SPECIAL RECOGNITION—Ruth Nevills Sparks of Lubbock was honored at the Chamber of Commerce banquet for her contributions to the Tahoka Cemetery Board and museum. Shown with Mrs. Sparks is cartoonist Ace Reid, principal speaker at the banquet. (LYNN COUNTY NEWS PHOTO)

Miller Honored As Top Citizen

BY DEAN BARTLEY

Tahoka's outstanding citizen was announced at the annual Chamber of Commerce banquet Saturday night in the Tahoka School Cafeteria.

J.T. Miller, who is active in Tahoka affairs, was recipient of the prestigious "Citizen of the Year" award presented by Mayor Mel Leslie.

Ace Reid, Kerrville cartoonist, kept the crowd of approximately 300 laughing with storytelling and told the group that he had a hard time getting to the airport because the old cat was having kittens in the front seat of my Chrysler.

The speaker also told the crowd how his cartoon character "Jake" was born and the many struggles and failures (questioned by some persons) he had in the early years.

Hill Recognized

Special recognition was made to the late Frank Hill who was editor of the Lynn County News for many years and who was instrumental in organizing the city museum, and to Ruth Sparks of Lubbock, who gave a half section of land to the Tahoka Cemetery Board in memory of her parents and sister as well as various items to the museum.

Leslie, in recognition to Mrs. Sparks said, "I have been in city government for many years and I

have never seen this happen in all these years."

Charlie Louder, who has been the office of Chamber president for several months after the resignation of Tom Marrier earlier in the year, had the crowd laughing with a mock "installation" of himself to the office.

Leslie, in making the presentation to Miller, observed that Miller has been on the Tahoka Volunteer Fire Dept. for many years where he now serves as fire chief. He also praised Miller for his voluntary service in "cloud watching" during the tornado season. Miller organized the

"Firemens Fish Fry"; with proceeds from this yearly event being used for an ambulance, "jaws of life" and other needed equipment. He served on the Tahoka School Board and presently serves as a "greeter" in the First Baptist Church and a director of the Lynn County Livestock Assn. Various other deeds of community service that Miller does was noted by Leslie.

Directors of the chamber and out-of-town guests also were recognized. Dinner music was provided by the Soundstorm, a group which played mostly up-beat tunes.

Historical Society Elects New Officers

Jay Dee House was elected president of the Tahoka Historical Society in a meeting of the organization last Thursday.

Other officers elected were Beth Huffaker, 1st vice president; Nick Summitt, 2nd vice president; and Melody Dawes, secretary-treasurer.

It was reported that a group of architectural students from Texas Tech University have been studying renovation plans at the Keltner Hotel the last few months. The assignment was given to them by Willard B. Robinson, professor of architecture at Tech.

Also, Cliff Keho, professor of Architectural Engineering at Tech, has been in Tahoka to look over the structure of the building.

The hotel renovation is a project of the Historical Society.

Dean Rogers, assistant director for health facilities planning and development at Tech, is the architect for the hotel renovation.

New directors elected at the meeting for one year terms were Joe Hays, Barry Weaver, Jimmy Huckabee and Lenda Wood. Hold-over directors are House, Jim Solomon, Mildred Abbe, Beth Huffaker, Dean Bartley, Nadine Dunlap, Melody

Phone Rate Position Explained To City

The position of General Telephone Company in requesting new rate increases was explained to members of Tahoka City Council at the council's regular meeting Monday night. Appearing to explain why the company thinks it should raise rates on the average about 50 percent for both business and residential customers was district manager O.D. Hearn of Brownfield.

The council listened to Hearn, but took no action, nor was any kind of action requested. Action on the company's rate request will be by the state Public Utilities Commission.

Janie Ramirez appeared to question the council about the lack of flashing lights in the school zone on U.S. 380 west. Mayor Meldon Leslie explained that the city has requested that the state install such controls calling for lower speed in that vicinity, but that the state has so far not done so. He said the state highway department officials have promised

Dawes, Nick Summitt, Dalton Wood, Ann Roberts, and Richard White.

to survey the situation.

City Manager Carl Reynolds reported to the group about a suit filed by First National Bank of Tahoka against the Lynn County Tax Appraisal District in regard to values set on bank stock. The city and other entities already have been paid the taxes assessed, but the bank suit seeks to have that portion of their taxes reimbursed.

Two applications for housing renovation assistance under the Community Development Block Grant program were approved by the council.

All council members were present. It was noted that the three members whose terms expire — Tom Cooper, Jim Solomon and Richard White — have all filed for re-election.

Crime Line Statistics Reported

Since the Lynn County Crime Line was started up in May of 1982, calls to the Crime Line, 998-5145, have resulted in arrests of 20 suspects, Sheriff Stanley Krause told a Crime Line quarterly meeting Monday night.

He said 14 offenses have been cleared as a direct result of Crime Line calls, 37 code numbers assigned to callers, and nine rewards, totaling \$1,800 actually paid.

The calls also have resulted in recovery of \$13,900 in stolen property and confiscation of \$3,000 worth of narcotics.

Winston Wharton, chairman of the Crime Line board, appointed a committee to nominate new directors to replace six whose terms are to expire. The election will be in May.

Tahoka Chamberettes To Meet Tuesday Noon

The Tahoka Chamberettes will have their regular monthly meeting Tuesday, March 13, at noon in the SPS Reddy Room.

Business on the agenda includes planning the Rotary farmers dinner set for March 15, and discussing the Spring Style Show scheduled in April.

Members and guests are invited to bring a lunch and attend the meeting.

School Board Contest Due

Three persons have signed up for two available places on the board of trustees of Tahoka Independent School District, assuring that there will be a contest in the race.

The two incumbents, Jim Wells and J.E. Nance Jr., have signed for re-election, and Tom Ellis also has joined the race.

No other candidates had signed at press time for the school board, although a few hours remained Wednesday on the deadline for signing up for both this election and the city election.

At that time, all three incumbents whose city council terms are scheduled to expire had signed for re-election, and no others had signed. The city candidates are Jim Solomon, Tom Cooper and Richard White.

A complete list of candidates for city and school board elections in all four Lynn County towns will be published next week.

Tree Trimmings Not Good For City Dumpsters

Tree trimmings, grass scalplings, rose bush clippings and tumbleweeds are hard on city equipment and should not be placed in dumpsters, City Manager Carl Reynolds reminded Tahoka residents this week.

"The grass scalped off the lawn has too much dirt in it and makes the load too heavy for the equipment," he said, adding that the other items mentioned just foul up the equipment.

"If people will just stack up these things in the alleys near the dumpsters — but leave the alleys clear for vehicles — the city will sooner or later pick up the limbs and such," he said.

Large quantities of tree limbs and trash should be carried to the dumpground by the property owner, he said. The dumpground is open from 9 a.m. to 6 p.m. Monday through Friday, and from 9 to 5 on Saturday. It is closed Sundays.

Jail Crowded During Week

Tahoka police were contacted by the Dairy Queen on Monday who reported a suspicious-looking man was causing trouble and wanted him checked out. The suspect was booked and jailed at Lynn Co. Sheriff's Office for disorderly conduct.

He was just one of 10 persons jailed here during a busy week for jailers. Three persons were jailed for public intoxication, and one each for driving while intoxicated and no drivers license, carrying a prohibited weapon, reckless conduct, criminal mischief, theft by taking, and DWI plus no drivers license and no proof of liability insurance.

Police answered a couple of disturbance calls on Friday evening that included a fight that occurred at 1:20 a.m. on the east side of the courthouse and another incident where a resident reported he heard gun shots in the vicinity of Ave. F and S. 4th.

Two tickets were issued during the past week including one for an expired inspection sticker and one

for no proof of liability insurance.

No new major crimes were reported during the week, but Sheriff Stanley Krause noted that Lubbock and Hockley counties had 11 burglaries of rural homes during the last few days. He cautioned Lynn residents to be alert for any suspicious activities near their homes or near homes of persons living around them.

Tahoka Has New Diesel School Bus

Tahoka has been chosen as the first school in Texas in which to test a 6.9 liter diesel engine in a 1984 International school bus.

All expenditures, fuel mileage, and other criteria will be furnished at the end of the testing period (approximately six months) to the State Purchasing and General Services Commission in Austin for their consideration.

International Bus Company, the nation's largest supplier of school buses, hopes to phase out all gasoline engines and replace them with diesel engines.

The diesel engine is being given to the school to test and keep at no additional cost to the school district.

WOODWORK

BY DALTON

STRESS, says an article in this week's U.S. News and World Report, can be good for many persons; namely those who view such situations as a challenge. Those who rise to the challenge feel better about themselves for meeting the crisis, said a psychologist.

When a person can't cope with a crisis situation, though, stress is bad for them, she said. She also noted that probably 70 percent of the ailments people go to doctors about are caused by stress or lifestyle.

"A good rule of thumb is that people need enough stimulation to make them feel involved and give them the chance to master something," she said. "The more people feel they can do, the more capable they become of doing."

I've heard in the past the say-

ing that if you want something done, give the job to the busiest person you can find. There's much truth in that.

The Apostle Paul, a noted early-day songwriter, once said that we grow through adversity, which caused one guy I know to grumble "I oughtta be nine feet tall, then." So I guess when we face a real emergency, we ought to try to use our wits. It's easier though, to just throw up both hands and scream.

Why "songwriter"? Well, actually, I can think of only one song which Paul wrote, but it was pretty popular: "Gentile on My Mind."

MOTHER TO small son at table: "Twenty years from now you'll be telling some girl what a great cook your mother was—now eat your dinner."

JIM SOLOMON and CLINT WALKER

SPOTLIGHT ON BUSINESS: Agency Goes Forward With New Name

BY DEAN BARTLEY
The Clint Walker Insurance Agency, a name familiar to Lynn County residents for 30 years, has assumed the new name of "Walker and Solomon Insurance Agency, Inc."

Jim Solomon, who joined the firm in 1976, is a partner in the business. "If it can be insured, we can insure it," Clint said. "In the beginning I wrote the usual fire, life and casualty policies, but now we can insure anything from airplanes to \$15,000 watches to miniature possessions and this is unique in small town agencies."

"We have also expanded the local marketing territory to include all of Texas and parts of New Mexico and Kansas," stated Jim. The business was started in 1953 at 1615 Ave. J., presently the Lynn County Farm Bureau Office.

Bookkeeping Job
Clint's wife, the former Lottie Jo Townes, daughter

of a Tahoka pioneer doctor and a former high school English teacher in the local school system, became the bookkeeper of the business in 1958 and has remained in that position.

One year later they moved the agency directly across the street into the office building now occupied by the Lynn County Appraisal District.

As the business grew Mrs. Eva Renfro was employed as secretary, a position she has held for 19 years.

In 1979 the agency was moved into the oldest brick building in the county, (according to Lynn County historians.) The building which was built by J.E. Keltner in 1911, was renovated into a modern office building.

Joins Firm
In 1981 Jim's wife, Andra, was employed as another secretary.

Before entering the insurance business Clint was administrator of the

United States government office of the Agricultural Adjustment Act (AAA) with a later name change to Production Marketing Association (PMA) now known as the ASCS office.

Through the years Clint has been very active in civic affairs. He has been "the voice" that announces the THS football games for many years. He is a director of the Tahoka First National Bank; served on the Tahoka School Board two terms; served as chairman of the administrative board of the First United Methodist Church; served on the Lynn County Hospital board; a member of the Chamber of Commerce, serving as director, secretary and president; served on the Canadian River Municipal Water Board; served on the Education Service Center Board for 13 years; appointed to the Brazos River Authority Board by Gov. Dolph Briscoe and past president of T-Bar Country Club.

Both Clint and Jim admit their wives have been understanding and helpful to them in achieving these goals.

Clint and Lottie have one son, Townes, who lives in Abilene.

Jim and Andra have two children, Terri and Wesley.

Little League

Also he was instrumental in getting the franchise for the Little League Club. "We set off a block of land, planted grass and had the field prepared by the time we actually got the franchise," Clint said. These many deeds and various others prompted the Chamber of Commerce to name him the first "Man of the Year" in 1970.

"One of the nicest honors I've had was the year the THS annual was dedicated to me," Clint stated. "It was the only time I can remember being speechless."

Jim came to Tahoka from Burley, Idaho after having married a local girl, the former Andra Carroll. He graduated from the University of Connecticut.

He was an officer in the United States Air Force from 1969-1976. He served as a fighter pilot throughout the continental United States and the Orient. He also served as an instructor pilot in fighter weaponry school in air-to-air combat.

After coming to Tahoka, Jim also has been active in civic matters. Presently he is a city councilman and mayor pro-tem. He is a director of the Tahoka Historical Society and has been a director of the Chamber of Commerce, president of the Rotary and regional director-at-large of the Boy Scouts.

In 1978 he was named Outstanding National Jaycee of America. In 1980 the Chamber of Commerce named him "Man of the Year." Also he has served on the City-Council library board.

Both Clint and Jim admit their wives have been understanding and helpful to them in achieving these goals.

Clint and Lottie have one son, Townes, who lives in Abilene.

Jim and Andra have two children, Terri and Wesley.

MRS. MICHAEL STEWART nee Jill Mantooth

Jill Mantooth-Michael Stewart Are Married In Levelland

Jill Loree Mantooth became the bride of Michael Shawn Stewart in a candlelight ceremony Saturday, March 10, in the First Baptist Church of Levelland. The Rev. Ernest Stewart, Baptist minister of Garden City, Kan., grandfather of the groom, officiated at the 7 p.m. double ring ceremony.

The bride is the daughter of Mr. and Mrs. Ricky P. Mantooth of Ackerly, formerly of New Home, and the bridegroom is the son of Mrs. Brenda Stewart of Houston and the late Ernest Stewart.

Given in marriage by her parents, the bride was escorted to the altar by her father. She wore a white floor length gown of bridal satin accented by silk floss Chantilly, Venise and French Alencon lace. The bodice featured a high neckline collared by stand up Alencon lace applique on the silk illusion yoke. A wide capelet of silk floss chantilly was secured to the yoke by Alencon lace applique and extended over the shoulders to the waist in front and back.

The fitted sleeves of silk illusion were adorned with Alencon lace applique. The controlled A-line skirt of bridal satin flowed into a wide circular cathedral train applique and edged

in Alencon lace. To complete her ensemble, the bride wore a veil of silk illusion caught to a halo headpiece featuring miniature white flowers of Venise and white silk accented by seed pearls. The bridal bouquet was a cascade of stephanotis and silk flowers in dusty rose, gray and white atop a pearl covered Bible used in her parents' wedding.

In keeping with tradition, she carried her great-grandmother's wedding ring and a handkerchief of the groom's great-grandmother. Something new was her dress; something borrowed, her grandmother's jewelry; something blue was the bridal garter worn by her mother as a bride.

Matron of honor was Julie Pumpfrey of Lubbock, sister of the bride. Bridesmaid was Melayne Hendley of Brownfield and bridesmatrons were Paige Harston of Tahoka and Danna Mantooth, sister-in-law of the bride, of San Angelo. Melinda

CANCER ANSWER LINE

American Cancer Society
M. D. Anderson Hospital and Tumor Institute

QUESTION: What does difficulty in swallowing and hoarseness indicate?

ANSWERline: These conditions are among the warning signals of cancer. However, they are not necessarily caused by cancer. Only a doctor can make the proper diagnosis by examining one's throat.

QUESTION: What is the best test for cancer?

ANSWERline: There is no "best" test. However, microscopic examination of tissue from the suspicious area is the definitive test for cancer. It is called a biopsy. The diagnosis is made by a pathologist who has been trained to recognize abnormal cells. There are certain other tests that can help to uncover malignancy, such as the blood stool test.

QUESTION: What are the differences between "benign" and "malignant" tumors?

ANSWERline: Although a "benign" tumor may grow in size, it will not spread to other parts of the body. On the other hand, a "malignant" tumor will grow in size and sooner or later spread to other parts of the body through the lymph and/or circulatory systems. A "malignant" tumor generally is called a cancer.

QUESTION: What is meant by early diagnosis of cancer? Does this refer to the age of a person?

ANSWERline: No. It refers to the age of the cancer. An early cancer is one that has just begun to grow and has not yet spread. As time passes, the cancer becomes bigger and spreads to other parts of the body, and it becomes more difficult to control or cure. This is why early detection is of the utmost importance.

QUESTION: Is a teenager of about 15 too young for a cancer checkup?

ANSWERline: Regular health checkups should be a part of everyone's routine. Of course, cancer is not as prevalent among the young as the older people. There are safeguards one can observe at any age. These include not smoking, avoiding excessive sunlight, avoiding heavy consumption of fatty foods, and practicing breast self-examination.

QUESTION: What is a Pap test and how did it get its name?

ANSWERline: The Pap test analyzes the cells normally shed in a woman's womb for signs of abnormality that might indicate malignancy. It is named for the great physician and scientist who developed it, the late George Papanicolaou, M.D.

QUESTION: What is Hodgkin's disease and what are its symptoms?

ANSWERline: Hodgkin's disease is a cancer of the lymphatic system. It was named after Thomas Hodgkin, an English physician who first described it in 1832. About 56 percent of the cases of Hodgkin's disease occur between the ages of 20 and 40; less than 10 percent before the age of 10 and less than 10 percent after 60. More than 7,000 Americans develop Hodgkin's disease each year; about 2,600 die from it annually. The most common first sign of Hodgkin's disease is a swollen lymph gland, usually in the neck, less often in an armpit or the groin. Infection or a disease other than cancer also can cause a lymph gland to become enlarged. If the condition lasts three weeks or

WWII Group Seeks Lynn Veterans

The South Plains basha of the China-Burma-India Veterans Assn. will host the Texas State Convention of the organization in Lubbock April 13-14-15 at the Holiday Inn, S. Loop 289 and Ave. H.

Approximately 150 Texas CBIA veterans are expected for this occasion, according to Miles Elson, commander of the South Plains chapter of veterans who served in that so-called "forgotten theater of operations" during World War II. Elson, a Lubbock resident who is also manager of the Tahoka Dairy Queen, said any WWII veteran who served in that area for at least 30 days is eligible to join.

"We would like to get in touch with any Lynn County veterans who qualify for membership," Elson said, urging that anyone who does qualify contact him at the Tahoka Dairy Queen.

The Soundstorm, a band which includes two Lynn County residents, will play for the convention at Holiday Inn on April 14.

State Program Informs Taxpayers

Ron Patterson, executive director of the State Property Tax Board, announced recently a statewide effort to inform Texas property owners of their rights, remedies, responsibilities as taxpayers.

"The first priority for property owners is to file rendition and applications for tax relief before May 1 this year," Patterson said.

Patterson noted that taxpayers may file all exemption applications and property rendition forms with the central appraisal district office. State law also allows one-time applications for homestead exemptions, disabled veterans' exemptions and open-space land valuation.

However, he said, persons whose property is located in more than one county appraisal district have an additional responsibility. These property

owners may be required to file for exemptions and productivity valuation in each appraisal district in which their property is located. Failure to do so could result in one or more taxing units taxing the property on its full market value.

Applications must be filed in 1984, Patterson said, by property owners who have not previously received tax relief on their present homestead or land.

Agricultural (l-d) and open-space land (l-d-l) valuations are available to property owners using land for farming or ranching purposes. Such land may be taxed based on productivity rather than market value.

Certain property owners are required to render their property. "Any person who owns or manages income-producing personal pro-

erty on Jan. 1 is required by state law to file a rendition statement with the appropriate appraisal district," Patterson said.

"The property tax is the primary source of local government revenue in Texas," Patterson noted. "It will generate about \$8 billion this year to help fund public schools, cities, counties and special districts."

"We urge all property owners to become familiar with the tax process, to file renditions and to apply for all exemptions or other tax relief to which they are entitled," Patterson concluded.

STRICKLAND RETIRES FROM PCA—Alton Strickland of Lubbock, left, retired as president of the Lubbock Production Credit Assn. after 36 years of service. New president is Arnold M. Brown, also of Lubbock.

Strickland Retires As PCA President

Alton Strickland has retired as president of Lubbock Production Credit Assn. having 36 years of service with the Farm Credit System and 33 of those years as president of the Lubbock Assn., he has the longest tenure as president of any CEO in the Texas District. Strickland and his wife, Gerry, have one son, Bill of Irving, and one daughter, Jerry Rogers of Lubbock. They also have two grandsons.

Strickland was named one of the five top agriculture leaders in a 23-county area at the First Annual Agricultural Appreciation Awards Banquet, sponsored by the Agricultural Committee of the Lubbock Chamber of Commerce.

Replacing Strickland is Arnold M. Brown, who has been employed by Lubbock PCA in various capacities since 1966.

He is a native of Nolan and has a B.S. degree in agricultural education from Texas Tech University, has done graduate work at Hardin Simmons University and served in the U.S. Army in Korea from 1951 to 1953.

Before joining Farm Credit, he was a vocational agriculture teacher for seven years.

The new CEO is a past director of Plains Cotton Growers, past secretary of Water, Inc. and was vice president of the Levelland School Board. He also served as past director and president of the Levelland noon Lions Club and is a member of the Lubbock Agriculture Club.

He and his wife, Helen, have two daughters, Cynthia McGregor and Nancy Brashear, and three grandchildren. The couple are members of Bacon Heights Baptist Church in Lubbock.

Wally's business is regulated ... so is ours.

Wally makes and sells 25¢ milk shakes. If his friends ask why his price is 25¢, Wally explains he has to buy milk, ice cream, syrup, cups and straws ... and needs to make some money, too.

If the costs of making milk shakes should go up too much, Wally figures he should raise his price. Otherwise, he may as well get out of the business. But before Wally increases his price, he checks with his mother to see if she agrees with his decision.

Wally believes he makes good milk shakes and sells them at a fair price. He hopes his mother and his customers will

understand that some costs are beyond his control.

Many costs are reflected in the prices of products and services — at Wally's milk shake stand or any other business, including Southwestern Public Service Company's business of making and delivering electricity.

Because SPS is a public utility, our business and our prices are government regulated.

Wally works hard to satisfy his customers. Like Wally, we at Southwestern Public Service Company are working to justify your trust.

Vitamin Supplements Not Needed— If you get less than the recommended allowance for a vitamin for a few days, that will not create a vitamin deficiency, says a food and nutrition specialist. Even the water-soluble B vitamins and vitamin C are stored in the body to some extent. For example, it takes 90 days without vitamin C before any clinical signs of a deficiency will appear. The best way to improve your nutrition is to invest your time and money in a balanced diet rather than vitamin supplements. In addition to the unnecessary costs of vitamins, there are also dangers associated with overdosing on them.

NEWS OF SCIENCE

Dioxin was a trace contaminant in Agent Orange, the defoliant prescribed and used by the military in the Vietnam War, from 1965 to 1970, to protect soldiers from enemy ambush. There is little likelihood, based on overwhelming scientific evidence, that Agent Orange could have caused the health conditions some veterans have described. Veterans who believe they are ill should seek medical care. They have been through a difficult experience, a tough, demanding duty, which fortunately more Americans are beginning to appreciate.

An American Medical Association review of available research has concluded that there is no convincing support for allegations that dioxin causes cancer, birth defects or other reproductive difficulties in humans.

PCA Completes 50 Years Of Service To Agriculture

Lubbock Production Credit Association will hold its annual stockholders meeting Friday, March 9, in the Exhibit Hall of the Lubbock Memorial Civic Center at 10 a.m. Registration begins at 9 a.m. according to Association President Arnold Brown.

Activities of the meeting will center around the celebration of the PCA's 50th anniversary. In honor of the occasion, each class B stockholder

attending the meeting will receive a \$50 bill.

Other activities will include a business session chaired by Association Chairman Cleve Littlepage of Tahoka.

Elections will be held to fill two board positions according to Daniel Thomas of Tahoka, chairman of the nominating committee.

A noon meal will be served following the meeting.

Created by the Farm Credit Act of 1933, PCAs were established to provide for the short and intermediate term credit needs of agriculture during the Great Depression.

Lubbock PCA is one of 29 member-owned Production Credit Associations in Texas. Collectively they serve more than 15,600 of the state's agricultural producers. Last year almost \$2 billion was loaned through Texas PCAs.

During 1983, Lubbock Production Credit Assn. loaned more than \$93.7 million to 1,071 member-borrowers in Cochran, Crosby, Gains, Garza, Hockley, Lubbock, Lynn, Terry and Yoakum counties.

Nationwide there are 420 PCAs with more than

\$19 billion in loan volume. Nationally they serve the credit needs of more than 341,000 farmers and ranchers.

One-Third of Texas Counties Eligible For Disaster Loans

At the end of January, 87 of the state's 254 counties were eligible for the USDA-Farmers Home Administration (FmHA) weather disaster loans, the agency's State Director, J. Lynn Futch, said.

Most were designated because of 1983's severe drought and other adverse weather conditions, such as the arctic freeze in the Rio Grandé Valley. Farmers with qualifying losses in the designated counties are eligible for low-interest loans for up to 80 percent of their weather-related losses.

Futch said that by mid-January, 222 weather emergency loans, totaling \$15.6 million, had been made since the beginning of the fiscal year on Oct. 1, 1983, and added, "Judging by past history, the bulk of our loan-making activity lies ahead of us. For this reason, I urge farmers who believe they are eligible to make application as soon as possible to avoid the last-minute rush in the FmHA county offices."

Number of minorities in graduate school increase at A&M

Texas A&M University has admitted 113 new black and Hispanic students for graduate studies this fall and 12 other minority students will enter the university's two medical programs, announced President Frank E. Vandiver.

Dr. Vandiver said Texas A&M's gains in minority students pursuing advanced and professional degrees are even better than the university's administration had predicted.

"We are greatly encouraged by the success we are having this year attracting highly qualified minority students to our programs beyond the baccalaureate level," he said. "This, of course, did not just happen. We've had a lot of people working hard to make it happen."

Lynn County Merchants Appreciate Your Business

Requirements for maintenance of land committed to acreage conservation reserve (ACR) under 1984 farm programs, thanks to recent changes, now are much more reasonable, say officials of Plains Cotton Growers, Inc., Lubbock.

They still are not precisely what every producer would like, says Donald Johnson, PCG Executive Vice President, "but at least they are something producers can live with, generally, so they shouldn't be much of a factor in determining the extent of program participation."

But the drive for increased soil and water conservation "isn't about to go away," Johnson cautions.

The much more stringent and often ill-conceived original rules, he believes, were the direct result of increased attention in recent years to the subject of soil and water conservation by the public and by Congress. As evidence, he cites several bills that were introduced in 1983 in both the House and Senate, each aimed at reducing wind and water erosion through more effective conservation practices.

"Some of these measures are still under Congressional consideration," Johnson notes, "and it's a good bet that conservation also will become an issue in the debate over a new farm law in 1984 and 1985."

Typifying the Washington approach to conservation problems is Senate bill 663, called the "sod-buster" bill, which easily cleared the Senate floor on a voice vote. As reported from the Agriculture Committee, the bill would have made accepted conservation practices a prerequisite to farm program participation on any farm where "fragile" land was in production. Farm groups objected, however, and an amendment was adopted on the floor limiting denial of benefits to crops actually planted on fragile land.

In the House, the Agriculture Committee last year approved the authorization of \$10.5 million over 5 years to establish 12 organic farming research farms, and a companion bill was introduced in the Senate. Proponents of organic farming say practices developed in this research will support better long-term conservation of soil and water than many currently approved practices.

Also, the Agriculture Subcommittee on Conservation, Credit and Rural Development plans to hold hearings this year on several other soil conservation bills.

According to the Texas Office of State-Federal Relations, Texas leads the nation in Federal funds received for soil conservation cost-sharing programs, in land subject to erosion, and in land that would be affected by Senate bill 663.

All of which points up the fact that Texas has a king-size interest in soil conservation and in related legislation, Johnson says, adding "It is especially important that we guard against getting farm program benefits tied to specific conservation practices that might or might not be practical in our area."

The first child of a President to be born in the White House was Esther Cleveland, born in 1893 to President Grover Cleveland and his wife, Frances.

Pallbearers were Talmage King, Raymond Pearce, Joe Caraway, Shorty Fallin, Lee Bland, J.W. Phillips, Wayland Craig and Roger Henry.

Reinaldo Sanchez

Mass was said for Reinaldo Sanchez, 49, of Wilson at 3 p.m. Tuesday, March 6, in Blessed Sacrament Catholic Church with the Rev. Glenn

Rosendale, pastor, officiating.

Burial was in the Tahoka Cemetery under the direction of White Funeral Home of Tahoka.

He died a few minutes before midnight Sunday in South Park Hospital in Lubbock after a brief illness.

He was born in Pearsall Jan. 23, 1935. The farm laborer moved to Lynn County in 1959 from Pearsall. He was a member of the Catholic Church.

Survivors include his mother, Tomasa Sanchez of Wilson; and two sisters Maria S. Frausto of Wilson and Manuella Rodriguez of San Angelo.

Wade Gass

Services for Wade Gass, 20, of Plains were held at 2 p.m. Monday, March 5, in the First Baptist Church of Plains with the Rev. Glen Harlin, pastor, officiating. Burial was in Plains Cemetery. He was killed Saturday in a one-car accident 13 miles west of Brownfield on U.S. 380.

He was born Dec. 17, 1963, in Lubbock, he was raised in Plains where he attended school. He attended Texas Tech University and was a self-employed insurance agent.

Survivors include his father, J.R. of Plains; his mother, Nadine Smith of Houston; two sisters, Debra Jan Chandler of Odessa and Shauna of Seminole; two brothers, Jess R. of Plains and Michael B. of Dallas; and his grandparents, Mr. and Mrs. Fred Gass of Lubbock and Mrs. Inez Barker of Lubbock.

He was the great-nephew of Mrs. Jewel Mayfield of New Home. Dick and Radene Turner attended the services.

CHECK OUT TAX PREPARERS—With the income tax deadline growing nearer, the idea of simply having a tax preparer do the job becomes more attractive each day. But, as with any service, it pays consumers to investigate before they select a tax preparer, says Nancy Granovsky, a family resource management specialist. Granovsky suggests that consumers look for a tax preparation business that is open all year, in case you get audited later. Also, beware of a tax preparer who offers a "guaranteed refund" or suggests you underreport your income since you are still liable for misrepresentation on your tax forms. Look for a preparer who is willing to explain how your return was prepared, both to you and the Internal Revenue Service. The tax preparer should be willing to sign your return and should not ask you to sign a blank form. The qualifications of tax preparers may vary widely adds the specialist.

Juvenile Crime Rates Not Rising

Young people between the ages of 18 and 23 are responsible for most of today's crime.

However, juveniles (those between the ages of 10 and 17) commit the least amount of crime, according to Ron Jackson, Executive Director of the Texas Youth Commission, the state's juvenile corrections agency.

"The public generally perceives that juveniles are the prime villains in crime," he explained. "Such is not the case...according to the U.S. Department of Justice and the Texas Department of Public Safety."

The facts are that juveniles commit very few of the crimes of violence and that rehabilitation works fairly well in the juvenile justice system, Jackson said.

"Juveniles commit a lot of crime, but it's mostly against property, and even that has sharply declined in the last few years," he added. "Juvenile arrests for murder in this country have never been high and never have varied more than one percentage point since 1960. In that year, they committed nine percent of all murders, and it was nine percent last year."

Today's share of juvenile arrests for all crimes for violence, including robbery, rape and aggravated assault is close to 16 percent—about the same as it was 20 years ago.

"Juveniles have always 'preferred' crimes of stealing, burglary, and motor vehicle theft—where they are still active," said Jackson. "However, they have even started to slacken their efforts there. National arrest figures show juveniles responsible for only 18 percent of all crime."

The number of juvenile arrests rose in the mid-1970s when the current crime crisis began, but showed a 15 percent decline between 1978 and 1982. Juvenile arrests now number about the same as in the early 1970s.

"Adult arrests, however, rose over three million in that period," Jackson pointed out.

In the state of Texas, as in the nation, juvenile arrests have been declining since 1975: from a high of 111,055 in 1975, to 86,986 in 1982.

The decline began in 1976, continuing through 1982 when there were virtually the same number of juvenile arrests as a decade earlier.

State rehabilitation programs run by the Texas Youth Commission,

formerly the Texas Youth Council, frequently draw criticism, yet a study dealing with the number of former juvenile TYC youth indicates that only about 35 percent continued criminal careers which landed them in the adult prison system in Texas (Texas Department of Corrections).

"This would seem to indicate that a whopping 65 percent do not resume a life of serious crime," he pointed out.

O'Donnell Slates Dinner

The O'Donnell Ambulance Fund Dinner will be held Sunday, March 25, from 11 a.m. to 2 p.m. in the O'Donnell school cafeteria. Tickets are \$5 for adults, \$3 for children 10 years and under. The dinner will consist of turkey, ham and trimmings. All proceeds and donations will be used to purchase the new EMS ambulance.

Carole Edwards and Connie Smith are co-chairmen for the event.

Lynn County Merchants Appreciate Your Business

THE WOODBOX

BY TERRY WOOD

Being in the newspaper business, I can't help notice how good and bad (some really bad) some ads are presented. I'm talking about all three main media sources--TV, radio and newspaper.

Some of the more clever ads I've noticed lately include the one about the lady who says "Where's the beef?", another national ad about a guy who is driving a new car singing about a beautiful day while driving in a blizzard, and another good one where an express company promises to deliver their packages on time to those out of the way places.

These advertisements, among others, are constructed in a nice way for the consumer to be able to relate to and are also done in good taste as well as entertaining--many times more entertaining and fun to watch than the program itself. One TV ad that still sticks in my mind that I really enjoyed was the one where Alex Karras was doing a Timex commercial where he threw a watch down on the floor and smashed it to bits and saying it was "waterproof, dustproof, and shock-proof--well, almost

shockproof."

Some of today's ads really irritate me to the point that I promise myself that I'll try my hardest never to buy that particular product as long as I live! Usually what ticks me off is a voice that sounds weird on radio or TV--two ads in particular are the Furr's Fox and the one where the girl says something about the Nautilus. Others that stick in my mind are Shallowaterbeds, A-1 Mobile Homes, and Preparation H.

One of the Lubbock D-Js was talking about how much publicity Michael Jackson had been getting lately, including his latest 'Pepsi' commercial and how a cable TV station would be promoting this new 'Pepsi video' on their station at no charge. He was a little tired of hearing all these great things about Jackson, so he said, "You know what I think I'll do right now?"--He played the Coca Cola commercial.

I hope our newspaper ads encourage business for our readers and we certainly do appreciate those that are entertaining in nature, whether we think up the idea or someone else does.

WILSON NEWS

BY MARGRET CRISPIN

Mr. and Mrs. Alton Hobbs and children of Idalou hosted a birthday dinner Sunday for Mrs. Hobbs' mother, Mrs. Gertrude Gindorf. Other guests included Mr. and Mrs. James Wuensche and family, Mr. and Mrs. Jackie Bishop and family of Wilson, Mr. and Mrs. Les Howell of Lubbock, Jill Pendergrass of Meadow, Ricky Hobbs of Canyon, and Billy Bishop of Levelland. Billy celebrated his 20th birthday also.

The first junior high track meet will be held March 30 at Meadow.

Mr. and Mrs. Bruce Hewlett and Byron are in Houston this week where Byron is scheduled to undergo heart surgery.

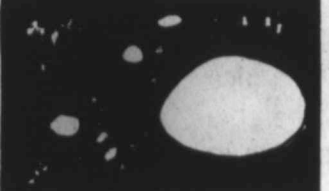

Mr. and Mrs. Ray Crispin visited Sunday in Slaton with Mr. and Mrs. Jerry Ray.

Wilson students will be out of school March 12-16 for Spring Break.

Renaldo Sanchez died Monday morning in Lynn County Hospital in Tahoka.

Jessica Creswell, Joshua and Janessa Lee of Loraine spent four days this week with their grandmother, Mrs. Lorain Crowson, and great-grandmother, Mrs. Clara Phillips.

Earl Cummings, Tax Assessor/Collector for Wilson schools since February 1976, was honored Feb. 29 with a retirement party. The faculty and staff presented him with a gift of appreciation for his years of service. The Wilson School Tax Office is now closed and school taxes must be paid at the Lynn County Tax Appraisal District office in Tahoka.

RAILROAD CROSSING IN LUBBOCK CLOSED FOR REPAIRS

The State Department of Highways and Public Transportation has issued a work order for replanking the crossing on Ave. A at 28th Street in Lubbock. The existing timber material is to be replaced by rubber material and both tracks are to be adjusted to the same elevation.

Work is scheduled to begin March 13 and will continue approximately three days. The crossing will be closed during this period and traffic will be detoured around both sides of the crossing with temporary single lane traffic.

The rubber plants that are grown as decorative home accessories are no relation to the tropical trees that supply us with commercial rubber.

BAKING TIPS from Betty Crocker

Frosting Can Make The Difference

"It's the frosting on the cake" is an oft-repeated expression referring to something special — the crowning touch. Actually, real, honest-to-goodness frosting does much more than add a decorative topping or filling for desserts. It provides a protective coating which seals in moisture. It also complements the cake with flavor, color and texture.

Most frostings are variations of four basic types: fondant, seven-minute and boiled, all of which require cooking, and the popular uncooked buttercream. Add glazes, sauces, whipped- and pudding-type toppings, and you have a smorgasbord selection to enhance favorite desserts.

Homemade frostings, particularly the cooked types, require close attention to measuring, beating instructions and cooking times for smooth, spreadable results with a soft, lustrous appearance. Frostings require just the right consistency to adhere without tearing or causing crumbling. For foolproof results, consider using a frosting mix or ready-to-spread frosting.

In choosing a frosting, select a flavor and type which will team tastefully with the flavor, consistency and appearance of the dessert. A cake to be frosted should be cooled and brushed free of loose crumbs. If you are frosting it right on the serving plate, protect the plate by placing four strips of waxed paper around the cake base while you do your decorating.

If the frosting seems too thick to spread easily, try thinning with a few drops of water or other liquid.

For the bottom layer of a cake, spread 1/3 to 1/2 cup frosting over an inverted layer to within 1/4 inch of the edge. Cover with second layer, rounded side up, and cover side with a thin layer of frosting to seal in crumbs. Then, add more frosting, building up a 1/4-inch rim around the top edge.

Finally, spread remaining frosting over top to meet raised edge. With spatula, knife or back of spoon, add decorator touches with a light, feathery touch — swirls, spirals, peaks, crisscross or circle patterns.

With Betty Crocker frosting mixes and ready-to-spread frostings, fun need not be limited to cake decorating. Fondue for dipping fruits and cake cubes is ready in minutes by warming a tub of Creamy Deluxe chocolate ready-to-spread frosting. From mixes come a myriad of ideas for easy-to-do candies, flavored popcorns, frosted pretzels, meringue shells, ice-cream toppings, glazes, pie fillings and even ice cream.

For every "sweet" occasion, you will find many innovative recipe ideas right on the packages. Many require no cooking, so even junior cooks can safely and easily create treats for family and friends.

WHO NEEDS A TAX PREPARER?

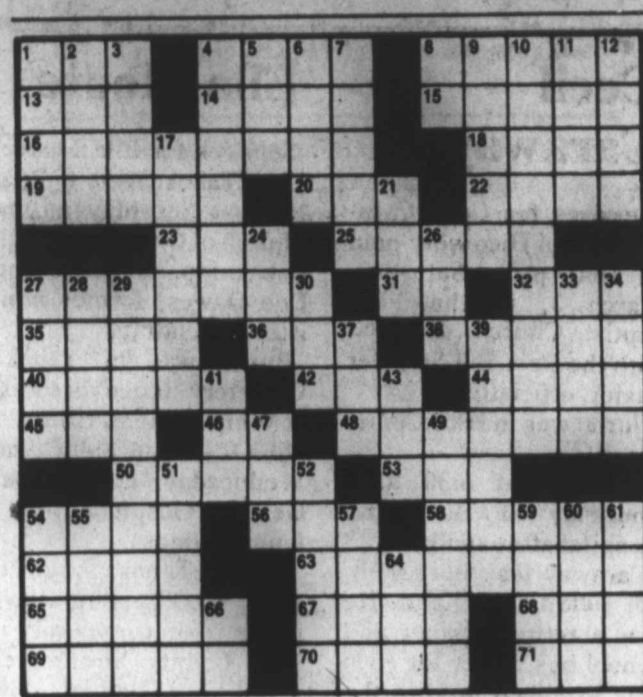

Whether you actually need a tax preparer or not may depend more on the complexity of your family's financial situation than your income level, says a family resource management specialist with the Texas Agricultural Extension home economics program. Unless your financial situation is very complex, you may be able to get along simply by calling or visiting an IRS office, using IRS publication 17, or purchasing one of the many income tax books on the market. If you use the short form, the IRS will complete most of it and figure your taxes for free. In addition, you may qualify for other sources of help. Many senior citizen centers and public service organizations offer free help in tax preparation for the elderly, handicapped, non-English speaking and others, says the specialist.

FISH FACTS

Add Catfish To Your Diet

The holidays are a wonderful time for fancy foods with marvelous sauces and heavy desserts, but thank goodness it only comes once a year.

If you have added a few extra pounds and are contemplating a weight loss program, be sure to add tasty steamed and baked catfish to your New Year's diet. An ounce of cooked catfish is only 30 calories and a good source of protein. Instead of tuna fish or salmon salad, try the recipe below for a delicious taste treat.

- | Catfish Salad | |
|---|--|
| 3 cups flaked, cooked Country Skillet Catfish (about 1 1/2 lb.) | 1/2 teaspoon pepper |
| 2 stalks celery, chopped (about 1 cup) | 2 teaspoons grated lemon peel |
| 1 apple, chopped (about 1 cup) | 1/4 teaspoon garlic powder |
| | 2/3 cup low calorie mayonnaise or salad dressing |

In large bowl, combine catfish, celery, apple, pepper, lemon peel and garlic powder; stir in mayonnaise. Cover and chill. Serve salad on lettuce with crackers and tomatoes, if desired. Makes 6 servings.

CARD OF THANKS

On behalf of our mother, Montie Lindsey, we would like to say thank you for all the cards, flowers, and most of all your prayers, and to Dr. Wright, who was so kind and understanding, and all the nurses who took such good care of mother. To Brother Tyler and Brother Moberly, her preachers, who were so nice through it all, and all the nice friends that were in to see her and cheer her up during her stay in the Lynn County Hospital and at Methodist Hospital.

We love each and every one of you very much. May God bless each and every one of you.

The family of Ella Moore wishes to thank all of our friends and neighbors for their acts of love and kindness during the illness and loss of our beloved mother.

Thank you for your prayers, flowers, memorial gifts, food and all your thoughtful deeds.

We want to thank Dr. Wright and the nurses and staff at the Tahoka Hospital. We also want to thank all the doctors, nurses and staff at Lubbock General Hospital. The care you gave to Ella was excellent.

We thank White's Funeral Home for your help during this difficult time.

We especially thank Don Dawes and Bob Lamp for your words of comfort at the services, the ladies of the Church of Christ who prepared and served our dinner and to the church choir for your ministry in song.

We praise God for blessing us with wonderful friends and neighbors. May God bless you always.
