DISTRICT CHAMPIONS — The New Home Leopards, shown above with Coach Jeff Faubion, are champions of District 11-A with a record of 21 wins against 6 losses for the season. They will play Plains next Tuesday night in Brownfield. Wilson boys are runners-up in the district and also will be in the playoffs, against an opponent not determined by Tuesday afternoon.

School, City Votes Set For May 7

Elections for city council members and members of school boards have been set for May 7, and in Tahoka the city and school reported the sign-up dates for those elections are Feb. 22 to March 23.

Burglars Take Items Valued Over \$4000

Burglars ransacked a house and barn on a farm 3.5 miles east of Tahoka on U.S. 380 between Feb. 10 and Feb. 13, taking items valued at more than \$4000, according to the owner, Tommy Botkin.

Crime Line, 998-5145, has offered a \$500 reward in the case. Among the missing items were clothing, kitchen articles, boots, an electric chain saw and skill saw, and two suitcases. Taken from the barn were tools, mostly power tools, valued at \$2395.

pipe between Jan. 11 and Feb. 12 at the farm of Jimmy McCullough, Rt. 5, Tahoka.

Theft of a school desk, Cobra telephone and a wrecking bar from a workshop owned by John Mann of Lubbock, located about 20 miles northwest of Tahoka, burglarized Sunday or Monday.

Theft of 14 joints of irrigation pipe owned by W.L. Gribble and 8 joints owned by Wayne McDonald from a farm 10 miles east of Tahoka on U.S. 380, sometime in the last several days.

In jail during the week were one person each for revocation of probation, theft by check, possession of marijuana, application to revoke probation, no seat belt and failure to appear, driving while intoxicated, public intoxication and burglary of a vehicle plus fleeing from a peace officer, plus DWI.

Four Tahoka school board posts are to be filled. The regular 3-year terms of members Robert Smith and Nedra Young are to expire, and also on the ballot will be shorter terms remaining for two members who resigned, Mike Huffaker and Terry Harvick. Huffaker left one year on his term and the other spot will be for two years.

Absentee balloting for the school election also will be at the Tahoka city hall.

The school board met in regular session Thursday and approved the election date and judges. Present were members Billy Davis, Joe Hays, J.E. Nance Jr. and Nedra Young. Bookkeeper Loretta Tekell reported a balance in all funds of \$2,080,229 on Jan. 31. Contract of Counselor Molly Helmlinger was extended for another year.

Post Office To Close For Hour At Noon

The Tahoka Post Office has adjusted retail window service hours beginning this week. Postmaster Leonard Dunn said operating hours are being reduced to help meet the Postal Services' reduction in operating

expenses as required by Congress' Deficit Reduction Act. This Act requires the Postal Service to trim \$1.245 billion from its operating budget.

Nationwide, post offices have been ordered to reduce retail hours by 10 to 12 percent. Rather than closing one afternoon a week as some are doing, the Tahoka post office has chosen a daily reduction as the least

disruptive to service. New hours will be: Monday through Friday, 8:30 a.m. to noon and 1 p.m. to 5 p.m. The office will still be closed on Saturdays.

Hospital District Offers Help With Medical Costs

Lynn County Hospital District will provide at least \$20,000.00 of free and Part Pay care this fiscal year from October 1, 1987 to September 30, 1988. This care is available to individuals who cannot afford to pay for their medical care.

To determine eligibility of this care, Lynn County Hospital District uses maximum levels of income, for the appropriate family size, which are established by the CSA Income Poverty Guidelines. These amounts can be obtained at the hospital if you apply for financial help.

The services will be provided to those who first request it until the compliance level is met for this fiscal period.

To make a request for Uncompensated Services, contact the Administrator or Credit Manager in the Business Office. A written determination will be made of your eligibility or non-eligibility for the services within two working days of your request.

WOODWORK

BY DALTON

I DON'T KNOW if there really is, or was, a Betty Crocker. Probably there was, and more than likely her husband had to eat leftovers just like everybody else. But if there was, I doubt that she looked as good as the drawing of her which is on the upper left hand corner of some Betty Crocker material we get in the mail.

If she knew how to cook all that stuff, she surely would eat some of it, and be a lot chubbier than the drawing indicates.

Here is the picture. Judge for yourself.

The material including the drawing was mailed to the newspaper to be used as a question-and-answer column. You know, someone writes in and someone who works for General Mills gives the answers. (Red Skelton once said that he knew his next-door neighbor had to be an Army man, because all his underwear hanging on the line said "General Mills." But that's another story.)

The latest mailing had some interesting questions, but the answers seemed a bit involved. I can answer them a bit plainer, and I am about to do so, using their questions, but my answers:

Q. What's the method for cooking ham in the microwave oven? G.M., Granite, OK.

A. Place the ham in the oven. Turn it on. Don't leave it too long, or your family may

start to take Sunday dinner for Granite.

Q. What can I substitute when a recipe calls for liquor? Mrs. C.J., Ohio.

A. How about another recipe?

Q. What's the secret to stop cookies from spreading too much? J.G., Illinois.

A. Eat them as fast as your wife takes them up.

Q. What is the method for canning grapefruit?

A. Close your eyes tightly, cut the grapefruit up and cram it into a jar.

Q. How can I measure correctly when recipes call for cup measurements in eighths such as 5/8 cup flour? D.L., Logan, Ohio.

A. Listen, good, D.L., you dummy: What you do is pay attention to the little marks on the side of the measuring cup.

Mostly those answers are not much like the ones given by the Betty Crocker people. But I guarantee, from my vast experience in the kitchen, that they will work.

IF YOU don't like the new window hours at the post office or if you're unhappy about other curtailment in postal service, don't fuss at the postal workers — write to your congressman, and to Sens. Lloyd Bentsen and Phil Gramm. It appears that the curtailment of services will be mostly noticeable in the rural communities, and we've been getting the short end of things (such as the way medicare treats the smaller hospitals) all along. If enough people write their congressman and senators, maybe the postal hours will be restored.

Crime Line also offered \$300 rewards in the following cases:

Theft of cabinets from a house on a county road north of Wilson, reported by owner Donald Basinger. The theft occurred sometime after Feb. 1.

Vandalism to a tractor owned by J.T. Miller of Tahoka. A hammer was used to damage the vehicle and cause loss of 50 gallons of diesel fuel on the ground. The damage was discovered on Feb. 12.

Theft of 15 joints of irrigation

ODESSA WOMEN'S & CHILDREN'S HOSPITAL BREAST CANCER DETECTION UNIT AVAILABLE TO AREA WOMEN

CALL 998-4533 FOR APPOINTMENT

According to the American Cancer Society, one out of ten women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate.

A mammogram can detect a cancer this small, even before it can be felt.

Appointments can be made by calling 998-4533. The Mobile Breast Cancer Detection Unit will

be in Tahoka on Monday, March 7, 1988.

The American Cancer Society has established guidelines for mammography in asymptomatic women. (Women who have no symptoms of disease). Those guidelines have been adopted by the American Academy of Family Physicians, American College of Obstetricians and Gynecologists, and The American College of Radiology. Those guidelines are:

I. 35-40 years of age - One baseline mammogram.

II. 40-50 years of age - A mammogram every 1-2 years depending on breast type and risk factor.

III. 50 years of age and over - An annual physical examination and annual mammogram.

IV. Asymptomatic women under 50 years of age with significant high risk factors should be ex-

amined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

V. A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast pain.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$50.00. The Unit accepts cash, check, Visa, MasterCard and American Express.

For more information or to make an appointment call 998-4533.

Choosing Cold Cuts For Nutri.

For better nutrition, you should take a closer look at the luncheon meats you select, advises Dr. Alice Hunt, a Registered Dietitian and nutrition specialist with the Texas A&M University Agricultural Extension Service. "Luncheon meats vary widely in calories, calories from fat and sodium content," she explains. "Anyone trying to reduce fat or sodium intake should be aware of these differences." For example, a single slice of bologna will contain about 90 calories and over 80 of those calories will be from fat. Fat also contributes about 77 percent of the 70 calories in a

one-ounce slice of cotto salami. By contrast, Hunt says a slice of "95 percent fat-free" smoked ham has about 8 calories from fat out of a total of about 23. Likewise, a slice of turkey ham will contain about 35 calories, with only about 26 percent from fat. "While the differences in calories between various luncheon meats may not seem like much, it can really add up if you usually put two or three slices on a sandwich," she notes.

Senior Companion Program Recognizes Area Donors

sponsoring agency for the Senior Companion Program.

The Senior Companion Program Staff of Lynn County, expressed thanks to the following individuals and businesses for donations to the Christmas recognition luncheon: Higginbotham-Bartlett, Lyncco Automotive, McCord Motors, Murray's Florist, Dayton Parker Pharmacy, Summit Ventures Foods, Thriftway, Lynn County News and Whitaker Hardware.

Nutrition Knowledge Lacking

American women are missing key "how to" information when it comes to their diets, says a Texas A&M University Agricultural Extension Service nutritionist. "The good news is that a majority of American women have identified the relationship between health and nutrition," says Mary Kinney Sweeten. She reports that in a 1985 nationwide survey of women sponsored by the Hearst Corporation and conducted by Research and Forecasts, Inc., 84 percent of the respondents knew that a high-salt diet may be related to high blood pressure, 78 percent knew that high-fiber foods may lower the risk of colon cancer and 60 percent knew about osteoporosis. "But it's possible to be aware of the diet-health connection, and still not know how to eat better," cautions the specialist. "For example, U.S. Department of Agriculture surveys which show what people actually eat indicate that women's mean intake of several nutrients, including iron, calcium, vitamin B-6 and zinc are below recommended levels and their fat intakes are above the 30 to 35 percent recommended by health authorities."

Phebe K. Warner Study Club News

"Lubbock is not the end of the earth, but you can see it from there!" That's just one of the many jokes Dr. David Murrah, Director of the Southwest Collection at the Texas Tech Museum, says he has endured as a resident of the South Plains of Texas. Dr. Murrah, who has written several historical writings on this region, presented the program for the Feb. 9 meeting of the Phebe K. Warner Club. "The Llano Estacado 'staked plains' is a great and unique region," stated Dr. Murrah, "although, until 1872, it had been called the 'Great American Desert', because of the various unfavorable reports by early explorers; and, most people, except the Comanches, avoided settling here."

"Following Colonel Randall MacKenzie's expedition across the South Plains in 1872, and the fall of Quanah Parker's last Comanche holdout in 1875, the settlement of Anglo settlers on the South Plains was fully established by the mid 1880's."

According to Dr. Murrah, a historical pattern has transpired which signals the impending demise of our own present culture on the South Plains. He calls it "Murrah's Theory of Historical Reckoning." He explained that the Indians of the Ceramic Period occupied this region from about 1000-1250 A.D....250 years. The Apaches were here for about 200 years until they were driven out by the Comanches.

About 150 years later our own present culture was established on the South Plains. Murrah's theory allows our culture only 100 years of existence here—we have just approached that mark! "Over the last century, the culture of rural West Texas has undergone a drastic change," says Dr. Murrah. He cited how the population of Lynn County has decreased from about 14,000 in 1930 to about 6,000 today.

"In the 50's and 60's there were fifty or more rural towns on the South Plains bustling and growing with trade. This is no longer true; even the oil towns are declining," added Dr. Murrah. "One major reason for the change in our culture is the

passing of a generation educated by the frontier," he explained. The people of the frontier subsisted in such a way that Dr. Murrah's father could say, "Had it not been for the drought, I never would have noticed the Depression!"

Concluding on a more positive note, Dr. Murrah stated that change is inevitable and the people who love this region of Texas will have to "tough it out." "Why do the people of the South Plains want to stay here, anyway?" he asked. "The land a people live on tells you a great deal about the character of that people. The plains are vast, open, and challenging and they have attracted a people who are optimistic and visionary-unlike the people who labeled this a great desert, uninhabitable for people and unsuitable for agriculture," explained Dr. Murrah.

That positive pioneer spirit was exhibited by a woman who came to the Panhandle of Texas from Illinois in 1898. Mrs. Phebe K. Warner had this to say about this region: "No place has ever seemed so gloriously beautiful to me as the Oceanic Plains of Texas."

This meeting of the Phebe K. Warner Club was in the home of Mrs. Grace Prohl with Mrs. Dorothy Draper serving as co-hostess. Mrs. Edna White presided over the meeting attended by 18 members and one guest. It was announced that Kris Belew will be the sophomore student sponsored by the club to attend the Hugh O'Brien Leadership Institute in Amarillo this May. Gifts were collected for patients at the M.D. Anderson Hospital and members were reminded that there would be a book shower for the City-County Library at the club's Feb. 23 meeting.

Surprised People

No matter how long this old world stands, one thing about it will never change — its people! Sometimes they are good — sometimes they are bad, but people are always people! Our Bible tells us of some people who found themselves in very startling circumstances. By examining our own lives and looking into the Scriptures, we can profit from their mistakes and avoid the SHOCK that many shall receive in the future. Over the next few weeks let's look at a few of these surprised people. O.K.?

The people of Noah's day were surprised when the flood did come! The wickedness of man on the earth was great. God said, "I will destroy man..." (Gen. 6:5-7). "But Noah found grace in the sight of the Lord" (11 Pet. 2:5). The people figured Noah was just a foolish old man for they listened not to his teachings. They refused to believe Noah since they had never seen rain prior to that which Noah predicted was to come. Noah's faith was strong enough to believe God's messages, but the faith of the people was not. Noah's faith was strong enough to see the unseen and believe in that which was unbelievable.

Only unbelievers were surprised, though. Totally unprepared were they, because just as had been predicted, destruction came. Do you know what made the difference between the lost and the saved? It was **faith and obedience!** It was not a lack of knowledge, because they had been warned and re-warned for nearly one hundred and twenty years of the coming deluge, but they simply would not believe what God said to them strongly enough to do anything about it. **A surprised people?** Very much so!

May we be of assistance to you? Do you have any questions about the Bible that might be bothering you? Let us assist you in learning more about the Words of God. We have filmstrip studies, correspondence courses (mail) that will take you through the Bible so that you can become acquainted with the God of heaven better. Please write us if we can be of assistance in any manner, or call us. Write to:

OUT OF THE WOODS

By Juanell (Wood) Jones

KIDS HAVE GOOD answers. You ask any person under the age of 8 a question, and he or she will think seriously about it for a moment before telling you an answer they believe is correct, or give you an honest, "Um ... I don't know."

Last week during the Sunday morning children's sermon, our pastor asked the group of children gathered around him on the steps if they knew the story about the man who was swallowed by a whale. He was, of course, referring to Jonah, who was convinced God meant business when he found himself in the belly of a whale.

Anyway, the pastor asked "Who was the man who was swallowed by a whale," and all the little children scrunched up their faces and thought real hard and then my little kindergartener beamed and said brightly, "Pinocchio!" The pastor and the congregation laughed while I turned four shades of red. He had to admit, though, that Pinocchio was swallowed by a whale, even if it wasn't in the scriptures.

In another incident, a teacher asked her kindergarten student to name something that "sails," and the little boy responded im-

mediately, "garage sale." His mommy must sail her garage occasionally.

Little children are painfully honest sometimes, too. My little girl observed the other night while watching me bathe, that "mommy has a big tummy." Thanks a lot, kid. I love you, too.

And the other evening we were returning from a family outing, about a 45-minute drive from home. Our two children were bickering and picking on each other (your kids don't do this, do they?) for the entire drive. Just as we came into the city limits, our 6 year old perked up, looked around, and pronounced to his little sister, "We can be happy now, we're nearly home."

What is there, some unwritten law that brothers and sisters become sworn enemies for the duration of an automobile ride, with surrender an option only inside the city limits of your home town? I seem to remember all our worst sibling arguments were held in the back seat of the car when we were kids. Ask my parents, they'll tell you.

Kids ... they bring out the best and the worst in us. If we're lucky, we'll bring out the best in them.

Lynn County EMS News

Lynn County has added a Tahoka High School senior who will be assisting with the ambulance service. Lori Tipton was state certified as an Emergency Care Attendant in December. Lori completed the 60 hour ECA course, which began last September in Tahoka, She, along with other members of the service, was required to attend four hour classed two nights a week for eight weeks.

Lori is the daughter of Chuck and Susan Tipton. Upon graduation, she plans to attend EMT and Paramedic training before attending nursing school.

Anyone interested in taking the Emergency Care Attendant course should contact one of the ambulance personnel. Instruction for the course can be arranged in your community.

During January, the ambulance was busy with 36 runs. There were several calls during the ice and bad weather, including five wrecks, two gin accidents, one run to Wilson and one run to Grassland.

There will be a mixed volleyball tournament for Lynn County on March 24, 25 and 26 as a fund project for the ambulance. Anyone interested in helping with this project should contact Barbara Cook, tournament director. Anyone wishing to donate food items or who would like to work may contact June Brooks, concession stand organizer.

The ambulance fund continues to grow through your memorials and donations. All of these contributions go directly into the Lynn County Ambulance Fund, First National Bank.

Applicants will be required to have completed the application prior to the testing date. Those interested in obtaining more information should contact Cynthia Hill, R.N., Director of the LVN program or should call the Lamesa campus office at 806-872-2223 or 872-2685. Your HEALTH TIP

DAYTON PARKER

CHILDHOOD CANCER

Research substantiates that pregnant women who smoke usually have babies who are smaller at birth and have an increased risk of dying during the first few days of life. The data for children of women who smoked 10 or more cigarettes daily during pregnancy, shows the incidence of cancer and leukemia in their children is essentially twice as high as "normal." The cancer-prone effect persists to some extent even after they become adults.

CARD OF THANKS

We would like to say Thank You, to all those who visited, called, sent flowers and cards, while Bob was in the hospital and since he has been home. Family and friends are the most precious possessions anyone can have. God bless you all.
Bob and Jo Swinford

The Mothers March-ers have marched, the donations have been collected, and a cashier's check from the Tahoka Mothers March has been sent in to the March of Dimes Birth Defects Foundation in the amount of \$1140. It was the best drive yet...and I want to extend my heartfelt appreciation to all of these ladies who took time out from a busy weekend to help distribute March of Dimes educational material and collect donations: Frances Dorsey, Lynn Lankford, Paige Harston, Cheryl Krey, Judy Sanders, Rhonda McNeely, Kim Hammonds, Flora Resendez, Estella Rangel, Naomi Aleman, Debbie Rodriguez, Wayla Bueerman, Lupe Saldana, Pam Paris, Carol Miller, Frances DeLeon, Florine McCracken, Elsie Dee Brooks, Helen Farr, Winnie Spruiell, Darlene Gurley, Faye Lambert, Laura Wiley, Esther Green, Pam Miller, Yolanda Aleman, Patricia Childers, Angie Gutierrez, Rosa DeLeon, Faye Burleson, Kim Hargiss, and Linda Locke.

Total donations from a dozen area drives are charted on a poster in the Lubbock office of the March of Dimes. For three years straight, the citizens of Tahoka have contributed to the most successful area Mothers March (per capita). I want to thank those of you who gave for your generosity - every gift is appreciated.

I also want to thank the local Dairy Queen for the incentives it provided for each marcher. And I especially want to thank the members of the Pythian Sisters who have volunteered to help with the Mothers March each of the last three years. It is a special tribute to one of their members, the late Mrs. Helen Ellis, that in the week before her passing, she still wanted to help with the Mothers March if she could. Her commitment was an inspiration to me and reflected the attitude of that person we all appreciate - the VOLUNTEER.
Sincerely,
Debbie Vickers 7-1tp

The New Home Booster Club wants to express their appreciation to all the people that made the Outsiders Volleyball Tournament a success. Special thanks goes to Mickey and Murrah Kieth, who stayed the whole time to help while their mother, Joann, was in the hospital.
Thanks again to everyone who was a sponsor, sent food, money, drinks, and/or worked in the concession stand or worked the clock.
New Home Booster Club 7-1tc
