Daylight Burglars Hit Two Homes In County

Two homes in Lynn County were burglarized during the last week and a business in Tahoka also was burglarized.

Ricky Clem, Rt. 1, Meadow,

reported his home 1.2 miles north of Lakeview community burglarized between 4:15 and 4:45 p.m. Sunday. Stolen were a Whirlpool microwave, Sony TV, Remington 12-gauge shotgun, a .22 pistol and a TI computer box.

Danny Gregg of Lubbock reported a house 14 miles north and 2.5 west of Tahoka on a county road burglarized between 2 and 3 p.m. last Wednesday, Sept. 19. Items stolen totaled \$2845 in value and included a Remington model 870 12-gauge shotgun, Sound Design stereo, Ithaca .410 shotgun, Emerson 13-inch TV, and a Kodiak Bear bow; Litton microwave oven and jewelry.

Crime Line, 998-5145, has offered \$300 rewards in each of the above burglaries.

Two persons were in jail during the week for driving while intoxicated.

Tahoka police were busy during the past week as they investigated a burglary of a business, a theft reported at the high school, and several calls from residents receiving obscene

phone calls, and a hit and run incident.

Last Thursday, Jack Miller, owner of the General Store located in the 1300 block of Ave. J reported his business was burglarized during the night hours of Wednesday, Sept. 19. Entry was gained through a window that had been pried open with a sharp object. Reported stolen were three combination wrench sets, one combination spanner and one battery head valued at \$74.88.

Tahoka ISD reported to police on Tuesday that an Advance wet and dry vacuum cleaner had been stolen from a storage closet at Tahoka High School. Value was set at \$495. No forced entry was used.

A Tahoka resident reported to police on Sunday that she had received two obscene phone calls from the same person on Sunday. She reported that a male voice told her he was watching her and he made "heavy breathing" sounds. Police also received reports from two other residents on Monday who said they also received obscene calls.

Police also investigated a hit and run incident on Monday that involved a 1981 Chevrolet belonging to Enrique Garcia of 2102 Ave. O who reported to police that someone had damaged the front fender of his car while parked in front of his residence.

held Coahoma away from the goal line, once on a good fourth down tackle at the Tahoka 20 by Andrew Chapa.

Late in the quarter, Tahoka put together a good drive, which featured a 24-yard pass from QB Randy Taylor to Daron Norwood, who made a good one-hand grab slanting across the middle. FB Johnny Morin then had an 18-yard run, and with 41 seconds left, Morin ran five yards for a Tahoka touchdown, followed by Chapa's 2-point run. Morin gained 79 yards on 19 carries, Norwood ran for 48 yards in 10 carries and HB Jerry Alvarado gained 72 yards in 14 carries, and also caught a pass for 18 yards.

On defense, Morin and Emilio Calvillo Jr. did good work.

County Budget Revised For Bigger Pay Hikes

Lynn County commissioners Monday reworked the budget for next year to allow for 10 per cent pay increases for all county employees except the commissioners' own salaries.

As originally approved, the budget for next year called for 5 per cent increases for all employees except commissioners, but six elected officials went to the grievance committee protesting that the 5 per cent figure was not enough. The committee agreed and this made 10 per cent increases mandatory for the elected officials.

Commissioners Monday said they considered that it would be unfair to the non-elected employees to leave their salaries at 5 per cent over the present figures, so they raised all by 10 per cent.

This added \$20,949 to the

budget, making proposed expenditures for the coming year \$1,083,216, more than anticipated revenue from taxes and non-tax sources such as license registration fees. However, the county has a contingency fund, part of which will be used to fund the increases.

The county also approved an amended revenue sharing fund budget which includes 73,513 to be spent on improvements to county buildings, most of the anticipated revenue sharing funds, expected to be \$125,138.

The courthouse roof and part of a possible elevator installation project in the improvements.

Bids were opened on a new maintainer for Precinct 1, with four companies submitting bids ranging from \$58,530 to \$90,337, but Precinct 1 Commissioner

Eldon Gattis delayed a decision until the bids could be studied further.

Commissioner Nell Blakney, whose term is scheduled to expire, moved that the commissioners' salaries also be included in the across-the-board 10 per cent pay increase, but the motion was defeated by the commissioners whose pay would be affected.

Commissioners voted to pay the county's share of hiring a temporary court reporter during the illness of the regular court reporter.

WOODWORK

BY DALTON

AN ELEMENTARY school teacher asked me last week to come to some of her classes and bring my saxophones and play, because they have been studying woodwind instruments and it would be a good opportunity for them to see the horns up close and hear them being played.

"Well, I don't know what I could play that they would recognize," I told her.

"Just play anything; they'll like it no matter what you do," she said. I decided not to go into the implications of that remark, remembering a time some years ago in Slaton when I had played a solo in church. A certain pharmacist who goes to the same church came up to me the next day as I was drinking coffee with a big group of people and said, "I don't care what the rest of them said; I thought you played pretty good yesterday."

Anyway, I took two saxophones and a clarinet to the grade school and four different groups of music students from kindergarten on up to

whatever came in and I explained the way the horns operate and played a few tunes for them.

They all were really nice young people, many of them telling me how much they enjoyed it and thanking me for coming. Of course, the teacher threatened to send them to the office if they didn't clap and pretend to enjoy it.

There was a question and answer session with some of the youngsters, but most of the hands which went up were attached to people who had statements instead of questions—things like "my sister plays a clarinet" or "my brother played one of them, until daddy tore it up," or "I know you; you live across the street from us."

There were questions, though, such as "what are those little keys for, why do you wear that strap, and howcome the horns are shiny?"

Finally one little girl asked "don't you have to be full of wind to blow those horns?"

I told her that was all the time we had for questions.

SPARTAN Transportation Program Provides Access For Local Citizens

South Plains Community Action Assn., Inc., provides, as one of its services to the community, a public rural transportation program called SPARTAN (South Plains Area Rural Transportation Assistance Network). The system was begun in June of 1982 as an expansion of the existing human services transportation activities carried out by the agency at that time.

One of the SPARTAN goals is to provide access for all citizens within the eight-county area served by South Plains Community Action Assn. to public places where services or goods are provided for the general public.

Providing transportation for the disadvantaged is also a goal of the program. In this group are handicapped persons, elderly persons unable to drive, elderly persons with a temporary disability which has deprived them from the ability to use their own vehicle, members of a one-vehicle household in which the breadwinner must use the vehicle to earn a living or a family in which the driver has lost the privilege to drive because of legal or financial circumstances.

USDA BEEF GRADES EXPLAINED--Many consumers buy USDA graded beef without knowing what the different grade labels really mean. The United States Dept. of Agriculture (USDA) grades meat according to the number and size of flecks of fat found in the red meat portion of the cut, says Marilyn Haggard, a food and nutrition specialist with the Texas A&M University Agricultural Extension Service. The more flecks of fat -- or marbling the higher the grade of meat, she explains. "One reason why people become confused about the grading system is that they're used to thinking in terms of lean for determining the quality of ground beef," says Haggard. But even in ground beef, a certain proportion of fat is needed or the taste drops off, she adds.

A Combination we CAN'T LIVE WITH!

A reminder from this newspaper and the Troopers of the Texas Department of Public Safety

STUDY SHOWS CONSUMER STEAK PREFERENCES--

Many American consumers still prefer higher grades of steak, but a significant number-- especially in the west and south -- are willing to buy lower grade, leaner cuts with less fat. Those are the findings of consumer preference tests conducted in four cities by researchers at Texas A&M University's Agricultural Market Research and Development Center. The study showed that consumer ratings of steaks prepared at home generally agreed with USDA grading standards, which are based on the amount of fat within the lean. But about 25 per cent of the consumers in the sample found leaner beef acceptable in terms of its eating quality and indicated they would buy it, said Dr. Robert Branson, project director.

THS Exes Plan Reunions

1934
Members of the 1934 graduating class of Tahoka High School will have their 50th reunion on Oct. 5. The group will have supper at the school cafeteria, after which a reception will be held at the community room of the First National Bank from 7:30 until after the ball game.

Those in the class of '34 were James Applewhite, Pete Anderson, Alvin Cearley, A.G. Cook, Gordon Suits, Floyd Stevens, J.W. Fortenberry, Jack Huffmyer, Martin Reese, Rex Richardson, Eugene Jaynes, Skiles Thomas, Guy Bulman, Hoyt Willingham, Dama Anglin, Elwayne Redwine, Verdie Mae Warren, Ruth Suddarth, Norma Solsbery, Irma Macha, Dale Bartlett, Maxine Jones, Eunice Mullins, Florence King, Helen House, Margaret Strain, Jewel Pitts, Mary Jane Weathers and Faye Messengale.

Friends are invited to come by for a visit during the evening.

1944
The 1944 graduating class will register after the pep rally at the First National Bank Community Room and meet at the T-Bar Country Club after the football game.

1949
The 1949 class will meet in the home of Mr. and Mrs. Duane Carter, 2501 North 4th after the game.

TAX PLANNING STRATEGIES--

The Deficit Reduction Act of 1984 brings about a number of tax changes that remove all doubt that tax planning should be a year-round effort, notes an economist with the Texas Agricultural Extension Service. The new legislation reveals tax increases that stretch depreciation write-offs, squeeze income averaging and foreclose on most interest-free loans. It also creates tax breaks, such as a shorter capital gains holding period for investors, and it effectively leaves open many legitimate tax-saving techniques.

HOME BUILDERS VALUE TREES--

Without question, a wooded lot adds value to a home, says forestry specialist with the Texas Agricultural Extension Service, Texas A&M University System. A study of home builders in the Atlanta, Ga., area showed that builders' costs for clearing a lot averaged \$860 while the average cost of preserving trees was only \$547 per lot. In addition, builders reported that lots with trees sold for \$5,700 more per lot than those that had been cleared. Builders agreed that trees helped sell houses sooner and that any cost involved in protecting trees could be recovered at a profit when homes were sold.

GOOD FOOD = HEALTH
Just as in the raising of a beautiful race horse or show dog, we humans must have a well-balanced diet to assure strong bones, muscle and teeth, glossy hair, energy and endurance. You cannot expect radiant health on a diet of potato chips, candy bars and soda pop or coffee. There are 40 essential nutrients that the human body needs to build and maintain the complex chemistry of our body. It requires milk (skim perhaps), fresh fruit and vegetables of many varieties, whole cereals, lean meat and nuts.

4-H has a proud 75-year heritage that forms the basis of this year's National 4-H Week theme, "4-H: Building on Experience."

National 4-H Week, Oct. 7-13, is a special time for 4-H members and leaders to promote the nation's largest youth organization and to bring some recognition to its contributions, points out Greg Henley, county 4-H program coordinator with the Texas Agricultural Extension Service.

Over the years millions of

4-H'ers have gained valuable leadership experiences and learned practical skills that have improved their quality of life.

Today almost five million youth across the nation between the ages of 9 and 19 are gaining valuable learning experiences through 4-H--almost 200,000 of those are in Texas. The Texas 4-H program reaches boys and girls through more than 2,000 community based clubs and another 900 short-term project groups.

4-H'ers are engaged in some 50 different project areas in which they gain lifelong skills through the program's "learning-by-doing" concept. These projects had their beginning in 1908

when special Corn Clubs were organized for boys in Jack County. First focusing on such traditional areas as crop and livestock production and canning and sewing, 4-H projects now deal with a wide range of subjects, including small engines, rocketry and veterinary science--even the use of computers.

The 4-H program is conducted in each state through the Cooperative Extension Service and is backed by the state's land-grant university (Texas A&M University for the Texas program) and the U.S. Department of Agriculture. Some 17,000 adult and teenage 4-H leaders shoulder much of the responsibility for the 4-H program

The Tahoka Garden Club met at 9:30 a.m. Sept. 18 in the home of Louise Smith with Loucile Stewart as co-hostess.

Eliane Banks of Lubbock gave a program about birds that are found in our area.

There were 16 members present and one visitor.

The next meeting will be at 9:30 a.m. Oct. 16 in the home of Mrs. Wayne Crotwell, 2029 North 2nd.

Allsup's Roadraces Seek Runners

The 10th annual Allsup's Roadraces will be held Oct. 13 in Clovis, N.M.

The Roadraces activities begin Oct. 12 with pre-registration and spaghetti dinner beginning at 5 p.m. The guest speaker will be Jeff Galloway, author and speaker on the subject of running.

The races will start at 7 a.m. sharp and end olympic style at Clovis High School Stadium on Oct. 13.

loafers, replacing the crystal of watches, now become tax-laden bills.

Taxes on other items, such as cigarettes and alcohol, are going up Tuesday. The cost of motor vehicle registration, gasoline, sales tax on cars and other car rental taxes were already raised Aug. 1.

Movie tickets and admissions to almost any entertainment event in the state will now fall under the state sales tax. Rodeos, ballet performances, circuses, carnivals, antique shows, boat and auto shows and other entertaining performances will be taxed. Exempt from taxation are athletic events sponsored by public, nonprofit institutions, such as high schools and colleges. But professional sporting events will be taxed.

Questions regarding any of the new taxes can be answered by calling State Comptroller Bob Bullock's office toll free 1-800-252-5555.

October Tax Hike Is Upon Us

You go to the store and buy an oil filter for your car. It seems like it cost a nickel more this time.

Then you pick up the dry cleaning. That seem higher, too. You didn't forget that bag of fertilizer. But you paid 50 cents more than the last price you remember paying for it.

Oh, you almost forgot picking up the camera you left at the repair shop last week to get the shutter fixed. That much to get it fixed, huh?

As you drive, you're wondering what it was the newspaper boy said about the new weekly price for home delivery.

And so it goes. The October 2 tax hike is upon us.

The \$4.8 billion tax package passed by the Legislature and signed by Governor Mark White takes effect Tuesday.

How much of the new tax burden will fall on you depends on what you buy and where you live.

The state sales tax went up by 1/8 of a cent, but a whole slew of items will be taxed for the first time, increasing the price of some things by as much as 6 1/8 percent.

Services such as dry cleaning, repairs, catering, massages, tailoring, mending and entertaining all have additional costs tagged on as a result of the expansion of the state sales tax categories. Repairs such as for fixing the old television set, putting new heels on the old

LUBBOCK, Friday, September 21, 1984

The U.S. Department of Agriculture's decision to require that producers in 1985 plant no more than 70 percent of their cotton acreage base may not reduce the acres planted to cotton next year as much as it first would appear, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock.

That's what Johnson told ginners and allied industry people gathered in Lubbock September 22 for the annual meeting of the Plains Ginner's Association. "In fact," Johnson said, "I won't be surprised if acreage planted to cotton is as large in 1985 as the 11.3 million acres planted and intended to be planted in 1984."

USDA Secretary John Block released the acreage reduction details September 14, with producer sign-up to begin October 15 and extend through March 1. Announced provisions require that participating producers put 20 percent of base acres into a voluntary acreage reduction program (ARP) without compensation and idle another 10 percent as a paid acreage diversion. The diversion payment rate will be 30 cents per pound on the farm's established yield.

Unlike similar programs in the past, when the paid diversion part of acreage reduction plans was optional, eligibility for program benefits in 1985 will require idling the full 30 percent. USDA projected the 1985 deficiency payment at 19.8 cents per pound and said producers may request one-half that amount and one-half the 30-cent diversion payment at sign-up.

The advance payment and the paid diversion, for some producers will serve as added incentives to program participation, Johnson admits. "Taken by themselves they would make you think that 1985 acreage would be five percent or more short of 1984 when there was only a 25 percent ARP requirement.

"But when you look at the probable effect of the \$50,000 payment limitation and the planting record of producers in recent years, the view changes quite a bit," he said.

Expectations of higher per-pound deficiency payments, coupled with the 30-cent diversion payment means more producers will be affected by the limit and all will be affected at a lower acreage level, Johnson reasoned. "In other words, large farmers who sign up all their acreage in 1985 will have to devote more acreage to conservation uses and plant fewer acres to cotton just to earn the same \$50,000 payment earned this year.

"For some, that additional cost of program participation will be more than they are willing to pay and they'll go outside the program."

There is no cross-compliance requirement between farms, Johnson explained, meaning that producers with two or more farms can be in the program on farms with enough acreage to qualify for their maximum payment, then go out of the program on all others.

This was a widespread practice in 1984, and with expectation of higher total per-acre payments in 1985, Johnson noted, "we can expect even more farmers to follow the same route, resulting in fewer program acres and more 'wildcat' acres."

He also called attention to the fact that the required 30 percent reduction will be applied to a "bloated"

Bulldog Booster Club News

The Bulldog Booster Club met Tuesday night, Sept. 18, in the school cafeteria. A large group attended showing support for the Bulldogs and to watch the film of the Hale Center game.

It was suggested that parents of all teams, 7th through varsity, buy a shirt with their boy's number on it. Jennings has offered to put the number on free if the shirt is purchased. Coach Shaver gave a talk on the up-coming game with Coahoma.

acreage base, or a base acreage larger than producers would plant without a reduction requirement. Clear evidence of this was seen in 1982 and again in 1984, he stated, when planted acreage plus conservation use acres came to only 84 and 86 percent, respectively, of the total base.

And, Johnson pointed out, in the two most recent years when no acreage reduction program was in effect, 1980 and 1981, producers planted only 14.6 and 14.5 million acres, respectively, compared to the 1984 national base of almost 15.6 million acres.

"All of which means," Johnson concluded, "that it was necessary for USDA to announce a bloated 30 percent acreage reduction figure to offset the bloated acreage base. And for that reason that actual reduction requirement, in terms of acreage that realistically might have otherwise been planted, probably is closer to 20 percent than 30 percent."

Letter to The Editor

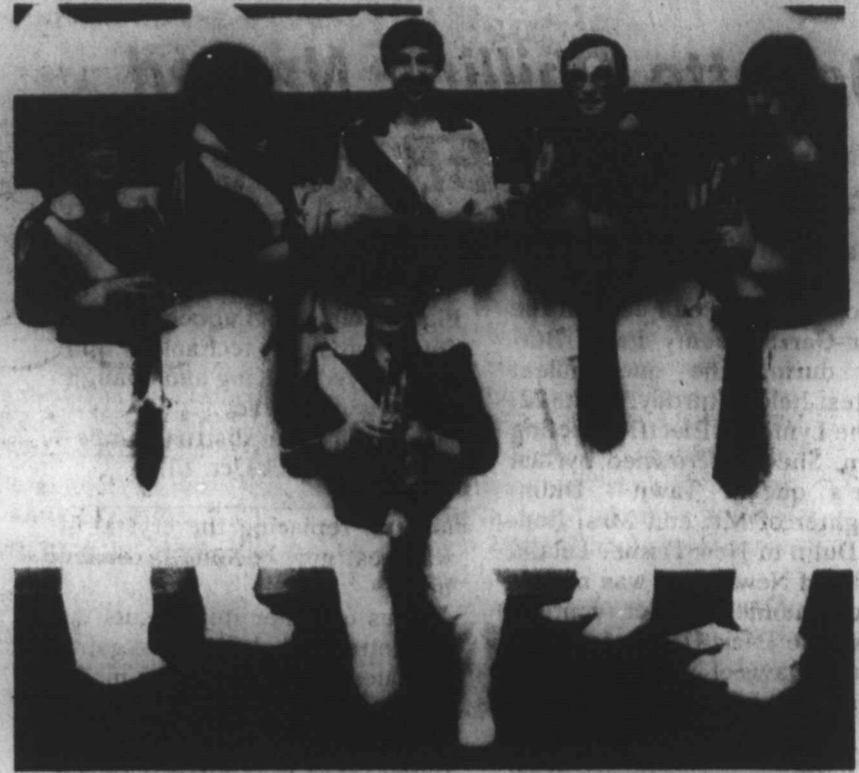

Dalton:
Because of numerous reasons that have become obvious to students, teachers, and parents since the beginning of the school year (and for other reasons which may not become apparent until future years), I voted no on House Bill 72, the "education" bill of the June special session.

Numerous calls and letters from concerned persons indicate that somehow, in a frustrated effort to strike out at what many people believe to be an ill-conceived and counter-productive change in the statutes, many teachers and parents assume or have been misinformed that all Legislators voted for and supported H.B. 72. This is not the case and I can assure you that many Legislators, like myself, were concerned with (1) inadequate increases in teacher pay and the imposition of an untested pay scheme which results in many veteran teachers being paid the same as beginning teachers; (2) the inclusion in the statutes of inflexible regulations regarding attendance and grading, matters better handled, in my opinion, by local boards; and (3) the almost certain increase in local property taxes for the majority of the 36 school districts located within my legislative district.

A tremendous amount of political capital has been invested in this "reform" measure and I do not hold out great hope that the more objectionable parts can be easily amended. I do hope, however, that the scheduled increase in the proportion of the basic program that local taxes must fund (Local Fund Assignment) can be rescinded and thereby take added pressure off of property taxes. I am also hopeful that policy-making authority regarding attendance, grading structure, and specialized curriculum will be returned to the local boards where it belongs.

It is difficult, when having campaigned and been elected, in part, on a platform of improving education, to vote against a bill highly touted as education improvement. But I did not perceive the bulk of H.B. 72 as the kind of improvement we in the 78th district regard as progress, therefore I voted no.

Sincerely,
Steven A. Carrier
State Representative

Clothing Seminar Is Planned

"Image and Impact - Making the Most of Your Figure" seminar will be held Friday, Sept. 28, 12 noon to 1 p.m. in the Lyntegar Meeting Room. This seminar will offer "dressing thin" tips and ideas for developing an overall positive image for the larger woman.

Sponsored by the Lynn County Extension Homemakers and Lynn County Family Living Committee, this program is open to all interested individuals. Speaker will be Becky Saunders, clothing specialist with the Texas Agricultural Extension Service.

Admission is free. Bring a sack lunch, ice tea will be provided.

CONSUMER BEEF PREFERENCE
CES--A nationwide panel of beef tasters verified that a sizeable group of consumers want their steak lean and there will be a ready market for that type product. The study involved more than 1,100 consumers in San Francisco, Houston, Kansas City and Philadelphia and is the first part of a two-phased research project aimed at finding out what kind of beef consumers really want.

FOREIGN OWNERSHIP OF U.S. FARMLAND--The level of foreign ownership of U.S. farmland is relatively small and has remained fairly stable, says an economist with the Texas Agricultural Extension Service. Just over 1 percent of U.S. agricultural land--about 1 1/2 million acres--is owned by foreign investors while in Texas that amount is even less--about six-tenths of 1 percent. In Texas most of the foreign-owned agricultural land is timberland in the eastern one-third of the state. Fifty-seven percent of Texas' counties have one or more foreign landowners, the largest number being in Hidalgo County. Other counties with a large number of foreign landowners are Cameron, Collin and Harris.

CARD OF THANKS

To Milton and Betty Ehlers and Guy and Ann Witt for their time and effort spent in organizing the street dance, to Bob Swinford for donating the meat, to Robbie and Donna Roberson for cooking it, to Thriftway for donating the cups, spoons, and napkins, to Pat Patterson of Southwestern Public Service for turning on the electricity for the band, to Clarence Nieman and band for donating their time and talent, and to each one who brought ice cream we wish to say a very special thank-you for giving the benefit dance for Gregg.

To us, Christianity is people helping people, and we have seen the love and concern of people over the entire county through their prayers, visits, calls, cards, and donations that have been given. We believe that good can come from anything that touches our lives. What greater good could come than to see God's love and concern shown through His people?

To all who have reached out and helped when help was needed, we say thank you and may God richly bless each one.

Norvin and Beulah Nieman and family 39-1tp

We would like to thank everyone for all the kindness shown us during the loss of our loved one.

Thanks for the food, flowers, cards, prayers, kind words and other acts of kindness.

May God bless each of you.

The family of Mrs. Nellie Engle 39-1tp
