**IN STATEWIDE DRAWING**—These two students were chosen in a random drawing to be placed in a statewide drawing to determine who will get to present an award to a statewide favorite author of books for elementary students. Fourth grader Brent Raindl and sixth grader Lynna Rash were selected to represent the Tahoka elementary library. Librarian Gwen Cate is shown with the youngsters. (LYNN COUNTY NEWS PHOTO)

## Library Stimulates New Interests For Tahoka Elementary Pupils

The Tahoka Elementary Library or Media Center was developed two years ago under the direction of Joann Pennington, district librarian and Gwen Cate, elementary librarian, by collecting and cataloging individual classroom collections into one centrally located center for Kindergarten through sixth grade. This collection has been supplemented by purchasing additional books and resources. Approximately 8,000 books have been in circulation since the start of school this year.

The function of the Media Center

is to support and supplement the basic curriculum, to expand and reinforce student library skills and competencies, and to stimulate reading interest and appreciation of literature.

Services offered by the Learning Media Center are available to pupils and teachers during regular school hours and immediately before and after school. Kindergarten classes have a special story time. Each class 1-6 grades has a weekly scheduled library period during which time Mrs. Cate teaches library instruction

and literature studies designed to meet the level of need. Time is also provided for checking library material in and out. Teachers may also schedule additional time as they choose for special activities, such as research and class projects.

Students are encouraged to use the center for individual use before and after school. A collection of professional materials and resources is accessible to the professional staff at all times.

The Media Center sponsors several special programs during the year, including Children's Book Week in November and the Texas Bluebonnet Awards Reading Program sponsored by the Texas Association of School Librarians. The Texas Bluebonnet Awards Program is intended to encourage Texas children to read more books, to explore a variety of current books, to develop powers of discrimination, and to identify their favorite titles through the voting process.

Students in grades 3-6 are encouraged to read (or hear them read aloud) books on an annual master list of titles. Those who read at least five of the books are eligible to vote for their favorite book in January each year.

The author of the state-wide favorite book is honored at the Texas Library Association spring conference. Children are selected by random drawing to present the author's award. This year the Tahoka Media Center selected fourth grader, Brent Raindl and sixth grader, Lynna Rash to participate in the statewide random drawing. The children of the elementary school voted overwhelmingly as their favorite book, *Wait Till Helen Comes* by Mary Downing Hahn.

## Woodwork...

By Dalton

THERE ARE MANY things which I have not learned over the years, although I have been around long enough to learn a lot more than I have. Still, a few things which I have observed as absolute truths stand out:

Small children get deathly sick only on weekends, holidays or in the middle of the night, when doctors are not easily available. Come to think of it, the same holds true for adults.

Sewer lines, too, like noses, get clogged up only on holidays, usually when company is coming.

Cars, television sets and washing machines which refuse to do what they are supposed to, will work great as soon as you start them up to show the repair man (called in at eleventy-nine dollars an hour) what is wrong.

Shoes do not fit people with misshapen feet. Ditto for pants and shirts trying to encompass misshapen middles.

Skinny people who eat entire hogs or a full half beef every evening meal without gaining weight are always the ones to tell you how slim you'd be "if you just worked as hard as I do."

TV ads for pizza and Almond Joy never show fatsos stuffing those products into their mouths.

Beer ads never show people throwing up after a few drinks (for the same reason that "Airport" is never shown as an in-flight movie).

People who sell parts for machinery have every part ever made, except the one you need.

When you order fish at a restaurant, yours is the only piece in the building with bones in it.

Think negative and you won't be disappointed by a bunch of good things happening.

ANDY ROONEY SAYS that the two biggest sellers in any bookstore are cookbooks and diet books. One tells you how to prepare the best-tasting food, and the other tells you not to eat any of it.

## Arsenic, Other Pollutants Found In County Wells

Groundwater studies by the Texas Dept. of Agriculture have found six pesticides, including arsenic, in 44 of 116 wells surveyed in nine counties of Texas, including some in Lynn County, a release from the TDA in Austin said this week.

Although the release said arsenic was found in wells in the West Texas counties of Lynn, Dawson, Martin, Howard and Terry, it did not say how many wells in Lynn County were tested, where they are located, or in how many wells in the county arsenic was discovered.

It did say that picloram was found in one well in Lynn County, and said that picloram is used for brush control along utility rights-of-way, for weed and brush control in pastures and rangeland and for weed control in small grains.

What the findings mean insofar as the safety of drinking water from individually-owned wells in the county is concerned was not spelled out in the TDA release, but officials of the four cities in the county all assured their residents this week that their city water is perfectly safe to drink.

TDA is the lead agency for regulating pesticides in Texas. If a pesticide is found to cause a significant risk to the environment—including groundwater—TDA has the authority to limit its use.

Nitrates, a common pollutant of shallow rural wells, were found in 94 or the 116 wells tested. Water was taken from the wells in 1988, and laboratory work was completed in late January.

"The bad news is that these results are no surprise," said Assistant Agriculture Commissioner Susan Rieff. "This round of tests appears to confirm the pattern shown in our earlier testing, that pesticides can and are contaminating our groundwater resources in Texas."

She said that letters explaining the test results have been sent to each well owner whose water was found to have contamination. TDA plans to take additional samples to confirm the presence of pesticides. "These raw data don't provide us with enough information to know if each case of contamination resulted from normal agricultural practices or from poor well construction or if misuse of a pesticide led to the contamination," she added.

"Now that the tests are complete, our follow-up work will determine

what actions we need to take. We were looking for an indication of pesticide contamination. Now that we have that indication, the next step is to carefully explore the extent of contamination and its causes," Mrs. Rieff said.

The laboratory procedures used to analyze the water samples were capable of detecting more than 200 pesticides.

There was one indication in the TDA release which indicated that the arsenic found in a Lynn County well (or wells) was not of a sufficient quantity to be dangerous. This was in a statement which commented that "Arsenic was found in concentrations at or above a safe drinking water level established by EPA...in 27 wells in Dawson, Hidalgo, Howard, Martin and Terry counties." Since this statement did not mention Lynn, it would indicate that the level of arsenic in the Lynn County well was safe.

The story did say, however, that health authorities urge caution in drinking water with any level of arsenic contamination, and that "chronic exposure to arsenic-contaminated drinking water poses a serious threat to human health. Long-term oral exposure may lead to an increased risk of skin cancer or nerve damage."

Arsenic-based pesticides have long been used in the production of cotton. Arsenic-based insecticides were used in some areas and arsenic-based herbicides "are still being used to promote the defoliation of cotton prior to harvest. In addition, cotton gin waste containing residual arsenic has frequently been returned to the land as a mulch," said the TDA.

Tahoka City Manager Barry Pittman said that Tahoka's entire water system is tested each October "for everything." A list of things tested for in October 1988 did include arsenic and many other elements, and the city's water was shown to be well within safe limits. Pittman said water samples taken at city hall and sent to Austin for testing last October was mostly Lake

Meredith water which the city uses as a member of the Canadian River Municipal Water Authority. However, the water did include some well water mixed in. The City of Tahoka frequently supplements the Canadian River water with water pumped into the system from three or four of the city's seven water wells, particularly in the summer.

The City of New Home is not on the Canadian River pipeline and supplies water from four wells, which also are tested annually and approved by the Texas Dept. of Health. Wilson also uses well water exclusively and their five wells are tested each month. Wilson officials said that city recently received a letter of commendation from the health department on the high quality of its water. O'Donnell is on the Canadian River pipeline and also is tested by the health agency each year.

Of the 116 wells sampled in the recent TDA tests, 96 were used at least in part for household purposes.

"TDA continues to stress that preventing contamination in the first place is the only workable approach to maintaining a fresh, clean groundwater supply," an official said. "Once the well is poisoned, it's too late. Our groundwater sampling program is merely one step toward keeping the water clean."

Nitrates were found in each of the counties surveyed. Of 109 wells tested for nitrates, 94 revealed measurable quantities of the chemical. Fifty-three of the wells had nitrates in higher concentrations than the EPA drinking water standard. TDA said it did not have enough information to conclude whether the nitrates came from the application of nitrogen fertilizers, from the leaching of naturally-occurring soil nitrates, from septic tanks, from animal wastes or from some combination of these potential causes.

TDA was assisted in its sampling program by the Texas Water Development Board. Laboratory work was done by TDA and the Texas Dept. of Health.

## Two Cases Cleared; New Crimes Listed

Arrests of three persons cleared two offenses reported to law enforcement officers during the last week, but other new burglaries and thefts were reported in the city.

Stice Texaco at Lockwood and U.S. 87 access road was reported burglarized Feb. 13 between 4 and 6:30 a.m., with entry gained by breaking out a window on the west side of the building. Reported missing were four quarts of Quaker State oil valued at \$8, two Cobra CB radios valued at \$14, a pair of external speakers valued at \$18, a case of Cokes valued at \$12. A plate glass window valued at \$400 was damaged.

Moses Tijerina, 1224 Ave. E, reported someone broke out the left window of his pickup parked at his residence Tuesday. Damage was estimated at \$70.

Stacy Stephens, 1613 S. 5th, reported Friday that six mobile home tires stored beneath his mobile home had been stolen. They were valued at \$180.

Gerald Huffaker reported to police on Saturday that the former Wade

with 27 points and 14 rebounds per game. Wing Darrell Paul averages 14 points and 12 boards per game and point guard Coby James is scoring 12 per game.

The winner of the New Home-Loop game will play the winner of Whitharral-Whiteface on Monday.

Implement Co. building east of Tahoka on U.S. 380 had been vandalized. Seven windows and two glass doors were broken, apparently with a baseball bat or similar object, and damage was estimated at more than \$2000.

On the same night, windows at the home of Jackie Stephens, about 8 miles southeast of Tahoka, were reported broken out. Officers investigated and later Saturday arrested and jailed two suspects. A 19-year-old Tahoka man and a 21-year-old Midland man were charged in connection with the vandalism at both the private home and the Wade building.

A theft of irrigation pipe from Gary Cook of Slaton Rt. 2 in Lynn County also reportedly was cleared with the arrest of a suspect, a 47-year-old Wilson man who was charged with misdemeanor theft.

City police also investigated a disturbance last week involving a 22-year-old woman who said she was assaulted by a 21-year-old man. No charges had been filed by Wednesday.

Police Saturday investigated a collision at Main St. and S. 1st which involved a 1974 Chevrolet pickup driven by Jesus Fuentes of Tahoka and a 1988 Chevrolet driven by Danna Le Jan Womack of Tahoka. No injuries were reported.

**Phebe K. Warner Club News**

The Phebe K. Warner Study Club met Feb. 14 in the home of Buena Hagood with Mildred LeMond serving as co-hostess. There were 16 members and two guests present. President Thalia Burks presided. Debbie Vickers reviewed the book "The Closing of the American Mind" by Alan Bloom. Mr. Bloom gave his opinion of the American college student's attitude toward life and learning. The roll call was answered with the name of a book that the member would recommend a student to read before entering college. Mrs. Burks announced that the

District meeting of the Federated Women's Club would be held in Lubbock on March 25. Members were reminded to bring a book to be donated to the Lynn County Library (or a cash donation) to the Feb. 28 meeting to be held in the home of Loretta Tekell.

Mrs. Burks appointed a committee consisting of Mildred Abbe, chairman, Lucille Smith and Debbie Vickers to prepare a nomination for "Woman of the Year" to be submitted to the Chamber of Commerce.

**EARN MASTERS DEGREE**—Lynda Linton received a masters of education degree from Texas Tech University during fall commencement exercises. She completed her master's work with a 4.0 overall grade point average. A graduate of Wilson High School, she received her bachelor's degree in business education from Tech in 1968. She is the daughter of Mr. and Mrs. Floyd Heck of Wilson and currently is business education teacher at Monahans High School. (LYNN COUNTY NEWS PHOTO)

**Reception To Honor Pattersons Sunday**

Joe and Marlene Patterson of Tahoka will be honored with a reception on the occasion of their 25th wedding anniversary on Sunday, Feb. 26, at 2 p.m. in the fellowship hall of the Grassland Nazarene Church.

Hosting the event will be children of the couple, Mike and Julie Aten, Joe Dell, Jim and Jennifer Patterson. They will be assisted by Donnie and Dee Fitts of Grapevine and Hazel Fitts.

Family members and friends of the Pattersons are invited to the reception.

**Serendipity News**

Carolyn Kennedy, with the American Heart Association, will be guest speaker on Thursday, Feb. 23 at noon at the Serendipity Club at the First Baptist Church in Tahoka.

On March 2, Heidi Dawson, will talk about "Right to Life" and will show a movie on abortion.

All area women are invited to bring a sack lunch and attend the inspirational meetings.

**T-Bar Member Offer To End Feb. 28**

T-Bar Country Club's special offer of new memberships to be purchased at a discounted rate of \$150 will end on Feb. 28.

The offer includes golf and bridge with dues of \$30 per month. Bridge membership only may be obtained at a special rate of \$75 through Feb. 28, with dues to be \$15 per month.

Applications may be obtained at T-Bar Country Club daily after 11 a.m.

**Grassland Club Asks Help On Cookbook**

Grassland Hobby Club met Feb. 10 as the 12 members present considered a cookbook project and decided to seek help from the general public on compiling the cookbook.

"We need everyone's help," said a spokesman. "Please send us recipes and a short biography of yourself, or your grandparents or uncle or other relatives who have lived in Grassland at some time."

Recipes should be sent to Sandra Laws, Rt. 3, Post, TX 79356, or to Fay Melton, Rt. 5, Tahoka, TX 79373.

The terms of Leland Zant, Eddie Askew and Larry Durham will be expiring.

**Crime ...**

(continued from page 1)

Cadillac driven by Virginia Maxine Paris of Tahoka and a 1977 Oldsmobile driven by George W. Turner Jr. of Rt. 1, Wilson, were involved in a collision. No injuries were listed.

Dept. of Public Safety officers investigated an accident last Thursday evening about 2 miles north of Tahoka on U.S. 87. A semi-trailer truck driven by an out-of-county resident jackknifed, with no injuries. At about the same time, another truck jackknifed on U.S. 84 in Lynn County near Southland, also with no injuries.

In jail during the week were the two men arrested on two counts of criminal mischief each, two persons for public intoxication, two for theft by taking, and one each for unlawful possession of marijuana, application to revoke probation for unlawfully carrying a weapon, DWI judgment and sentencing, DWI plus no drivers license, and outstanding DPS warrants.

**Bullock Asks End To Sales Tax Permit Fee**

State Comptroller Bob Bullock is urging the Texas Legislature to abolish the \$25 annual sales tax permit fee.

"The fee is inherently unfair to small businesses," Bullock said in a letter to the House Ways and Means Committee, which is considering several bills to repeal the fee.

Bullock said the fee has generated tremendous hostility at a time "the state can ill-afford to tread on the cooperation and confidence of the business community."

He said there may have been reasons why the fee was adopted by the Legislature in 1987, but that it has been more trouble than it was worth in the small amount of revenue it has generated.

**Debra Sue Steffens Third Grade**

Debra Sue Steffens teaches third grade at Tahoka Elementary School. She and her husband Danny, a building contractor, live at Rt. 1 Slaton. This is her first year to teach at Tahoka, and she believes she should "try to make every day special for each child and to help them feel good about and believe in themselves; even if it's only a pat on the back for a good try, a wink, or a hug to say I care. Every child is different and needs the time, support, and chance to succeed. You have to truly love children in order to be a teacher," she says. One of her fondest memories is Nov. 11, because on this day her class children planned and, with the help of their parents, gave her a surprise birthday party. She says, "Tahoka is fortunate to have such a school system. I'm proud to be a part of Tahoka I.S.D."

Debra was raised in Plains and graduated in 1984 from the University of Texas Permian Basin with a B.A. in Anthropology/Elementary Education Certification. Before teaching in Tahoka, she taught Early Childhood/Special Education, second and first grade, and also says, "I was raised on a farm and ranch, so I've worked cows, hoed cotton, and driven tractors and grain trucks. I've worked as a bookkeeper and even sold cotton for a gin."

**'Prize' Offers By Telephone Bring Warning**

The U.S. Postal Inspection Service has warned the public about the increasing number of "boiler room" scams that use the telephone to pitch a variety of products, usually attached to a "free gift" gimmick.

Chief Postal Inspector Charles R. Clauson said the bogus companies flood post offices with computerized mailings notified people "they've won a prize," usually after offering for sale everything from vitamins to office supplies. "The operators then followup with high-pressure telemarketing," Clauson said, "usually asking for money or a credit card number to cover shipping charges." Clauson suggested that the best way to defend against the scams is to "check out the company and call them back—without giving out your credit card number or any money—and if still suspicious, get in touch with a postal inspector through the nearest post office."

Just last week a promoter and 12 telephone pitchmen were arrested in

the New York City area for misrepresenting the sale of cleaning supplies.

Several weeks ago four operators from Seattle, Washington and Las Vegas, were arrested for mail and wire fraud for offering prizes as part of a nationwide promotion.

And in Houston, William E. Gardner, 35, operator of International Direct Mail Marketing, Inc., is awaiting sentencing after pleading guilty to mail fraud charges. He told those who responded to his mailings to call a Houston area phone number to claim a motorboat and outboard motor, he said was worth as much as \$500, as part of a marketing survey. The thousands who responded—by each paying more than \$120 for shipping—received an inflatable raft and motor worth \$40.

Chief Inspector Clauson says "the telephone boiler rooms have been concentrated in certain areas of the country but the victims come from all over."

Sgt. Lamar Beckworth of Brownfield stated, "In Lynn County, our troopers investigated 1 personal and 2 property accidents for the month of January. One person was injured in these accidents."

**Service News**

Air Force Airman 1st Class Ronald B. Roberts, son of Ronald and Jane Roberts of Tahoka has been named technician of the month for the 86th Tactical Fighter Wing.

Roberts is a precision measuring equipment laboratory specialist with the 86th Component Repair Squadron in West Germany.

The selection was based on the individual's exemplary duty performance, job knowledge, leadership qualities, significant self-improvement and other accomplishments.

His wife, Brenda, is the daughter of Robert L. and Dorothy E. Carter of Wyoming.

He is a 1980 graduate of Tahoka High School.

**EMT Course Slated In Post**

There will be an EMT course at Post starting March 2, thru June 27, at the EMS Club Room, City Hall.

Classroom instruction includes 132 hours of lecture, skills practice and testing. Students also study proper driving techniques for operations of emergency vehicles.

Emphasis in the course is on basic assessment and pre-hospital care for medical and trauma patients.

Skills practice sessions include instruction in CPR, bandaging and splinting, vital signs, use of various mechanical aid to breathing, radio communication and safe removal of patients involved in vehicular accidents.

Lynn County EMS is in need of some new certified personnel that could help during the day schedule. There will be limited financial aid for these people. This course cost is \$200 plus approximately \$30 for workbook and handouts.

Please get involved in a very worth-while public service, and contact Billy Tomlinson, 998-4154 or any of the EMS personnel for further information.

**R** We've Come A Long Way Since George's Wooden Teeth

It seems to be a well documented fact that the Father of the United States, George Washington, had to make do with an uncomfortable set of wooden teeth. But, in those bygone days, most all dentistry was a bit and miss proposition and a trip to the dentist was truly an unwelcome experience.

Modern dentistry is something else, and during the month of February the public spotlight is on the maintenance of good dental health. Schedule an appointment today and you might not have to worry about false teeth (of any material) in the future.

**New Extension Homemakers Club Organizing**

Do you need help: stretching the family paycheck, getting more for your dollar, helping your family get along better, making your home safer, dealing with legal matters, planning nutritious menus or dealing with just plain life? Then you may be interested in becoming an Extension homemaker member.

Extension Homemakers is an organization sponsored by the Texas Agricultural Extension Service and serves people of all ages regardless of socio-economic levels, race, color, sex, religion, handicap or national origin. Children are welcome to attend all meetings and activities.

The first meeting will be Friday, Feb. 24, 1:30 p.m. at Southwestern Public Service Reddy Room in Tahoka and will be concluded by 3 p.m. The program will be "Bread-In-A-Bag" presented by Annis Brown, County Extension Agent-H.E. Those attending will need to bring an apron, spatula, and a loaf pan. A RSVP is requested by Thursday, Feb. 23, 998-4650, so that there will be enough supplies available.

At this meeting we will set regular monthly meeting dates, discuss nursery arrangements and planning activities. For more information contact the county extension office at 998-4650 or call Vicki Ashbrook, 327-5665.

## Tidbits From New Home

By Rhonda Timmons (924-7577) and Georgia Clem (924-7781)

The winners from the New Home booster club volleyball tournament were as follows:

Women: 1st place—Quality Painting from Lubbock; 2nd place—T and T Drilling from Lubbock; 3rd place—Survivors from Lubbock.

Men: 1st place—Dusters from Lubbock; 2nd place—Raindl from Lubbock; 3rd place—Fully Loaded from Lubbock.

The City of New Home has called an election for May 6, 1989. The purpose of this election is to elect a mayor and two councilmen. The terms of Roy Blevins, mayor and councilmen, C.G. Kieth and LeRoy Nettles will expire on this day. Qualified residents of the city who want to file may do so by completing an application. Filing deadline will be March 22, 1989. Applications are available at city hall.

The New Home FFA Chapter attended the San Antonio Stock Show the week of Feb. 12-18. Results of the placing animals are as follows:

Todd Ballard—Reserve Champion Chester White; Scott Fillingim—Reserve Champion other Pure Breed; Crystal Ford—7th place OPB; Julie Wyatt—9th place York; Travis Smith—10th place Duroc; Casey McNeely—11th place Chester; Jeff Armes—14th place Hampshire; and Cory Ballard—19th place Cross.

The New Home Student Council promoted S.A.S.H. (Save A Sweet Heart) Day on Feb. 14, which is a program organized by the American Heart Association. Pledge cards were signed by students and school personnel with smokers agreeing not to smoke on Valentine's Day and non-smokers agreeing not to start smoking in the next year. The council distributed buttons and pencils to those participating and displayed posters all over the school.

The New Home Annual Staff which consists of Crystal Ford, Michelle Shannon, Stella Nieman, Gloria Munoz and sponsor Marsha

Scott, sold dresses for Valentine's Day to students throughout the school. Val-o-grams were also available. The sale was a big success! Approximately 200 yellow flowers and long stemmed red roses were sold.

The varsity basketball boys traveled to Jayton on Valentine's Day to play Aspermont in a practice game. The Leopards lost for the first time this year. The final score was 59-56. Gaylon Paul put in 24 points and Darrell Paul had 18 points. The boys then headed for Big Springs on Saturday to play Bronte. The Leopards defeated their opponents 58-44. Gaylon Paul had 20 points and Coby James scored 19 points. Their record is now 25-1 and they are ranked no. 1 in the Texas 1A Poll. The boys will play Loop at Brownfield High School for Bi-District on Friday, Feb. 24, starting at 7 p.m.

Stoney and Christine Gill and their son, Kaleb have moved back to the New Home community to farm.

On Friday, Feb. 17, John and Mary Bess Edwards gave a rehearsal supper at K-Bob's in Amarillo for John Dudley and Carol Ammons and their wedding party. Special guests were her mother, Ruth Ammons, Karon and Kayla Durham and Jon-Mac Edwards, the son of John Dudley Edwards. The couple married on Saturday at 2 p.m. in the chapel of the Paramount Baptist Church. Jon-Mac Edwards was the ring bearer. They will reside in Amarillo. Special guests at the wedding were Mr. and Mrs. C.G. Eades, Ina Mae Edwards, and others who attended were Charlene Kieth, the Larry Durham family, Deloris and Robert Mauldon and Mr. and Mrs. Mary McClintock of Slaton. The couple went to San Antonio for their honeymoon. Carol works for GMAC in Amarillo and John Dudley is employed at Triple F. Controls Incorporated.

We have had several calls from Tahoka ladies who have been using our recipes. We want to continue including a recipe each week but we must have your help. We know there are a lot of good cooks in New Home who have excellent recipes to share. Please help us with this part of our column.

We would like our readers to know that some of the school news we deliver each week is coming from the students in Ms. Scott's journalism class. Dickie Turner provides the basketball scores and details about the games to us each Monday morning. Dale Schaffner has kept us up to date on all stock shows the last few months. We appreciate the support of these teachers and students.

**Recipe of the Week**  
By: GEORIGIA CLEM  
**Chicken Almond Rice Dressing**  
1 lb. of sausage

### CONSTIPATION

Constipation (failure to have a BM for more than 3 days) may be remedied or prevented by: 1) drinking plenty of fluid; 2) regular exercise; 3) a diet of high-fiber foods - whole grains, fruits, vegetables and unprocessed bran. Grandma often used prunes, raisins and figs to avoid constipation. Our pharmacy has laxatives for occasional constipation, but they should not be used habitually.

### County Youths Have Winners At SA Show

Cruz Rivas of Tahoka 4-H Club exhibited the Duroc breed champion and two New Home FFA entrants had breed reserve champions in the junior barrow show division of the San Antonio Livestock Exposition last week.

Todd Ballard showed the reserve champion Chester White and Scott Fillingim had the reserved champion in the "Other Purebreds" category.

Muleshoe and Fredericksburg entrants showed the grand champion and reserve grand champion barrows in the show.

getting them tested can help farmers get a jump on the spring rush at soil testing labs, said Cypert, county agent with the Texas Agricultural Extension Service.

Once fertilizer needs are determined, farmers can place their orders, Cypert said. Again, by ordering early, they can avoid the spring rush. Also, fertilizers usually cost more in the spring when demand is greater and supplies tighter.

With fertilizer at hand, farmers can begin application when field conditions permit. This minimizes spring planting delays because of tight dealer schedules and reduces the potential for moisture loss just prior to planting, Cypert said.
