SCRIMMAGE--Johnny Morin of Tahoka encounters problems running with the ball against Roosevelt last Friday in a scrimmage. The two teams struggled on about even terms until the Eagles got their feathers ruffled and flew home. (LYNN COUNTY NEWS PHOTO)

Bulldogs, Ropes Will Scrimmage

Coach A.D. Shaver this week will take another look at his 1985 Bulldog football team in action against somebody else, hopefully a longer look than he got against Roosevelt here Friday.

The Bulldogs will go to Ropesville for a scrimmage set to begin at 5 p.m. Friday. There were no serious injuries in last week's scrimmage with Roosevelt, which was cut short when the Eagles coach decided to take his team home. There was a suggestion that threatening weather, with some lightning, was a factor, but mainly the Roosevelt coach appeared upset with what he considered unnecessary roughness on the part

of Tahoka players.

Roosevelt scored against Tahoka's junior varsity, but there were no scores in the time the two varsities scrimmaged against each other.

Accidents Reported In Tahoka

On Thursday, Aug. 22, John Witt Butane Co. located at 1304 Lockwood reported to police that a trucker who was passing through town with a trailer had pulled off the road next to their business to sleep. The back of the trailer reportedly caught three guy-wires and a support pole and the support pole was pulled from the ground. Damage was estimated at approximately \$600.

Police investigated an accident on Thursday, Aug. 22 at the intersection of Ave. J and South 6th that involved a 1967 Pontiac driven by Samuel E. Contreras of Tahoka and a parked 1976 Chevrolet owned by Thomas O. Jones Jr. of Rt. 5, Tahoka. No injuries were reported.

Tickets issued during the past week include one each for exhibition of acceleration, negligent collision, and one ticket for running stop sign and exhibition of acceleration.

Tim Raindl, Rt. 4, reported 15 cassette tapes and \$50 cash stolen from his 1981 Chevrolet Blazer during the night Tuesday, after a side vent window was broken out.

Jimmy Matthies, Rt. 3, Post, reported that tires, rims, a carburetor, stereo and tools were stolen off his 1967 Chevrolet pickup while it was parked on his farm a mile south of U.S. 380 and a half mile west of FM 1054.

School Keeps Tax Rate, Okays Funds Depository

Tahoka School trustees Aug. 15 voted 3-2 to keep the tax rate for the coming year the same it has been, 86 cents per \$100 valuation, with 78 cents to be used for maintenance and operations and 8 cents for interest and sinking fund.

The school board voted last March to "set aside" enough money to make the final payment in the coming school year on a bond issue which lacks only that final payment being paid for, over a 20-year period. At that time, board members said it would mean the equivalent of an 8-cent tax reduction for taxpayers if maintenance and operation taxes were established at 78 cents again this August, since no debt retirement money would be needed.

However, it later was determined that the school could not set aside operations funds to pay off bond issues, so the money intended for use in paying off the bonds had to go back into the general fund. This means the interest and sinking fund must be continued as before.

A called meeting of the school board was held Tuesday night and the tax rate again was discussed, but no change was made.

First National Bank of Tahoka was awarded the depository contract for school funds, after a sealed bid was opened.

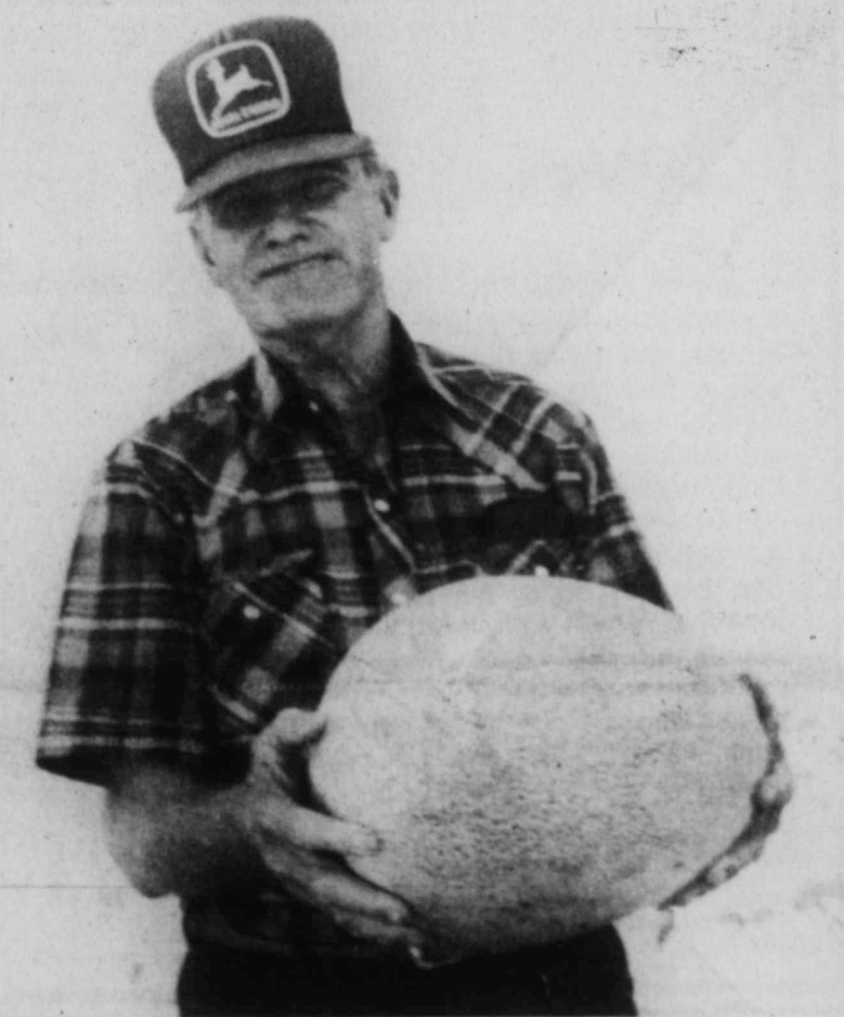

Collections of school taxes for the statements sent out in 1984 were 94.7 per cent complete,

business manager Loretta Tekell reported. She said a balance in all funds on July 31 was \$1,018,284.

The board also approved changes in student-parent handbooks, recommended two blocks of Ave. O next to the schools be made one-way going north during school hours, defined subjects which may be substituted for physical education, approved guidelines for free and reduced-price lunches and breakfasts and voted to continue lunchroom

prices as they have been.

Resignations of Felix Fabila and Sharon Gregory were accepted, and hired was Mrs. Ramon Kuethe as high school Spanish teacher. Other action included setting the annual salary of Supt. Clifton Gardner at \$45,000, approving liability insurance coverage for school personnel and board members, and approving installation of a sidewalk parallel with the street in front of the Gardner building.

OUT OF THE WOODS

By Juanell (Wood) Jones

It's just amazing how smart my parents are ... the older I get, they just seem to be getting smarter and smarter.

I remember how "ignorant of worldly ways" all of us thought our parents were when we were teenagers. They didn't know the names of the rock-star singing groups or anything important like that, and the family possessions they bought never seemed to quite measure up to our standards. I know my brother always referred to the family auto as "that no-good shot car" even though the car was usually only a few years old.

When I had been on my own a few years, and then got married, I began seeking their advice on certain matters ... and amazingly they knew what they were talking about! Then when we had children, Mom gave us a few tips on child-raising and, wonder of wonders, they worked!

I figure by the time my children are teenagers, my parents will seem to me to be the smartest people on earth. Never again will I be able to say, "That's dumb, Daddy!" or "Good grief, Mom, nobody does that anymore!"

FARM TERMINOLOGY is nearly a foreign language to me. I usually set the type on the advertisements in the newspaper, and when we run something for a farm supply store, I nearly always have to ask one of the ladies who works here how to spell "auger" or "flighting" or something similar. What do these words mean?

And I'm almost afraid to ask what a "stripper bat" is ... is

that any relation to the bat our local police chief brought into our office the other day? He caught this ugly critter at the airport and put it in a mason jar. Its wing was broken and he said his daughter was going to "lovingly tend to it" so it could fly again. He also said his wife wasn't too pleased about that.

I don't like bats because they look like mice, and I hate mice, and you can usually find mice on farms, so I don't farm. (How's that for bringing this all together?)

In January of this year I found a mouse in my dresser drawer early one morning and gave birth to my daughter a few hours later. My husband said if he knew that was all it took to get me to hurry up and have that baby, he would have put a mouse in my drawer a lot sooner!

I am like the cartoon housewife when it comes to mice ... I jump up on the nearest counter and scream for somebody to "do something!" We nearly had a divorce over our first mouse (we had been married only a few months) because my husband couldn't understand why I got so hysterical. "It's only a little mouse", he kept saying (and giggling) to me.

I know they can't hurt me. But they can jump on me and that is "grotesque to the extreme" as the teenage saying use to go. If only they looked like the mouse on the Tom & Jerry cartoons, then it wouldn't be so bad.

Scripture:

II Corinthians 4:3-10, 14-18

"For we preach not ourselves, but Christ Jesus, the Lord ..." But we have this treasure in earthen vessels, that the excellency of the power may be of God, and not of us."

"For if our gospel be hid, it is hid to them that are lost." Do you really know Jesus as your personal Savior and Lord, and Friend, and Great High Priest? Do you see with the spiritual sight He gives, even to Him sitting at the right hand of the throne of Power, the mercy seat, interceding for you and me?

Do you feel yourself in His presence, feel Him near you, yet also know His omnipresence — here and everywhere? Do you look to Jesus in prayer, and in the record of Him and His way, which is in the Bible?

When I see the pain, the evil, the suffering, the agony, the sorrow, the hopelessness and despair — the "lostness" of people without Christ, I am compelled by the love of Jesus and my love for persons to tell them of this gospel news which is hid from the world. Then just maybe the light which has shined in my heart may shine forth in the darkness to give the light of the knowledge of the glory of God in the face of Jesus Christ.

Oh, that my knowledge of Jesus

— my knowledge that Jesus saves and keeps us from death and hell into eternal life could be transplanted into you!

How can I "shout from the housetop" this good news of how to live eternally? How can I share with you this glorious knowledge of how delightful, how joyful, how amazing it is to live now with Christ as friend, forgiving, merciful, all-powerful? And, also, the expectancy of knowing that Jesus will never leave me nor forsake me, causing me to look in hope for the sharing of a glorious eternity with Jesus!

By God's love, mercy, forgiving grace, are you saved, through your faith to believe that Jesus is the Son of God who came to seek and to save us who were lost!

Will you believe? Will you follow Jesus? For He seeks you in everlasting love, not willing that even one of us should perish. Take Jesus now, and learn of Him as you walk step by step with Him all the way back Home! Jesus! He is the only One who can give you abundant, eternal life.

Comparison Of Farming Systems To Be Featured At Field Day

Early findings of a farming systems research program, comparing low input/maximum profitability versus conventional crop production systems designed to help farmers cut costs and increase profits, will be reported Tuesday, Sept. 10, during the 76th annual field day of the Texas Agricultural Experiment Station (TAES) at Lubbock and Halfway.

This year's tour will be held at the Texas Agricultural Experiment Station/High Plains Research Foundation at Halfway, 14 miles east of Plainview on U.S. Hwy. 70.

The field tours will begin at 1 p.m. and will feature five major stops, plus a walk up stop to see the latest research on grape cultivation, said Dr. Doug Owen, research scientist and field day chairman.

Farm Tour Set For Sept. 3

Lynn County Farm Tour will be held Tuesday, Sept. 3, beginning at 1:30 p.m. Interested persons will meet at the Lynn County Courthouse to board the bus for the tour.

There will be stops to view various types of cotton plots including Hybrid cotton, strength test, insect control and other variety plots. Various conservation projects will also be viewed.

Dr. James Supak, area cotton specialist, will be on the tour to serve as a resource person.

Ranch Day 1985 Planned Sept. 21

The Ranching Heritage Center has scheduled Ranch Day 1985 for Saturday, Sept. 21.

Samplers from a West Texas musical drama, a fiddler's contest and several other musical performances are scheduled from 10 a.m. to 4:30 p.m. at the center. All Ranch Day events are free except for the barbecue luncheon which costs \$6 for adults and \$2.50 for children under 12.

The Crosby County Prairie Drama Assn. will present samplers "Aunt Hank and the Postal Inspector" at 11 a.m. and "Cowboy Getting Ready for the Dance" at 1 p.m. both in the 6666 Barn.

Stinson Behlen, a Slaton accordion and dulcimer maker, will play the instruments at 10 a.m. in the McKanna Parlor of the Devitt and Mallet Ranch building.

James Duke and Jesse White, both of Lubbock, will play the guitar 10 a.m. to noon at the chuckwagon and 1-4:30 p.m. on the porch of Las Escarbas.

The Singing Plainsmen will perform at 3:30 p.m. on the porch of the Barton House.

The fiddlers' contest will begin at 2 p.m. in the 6666 Barn.

Numerous other activities, including demonstrations of ranch chores and crafts, are scheduled throughout the day. Buildings at the site will be manned by Ranch Hosts, a volunteer organization.

New Home Football Boosters Optimistic

By RAY GLASS
Lubbock Avalanche-Journal
NEW HOME — George Deck goes from Gorillas to Leopards this fall but, regardless of the mascot, the key to a successful football season is the same for the veteran head coach.

"To me, the answer to winning is attitude and discipline," said Deck, the first-year head coach at New Home, which begins its second season of six-man football this fall. "That's the answer in any winning situation."

While New Home fans aren't used to winning seasons in recent years, the Leopards did post a 5-3 ledger last fall and, with realignment into a University Interscholastic League district less than a year away, seem prepared for a strong second season as a six-man independent.

"At this point, the kids' attitude and discipline is very good," Deck said during the first week of practice. "There are lots of positive attitudes here; everyone's getting fired up."

Deck, who coached the Trent Gorillas last fall, is still getting acquainted with his players but knows he has a pair of returning starters among seven lettermen to build around.

"I'm new here and the kids are still a little bit tentative," he admits. "But they're enthusiastic."

The Leopards are also few in numbers, with only 11 on the roster, but Deck said he expects four or five more players to report when school begins.

Until then, Deck will fashion his split T offense and 32 defense around two juniors: Arthur Silva and Jimmy Wyatt.

Silva, a 5-foot-10, 165-pounder, is a returning two-way starter at end while Wyatt, a 5-4, 155-pounder, returns at running back and linebacker.

"We have two big, powerful

backs in Jimmy and Darrell (Paul)," said assistant coach Jeff Faubion, who helped with the team last season. "They're not real fast but they're both strong."

Paul, a 5-9, 177-pound freshman, figures to join Wyatt and Lloyd Caballero, a 6-0, 144-pound sophomore, in the starting backfield.

"Lloyd's an intelligent kid," Faubion said. "He's real good on the short passes."

The lone senior on New Home's roster is the team's biggest player — 6-1, 192-pound J.T. Hayse, who should nail down starting bids at center and end.

Brad Morrow, a 6-0, 167-pound junior, is a strong candidate to earn the nod at the other end slot and can contribute at defensive end as well.

Chuck Smith, a 5-10, 133-pound junior, and Fritz Speckman, a 5-11, 173-pound junior, also should see plenty of action in the offensive and defensive lines.

After playing only eight games last season, the Leopards have a full 10-game slate scheduled for this year.

STRONG TEETH
Lack of calcium in the diet is responsible for jawbone erosion and its resultant loss of teeth, report Cornell Univ. scientists. A pilot study with added calcium in the diet produced significant increases in density of jawbone. "Because of decreasing consumption of milk," they report, "the U.S. diet does not provide sufficient calcium to maintain healthy bone structure and teeth." Calcium supplements are available from your pharmacist.

South Plains Telephone Co-Op To Receive Loan

U.S. Sen. Phil Gramm announced that the Rural Electrification Administration has approved a loan of \$1,763,000 for the South Plains Telephone Cooperative, Inc.

This federal loan will finance 34 miles of new line and provide facilities to connect 692 additional subscribers. System improvements, including toll facilities, will also be financed through this loan.

Counites being served by the South Plains Telephone Cooperative includes Lynn county.

WILSON HIGH CHEERLEADERS--Top row, left to right are Tammy Rios, Sr., Christi Stone, Sr. (head), Julie Poth, Jr. Bottom row, Patricia Benavidez, Fr., Vicki Steinhauser, Sr., and Trisha Houchin, Sr. They attended the ICF cheerleading camp in San Angelo this summer and received high achievement rating, becoming an Award Finalist. This entitles them to attend the International Open Cheerleading Championship in Nashville, Tenn. Dec. 29-30. They will compete for major national awards and recognition.

CLOTHING COSTS ARE HIGH--In spite of the heat wave outside, shoppers will be flocking into air-conditioned stores this month to buy back-to-school wardrobes, dress-for-success suits and other fall clothing. According to Texas A&M University Agricultural Extension Service clothing specialist Becky

Saunders, what they'll find in the stores is high prices. "Clothing prices increased at a lower rate than prices or other items over the last few years," she says. "But when the effect of inflation is removed, U.S. Department of Agriculture figures show the percentage of personal expenditures for clothing and shoes is

now estimated at a 25-year high." Annual spending for clothing and shoes is now estimated at \$588 per person. Part of the increased spending for clothes is due to higher prices and part is because we're buying more clothes than in the past, she explains.

Fugitive Surrenders

David Kent Pittman, a Texas Most Wanted fugitive, who was a suspect in a Dallas bank robbery, has surrendered to law enforcement authorities.

Pittman, 34, contacted an attorney in Abilene and turned himself in to Taylor County Sheriff's Office after seeing the Texas Most Wanted publicity concerning his case, said Sgt. Garland Wade of the Abilene Crime Stoppers program.

"The apprehension of David Pittman is just further evidence of the enormous success of the Texas Crime Stoppers program," Gov. Mark White said. "We have made stopping crime a community effort in Texas and we are now seeing the direct results of this effort."

CLOTHES BUYING POINTERS--While many shoppers are interested in cutting their clothes costs, they also want quality and are willing to pay for it. Texas A&M University Agricultural Extension Service clothing specialist Becky Saunders suggests getting organized for shopping by considering what you already have that is wearable, making a list of what you need and setting a clothing budget. She points out that separates are a relatively inexpensive way to extend your wardrobe. But be careful when you buy "trendy" clothing. Make sure it's suitable for you, and that the trend is new, rather than on the way out.

Mustangs Must Stay Healthy

By RAY GLASS
Lubbock Avalanche-Journal
WILSON — Gary Lewis could use a M.A.S.H. unit to help get his Wilson Mustangs through the 1985 season.

One day into pre-season workouts, Lewis had three two-way starters hobbled by a variety of ills. That's hardly good news for a Class 1A team with only 22 players.

Temporarily sidelined are 6-foot, 210-pound junior fullback and line-backer Chris Burtch (hernia), 5-10, 180-pound sophomore tackle and end Chad Joy (shoulder) and 6-1, 235-pound sophomore tackle Craig Wuensche (foot). All three are vital to the Mustangs' plans this fall.

"If we can get those people healthy and don't get anyone else

hurt, I think we'll be in the (district) fight with O'Donnell," said Lewis, beginning his third season as the Mustangs' head coach.

That's more than just wishful thinking from the coach of a team which went 3-7 last season. The Mustangs matured in the final half of the 1984 season, winning three of their four District 7-1A North Zone games to finish runner-up to O'Donnell and reach the playoffs. Even a 34-0 loss to Roscoe in the zone playoff game didn't dampen the hopes for this season.

"We're still a young ball club, with only four seniors and three juniors," Lewis said. "We'll be starting four or five sophomores who all played last year as freshmen."

"With a year's experience, we should be able to cut down on our mistakes."

Among Wilson's 15 lettermen are eight returning offensive starters and seven returning defensive regulars.

The Mustangs are virtually settled on offense. Greg Spears, a 6-3, 170-pound sophomore, returns at quarterback and will be joined by flanker Mark Burtch, running back Timmy Riojas and tight end Richard Nolte. Justin Bednarz, a 6-0, 190-pound junior and the fastest player on the team, has been moved from tight end to fill a vacancy at tailback.

Veteran offensive linemen include junior guard Jayson Bartley and sophomore center Paul Ehlers. Sophomore guard Johnny Guzman should see plenty of playing time at offensive guard.

On defense, the Mustangs are strongest in their linebacking corps, with Riojas, Bednarz and Chris Burtch all returning starters. Mark Burtch is a veteran defensive back, Joy and Bartley return at the defensive end slots and Wuensche fills a large space in the trenches.

Ehlers will be expected to help out on defense, while junior Mike Gatzki is a prime candidate to start in the secondary.

Energas Files Appeal on Rates

Energas Company recently filed with the Railroad Commission to approve rates to recover \$2.1 million more than was granted by the Amarillo City Commission.

On Aug. 6, 1985, the Amarillo City Commission, on a 5-0 vote, approved an ordinance granting Energas an increase of approximately \$2.0 million based on the recommendation of their consultant, R.W. Beck & Associates of Austin. The approved increase affects only those Energas customers served by the Amarillo City Plant system.

According to Robert F. Stephens, Vice President of Energas, "We stated clearly after the first reading of the ordinance that the \$2 million level was not acceptable and that we would appeal such a decision if it became final. Discussions with city of officials failed to produce a compromise agreement."

Energas Company expects to implement the city approved rates in mid-September. For the average customer using 10 MCF per month, this would mean a monthly increase of about \$1.87.

AUTOMATED SOIL TESTING--
A newly installed data logger, called a polycorder, is increasing the efficiency and turnaround time of soil and analysis in the Texas Agricultural Extension Service's Soil Testing Lab at Texas A&M University. The polycorder links the lab's fully automatic pH testing unit and a computer, explains an Extension soil chemist. Now, once a soil sample is ready for testing, technology takes over. The pH unit automatically analyzes the sample, the polycorder records the data and feeds it into a computer, and the computer issues a printout, which is mailed to individual who submitted the soil sample. With this new process, paperwork is reduced at least three hours a day, and that means less cost and faster turnaround of soil samples.

Eagles Hope To Repeat Success

By RAY GLASS

Lubbock Avalanche-Journal
O'DONNELL — The O'Donnell Eagles, who learned about winning in a hurry last fall, will try to repeat their success this season in the face of strong challenges from Wilson and Ropes.

The Eagles fashioned a 7-3 record, including a 4-0 mark in the north zone of District 7-1A which earned them a playoff berth for the first time in 46 years. Their post-season adventure was brief, however, as O'Donnell lost to Forsan 19-6 in the zone playoffs.

But the winning experience, coupled with the return of 10 lettermen and starters at 15 positions, has the Eagles optimistic this fall.

"It sure feels different from what it's been like in the past," fifth-year O'Donnell head coach Odis Summers said of the atmosphere in the Eagle camp. "There's a great deal of difference in the kids' attitudes from this time last year. They didn't know what winning was like last year."

The Eagles know now and Summers expects as many as 42 athletes by the time school begins early next month. There won't be many positions available by then, though, as Summers and his staff have a handful of veterans to build around.

The Eagles are blessed with four experienced performers in the offensive backfield from a unit which was the second-best Class 1A rushing team on the South Plains in 1984.

Kyle Summers, a 5-foot-10, 156-pound junior, returns at quarterback with Kelly Sanders, a 6-0, 178-pound sophomore, back at fullback after starting there for the final two games of last season. Back at halfback are a pair of veterans — 5-8, 153-pound junior Bobby Sanchez, who started half the season, and 5-9, 173-pound senior Roel Ramirez, who was hampered by injuries last fall.

The Eagles return four linemen but Summers is concerned about that area.

"We have four linemen back but we lost some good linemen," he said. "We have to find somebody else to come through in the other three spots."

Returning to the trenches are 6-2, 205-pound senior end Ken Burns, 5-8, 176-pound senior Philip Furlow, 5-11, 170-pound senior guard Brian Snellgrove and 5-10, 196-pound senior tackle Willie Villarreal.

The Eagles are counting on 5-6, 135-pound senior Ben Modisette to fill in at center, 5-8, 191-pound sophomore Ryan Gass to fill the void at tackle and 5-6, 152-pound senior

Lupe Bernal to step in at the other end slot.

Summers isn't as concerned with his 5-2 defense, which ranked second among area 1A teams last year, allowing an average of 139 yards a game.

The Eagles are especially strong at linebacker, with Snellgrove, Ramirez and Sanders all veterans. Furlow at noseguard, Burns at end and Villarreal at tackle give O'Donnell three experienced linemen while Summers at safety is the lone returning starter in the secondary.

Gass and 5-10, 173-pound junior Armando Medellin are prime candidates to earn starting jobs in the line while 5-8, 141-pound junior Ramon Ramirez and Sanchez could start in the backfield.

Morotists Should Prepare For Back To School Traffic

Most children hate to see the summer vacation come to an end, because it means 'Back to School'. As the youngsters prepare to go back to school, the motorists should also prepare themselves for 'Back to School.'

Major V.J. Cawthon, Regional Commander of the Texas Dept. of Public Safety in Lubbock said, "Every year as school starts there seem to be an unfortunate rash of accidents caused by drivers who fail to follow Texas' vehicular law concerning a stopped school bus."

Major Cawthon advised, "When you see a school bus ahead, expect it to stop, especially if there are children waiting along side of the roadway."

State law requires a driver, either meeting or following, to stop and remain stopped for a school bus when the flashing red lights are activated and children are loading or unloading from the bus. The driver of a vehicle cannot resume motion until the flashing red lights are no longer activated or the bus driver signals you to proceed.

"And of course, always be careful in school zones and in areas where you see children walking to and from school. A driver's extra effort will pay off in preventing traffic accidents in these areas," Major Cawthon explained.
