Woodwork... By Dalton

FINALLY I have realized that there is one area in which older persons have an advantage over those in their teens and early 20s: We can enjoy reminiscing, and enter fully into the current craze of nostalgia, comparing memories of the (sometimes) good old days of 20 to 50 years ago.

We got involved in a bit of nostalgia just last week when we visited the new Hi-De-Ho in Lubbock, owned and operated by Shannon Hughes, who once worked at the original Hi-De-Ho out on College Ave. near Texas Tech back in the 50s, when the Hi-De-Ho was just about the only place for all young people to congregate. My wife and I first met at the Hi-De-Ho and we were talking about those days with some other people who were present at that time. One of the group mentioned a couple of other drive-ins in Lubbock then, but neither of us could remember any other place. The Hi-De-Ho simply was the only place to go, to eat burgers, drink cherry cokes and meet girls or boys. And in those days, by cracky, boys were only interested in meeting girls and girls only interested in boys. Nowadays, you never know. Anyway, when you made a drag in Lubbock in the early 50s, you drove downtown on Broadway to about Texas Ave. and then you cruised back out College Ave. (now University) to the Hi-De-Ho. C.L. (Leroy) Lewis and I made that circuit about 26 million times in his 1948 Studebaker convertible.

Young people today, of course, are now doing the things they will remember fondly in 25 years or more. And the conversations may go something like this:

"Say, Harold, do you remember the old Sony Walkmans and compact disc players we used to like so much back in the 70s and 80s?"

"Yeah, we thought those were great, and the louder the better. I remember my mom used to get so mad at me for playing those stereo systems wide open, and they really were pretty loud...that may be why I have to wear two hearing aids today."

"Maybe so, but loud as they were, our stuff was a lot better than what these crazy kids are doing these days. That boy of mine has a 12-foot by 16-foot speaker built out in the back yard, cost him \$82,000, can you imagine that? He and a couple of his buddies live inside it, and we just slide him a sandwich once in awhile in between songs, when we can stand to get that close."

"I know. My son has one of the same things. Poor kid's eardrums exploded when he was 11 years old, but he says he likes to feel the ground tremble when he's playing that thing. I told him last week that if he doesn't start spending more time in the house, I'm cutting his allowance to \$2,000 a week."

"Right, Harold. And do you remember all those great cars we had? When we had a good one, or anything good, we'd call it 'bad.' I can't remember just why. By the way, just the other day, I saw a guy who has a 1988 Yugo in mint condition."

"Really? I'll bet it's in mint condition because he never could get it started. That probably was the worst car ever built. Of course, most kids today don't drive cars, they all have jets and spend most of their weekends in Bombay trying new drugs."

"Yeah. But what can you expect? Kids today don't know nothing. They should have lived in the 80s."

"You're sure right about that. Well, listen to this: I've got a recording of one of our really good songs from the 80s, *Bad Medicine*, by Bon Jovi. I've been trying to learn to whistle it, but I'm not doing too well."

Dental Office Burglary Brings Probated Term

A 25-year-old Tahoka man pleaded guilty of the recent burglary of the dental office of Dr. David Midkiff and was sentenced Monday to a 7-year prison term, probated. David Tillman was given the probated term by District Judge George Hansard in Tahoka, and also was ordered to pay restitution totaling \$3,038.50 to the dental office and to Jennings of Tahoka and Aunt Becky's Place, which also were burglarized recently.

Judge Hansard also revoked probation of Francisco Lopez, 29, of Lubbock, who now must go to prison to serve a 10-year term previously assessed on a 1987 burglary charge.

Tahoka Police Dept. investigated two traffic accidents in the city during the last week. On Saturday at Lockwood and Main a collision involved a 1982 Mercury driven by Jimmy Paul Jolly of Tahoka and a 1971 Chevrolet driven by Rene G. Perez of Tahoka. No injuries were listed.

Police investigated an accident Monday at Ave. O and N. 1st that involved a 1984 Suburban driven by Billie C. Williams of Post and a 1989 Suburban driven Karen Burrows Young of Odessa. No injuries were reported.

Valentino DeLeon, 1926 S. 3rd, reported to police Sunday that his son's 1967 Ford Mustang had been scratched with a sharp object while parked at St. Jude's Catholic Church, 1800 S. 4th.

Police arrested one person for driving while intoxicated and one for public intoxication and also investigated a family disturbance call during the last week.

In jail during the week were one person each for DWI first offense, public intoxication, DWI plus no drivers license plus displaying a fictitious sticker, unauthorized use of motor vehicle in Tulsa, OK., plus theft over \$750 in Collinsworth County, outstanding traffic warrant and simple assault.

McInroe-Rivas Weddings Vows Exchanged In Tahoka Church

Kimberly Paige McInroe and John Michael Rivas exchanged a double-ring, candlelight ceremony on Friday evening, July 7 at 7:30 p.m. at First Baptist Church of Tahoka, with Dr. Danny Curry, pastor, officiating.

Parents of the couple are Shirley McInroe of Slaton and Jim McInroe of Post and Mr. and Mrs. Cruz Rivas of Tahoka.

Given in marriage by her brothers, Jason and Justin McInroe of Slaton, the bride wore a formal length gown of white satin. A sweetheart neckline and fitted bodice lead to leg-o-mutton sleeves and a full ballroom skirt. This ornate gown was heavily adorned with re-embroidered lace, below tiny crystalline beads, seed

pearls, iridescent sequins, opalescent sequins and other crystalline bead work. The full skirt flowed around to create a cathedral length train, trimmed in beautiful see through lace with scalloped edging. A bow and bussel adorned the back of the waist line and train. To finish off the look, the bride chose an exquisite veil. The veil was made up of leaves covered with iridescent sequins. A pouff was added to fingertip veiling, sprinkled with pearls. Her nosegay bouquet was white and pink silk roses with her great-grandmother's pearls entwined.

She used the pearls belonging to her great-grandmother as "something old", something new" was her dress, "something borrowed" was some pearl earrings belonging to Lea Ann Basinger of Slaton, and "something blue" was a garter made by her aunt.

Musical selections were presented by Steve Mason of Post and Beth Askew of Tahoka.

HOW MUCH FIBER?

Don't go to extremes about fiber in the diet; 25 to 35 grams daily are considered adequate. Too much fiber inhibits the absorption of important nutrients and can cause gas, diarrhea, and bloating. Since fiber attracts water into your intestines, it is important to drink enough liquid to keep everything moving thru the intestines and to prevent constipation. For health, consume 8 glasses of water daily.

Local Sales Tax Rebates Listed For Lynn County

State Comptroller Bob Bullock said Monday that local sales tax rebates across the state continued to climb this month, increasing by 12 percent over last year's July payments.

Bullock added that Texas' economic growth is becoming apparent in almost every sector of the economy.

"Oil and gas, construction, banking and real estate appear to have bottomed out. And some of the areas in Texas that lagged behind in economic growth are beginning to show signs of improvements," Bullock said.

Rebate checks totaling \$68.7 million were sent Monday to 939 cities that impose local sales tax at either one or one and one-half percent., Bullock said.

In O'Donnell, net payment this period was \$680.35, comparable payment prior year \$763.60, % change -10.90%, 1989 payments to date \$7,637.28, 1988 payments to date \$7,421.57, % change 2.91%; In Tahoka, net payment was \$3,773.97, comparable payment prior year \$4,763.46, % change -20.77%, 1989 payment to date \$36,369.32, 1988 payment to date \$36,172.60, % change 0.54%; In Wilson, net payment this period \$542.19, 1989 payments to date \$3,257.23, 1988 payments to date \$2,952.02, % change 10.34%.

July's checks represent taxes collected by monthly filers in May and reported to the Comptroller's office by June 20, Bullock, said.

because the elevation of Lynn County is from 2,650-3,300 feet.

There are a variety of changes in the new USDA guidelines. In these new recommendations separate times are given for dial gauge and weighted gauge pressure canners.

Processing times are also given for varying altitudes.

This measure insures to sterilize jars if they will be processed less than 10 minutes in the boiling water bath. If processed by pressure canning, jars need not be sterilized before filling.

Jellied Products

In jellied products, the use of paraffin is no longer recommended. Some strains of molds have been found to grow in the paraffin and get into the jelly. These molds were once thought to be harmless, but recent studies have shown otherwise.

All jellied products should be processed in a boiling water canner (previously referred to as the water-bath canner). In general, jellies should be hot-packed in half pint jars and processed for 10 minutes (for our altitude) in the boiling water canner. Specific times for various jellied products are available at the Extension Office.

Take Note of Home Canning Changes From USDA

The height of food preservation season will soon be upon us. This year homemakers will want to be aware of new research from the USDA-funded Center for Excellence in Home Food Preservation at Penn State University. To insure the safety of home-canned products, these new USDA guidelines should be followed.

To insure your health and specifically to prevent the risk of botulism, low-acid and tomato foods not canned according to the new USDA recommendations should be boiled before eating even if you detect no signs of spoilage. Boil foods for 10 minutes at altitudes below 1000 feet. Add an additional minute of boiling time for each additional 1000 feet elevation.

Therefore, if you have a canned low-acid or tomato product, you should boil it for a total of 12 minutes

Garza Theatre To Present "The Tempest"

The Garza Theatre takes great pride in presenting its Summer Shakespeare Festival play, one of the English dramatist's finest comedies, the romantic adventure, "The Tempest." The festival includes eight performances July 20-23 and July 27-30, at 7:45 p.m. Thursdays, Fridays and Saturdays and at 2 p.m. Sundays.

For the first time in his career, designer-director Will McCrary will step into the role of "Prospero", and as his daughter, "Miranda", Cheryl Thompson will return for her third leading role in a Summer Shakespeare Festival production.

Post's Little League Red Sox baseball star Jeffrey Redman, making his fourth appearance on the Garza stage, will enact one of Shakespeare's most famous roles, "Ariel", the spirit servant of "Prospero". And as the juvenile lead, "Ferdinand", Danny Leach will make his West Texas stage debut.

Making their first appearances on the Post stage will be a trio of villains, James Bell as "Alonso," Charles Somerville as "Gonzalo" and Patrick Conner of Lubbock as "Antonio." Joining them will be Garza Theatre veteran John McCullough as "Sebastian."

The three young comics of the production will be Mike Nedela as "Caliban", Troy Timms as "Trinculo" and Junior Armendariz as "Stephano". Also appearing in key supporting roles will be Ab Gutierrez, Russell Benham and Cole LaBlanc.

Call the Garza Theatre box office at 495-4005 for information and reservations. The box office is conveniently open Monday through Saturday 10 a.m. to 4 p.m. And remember, a group of 12 or more patrons are eligible for our generous discounts.

Sizing A Water Heater

Water heater size or capacity should be based on the maximum amount of hot water you consume during any one-hour period. This is called the peak hour demand.

To determine the peak usage hour for your family, list all water consuming activities during that period.

Typical hot water consumption in gallons per usage for various activities is as follows: shower, 20; bath, 20; shaving, 2; hands and face washing, 4; hair shampooing, 4; hand dishwashing, 4; automatic dishwasher, 14; food preparation, 5; and automatic clothes washing, 32.

The peak for one family might occur in the morning and consist of three showers (20 gallons each, 60 gallons total), hands and face washing, 5 gallons, shaving (2 gallons) and food preparation (5 gallons)—a total of 72 gallons.

A water heater can provide more than its storage capacity during this first hour, is referred to as the first-hour rating.

In the sample above, a water heater with a first-hour rating of at least 72 gallons would be required.

Residential water heaters are most commonly available in 20, 30, 40 and 50-gallon capacities, with first-hour ratings ranging from 22 to 100 gallons.

Gas and propane water heaters typically have higher first-hour ratings than electric heaters of the same storage capacity.

Fifty Years On Guard

A group that's helped America for half a century does much more than many realize. Here's a look at its story.

THEN: On June 23, 1939, with the world on the brink of war, the Coast Guard Auxiliary was formed. It's a non-military, volunteer organization authorized by Congress to help the Coast Guard with search and rescue duties, operate radio stations, check boats for safety, teach boating safety classes and go on patrols with Coast Guard units. Members are trained and the group is administered by the U.S. Coast Guard.

PROMOTING SAFE BOATING

NOW: These days, the 34,000 men and women of the Auxiliary respond to about 10,000 calls for help a year, save hundreds of lives and assist tens of thousands of boaters. Membership is open to any U.S. citizen over 17 who owns at least 25 percent of a boat, airplane or marine radio station or who has special skills needed by the organization. To learn about Auxiliary classes or membership, call (800) 368-6647. People in the Washington, D.C. area call 267-0780.

COTTON TALKS

Directors of Lubbock-based Plains Cotton Growers, Inc. July 12 approved a 1989-90 budget of \$294,075, almost nine percent above the \$270,000 budgeted for 1988-89 and the largest budget since 1986.

The 1989-90 figure is the projected amount needed to conduct the producer organization's wide range of research, legislative and other services to cotton producers in its 25-member counties on the High Plains. The budget was adopted as presented in detail to the 50-man Board by Wayne Huffaker of Tahoka, PCG's Secretary-Treasurer and Finance Committee Chairman.

Funding for the organization's activities come from 25 cents per bale producer dues, supplemented by dues from oil mills, compresses, banks and others either directly or indirectly benefiting from cotton's contribution to the High Plains economy. PCG calculations show a farm level value of the area crop in excess of \$1 billion for each of the past two years.

In other action the Board re-elected its Nominating Committee and elected three new members to its Executive Committee for the 1989-90 year.

Newly named to the Executive Committee were Donald Christian of Farwell, Jackie Burris of Wellman and Frank Jones of Lamesa. Christian and Burris replace Miles Caudle of Hereford and D. C. Newsom, Jr. of Plains, respectively, two long-time directors who did not seek re-election from their counties in 1989. Jones replaces Bruce Key of Tarzan in Martin County. Returned to the committee were R. H. Reaves of Levelland, Henry Kveton of Petersburg and Don Langston of Lubbock.

James Reed Ag Center Is Dedicated

Members of the Board of Education, former students and friends of James Reed, gathered at the new Ag. Complex located just off Loop 76 in Northwest O'Donnell, on Thursday, July 6, immediately following the annual Rodeo Parade.

The occasion was the official dedication of the James Reed Agricultural Center, a complex to be utilized in the feeding and fitting of livestock by FFA students in preparation for the various livestock shows throughout the state. This facility is the culmination of many hours of planning and work by administration, trustees, teachers and citizens interested in the Vocational Agriculture program of O'Donnell ISD.

After an introduction by Angie Walton, Vocational Agriculture Teacher, Mayor David M. Smith dedicated Thursday, July 6, 1989, as James W. "Bill" Reed Day in O'Donnell. Following the presentation of a certificate to that effect, Wendell Edwards dedicated the facility to Mr. Reed. A host of friends were on hand to congratulate Mr. Reed.

fertilizer, such as ammonium sulphate or ammonium nitrate, can be used for each 100 square feet of garden area, according to Cypert. This can be broadcast on top of the organic matter and all tilled in together.

After the summer soil preparation, August to early September is the time to plant most vegetables for fall harvest, he said, adding that many vegetables perform better under Texas fall weather conditions. Crops such as green beans, cucumbers and squash need to be planted early so that harvest is completed by the time of the first frost.

Other vegetables which can withstand freezes down to 25 degrees or so are beets, broccoli, cabbage, carrots, cauliflower, celery, collards, lettuce, mustard, onion, parsley, radish, spinach and turnips.

Emergency Farm Loan Applications Being Accepted

Applications for emergency farm loans for losses caused by tornadoes, flooding and severe storms which began May 4, 1989 are being accepted at the Farmers Home Administration (FmHA) office located in Tahoka, FmHA County Supervisor Curtis Barlow said.

Lynn and Garza Counties are two of 60 in Texas recently named by Secretary of Agriculture as eligible

for loans to cover part of actual production losses resulting from the tornadoes, flooding and severe storms.

Barlow said farmers may be eligible for loans of up to 80 percent of their actual losses of the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate is 4.5 percent.

"As a general rule, a farmer must

have suffered at least 30 percent loss of production to be eligible for an FmHA emergency loan," Barlow said. Farmers participating in the PIK or Federal Crop Insurance programs will have to figure in proceeds from these programs in determining their loss.

"Applications for loans under this emergency designation will be accepted until Feb. 26, 1990, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possibly over into the new farming season," Barlow said.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations or cooperatives in which U.S. citizens hold a majority interest.

The FmHA office in Tahoka is open from 8 a.m. to 5 p.m. Monday through Friday.

THE BENTONS will sing at Tahoka Methodist Church Sunday
Methodists Will Host Singing Group

The Bentons, "Communicators using sacred music and the spoken word", will be appearing at First United Methodist Church on July 23 at 11 a.m. In their 29th year of full-

time ministry, the Bentons have recorded 15 albums appearing in forty-one states. They are native Iowans, making Burlington their home. D. Dean Benton was ordained in

1960, pastored fourteen years in Iowa and Illinois. A graduate of Garrett-Evangelical Theological Seminary, Open Bible College, and upper Iowa University, Dean is the author of 11 published books and numerous magazine articles.

Carole Benton plays electronic piano on stage, sings and writes some of the songs used in the Bentons' concerts and recordings. Carole's book, *Adventure At Hollow Hickory Fort* was published in 1980.

Deborah Benton is the adult daughter of Carole and Dean. She began traveling with the group in 1973, then joined her parents as a full-time singer in 1978. Debi's writing has been published nearly twenty times.

In addition to 200 concerts a year, the Bentons conduct a seminar ministry related to family life. This is a family in ministry to families.

The Bentons and pastor Larry E. Ramsey of the First United Methodist Church in Tahoka invite everyone to this concert.

Hispanic-English Tent Crusade Set In O'Donnell

One In The Bond Of Love is the theme of the 1989 Tent Crusade to be held in O'Donnell Aug. 13-19 on the Co-op Gin yard. Rev. Joe Lopez, pastor of Iglesia Bautista Hispana, of Lubbock and recently returned from preaching in Tapachula, Chiapas, Mexico will be the featured evangelist. Rev. Ramon Galindo, pastor of Primera Mission Bautista and his congregation will be assisting along with O'Donnell First Baptist Church.

Much ground work is being laid and anticipation is running high as people of different ethnic background make plans for a real "old fashioned revival." A special feature will be soloist Nena Leal of Corpus Christi. The Community Choir will be directed by Adam Zapada, evangelist singer of Lubbock.

Aug. 19 is Youth Night. The well-known group "Advent" will be heard in concert on stage. All youth of this area are invited to share in the celebration.

Offensive Works Of Art Result In Funding Cut

In a carefully targeted amendment to the Interior Appropriations bill, U.S. Rep. Charles Stenholm last week led an overwhelming bi-partisan majority of the House of Representatives to reduce funding for the National Endowment for the Arts (NEA) by \$45,000.

The vote came in the wake of recent criticism of the NEA for its funding of two artists who created what many people find offensive "works of art." One artist, Andres Serrano, photographed a plastic rendering of Christ on the cross, submerged in a container of the artist's urine. His \$15,000 work was part of a grant given to the Southeastern Center for Contemporary Art in North Carolina.

The second artist, Robert Mapplethorpe, was granted \$30,000 for an exhibition of photographs which included depictions of homoeroticism, child nudity and sadomasochism.

"I believe in the importance of the arts to America and generally the NEA has functioned well in promoting the arts," Stenholm said. "My amendment is a shot across the bow, sending the appropriate message

without shooting everything in sight."

Incoming NEA Chairman John Frohnmayer said he would heed the warning, stating "I recognize the \$45,000 cut is a very clear signal from the House and one that the NEA and myself would be ill-advised to ignore."

Stenholm said he has received a number of calls and letters about the two controversial NEA grants, and felt it appropriate to cut their funding by exactly that amount.

The NEA budget still must be approved by the Senate before the actions are final.
