TUESDAY RAIN HELPED COTTON

More Showers In Aug. Seen In County

by Vern Foltz

The backbone of summer 1960 style has been broken. The passage of cool air thru West Texas on August 9 and a good rain Wednesday morning early restored our air circulation to the more familiar frontal onslaughts. The intrusions of cool air are shallow, to be sure, but they will become stronger.

More weak fronts are due through Bailey County August 13 and August 17. A much cooler and more significant front of cool air will hammer through the "Lucky City of Muleshoe" late August 21.

This doesn't mean that the

Anthony Weather On Amarillo TV

Don Peoples, the Anthony Weatherman on KVII-TV, is rapidly building a solid reputation for his reliable and complete weather forecasting and reporting.

One big reason for his "almost overnight" success is the installation of his complete weather station at the Channel 7 studios.

This means Don is able to couple his knowledge and experience as a registered professional meteorologist together with the necessary recording instruments and direct wire service to bring his viewers a truly accurate weather report.

Don is even equipped to show a "watch tower" view of severe weather as it approaches as seen from the K-7 Weather-eye in the sky located high atop the First National Bank building in Amarillo.

But even with all his know-how, Don must depend on you, his viewers, to supply him with valuable information from your area. Don invites you to call him at Channel 7 when you have important weather information to report, such as unusual amounts of rain or hail or perhaps damaging winds in your vicinity. Most of all, Don Peoples wishes to invite you to watch the Anthony Weather each weekday evening at 10:10 on KVII-TV Channel Seven, Amarillo.

Coaches Attended School In Dallas

All four members of the Muleshoe school coaching staff attended the annual school coaches convention conducted in Dallas by the Texas Coaches Ass'n.

The school, held at SMU, and in the municipal coliseum, attracted more than 3,000 coaches.

Local coaches attending were: Jake Halter, Bill Taylor, George Washington, and Louis Powers.

BIG DROP FORESEEN

80,000 Bales In Bailey For 1960 Estimated

LUBBOCK — The first estimated production total of the Texas High Plains 1960-61 cotton crop for the 23 member counties of the Plains Cotton Growers, Inc., was announced today as 1,899,000 bales.

If produced, such a crop would be the second largest crop in history ever harvested off the High Plains, being topped only by the more than two million bales harvested in 1958. Production this past year, 1959-60 was 1,869,353 bales.

The estimated production total of 1,899,000 bales is expected off total 23-county allotments this year of 2,263,395 acres and standing acreage as of August 1 totals approximately 2,175,000 acres.

Condition of the cotton crop as of August 1 was given as good to excellent. Hot, dry summer weather during July enabled the crop to do some "catching up" and most agricultural observers see the crop as perhaps somewhat late this year, but still in good shape.

hot weather is a thing of the past. Several hot days will mingle with the cool spells for about another month.

More showers will dot the remaining days of August in contrast to the skimpy .05 rainfall in the U-Bar City between July 17 and August 10.

Nearly Inch Here

Scattered showers skirted Muleshoe for several days in the week just past, but no rain could reach our shores. Finally, in the early morning hours of August 10 a slow-moving rainsquall emptied itself on the southern High Plains. Muleshoe measured .96.

This is the first rain of the month for Muleshoe though scattered showers have been visible to city residents several days of August. This brightens our August outlook of two inches.

The 1960 rainfall total through August 10 now stands at 14.59. This compares with the normal to this date of 11.60. To this date in 1959 we were measuring 12.53.

Grain sorghum and cotton fields received good rains. The sorghums are heading out and the cotton plants are developing bolls. Wednesday's rain did much in the way of finishing out the crops. If Muleshoe gets the other one inch of August rainfall called for the top crops will yield excellent harvests. Their present condition is ideal.

There are continuing chances for rain on August 13, 17, and 21. August 21 and 22 may produce some rather violent weather in West Texas.

The low temperature Wednesday morning was 60 degrees. This is the coolest temperature Muleshoe residents have enjoyed in over five weeks.

Cooler morning temperatures are in store for the period ahead. Muleshoe temperatures should stack up as indicated:

Date	Lo	Hi	Devis.
Fri.	64	92	3
Sat.	58	89	-3
Sun.	60	93	0
Mon.	62	94	1
Tues.	58	90	-2
Wed.	55	88	-4
Thurs.	60	92	0

In The Journal's First Freeze contest for Muleshoe guesses range from October 4 through November 20. All dates are not filled in between these two guests, so get yours in soon.

Some of the good weather guessers to this point are: Morris McKillip, Gary Strahan, Horace Holt and Maxine Coley, all of Muleshoe; F. O. Warren, Sudan, and John Hubbard, Bula.

The contest is open until September 28. The winner receives a \$25 United States Savings bond.

This, if it is borne out, would be a reduction in the county's production of 16,744 bales from the record crop of 96,744 bales grown in 1958.

It is presumed that there will be revisions in this preliminary estimate from time to time until harvest and perhaps the figure assigned for this county will be hiked. It is certain that the cotton crop here has shown great progress since August 1.

Luncheon Will Welcome 100 Local Teachers

Nearly 100 teachers and administrative personnel of the Muleshoe school system will be guests of honor at a special welcome luncheon hosted by members of Muleshoe's three service clubs on August 25.

The event is sponsored annually by the Muleshoe Chamber of Commerce Education Committee, headed this year by W. B. McSpadden and Ray Daniel.

To be held at Leigon's Dining Room, the luncheon will feature an address of welcome by Mayor Houston Hart, introduction of teachers and hosts, and brief entertainment.

Arrangements are under the direction of Mrs. Ernest Kerr, Dr. A. J. Black, and Superintendent Neal Dillman.

All three service clubs in Muleshoe, the Lions, Rotary, and JayCees will forego their regular meetings to meet jointly with the teachers and to act as hosts.

Civil Defense Meet Called Here Tuesday

"A disaster resulting in injury to 50 or 100 people in the Muleshoe area would be a tragedy, due to the lack of organization and facilities for handling such mass injury."

So said a local physician this week in commenting on the great need for a county Civil Defense unit in Bailey County.

"A tornado might easily cause such mass injury," he continued, "and local facilities would simply not be adequate. But, a properly organized Civil Defense unit could be trained to react swiftly and efficiently in such instances, or in case of any catastrophic event."

The Muleshoe Chamber of Commerce Defense Committee, headed by County Judge Glen Williams, Dr. G. H. Chambers, and Earl Harris, has called a public meeting for anyone interested in helping organize a Bailey County Civil Defense unit.

The meeting will be held on Tuesday at 8 p.m. in the dining room at Leigon's.

Members of the committee emphasize that the meeting is open to the public, and also "that the threat of danger from natural and man-made disaster increases daily."

Committee members commented on the situation saying, "Learning how to protect themselves in event of natural or other emergencies has become a MUST for the American people."

A properly organized Civil Defense unit in Bailey County would include other phases in addition to a medical organization. Fire fighting, sanitation, flood relief, communications, and a host of other services would be needed in case of a catastrophe.

And, under the auspices of an organized CD unit, material and supplies in addition to major pieces of equipment could be obtained for CD use at extremely low prices from government surplus agencies and from the Civil Defense Department.

Everyone interested in protecting themselves and their families in case of disaster, should attend the Tuesday meeting.

OFFICERS REPORT SEVERAL BUSY DAYS

The county had 17 barbers Tuesday, the sheriff's office reported, coming as a result of several days of activity on the part of city, county, and Highway Patrol officers.

HAVE YOURSELF A BALL — COME TO THE MALL!

Big Crowd For First National Formal Opening

Hundreds of visitors crowded the First National Bank here at the formal opening of their expanded and improved building Sunday, July 31.

M. D. Gunstream said that the crowd included some 100 area and downstate bankers. The lobby lounge, officers and directors' quarters were profusely decorated for the occasion with flowers, gifts of local and territory well wishers.

The people began filing in as soon as the doors were opened at 2 o'clock in the afternoon, coming in double rows, and long lines developed on the sidewalks.

Everyone registered for eight attendance prizes. Winners were: Mrs. David Anderson, John Benson, Houston Bartlett, Roger Albertson, Edwards, and Mrs. Mattie Hammons, all of Muleshoe, and Marie Houston, Priona. Prizes were gift certificates good for \$40 worth of merchandise at any store in Muleshoe.

GREEN BUTANE SPONSOR OF QUEEN CANDIDATE

Candidacy of Polly Briscoe for Bailey County Farm Bureau queen is being sponsored by Green Butane of Muleshoe. Name of the sponsor was not known when the list of queen candidates was published in last week's Journal.

Sixteen girls are entered in the contest which will be unveiled here tonight.

NEW VENTURE IN MERCHANDISING

First Muleshoe Shoppers Mall Set For Saturday

Saturday August 13 will mark the date of a new venture in merchandising in Muleshoe. The first annual Shoppers' Mall will be held that day on the three blocks of Main Street, which will be blocked off to all but foot traffic.

A total of 50 firms and organizations will be displaying back to school merchandise, food, and other products and exhibits for the edification of residents of the West Plains.

The Mall begins at 9 a.m. on Saturday and will continue all day. Norman Thomas,

NO. 2 THE MANUFACTURE OF WEATHER

New Layman's Rain Rule; 50 Percent - 20 Degrees

When a pan of water boils you notice steam rising from it. This steam is no more than fog or a cloud as seen in the sky.

Some may wonder what becomes of steam since it never seems to rise more than a foot or two above the container. Actually the steam is evaporating quickly into the air around it. The only reason we are able to see the steam is because the air around it is much cooler than the boiling (vaporizing) temperature of the water.

The room temperature first causes the vaporizing water to condense into tiny "cloud droplets" which are visible as steam. The room temperature then absorbs the steam to disappear. The water vapor has "dried" into the air. Such water in the air is called humidity.

Humidity changes the characteristics of air considerably. It changes the weight. Humid air is lighter than dry air of the same temperature. Humidity changes the rate of temperature change. Temperatures change more slowly in humid air than in dry air. It changes

the sensitivity to animals. In summer we feel the heat more if the air is humid. In winter it takes a higher temperature to feel comfortable if the air is dry.

Such humid air heats and cools more slowly than does dry air, the humid tropics do not experience as high temperatures as do the drier temperate zones. Anyone who lives in the middle latitudes (30 degrees to 60 degrees north or south latitude) realizes that 100 degrees is often surpassed in the summer dry spells. Yet in the humid tropics in the vicinity of the equator the temperature seldom reaches 100 degrees.

This does not mean that the tropics are cool. Even though the daytime temperature may not exceed 100 degrees the nighttime temperatures somewhat remain about 85 degrees. It is of interest to note here that one of the earth's driest climates has recorded the world's official highest temperature of 136 degrees. This temperature was recorded at standard conditions at Azizia, Lybia, Africa, about 25 miles south of Tripoli on 13 September, 1922. The location is in the middle latitudes at about 32 degrees north latitude.

Such hot dry spots also favor rapid cooling after sunset. Usually the temperature at night will drop 40 degrees or more from the day's high, but 40 degrees from 110 is still hot. If it were not for the ability of the air to contain water vapor there would be no rain. Nearly all land areas would be desert. Human life would have to maintain itself from the bounty of the oceans.

We are fortunate that air does have the capacity to hold water vapor. In fact, the warmer the temperature of the air, the greater is the volume of water vapor the air can carry. The following table gives the capacity of water vapor which one cubic foot of air is able to absorb at various temperatures (each amount represents 100 per cent humidity at that temperature)

Reeder Child Is Home After Surgery

Harold Eugene Reeder, 3 1/2 year old son of Mr. and Mrs. H. E. Reeder, Jr., is back home from Methodist Hospital, Lubbock, where surgery had been performed to remove an eye because of injuries he suffered July 29 in an unusual accident.

As his father operated a rotary lawn mower a coat hanger was picked up and a piece of it hurled across the yard, striking the boy in the left eye, causing a two inch cut. He was treated here then taken to Methodist Hospital, where he was under treatment for eleven days. The surgery was performed five days after the accident.

The parents will take him to Broome Optical, Lubbock, Friday to try to get him fitted for an artificial eye.

Jewelry, Cobb's, Kirby Vacuum Sales, Bass Appliance, Muleshoe Jewelry, Haydon Jewelry, Western Auto, Francis Implement,

Johnson Furniture, KMUL, Muleshoe State Bank, First National Bank, Anthony's, Perry Bros., and Cashway.

Nan Allison Is Honored With A Gift Coffee

Miss Nan Allison bride-elect of Charles (Buddy) Pool, was honored at a gift coffee last Friday morning, August 5, from 9 to 11, in the home of Mrs. Rufus Gilbreath, 619 West Seventh.

In the receiving line with the honoree were her mother, Mrs. Oscar Allison, Buddy's mother, Mrs. Lee Pool, and Nan's maternal grandmother, Mrs. Sam McKinstry. Mrs. Gene Tunnell and Miss Doris Ann Gilbreath registered the guests.

Mrs. Kenneth Powell and Miss LaVon Copley alternated at the serving table. Appointments were silver and crystal on a pink cloth and points of interest were a beautiful arrangement of pink gladioli and fuschia roses in crystal, and watermelon balls on crushed ice in a crystal bowl. An assortment of fruit breads and coffee were served the guests.

In the house party were the bride-elect's aunts, Mrs. Gerald Allison and Mrs. Harold Allison, her cousins, Veta and Carolyn Allison, Mrs. Lucille Foster from Greenville, and the bridegroom's sisters, Sylvia and Cynthia Pool.

Many beautiful and useful gifts were displayed in the den of the Gilbreath home. The hostess gift was a copper-clad electric Coffeemaker.

Hostesses were presented gifts of pretty finger-towels by the honoree. Joining Mrs. Gilbreath as hostesses were Mrs. Horace Edwards, David Anderson, A. W. Copley, Kenneth Briscoe, Arlys Leveridge, John Inman, W. T. Millen, Ralph Douglas, L. S. Barron, Travis Reed, Gil Lamb, and A. R. McGuire.

'Sandhill Party' Enjoyed By Class

The Cme Double Sunday School Class of the First Methodist Church enjoyed a "sandhill party" Friday, August 5. The members met at the church at 6:30 p.m., and all proceeded to the sandhills for games and food.

The menu consisted of hot dogs, potato chips, pickles, Fritos, cookies, fruit, and Kool Aid. Those attending the festivities were Mr. and Mrs. Hilbert Wisian and Jim Don, Mr. and Mrs. Sonny Kirklen, Kirby and Marsha, Mr. and Mrs. Don Sumrow, Julie and Jeff, Mrs. Jan Wampler, Gayle and Kay, Mr. and Mrs. Robert Hooten, Gayla and Gary, Mr. and Mrs. David Stovall and Robert, Mr. and Mrs. Jimmy Presley and Sherman Weldon, and Mr. and Mrs. Joe Roark.

Miss Young Becomes Bride Of Mr. Rodgers Saturday, Aug. 6

MRS. RICHARD RODGERS

Miss Beverly Sue Young of Muleshoe, daughter of W. R. Young and the late Mrs. Young, became the bride of Richard Bailey Rodgers of Lubbock, son of Mr. and Mrs. Roy N. Rodgers, also of Lubbock, in a beautiful double-ring ceremony read by Rev. E. K. Shepherd at 7:00 p.m., Saturday, August 6, in the First Baptist Church.

The bride, given in marriage by her father, was wearing a lovely street length dress of white silk organza accented with a sabrina neckline and a tiered skirt, white kid gloves and white peau de sole shoes enhanced her costume. Her headpiece was composed of silk organza and illusion net. She carried a bouquet of white Rubrum lilies and stephanotis highlighted with rhinestones, pearls and peau de sole leaves.

Serving Miss Young as maid of honor was Miss Angela Maulouf of Lubbock. She was wearing a sheath of peau de sole accented with a scoop neckline and white kid gloves. Her headpiece was of pink organza and she carried a bouquet of white Marguerite daisies.

Roy N. Rodgers served his son as best man. Serving as ushers for the occasion were John R. Young and Jim Young, brothers of the bride.

Formal arrangements of white gladioli and pink Killen daisies accented with salad and comrade fern trees decorated the church. The traditional wedding music was provided by Mrs. E. H. Kennedy.

Mrs. John Young registered the guests at the wedding. For the couples wedding trip to Denver, Colo., the bride was wearing a fall cotton ensemble with black accessories.

Mr. Rodgers is surgeon's assistant to Dr. John H. Selby in Lubbock. He was educated at the University of Oklahoma, Carver College, and Army School of Medicine. He was a member of Sigma Kappa fraternity. Mrs. Rodgers will continue to teach elementary school in Wolforth. Their new residence is 3704 21st, Apt. 3, Lubbock.

A REMINDER

All friends and relatives are invited to attend the wedding of Sandra Dean Chappell, daughter of Dean and Mrs. R. B. Chappell, and Eugene Mack Howard, son of Mr. and Mrs. Walter Howard, Sunday, August 14, at 3:00 p.m., in the First Baptist Church. Rev. E. K. Shepherd will officiate.

Mrs. Henry Schuster Is Hostess For Class

Mrs. W. T. Andrews presided in the absence of the president, Mrs. R. D. Precure during the regular meeting of the Friendship Sunday School Class of the First Baptist Church held in the home of Mrs. Henry Schuster, Thursday, August 4, at 7:30 p.m.

Mrs. Ray Griffiths gave the devotional. Committees were appointed for the year book, and also for officers and teachers for next year's work.

Mrs. Schuster, hostess and Mrs. Frankie Black, co-hostess, served refreshments to their members present.

NOBODY-BUT NOBODY SELLS

Muleshoe (Tex.) Journal, Thurs., August 11, 1960, Page 3

FINER PRODUCE

It's true! Every head of lettuce is crisper -- every carrot is crunchier -- every lemon juicier -- every tomato a little plumper and tastier. The reason for this is careful Piggly Wiggly buying, and even more careful transporting. Produce comes to you daily in refrigerated vans. The only way it could be fresher is if it hadn't been picked. What's more, nobody, but nobody, sells fine produce at a lower price!

...AND AT SUCH LOW, LOW PRICES

Minim... juicy, golden ears of fresh from the farm corn... tempting, tasty, terrific!

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.

HOUSE JOINT RESOLUTION NO. 6 proposing an Amendment to Section 11, Article XVI of the Constitution of the State of Texas, so as to give the Legislature authority to classify loans and lenders, license and regulate lenders, define interest, fix maximum rates of interest, and provide for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation setting maximum rates of interest; providing that the rate of interest shall not exceed six per cent (6%) per annum in contracts where no interest rate is agreed upon; providing for the right of appeal and trial de novo in the event any regulatory agency cancels or refuses to grant any permit; providing for the necessary election and the form of the ballots; and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 11, Article XVI of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 11. The Legislature shall have authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation fixing maximum rates of interest; provided, however, in the absence of legislation fixing maximum rates of interest, the rate of interest in contracts where no rate of interest is agreed upon, shall not exceed six per cent (6%) per annum."

Section 2. The Legislature shall have authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation fixing maximum rates of interest; provided, however, in the absence of legislation fixing maximum rates of interest, the rate of interest in contracts where no rate of interest is agreed upon, shall not exceed six per cent (6%) per annum."

Section 3. The Governor shall issue the necessary proclamation for the said election and have the same published as required by the Constitution and laws of this State.

Prather-Stephens Marriage Plans Are Announced

JANICE PRATHER

Mr. and Mrs. Elmer Frather announce the engagement and approaching marriage of their daughter, Janice to Gene L. Stephens, son of Mr. and Mrs. Houston Stephens, all of Earth. The marriage vows will be read by Rev. M. E. Robinson of Lamesa Sunday, August 21, at 3:00 p.m., in the First Baptist Church in Earth. All friends and relatives of the couple are invited to attend. Miss Prather is the granddaughter of J. L. Prather of Muleshoe.

Miss Hawkins, Mr. Taylor To Wed Friday Evening

JOAN HAWKINS

In a ceremony to be performed in Zion Primitive Baptist Church Friday evening, August 12, at 8 o'clock Miss Joan Hawkins will become the bride of Mr. Travis Taylor. She is the daughter of Mr. and Mrs. J. I. Hawkins, Sudan; Mr. Taylor is the son of Mr. and Mrs. Dave Taylor, of Ruidoso, N. M., formerly of Texico. Elder Glen Williams will officiate in the wedding ceremony. All friends of the couple are invited. Refreshments will be served at 2:30 p.m. Everyone is invited to attend.

Brooks' Enjoyed Nineteen Visitors

All is quiet again in the parsonage of the First Methodist Church of Muleshoe, which had as many as 19 guests at one time over the weekend. Visiting with the Rev. and Mrs. Horace Brooks and two daughters in the parsonage were:

Mrs. E. G. Lambeth, a sister of Rev. Brooks, her daughter-in-law. Mrs. Boyd Lambeth and children, Louise, John, Bob, Dick, and Dale, of Las Vegas, Nev.; Mrs. Brooks' sister and husband, Mr. and Mrs. Lee E. Simpsn, Odessa;

Mr. and Mrs. John A. Campbell and children, Terri, Lana, and Joan, Houston. Mrs. Campbell is a sister of Mrs. Brooks, and the three children had spent three weeks here with the Brooks. Also a visitor was E. S. Tunnell, Stephenville, Texas, Mrs. Brooks' father; and some friends, Mr. and Mrs. F. J. Young and Janice, of Seminole, where Mr. Young is school superintendent.

Miss Vaughn Honored With Party, Aug. 3

Mrs. M. E. Lee and daughter, Linda, honored Janet Vaughn of Albuquerque, N. M., with a lovely party in their home Wednesday, August 3. Janet is visiting with her grandmother, Mrs. Lela Barron.

Games were played and the honoree was presented with a gift. Linda Lee served punch and cookies to the following guests: Phillis and Sheryl Blair, Charlotte Billis Monda Aday of Calif., who was visiting in the Bob Knight home, and Angela Pittman of Midland, who is visiting in the home of Mrs. L. S. Barron.

Rogene Thomas Was Hostess For Salad Supper, August 9

Rogene Thomas was hostess in her home for the annual salad supper of the Los Planos Study Club Tuesday night, August 9. Dolly Althart was co-hostess for the occasion.

Various kinds of delicious salads were served to the following members: Betty Wagnon, Beverly Wagnon, Lauranette Mason, Sondra Mason, Polly Wampler, Helen Jacobs, Lena Ford, Martha McCormick, Ruby Hodges, Dean Lindley, Donna Kirklen; and also to the guests, Rosie Hudt, Jo Vinson, Lou Ann Blaylock, Jo Addine Mayhugh, and Frances Doss.

(1 lb. of water equals about 7,000 grains).

The amount of moisture which can be present in the atmosphere (as shown in the table above) depends upon the temperature of the air. You will notice that for each increase of 20 degrees the capacity of the air for holding water vapor is nearly doubled. This key is the basis for the layman's principal rule for determining the potential for rain.

When the relative humidity is 50 per cent at any temperature a 20 degree drop in temperature would produce rain or fog. If the relative humidity in Muleshoe were 50 per cent (regardless of the temperature) and a cold front is approaching with a prospect of dropping the Muleshoe temperature 20 degrees or more, rain is nearly certain to occur.

If the temperature of the colder air was less than 20 degrees lower than the Muleshoe temperature, or if the relative humidity was below 50 per cent in Muleshoe, it would be best not to look for rain. Sometimes factors besides these will determine the rainfall, but as a general guide, the layman's rule of 50 per cent relative humidity and a 20 degree temperature drop should serve fairly well.

It is unique that warmer air will hold more gaseous water than cooler air. Since this is so, rainfall can be brought about by a lowering of the temperature of warm moist air.

If air held the same amount of water at all temperatures there would be no way to make it rain. Cooling takes place in some way in all forms of rainfall.

The term "relative humidity" denotes per cent of the total possible water vapor in the air at a stated temperature. If the relative humidity is 35 per cent at 78 degrees it follows that the air could hold another 65 per cent of its total possible. This would bring the humidity to its full capacity of 100 per cent (or saturation point — often called the dew point).

The dew point is no more than 100 per cent humidity at a stated temperature. At the dew point (which is always stated in degrees Fahrenheit) the water vapor begins to condense. You will recognize this condensation as steam rising from boiling water.

Juanita Thompson In WAC Training

Cadet Juanita Thompson left Sunday, July 31 to report for training at Ft. McClellan, Ala. She is participating in a WAC officer training program for college juniors and seniors offered each summer.

Miss Thompson was one of the seven girls selected from an area comprised of the states of Texas, New Mexico, Oklahoma, and Arkansas. She is a 1958 graduate of Muleshoe High School, and is a senior at Eastern New Mexico University, Portales. She is the daughter of Mr. and Mrs. Jess Thompson, Muleshoe.

Witnesses Gather At Altus, Okla.

The Muleshoe Congregation of Jehovah's Witnesses announced at the weekly Watchtower Study Class that their next three-day training program for Texas Circuit No. 9 will be held at Altus, Okla., Sept. 2-4.

Elmer B. Lowery, presiding minister of the Muleshoe congregation, said, "Jehovah's Witnesses take these conventions most seriously and take the whole family to receive the Christian fellowship and spiritual information that is dispensed."

Lowery explained that "by having weekly Bible studies and these training programs together with their 'little ones' Jehovah's Witnesses have overcome the problem of child delinquency."

"The proverb," Lowery said, "To 'train up a child in the way he should go; and when he is old, he will not depart from it,' has proven most practical for Jehovah's Witnesses."

The 19 convening congregations from Oklahoma, New Mexico, and Texas will highlight the theme, "Seek Peace and Pursue It."

WMA Elects New Officers Aug. 10

Mrs. Glen Splawn presided during the regular business meeting of the WMA of the Main Street Baptist church Wednesday night, August 10. New officers were elected for the year.

New officers elected were as follows: Mrs. Gene Welch, president; Mrs. Lee Kimbrough, first vice-president; Mrs. Glen Splawn, second vice-president; Mrs. Jim Shafer, reporter; Mrs. Ed Nickels, secretary-treasurer; Mrs. J. T. Eubanks, assistant secretary; Mrs. Roy Atchison, teacher; Mrs. J. T. Eubanks and Mrs. R. L. Kimbrough, assistant teachers, and Mrs. Sig Kimbrough, song leader.

The WMA also voted to assist the teenagers of the church with selling vanilla and black pepper. The teenagers have been doing this to help with their projects.

Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.

HOUSE JOINT RESOLUTION NO. 2 proposing an amendment to Section 24 of Article III of the Constitution of the State of Texas allowing an annual salary of not to exceed Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem allowance of not to exceed Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Regular Session and for thirty (30) days of each Special Session of the Legislature as the maximum compensation for Members of the Legislature; limiting the Regular Session to one hundred and forty (140) days; and prescribing the form of ballot and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended so as hereinafter to read as follows:

"Section 24. Members of the Legislature shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem of not exceeding Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Regular Session and for thirty (30) days of each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days.

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no Member shall be entitled to mileage for any extra (1) day after the adjournment of a Regular or Called Session."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the 8th day of November, 1960, at which election all ballots shall have printed thereon the following:

"FOR THE CONSTITUTIONAL AMENDMENT ALLOWING AN ANNUAL SALARY OF NOT TO EXCEED FOUR THOUSAND, EIGHT HUNDRED DOLLARS (\$4,800) PER YEAR AND A PER DIEM ALLOWANCE OF NOT TO EXCEED TWELVE DOLLARS (\$12) PER DAY FOR THE FIRST ONE HUNDRED AND TWENTY (120) DAYS ONLY OF EACH SESSION OF THE LEGISLATURE AS THE MAXIMUM COMPENSATION FOR MEMBERS OF THE LEGISLATURE; LIMITING THE REGULAR SESSION TO ONE HUNDRED AND FORTY (140) DAYS; AND PRESCRIBING THE FORM OF BALLOT AND PROVIDING FOR THE NECESSARY PROCLAMATION AND PUBLICATION."

"AGAINST THE CONSTITUTIONAL AMENDMENT ALLOWING AN ANNUAL SALARY OF NOT TO EXCEED FOUR THOUSAND, EIGHT HUNDRED DOLLARS (\$4,800) PER YEAR AND A PER DIEM ALLOWANCE OF NOT TO EXCEED TWELVE DOLLARS (\$12) PER DAY FOR THE FIRST ONE HUNDRED AND TWENTY (120) DAYS ONLY OF EACH SESSION OF THE LEGISLATURE AS THE MAXIMUM COMPENSATION FOR MEMBERS OF THE LEGISLATURE; LIMITING THE REGULAR SESSION TO ONE HUNDRED AND FORTY (140) DAYS."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and Laws of this State.

SPECIAL FOR COFFEE-BREAK TIME

"As good as they look" is one of the oldest clichés on record—yet it's so true when applied to Honey Twists. These are tempting yeast-raisin rolls filled with spicy sugar and baked in a honey mixture that gives them wonderful added flavor as well as that attractive glossy appearance. The recipe makes twelve—but it's no trouble to double! Quick-rising Honey Twists can come hot from the oven in time for the mid-morning coffee-break.

HONEY TWISTS

1/4 cup milk	2 1/2 cups sifted enriched flour (about)
1/4 cup sugar	1/4 cup margarine or butter
3/4 teaspoon salt	1/2 cup brown sugar
2 tablespoons margarine or butter	2 tablespoons honey
3/4 cup warm, not hot, water	2 tablespoons melted margarine or butter
2 packages of cakes yeast, active dry or compressed	1/4 cup brown sugar
1 egg, beaten	1 teaspoon cinnamon

Scaled milk; stir in sugar, salt and margarine or butter; cool to lukewarm. Measure water into large bowl (warm, not hot, water for active dry yeast; lukewarm for compressed yeast). Sprinkle or crumble in yeast; stir until dissolved. Add lukewarm milk mixture, beaten egg and half the flour; beat until well blended. Stir in remaining flour to make soft dough. Turn out onto lightly floured board. Knead until smooth and satiny, about 5 minutes. Shape into ball; place in greased bowl, turning once to grease top of dough. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 1/2 hour. Meanwhile, melt 1/4 cup margarine or butter; stir in 1/4 cup brown sugar and honey; bring to rolling boil. Spread immediately in jelly roll pan; let stand. Pinch dough down; turn out onto lightly floured board. Roll out into 12-inch square. Brush with 2 tablespoons melted margarine or butter. Sprinkle center third with half of the 1/4 cup brown sugar and cinnamon. Fold one third over center third. Sprinkle with remaining sugar and cinnamon. Fold remaining third over the two layers. Cut with sharp knife crosswise into strips about 1 inch wide. Take hold of each end of strip and twist. Seal ends firmly. Place in prepared pan about 1 1/2 inches apart. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1/2 hour. Bake at 400° F. about 20 minutes. Invert pan immediately. Makes 12.

THIS WEEK IN WASHINGTON

With the political campaigning occupying the center of national attention, the loneliest man in Washington could be Secretary of Agriculture Ezra Taft Benson.

He could be compared to the captain of a ship tossed by a storm of controversy, and from which many of the crew have mutinied and deserted. Many of his some four million farm passengers are discontented.

The Republican party which placed him in command of agriculture did not invite him to give advice in developing a farm program

Since 1953 Benson, as head of the Department of Agriculture, has spent more than \$40 billion. That is more than the Department spent in the 90 years that elapsed from the date of its establishment to Benson's appointment.

Despite an Agriculture Department budget that amounts to \$7 billion a year, net farm income has declined from \$17 billion to \$11 billion a year, including both the sale of farm products and government payments.

Net farm income per capita last year was less than \$1,000 about half the national average. More than two million people leave farms each year to seek better paying city jobs.

While many of those around him have become discouraged, Benson has never lost faith that his policies will, eventually, prevail. He contends that the situation is the result of bad legislation enacted before 1953 and continued too long afterward.

In a "Report to the American People" on his 7 1/2 years, which he plans to make 8 full years, as Secretary of Agriculture, Benson described these as "a period of great and lasting progress."

"The groundwork has been laid for the kind of prosperous, expanding and free agriculture that is so basic to a strong, virile, secure America."

He has sailed in troubled waters. Against a trend of rising national prosperity, farm income has gone steadily and alarmingly downward. Non-farm income, in terms of what wages and salaries will buy, has increased since 1952 by almost 20%, but farmers' purchasing power has declined by one-third.

Benson, whatever his legion of critics may say of him, has never been accused of compromising his convictions or of losing faith in the rightness of his policies. When you are right, he has said, you shouldn't compromise with wrong.

It is wrong, he insists, for the government to tell farmers how many acres they can plant, or how many bushels they can market, and to fine or imprison those who do not obey.

It is wrong, he contends, for the government to guarantee farmers prices that encourage excess production that builds surplus stockpiles higher and higher. It is wrong to take money from the Treasury to pay farmers not to produce, or to over-produce, he believes.

FOR ALL WE HOLD SACRED.... ATTEND CHURCH!

Diligently Pray For The Work Of Your Church

THERE IS STRENGTH IN PRAYER

READ ACTS 5:17-24
Ye shall be witnesses unto me
... unto the uttermost part of
the earth Acts (1:8.)

The main business of the church, and the first business of every Christian, is to witness for the Lord. I heard Dr. Ralph Sockman say in a sermon at the Oxford Conference in 1951, "Some laymen just sit back and pay the bills, and some just sit back."

It is easy for us to "just sit back." My daughter was only six, when, coming home from a morning service, she said, "Daddy, are all those men at church preachers or just watchers?" Every Christian should be a preacher for Christ, but too many of us are just watchers.

We witness by our words, We may become false witnesses by what we fail to say for Christ as much as by what we do say. We are to witness by our works. Doing this is more than lip service. The condemnation in the parable of the Great Judgment is for what people failed to do.

We serve Christ by serving others. Above all, we witness by our worth. Earth may ask, "What have you?" Heaven may ask "What have you done?" God asks, "What are you?" What one is dominates what he has and determines what he does.

PRAYER

Eternal God, Thou art the source of our power. Help us to hear Thy voice commissioning us to witness for Christ. Help us to be true witnesses in what we say, do, and are. For our Redeemer's sake. Amen.

THOUGHT FOR THE DAY

THOUGHT FOR THE DAY
I will cast my burden on the Lord;
He will sustain me.

World-wide Bible Reading—
Psalm 25:1-22.

When you are eight years old, it is not difficult to transform yourself suddenly into an Indian scout and to see a procession of chiefs, with their brightly colored feathered headdresses, galloping across the horizon astride magnificent stallions.

Children are fired with imagination, just as they are filled with faith. The faith of a child is something so simple and so beautiful that many an adult, viewing it, finds himself crying a little, deep down inside, for his own lost childhood and the touching innocence that was once his.

Yet before God, all men are children, His children, and Faith is there to be accepted, if men will but take it as a gift. The Church has the answer, showing you how to live like a man, while still possessing the heart of a child... helping you to get the very most out of life. If you haven't been to church lately... why not go this Sunday?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Unique is a fairly common phrase in Texas. But even in unique Texas, it's the most fitting word to describe Devil's River in West Texas.

Here is a most unusual river, from the very moment it emerges as a fast-running stream in Val Verde County, until it pours its crystal clear waters into Devil's River Lake, some meandering thirty miles away. It's a genuine thrill to follow the swift-moving waters as Devil's River winds through the beautiful mountainous country, descending at the rate of some seven feet per mile.

Your first thought is—"This couldn't be West Texas. It's more like Colorado or Montana."

True, there are no mountain trout in Devil's River. But there are plenty of catfish, perch galore, and a bountiful supply of four-pound-plus bass.

Most Texans aren't used to fishing waters of this type. In fact, they will find it difficult at first. But when they catch one—watch out.

Fly fishermen will have a run for their money, as the perch scramble for their hackles and hooks. Spin fishermen also find the perch eager for their small diving lures, Abu spinners and midget spoons.

Catfish Abundant

Catfish are reputed to be abundant in these waters, but our angling endeavors attracted none except in the lakes below the river.

But—the big bass—they are the tricky ones. These lunkers stay in well-protected holes, between or close by rocks and underwater ledges.

Biggest problem for the fisherman is that the rippleless water is so clear that the fish can see the angler readily—and from great distances. When they spot you they scatter quickly.

Actually, you have to stalk your game here, more like a hunter than a fisherman. You'll do a lot of wading, too. You won't necessarily need waders as you won't be wading in very deep water, and you'll have plenty of trudging ground to do. But you will need rubber-soled shoes that will give you a good footing on the smooth rocks and in the swift current.

We found our inexpensive Dura-Hyde, low-cut shoes ideal for the occasion. They are made of a synthetic material, instead of leather, and have heavily-ribbed rubber soles. They took the rocks without scuffing or bruising the feet and held a firm grip wherever the foot was planted. Frankly, we were surprised to discover that they were not harmed one bit by the continuous soaking.

Wilkersons in Fast Flight To New York
Mr. and Mrs. Troy Wilkerson will leave for New York in the morning (Friday) but they'll be there long before the ink is dry on this paper and as this is written it's nearly press time. Boarding a plane at 7:15 a.m., they'll land at Idlewild airport at 1:45 the same morning. Must have been a long layover somewhere.

I'll grant you that once in a while some overstocked fishing camp operator will try to sell you lures that probably never have taken fish, but it's worth the chance to ask anyway. That is, if you want to land anything but the young and foolish.

The Bundys — Stanton and "Mac"—proved to us not only that one lure can and will get the job done... but they also proved to us that Devil's River, out of Sonora, Texas, is a lunker bass fisherman's paradise.

Jimmy, Spec. 5 in electronics has been serving with the Army at Kaiserslautern, Germany, 3 years, and the fond grandparents have never seen Lori, who is 18 months old. They will all load into Jimmy's German made Ford station wagon for the trip back home. After a month the soldier will report to Virginia for assignment.

Attention! Former Residents Collingsworth Co.

All residents and former residents of Collingsworth County are invited to attend the Collingsworth County Get-Together to be held in the northeast corner Ellwood Park in Amarillo Saturday, August 20. Visiting and a picnic supper are planned, starting at 5:00 p.m.

Please bring picnic supper and silverware. Paper plates, cups, and drinks will be furnished.

That's where the heavy lure comes in handy. You need a heavy lure that can give you the long cast.

Devil's River bass seem to prefer top-water lures above all else. Also, they have their preference as to the kind of top-water attraction.

Our host for the trip, Stanton Bundy, publisher of the Devil's River News at Sonora, uses one top-water lure and only one. It has proved to be the most successful lure in this water, year in and year out, for Stanton and his fishing buddies.

It's name?

Oh, yes, it's the Bass-Oreno. South Bend makes it, the color of the lure didn't seem to make much difference. However, the green and black, frog-colored lure, seemed to have a slight edge over all others. Second choice was the red and white.

As he uses only one lure, Stanton doesn't take along any tackle box.

To me, this was unique in itself, for seldom have I seen anglers so sold on one lure that they will use it and no other kind or brand. As one who likes to experiment, I couldn't conform to this practice. But I'll admit it catches the big ones for them.

These boys know their waters, though, and they are dead right about the Bass-Oreno for the big bass, at least for the weekend we were there. Not one single lunker was caught on anything but a Bass-Oreno during the two days of fishing, although other good lures took more than enough small bass and perch.

This points up the importance of listening to the lure or bait recommendations of the local anglers when you're away from home on a fishing trip. You may be a good fisherman. You may know what to do in your favorite fishing waters. But the same kind of fish don't always react the same in different waters.

Personally I always take along a dozen or so lures—especially my favorites. But I

Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.

HOUSE JOINT RESOLUTION NO. 30 proposing an amendment to Article IX of the Constitution of the State of Texas by adding thereto new Sections to be known as Sections 6, 7, and 8, to provide that the Legislature may authorize the creation of Hospital Districts co-extensive with Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, having certain stated powers and duties and subject to certain stated limitations; providing that any enabling Acts shall not be invalid because of their anticipatory character; providing for an election; prescribing the form of ballot, and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be, and the same is hereby, amended by adding the following Sections which shall read as follows:

"Section 6. The Legislature may by law authorize the creation of a Hospital District co-extensive with Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, except that the maximum rate of tax that the said Lamar County Hospital District may be authorized to levy shall be seventy-five cents (75c) per One Hundred Dollar (\$100) valuation of taxable property within the District, subject to district taxation.

"Section 7. The Legislature may by law authorize the creation of a Hospital District co-extensive with Hidalgo County, having the powers and duties and with the limitations presently provided in Article IX, Section 5(a), of the Constitution of Texas, as it applies to Wichita County, except that the maximum rate of tax that the said Hidalgo County Hospital District may be authorized to levy shall be ten cents (10c) per One Hundred Dollar (\$100) valuation of taxable property within the District subject to district taxation.

"Section 8. The Legislature may by law authorize the creation of a Hospital District co-extensive with Lamar County, Hidalgo County, and County Commissioners Precinct No. 4 of Comanche County, Texas.

"If such District is created, it may be authorized to levy a tax not to exceed seventy-five cents (75c) on the One Hundred Dollar (\$100) valuation of taxable property within the District; provided, however, no tax may be levied until approved by a majority vote of the participating resident qualified property-taxpaying voters who have duly rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections so long as obligations are not impaired, and not to exceed the maximum limit of seventy-five cents (75c) per One Hundred Dollar (\$100) valuation, and no election shall be required by subsequent changes in the boundaries of the Commissioners Precinct of this State.

540 TEXAS BENEFICIARIES

Sunday, August 14, Is Twenty-Fifth Birthday Social Security

Sunday, August 14, is the 25th Anniversary of the Social Security Act. Just 25 years ago, Congress enacted the law which has since been amended and broadened several times.

At the end of 1959, as Federal social security was starting its twenty-fifth year, old-age, survivors, and disability insurance monthly benefits were being paid in Bailey County to 362 persons at the rate of \$19,430 a month, according to John G. Hutton, manager of the Lubbock Social Security District Office. "This is an increase in number of beneficiaries of about 12 percent since February 1959, the last previous date for which Bailey County figures are available," he said.

Nationally, about 13 1/2 million persons were receiving old-age, survivors, and disability insurance monthly benefits at the end of 1959 at an annual rate of more than \$10 billion. At the close of 1940—the first year in which monthly benefits were payable—beneficiaries throughout the Nation totaled 200,000. Almost half a million disabled work-

er beneficiaries and their dependents receiving benefits at a yearly rate of over \$400 million in 1959.

The number of wives, husbands, and children of disabled worker beneficiaries receiving monthly benefits increased sharply in 1959. Such benefits were first payable for September 1958. Nationally, from February to December 1959, the number of these beneficiaries more than doubled—from 60,000 to 126,000.

Payments to a retired worker with no dependents receiving benefits averaged \$69 a month nationally at the end of last December; to a retired couple, both of whom were receiving benefits, the average payment was \$121. The average for a widow with two young children was \$169.

By contrast, Mr. Hutton recalled that when benefits first became payable in 1940, the average monthly payment to a retired worker with no dependents receiving benefits was \$22, and to a retired couple the average payment was \$36.

As social security celebrates its Silver Anniversary (the original Act was signed into law on August 14, 1935) about 74 million working people are in covered employment or self-employment in the course of a year. They are building old-age, survivors, and disability protection for themselves, their dependents, and their survivors under the social security law.

For the entire State of Texas, old-age, survivors, and disability insurance payments at the end of December 1959, were being paid to 340,833 beneficiaries at the rate of more than \$350,000,000 per year.

The two mounted on handsome Palomino horses, said they make about 30 miles a day. Last summer they made a horseback trip to Dallas from Midland where they formerly lived.

"Endgate", when 4, won a

The Hawks hope that "Endgate" can land on the Garry Moore show, "I've Got A Secret", because so far as known

he has ridden a horse a longer distance than anyone of his age. This trip just precedes the time when John III will have to enter school.

John III, on a postcard they distribute, says: "I have six sisters, Cynthia, Carolyn, Cheri, Candia, Charla, and Cristal. That's why my daddy nicknamed me "Endgate". People they meet are invited to write, if they think John III deserves to be on "I've Got A Secret", to Garry Moore c/o CBS, New York City, N. Y.

Best Sorghum Growers To Get Money Prizes

Waco — Attractive cash prizes await the winners of the 1960 Texas Hybrid Sorghum Production Contest, reminds Ben R. Spears, Extension Agronomist and Ray Joe Riley, Dimmitt and President Certified Hybrid Sorghum Producers Association. The contest is sponsored by the Texas Certified Seed Producers, Inc., and the Agricultural Extension Service.

The state winner will be presented a handsome plaque and \$100 in cash. Five cash prizes will be awarded in each district for irrigated and non-irrigated sorghum. Irrigated or dryland sorghum may be entered but will not compete

against each other for prizes on the district level. However, irrigated and non-irrigated will compete for the awards given the state winner making the highest yield per acre.

All farmers, 4-H Club members and FFA boys, except commercial hybrid grain sorghum seed growers and members of their families and employees, are eligible to compete. Previous state winners in either the irrigated or dryland division are ineligible for competition in the same division again.

Contestants must enroll with their county agent, who will or has set the closing date for the county, said Riley. A contestant cannot enter both irrigated grain sorghum and sorghum that is not irrigated.

A minimum of one acre is required of one of the following varieties: RS 590, Texas 601, RS 610, Texas 611, Texas 620, RS 630, RS 650, RS 603, and Texas 660.

Flame Cultivation To Be Seen At Halfway

Flame Cultivation research results to date will be viewed by Propane and Butane dealers and their guests at the High Plains Research Foundation on August 24, starting at 2:00 p.m.

E. F. Powell, president of the Texas Butane Dealers, Ft. Stockton, and William J. Lawson, Executive Secretary, Austin, set the date of the tour at a meeting of representatives of the Association at Plainview and Halfway on July 29.

During the Field Day, weed elimination results to date by means of flaming will be inspected at the Foundation. Crops included in the research underway are cotton, grain sorghum, soybeans, corn and castor beans. Reports will be made on the results of weed elimination by flaming onions and potatoes. Final results for the year will be reported after the tests are harvested.

Directors and members of the Association meeting with officers to make arrangements for the special day on August 24 were: J. L. Weather, Immediate Past President, Petersburg; Home Johnson, Levelland; Harry Garretson, Hale Center; Lyle Blanton, Hereford; and Jack Jerry, Wolforth.

Plainview hosts were Bill Taylor, Gene Bumpus Co.; Neal Williams, Sinclair Dealer; Bill Gotcher and Staff, Gotcher Mfg. Co., of Plainview and Clarksdale, Miss.

Members of the Foundation staff at the meeting and tour were: Dr. T. C. Longnecker, Director; Dr. Earl H. Collister, Chief Agronomist and Dale Price, Agricultural Engineer.

Research Aid Is Announced

W. O. Fortenberry, president of the Plains Cotton Growers, Inc., has announced the distribution of \$25,000 in agricultural research grants to the Lubbock and Spur Agricultural Experiment Stations and to the High Plains Research Foundation at Halfway in Hale County.

An additional \$20,000 has been approved by the board of directors of PCG and will be utilized at the pilot spinning plant at Texas Tech College later this fall. Fortenberry reported.

At the High Plains Research Foundation, a grant of \$7,000 will be used in fertilizer projects on hard land soils in connection with cotton. At the Spur location, a grant of \$2,500 is at work on dryland water conservation projects for cotton production and at the Lubbock station, a \$10,000 grant is to be used on cotton fertilization on mixed and sandylands. Part of the sandyland project is done in Terry County.

Fortenberry, in commenting on the grants, said: "It's wonderful that farmers themselves can make this money available for research work on problems that hamper our cotton production on the Plains. The PCG board and membership are very proud of these grants and believe it is one way to discover some of the answers to our cotton production and marketing problems."

READER APPROVES DISPLAY OF FLAG

Dear Mr. Editor:

What a grand and rewarding experience it is to drive down Main Street and see all of the "Old Glory Flags" waving in the breeze. I think that each merchant deserves a pat on the back for honoring our town each day with the flag.

By seeing the flag maybe each of us will take a little more time to stop and think about this wonderful country of ours and to offer a thankful prayer unto God for all the wonderful opportunities.

Again may I say, as a citizen of the wonderful town of Muleshoe, I think the merchants should be "thanked" from each of us for not forgetting about "Old Glory" each day.

Sandhills Philosopher Advises City People Not To Take Expert's Advice To Move To The Country

Editor's note: The Sandhills Philosopher in his Johnson grass farm disagrees with an advice columnist this week, his letter reveals.
 Dear editor:
 I was sitting under my favorite shade tree out here on my Johnsongrass farm the

other day, the one that's lined up with two other trees spaced so accurately that as the afternoon wears on and the sun moves along, I can stay under the first tree and still be in the shade from the other—it's a great peace of mind for a man to know he can take a nap and not wake up to find

his shade has gone and the sun's in his face, although this isn't to say he can't wake up even in the shade and find a hydrogen bomb hasn't gone off somewhere in the world—at any rate, to get on with this sentence, which is getting to be as long as a two-minute nominating speech that runs for an hour and a half. I did wake up from a nap and I was still in the shade so I pulled out a newspaper I'd been saving and fell to reading an article on advice to people thinking about changing jobs.
 As it explained, a man and

his wife were thinking about giving up their job and home in town and moving to a farm and the advice columnist was tackling the problem, inside his air-conditioned office.

"My opinion," he says, "is that only a fool and his brother could expect to move from the city and operate a farm at a profit."

If my brother, who also lives on a farm, hears about this, I'll let him figure out which category he belongs in, but what bowled me over was that the columnist didn't stop there, he went on and said that despite this, "more city couples ought to try farming. This spirit is what has made the country great."

It is my opinion that this columnist has been reading too many farm-plank promises by too many political parties.

Advising a city man to move out into the country and operate a farm is about like advising a farmer to move into town and open up a supermarket. It's a fine spirit, but it's not what has made this country great. It's not what has made farming flourish.

Anybody in the city figuring on moving to the country to farm to make this country greater, ought to revise his standards of greatness. By leaving, he might improve the city, but he won't improve

BABSON DISCUSSES

POPULATION

Babson Park, Mass., August 11—One of the reasons given for anticipating the prosperity of the "Golden Sixties" is the constantly increasing population, both in this country and in the world as a whole. It is true that investors must recognize population as a factor in stock prices; but it is only one of many factors.

TEENAGERS
 Considering the United States alone, the age factor is now a vital force in manufacturing, business, college enrollments, investments, and other considerations. Many of today's young people will become voter for the first time this year, and may be a factor in the November elections. The high birth rate of World War II is now showing up in the large number of teenagers reaching college and/or employment age. For a while, those dealing in baby foods, clothing for youngsters, etc., profited greatly; more recently, teenagers have been a

himself or farming either. What he'll do is go broke.
 Yours, faithfully,
 J. A.

source of good business for retailers (and of headaches to many parents!).

Now, these young people are about to be thrown on their own, to make good either in college or in the competitive business world. This is something which should be recognized by employers, parents, and by the young people themselves. Just now there is a shortage of workers in many lines of industry, especially of office employees. After the summer vacation is over, there should be a letup in the demand for such jobs, and the shortage of workers might develop into a surplus during the next year or two.

GROWTH IN FOREIGN POPULATION

In China, with its population of over 600 million, 1,200,000 babies are born every week. The same is true proportionately of India and Pakistan, with their combined population of about 500,000,000. It is true that measures are being taken to limit the birth rate. On the other hand, new means of sanitary living, free medical supplies, and proper nutrition are causing fewer babies to die. Hence, I see no prospect at the moment of a limit to the net growth of these nations.

The Malthusian Theory advanced in 1789 contended that the world will some day run out of arable land to feed the expanded population. Although the land surface from which to feed people is limited, (and far surpassed by the area of lakes, marshes, and

oceans), yet the growing shortage of water required to sustain life and industrial activity may be even more serious.

TWO SIDES OF THE COIN

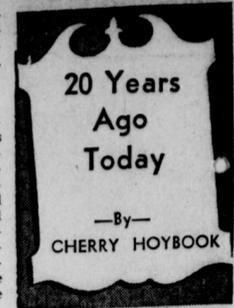

Increase in population cannot be taken, at face value, as an optimistic factor for the future. In order to translate people into producers and customers, we must have a social and moral environment which will generate initiative and ambition. Only as the proper environment, income, and demand rise along with the growth in population do the greater numbers of people assure prosperity.

On the other hand, if initiative is stifled by unfair taxes or government "giveaways" social practices or poor health, then capital formation, employment, incomes, a consumption will lag the rise in population. In that event, the growth trend in population now considered to be bullish for the future, may work as a depressing influence.

A WORD TO PARENTS

What does the above mean to parents of growing children today? It means that parents of all nations must devote attention to helping their children prepare for their future. Not only does this mean providing them with "book learning", but also taking care that they acquire the fundamental habits of perseverance, industry, and thrift.

In addition, parents must above all see to it that their children develop good character, good health, and a sane faith. These three things, more than anything else, will enable children to deal successfully with the problems in their future. In short, if their children possess CHARACTER, HEALTH, and a SANE FAITH they will be rich. Otherwise, they will be poor.

WHAT'S HAPPENING IN WASHINGTON

For the first time in history Communists seeking office will be barred in the November general election from having their names placed on the ballot in the State of Georgia.

—1940—
 Richard Smith, a former Muleshoe resident, who has been working in a Columbia Steel Mill at Torrance, Calif., returned home Saturday for a three weeks vacation.

MRS. IKE ROBINSON IS DINNER HOSTESS

Mrs. Ike Robinson entertained several young people with a dinner at her home Wednesday of last week. Those present were Floyd Baker, Edith Barber, Ruth Gummelt, Jack Lane, Georgia Lomax, and Ida Snow. The dinner consisted of fried chicken, cream potatoes, gravy, cream peas, lettuce and tomato salad, hot biscuits, pineapple pie and ice cream. A very interesting movie was attended at the local theatre.

ties of increasingly scientific farming put greater demand on the State Department of Agriculture, says Commissioner John C. White.

White said the "chemical revolution" in agriculture today puts heavy responsibilities on his department. He also asked for more equipment and more salaries for personnel to check weights and measures.

HIGHWAYS—State Highway Department is asking for a two-year allocation of \$698,000,000.
 Of this, \$348,300,000 would be for the 1961-62 period; \$350,300,000 for the 1962-63 period. This compares with \$337,000,000 spent by the Highway Department in 1959.

Most of the highway revenue comes from special earmarked sources, such as the gasoline tax, license fees, etc. Department is asking \$600,000 from the general revenue fund to be used for tourist advertising.

GAME AND FISH—Game and Fish Commission is asking for what it calls a "status quo" budget, except for salary raises for some of its top technical personnel.

Commission is asking for \$12,034,945 for the coming two-year period compared to \$11,593,651 for the present biennium.

Executive Director Howard Dodgen declared the commission's top echelon employees are "grossly underpaid" for highly trained persons, some with master's degrees.

STATE COLLEGES—Three colleges, East Texas State, Stephen F. Austin State and Sam Houston State Teachers College, have told the Commission on Higher Education they need more money.

Expected enrollment increases, need for higher faculty salaries and need to lower the student-teacher ratio were cited as reasons for the requests.

East Texas is asking \$2,446,555 for the first year, \$2,527,125 for the second year of the 1961-63 period. This compares with a present annual budget of \$1,676,424.

Stephen F. Austin asks \$2,063,719 the first year, \$2,048,603 the second, compared to the present \$1,244,370 a year.

Sam Houston wants \$2,970,261 the first year, \$2,992,190 the second. Present annual spending is \$2,040,677.

These requests, along with all those from state-supported colleges and universities, will be studied and screened by the Higher Education Commission before a recommendation is presented to legislative and executive budget officials.

WHERE TO GET IT—With new spending requests piling up, the search for new money-making plans is ranging far and wide.

Other ideas suggested to the panel include higher taxes on liquor and beer, sales tax on liquor and beer, sales tax on meals and a tax on sporting events.

What Is Your Life Worth?

by Vern Foltz
 Think for a moment!!! What is the most valuable possession you own? Most of us would place the highest price on our very lives.

What can one buy with his life? This may seem at first, an uncalled for question, but consider what becomes of a person's life if he doesn't spend it.

One grows through the age of learning to maturity. He develops his ideals, decides what he stands for, masters the art of expressing his beliefs, and dies of old age or even earlier in an accident or due to a heart attack.

How fruitless the lives that go from the earth with nothing to speak for their passing but a small hill in the graveyard. How wasteful of the person who lives sixty five or eighty years but to die a quiet death withdrawn from the principles for which he believed.

STATE CAPITAL
Highlights
 AND *Sidelights*
 by Vern Sanford
 TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—About a dozen state agencies thus far have presented their budget requests for the 1961-63 biennium.

As yet, none has failed to ask for more money than it's presently getting. Many agencies cite Texas' growing population as justification for expansion. They say, in effect, that they are in the same position as the housewife who has to put another potato in the pot to set another place at the table.

Others seek to woo state funds with a "bread cast upon the waters" approach. They contend that money spent on developing the state's resources will come back multiplied in the form of increased state revenue.

Almost all emphasize the difficulties of luring and holding highly trained personnel at present state salaries. Some say, too, that they've been working with a too-short stick for years and need some "keep up with the times" improvements.

Budget proposals are presently being studied by the Legislative Budget Board and the Governor's budget staff. Each will make recommendations, and the final decision will be made next year by the Legislature.

With a money-short, tax-fighting session ahead, it won't be easy for anyone. These budget requests have been added to those already under study.

ment in state parks is an investment in the Texas tourist industry and a potentially rich source of additional funds for the state treasury.

This is the theme of the State Parks Board in asking for a \$2,000,000 appropriation for the next two years. This is almost double the present spending level.

Of this million-dollar-a-year appropriation, the Board proposes to use \$700,000 a year for improvements, \$300,000 a year for administration.

Texas, says parks director Bill Collins, spends less on its state parks than Rhode Island. He cited figures showing that Texas would get \$81,000,000 a year more in tax revenue if each out-of-state visitor stayed in the state one more day.

GENERAL LAND OFFICE—A bigger budget is asked by the General Land Office and Veterans Land Board to assure the state's realizing full value from the resources of state-owned lands.

A two-year budget of \$3,042,339 is asked. Land Office noted the state now has clear title to 8,000 square miles of tidelands. It wants to employ three oil scouts and a geological director to explore the development of the tidelands' mineral resources. Altogether, 29 new land offices employees are being asked.

Land Office claims that for every dollar it has spent in the past 22 years, \$90.18 has been returned to the state treasury in revenue.

BLACKWATER VALLEY NEWS

Local Range Owners Add To Water Supplies

More efficient use is made of ranges and pastures where water supplies are properly located. Water supplies should be within 1/2 mile of each other on steep or rough land, 1 to 1 1/2 miles on rolling sandy land, and 2 to 2 1/2 miles on smooth, firm land. Where the water supplies are spaced too far apart livestock tend to overgraze the areas close to the water and never graze on the areas farther away.

Cost-share payment is provided under the Great Plains Conservation Program for 50% of the cost of drilling and casing the wells needed for better grazing distribution. Cost-share of 50% is also paid for constructing storage facilities at each well.

Ralph Douglas, who has a Great Plains Conservation Program contract, plans to construct two wells with water storage facilities on his rangeland to improve grazing distribution and provide adequate water for his livestock.

M. C. Street, Jr., has provided for additional water on his rangeland by constructing a dam. Cost-share payments of 50% are paid for applying this practice under the Great Plains Conservation Program.

If you desire more information concerning these or any other conservation practices for which cost-share is paid under the Great Plains Conservation Program then contact the Soil Conservation Service assisting the Blackwater Valley Soil Conservation District.

Friona Sailor In Submarine Exercise

William P. Cobb, airman, USN, son of Mr. and Mrs. Thomas G. Cobb, of Route 3, Friona, serving with Patrol Squadron 47, took part in a joint Canadian-American anti-submarine warfare exercise from July 21 through August 3 off the West Coast of the U. S. and Canada.

Two American anti-submarine warfare groups headed by two aircraft carriers joined with six Royal Canadian destroyer escorts and supporting supply ships to provide the seagoing forces.

Ammonia promotes peak wheat production from start to finish

Leading West Texas farmers like DAVID ACKER put down 120 lbs. ammonia per acre on wheat land

David Acker of Nazareth, who farms 400 acres, says: "I wouldn't put in a wheat crop without applying ammonia. Phillips 66 Ammonia promotes vigorous plant growth... good color... larger heads... bigger yields. I put my ammonia down at the rate of 120 pounds per acre, usually around the end of August."

"On maize land, I put down about 100 pounds of ammonia per acre. Last year on 165 acres I averaged 5800 pounds per acre, after a 1000 to 1500-pound hail loss," he reports.

Thousands of Texas farmers are using Phillips 66 Ammonia to help assure top net profits per acre. Actual field reports prove that Phillips 66 Ammonia (1) boosts wheat and small grain yields (2) increases maize yields (3) produces more high grade cotton (4) improves forage production.

See your local Phillips 66 Ammonia Distributor now. You can depend on better ammonia service.

Rural CD Active 'In the Field'

Residents of rural America's 5,000,000 farms are being urged by civil defense officials to plan now for their safety from nuclear attack as they consider ordinary hazards during Farm Safety Week, July 24-30.

Leo A. Hoegh, director of the Office of Civil and Defense Mobilization, points out that "the safety of the nation depends upon our farmers being prepared not only to reduce their human and property losses through accidents. They also should take the necessary steps to insure that if an

enemy ever attacks us with nuclear, biological, or chemical weapons, our farmers would know how to survive, recover, and produce the food and other products upon which victory would depend."

A broad rural public information program is now underway in 3,000 counties. It stresses the relatively simple methods by which people can develop their own self-protection against the fallout hazard of a nuclear attack—the principal threat to people who live in rural areas.

Family fallout shelters are urged as the least expensive and most effective means of saving the greatest number of people from a nuclear attack. Shelters would be highly effective to protect families against tornadoes. All shelters should be equipped with a two-week supply of food and water, a battery radio, first aid kit, flashlights, bedding and other survival items, according to OCDM.

Family fallout shelters cost as little as \$150.00 when constructed on a do-it-yourself ba-

sis. When built by contractors, the cost ranges from \$500.00 upwards.

Precautionary reinforcement of barns and outbuildings can lessen the hazards of fallout on livestock. The more massive the materials between livestock and fallout, the less radiation will come through to injure or kill the animals. Steel and concrete are good shielding materials from fallout. Earth costs nothing and also is effective for shielding. Even bales of straw or wood, if thick enough, can keep out

Shelter for livestock for protection against fallout was improvised in this barn by using bales of straw as a shield against potentially deadly "post-attack" radiation. Heavy concrete walls, with straw shielding windows, would protect livestock in pens on the barn's lower floor. Barn's upper floor (right) would be covered four bales deep directly above the pens. A shielded room for caretakers, and tractor-powered feed grinder and automatic feeder complete the shelter. OCDM Photo.

VISIT McADAMS

Mrs. W. C. McAdams of Quanah, and Mrs. Otis Gafford, Crowell, have been visiting here in the home of the A. M. McAdams family.

Today's Meditation

Thursday, August 11
Read Luke 10:1-6.

Look on the fields; for they are white already to harvest. (John 4:35.)

In early autumn we see the golden rice fields stretching from the sea to the purple mountains. When the rice is ripe for harvesting, the sun has scarcely risen before the workers enter the fields.

They carry sickles and bend low to cut clusters of rice stalks. They continue their work until the glory of the sunset fades away.

The patient work of the laborers in the rice fields reminds us of the millions of persons in all parts of the world who need to be reached for Christ. No mass evangelism can reach all of them; they must be won individually.

Workers on the missioned fields today are depending upon us to furnish the sickles of prayer and liberal giving. Thus, many sin-enraptured persons may learn of the everlasting inheritance Jesus has provided for them.

The challenging question that Joshua asked the hosts of ancient Israel, we must answer today: "How long are ye slack to go to possess the land, which the Lord God of your fathers hath given you?"

PRAYER: O Father, may our hearts burn within us for the world's lost millions. Deliver us from the sin of neglect. Awaken us to the need and opportunities to bring others to Christ. Use us as Thou wilt. In the name of Jesus. Amen.

THOUGHT FOR THE DAY: God calls us to labor for Him in the field white unto harvest.

CHRISTIAN SCIENCE SERVICE

The meaning of God's supremacy and all-power will be explained at Christian Science services this Sunday.

Scriptural selections in the Lesson-Sermon entitled "Soul" will include the following from Leviticus (26:3, 4, 11): "If ye walk in my statutes, and keep my commandments, and do them; Then I will give you rain in due season, and the land shall yield her increase, and the trees of the field shall yield their fruit . . .

and I will set my tabernacle among you; and my soul shall not abhor you." God's power is also brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy which include this statement (330:11-12): "God is infinite, the only Life, substance, Spirit, or Soul, the only intelligence of the universe, including man." Proposed CONSTITUTIONAL AMENDMENT NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1960.

SENATE JOINT RESOLUTION NO. 10, proposing an Amendment to Section 49-b, Article III of the Constitution of Texas, increasing to three and one-half percent the maximum permissible interest rate on bonds hereafter issued by the Veterans' Land Board; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended by adding thereto the following:

"The foregoing notwithstanding, bonds hereafter issued by the Veterans' Land Board pursuant to the authority of this Section 49-b of the Constitution may bear a rate of interest not to exceed three and one-half percent (3-1/2%) per annum.

"This Amendment shall become effective upon its adoption."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held throughout the State of Texas on the first

Tuesday after the first Monday in November, 1960, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas by adding thereto a provision authorizing the Veterans' Land Board to issue the bonds authorized under such Section to bear interest at a rate or rates not to exceed three and one-half percent (3-1/2%) per annum."

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas by adding thereto a provision authorizing the Veterans' Land Board to issue the bonds authorized under such Section to bear interest at a rate or rates not to exceed three and one-half percent (3-1/2%) per annum."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of the state.

Parmer County Farm Bureau News

by Raymond Euler

Your Farm Bureau legislative chairman for Parmer Co., Harry Hamilton, reported to the directors at their last meeting that, quote, "In the legislative field, things are in a mess", unquote. Some discussion followed, but there was no disputing the accuracy of Hamilton's report.

When the VI Giorgio fruit corporation of Yuba, Calif., requested 300 Mexican Nationals to harvest pears in California on July 29 this year, the request was denied by Secretary of Labor Mitchell. Basis for the denial was that on July 14, 1960, 130 of 186 domestic workers at the ranches in question were on strike. Can it happen here?

The question is for your consideration and action. If you are opposed to things like this, Farm Bureau is the largest organization on your side. You can make it stronger and larger by joining if you don't already belong.

Farm Bureau and leaders in Parmer County are highly appreciative of the cooperation given to the County Farm Bureau weed committee by cities and communities in the effort to eradicate bindweed in the county. Agricultural teachers and many others are working with the committee in this effort.

President Herman Gerles asked us to tell you that we have in the office here the book published by the Americans for Constitutional Action which gives the voting records of senators and representatives in Washington for the past several years.

You may be surprised to read some of the information that shows how some of these men voted on subjects of vital interest to you. And although the ACA gives its opinion of the usefulness of each congressman based on his record, it is arranged so you can determine your own rating for them. Anyway, the large book is on the counter where you are always welcome to study it.

Remember to file for both Federal and State road use tax refund on farm used fuels. It amounts to nine cents per gallon.

Today, the car you own has a new life expectancy!

A tremendous forward step in engine protection. New Trop-Artic All-Season Motor Oil preserves and prolongs the smooth performance of your engine. Meets or surpasses the most severe tests for automobile oils.

Beginning today your car can perform far better... for a longer time... thanks to new Trop-Artic All-Season Motor Oil from Phillips 66.

New Trop-Artic drastically reduces the harmful deposits and corrosive wear that rob you of your driving pleasure. With new Trop-Artic your car can run smoother... quieter... with lower fuel costs... fewer repairs. Piston ring wear is actually reduced as much as 35% compared to many leading oils.

In hundreds of thousands of miles of testing, typical car owners reported these important benefits from new Trop-Artic Motor Oil:

- Less oil consumption
- Less engine knocking
- Less mis-firing
- More miles per gallon of gasoline
- Cleaner oil filters

Change to new Trop-Artic Motor Oil at your Phillips 66 Dealers and see if you don't notice these same improvements in the performance of your car!

*A trademark

Enjoy the Sweetest Rhythm on the Road! Fill up with new Flite-Fuel, perfectly matched to the rhythm of your motor. It's super powerful...super smooth!
