Dogs Hope To Improve In New Classification

By DALTON WOOD

The Tahoka Bulldogs, for years one of the feared football powers of this area, are hoping to climb back toward that image in the upcoming season, with the major load of the journey expected to fall on the shoulders of seven juniors who have been starters since they were freshmen.

The Dogs have won just one game in two years, but last year played several teams tough, close games and showed marked improvement over the previous year, when they won no games.

Now Tahoka has dropped to a lower UIL classification, into Class AA, and will be competing

in what is probably the toughest Class AA district in West Texas, so winning more games this season won't be easy. Coaches of the other schools in district 5-AA have picked Tahoka to finish fifth, with the order of their choices being Seagraves, Shallowater, Morton, New Deal, Tahoka and Plains.

Coach A.D. Shaver, starting his 38th year of coaching and ninth year in Tahoka, will send his young team--only six seniors are out so far--against the new district foes after five non-conference contests, all against teams rated well in pre-season propaganda.

Stanton on Sept. 7, followed by a game at Hale Center before the home opener Sept. 21 against Coahoma, the only Class AAA team on the schedule. Then comes Abernathy, which also has dropped to Class AA, and homecoming against Roscoe, the only Class A team on the schedule, but one of the state-ranked Class A teams in pre-season assessments.

The district games follow, starting with Seagraves.

First look at the Bulldogs by the fans could be this Friday for those going to Roosevelt for a scrimmage against the Eagles, starting at 6 p.m. with the younger teams. A second scrimmage against Slaton is scheduled to start at 6 p.m. at Kelley Field next Friday, Aug. 31.

Shaver said the coaching staff is unchanged, although the status of 7th-8th grade coach and varsity trainer T.A. Bell is uncertain since Bell suffered a heart attack Sunday. Early this week he was in Lubbock General Hospital in intensive care.

Shaver and crew welcomed 38 boys out for the team last week, and said he expects to add a few more when school starts. Among those he will be counting on for leadership are Trey Teaff, junior quarterback who will be starting his third year at that position, and who has picked up about 20 pounds since last year and should be stronger at 170; Doug Lawson, a strong performer last year at center and defensive

Tire Slashers Cause Heavy Loss In County

Tire-slashing vandals caused an estimated \$3600 damage by ruining tires on a number of vehicles in Tahoka and O'Donnell during the last week, starting with last Thursday when 17 tractor tires were slashed at Wayland Taylor, Inc. at O'Donnell. The estimated loss there was \$2500.

Over the weekend, 10 tires on three pickups owned by the federal government, the Soil Conservation Service, were cut while the pickups were parked on the lot at Ave. K and Conway. The vandals also slashed seven tires on nearby vehicles owned by General Telephone Co., and two tires on a truck owned by Western Seed & Delinting, which had been parked behind Lynco Automotive.

A Crime Line reward of \$300 on any of the slashing incidents has been offered. Anyone with information should call 998-5145.

Western Seed and Delinting also was victim of theft of a John Deere toolbox and tools, stolen from a tractor parked at the plant on U.S. 380 east between noon and 2 p.m. Saturday, owner Lynn Cook reported.

Tahoka Police Dept. in-

vestigated a wreck Sunday in the 1600-block of Ave. M, where a 1980 GMC pickup driven by Maria Ernestina Ruiz, 1829 Lockwood, struck a parked 1979 Oldsmobile owned by Domingo Riojas.

Carmello Jaime Caballero, 20, of O'Donnell was treated at Lynn County Hospital early Sunday for a gunshot wound in the right shoulder, and later transferred to Lubbock. The shooting occurred

about 8 miles south of O'Donnell. Officers investigated, but the victim declined to file charges against his assailant.

It was a busy week at the county jail as 11 persons were confined. Included were four for public intoxication, two each for disorderly conduct and no liability insurance, and one each for criminal mischief, reckless conduct and driving while intoxicated.

TIRES SLASHED--This pickup was one of several which had tires slashed over the weekend by vandals. This one and others is owned by the USDA Soil Conservation Service, which had 10 tires cut and ruined. Other victims were General Telephone Co. and Western Seed & Delinting. (LYNN COUNTY NEWS PHOTO)

WOODWORK

BY DALTON

SUMMER is suddenly slipping away from us, although you can't tell it by the temperature, which has been pretty high during the last week.

You can tell it by the calendar, because August is about gone, school is getting started, football coaches are coming forth to tell about how tough things are going to be if any of their players get hurt, and the grass on the lawn is not growing quite as fast as it did earlier in the summer (before I poured ice cream salt water on it).

Hot weather has held up, though, and no doubt the Democrats of the world were happy that Dallas had a record 108 or some such number on the first day of the Republican National Convention. I noted with interest that most of the GOP delegates from up north said they didn't mind visiting Dallas, but they sure wouldn't want to live there.

That, of course, is good news for Dallas, which already has enough people from far away places.

With every TV channel covering the convention in Dallas, you can't avoid seeing some of it, but for the most part, I have managed not to watch this convention, just as I didn't watch the Walter Mondale show earlier.

WE READ somewhere that

you can tell a lot about a person's personality by his or her behavior while waiting for an elevator, or by the way the person positions a chair when asked to come in and sit down.

According to tests made by psychologists at Tulane University, people who press the elevator button even though someone else has already done so tend to have dominant personalities. They like to supervise and direct others, the story said, and to make group decisions. (I'd add that they also aren't too bright, since almost any dummy knows that if the light on the button is lit, you're not going to get the elevator any sooner by pushing it again).

Those who position their chairs close to an interviewer, say researchers, tend to be more impulsive, demonstrative and expressive than those who sit farther away (and maybe harder of hearing?). Distant chair-positioners tend to be more introverted, thoughtful, socially conscious and conscientious--sometimes to the point of being perfectionists.

There's one type they didn't mention. The person who picks up the chair and holds it front of him or her with the legs pointed your way probably is the insecure, defensive type.

Either that, or somebody has warned them about you.

Band Director Hired: Teacher Pay Boosted

Tahoka school trustees last Thursday evening voted state-mandated pay raises for teachers in the system averaging 17 per cent per year more than they have been getting, and also voted pay increases for non-teaching personnel of 5 per cent across the board, plus other increases for administrators.

The board also voted to hire Mrs. Marvin (Tawnya) Perry as band director at \$4500 above base salary, approved Thalia Burks as a substitute teacher, and hired Mrs. Weldon (Sandy) Self as a migrant aide in North Elementary.

Principals John Haines, high school; Tom Cooper, Tubb; Clifton Gardner, North; presented student-parent handbooks and discussed changes and compliance with recent legislation. The hand-

books were approved by the board. end, who as a junior should weigh about 185; fullback Johnny Morin, 175-pound junior who also is a good kicker; halfbacks Jerry Alvarado and Andrew Chapa, both juniors; and guards Scott Isbell, 185-pound junior, and Lupe Aleman, 200-pound senior.

books were approved by the board.

Rule Clarified

Haines reported that he had just received a different interpretation from the Texas Education Agency than had earlier been reported on the new ruling about students attending or participating in school-related activities after 10 absences. TEA now says, Haines reported, that the 10 absences must be either unexcused or excused for the purpose of attending extra-curricular activities, and that excused absences for such things as illnesses will not affect whether a student may participate in such things as athletics or stock shows.

Mrs. Perry, 25, is the wife of the new assistant band director at Slaton. From Amarillo, she is a graduate of West Texas State, and was band director at Bushland for the last two years. Mrs. Self, wife of the manager of the Tahoka Energas operations,

was an aide in Slaton schools for more than six years.

Base Raised

Supt. Dale Summitt explained to the board that the state-mandated base salary for starting teachers is now \$15,200, and with the district paying \$1,300 above schedule, this would be \$16,500 for a beginning teacher. Of the local faculty, Summitt said 53 per cent will be getting increases of 12.5 or more, but that the average is better than 17 per cent. He added that the beginners get the biggest percentage increase, 33 per cent.

Also implemented as required by the state is a "career ladder" program supposed to reward superior teachers in three steps of \$2,000 additional per year over what they would normally get in the system. Only selected teachers will be able to take part in the complicated ladder system, but Summitt noted that at the top of the ladder some teachers could be making as much as \$33,900 in Tahoka ISD within two years.

Crime Line Offers \$300 Reward...

For information leading to the clearing of any of four tire-slashing incidents during the last week. On Thursday night 17 tires were cut on tractors at Wayland Taylor, Inc. in O'Donnell, and over the weekend tires were slashed on vehicles in Tahoka owned by the SCS, General Telephone and Western Seed and Delinting.

Crime Line callers need not identify themselves; a number will be assigned so that rewards may be paid later. Crime Line, 998-5145, is answered 24 hours a day, and collect calls are accepted.

DIPLOMAT VISITS HERE--Julius Walker, U.S. ambassador to Upper Volta in Africa for the last three years, and for three years prior to that the envoy to Chad, was in Tahoka Tuesday with his wife, the former Savannah Tunnell of Tahoka. Vacations End, School Begins

It's that time of year again, when vacations end and back to school studies begin. "Unfortunately this also means an increase in traffic accidents involving school buses and school children," stated Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety. "Most of these accidents are caused by drivers who fail to follow safe operating procedures as well as laws pertaining to passing a stopped school bus," Major Cawthon stated.

State law requires drivers on the same roadway as a school bus that has stopped to load or unload school children; to stop and remain stopped until one of three things happen. The bus driver signals you to go on by or they turn off the flashing red lights, or the bus itself goes into motion. This law applies whether you are meeting the bus or whether you are going in the same direction as the bus. It also applies inside the city limit as well as outside the city limit. The only exception to the law is that drivers on the other side of a divided highway (roadways separated by a physical median) are not required to stop. Motorists who fail to stop for a school bus could be fined up to \$200.

"We, as drivers, should realize the dangers involved and do everything possible to prevent these needless deaths and injuries involving our school children," Major Cawthon stated.

TRACTOR ID CAN THWART THEFT--Farmers can reduce tractor theft by putting an identification number on their tractor. The proper number to use for property identification in Texas is the owner's driver's license number, says a community development specialist with the Texas Agricultural Extension Service. Place the identification number on the rear of the differential housing, or if this area is not accessible, place the number on the right axle housing on the top or rear. Use a metal stamping tool and make sure the imprint is legible. Also, record and safeguard all serial numbers on farm equipment.

MRS. KIP R. CULP nee Debra Lynn Sanders

Evening Ceremony Unites Debra Sanders and Kip Culp

Debra Lyn Sanders of O'Donnell and Kip R. Culp of Andrews exchanged wedding vows at 7 p.m. Aug. 17, 1984, in the O'Donnell First Baptist Church with the Rev. Ray Cunningham of Lubbock officiating the double ring ceremony.

Parents of the couple are Mr. and Mrs. Harold Sanders of O'Donnell and Mr. and Mrs. W.F. Hoermann of Andrews and the late Joe Ray Culp.

The prelude of carillon chimes presented a medley of sacred and traditional selections as the guests entered the sanctuary. Mrs. C.A. Doss, pianist, played "Endless Love" and accompanied Mrs. Mack Forbes, cousin of the bride, and Mike Holster as they sang "Father's Call" and "In His Own Sweet Time", and "Only the Beginning." Mrs. Forbes sang "The Wedding Prayer" at the close of the ceremony and the carillon chimes rang as the couple was presented to the congregation.

A bouquet of yellow roses, baby's breath and leather leaves in a brass fan basket centered the altar, a pair of brass arched candelabras were flanked by brass spiral candelabras intertwined with tiny white flowers, emerald leaf and white bows. White lace bows and yellow roses marked the family pews.

Escorted by her father, and given in marriage by her parents, the bride wore a formal gown of white silk organza with an empire waistline, beaded Queen Anne neckline, and Victorian sleeves encrusted with pearls and Venise lace extending to a petal point. The full skirt was surrounded with scalloped Alencon lace medallions edging the hemline and extending into a chapel train. The Juliet cap of

Venise lace and pearls gathered into a fingertip veil, finished with a scattering of tiny flowers.

She wore a sixpence in her shoe given to her by the groom's mother. She carried a tiny white lace covered Bible with a cascade bouquet of yellow roses, white iris, tweedia spray, English ivy leaves with white satin ribbon streamers tied in lover's knots.

For something old, the bride carried a handkerchief belonging to her maternal grandmother, Mrs. Clara Clark. Something new was her wedding attire; something borrowed was a pearl bracelet; she wore the traditional garter decorated with blue ribbon and made by her mother.

Traci Read of Whiteface, cousin of the bride, served as matron of honor. Katrina McCleskey, sister of the bride, and Mushy Van Hook of San Saba were bridesmaids. Bridesmaid was Rene' Griffith of Austin. They wore gowns of cobalt blue crepe-backed satin. The bodice featured a wide off-the-shoulder double ruffle at the neckline. A slightly gathered skirt swept to floor length. The back waistline was accented with a bustle bow. They carried a garden bouquet of yellow roses and baby's breath with white ribbon streamers.

Flower girl, Aimee Barton of Lubbock wore a dress identical to the bridesmaids. She wore a halo of yellow roses in her hair.

Ringbearer Jason McCleskey, nephew of the bride, wore a white linen suit with cobalt blue tie. The ring pillow was made by the bride's paternal grandmother, Mrs. Arlise Sanders.

The groom was attired in a white cut-away tuxedo with

white accessories.

Attending the groom as best man was Jimmy Springer of Andrews. Groomsmen were Trey Culp of Andrews, brother of the groom, Tim Trower of Andrews, and Ken Campbell of San Angelo.

Ushers were Kelly Sanders, brother of the bride, Alan Webb and John Weldon of Welch.

After a wedding trip to Santa Fe and Glorieta, N.M., the couple will reside in Abilene where they will continue their education at Hardin Simmons University.

Immediately following the wedding ceremony, a reception was held on the church lawn. Serving at the bride's table were Darla Bird of Waco, Keri Bairrington, Regina Barnes and Sandy Guerrero. As the couple departed, long stem yellow roses were taken from the table centerpiece and presented to the parents and God Parents, Mr. and Mrs. Harold Brumit.

The bride is a graduate of O'Donnell High School and has attended South Plains College and Howard Payne University. The groom is a graduate of Andrews High School and South Plains College in Levelland.

COOKING PORK IN THE MICROWAVE--Pork prepared in microwave oven is tender, juicy, flavorful--and safe, says a Texas A&M University Agricultural Extension Service nutritionist, Dr. Dymple Cooksey. As a result of research conducted for the Pork Industry Group of the National Livestock and Meat Board, the following cooking methods for pork roast are now being recommended. Choose evenly shaped boneless roasts of 3 to 3½ pounds and with a diameter of no more than 4 inches. Place the roast in a 10 by 16 inch oven cooking bag and then in microwave safe cooking dish. Evenly sprinkle the roast with a package of pork or brown gravy mix. Close bag loosely with a string. Cook at medium low or 30 percent power (approximately 200 watts), allowing 22 minutes per pound. Invert or turn roast halfway through the cooking period and rotate the dish ¼ turn and continue cooking. Cover the roast (in bag) tightly with foil and allow it to stand 10 minutes.

The first electric shavers were for sale in 1931.

Investment Dressing

Saving money when buying clothes may be easier than you think. Experts suggest you look for styles and materials that are durable, classic, versatile, and which can be worn comfortably throughout most of the year. Here are a few hints from The Wool Bureau that may make you more skilled in the fine art of investment dressing:

For investment dressing, look for fabrics you can wear year round, such as lightweight wools, worsteds, gabardines.

- Look for fabrics which can be worn comfortably in a variety of temperatures. Lightweight wools for example, "breathe"—evaporating moisture from the skin—are durable and soil-resistant. Wools such as worsteds and gabardines are feather-soft and unlined, which means they can be worn almost all year round.

- Spend the biggest portion of your fashion dollar on clothing made of durable natural fibers in classic cuts. Don't economize when it comes to a basic black wool, linen or cotton skirt, which can be worn for years.

- A few dollars spent on an accessory that can take a garment from spring to fall is certainly a good investment. Switch from open toed shoes to closed pumps and a silk scarf and that lightweight wool dress you wore in spring will have a great seasonal look.

O'Donnell Open Winners Named

The O'Donnell Open was held Wednesday, Aug. 15, at the T-Bar Country Club in Tahoka. This marked the fourth year this golf tournament has been held. The tournament is sponsored each year by Wayland Taylor, Inc. and O'Donnell Oil and Butane. According to Jim Chambers, co-chairman, the field had to be limited to 90 players and there is a long waiting list wanting to enter.

At the end of a fun-filled day, trophies and prizes were awarded to almost every player entered.

For the first time ever, "Shorty" Farmer edged out Wayland Taylor for the traditional Taylor-Farmer shoot-out trophy.

Taking the championship trophies this year was the team of Tommy Gardenhire Jr., E.L. Farmer, Robert Draper and Charles Gass.

The grand prize, a three-day trip for two to Las Vegas, donated by Woolam Gin of O'Donnell, was won by Cecil Dorman.

During the awards ceremony, Jim Chambers gave special thanks and recognized the following businesses whose contributions made this year's tournament a big success.

Taylor Tractor & Equipment, McCord Motors, Nancy's General Store, Walker & Solomon Agency, Lynn County Farm Bureau, Farmer's Co-Op of O'Donnell, Venture Foods, Little's Grocery, Riverside/Terralamesa, Daw Lynn Gin.

Baking Ideas That Take The Cake

FROM THE KITCHENS OF BETTY CROCKER

Don't bake fruitcake by the calendar.

Bake it by the book. Specifically, the new "Betty Crocker's Cake Recipes for Every Occasion." Here you'll find eight pages at the beginning filled with sketches and technique tips plus more sketches and tips throughout the book to take you step-by-step to success.

Priced at \$13.95 and available at book and department stores, this latest volume in the popular Betty Crocker series can set you on your way to baking better batter and world-class cakes.

The Fruitcake Ring below will add that special glow to mealtime endings all year around.

FRUITCAKE RING

Mince-meat Fruitcake (below)
 Browned Butter Glaze (below)
 1/3 cup coarsely chopped pecans

Bake Mince-meat Fruitcake as directed. Spread with Browned Butter Glaze, letting it run down side unevenly. Immediately sprinkle top with pecans.

Mince-meat Fruitcake
 2 eggs
 1 jar (28 ounces) ready-to-use mince-meat

16 ounces mixed candied fruit (about 2 cups)
 1 can (14 ounces) sweetened condensed milk
 1 cup coarsely chopped pecans
 2-1/2 cups all-purpose flour
 1 teaspoon baking soda

Heat oven to 300°. Generously grease and flour 12-cup bundt cake pan or tube pan, 10 x 4 inches. Beat eggs slightly in large bowl. Stir in mince-meat, candied fruit, and pecans. Stir in flour and baking soda. Pour batter into pan.

Bake until wooden pick inserted in center comes out clean, about 1 hour 50 minutes. Cool 15 minutes; remove from pan. Cool completely.

Browned Butter Glaze

2 tablespoons margarine or butter
 1 cup powdered sugar
 1 teaspoon vanilla
 1 tablespoon hot water

Heat margarine in saucepan over medium heat until delicate brown. Cool slightly. Stir in powdered sugar, vanilla and water. If necessary, stir in additional hot water. 1 teaspoon at a time, until glaze is desired consistency.

Much More Fun

Any family, from anywhere, can have much more fun in one day than all the other days put together. **Alamo Village**, the town that was built to make movies will be celebrating their 24th Annual Labor Day Backyard Cowboy Horse Races, 7 miles north of Brackettville on Highway 674.

On Monday, September 3, live entertainment is planned for the entire day. The gates open at 9 a.m.

Valentino and the Shahan Express Band will provide the exciting music. From the fiddle, lead guitars, steel, banjo, bass and drums of this high energy group comes the kind of country music people love to dance to and hear.

Valentino, Rocco, Glenn and Johnny do vocals, as well as harmony.

Lashawn Wardlaw, the vivacious Miss Rodeo Texas 1984, will be there to add her charm and beauty to the West like it really was. Lashawn, crowned in San Antonio by Larry Mahan, six times All-Around World Champion Cowboy, will continue promoting "Rodeos in Texas" until December. She is being looked upon as a leading contender for the Miss Rodeo America title, to be determined in Oklahoma City in conjunction with the National Finals Rodeo.

Lashawn's bookings are handled by Carl Mertens, San Antonio, Alamo Ad Center.

The backyard cowboy horse races will get underway right down Main Street at Alamo Village immediately following the Texas-style outdoor barbecue lunch.

Any cowboy or cowgirl riding western saddle who feels their horse can win is invited to enter, excluding stud horses, or race horses that have been on the track.

Much More Fun, Alamo Village has to offer: rides aboard an authentic stagecoach, horseback rides, a shooting gallery and plenty of time for browsing through the museum walk-ins. There is an Indian store, a general store, trading post and the Cantina is open serving food and soft drinks.

Happy Shahan, owner of the movie site, says to bring the whole family, spend the entire day at the 24th Annual Labor Day Backyard Cowboy Horse Races in Brackettville on Monday, September 3--you will have **Much More Fun**.

For additional information, contact Happy Shahan, Box 528, Alamo Village, Brackettville, TX 78832. 512/563-2580.

Tips make moving easier

With home sales increasing, millions of Americans will find themselves moving this year.

"Moving doesn't need to be a major burden -- if you get organized," says Linda Vannoy, employee relocation manager of R.J. Reynolds Industries, Inc.

"Developing and following a good checklist not only takes a big step toward protecting your possessions, it can also save you money, time, family squabbles and headaches," Vannoy says. Her tips:

- Prepare a household inventory that describes each item in detail and states the replacement value. Give away or discard those things you're not likely to use again.
- Take photographs of all furniture, art and valuables. These will be helpful in case of an insurance dispute. All fine art and antiques should be appraised.
- Make sure insurance covers replacement value. Avoid insurance that covers actual value, since this is usually considerably less than what replacement will cost.
- At least two weeks in advance, arrange for utilities and make deposits so that service is available on arrival. Also, arrange for current meters to be read on

moving day and file change-of-address forwarding cards with the post office.

- If moving out of town, collect all personal records: banking references, insurance papers, school records, dental and medical records including eyeglasses and medicine prescriptions. Carry important papers with you instead of packing them. Notify the Selective Service Board, the Veterans Administration and military reserves, if appropriate.
- Movers charge overtime for weekend moves, so avoid planning one if possible.
- Arrange transportation or adoption of pets and plants, which most movers will not handle.
- Dispose of all flammable substances such as cleaning fluids, matches and lighter fluids. These are forbidden by law on moving vans. Also drain fuel from power mowers and other machinery.
- Supervise the packers and movers carefully. Number each box as it leaves the house and keep a list of numbers by room for quick identification of any lost goods at arrival.
- Be sure to keep a moving-expense record for tax purposes.
- And pack the old telephone book -- it may prove very helpful after the move. ▲

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Not many years ago it was byssinosis and its dire threat to cotton consumption that was sending chills up the spine of cotton industry folk from coast to coast. Now, it's formaldehyde.

"Just as we were learning to live with cotton dust regulations related to byssinosis," says Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc., "along comes the Environmental Protection Agency (EPA) with a proposal to determine if the use of formaldehyde in apparel manufacturing poses an unreasonable threat to textile workers."

Formaldehyde treatment is an essential step in the production of all durable press fabrics containing cotton or other cellulosic fiber such as rayon. Durable press fabrics of 100 percent polyester, for example, require no formaldehyde-containing chemicals.

In response to the EPA proposal, the National Cotton Council (NCC) disputed the need to regulate formaldehyde use, citing studies it said show the chemical poses no unreasonable health threat.

Analyzing possible effects of the EPA action, NCC said total annual loss to the raw cotton industry alone would approximate 2.8 million bales valued at \$1.3 billion if formaldehyde-containing finishes could not be used. The baleage figure, NCC says, represents 80 percent of cotton use in apparel and almost half of total domestic cotton consumption each year.

"If durable press apparel can't be produced competitively in the U.S. because of formaldehyde regulation," NCC warned, "consumer demand for these products would be met by imports at a cost of hundreds of thousands of jobs."

The United Auto Workers (UAW) earlier entered a plea to require the Occupational Safety and Health Administration (OSHA) to reach a decision on emergency or permanent rulemaking for formaldehyde by October 2. The U.S. District Court for the District of Columbia recently rejected the UAW plea, but ordered the agency to submit timetables by August 10 outlining when decisions would be completed.

OSHA has maintained it needed at least four months to decide if temporary standards were needed and at least nine months to decide on permanent rulemaking. But the latest court action will put new pressure on OSHA to act sooner, NCC says.

"Research by NCC, Cotton Incorporated and the American Textile Manufacturers Institute," Johnson states, "has been and continues to be the primary key to reducing the adverse effects of cotton dust regulation."

"And we will be lending our full support to these same organizations as they employ the resources and the expertise necessary to either eliminate or at least mitigate this latest threat."

DAY-TO-DAY MONEY MANAGEMENT--Where does all the money go? You'll never have a good answer to this question unless you have a method for keeping financial records, says home economist Mary Clayton Nance. "Keeping records may not be the most desirable task, but it is necessary one for effective money management," says Nance, a specialist with the Texas Agricultural Extension Service. Record-keeping should be a cooperative effort among all members of the household, although the person best qualified should assume major responsibility for the task, she says. The first step is to organize a work space, which includes a table surface and adequate facilities for storing records, says Nance. Then you will need to develop a workable record-keeping system. This is a simple procedure for forecasting expected income, estimating money you need, making spending plans, keeping a record of how money was used and reviewing family money management, explains the home economist.

VOLUNTEER ROUNDUP

More than 620,000 people volunteered their time during 1983 to America's largest out-of-school educational program: 4-H.

The number of 4-H adult volunteers is roughly the same as the populations of Vermont or Delaware. Most of the volunteers worked with the more than 5 million young people who are members of 4-H. In March, the National 4-H Council completed an informal survey of a sample of the 4-H leaders. Using a grant from R.J. Reynolds Industries, Inc., 52 4-H volunteers -- one from each state, the District of Columbia and Puerto Rico -- were selected to attend a leadership training program called "Salute to Excellence."

A survey of these 52 state representatives indicated that fewer than 20 percent of the 4-H volunteers live in cities and towns with populations of 10,000 or more. The majority of the 4-H volunteers were between the ages of 31 and 50. The average volunteer had been donating time to 4-H for 12.7 years and had been responsible for the training of 53 other 4-H volunteer leaders.

Baking Ideas That Take The Cake

FROM THE KITCHENS OF BETTY CROCKER

Big Burger takes the cake for originality.

A burger for dessert? Yes, if it's a Big Burger Cake, it's likely to delight all members of the family. This imaginative cake is one of over 100 kitchen-developed and taste-tested Betty Crocker cakes featured in a new book: "Betty Crocker's Cake Decorating with Cake Recipes for Every Occasion."

Now, bring on the burger-cake, that is:

BIG BURGER CAKE

Yellow Casserole Cake (below)
2 teaspoons toasted sesame seed
Peanut Butter Frosting (below)
2 tablespoons cocoa
1 to 2 tablespoons strawberry preserves

Bake Yellow Casserole Cake as directed. Prepare Peanut Butter Frosting. Cut cake horizontally into 3 equal layers. Frost side only of bottom layer.

Mix 3/4 cup of the remaining frosting with the cocoa; if necessary, stir in 1 to 3 teaspoons milk for spreading consistency. Frost top of bottom layer with part of the cocoa frosting. Place middle

(hamburger) layer on top; frost top and side of middle layer with remaining cocoa frosting.

Drizzle side of middle layer with preserves to resemble catsup. Place remaining (rounded) layer on top. Frost with remaining frosting. Immediately sprinkle top of cake with toasted sesame seed. 10 to 14 servings.

Yellow Casserole Cake
2 cups all-purpose flour
1 cup sugar
1/4 cup margarine or butter, softened
1/4 cup shortening
3/4 cup milk
3 teaspoons baking powder

1/2 teaspoon salt
1 teaspoon vanilla
2 eggs

Heat oven to 300°. Grease and flour 1-1/2-quart round casserole. Beat all ingredients in large bowl at medium speed, scraping bowl constantly, until blended, about 30 seconds. Beat on high speed, scraping bowl occasionally, 2 minutes. Pour into casserole; spread evenly.

Bake until wooden pick inserted in center comes out clean, 1 hour 5 minutes to 1 hour 15 minutes. Cool 10 minutes; remove from casserole. Cool cake completely.

Peanut Butter Frosting
3 cups powdered sugar
1/3 cup creamy peanut butter
1/3 cup milk

Beat all ingredients on medium speed until frosting is smooth and spreading consistency. If necessary, stir in additional milk, 1/2 teaspoon at a time.

Note: To toast sesame seed, heat on ungreased cookie sheet in 300° oven until golden brown, about 3 minutes.

QUICK QUIZ

They called it "The Roaring Twenties," and for many Americans in the 80s, the years from 1920 through the stock market crash remain one of the most colorful and exciting decades in our nation's history. Taking this quiz may bring back some memories—or give you new insights into a special era.

1. She was known as "America's Sweetheart." a. Clara Bow b. Mary Pickford c. Lillian Gish

2. The popular 1920s dance shown above was known as: a. The Charleston b. The Tango c. The Cake Walk

3. In 1929, there were more telephones than automobiles. a. True b. False

Answers: 1-b. She was married to another famous 20s film star, Douglas Fairbanks. 2-a. It was most often danced by young ladies known as "flappers." One daring dancer even attempted what may be considered the ultimate Charleston—she danced on an airplane wing, one thousand feet in the air. 3-b. There were 26 million automobiles and trucks on the road, roughly one car per family, and 10 million telephones in use. These are just some of the interesting facts featured in "The Twenties," an hour-long documentary special that's part of the continuing Chevron-sponsored public television series, "A Walk Through the 20th Century with Bill Moyers."

TIPS FOR HOMEOWNERS

Tips For Better Kerosene Heater Performance

Here are some tips for owners of kerosene heaters to help insure that your heater burns cleanly and efficiently.

- **Fuel:** Use water clear 1-K kerosene only. Other grades are higher in sulfur and burn dirtier. Kerosene stored through the spring and summer becomes impure with age and should be replaced each season.

- **Wick:** Don't buy generic replacements unless they meet exact manufacturer's specifications. A cheap wick can smoke, burn too hot, and deprive you of fuel at the bottom of the reservoir. And remember, fiberglass and cotton wicks are not interchangeable.

- **Maintenance:** Clean the area around the wick of carbon every season using fresh kerosene and an emery cloth or fine steel wool.

Although new heaters like the Toyostove Double Clean models burn more completely in two chambers, experts at the company suggest you leave the door to the rest of the house slightly ajar to improve the circulation of warm air when operating any kerosene heater.
