Accidents, Burglaries Reported

Tahoka police investigated a couple of accidents, a burglary of a vehicle, a stabbing incident, and some routine calls during the past week in the city.

Tahoka High School reported to police on Wednesday that one student had stabbed another with a knife during school hours on school grounds. This matter was turned over to juvenile officers in Lynn County.

Scott Huffaker of 2104 N. 6th reported that someone had stolen from his parked Chevrolet pickup at his residence between the hours of 10:30 p.m. and 7:00 a.m. one Browning 12 gauge shotgun and one Remington 243 rifle with a 4-power scope.

A one-car accident was investigated on Saturday at the intersection of Lockwood and Ave. E that involved a 1974 Oldsmobile driven by Nieves Benavides Jr. of Tahoka. No injuries were reported.

On Thursday a two-car accident at 1700 S. 1st and Ave. L involved a 1977 Pontiac 4-door driven by Doris Elaine Simmons of Route 4, Tahoka and a 1976 Mercury 2-door driven by Delbert Odell Todd of Rt. 5, Tahoka. No injuries were reported.

Jack Miller reported windows broken out of his 1973 Lincoln which was parked at the General Store at 1328 Ave. J on Thursday. Value of a broken windshield and one broken side window was set at \$650. A witness identified the persons responsible for this incident. No one was charged at press time.

Police also investigated a prowler call, a family disturbance call and also one incident at Lynn Co. Hospital emergency room that reported having trouble with a man who had been a fight and was giving the nurses a "bad time".

Tickets issued during the past week included one for racing, one for driving at an unsafe speed and one for no proof of liability insurance.

Sheriff's officers investigated the burglary of a home a mile and a half south of Gordon community. Norvin Nieman reported his home

burglarized Sunday, with items valued at more than \$1,000 missing. Included were tools, knives, a Kenmore microwave oven, GE black and white 19-inch TV, \$100 in silver coins, J.C. Higgins .410 shotgun and Higgins .22 rifle, jewelry box and other articles. Crime Line, 998-5145, has offered a \$300 reward in this case.

A safe stolen from O'Donnell First Baptist Church was recovered northeast of Lamesa last week. No arrests have been made in the case, but officers are continuing their investigation.

In jail during the week were one person for driving while intoxicated and one for revocation of probation.

New Car Purchased For Sheriff's Dept.

Lynn County commissioners Monday approved the low bid of McCord Motor Co., Tahoka, on a new car for the sheriff's department, purchasing an Oldsmobile for \$7865 after trading in an older patrol car.

The bid was the lowest of two submitted.

Also approved Monday were payment for carpet installed in the offices of the district clerk and adult probation department and payment of the balance of \$292 dues from 1983 to the Texas Assn. of Counties. The carpet was paid for from revenue sharing funds.

Payment of \$1233 to the district attorney's office owed by Lynn County for the last quarter of 1983 was approved. The commissioners also gave the go-ahead for repairs on

the public address system in the district courtroom.

County Veterans Service officer James Reed was authorized to attend a meeting in Plainview April 10-11.

Karen King of South Plains Assn. of Governments appeared to ask for county help in financing the operations of an alcoholic treatment center in Lubbock. No action was taken on the matter.

All commissioners and Judge J.F. Brandon were present.

If ridicule were employed to laugh men out of vice and folly, it might be of some use; but it is made use of to laugh men out of virtue and good sense, by attacking everything solemn and serious. Addison

WOODWORK

BY DALTON

OKAY, GUYS, if you can just hang onto your hair for about three more years, help may be available.

That's according to the Texas Medical Assn., which says that a drug used for treating high blood pressure also offers hope for stimulating hair growth: "Results of a year-long clinical study at the University of Texas Health Science Center at San Antonio show that minoxidil, a potent anti-hypertensive drug, produces hair in some balding men when rubbed on the scalp."

The drug, however, apparently has not been approved yet by the Food and Drug Administration and would not be available to consumers before 1987, said the story. The release from TMA didn't make it clear whether the drug is already available for blood pressure treatment but not for hair growth, or what.

Anyway, apparently you can take it internally to lower your

blood pressure (when somebody makes dumb jokes about your bald head) and then rub it on your head so that hair will grow.

TMA didn't say so, but the bad news for high blood pressure sufferers may be that the drug causes hair to grow in your innards.

Among the things I learned about baldness for the first time by reading the release were that it's your mother's fault if you are bald, and that a woman's hair may become thin about three months after she has a baby. That may be because she's tearing it out in chunks trying to figure out how to take care of that kid, although that usually comes a year or two later. It grows back in a few weeks, says TMA, which also said that "in men, baldness commonly runs in the family on the mother's side."

I saw my mother's side once, and sure enough, there was no hair growing there.

Special School Board Meeting Set

There will be a special school board meeting Monday, April 9, at 12 noon in the board room of Tahoka High School for the canvassing of votes and the swearing in of new members.

The regular school board meeting of April 12 has been postponed until Tuesday, April 17.

County Conservation Leaders Recognized

The Lynn County Soil and Water Conservation District held their fourth annual awards banquet Monday, March 20, in the Lyntegar Electric Co-op meeting room with Lit Moore, secretary of SWCD, as master of ceremonies. A buffet meal was served and a conservation film "A Land Called Texas" was shown before the presentation of awards.

Jim Bob Smith of New Home was named conservation Farmer of the Year; Mrs. Paul (Anna) Sherrill of O'Donnell received the Conservation Homemaker Award and Mrs. Ray (Nan) Adams of Tahoka was named Conservation Teacher.

Outstanding agriculture students were David Ehlers of Wilson, son of Mr. and Mrs. Ray Ehlers; Kent Kahl of Tahoka, son of W.J. Kahl; Jay Durham of O'Donnell; and Lance Kieth of New Home, son of Mr. and Mrs. Freddie Kieth. Outstanding 4-H member was Ty Askew, son of Mr. and Mrs. Lyndol Askew. Conservation poster contest winners were: first grade, James Sullivan; second grade, Dillon Stone of Wilson; third grade, Royce Greer; fourth grade, Danette Robledo; fifth grade and over-all winner,

Tiffany Huffaker.

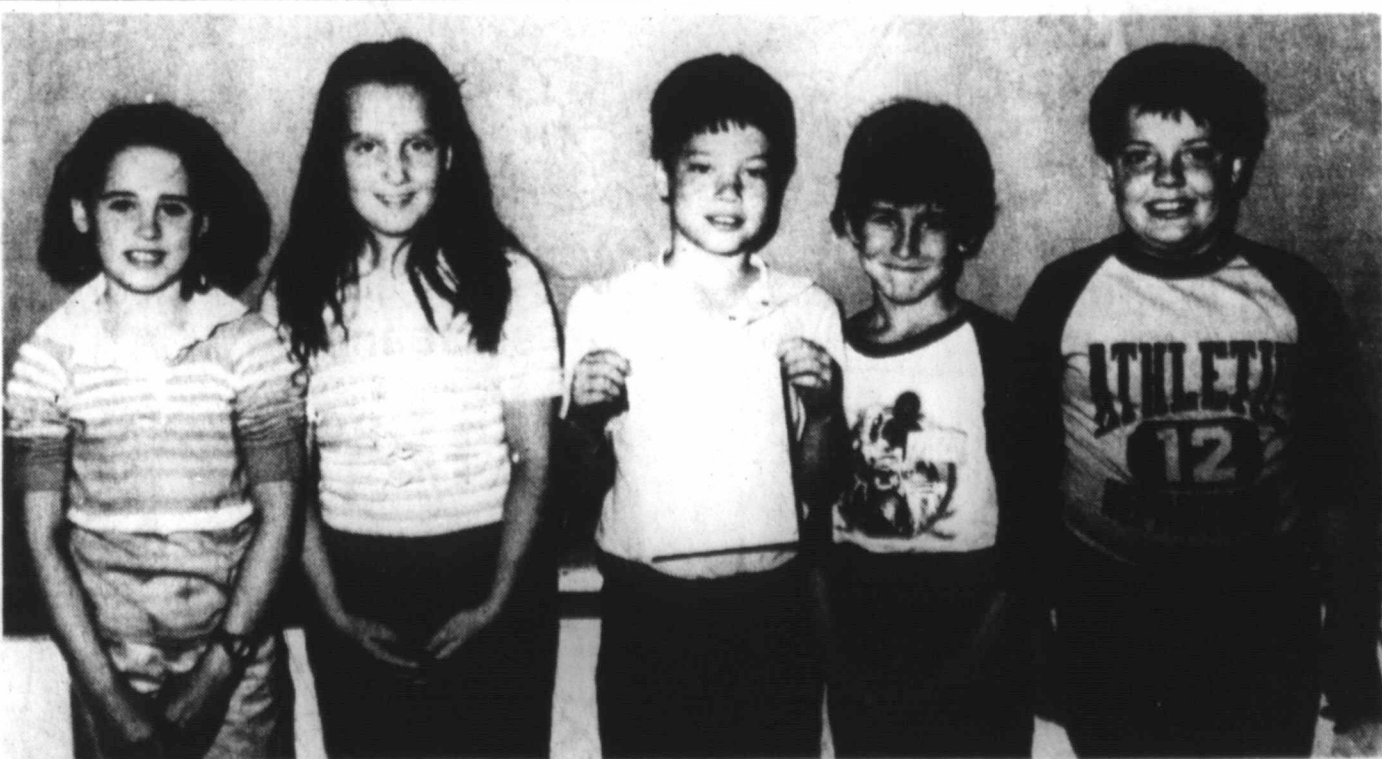

Smith, conservation farmer, has been farming in Lynn County since 1932. He now farms 844 acres and has been a cooperater with the SWCD for 12 years. He has installed 221,937 feet of parallel terraces on his farm and 4352 feet of underground irrigation pipe. Wheat or sudan is grown on the terraces for additional wind erosion control as well as maintenance of the terraces. Smith and his wife, Bonnie, have two children, Virginia Dulin and James R. Smith, and five grandchildren. He is an elder in the New Home Church of Christ.

Mrs. Sherrill, conservation homemaker, and her husband farm 500 acres of land 3 1/2 miles northeast of O'Donnell. Their major farm enterprise is row crop farming of cotton and some wheat. For the last few years they have used wheat in their rotation. A water storage tank is in the process of being installed for further irrigation purposes.

The Sherrills have remodeled their home in which they have lived since 1959. Mrs. Sherrill has a garden each year and cans most of the food used by the family. She also raises chickens to cut down on the food costs. She did a lot of sewing when her children were small, but now has turned mostly to quilting.

The Sherrills have four children, Deb, Para, Brent and Cindy, and a grandchild, Erin. They are members of the First Baptist Church of O'Donnell. She was the first woman member of the O'Donnell school board.

Mrs. Adams has been teaching in Tahoka schools for 18 years. She is a member of the Phebe K. Warner Study Club, Delta Kappa Gamma and past president of the Texas Angus Auxiliary. She won first runner-up in the Soil and Water Conservation State Competition and will represent Lynn County at West Texas State University on May 1. She and her husband, Ray, have two children, Joanna and Jim.

Inez Smith - D.L. Miller Exchange Vows in Petersburg

The First United Methodist Church of Petersburg was the setting for the wedding of Inez Gary Smith of New Home and D.L. Miller of Barwise Saturday, March 10. The Rev. Jerry Kunkel officiated the 5 p.m. ceremony.

Prelude music was provided by Mrs. Cathy Kunkel, who also sang "You Gave Me Love". She also accompanied Mrs. Lee Bartley as she sang "The Twelfth of Never" and "The Lord's Prayer".

A large brass double ring candelabra covered with greenery and pink flowers decorated the center of the church. Votive cups surrounded the double rings. Two large baskets of assorted pink and burgandy silk flowers stood on each side.

The bride wore a street-length dress of pale pink chiffon that featured a v-neckline edged in ruffles. The full sleeves were accented by tiny buttons at the wrists. The full skirt

was complimented by a wide belt. Pale pink shoes completed her ensemble.

She carried a white Bible a gift from the groom, covered with silk flowers in various shades of pink, fushia, and burgandy and wore a comb of silk flowers in her hair.

For something old, the

bride wore her Grandmother Gary's wedding band; her wedding attire was new; borrowed was a strand of pearls; and the traditional garter was something blue. A penny for good luck was placed in the bride's shoe by her sons, Tracy Smith and Roy Smith.

The couple were attended by their six children, Rex Miller, Roy Smith, Gay Hall, Virginia Fillingim, Scott Miller, and Tracy Smith. Their daughters wore street length dresses of fushia chiffon and carried bouquets of silk flowers in various shades of pink. A comb of silk flowers was worn in their hair.

Leann Miller and Karen Miller, daughters-in-law, registered over 225 guests and served at the reception.

Ushers were Jimmy Fillingim and Mark Hall, sons-in-law of the couple. Special guest was Mrs. Pernie Miller, mother of the groom.

Following the ceremony a reception was given in the fellowship hall. Reception attendants were Beth Phifer of Earth, Joann Kieth, Barbara White and Patsy Barnett, all of New Home, Corky Fillingim and Joyce Adams of Petersburg.

Following a wedding trip to Hawaii, the couple will reside in the Barwise Community northeast of Petersburg.

Letter to The Editor

"News" of former Lynn County citizens living in California, Mr. B.J. (Bill) Mayberry, formerly of the Dixie school area, had a serious heart attack in March of 1983. He stayed in the hospital about six months and was not expected to live. Today, about a year later, he is walking around waiting on himself and he is visiting Other Martin in Sacramento on his own. Mayberry, 89, is Other's uncle.

Burl Taylor of the old Joe Stokes school area, north east of New Home about six miles, had a lung removed last October. He had lung cancer. I talked to him this morning and he says he is doing well as can be expected. Mrs. Annie Brown of Slaton was his aunt. Burl lives in Modesto, California.

Jeffie Fay "Sutton", "Odell" Milligan had surgery last year. She had cancer. She's getting along fairly well now.

My oldest son, Orson Raymond Griffin Jr., was killed March 4. (This month). He was only 39. We believe he was murdered. His seven brothers and myself are trying to find out who did it.

I have eight sons and five girls. He is the first to pass away. We may have more on Orson with the next day or two. (This is the worst days of my entire life.) It looks like this letter is all bad news.

Sincerely yours,
Raymond Griffin Sr.

Social Security

By BOOTH ROBBINS

I occasionally get an opportunity to talk to students in various high schools in our twelve county service area. The purpose of these talks is to discuss the Social Security process—from the time an individual applies for his original card to the time that individual (or his or her family) applies for Social Security benefits.

The students usually show a lot of interest in what is generally thought of—incorrectly—as just a program for older people. They have many good questions, but the one which occurs most frequently and evokes the most interest is this:

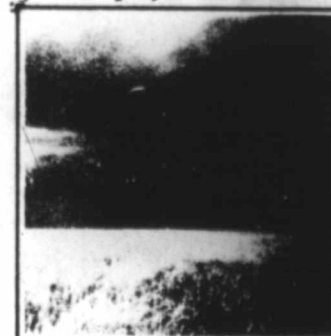

"Suppose I pay Social Security taxes for many years but die before I get old enough to receive monthly payments. If I don't leave any survivors who qualify for benefits what happens to the money I contributed?"

Sometimes some of the students take a shot at the answers before I can reply to the question. Answers range from "the government keeps it" to "it's given to poor people."

This is when I usually answer their questions with a question. "What happens," I ask, "if your parents pay fire insurance on your house for many years but it never burns? Or if they pay collision insurance on the family car but are never involved in an accident? What happens to the money they gave to the insurance companies?"

Most of the students saw the correlation before it was explained. The major portion of the money spent for fire insurance reimburses those whose homes do burn. Automobile insurance funds are used by the insurer to compensate those who do suffer a loss. Even if your house never burns and you never have an accident you have received something for your money. That something is protection—protection that funds will be available if you do suffer a loss against which you are insured.

Same thing with Social Security. If you don't get back all that you've contributed, it will be paid out to individuals who do receive retirement checks, disability checks, survivor benefits, and Medicare protection. Some folks get back more than they and their employer contribute.

Don't wait until it's too late
Protect your crops from

Some folks do not.

But the protection is always there. If you do qualify for the benefits because of one of the events listed above, you're going to get payments as long as you remain eligible.

If you never qualify, the government won't keep your money. After all, we exist to pay money out, not to keep it. And it won't be given away to poor people. However worthy their situations might be, that isn't something Social Security laws permit.

Social Security is the world's largest group insurance agency. Every contributor pays into the program for his own protection and that of all the other members. When any member meets the entitlement factors, payments are made. When there is no entitlement, there is no payment.

Check Soil Temperature Before Planting

In many cases the early bird does get the worm. But when it comes to spring planting, farmers may want to use a little restraint and take a look at soil temperatures before cranking up their planters.

One of the keys to getting spring crops off to a good start is to heed soil temperatures.

Soil temperatures have been shown to have an important effect on how well seeds germinate. Planting in cool soils often leads to poor seed germination and poor crop stands. Plants that do come up often lack vigor for early growth. And this opens the door to early season disease and insect attacks.

Young advises farmers to begin planting only after the danger of a late frost is past and the soil has warmed to temperatures favorable to the intended crop.

Farmers also need to keep attuned to weather forecasts prior to planting. A sudden change in weather conditions following planting can be detrimental to the crop, particularly a cool, wet spell that can lower soil temperatures drastically.

Just when is it safe to plant what crop?

Average minimum temperatures (at the four-inch depth) for planting are as follows: corn, 50 degrees; sorghum, 55 degrees; cotton, 65 degrees; and soybeans, 70 degrees. "Minimum" rather than "average" temperatures should be used for rice and peanuts, with rice being 60 degrees and peanuts, 70 degrees. Hardy vegetables such

as onions, cabbage and potatoes can be planted once soil temperatures range between 45 and 50 degrees while warm-season vegetables such as tomatoes, melons, beans and peppers need soil that has warmed into the 60s. With early season planting, particularly when soil temperatures are still marginal, farmers need to pay particular attention to using high quality seed, fungicides and other seed protectants, and adjusting seeding rates.

How do farmers keep abreast of changing soil temperatures?

Young points out that daily readings are taken at various locations throughout Texas in cooperation with the Extension Service, the Texas Agricultural Experiment Station, the National Weather Service and individual co-operators. For example, the regional temperature reading for North Texas is based on temperatures at Lavon Dam northwest of Dallas, while readings at Lufkin and Longview make up the East Texas average. Regional readings are also made for the High Plains, Trans-Pecos area, Coastal Plains, South Texas and the Lower Rio Grande Valley.

As temperatures are collected, they are included in daily agricultural advisories issued for each of the regions by the National Weather Ser-

vice's Southwest Agricultural Weather Service Center at Texas A&M University. The advisories are fed into the NOAA (National Oceanic and Atmospheric Administration) weather wire teletype system to be received by commercial radio and television stations. The advisories are also carried over the NOAA Weather Radio Network.

Specific temperature readings for about 50 locations also are distributed daily through regular weather service dissemination channels. Keeping tabs on the weather and soil con-

ditions can help farmers get off to a good start with spring planting. With the high cost of farm inputs, it's information that should be put to good use.

Let the new generation of hybrids do for your sorghum acres what Pioneer has done for Plains corn.

8222 Big yield potential under full irrigation. A widely adapted hybrid, 8222 has produced a superior record under many different environmental conditions. But it's especially adapted to full-season production in this area. Provides outstanding stress tolerance, plus excellent resistance to MDMV and head smut. It's an attractive, medium height hybrid with semi-open heads of bright red, hard-textured grain. Leaves that are above average in width help provide first-rate shading. And outstanding root and stalk strength keeps plants standing for maximum harvest.

8493 Especially adapted for dryland or very limited water conditions, this is a fast maturing hybrid with exceptional drought tolerance. It has the ability to take full advantage of normal early season rainfall; then it makes efficient use of available ground moisture to produce all that the season allows. Under tough growing conditions, the standability of many hybrids often suffers. But not 8493. Strong stalks and roots keep medium height plants standing straight for easy harvest of dark red, high test weight grain. It's the standard for resistance to greenbugs.

8333 Pioneer plant breeders developed this great new hybrid to make the most of what the growing season has to offer. This one has outstanding drought tolerance, too—but you should plant it on good dryland or under limited irrigation to take full advantage of its maturity and yield potential. In irrigation tests throughout the Plains, 8333 has produced exceptional yields. The field appearance of the bronze, hard-textured grain is most attractive. Harvesting is made easy, too, by excellent head exertion and very good standability. For late season plant health, 8333 is highly resistant to MDMV, head smut, and Biotyph C greenbugs.

Choose the combination best suited to your land and your conditions—and get ready for a great sorghum crop.

Teachers Visit With Stenholm

Saturday three Tahoka teachers, along with several others, met in Post with Congressman Charles Stenholm to discuss legislative matters related to education. Stenholm had requested the meeting to gather information relevant to his work in Washington.

Those attending from Tahoka included Leta Pierce, Tom Cooper and Tom Sullivan. They and the other teachers, administrators, parents, businessmen and women questioned Stenholm about his attitudes on educational issues and sought his views on the likelihood of meaningful change.

The Congressman pointed out that only seven percent of present funds come from the federal government, while about 50 per cent comes from state allocations, and the remaining 43 per cent comes from local funds. Among other issues considered, Stenholm expressed concern for our lack of commitment, at all levels, to bi-lingual education. He was also concerned that the federal government take responsibility in the areas of math, science and foreign language education, which clearly have importance not only to our society but to our economic well-being and which are being addressed by the American Defense Education Act now before the Congress.

Stenholm emphasized that his constituents need to write and/or call him to let him know how they feel. Too often, he said, legislators have to make decisions on budget cuts without sufficient guidance from the grass roots. He gave as an example, cuts in the Title I program which may have to be reversed because of the damage done to the Title I reading program, a program that has proved to be one of the most useful innovations in recent years.

Stenholm also voiced strong opposition to tuition tax credit schemes, which promise to destroy public education.

Laura Cooper Named CF Chairman

The Lone Star Chapter of the Cystic Fibrosis Foundation announces the appointment of Laura Cooper as Spring Chairman of its 1984 Campaign in Tahoka.

The Campaign will be held to provide the community with pertinent information about Cystic Fibrosis, the number one genetic killer of children and young adults and to raise desperately needed funds to support research, education and care programs.

For more information about cystic fibrosis and how you can help, please contact Laura Cooper, 998-5289.

Cotton Today

Maid Will Promote Cotton Overseas: Maid of Cotton Valerie Bendall will depart April 3 for a 40-day trip to promote the advantages of U.S. cotton with textile and government officials and the consuming public in seven countries, according to the National Cotton Council.

The countries are England, France, Germany, Korea, Tiawan, Hong Kong, and Japan. During the trip the Maid will participate in special fashion shows, retail promotions featuring cotton fashions, and other activities designed to increase exports of U.S. cotton.

The Maid's first stop will be in England, where she will participate in a special promotion centered around the bicentenary of Quarry Bank Cotton

Spinning Mill. Established in 1784, the mill was the first in the United Kingdom to use U.S. cotton.

Cotton Council International, overseas arm of the Council, and Foreign Agricultural Service are sponsors of the Maid's overseas trip in cooperation with firms and organizations in each country.

Cotton Use Reported: Cotton consumption by U.S. textile mills was 6.0 million annual bale rate during February, down 5.4 percent from revised rate of 6.4 million bales in January and up 6.6 percent from the year-ago level of 5.7 million bales, according to the National Cotton Council.

Cotton's share of all fibers consumed was 25.4 percent during both January and February. This may be compared with average market share during 1983 of 23.5 per cent.

On Monday March 12, 1984 the Lynn County Commissioners Court met and approved the Revenue Sharing budget for a total budget of \$143,201.00, for the period of October 1, 1983 through Sept. 1984.

We would like to thank everyone for the flowers, cards, memorials, food and all that was done for us in the loss of our loved one. A special thanks to Bro. Ray. May God's richest blessings be on each of you.

The Family of Willie Mae Farr 13-1tp

To all my friends: I would like to take this time to say thank you for all the kind words and deeds shown toward me, during my stay in the hospital and recovery at home. A very special thank you to all my customers for being so understanding while I was closed. Your business is really appreciated. Another special thank you goes to my family for being so helpful.

Thank you, Roger Williams 13-1tp

We would like to thank everyone for the kindness shown during the loss of our loved one. Thank you for the flowers, cards, calls, food and prayers. May God bless each of you.
