brown said.

EXPORT SALES IN-CREASE: Sales of U.S. Cotton for 1983-84 delivery increased a net of 187,800 running bales during the week ended Sept. 22, according to the National Cotton Council.

South Korea was the major buyer with a net in-

crease of 56,000 bales. Other top buyers were Japan, 40,400 bales; Yugoslavia, 38,300; and Indonesia, 31,700. PIK PRODUCERS

> The crime rate in Texas declined 3% over the first half of 1983, according to the Texas Department of Public Safety. Widespread citizen participation in Crime Prevention and Crime Stoppers programs has been cited as a reason for this decrease.

A Crime Stoppers program is a non-profit organization which is supported through private contributions from civic nationally has been clubs, businesses and concerned citizens. Crime Stoppers requires participation of law enforcement officials, media representatives and citizens to succeed.

Today, Texas can boast of 96 local Crime Stoppers programs-over onefourth of the programs which exist in the nation.

Governor Mark White, the Crime Stoppers Advisory Council and local Crime Stoppers programs are working hard to ensure that the war on crime is successful. But

Texas needs the help of its citizens

Citizens with information on felony criminal activity, such as names, addresses, locations of contraband, vehicles and license numbers, are asked to call their local Crime Stoppers program or Texas Crime Stoppers toll-free at 1-800-252-TIPS anytime, day or night.

Cash rewards are available for information leading to the arrest and felony indictment of criminals in Texas. Citizens are not asked their names and will be given a unique code number for reward

Since the first Crime Stoppers program was established in Albuquerque, New Mexico, in 1976, Crime Stoppers responsible for solving cases, recovering more than \$130 million in stolen property and narcotics, and convicting over 10,000 suspects brought to trial.

Crime Stoppers across the nation solves a major crime every 31 minutes of operation and recovers over \$7,000 in stolen property and narcotics per

Governor White and the Crime Stoppers Advisory Council is asking communities to ban together to build a Texas which is the fight against crime in free from the fear of crime.

The first steamship to cross the Atlantic, the S.S. Savannah, traveled from Savannah, GA, to Liverpool, England, on 1819. The voyage took 29 days.

#### NOTICE OF APPLICATION FOR FLUID INJECTION

W. RIDLEY WHEELER ESTATE

2010 Texas American Bank Building Fort Worth, TX 76102

has applied to the Railroad Commission of Texas for a permit to inject fluid into a formation which is productive of oil or gas.

The applicant proposes to inject fluid into the San Andres, Suniland Field Unit, Well Number 22. The proposed injection well is located 4 miles Southwest from Southland in the Suniland Field, in Lynn County. Fluid will be injected into strata in the subsurface depth interval from 3790 to 4050 feet.

LEGAL AUTHORITY: Chapter 27 of the Texas Water Code, as amended, Title 3 of the Natural Resources Code, as amended, and the Statewide Rules of the Oil and Gas Division of the Railroad Commis-

Requests for a public hearing from persons who can show they are adversely affected, or requests for further information concerning any

aspect of the application should be submitted in writing, within fifteen days of publication, to the Underground Injection Control Section, Oil and Gas Division, Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Texas 78711 (Telephone 512/445-1373).

#### Grain Warehouse Theft **Draws Prison Term**

AUSTIN- A Williamson County grain warehouse operator has been sentenced to twelve years in prison for stealing 7.5 million pounds of grain stored in his Granger, Texas, warehouse.

Victor Marek, 41, was sentenced Sept. 26 in Georgetown after a jury convicted him of illegally selling grain belonging to local farmers and the federal government. His wife, Modene, now faces trial on similar charges.

About 60 farmers shared

Slaton Plaza Phone 828-6241

with the federal grain reserve program a loss of about \$700,000 worth of wheat and grain sorghum stored at the Granger facility and in a grain warehouse in Bartlett, Texas. partly owned by Marek. Some individual farmers lost grain worth as much as \$13,000, and the federal program absorbed a loss of

nearly \$400,000. The theft was discovered on Sept. 13, 1982, by an examiner from the U.S. Department of Agriculture, who notified Texas Depart-

ment of Agriculture grain warehouse inspectors. Marek's warehouse license was immediately suspended as the TDA inspectors audited the warehouse.

"Stealing grain from an elevator is simply stealing a farmer's livelihood," said Texas Agriculture Commissioner Jim Hightower. "Often a farmer will have a whole year's crop or even more stored in a grain warehouse. and a theft can literally ruin him. The Texas Department of Agriculture is committed to an aggressive inspection program to ensure that farmers are protected from

unscrupulous operators." The TDA licenses about 800 grain storage facilities in the state, capable of storing 465 million bushels of grain. The department inspects those facilities regularly to ensure accurate weighing and bookkeeping and compliance with state and federal warehouse laws.

### Decline in Educational Achievement Blamed on Unstructured Learning

EDITOR'S NOTE: This is the third in a series of articles on public education written by Betty Pyle, president of the Texas Classroom Teachers Association. This week's article addresses quality education.

> BY BETTY PYLE President, Texas Classroom

familiar with the alarming statistics that show massive declines in student achievement test scores and the great increase in the number of functional illiterates that are graduated each year from our public schools.

Not since the USSR an outcry about

quality of public education. Most of the outery has been the result of the public's growing awareness of the substantial drops in educational achievement since the gains made in the wake of the Sputnik challenge.

The decline in educational achievement in the past 10-15 years can be directly traced to trends in our public schools that have replaced disciplined learning. These trends have resulted in lowered standards of performance expected of our students.

Study after study has

shown that we need to reinvent the wheel of public education and to stress the importance of direct, structured instruction by skilled professionals. Another valuable point made by these studies is that the practices of many school districts have a significant effect on student performance and social pro-

Several practices that have become widespread in school districts across Texas are directly responsible for the lowering of student performance and teacher standards in the past 10-15 years. These practices include:

\*Allowing students to avoid tough courses by taking electives that will make no difference in their education or their lives outside of school;

\*Reducing the amount of

spends learning:

\*Inflating grades giving students. high marks for mediocre work; \* Socially promoting stu-

\* Following trends toward so called "Innovative" programs while failing to emphasize the "basics" -- reading, writing and math;

\* Emphasizing extracurricular activities, often to the detriment of academic pursuits;

\* Failing to teach "Survival" skills, such as how to balance a checkbook.

Several studies have outlined programs that are designed to improve the quality of education. The most widely publicized, a study by the National Commission on cellence in Education, calls the nation's educational system "a rising tide of mediocrity" that is leaving "our nation at difference. risk.

If the outcry against the public school system is serious, then lawmakers, administrators, school school boards, teachers, parents and students must work together to negative reverse the trends in learning. We must take a close, hard look at trends that emphasize innovation while discouraging basic survival skills. Curricula must be closely examined, particularly as related to its overall effect on education and learning of the basics. We must realize the consequences of eliminating certain requirements in education. Our children must be prepared to five in an ever-changing world -- a world that places greater emphasis on technology, math, science, language, communication

skills, history and politics. This is not to say that we shouldn't be sensitive to the needs of our children, it simply means that we should be the leaders, the ones to set priorities and to distinguish between what students want to know and what they need to know.

Most important, the highest standards of education should be set and our children should be taught to expect to meet those standards. All of us need to believe what the recent studies have told us--that schools can make a difference. Only then will they truly make a

NOTICE OF INTENTION To Engage In Weather Modification Operations Within the State of Texas

Prepared: September 19, 1983 NOTICE IS HEREBY GIVEN THAT the Colorado River Municipal Water District of P.O. Box 869, Big Spring, Texas 79720, holder of Weather Modification License No. 83-1 of the State of Texas, has applied for a permit to engage in an operation to change or attempt to change by artificial methods the natural development of appropriate atmospheric cloud forms or precipitation forms which occur in the troposphere. An application has been filed with the Texas Department of Water Resources for consideration to conduct a weather modification operation to increase precipitation within the area described and

by the method stated below 1. The equipment, materials and methods to be used to conduct this operation include: a weather radar set, meterological analysis information, a twin-engine aircraft, air-to-ground radio communications, and wing-mounted racks to hold silver iodide flares; a meterologist directs the aircraft to a radar-selected cloud to begin

cloud-seeding at cloud base to increase rainfall in the target area. 2. The area intended to be affected by the operation is the target area which is bounded by a line beginning at a point of origin at Big Spring, Texas and running along Highway 87 in a northwesterly direction to Lamesa, thence north-northwest on Highway 87 to the north border of Dawson County, thence east along the northern boundary lines of Dawson, Borden, and Scurry Counties to Highway 84; thence southeast along Highway 84 to Roscoe, in Nolan County; thence south-southwest to Maryneal; thence southwest to Silver in Coke County: thence south-southwest to Highway 87 to a point approximately 13 miles northwest of Sterling City; thence northwest along

Highway 87 to the point of origin at Big Spring, Texas. 3. The area in which the equipment is to be operated includes the operational area and the target area. The operational area is the landarea between an outer boundary which is defined by a line that encompasses the block of counties of Lynn, Garza, Kent, Fisher, Nolan, Coke, Sterling, Glasscock, Martin and Dawson, and an inner boundary which is that of the target area.

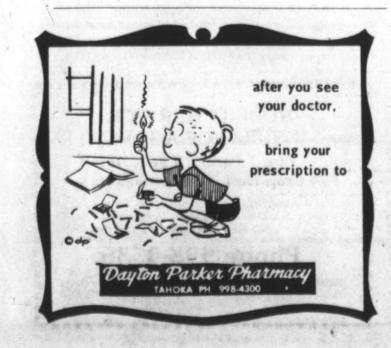

4. The persons approved by the Department to be in control and in charge of the operation are Ray Pat Jones and Owen H. Ivie, P.E. 5. The period of the operation is expected to be March 1 through

November 30 during the years 1984, 1985, 1986 and 1987. 6. The initial Texas Weather Modification License was issued to the Colorado River Municipal Water District Dec. 18, 1974, and has been renewed each year.

The Comission shall, if requested by at least 25 persons, hold a public hearing in the area where the operation is to be conducted prior to the issuance of the permit. No public hearing will be held on this application unless a request for a hearing is made within 20 days following the date of publication of the first of three consecutive weekly notices of intention to engage in weather modification operations.

Request for further information concerning any aspect of the application should be submitted in writing to the Weather and Climate Section, Texas Department of Water Resources, P.O. Box 13087, Capitol Station, Austin, Texas 78711. Telephone (512) 475-6318.

Requests for a public hearing should be submitted in writing to the General Counsel, Texas Department of Water Resources, P.O. Box 13087, Captitol Station, Austin, Texas 78711. Telephone (512)

#### **Lynn County** Receives **Tourist Dollars**

Lynn County last year received an estimated \$6.0 million in spending by U.S. travelers, a national study commissioned by the Texas Tourist Development Agency has disclosed.

Its rate of growth, 18 percent over 1981 receipts, was nine percent over that for the state as a whole.

The travel study, done by the U.S. Travel Data Center in Washington, D. C., found that the county last year had 81 travelrelated jobs, with a payroll estimated at \$866 thousand.

It also realized an estimated \$27 thousand in local and county taxes paid by travelers.

The study measures the economic impact of all overnight trips and day trips at least 100 miles from home. Thus it includes spending by Texans as well as by out-of-state

For the state as a whole 1982 travel meant \$13.7 billion to the Texas economy

A separate study for the Texas Tourist Development Agency found that nine percent of last year's 35.4 million visitors, an estimated three million persons, came from outside the United States. Nearly half were from

#### MAKING FAMILY LIFE MORE FUN

The next time you score a basket...or serve an ace... the chances are good you'll be doing it on an asphalt

According to the National Asphalt Pavement Association, many experts point out that the fitness boom in America would be barely fits of Hot Mix Asphalt. Consider this: we bike and run on asphalt pathways, play tennis and handball on asphalt courts, drive golf carts over attractive asphalt cartways, and our children play on asphalt playgrounds

Asphalt has become an indispensable surface for our recreation activities because it is inexpensive and easy to construct and maintain.

If you, or a member of your family, has fallen out of shape, the chances are ing, skating or jumping, it will be on asphalt. It's not

#### New method tells age by using teeth

COLLEGE STATION-A new method using teeth to accurately determine the age of victims from natural disasters. fires or murders where bones are the only clues to identification is being developed at Texas A&M University.

Scientists have long known that teeth are held in their socket by a bony substance called cementum, explains veterinary scientist Dr. George

After a tooth first comes in. two new layers of cementum are added each year until the tooth is pulled or the person dies, said Stott. The two layers are known as an annulation, and each annulation leaves a ring like those on a tree trunk At Texas A&M, Stott and

veterinary student Jay Naylor are devising a technique for staining thin sections of teeth so that the annulation rings are distinct enough to count. From that count, pathologists can determine the individual's age. Stott said his research, sup-

ported by a two-year \$118,087 grant from the National Institute of Dental Research, may prove to be of major assistance in police and fire investigations where victims are unidentified. If the method is perfected, he

said, pathologists may be able to pinpoint the victim's age at death with just a half-dozen samples from any tooth.

The white dwarf star A.C.70 8247 is about 36 million times as dense as water. One cubic inch of matter from this star would weigh 650
