MONEY ONLY OBSTACLE

Recreation Program May Be Extended To Include Fall, Winter

Muleshoe's recreation program may be extended into the fall and winter months, if requests from a number of citizens are heeded.

The program has completed its sixth week of operation now and has averaged nearly 2,000 "kid hours" in that time. This in spite of the rains the past weeks.

Adequate financing will be needed to continue the program, director Mrs. T. R.

White points out. Mrs. White reports enough money on hand now to carry the program through August, but no further.

Contributions are being asked, care of the City Recreation Department, Box 563, Muleshoe, Tex. Comments and suggestions on the recreation program are being sought.

Mrs. White has expressed the gratitude of the board of directors and children for the community support of the program.

Some 25 children per hour are enjoying the activities of the project, Coach Louis Powers has reported.

Friday and Saturday 44 from Muleshoe between the ages of 11 and 17 will participate in the Lubbock Junior Olympics. Eleven of these recently entered an invitational meet in Lubbock and won 32 points between them.

Recreation Program For The Week

Monday

7:30 to 11:30—Park Program (basketball, weight training.)
7:30 to 10:00—Loafer at Youth Building (Ping Pong, chess and mixer.)

Tuesday

9:00 to 10:15—Tennis for girls under 14.
10:45 to 12:00—Tennis for boys under 14.
1:00 to 5:00—Gym Program.
5:30 to 7:00—Tennis for boys over 14.
7:30 to 10:00—Basketball for High School Girls.

Wednesday

9:30 to 11:30—Park Program
1:00 to 5:00—Gym Program.
5:30 to 7:00—Junior Olympics (track and field).
Go To Church—

Thursday

9:00 to 11:00—Basketball for all Junior High Girls.
1:00 to 5:00—Gym Program.
5:30 to 7:00—Softball for Girls. (Mary DeShazo playground.)
7:30 to 10:00—Basketball for High School Boys.

Friday

All Junior Olympic competitors to Lubbock to compete.
7:30 to 11:00—Mixer at the Youth Building.

Miss Anonie Hightower of Goodland spent last weekend with Miss Gaylene Fred of Enochs. The group also enjoyed a slumber party Saturday night. Those attending were Misses Doris McBe, Phyllis Fred, Peggy Patterson, Anonie Hightower, and Gaylene Fred.

Merchants Plan Shoppers Mall For August 13th.

Closed Streets Will Feature The Event

The Muleshoe Retail Merchants Association has announced plans for the biggest sales spectacular of the year to be held in August.

Norman Thomas, chairman of the committee on preparations for the Shoppers' Mall, announced Monday that plans initiated about a month ago are now coming to a head.

The culmination of all the work and behind-the-scenes effort of the retail merchants group will be a gala festival taking place in the heart of Muleshoe.

The main street of Muleshoe will be closed to automobile traffic. A carnival-like Shoppers' Mall will be set up here on August 13.

The Shoppers' Mall is to be set up on the three blocks of Main Street between American Boulevard and Avenue D.

Plans are steam-rolling with each merchant and civic organization contacted. Each person or group adds new enthusiasm upon hearing of the Shoppers' Mall.

Merchants and organizations are invited to enter displays in the Mall area. Each interested person should contact Norman Thomas, Muleshoe State Bank; Lindal Murray, Anthony's; Roger Albertson, Cobb's; Harvey Bass, Harvey Bass Appliance; or Irvin St. Clair, St. Clair's Variety.

Job Placements Hit Crest Here

Muleshoe's Texas Employment Commission office last month recorded the largest number of job placements since it opened more than four years ago.

Joe Bradley, local TEC director, reports 1,484 placements in June. All but 41 of these were agricultural jobs.

This compares with the June figure of last year when 557 total placements were made—less than half the June 1960 figure.

Bradley attributed the jump in placements to two things.

First, the wet weather has resulted in greater weed growth and the need for hoe hands to help control the weeds.

Second, more workers have been available to the Muleshoe area, partly because of the local TEC office's getting out the word on local needs for farm workers.

SCHOOL LEADERS ARE HAVING A BUSY TIME

Mules Have A New Coach For Football

Muleshoe has a new football coach.

He's Jake Halter, who comes to town from Lubbock, where he served as B-Team football coach this past school year for Tom S. Lubbock High School.

Coach Halter succeeds H. W. Callan, who Monday night became high school principal of Muleshoe after serving last year as athletic director-head coach.

The new head coach's experience includes the past eleven years coaching at Claude, Nocona, Amarillo's Horace Mann Junior High School, and Borger.

A graduate of Pampa High School, the Universities of Tulsa (bachelor of arts in physical education), and Texas (master's of physical education), Coach Halter has recently compiled a fine football

mark while head of B-teams at Lubbock and Borger.

The past five years, his squads have won 35, lost but 10, and tied one.

While at Claude, Halter was named the coach that had done the outstanding coaching job in the Panhandle one year, a remarkable honor.

Last year at Lubbock he compiled a 6-3 record.

He indicates he is a basic T-formation coach and will use variations of this pattern according to the talents of the squad he has inherited.

He and Callan have been conferring on the team as the Mules near time to begin unlimbering for the 1960 campaign. August 15 they begin their fall workouts.

He is completing plans as quickly as he can to move his family here from Lubbock. He tells The Journal he is interested in finding a three-bedroom home in Muleshoe for his wife, Frances, and four children, Linda 12, Joan 10, Larry 8, and Becky 6.

Coach Halter was born in Norphlet, Arkansas, and was raised in Pampa, where he graduated from high school.

At Pampa High he won eight athletic letters, two in football, three each in basketball and track.

Then, from 1943 to 1945, he was in the Navy. After that he accepted a football scholarship to the University of Tulsa, where he was a quarterback and halfback.

The team's punter, he won the Missouri Valley Conference punting title in 1948. His teams at Tulsa enjoyed fine success, including an Oil Bowl appearance against Georgia one year to go with three other successful seasons.

He lettered three times in football at Tulsa, also picking up numerals in basketball (as a guard), track (hurdles, high jump, broad jump and javelin), and baseball (left field).

Finishing at Tulsa in January 1949, he went to the University of Texas to finish work on his master's degree in physical education.

That fall he accepted the coaching position at Claude, where he was "the coaching staff" the school's only coach.

He likes to tell about his girls' basketball team that won the district championship one year.

In 1952 he moved to AA Nocona as head football coach the next seasons.

In 1954 he went to Amarillo to coach the Horace Mann Junior High team there until 1955 when he moved to Borger as B-Team football and basketball coach. In 1959 he went to Tom S. Lubbock as B-Team coach.

One of his favorite memories from his playing days is the 1941 game his Pampa team played against mighty Amarillo, which had beaten the Harvesters in football the past 10 years running.

Coach Halter, punter for the Harvesters and their All-District quarterback, three times kicked out of bounds on the Amarillo one-yard line.

The third of these punts came in the third quarter with Pampa trailing by a touchdown. Amarillo couldn't move the ball and punted back out, but got a bad kick off. In a few plays Pampa had scored the touchdown to win, 16-12.

His favorite college football recollection is Tulsa's defeat of Oklahoma A&M in 1946, avenging a disheartening loss of the year before.

Taxing Board To Meet Again Monday, 1 P.M.

Muleshoe's school tax equalization board, faced with the headache of fairly assessing taxes for Muleshoe's expanding Independent School District, will hold another meeting Monday afternoon at 1.

The meeting will be in the school administration building.

The board has met before, but a number of property owners in the south part of the district have yet to discuss their tax situation with the group.

This year a re-evaluation is being made by the district on the basis of the increasing irrigated farmland to the south of town.

Tax rates for irrigated property will run roughly double those of dry-land farms.

Three classes of property exist for tax purposes and according to the classification irrigated property will be assessed per acre at either \$50, \$40, or \$35. This compares with dry-land rates of \$25, \$20, and \$15.

Persons concerned have been urged by school officials to consult the board at the Monday meeting to avoid any misunderstanding.

Griffin Trial Set For July 25

Trial of Al Griffin, charged with murder in the death last September 13 of Grover Tapp, has been set down for July 25, at Littlefield, in district court for Lamb County.

Mr. Tapp died of shotgun wounds received at a local service station where Mr. Griffin was working. Both had resided here for some years.

First called for trial January 11 of this year in Muleshoe, it was found impossible to obtain a jury and the case was changed to Lamb County. Set for March 21, the trial was postponed because so many persons were busy with farming and other activities.

Cline Studio Is In New Location

An announcement was made today of the Cline Studio moving from 616 South 1st, to 120 Main. The Cline's are celebrating their ninth anniversary in Muleshoe with July specials.

All photography handled by the Cline Studio is processed locally. Mr. Cline thanks all his customers and says that the move will be able him to serve them better. Call the Cline Studio at the same phone number, 3-4800.

STEEL files, filing folders, file guides, many other things you use in your office in stock at The Journal, Call 5400 or 7220, for quick delivery.

Rev. and Mrs. Ivan Hagler (See Story on Page 4)

6 Teachers Needed By This September

Newly arrived Muleshoe School Superintendent Neal Dillman has been a very busy man since assuming duties July 1.

Mainly, right now, he is faced with finding six teachers to fill vacancies existing in the city school system.

He needs teachers for high school English (two), seventh grade language arts (two), first grade, and fifth grade.

Too, he successfully faced the knotty problem of finding a football coach before the Mules begin workouts August 15 for the coming season—a difficult dilemma on short notice at this time of the year.

This, however, he solved rather readily (see story elsewhere on this page.)

The coaching vacancy was created by the promotion Monday night at the school board meeting of H. W. Callan to high school principal.

Callan, coach and athletic director here last year, replaces Bill Parker as principal. Parker has gone to Lubbock to teach there as did his wife, former elementary school teacher here.

Six other staff contracts for new personnel were approved at the Monday night board meeting. These included:

Kerry Moore — 1960 graduate of West Texas State College, a major in history and speech; will be a speech teacher in the high school;

M. D. Shepherd — comes from Dalhart to assume duties as choral director of the junior and senior high groups; has 15 years experience;

Mrs. M. D. Shepherd — comes with her husband from Dalhart; will teach third grade at Mary DeShazo School; taught at Dalhart elementary;

Mrs. Doris Brown — will teach sixth grade science at Richland Elementary; a few years ago taught in the commercial department at the high school;

Mrs. Gladys Eggers — will teach fifth grade social studies at Richland Hills; comes from teaching the fifth grade at Amherst;

Bonnie Neal — will teach fifth grade language arts at Richland Hills; 1960 graduate of McMurry with an elementary education degree.

Two resignations and a retirement from the system were accepted Monday night.

Mrs. Blanche Johnson, a teacher in the local system 21 years, resigned. She was the seventh grade math teacher and junior high librarian.

Dale Lavender, former fifth grade math teacher at DeShazo, has moved to Pettit, where he is preaching and will join the school system.

Dwayne Reeves, speech-history teacher in the high school, has gone to Lubbock to work on his master's degree at Texas Tech.

Released Wednesday by Superintendent Dillman is the calendar for this school year.

Blue Monday for local students will be August 29, when classes begin. Preceding this, workshop for teachers new to the local system will be conducted followed by a workshop for all teachers the next day.

Thanksgiving holidays will be November 23-24. Christmas holidays will begin December 17 and extend through January 1, classes resuming the 2nd.

The extra length of this holiday, Dillman explains, is because of the many families that take their annual vacation at this time. The 16-day holiday that includes three weekends will be less

for such plans.

The second semester starts January 16. Students will have a holiday March 3 when the Texas State Teachers Association conducts a workshop for teachers.

Easter holidays will begin March 31 with classes resuming April 3.

Baccalaureate services will be May 14. School will be dismissed May 18, at 2 p.m., with commencement the next day.

During the board meeting Monday night a delegation of senior students requested the annual senior trip be continued.

The students had been told when sophomores that the trip would have to be discontinued after the spring of 1960 because of the increasingly larger size of the Muleshoe senior class.

The board Monday night decided to reject the request.

A New M'Shoe Post Office Will Be Constructed

Postmaster General Arthur E. Summerfield announced today that a new Post Office has been authorized for Muleshoe.

This announcement, the Postmaster General advised, coincides with the optioning by Post Office Department Regional Officials of a site meeting Department requirements as to cost, area, and location.

"This new and modern postal facility," Postmaster General Summerfield said, "will be constructed under the Post Office Department's Commercial Leasing Program, which utilizes the resources and investment funds of private enterprises to obtain needed postal buildings."

The new Post Office will be located at the corner of Third Street and East Avenue C, on property owned by Mr. and Mrs. Daniel H. Hart of Muleshoe.

According to acting Postmaster Senn Slemmons, bidding forms, specifications and other pertinent data will be available to prospective bidders soon. This will mean that an equitable construction value will be established on a competitive basis.

"The site option," the Postmaster noted, "will be transferred to the successful bidder, who will purchase the land, and then will construct the building to Post Office Department specifications and lease it to the Department on a long-term basis, with lease renewal options running up to 10 years."

"The Muleshoe Post Office," he observed, "will be a major link in our newly-revitalized and modern postal service, aimed at an ultimate goal of next-day delivery of mail anywhere in the nation."

"More than 4,200 new Post Offices have been built since 1953 under the Post Office Department's unique Commercial Leasing Program," Mr. Summerfield said. "Because these postal buildings remain under private ownership while leased to the Federal Government, the lessor pays local real estate taxes."

"Furthermore, because the buildings are constructed with private investment funds, capital outlays by the Post Office Department are limited substantially to those for Post Office furniture and equipment."

60 Cotton Crop May Well Equal Yield of 1959

Bailey County's beleaguered cotton crop will still likely equal that of last year's when the county produced 97,000 bales.

This estimate of county agent J. K. Adams comes in the face of widespread cotton plant difficulties — thrips, seedling disease, and bacterial blight.

"The reason for this," Adams says, "is that this year some 3,500 more acres of cotton have been planted, since a number of farmers have gone to B-plan cotton, which allows a larger acreage."

"This year we have 106,500 acres of cotton planted in the county," he said.

Many dryland farmers will likely be averaging the same or nearly so as the irrigated ones. Many irrigated farmers ran into some bad luck with the weather in April and May when a number of them planted.

Most dryland farmers didn't plant until the first of June have had a better break on the weather, which had been cold and damp before that time.

Adams, then, expects the dryland farmers to take up any slack in production the irrigated farmers may experience to hold the county's production near the 97,000 bale mark.

Several reports have come into Adams' office of a wilting condition in the cotton. Samples have been sent to College Station for examination of A & M College pathologists as to just what the trouble might be.

Much of the wilting has occurred in cotton that had been standing in water this past week, though this was not true every case.

The wilting could be fusarium wilt or possibly bacterial (Continued to Page 4)

JULY RAINFALL TO DATE: 5.84 INCHES

Dry Weather Is Just Around Corner For Muleshoe's Waterlogged Environs

By VERN FOLTZ

Which came first... the rains or plowing the cotton? It seems like each time the cotton growers plow the ground to allow air to their plants in an effort to prevent root rot, another rain soaks things down again.

Muleshoe has long past its average July rainfall mark of 2.28. At mid-month our receipts scale out at 5.84 inch inches.

Our wettest July ever was in 1924 when Muleshoe was drenched with 8.13. In July of 1941 the U-Bar City caught 6.92.

Muleshoe's driest July ever took place in 1954 when we could shake only .06 from the parched sky. In July 1932 we received only .30.

We were looking for July to equal the June precipitation figure, but it appears now that this month will surpass last month's total of 3.94 inches by a considerable margin.

During the past ten days drainage became our main problem. This is the confirmation of the fears of The Journal's climate as expressed in late May.

Farm lands are covered by ponds; highways are blocked by high water, and railroads and bridges are washed out.

Prospects for continued rains appear to be holding for at least another week. A return to the familiar Bailey County variety of summer weather is on deck for the period following July 23.

Turbulent weather is in store between now and the drying period. Conditions over the weekend of July 16 and 17 will bring together air masses of Canadian origin and of Gulf of Mexico origin. These air masses will be complicated by the agitation of a deep and soggy low pressure area.

These air masses often produce tornadoes upon coming into contact. The possibility of tornadoes will exist, but chances are they will be to the north of the Texas Panhandle... say in the area from northern Kansas to the Dakotas. Even so, tornadoes are not unknown to the Muleshoe country a this time of the year.

Cool temperatures are expected to linger in West Texas

for the entire week ahead.

Date	Lo	Hi	Dev.
Fri.	60	87	-5
Sat.	64	89	-2
Sun.	58	80	-9
Mon.	56	82	-9
Tues.	58	84	-7
Wed.	60	85	-6
Thurs.	60	83	-5

Warmer weather is in store, however, for late July. Being conservative, we should not look for any 100 degree readings for the balance of the month.

A closer look at August reveals a potential for more good summer picnicking-type weather. A few scattered readings in the 100 plus range are quite likely.

An overall description of the character of August might best be stated as "generally cool nights and hot days."

Ronald Bellamy Returns From Trip To United Nations In New York City

Mr. and Mrs. Tom Smith, representing the local lodges of Muleshoe and Needmore, returned Thursday from Corsicana where they met Ronald Bellamy, home from a trip to the United Nations building in New York City.

Ronald won the trip sponsored by the Odd Fellow and Rebekah lodges of Muleshoe and Needmore.

To qualify for the trip Ronald first won an essay contest in Sudan. A second con-

test of public speaking was held for local winners in March in Muleshoe.

The United Nations trip is given each year by all the Odd Fellows and Rebekah lodges of Texas. Each district composed of several lodges pay the expenses of the winners.

The group of 36 winners traveled by bus on the three weeks tour.

Ronald soon will present a talk on his trip to the local lodges.

Emily Pickard Is Shower Honoree

Mrs. Gene Pickard, the former Emily Jacobs, was honored with a bridal shower Friday, July 8 from 5 p.m. to 7 p.m.

About 35 attended at the home of Mrs. Roy Dyer. Mrs. Pickard was presented with a blue carnation corsage. Lathal Story who was Emily's maid of honor assisted her in opening gifts.

An arrangement of white and blue chrysanthemums centered the lace cloth. Sand tarts and fruit punch were served.

Group Attending Methodist Camp

A group of young people and their sponsors left Monday for a week at Ceta Canyon Methodist Camp.

Sponsors for the party were Mrs. Ray Edwards, Miss Marka Lynn Brooks, and Max Harrington.

Registered campers were Gary Edwards, Doris King, Lynn Ericson, Sheryl Peat, Susan McVicker, Hal Anderson, Lynn Barrett, Sonja Bass, and Carolyn Allison.

MYF Initiates Its New Members

A formal initiation for the new members of the Senior Methodist Youth Fellowship of the First Methodist Church in Muleshoe was held Sunday evening in the Youth Chapel.

About 25 were present.

Last Thursday night the Senior MYF had a very successful Pancake Supper which was one of several projects to raise money for their annual "Ramble", or planning retreat.

Ten were present Monday morning for the regular morning devotional held in the Youth Chapel every Monday morning at 8:00 a.m.

All youth are invited to attend.

CARD OF THANKS

We would like to express our appreciation for all the kind deeds, words of comfort, prayers, flowers, and food during the time of the loss of our dear loved one.

Jaqueta Howard
Mr. and Mrs. Lester Howard and Bill
Mr. and Mrs. Virgil Nowell and Derrell.

To buy, rent, sell, or trade, use the Muleshoe Journal Want Ads.

Dolores Williams Is Honored With A Coffee Friday

Mrs. James Williams, formerly Dolores Wagon, was honored with a coffee in the home of Mrs. Howard Elliott Friday morning.

Hostesses were Mmes. Noel Woodley, Pat Bobo, Julian Lenu, Forrest Jones, Etti Evans, Dudley Malone, Morris Douglass, Stan Barrett, Buck Wood, Harold King, and Howard Elliott.

Receiving with Mr. Williams were her mother, Mrs. Vance Wagon, and mother-in-law, Mrs. Rex Williams.

The serving table was laid with a white organdy cloth and centered with a Cambridge arms of daisies and yellow tapers.

Sisters of the bride, Mrs. Charles Mayhew and Mrs. Clarence Mason, presided at the silver service where coffee, assorted muffins, and melon balls were served.

Roberta Elliott registered guests. The bride's many beautiful and useful gifts were displayed in adjoining rooms.

Muleshoe Girls At Church Meet

ABLENESE — Two students from Muleshoe, Ann Brooks and Nonnie Taylor attended the Northwest Texas Methodist Youth Assembly, held on the McMurry College campus, July 4-8. Featured speaker was the Rev. Glen Mingleddorf of Smyrna, Tenn.

Rev. Mingleddorf is now a Methodist pastor at Smyrna, and for five years was with the Methodist Church's Youth Department in Nashville. He is known as one of the outstanding youth workers in Methodism.

Director of the assembly is the Rev. Charles Lutrick of Lubbock, executive secretary of the board of education of the Northwest Texas Conference.

Other featured speakers and teachers included Allene Ford of New York City, secretary of youth work for the Women's Division of Christian Service and former director of Christian education at Bethany Methodist Church, Houston.

The week's activities provided training for the 414 high schoolers in Bible, worship, singing, recreation and program planning.

Bryant Reunion Was 4th Of July

Mr. and Mrs. W. H. Awtrey, Sr., of Hereford and formerly of Muleshoe, attended a Bryant family reunion July 4 in MacKenzie Park in Lubbock.

Thirty-seven relatives and 17 old friends attended the celebration. Among the friends were the Grady Parris of Childress, and the Lester and Mack Hales of Lubbock.

Others attending were Mrs. Rozena Bryant of Anchorage, Alaska, who was here visiting her sons and their families, Dwane of Amarillo and Gerald of Clovis, N. M.; Mr. and Mrs. Alford Bryant of Lubbock and their daughter and granddaughter of Shamrock; Mr. and Mrs. Frank Bryant and daughter of Lubbock; Joe Bryant of Clovis, N. M.; Mr. and Mrs. E. T. Ward and son and family of Portales, N. M.; Deon and W. H. Awtrey, Jr., and families of Friona; and cousins, Mr. and Mrs. Slim (Lue) Johnston of Canyon; and Mr. and Mrs. Bob Johnston of Happy.

It was decided to hold this reunion every year on the Fourth of July.

Mrs. Sanders Is Honoree At Coffee

Mrs. Homer Sanders, Jr., was complimented with a coffee Saturday morning in the home of Mrs. J. M. Forbes. Co-hostesses were Mrs. Harold Wyr and Mrs. Jack Lenderson.

Guests enjoyed an informal coffee in the patio from 9:30 to 11. Mrs. Sanders was presented with a hostess gift. The Sanders are moving soon to Amarillo.

Attending were Mmes. Lonnie Arnold, Bernard Phelps, W. B. McSpadden, Homer Sanders, Sr., of Earth, L. T. Green, Jr., T. M. Slemmons, W. F. Birdsong, Roy Whitt, Webb Watts, Noel Woodley, Miss Elizabeth Harden, and the hostesses.

Marriage Licenses
R. B. Ross and Doris Ann Moss.
Marlin Dale Mills and Barbara Joyce Durrett.
Rudolf William Jesko and Gladys Marie Whalin.
Stanley Ray Robison and Luetta Gayle Wilson.

Committees Are Named To Serve Muleshoe IOOF

The Muleshoe Canton and Auxiliary Number 31 met in the IOOF building Friday, for a regular meeting. President, Ona Berry and Captain, Willie Stewart presided at the joint session.

President Berry appointed the following committees. On the visiting committee are Ona Berry, Florence Holmes, Daisey Stewart, Allie Snyder, and Ira Owens.

The card committee is composed of Daisey Stewart of Littlefield and Ira Owen of Muleshoe.

Those making up the finance and auditing committee are Allie Snyder, Florence Holmes, and Ira Owen.

A camp for all branches of IOOF to be held at Palo Duro Canyon July 30-31 is announced. Everyone is invited and asked to bring food for their party.

Refreshments of cookies, sandwiches and coffee were served to Allie Snyder, Daisey Stewart, Ona and Tom Berry, J. W. and Florence Holmes, Daisey and Willie Stewart, and Ira and A. H. Owen.

Muleshoe Rebekahs Hear From UN Trip Winner At Meeting

Muleshoe Rebekah Lodge met with 15 members and two visitors present. Grace Morgan, "Nice grand, presiding, as the "Odd Fellows and Rebekahs had to postpone the joint installation last week because of bad weather.

Plans were made to have the program, Tuesday, July 19 at 8:30 p.m. in the IOOF Hall here.

The two visitors were Mary Parish and Anna Mae Houston, Earth Rebekah Lodge No. 139. Mrs. Tom Smith reported on our U. N. Pilgrimage delegate, Ronald Bellamy of Sudan. Ronald was on the trip about three weeks. Mrs. Smith received two cards from Ronald while on the trip. In part Ronald wrote, "My appreciation and amazement about this trip cannot be completely explained in words. All the kids are nice and every one gets along fine, wish you could be granted such a privilege as this. All the people from the different Lodges along the way are

really wonderful. We are in Exton, Pa., now and have traveled 1700 miles so far." The New York car ETAO ETA —Ona Berry, reporter

Dig And Dream Garden Club Meet

The Dig and Dream Garden Club held its regular meeting Wednesday, and made a trip to Amarillo to visit the rose garden and enjoyed a picnic lunch.

Those attending were Mmes. Mae Patty, Florence Smith, Gladys Barnhill, Carolyn Hamilton, Annette Black, Lucile Harper, and two visitors, Mrs. Art Ryan and Mrs. Melba Jones. The trip was enjoyed by all.

Their next meeting will be held Wednesday, August 10 at 2:30 p.m. They will meet at the home of Mrs. Gene Hamilton and will go from there to Clovis to tour the rose garden.

Circle Back Has Reunion At Park

The annual Circleback reunion was held at MacKenzie Park in Lubbock Sunday, July 3. Everyone seemed to have a wonderful time and there was even food left over.

A new president and secretary, Mr. and Mrs. Tom Berry of Muleshoe, were elected.

A new feature is being added to the reunion. Three prizes will be given to the oldest person present, youngest person present, and to the person present living the farthest away from Circleback.

Families came from Dallas, Hobbs, N. M., Brownfield, Lubbock, Muleshoe, Sunray, and Circleback. The reunion is for everyone that has lived in the Circleback community at any time. This year's was the seventh.

Grandson Of Muleshoe Couple Has 3 Comic Strips In The Denver Post

RON HORSLEY, grandson of Mr. and Mrs. C. A. Horsley of Muleshoe, takes a look at the pressroom of the Denver Post with pressman Paul Landmark. Ron has had three comic strips printed in the Post, which conducts a "Draw A Comic Strip Or Panel Cartoon" contest.

Ron Horsley, grandson of Mr. and Mrs. C. A. Horsley, has had three comic strips printed in The Denver Post. The 11-year-old chose a wrist watch prize for his third winning comic strip in the Post's "Draw a Comic Strip or Panel Cartoon" contest.

He is the son of Mr. and Mrs. Bruce Horsley of Englewood, Colo. An article in the Post states, "Ron's enthusiasm for drawing is inherited from his mother, who does charcoal sketches and oil paintings."

A Tenderfoot Scout, Ron likes swimming and fishing trips with his dad. He's been in Muleshoe recently with his two brothers visiting their grandparents.

Ron told the Post that he, "sent in for a free art course once..." "They sent out five lessons and I completed the exercises in all of 'em. They didn't tell you where to get gags for cartoons, though."

(Continued from Page 1)

Cotton Crop . . .

With the results of the A&M findings are expected in a few days.

Adams also has observed that perhaps not enough rotation of crops is being undertaken locally. He recommends rotation between grain sorghum, cotton, and wheat for better results.

Word has been received from the Nixon Canning Company in Plainview that blackeye peas should bring a high price this year. A company spokesman assures farmers in the area that both green and dry peas should be quite profitable. Any farmers with land available were urged to plant now.

Potato harvesting began June 25, Stan Barrett has reported. He terms the crop average and predicts an August 10 finishing date. Recent rains didn't affect the crop, Barrett says, as no water stood on the potatoes.

Onions are being left in the ground at present awaiting better market price.

Grain sorghum looks as good as the cotton looks bad right now, Adams has reported. Wheat has now been harvested with very little loss.

The county's extension service has joined the Amarillo Experimental Station in a weed poison demonstration. Six poisons have been put out, sodium chlorate, benzac 35 (zobari), trysben 200 (benzac 1281), benzabor, and experimental compounds A and B.

Activity Week To Begin Monday

The Methodist Youth Fellowship of Lazbuddie, Oklahoma Lane, Sudan, Progress, Y. L. and Muleshoe will sponsor their third joint Youth Activity Week July 18-23. Activities will start each night at 7 at the Muleshoe Methodist Church.

From 7 until 8 each night the worship service will be held under the five different sub-topics. After the worship service for thirty minutes the group will be divided into fiveing this time the young people will be able to discuss and ask questions about problems that have been brought up in the worship service. The question group leaders will be the Rev. Tommy Gleaton, the Rev. Neely Motes, the Rev. Gray Adcock, and the Rev. M. Horace Brooks.

At 8:30 a different type of recreation will be held each night. Refreshments will be served then by one of the six participating. The night's activities will be closed with a devotional in the sanctuary of the church.

Monday's worship service will be under the direction of the Muleshoe MYF. The subject of how effective advertising is will be discussed by a panel of students. The subtopic for Monday is "Hidden Persuaders."

"A Man Without A God" is the sub-topic for Tuesday and a book review will be given in "The Big Decision" written by Matt Cvetic, who was a counterspy.

The film, "Broken Mask," will be shown Wednesday under the topic of "Are We Created Equal?" with Marka Brooks in charge of the program. Gil Lamb will be the guest speaker Thursday evening. "Take It To The Light" is the sub-topic and Mr. Lamb is speaking on alcohol.

Progress will be in charge of the service Friday and the program will be on the effects of gossip. Sa turday night Youth Activity Week will end with a picnic and drama trail at the Sandhills.

Methodist Youth Install Officers

The Shining Light sub-district of the Methodist Youth Fellowship met for the first time during the new conference year to install the officers who had been elected at a banquet held the first of May at Dimmitt. Miss Marilyn Murphy, Youth Director of the Dimmitt Methodist Church, installed the officers Tuesday, July 12, at a meeting at Lazbuddie.

MYF's of Bovina, Dimmitt, Earth, Lazbuddie, Muleshoe, Oklahoma Lane, Olton, Progress, Sudan, and Y. L. are members of the Shining Light sub-district. Before the installation Tuesday night, games were led by Mary Behrends and the ladies of the Lazbuddie Church served supper to the group.

Those installed to serve for this year are Magann Lamb of Muleshoe, president; Don Gardner of Muleshoe, vice-president; secretary, Jean Gray of Progress; publicity chairman, Barbara and Kenneth Evins of Muleshoe; christian citizenship, Tommie Allen of Dimmitt; christian witness, Annamary Elrod of Muleshoe; christian

The demonstration is to show field bindweeds can be killed. Two have been set up. One is on J. G. Arnn's farm just north of his home, a mile north of Muleshoe on the Friona road. The other is on the first farm north of the Moore farm, five miles north on the Y. L. road.

Ad Facts

For 1959 as a whole, every group of retail stores had record sales. Service Stations with \$16,800,000,000, were up 6.5% from 1958, which was the previous high year. To sell the American motoring public their products, Gasoline and Oil companies invested an estimated \$26,700,000 in newspaper advertising last year.

The Muleshoe JOURNAL Phone 7220 Member Texas Press Assn.

tian outreach, Alice Ross Bryant of Olton; christian faith, Patsy Richards of Bovina; and christian fellowship, Mary Behrends and Patsy Woodell, Counsellors for the sub-district are the Rev. Tommy Gleaton of Progress and Mr. and Mrs. Leon Ware of Bovina.

Wednesday, July 13, the sub-district members were guests of the Bovina MYF at their Youth Activity Week. Thursday night will conclude the last of three consecutive meetings. The meeting will be held tonight at Y. L. at 7:30. The program will be presented by a deputation team from the Tech Wesley Foundation.

The Plainview District MYF will meet Saturday at the 7th Street Park in Plainview at 6:30 p.m. for the first district MYF meeting of the conference year.

Social Security Representative Coming July 28

A representative of the Lubbock social security office will be in Muleshoe County Courthouse July 28 at 9:30 a.m., to assist local folks in all matters pertaining to social security.

Retiring workers have been advised by district manager John G. Hutton to call on the Social Security Administration a month or two before retirement.

"Early application", Hutton says, "for the social security benefits will enable us to attend to the necessary details and avoid a delay in payment of the first check."

"Claims for the retirement and family insurance payments require some action before they can be certified to the Treasury Department for payment," Mr. Hutton stated. "By filing early, payment can be made soon after retirement."

An applicant should bring some evidence of his age and an earnings statement showing the amount of his wages in the last year. The self-employed person should furnish a copy of his latest income tax return.

No appointment is necessary to file a claim. The Lubbock office of the Social Security Administration is located in the Federal Office Building, 1616 19th Street, Lubbock, Texas. The office is open Monday through Friday (except for holidays) from 8:30 a.m. to 5:00 p.m.

Local Vo-Ag Teachers Attend Short Course

Both Jerry Adams and Bill Bickel, vocational agriculture teachers in Muleshoe, have attended a number of short courses this summer.

At Tech in Lubbock they participated in a course on beef cattle and swine.

Enochs News Events

by Mrs. Jerome Cash

Mr. and Mrs. Sherrell Johnson are the proud parents of a baby girl born Sunday night in the West Plains Hospital at Muleshoe.

The grandparents are Mr. and Mrs. Curt Johnson of Enochs, and Mr. and Mrs. Hall of Needmore.

Mr. and Mrs. R.P. McCall, Marilyn and Roney were dinner guests in the Earl Elliot's home Sunday.

Those visiting in the Carl Hall home Sunday were Mr. and Mrs. Cleo Hall and children from Glenda, Ariz., Mr. and Mrs. Bill Burrus and children of Wellman, Mr. and Mrs. J. I. Burns of Lubbock, Mr. and Mrs. J. D. Bayless and Grandma Hall and Mr. and Mrs. J. E. Layton, all from Enochs.

Mr. and Mrs. Bill Burrus came Wednesday and couldn't get home because of high water. They had to go through nine lakes going home Friday. They live at Wellman.

Mr. and Mrs. Ernest Ellison and family and Mr. and Mrs. Elrade Mize and family visit-

Missionaries To Speak July 18

Rev. and Mrs. Ivan V. Hagar, missionaries to Liberia, West Africa, will be featured in a special missionary rally on July 18 at the 7:45 p.m. services of the Muleshoe Assembly of God Church, the Rev. R. V. Luna, pastor, announced today.

In the missionary service the Rev. Hagar will tell of the development and work of the leper colony. He will tell of a recent visit of the Honorable William V. S. Tubman, president of Liberia, and 23 members of the Muleshoe Assembly of God Church, the Rev. Hagar will be assisted by patients at the leprosarium.

Mrs. Hagar, a registered nurse, was a medical missionary in the leper colony. They are all from Crosbyton.

Mr. and Mrs. E. N. McCall and Dolores spent last week vacationing in Colorado and New Mexico. They visited Glorieta and Santa Fe, N. M., and Colorado Springs and Denver, Colo.

bers of his cabinet to the Assembly of God Leprosarium. After viewing the work being done in the colony, the president expressed his desire to see the colony enlarged to accommodate additional patients.

He immediately allocated ten square miles of jungle land to the colony for agricultural purposes. This land grant will aid the mission in its program of becoming self-supporting and will facilitate its plans for expansion.

Rev. Hagar is going to Africa to put this land grant into cultivation to make the colony self-supporting. As secretary of the Assemblies of God in China, from 1948 through 1951, and helped establish a maternity clinic in Saboba, Ghana. She also conducted children's services and village meetings. At New Hope Leprosary Mission, Mrs. Hagar will assist in the clinic and religious education classes.

Rev. Luna extends a cordial invitation to the public to hear the Rev. Hagar. A film will be a special feature of this missionary service at 7:45 p.m., Sunday, July 18.

All-Purpose, All-Steel Farm Building

Behlen Curvet

Almost Straight Side Wall Capacity... at 30% Less Cost

The All-Steel Behlen Curvet is an ideal all-purpose farm building. It can safely store both hay and machinery at the same time. It costs approximately 30% less than most straight-wall buildings of the same capacity. It can be built to any length (in 40-foot widths). And, it can be easily expanded at any time.

What's more, the Curvet is Leak Proof. All seams are sealed with non-aging rubber strips to keep weather, vermin, and insects out. Galvanized 3/4-inch bolts are placed every 6 inches along the seams for added strength and "tightness."

May Storage
Machinery - Tool Shelter
Calving Barn
Milking Parlor
Potato Warehouse
Repair Shop
Loafing Barn

Ceiling is 18 ft... giving "extra" room for machinery storage.

We can quickly erect a Behlen Curvet on your farm. See us now for complete details.

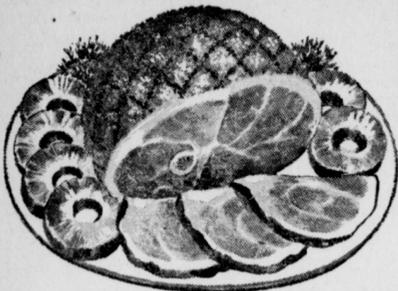

Behlen Curvet Farm Building
40' x 100' with 16' 8"x14' double slide doors
Concrete Foundation — Concrete Apron
Erected on Your Farm for only

Mrs. H. W. Hanks of Berkeley, Calif., and her daughter, Mary Nell, stopped briefly Saturday evening in Muleshoe. Mrs. Hanks will be in Lamesa the next six months.

Mary Nell is leaving on a two-year's assignment with the ICA—formerly the Marshall Plan.

She has been working with the foreign exchange students at the University of California in Berkeley.

Mrs. Hanks has been teaching English to classes of Chinese adults at night in the Chinese Methodist Church in Berkeley.

Noel Woodley left Monday for Houston to attend a Federal Land Bank meeting. He returns Thursday.

Meanwhile, Mrs. Woodley visited her parents, the Rev. and Mrs. C. E. Jameson of Odessa.

Mr. and Mrs. Bill Collins took their grandson, Butch Jeter, who had been visiting parents, Mr. and Mrs. Bill Jeter of Springdale, Ark.

Wheat Allotments Mailed To Farmers

College Station—Official notices of farm allotments for the 1961 wheat crop are being mailed to farmers this week, according to Baldwin P. Davenport, chairman of the Texas Agricultural Stabilization and Conservation Committee. Most of the allotments differ only slightly from those for 1960, since the national acreage allotment remains at the minimum of 55 million acres, Davenport said.

He pointed out that all growers who will produce more than 15 acres of wheat as grain in 1961 will be eligible to cast ballots in the July 21 referendum on marketing quotas for the '61

wheat crop. Growers with smaller acreages and those in the feed wheat program are not eligible to vote since their wheat would not be subject to marketing quota penalties.

Davenport said the referendum would decide important questions for wheat producers and he urged all eligible growers to cast a ballot. Marketing quotas will be in effect for the 1961 wheat crop if two-thirds of the growers casting ballots favor their continuance. Too, marketing penalties will apply to the excess wheat of growers not complying with their farm allotments, and price support at not less than 75 percent of parity will be available.

If more than one-third of the voters oppose the quotas, no quotas or penalties will be in effect on the 1961 wheat crop and price support at 50 percent of parity will be available to producers who plant within their farm allotments.

Growers who like to make their own decisions should cast a ballot on July 21, Davenport said. Local announcements will soon be made regarding polling places and opening and closing times for the balloting. Local ASC offices can supply additional information on the referendum or it may also be obtained from community and county ASC committeemen, Davenport said.

Joe Rogers, small son of the John Rogers, had the misfortune of being burned July 4, when several fire crackers exploded in his pocket and burned his leg.

Mr. and Mrs. J. E. Batchelor of Hooks, Texas, and Mrs. Suda Batchelor of Avery, Texas, returned home after spending the week visiting relatives here.

Mrs. J. C. Myrick of Weaver, Calif., is here to spend a few weeks with her parents, Mr. and Mrs. C. A. Bishop.

Mr. and Mrs. Jimmie Presley and son, Sherman Weldon, spent this last weekend in Oklahoma City visiting his sister and family, Mr. and Mrs. Eugene Lee and daughter.

Sallie Ann and Marla Parkinson are spending the week visiting their grandparents, Mr. and Mrs. Bill Rutherford, while their mother is in the hospital in Littlefield.

Rev. Tommie Gleaton is at Cedar Canyon this week attending youth camp.

Mrs. Opal Bell and son are here from California visiting her parents, Mr. and Mrs. R. M. Gibson.

Littlefield Gets Legion Clincher

Littlefield's American Legion nine clinched the Western Division title of District 19 by virtue of a 7-2 win over Muleshoe here Saturday.

Littlefield hurler Jerry Bridwell pitched no-hit ball in the contest.

In the third inning, Littlefield broke loose for four runs on four hits. Jerry Koller, Ronnie Rice, and Tony Estrada singled in succession and Jerry Bridwell cleared the bags with a grand slam homer.

For the Muleshoe Legionnaires, Mickey Rundell took the loss, bowing in relief to David Carter.

Farm Safety Week July 24-30

College Station — Governor Price Daniel by proclamation has designated the week of July 24-30 as Farm Safety Week in Texas.

This same period has also been designated as National Farm Safety Week by the President of the United States.

In his proclamation, Governor Daniel said: "The Nation's economy is dependent upon the continued well-being and progress of our State's agricultural population. Accidents from farm work cause needless suffering, distress and loss of life

each year among our rural families.

"By directing the attention of our rural residents to safety education, such worthwhile programs now being conducted can greatly reduce accidents. I urge all Texas farm families to increase their vigilance against needless accidents and further encourage interested organizations and individuals to participate in this program."

The Texas Farm and Ranch Safety Council points out that the purpose of the special week is to focus attention on the year-round need for reducing the number of farm accidents, and to cause those who can do something about the problem, to act. The farmer and his family, says the Council, must carry safety into their everyday lives. Nationally, they add, farm accidents cost one and a quarter billion dollars annually, a sizeable sum any way you take it.

The ever-tightening cost-price squeeze faced by agriculturists makes accident prevention even more important, says the Council, because a single costly accident can just about squeeze out the profits from most farm enterprises.

The Council joints Governor Daniel in urging rural residents and organizations to make safety their number one project for the months ahead.

Texas Outranks In Farm Income

College Station — Texas far outranked other states in cash receipts from farm marketing of cotton, rice and grain sorghums in 1959, reports John G. McHoney, economist for the Texas Agricultural Extension Service.

Cotton was the leading income source for Texas farmers as it brought in one-third of the total agricultural receipts. Although Texas grain sorghum accounted for over half of the total U. S. production, it accounted for only 10 percent of the State's farm income, McHoney continues.

In other rankings, Texas was second in receipts from cattle and calves, fourth in sheep and lambs, and peanuts, and fifth in flaxseed. Even though Texas retained its top spot for number of cattle and calves on hand, Iowa ranked first in total cash receipts, McHoney says.

Progress News

Mrs. M. O. Nigh

Anna Bell and Nadiene Ward of Milam Home in Lubbock were guests last week in the home of Patsy Marrow.

Mr. and Mrs. Ray Ethridge and children spent Sunday visiting in Clovis with her sister and family, Mr. and Mrs. Eck Colson and children.

Mr. and Mrs. H. R. Maddox and children of Lubbock visited Monday and Monday night with her sister and family, Mr. and Mrs. G. R. Hill and Raymond.

Fred T. Long of Richardson, Texas, half-brothers of D. O. Smith, passed away July 6. Mr. Long had been an invalid for 15 years. The funeral was held in the Chapel and burial was in the Restland Memorial Park at Richardson. Mr. and Mrs. D. O. Smith left for Richardson immediately after receiving the message, and returned home Sunday evening.

Mrs. Ray Williams and children and Dewayne Holland of Littlefield spent Sunday visiting her parents, Mr. and Mrs. H. C. Lee.

Ray Williams was in the hospital for treatment of burns, but was to be released Sunday evening.

Mr. and Mrs. Bill Bell and children were in Vernon to attend the funeral of Mr. Bell's father, who passed away the last part of this past week. The funeral was held in Vernon Monday.

Mr. and Mrs. D. L. Calvert of Lorenzo, parents of Johnnie Calvert, and also a friend, Vincent Jarzombek of Lubbock, visited here Sunday.

Mr. and Mrs. Bob Owens are the parents of twin sons, born Friday, July 8 at the Muleshoe Hospital. The boys last weighed 4 lbs., 8 ozs., and 4 lbs., 9 ozs. Last report said mother and sons were doing fine.

BULA NEWS BRIEFS
by Mrs. John Blackman

Jim Clawson has been confined at the South Plains Hospital in Amherst since July 4. Saturday morning he was stricken with a paralytic stroke on his left side, and has been very ill since.

The condition of Mr. Carl Tidwell, patient in the Veterans' Hospital at Big Spring, has shown no improvement the past week and he is on the critical list.

Sunday visitors in the Ray Spence home were Mr. and Mrs. Dale Spence and children of Seminole, and Brad Daugherty of Slaton.

Mr. and Mrs. Jimmy Cannon visited Tuesday with Mrs. Cannon's mother, Mrs. John Johnson, a patient in the Muleshoe Hospital and Clinic.

Mr. and Mrs. George Bahlman and daughter, George Ann visited their parents at Winters and Ballinger from Wednesday through Friday of last week.

Mr. and Mrs. Leo Holt drove to Graham Saturday and attended a school reunion Sunday.

Mrs. Roy Young returned home Friday from Georgetown after spending two weeks at the bedside of her sister who is critically ill.

Mr. and Mrs. Eddie Gibert and daughter, Thresa, of Ft. Worth, and Mrs. Gilbert's father, Otis Nichols of Meridian, spent Tuesday night in the Paul Young home and visited here with other friends.

Among those from the Methodist Church attending the quarterly conference at the Pettit Methodist Church Sunday and enjoying the lunch served by the Pettit Church ladies were: Paul Young, Mr. and Mrs. L. H. Medlin and children, Mr. and Mrs. W. B. Gage, Mr. and Mrs. Jimmy Cannon and children, and Mr. and Mrs. George Bahlman.

Mr. and Mrs. R. B. Lancaster and three sons of Dumas visited last week with

his parents, Mr. and Mrs. Earl Lancaster.

Returning home Tuesday from a two weeks visit with relatives were Mr. and Mrs. Jack Speck and children. They visited with their parents, Mr. and Mrs. Slim Castleberry of Rule, Mr. and Mrs. Paul Hester of Ft. Worth, Mr. and Mrs. Gerald Speck in Dallas, and Mr. and Mrs. Debney White at Lawton, Okla.

Jess Richardson of Floydada spent Thursday visiting his brother, Mr. and Mrs. John Richardson.

Wanda Hubbard spent the past week visiting her uncle in Lubbock, the Pete Hubbard family.

Mrs. Ruby Reid returned home Friday after completing the first session of summer school at West Texas State, Canyon.

The Joe Turner family returned home Tuesday after a three weeks visit with relatives and sight seeing trip to California.

Mr. Turner accepted a teaching position in the Yucaipa, Calif., school system.

We wish the Turners much success in their new field of work, but they will be greatly missed in the Bula community.

Mrs. P. M. Lancaster is recuperating at the home of her daughter, Mrs. Doc Shaver of Amherst after spending a week in the Littlefield Hospital with an infection in her leg.

Sunday guests in the Eugene Bryan home were two of their daughters and families from Littlefield, Mr. and Mrs. Art Foley and children, and Mr. and Mrs. Jimmy Crosley and children.

Intermediate girls auxiliary group and sponsors from the Baptist Church left early Monday morning and returning Wednesday afternoon for camp at Ceta Glenn

FOR ATHLETE'S FOOT

Use T-4-L liquid for 3 to 5 days. Watch fresh-as-a-daisy, healthy skin replace the infection. If not delighted with instant drying T-4-L, your 48c back from any druggist. Note: T-4-L is especially for severe cases. Use T-4-L FOOT POWDER too — gives antiseptic, soothing protection. Now at—

Damron Drug

Canyon near Floydada.

Girls making the trip were Donna and Diane Crume, Elaine Tiller, Diane Arend, Deana Teaff, Debbie Speck, Margaret Richardson, and Barbara Williams, and sponsors, Mrs. H. G. Thompen and Mrs. Edward Crume.

Mr. and Mrs. Bud Hammans left Sunday morning immediately after church services for Albuquerque, N. M. Mrs. Hammans and babies, Felecia and Mark will visit friends while Mr. Hammans will attend as counsellor for the Church of Christ Youth Encampment in the Sandia Mountains, near Albuquerque.

4-H Group Attend Leadership Camp

The 4-H Leadership Camp for District 2 was held in Lubbock July 6-8.

Those attending from Bailey County were Goldialu Goucher, Janie Wedel, Stanley Black, and Kerney Scoggin of Muleshoe; Dennis Medlin and Mike Risinger of Bula.

Mrs. Harriette Jackson and Mr. J. K. Adams, extension agents, were sponsors for the group.

The activities were enjoyed very much by the group and they were sorry to have to leave a day early because of the rain.

stuff 'n' nonsense

A couple of weeks back we noted a report from the West Texas Chamber of Commerce on population for the area which included the figure of four people living in Bailey County in 1900.

Hoping to track down some clue as to who they were and so on, we nosed around the other day in the records of Mrs. Hazel Gilbreath's County Clerk office.

We didn't have time to come up with much, but we did find out a few things.

Before 1918 when the county was officially organized, surrounding counties that had established their governments kept Bailey County's records.

Anything that pertained to the county in the early days, and not much did, was recorded and filed, for example in Castro County.

Likely one of the four countians of 1900 was J. R. Couts. For it's recorded that October 1 that year he shell-out 157,682.40 for 157,682 and four-tenths acres of county land, a dollar an acre.

He followed that with the purchase of another five sections on the waters of the Brazos Mountain Fork of the Brazos.

Further digging revealed the first recorded birth in our county was May 2, 1908, when Mary Rebecca Snyder was born to Thomas Levi Snyder, then 41, and his wife Sara Belle, 37.

He was a farmer who'd studied in the county coming from Polo, Illinois. Mrs. Snyder was from Coeencastle, Pennsylvania. Mary Rebecca was their fifth child.

Later that year a son was born dead to the C. M. Bartons who lived near Sudan, but the birth took place in this county. It was the Barton's first child.

The first birth recorded since 1878 when Bailey County began keeping its records was December 22 that year.

Charles Henry Long was born to Charles Henry and Effie Long, six miles northwest of Muleshoe.

Attending was Mrs. Mae Cantrell, midwife.

The county's first twins were born at Muleshoe November 22, 1925, to Berry E. Gideon and wife Eula May. They were named Nora Miriam and Lora Estelle.

Dr. J. M. McCuan of Farwell attended.

The county's first marriage license was issued to Melvin Rutherford and Rysa Dyer November 2, 1919, who got married later that same day by Justice of the Peace C. D. Gup-ton.

Ed Wright and C. W. Boyle are listed as witnesses to the wedding.

The county's first recorded death occurred October 9, 1899. Ora Ethel Hills or Hillis died at Baileyboro, the daughter of John M. and Annie Surratt. She is buried at Sudan.

That's just a sample of what we've turned up so far.

If you have anything on the history of Bailey County, let me know, and I'll be glad to drop by and see you.

Too often valuable and quite interesting history is lost because someone thinks no one cares about it.

Our county has had an interesting history. We should do what we can to preserve it. I've already been given the names of a couple of people who can help on this.

Don't hesitate to let me know if you have something about our county that should not be forgotten.

—Gree Olds

Magby Reunion In Clovis Brings 36 Together Sunday

Thirty-six folks attended the Magby reunion in Clovis at a park. Besides visiting with each other the guests enjoyed a picnic dinner and some swimming.

The reunion will be held again next year, this time in Carlsbad.

Attending were Mr. and Mrs. E. L. Magby and daughter Mrs. Bobby Burris and her family of Muleshoe; Mr. and Mrs. Richard Magby and family of Piekens, Okla.

Also, Mrs. Arness Morris and family; Mrs. Dillard Morris and boys Gary and Michael; Boyd Magby and family; Londoit Magby and wife Nell, all of Muleshoe;

Also Lee Magby and family; Edgar Magby and family; Freddie Magby and wife; Mrs. W. F. West and daughter Anita, all of Carlsbad.

DOES IT LOOK AS though Jo Dean Jarman is frying an egg? Well that's exactly what she's doing. It happened one day when we decided to prove the old adage and asked Jo Dean from the County Agent's office if she would join us. That's the Clovis highway she's doing her cooking on.

Three Way News

Mrs. Frank Griffiths

Charles Bowen has been attending the first semester at Tech this summer. They plan to visit his parents at Brownwood as soon as the semester ends.

Next year he will teach at Smyer. They will move there about July 15. Bowen will continue work on his master's degree next fall by attending night classes at Tech one night each week.

Wenonah Williams returned home Sunday. She had been gone two weeks visiting relatives at Morton and Friona.

Mr. and Mrs. Bob Phipps of Muleshoe and Mr. and Mrs. Kenneth Ferguson and children of Friona visited Sunday in the Conrad Williams home.

Mr. and Mrs. Phipps are Mrs. Williams' parents and Mrs. Ferguson is a sister.

Visiting in the C. J. Feagley home are Mr. and Mrs. John Shannon and three boys of Alvin, Ohio. Mrs. Shannon is Mrs. Feagley's sister.

The C. J. Feagley's visited their parents Sunday at Pep. They are Mr. and Mrs. A. G. Jungman.

Mr. and Mrs. Tommy Galt and children attended the family reunion at Hale Center recently. Returning home with them from the reunion was Mrs. Beulah Graham of Albuquerque, N. M. She is Tommy's sister.

Guests in the Clint Everett home the past week were his brother and family, Mr. and Mrs. Org Everett and son, Stan.

Sunday visitors in the Louis Henderson home were

Mr. and Mrs. J. T. Edgar and Sandra of Loveland. Mrs. Edgar is Mrs. Henderson's sister.

Curtis Cook of Idalou, Mr. and Mrs. Louis Henderson's nephew, is spending several weeks here with the Hendersons.

Mrs. Raymond Milligan will attend the recreational workshop at Morton this week. Moore of the Extension Service is conducting the workshop.

A revival meeting is in progress at the Three Way Methodist Church. The Rev. Cecil Tunn of Lamesa, conference evangelist, is doing the preaching.

Attending a reunion at Needmore Sunday were Mr. and Mrs. L. W. Chapman, Mr. and Mrs. T. G. Gaddy, Cass Stegall, LaVon Stegall, and Madalyn Galt.

Grady Schuman of Lubbock is visiting in the home of his sister, Mrs. L. W. Chapman.

The local FFA Chapter will have a business meeting Friday evening at 8 p.m. in the Agriculture building at the Three Way school.

All members are urged to attend to elect a delegate to go to Houston to the State Convention. Mr. Tharp is the FFA sponsor.

August 1 through August 7 is the date for the revival meeting at the Three Way Baptist Church. Rev. Byron Hardgrove, pastor of the church urges themembers to attend and invite others to go with them.

Shopping in Lubbock Tuesday were Mrs. Earl Bowers and Mrs. Jack Furgeson.

The home of Mrs. Leon Reeves was the scene of the Bible Study Club meeting. The members studied from Genesis, Chapters 26, 27, 28, and 29.

Refreshments of chocolate cake and ice cream were

Nematode Has Struck Area's Cotton Before

Nematodes damage cotton in all areas of Texas. The small microscopic worms are more damaging in sandy or loam type soils.

Nematode injury is often overlooked or mistakenly diagnosed as drought damage and poor soil. Damage may vary from slight to as much as 30 per cent of the crop.

The root knot nematodes are the most damaging and most easily recognized. Damage by these nematodes result in knots or galls being formed on the roots. Young cotton seedlings can be attacked by the parasites causing them to and provide a gateway for the die or be weakened.

Nematodes damage the roots fusarium wilt fungus to enter. The fusarium wilt disease once thought of as only an East Texas disease has been moving west in recent years.

It has been observed in the Wichita Falls, O'Brien, and Muleshoe areas.

Other nematodes that cause damage are the dagger, a stubby root and stilet nematodes. The root lesion, lance and true spiral nematodes are suspected as causing damage.

Nematodes are controlled by certain cultural practices or the use of certain chemicals prior to planting.

Contact your extension agent for additional information and ask for a copy of MP-356, "Plant Nematodes, Their Identification and Control."

The June 1 average for Texas is 19.0 hours. In the war year of 1943, it was 12.8 hours.

Weather at this season seems to have little effect on the amount of time the farm operator works, even when he can't be in the fields. The number of seasonal hired workers is more sharply influenced by weather conditions, but the workday length for regular hired help is more consistent, even in undesirable weather.

Mr. and Mrs. Jerry Simpson and son visited Wednesday in the home of Mr. and Mrs. Jimmy Bateas at West Camp.

Gena Cook of Loveland is visiting this week with her cousin, Linda Jordan.

Mr. and Mrs. Ted Furgeson and girls of Shallowater visited Sunday in the home of Mr. and Mrs. Jack Furgeson. The Ted Furgesons formerly lived at Goodland.

Jacquelyn Rhea of Lubbock is visiting Donna Kay Furgeson, Jacquelyn is the daughter of Mr. and Mrs. Jack Rhea, former residents of Maple.

Mr. and Mrs. Jack Furgeson and children visited friends in Lubbock Friday evening.

Mr. and Mrs. Bill Hendrix and children of Petersburg visited the Ed Neutzlers last

Texas Farmers Work Some 10.1 Hours Per Day

Texas farmers and ranchers had an average workday of 10 hours, 6 minutes on June 1, according to the U. S. Department of Agriculture.

That's a half-hour less than the average for farmers in all states of the nation, more than two hours less than the Wisconsin farm workday, but a full hour more than Nevada and Florida farmers put in.

This was brought out in the farm labor report issued by USDA's Agricultural Marketing Service, based on reports from federal-state Crop Reporting Service offices in each state.

The national average was 10.6 hours. Wisconsin led with 12.2 hours, while Nevada and Florida were lowest with 9.1 hours. Colorado farmers averaged 11.2 hours; Kansas, 10.9; New Mexico, 10.7; Oklahoma, 10.2; Texas, 10.1; Arkansas, 9.8; and Louisiana, 9.3 hours.

Farm operators in the nation averaged about an hour more each day than their hired hands.

Seasonal length of the farm workday has changed very little in this area during the last three years, although a slowness in the crop season was evident in some locations when the June 1 survey was made.

The June 1 average for Texas is 19.0 hours. In the war year of 1943, it was 12.8 hours.

Weather at this season seems to have little effect on the amount of time the farm operator works, even when he can't be in the fields. The number of seasonal hired workers is more sharply influenced by weather conditions, but the workday length for regular hired help is more consistent, even in undesirable weather.

Mr. and Mrs. R. T. Lytle of Riverside, Calif., and Mr. and Mrs. Harold Lytle of San Bernardino, Calif., visited their sister and family, Mr. and Mrs. Thurl Lemons.

Guests in the Leon Reeves home Sunday were their daughters, Shirley, and Mr. and Mrs. Bill Davis and children, all of Lubbock; Pfc. Wayne Shircliff of Cincinnati; Pfc. Tom Simkins of Detroit; Cpl. Larry Stand of Seamore, Indiana, and their son and wife, Cpl. and Mrs. Jack Reeves.

The servicemen came by the Reeves home to get Jack and return to their Marine Base, Camp Pendleton, Calif.

Visiting in the Horace Hut-

Farm Bureau To Tour In Mexico

The Texas Farm Bureau Goodwill Tour of Mexico has been postponed until August 1-14. J. H. West, organization president, has announced. The tour was originally scheduled for July 14-24.

The visit to Mexico was planned as a combination goodwill, pleasure, and educational trip.

"With this postponement, we will be able to take advantage of certain tour extras that are now being arranged in Mexico," West said. Also, many people who expressed interest in going along on the tour have indicated that they prefer an August date for the trip.

Included in the itinerary of the tour will be many points of agricultural interest, such as the highly regarded National School of Agriculture at Chapingo.

In his official invitation, Sr. Julian Rodriguez Adame, Minister of Agriculture of Mexico, stated that "it is my sincere hope that as many members of the Texas Farm Bureau as possible may be able to come. We are looking forward to showing our good Texas neighbors what we are doing in the field of agriculture to advance the welfare of our farmers."

Sightseeing excursions will be made in and around Mexico City, including visits to the Floating Gardens of Xochimilco, the picturesque mountain-side spa of San Jose Purua, a day at the fabulous Pacific resort of Acapulco, with stopovers in historic towns and cities such as Taxco, Cuernavaca, and Morelia.

Mr. and Mrs. Cass Stegall returned home Wednesday from Kilgore where they attended the funeral of Mrs. Rex Stegall, sister-in-law of Cass of Goodland; Keith of Gunnison, Colo.; Ernest of Wichita Falls, and Mrs. Ira Merchant of Amarillo, all former residents of Bailey County.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

It'll break into the news next fall as reports are made and trial balloons are run up on bills to be introduced in January.

Surest indication that state government is still on the job is that even now it's hard to find a parking place near the Capitol or the adjoining state office buildings.

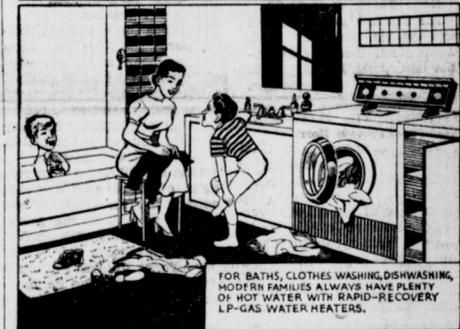

During the summer a dozen or so parking slots by the Capitol's east entrance are set aside for tourists. As a rule, tourists don't keep them filled, and Capitol guards are regularly beset by the persuasiveness of local people who need a place "just for a minute."

No turning back — Child adoption procedures, under Texas law, are about as final as a thing can be — more so than marriage or divorce.

Texas Supreme Court underlined this in a recent decision that denied the right to change her mind to a

BABSON DISCUSSES

Railroad Mergers

Babson Park, Mass., July 14—This column first warns readers that the days of passenger trains are nearly over. Several roads now operate only on passenger train a day; while passenger service is being cut by all railroads.

This is further hastened by talk of railroad mergers. Let me give you some illustrations.

The Gravity Roads
 The first recent important railroad consolidation was that of the Norfolk & Western and the Virginian Railway.

These two highgrade roads did not need to consolidate for financial reasons. However, they both serve the soft-coal fields of West Virginia, hauling coal to the seaboard at Norfolk. A merger was thus very natural; in fact, the Virginian perhaps should never have been built.

I have been especially interested in the above two roads because they profit so much from gravity, which readers know is a hobby of mine.

Today's Meditation

Read Matthew 18:21-27. All the law is fulfilled in one word, even in this: Thou shalt love thy neighbor as thyself. But if ye bite and devour one another, take heed that ye be not consumed one of another. (Galatians 5:14, 15).

During the American Civil War, when hatred between the North and South was bitterest, a White House reception was given. One of the guests overheard Abraham Lincoln as he made a kindly remark about the South. She immediately assailed him saying: "Why, Mr. Lincoln, how can you say kind things about your enemies? You should want to destroy them." Lincoln looked at her and said slowly, "Madam, do I not destroy my enemies when I make them my friends?"

This is the Christian way: get rid of the hatred. The result is that your enemies are gone also. Jesus was saying exactly this when He said, "Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you; that ye may be the children of your Father."

PRAYER
 Our Father, help us this day to show love for all our fellow men that Thy spirit may be seen in us. Make us to walk together before Thee as those who have been forgiven a great debt. In the name of Jesus. Amen.
THOUGHT FOR THE DAY
 More hate cannot drive out hate—only love can do that.
 —John Paul Hankins (N. Y.)

CHRISTIAN SCIENCE SERVICE

The way to unflinching peace and satisfaction will be pointed out at Christian Science churches Sunday in a Lesson-Sermon entitled "Life", the first of a series this summer devoted to synonyms for God. Opening the Scriptural selections to be read are these verses from Psalms (36:7-9): "How excellent is thy loving-kindness, O God! therefore the children of men put their trust under the shadow of thy wings. They shall be abundantly satisfied with the fatness of thy house; and thou shalt make them drink of the river of thy pleasures. For with thee is the fountain of life."

Correlative citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (516:9-12): "God fashions all things after His own likeness. Life is reflected in existence, Truth in truthfulness, God in goodness, which impart their own peace and permanence."

Gravity not only enables the trains to "coast" down from the West Virginia mines, but gravity also generates some of the electricity used in bringing the empty cars back.

I believe gravity will be a factor in many other railroad consolidations. At present, it is used industrially only in connection with water power.

It surely will sometime be used for irrigation and small power requirements.

Baltimore & Chesapeake
 One of the largest railroads is the Baltimore & Ohio; this road duplicates the service of the Chesapeake & Ohio.

The two roads can be consolidated with considerable savings to both shippers and investors. If the I. C. C. gives a "green light", and if the stockholders of the two roads and other interested railroads agree, such a consolidation will take place.

The Chesapeake & Ohio stockholders now feel that the Baltimore & Ohio needs them, rather than vice versa. They believe the Chesapeake & Ohio stock is worth considerably more than the Baltimore & Ohio is offering in exchange.

New York Central Situation
 Ever since the suicide of Robert Young, the New York Central has been a great disappointment to its stockholders. In view of the previous fight for control, most stockholders felt that the stock was very valuable and refused to sell it. This was a great mistake.

(Incidentally, a proxy fight often affords a good opportunity for stockholders to take profits, as the price usually declines afterward.) In looking for a friend, the New York Central officials have flirted with the Pennsylvania Railroad, the Baltimore & Ohio, the Chesapeake & Ohio, and the Erie, but nothing concrete exists at the moment.

Florida Railroads
 Negotiations between the Atlantic Coastline and the Seaboard have proceeded almost to the point of final agreement. There is no doubt but what the Florida East Coast should also merge with the above two roads.

Both the Atlantic Coast Line and the Seaboard are in excellent financial condition. The history of the Seaboard is, from an investment point of view, truly miraculous. Large amounts of money were made by the purchase of Seaboard stock directly after reorganizations. In fact, directly after reorganizations do I buy railroad stocks.

Northwestern Roads
 There is always talk of a consolidation of the Northern Pacific, the Great Northern, and the Burlington. At one time, merger was almost certain, but it was stopped by a court fight that triggered the panic of 1907. There also is constant talk of merging the Boston & Maine, the Maine Central, and the New Haven; but no one now seems to want the New Haven.

All of these New England railroads are "short line" roads which are being avoided by careful investors.

Railroad officials blame the I. C. C. for holding up these mergers. But the truth is that every consolidation means that certain officials, employees, and directors will be thrown out of jobs.

The labor unions therefore insist on being heard as well as certain of the small-town shippers.

Such opposition, however, is largely motivated by personal selfishness rather than by consideration for the good of the nation as a whole.

Sandhills Philosopher Says Two Changes

Of Administration Needed Before Next Summit Meet

Editor's note: The Sand Hills Philosopher on his Johnson grass farm goes international this week, in a provincial sort of way.

Dear editor: Earlier this week while I was sitting around waiting for the Democratic National Convention to warm up on television—I had some work to do but I figured national affairs come first, especially if you can attend to them while sitting in a soft chair inside your house—I got to thinking not only about national affairs but international affairs too. A man who can't do two things at the same time hasn't got a chance in this modern fast-moving world.

As I understand it, Mr. Khrushchev over in Russia is keeping a close tab on the Presidential election in the United States this year, as he has said he's not interested in holding another summit meeting until there's a change of administration over here.

Naturally I don't know who the next President will be, only the public poll takers know that and half the time the man they know is going to get elected never takes office, I guess because not enough

voters believed the polls, but at any rate, whoever he is, I have a proposal for him.

What he ought to do is inform the Russian people he'd like to hold a summit meeting but he believes he'll wait till there's a change of administration in Russia. Attending a summit meeting with Mr. Khrushchev is like playing baseball with a crooked umpire, who lets one side walk on three balls and calls the other side out on two strikes, and if that doesn't win the game, has his side pick up their gear and walk off the diamond.

Now I can't tell the next President when the next change in Administration in Russia will occur, but it will occur.

Despite all their scientific achievements, the Russians have never gotten around to postponing the life of a dictator indefinitely. If his best friend doesn't get him, old age will.

It's entirely possible the United States can get along without a Russian summit conference and Cuban sugar for a good while. Yours faithfully, J. A.

THE HOSPITALITY ROUTE COAST TO COAST

The safest place in a lightning storm is your LOK-RIB Building

You enjoy peace of mind in stormy weather when you own a LOK-RIB Steel Building. It's all steel—it won't burn—and if lightning strikes, the easily grounded steel panels dissipate the charge. The extra strength of LOK-RIB's exclusive V-rib design gives you that same safe feeling when winds are high. The factory-engineered, mass-produced LOK-RIB Steel Building goes up easier and faster. There are no high framing costs. Every part is pre-punched and matched to fit. Four widths—24, 32, 40, and 48 feet.

Call us for an estimate today.

City Commission To Dig Another Well

Drilling of another well in Muleshoe for municipal water purposes was started this week, according to his honor, Mayor R. L. Brown. It will be located about a mile and a half northwest of town near the present well now serving Muleshoe, thus doubling the capacity in case of fire or any other urgent need.

Pump and casing for the new well are already purchased and ready for installation.

79 Cars of Wheat Are Shipped From Here

There have been 54 carloads of wheat shipped from this point to the first of the week and it is estimated about 25 more will be shipped by the latter part of this week, probably concluding the season's shipments for the present.

However, it is stated wheat growers are holding back about 20 cars of this grain which has been placed in Government loan for later shipping.

Proper Maintenance Of Your Tractor Can Cut Running Expense

Here's some information that can save you money. It comes from Kansas State University where a performance study on 50 typical farm tractors was completed recently.

Failure to maintain an engine properly can cost the owner more fuel to produce less power.

The average tractor in the Kansas State test was producing only seventy-five per cent of its maximum power and it took one-third more fuel than normal to do it. Improper preventive maintenance is the primary culprit, with the following four points topping the list.

AIR CLEANER

Of the tractors tested, one out of ten had air cleaners that were choked with dirt and chaff. Servicing their cleaners resulted in an average power gain of 7.6% and an 11.4% decrease in fuel consumption.

CARBURETORS

Adjustments were needed in almost 75% of the cases. On 23 engines found running "rich", proper adjustment decreased fuel consumption by 9.5%. (In some cases, however, excessive cleaning of the carburetor may actually increase fuel consumption at full load.)

IGNITION TIMING

Over half the tractors were found to need timing adjustment. This produced an average gain in maximum power of 5.3% with fuel consumption decreasing by the same percentage.

SPARK PLUGS

New plugs were installed in 90% of the tractors for an average power gain of 5.3% and a 6.1% decrease of the test sumption. In seven of the test tractors, plugs were found to be in such bad condition they caused misting under load. In these engines new plugs increased power 21.5% and decreased consumption 14.2%.

Governors on 80% of the tractors were off. Adjustments or repairs increased horsepower 9% and cut fuel consumption by 5%.

Are you servicing your tractor air cleaner as often as you should? If not, you'd better heed this warning from Champion Spark Plug Company on the importance of keeping air cleaners working at peak efficiency.

Champion engineers tell us a dust clogged filter may cut down on the flow of air entering the carburetor, resulting in an overly rich fuel mixture in the combustion chamber. This may cause excessive carbon build-up, fouled spark plugs, varnish and gum deposits, oil dilution, sludge, and loss of power.

Even more important is the fact that as the filter becomes clogged, small particles of dust and dirt will enter the

carburetor and mix with the lubricating oil to form an effective grinding compound. This compound has the same effect on cylinder walls, rings and valves as rubbing them with sandpaper.

The result—excessive engine wear and shorter engine life.

Just in case you haven't considered how much dirt gets into the air cleaner, keep in mind there are one-million particles of dust in one cubic foot of air. Add to this the fact that it takes approximately 20 tons of air to burn a gallon of gas, and you have an idea just how much dirt enters that air cleaner.

And, remember, when the cleaner has absorbed its limit, the dirt and dust may move right through it into the engine. Don't take a chance on damaging your tractor engine. Always follow the manufacturer's recommendations on air cleaner servicing.

Maintaining correct operating temperature on a tractor engine is very important. Too cool an engine (often indicated by continually fouling spark plugs) may reduce fuel economy, decrease available horsepower, and shorten engine life.

On the other hand, too hot an engine (sometimes indicated by spark plug electrode burning) can result in poor engine performance and excessive wear of engine components.

Of the two conditions, most farm problems center on engines which operate too cool. This is due mainly to the fact that tractor engines are designed with excess cooling capacity so they can handle heavy loads in hot weather without overheating.

However, because of this design characteristic, when the tractor is operated under light engine loads or in relatively cold weather, engine operating temperatures become too low unless precautions are taken to make the engine run hotter.

Usually, this is accomplished by covering the lower part of the radiator, which in effect increases the temperature of the water flowing from the bottom of the radiator into the cooler lower part of the engine.

It's the effect of this cold water entering the engine which cause too low an operating temperature, hence the reason for covering the radiator to increase cooling water temperature.

You may not think that too cool an engine operating temperature has much effect on engine performance, but according to the engineers, an engine running too cool can greatly increase cylinder wear far beyond normal limits and have a tendency to foul spark plugs.

If you have trouble with en-

gine surging and power loss when operating your tractor, you'll probably think of carburetion as the cause of the trouble. Check the fuel filter and sediment bowl before tearing into the carburetor. You might save yourself a lot of time and temper.

Your best bet, of course, is to check them before you experience trouble; in fact, the fuel filter and sediment bowl should be examined daily and cleaned weekly.

This is especially important after a sudden change in outside temperature, which can cause condensation in the gas tank. If you find water and dirt in the sediment bowl, clean it out and wash the filter with solvent.

If it has a throw-away element, replace it. When reinstalling the glass bowl, be sure the gasket surfaces are in good condition, to prevent leaks.

"COW POKES" by ACE REID

"If National Farm Safety Week doesn't git here soon there ain't gonna be none of us left to celebrate it!"

It Is Time To Irrigate When Half Of Available Moisture Is Used Up

When do you need to irrigate and how much water should be applied? Water should be applied when about half of the available moisture has been used. The amount of water to apply at each irrigation depends on the depth of the soil, its texture and the moisture requirements of the crop being grown.

The amount of irrigation water applied to a soil should depend upon that soil's moisture reservoir. A medium textured soil normally stores about two inches of usable moisture per foot of depth. Irrigation should begin, however, when about one inch of this moisture has been removed by a crop. This prevents any moisture stress on the plant.

Thus if a soil were three feet deep, only enough irrigation water to store 3-inches of moisture in the soil should be applied at any one irrigation.

How much available moisture can be stored in a soil depends largely on the texture and depth of a soil. The medium and fine-textured soils will hold about 2.1 inches of available moisture per foot of soil. The sandy soils will hold about one inch of available moisture per foot. It is therefore necessary, to apply water more often and in smaller amounts on the sandy soils.

One of the best methods that a farmer can use to determine when to irrigate is to take soil from different depths and from bolls from it. Take these balls of moist soil and toss them about one foot in the air and catch them. If a ball breaks up with five tosses or less then it contains from 25 to 50 percent available moisture, which is about applying irrigation water. The right percentage to begin if the moist ball of soil stays together after five tosses then it contains more than 50 percent available moisture and irrigation is not needed.

By using these simple tests a farmer can take some of the "guess work" out of irrigation.

For more assistance with your irrigation problems contact any SCS technician assisting the Blackwater Valley Soil Conservation District.

Sugar Acreage Is Being Sought For American Farmer

The following letter was sent to President Eisenhower by Alex Dickie, Jr., President, Texas Farmers Union, with regards to sugar beet acreage for Texas farmers:

"Dear President Eisenhower: Congratulations on having cut the Cuban Sugar quota. I think the vast majority of the citizens of this country feel this was long past due and you and the Congress have acted wisely.

"I would respectfully like to urge you to immediately take steps to have the Department of Agriculture distribute sugar beet acreage to our many thousands of adaptable sugar beet acres in Texas and surrounding states. Our farmers are in desperate need of this money

crop.

"I strongly feel that the United States consumer would prefer sugar grown on American farms to that of any other country in the world. We in Farmers Union stand ready to help in promotion of the sugar beet acreage in the adaptable areas in any way that we can."

Dickie stated that he would like to urge all interested farmers and sympathetic citizens to write their Congressmen and Senators to release sugar beet acreage to adaptable farm areas throughout Texas.

"We should all work through our organizations, both farm and civic, to get this story of the domestic production of sugar beets across not only to our elective officials, but to the citizens of the United States", stated Dickie.

get sleepy. Never ride with a driver who has had "a drink."

(9) Keep your back straight and lift heavy loads with your leg muscles. Don't try to lift anything that is too heavy for you.

(10) Use the right tools for the job—make sure they are in good condition—keep them in a safe place.

(11) Give prompt attention to even minor injuries.

(12) Keep guns unloaded except when actually using them. Treat every gun as though it WERE loaded. And NEVER aim at anything you don't want to shoot.

(13) Don't use kerosene to start fires. Pour kerosene or gasoline outdoors to prevent the accumulation of treacherous vapors. Dry clean outdoors.

(14) Don't smoke around the barn.

(15) Never swim alone. Never dive into water without first determining the depth. And be careful around boats of any kind—never stand up in small boats.

Mr. and Mrs. Evans Return From Visit

Mr. and Mrs. Carl Evans returned home last Wednesday in the rain from Jacksboro, where they visited their daughter and family, Mr. and Mrs. J. R. Thurmon. On their vacation, the folks enjoyed fishing and took hot mineral baths at Stovall Wells.

Be Stressed During July Observance

Farm accidents amount to 3,500 lives each year, more than any other industry. Some 11,000 farm residents die each year in all types of accidents, and another million suffer accidental injuries.

appalling problem. President Eisenhower has designated the week of July 24-30 as "National Farm Safety Week."

In Texas, Governor Daniel has proclaimed the period Farm Safety Week in Texas. The Texas Farm and Ranch Safety Council, together with the Texas Safety Association, Texas Agricultural Extension Service and the Texas Farm Bureau is pushing a farm safety education program during the week.

Theme of the observance is "Enjoy Farm—Practice Safety". Objective of the educational effort is to curb the soaring farm accident problem which hits one farm family in four each year.

Texas is among the top ten states in the nation in accident rates associated with drownings, firearms, burns and electricity. The major cause of accidents across the nation is machinery, which accounts for about 35% of all accidents, followed by drownings, falls, blows, animals, burns, electricity and lightning.

In his proclamation designating National Farm Safety Week, the President noted that accidents "substantially reduce the productive capacity of our farming industry."

Governor Daniel's proclamation.

FROM FARM SAFETY COUNCIL

15 Ways To Avoid Mishaps On Farm

You, Mr. Farmer and Rancher, can help reduce accidents on the farm!

Mental alertness, safety consciousness, the ability to recognize hazards and a determination to eliminate them, and efficiency in all farm operations are more essential to safety in agriculture than many rules or regulations, says Sam Whitlow, president of the Texas Farm and Ranch Safety Council.

However, for the sake of brevity, here are 15 good rules, which if followed, will help reduce the terrific toll of farm accidents. Whitlow points out:

(1) Keep walkways and steps in good repair, unobstructed and well lighted.

(2) Keep ladders in good repair and easily accessible in case of emergency.

(3) Always stop a machine before unloading, oiling or adjusting it. Keep all machine guards and safety devices in place.

(4) Don't wear loose and floppy clothes around machinery.

(5) Start tractors smoothly and turn corners slowly—avoid ditch banks and soft ground—always hitch to the draw bar.

(6) Speak to animals when approaching them. Keep THEM calm by acting with calm self-assurance YOURSELF.

(7) Always keep bulls in safe bull pens. Never handle bulls unless they are properly restrained.

(8) Know and obey all traffic laws. Stop driving if you

get sleepy. Never ride with a driver who has had "a drink."

(9) Keep your back straight and lift heavy loads with your leg muscles. Don't try to lift anything that is too heavy for you.

(10) Use the right tools for the job—make sure they are in good condition—keep them in a safe place.

(11) Give prompt attention to even minor injuries.

(12) Keep guns unloaded except when actually using them. Treat every gun as though it WERE loaded. And NEVER aim at anything you don't want to shoot.

(13) Don't use kerosene to start fires. Pour kerosene or gasoline outdoors to prevent the accumulation of treacherous vapors. Dry clean outdoors.

(14) Don't smoke around the barn.

(15) Never swim alone. Never dive into water without first determining the depth. And be careful around boats of any kind—never stand up in small boats.

Mr. and Mrs. Evans Return From Visit

Mr. and Mrs. Carl Evans returned home last Wednesday in the rain from Jacksboro, where they visited their daughter and family, Mr. and Mrs. J. R. Thurmon. On their vacation, the folks enjoyed fishing and took hot mineral baths at Stovall Wells.

get sleepy. Never ride with a driver who has had "a drink."

Sidelights—

(Continued From Page 1)

mother who had given written permission for her children to be adopted.

In the case at issue, the mother, a widow, gave written permission for her two children to be adopted. Two months later, having remarried, she sought to regain the children.

Lower courts held in favor of the natural mother, but the Supreme Court ruled that only fraud could be a basis for revoking of adoption consent.

Said the court opinion of the adoption laws: "The Legislature had the safety, education, care and protection of the children uppermost in mind and not primarily the contentment or welfare of either the natural or adoptive parents."

No Misunderstanding — In another ruling involving adoption, the Supreme Court held that an adopted child could not inherit a trust set up for a direct descendant.

As a result, a four-year-old boy lost the chance to claim \$830,000.

In the case originating in Dallas, lower courts had upheld the child's claim to the money from his late grandfather's estate.

In his will, the grandfather had instructed that the \$830,000 trust be set up if "any child of my son is born after my death." High court ruled that this made it highly unlikely that the maker of the will intended the money to go to a child born to persons other than his son and daughter-in-law.

Road Closed — If Texas' truck licensing law had a loophole you could drive a truck through, the State Supreme Court has, in effect, halted the traffic.

High court ruled that a motor freight line cannot register and pay license fees on its trucks in Texas and use Mississippi licenses on its trailers. Texas' fee for a truck trailer is \$226, compared to \$10 in Mississippi.

High court ruled that if the truck line is resident in Texas, it must pay the Texas fee for the trailers, even if it pays in Mississippi, too. Result: \$20,000 more taxes owed by the line in license fees to the State Highway Department.

Oil on The Highways—On the heels of a U. S. Supreme Court decision that Texas owns its tidelands 10 1/2 miles out comes a ruling that the state also owns the right-of-way along public roads.

Atty. Gen. Will Wilson ruled that the state, not the county owns the road right-of-way and that the counties cannot lease the land for mineral development.

Whether the state should exercise its right and lease right-of-way lands for oil and gas exploration probably will not be decided until the Legislature sets a policy. Involved is some 1,200,000 acres of land on 228,000 miles of public roads, some of it across areas with oil-bearing strata.

Reading, 'Riting and Driving—State Board of Education took a jaundiced view of a proposal of state-supported driver education in public schools. Plea for driver education, one of the main planks in Governor Daniel's program for increased traffic safety, was presented by Brad Smith,

director of the governor's Highway Safety Commission.

"Driver education in the schools is the only way to reduce the flow of uneducated drivers into the stream of traffic," Smith declared. A statewide driver training program has been the goal of the huge Texas Federation of Women's Clubs for some years.

Board members said they felt the matter did not properly belong in a school curriculum. They declined to make a recommendation to the Legislature.

Legal Test Problem—Board of Education decided to consider again in September the dilemma of school districts which stand to lose their state aid money under terms of a 1957 law governing school integration.

Under this law, districts which integrate without approval in a local election automatically lose state aid.

Dallas and Houston schools are under federal court order to integrate this fall. Houston voters turned down integration. Dallas' election is set for August 6.

State Education Commissioner J. W. Edgar said he had written Houston and Dallas school authorities telling them their state aid would have to be cut off if they integrated without a voter mandate.

Board discussed seeking an attorney general's opinion on the problem, probably in September after the Dallas election.

Mr. and Mrs. Bill Eubanks, Karen and Joy visited their daughter, Miss Maudine Eubanks in Lubbock and also Mrs. Eubanks' mother, Mrs. Davis, who was still in the hospital at Hale Center, Sunday afternoon.

Mr. and Mrs. Vurles Wall and boys visited her grandmother and uncle and aunt, Mrs. Debord and Mr. and Mrs. Alvin Debord of Lubbock Saturday.

Mr. and Mrs. Jimmie Daricek, Carol and Bucky and Jim Pyburn attended a family reunion near San Angelo. They left Thursday and came back Sunday afternoon. The reunion was for Mrs. Daricek's family.

Mr. Albert Smyer and Mr. Homer Lackey were in Lubbock Thursday on business.

Guests in the Guy Gattis home Sunday afternoon were their son and family, Mr. and Mrs. Tommy Gattis and sons of Griffin, and their daughter and family, Mr. and Mrs. Alton Lamb and baby of Morton.

Mr. and Mrs. Vurles Wall and boys visited their parents, Mr. and Mrs. M. O. Wall Sunday afternoon.

Mr. and Mrs. Guy Gattis visited their son and family, Mr. and Mrs. Tommy Gattis and boys of Griffin Saturday afternoon, and their little

grandson went home with them and spent the night.

Mrs. W. C. Galven is in the Muleshoe Hospital for medical treatment.

Mr. and Mrs. Loyd Pollard and sons of Bula were visiting her parents, Mr. and Mrs. J. M. Phillips Sunday.

Mr. and Mrs. Roy Epperly and Sherlene and Charles Lewis went to Lubbock Sunday to meet Roy, Jr., who came home from the Army.

Anyone wishing to call in items for the Maple News may dial Whitehall 6-2156.

Mr. and Mrs. Elmer Watkins and sons are here visiting in the home of Mr. and Mrs. C. A. Watkins. The Elmer Watkins live in Tennessee.

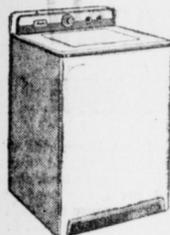

Mr. and Mrs. E. T. Ford, Trevor and Christy went to Reno, N. M., this past week. They left Tuesday and returned Sunday. They had a very nice time.

Mr. and Mrs. Allen Grusen-dorf, Penny and Gary went to Red River for a couple of days this past week.
