O'Donnell Will Play Sudan In Bi-District

O'Donnell had the opportunity to win their district title outright at home Friday night and was leading District 4-1A foe Plains 15-12 with just 46 seconds remaining in the game. But Cowboy quarterback Monte Pierce tossed the ball to Mario Medina, who ran 11 yards to the end zone for a tough 18-15 victory which threw the District 4-1A race into a three-way tie for first place between O'Donnell, Plains and Whiteface. All three teams finished with identical 4-1 records.

O'Donnell's fate was decided by a draw in Brownfield late Friday night and Plains won the three-team draw and will be the top seed in the state playoffs. The Eagles were awarded the second playoff berth by virtue of their victory over Whiteface earlier in the season. The Eagles will play the Sudan Hornets in bi-district play-offs at 7:30 p.m. at Wildcat Stadium in Littlefield. The Hornets, ranked third in the state in Class A, had already clinched the 3-1A district championship with an easy 56-0 victory over Nazareth. Sudan improved to 10-0 on the year and 5-0 in district play.

Trailing 12-7 in the fourth quarter, Eagle fullback Jacob Lowe put O'Donnell ahead 15-12 on a four-yard touchdown run. Lowe carried the ball nine times for 127 yards.

But that was the drive that the Eagles scored on. The drive on their previous possession is the one that they will remember the most because O'Donnell drove from its own one-yard line to Plains 12-yard line and came away empty when the Cowboys held on a fourth-and-6.

Woodwork...

BY THE TIME anyone reads this, I will have made my appearance before the third graders of Tahoka elementary school and read them a story, which they probably won't understand a word of, since I am told (by members of my family and sometimes by fellow workers) that I mumble a lot and am, therefore, difficult to understand.

I am supposed to go up there Tuesday and read them a story about "Alexander and the Terrible, Horrible, No Good, Very Bad Day" and then I am supposed to tell them what I do when I have a bad day.

What I do is try to blame it on somebody else, but I probably won't tell them that. My policy is to never admit that I brought all those bad things on myself because I was lazy, or stupid, or greedy or whatever. It has to be someone else's fault, or maybe the weather, or just fate, because after all, I'm too nice a guy to deserve all these problems.

I am reminded of the remark made by somebody that every person needs a wife or husband because, after all, one can't blame everything that goes wrong on the government.

We all know people who always have excuses for everything, and who admit responsibility for nothing. We start this very young; when you ask the kids "who broke this jar on the kitchen floor?" you likely will get the same kind of answer our own children used to give: "I didn't. Maybe it just broke all by itself."

When something really bad comes out in the newspaper, I sometimes call staff members together and demand to know who handled that particular item. Sometimes someone will admit they did it. Once in awhile somebody answers, "You did." At that point I always announce that we won't discuss that particular problem any further.

Anyway, we all have bad days, but for a long time I was sort of like the alcoholic: I never knew I had all these bad days until I had a good day once.

ASCS OFFICE STAFF COMMENDED—The Lynn County ASCS office and county committee were presented a certificate of appreciation last Friday from the State ASC Committee, represented by state chairman Jerry Harris. Here he presents the certificate to County Committee representative Larry Moore, to County Executive Director Jimmy Woodard just behind Moore, and to the workers in the office at Tahoka.

Lynn ASCS Office Operations Praised

The importance of the operations of the Lynn County Agricultural Stabilization and Conservation Service office to the economy of the county and to the farmers in the county were stressed Friday by a state ASCS official who presented a certificate of appreciation to the Tahoka office and staff "for excellence in COT Training and the administration of the 1989 conservation program."

Jerry Harris, chairman of the Texas State ASC Committee, presented the certificate to the Lynn County office and its County Executive Director Jimmy Woodard, and to the Lynn County ASC committee, chaired by A.J. Gicklhorn and in-

cluding Marlin Hawthorne and Larry Lynn Moore.

Harris, a resident of Dawson County, had high praise for the Lynn County ASCS office.

"What they've done is really a credit to this office...and sometimes the people out in the community may not realize what a good job the local office is doing...offices like this one have taken on an increased responsibility in making decisions at the local level (instead of those decisions being made in Washington) which affect the agricultural producers." He said he is sure that local farmers would rather those crucial decisions be made by people who understand the local conditions and situation.

"We are extremely proud of the Lynn County ASCS office, one of the outstanding offices in the state," said Harris. He added that "the way the Lynn County office administers the program has a tremendous effect on the economy of this community and area."

In 1989, Harris said, the Lynn County office has made 1,994 person determinations, and deals with 1400 cotton farms and 675 operators, with 553 cotton loans. \$21 million has been paid out in deficiency and disaster payments to producers, and at present has 230 CRP contracts with 56,000 acres involved.

Employees of the ASCS office directed by Woodard are Kim Paris, Peggy Morton, Janice Orr, Betty Harston, Brenda Isbell, Nedra Young, Sharron Smith, Joanne Hammonds, Cindy Gardner, Geneva Miller, Nicki Strickland, Glenda Whitley, Christina Wuensche, Julie Aten and a current COT trainee, Renea Ferguson.

Leopards Win District, Knock Off Wellman, 30-24

New Home's Coby James ran for two fourth quarter TD's and threw a 94-yard TD pass to give the Leopards a 30-24 win over Wellman at Leopard Field. The win gave New Home the District 3-A six man championship and the Leopards will get a week off to play the winner of the Lazbudie-Silverton game.

The hard-fought game swung on a fumble by Wellman with just over four minutes remaining and the score tied at 24.

On the first play after taking over at the Wellman 20, Michael Caballero caught a short pass from James and rambled to the one-yard line. James took it in on the next play with 3:48

left in the fourth quarter.

"It was a great game," said Leopard coach Dickie Turner, who saw his team improve to 9-0-1 overall and 5-0 in district. "I don't know what else to say. We got a turnover when we desperately needed it."

New Home was ahead 16-12 at halftime but the Wildcats went ahead 18-12 in the third period on a six-yard run by Wade Rowden who also had 142 yards rushing.

James had 33 carries for 158 yards for the Leopards and Scott Fillingim caught 5 passes for 93 yards including a 48 yard TD catch from James in the first quarter.

Longtime City Secretary Now Enjoying Retirement

By JACQUI LOCKABY

Texas Tech Journalism Student
Having your picture made in Rome with John Hillerman, who plays "Higgins" on the television show *Magnum P.I.*, is more interesting than collecting water bills for the city of Tahoka.

Hazel Connolly, the city secretary for Tahoka, recently retired and spent her first 31 days of freedom from a daily job touring all of free Europe with her brother and sister-in-law. While in Rome they saw Hillerman and he agreed to have his picture made with them. "I wanted Tom Selleck, but he wasn't available," she said. "But Higgins was very nice. He instantly knew I was from Texas; he is a Texan himself, although he has that British accent on the television series."

Mrs. Connolly was employed by the city for more than 24 years and was city secretary for 22 years. She has held the position of city secretary

longer than anyone else in Lynn County. Her first job for the city was a deputy clerk position in city hall.

She was appointed city secretary on March 6, 1967. Up until the time Connolly became city secretary it was an elected position.

During her time of employment, Mrs. Connolly has served under the direction of 31 city councilmen and two mayors, Mel Leslie for 19 years and Jim Solomon for four years. She has worked with four city administrators, Milt Uzzle, Ray Mason, Carl Reynolds and Barry Pittman, along with numerous city employees.

Some of the major events to occur while Mrs. Connolly worked for the city were the incorporation of the Country Club and Van Dyke editions into the city and the changing of the water system to the Canadian Water Authority in 1967.

She served as the president of the South Plains Association of City (See Connolly, page 3)

Lynn County To Seek Bids On Vehicle

Lynn County will seek bids on a new vehicle for the sheriff's department, commissioners decided at the regular meeting of the group Monday, after Sheriff Jack Miller made a report on the activities of the sheriff's office, noting that the program of housing federal prisoners awaiting action in federal court still is proving profitable for the county.

Commissioners also appointed Paul Kiser as the county's representative on the Tax Appraisal Board, and approved selection of Elaine Lopez and Kathy Box as members of the city-county library board.

District Clerk Joy Laws spoke to the commissioners regarding the possibility of putting the registered voter list on computer for easy access to names used in making up jury panels.

Annual dues of \$50 for membership in the West Texas Judges and Commissioners Assn. were paid, as were the monthly bills to county.

All commissioners and Judge J.F. Brandon were present.

Cleaning Leather Trimmed Garments: Leather an leather trimmed garments are continuing to increase, giving added importance to proper cleaning and care.

With abounding combinations of cloth and fur, snakeskin, pigskin and suede of all colors, the professional cleaner must remember that cleaning of any skin with solvents alone is going to remove oils, dyes and finishes. Skin is extremely soft and supple because of fat liquors and other oils applied during the tanning process. Clear solvents alone remove a large portion of these and, in some cases, dramatically alter the texture and color of leather.

If you will examine an article that has been cleaned in solvent with a new item, you will often see the difference in suppleness and texture of the leather. This becomes progressive with each cleaning and will certainly shorten the life of the leather. Removing these oils also makes leather more susceptible to moisture, heat and steam damage.

Proper care of leather requires cleaning with additives to help retain the leather's like-new appearance. Professional cleaning incorporates oils and finishes similar to those used in the tanning process. These oils also tend to improve color intensity.

Cleaning of leather and leather trimmed articles by a professional leather finisher will be a little more

expensive and time consuming. However, these are some of the consumer's most expensive purchases, so they should be kept in good condition. Many of the deep colors, especially black, blue, red and purple can be damaged by cleaning procedures, including those by professional suede and leather cleaners.

You may want to talk to your professional suede and leather finisher to see how they want to handle these garments. Some must be refused at the counter due to possible problems with dyes; others can be accepted at the customer's risk. Fortunately, cleaning combine cloth and leather garments where cloth is dyed presents far fewer problems than all white cloth with dark leather trim.

Bulldogs End
Grid Season
With Loss

The Tahoka Bulldogs mercifully reached the end of the football season last Friday night, losing 47-0 to Seagraves to close out a season which officially was 1-9, since the Dogs were handed the first game of the season on a 1-0 forfeit after Plains had used an ineligible player in an apparent 32-2 Cowboy win.

Beset by injuries, failing grades and walkouts, the Bulldogs closed out the last half of the season without a dozen players, mostly starters, who began the year. Many freshman and sophomore players were moved up, and Coach Joe Paradis said this week that there should be about 16 lettermen coming back next year.

Against Seagraves, Tahoka had a total of 39 yards on offense, and just two first downs. On defense, Adam Holland and Joey Stone did recover fumbles for Tahoka, and punter Albert Mendoza maintained his good average by punting six times for an average of 43 yards in the Seagraves game, including one which traveled 61 yards. Halftime score was 33-0.

Clerks and Secretaries from 1978-1980.

"We at City Hall are really going to miss Hazel. Her many years of experience and problem solving ability have been a great asset to our community. I certainly wish her well and invite the citizens of Tahoka to come out Saturday to honor her for her years of service," Mayor Jim Solomon said.

Hazel Connolly was born in Hugo, Okla., and spent one-third of her life in Garza County. She came to Tahoka in 1941 and married Bob Connolly in 1945. He died in 1986.

She has two daughters, Judy Barker of Dallas and Joan of Lubbock. She has one grandson, Duane, 13.

Mrs. Connolly said she has no immediate plans for the future but would like to continue to travel and take life as it comes.

When asked what she misses most now that she is not working, she said she misses the people she was used to seeing everyday. "I don't miss the work, but I do miss my friends at work; they're like family."

A retirement reception will be held for Mrs. Connolly this Saturday from 10:00-11:30 p.m. at the Community Room at the First National Bank in Tahoka. Everyone is invited to attend.

TAKE NO CHANCES
WITH YOUR EYES

Most people do not give their eyes the best possible care. To further complicate the danger, some unscrupulous promoters offer eye products that delay proper treatment, even though causing no immediate harm. Be wary of mail-order medicine men.

Don't be misled by claims that "magic" salves or drops will dissolve cataracts. You ultimately save no money when getting improperly fitted glasses by mail. Depend on your local licensed supplier. And, if your eyes need treatment let no one but a physician tell you what to do.

"A GREAT MANY PEOPLE ENTRUST US with their prescriptions, health needs and other pharmacy products. We consider this trust a privilege and a duty. May we be your personal family pharmacy?"

O'Donnell, Wilson Sales Tax Returns Show Increase

State Comptroller Bob Bullock said Friday that sales tax payments to Texas cities reached \$125 million this month, up more than 5 percent from last November's payments and over 9 percent higher than last year's total at this time. Checks to counties to continue were up a healthy 7 percent over last November's payments.

In O'Donnell, net payment this period was \$2,272.09; comparable payment prior year \$2,093.30; % change 8.54; 1989 payments to date \$12,604.95; 1988 payments to date \$12,588.15; % change 0.13. In Tahoka net payment was \$7,492.90; comparable payment prior year \$8,549.68; % change -12.36; 1989 payments to date \$59,593.06; 1988 payments to date \$60,731.07; % change -1.87. In Wilson, net payment was \$943.97; comparable payment prior year \$767.33; % change 23.02; 1989 payments to date \$5,536.84; 1988 payments to date \$4,486.38; % change 23.41.

"The economy is looking up for merchants in Texas and that means another good month for local governments," Bullock said.

The latest checks reflect local sales taxes collected in September by businesses that file monthly tax returns and taxes collected in July, August and September by businesses that file quarterly returns.

Businesses collect the state and local sales tax and send it to the Comptroller's office along with their returns. The state keeps its 6 percent share and returns the local sales taxes to local governments.

Cities and counties may levy a combined tax of up to 2 percent, Bullock said.

This month's payments to counties totaled \$11 million, compared to \$10.2 million last November. Bullock noted that the total payments to counties in 1989 show an increase of 43 percent. He explained that much of the increase is because 10 more counties started collecting tax in January of this year and another one started in April.

DAYTON PARKER

DIVERTICULITIS
It occurs when tiny pouches form in the wall of the colon and become inflamed. Avoid constipation and bowel straining. Don't take laxatives, which can irritate the large bowel. The U. of Cal. Wellness Letter advises adequate dietary fiber, obtained from eating more fruits and vegetables (raw and unpeeled are best) - also whole grains. Wheat bran in cereals and bakery is very helpful. These are good practices for the health of any digestive tract, whether diverticulitis or not.

TERRY'S WOODBOX

by Terry Wood

I've seen a lot of ads on television lately about how much excitement you can have driving a car, with slogans like "the ride of your life", "built for the human race", "it just feels right" and "made for the American road." I spend at least two hours a day in my car and I'm beginning to wonder if there is any pleasure or fun in driving anywhere.

All model 1990 cars sold in the U.S. must be equipped with automatic safety protection according to the Department of Transportation. This means car makers must install air bags or automatic safety belts, or both.

I recently purchased a car that does have automatic motorized seat belts that attack your body immediately after you sit down and close the door. Anybody who drives my car or rides in it will always have a comment like "Hey, these seatbelts are bad" as one 13-year old put it, or "What's next- mandatory car helmets and a suit of armor?" Personally, I don't like wearing seat belts and motorcycle helmets while driving at a snail's pace, but that's the law.

I can just imagine it when someone hits a chughole in Lubbock and his air bag inflats causing a terrible accident at some intersection or else you'll have an accident like Chevy Chase in National Lampoon's "Vacation" and watch the bag inflate five minutes after impact. The airbag makers say that won't happen, but I wouldn't bet on it.

Whatever new laws are legislated in the future, I'm sure that I won't agree with many of them because the car manufacturers are building some exciting products. I know I could have a lot of fun in my car if I could convince my wife to buy me a cellular phone and that compact disc player with amplifiers, subwoofers and tweeters for Christmas. Then it would be exciting to drive again- at least for a while.

City-County Library News
Shirley Draper, Librarian.

Nov. 15, 1989 was National Young Reader's Day. The purpose of the day is to highlight the year-long observance of 1989 as the year of the Young Reader.

Shirley Draper, librarian, asked patrons of the library to remember a favorite book from their childhood: Jim Solomon- *The Hardy Boys Series* by Franklin W. Dixon; Barry Pittman- *Smokey the Cow Horse*; Dalton Wood- *The Jerry Todd Books and the Rose Colored Cat*; Beth Huffaker- *The Bobbsey Twins Books and all of Walter Farley's books about horses*; Lottie Jo Walker- *Treasure Island* by Robert Louis Stevenson and *Swiss Family Robinson* by Johann Wyss; Mary Louise Louder- *Heidi* by Johanna Spyri; Bitsie Wells- *Elise Dinsmore's Books, Flica, Son of Flica and Thunderhead*; Rachel Huffaker- *The Treasure Book of Best Stories* by Althea Clinton; Joe Hays- *The Little Engine That Could* by Watty Piper, *I Think I Can! I Think I Can!* Helen Knox- *The Nancy Drew Books* by Carolyn Keene; Ima Lou Raindl- *Little Red Riding Hood* by Brothers Grimm; Carroll Rhodes- *The Sugar Creek Gang Series*.

As you can see favorite Young Readers books haven't changed much thru the years, with the exception of the Editor's *Rose Colored Cat*. The Library has most of these books and many more newer ones for the young reader.

BOOK WEEK READER—As part of the observance of Children's Book Week this week at Tahoka Elementary Library, local businessmen came to the school to read to several different classes. Here Dalton Wood, publisher of the Lynn County News, reads to the third grade class of Mrs. Debra Steffens. Librarian Gwen Cate looks (and listens) on.

Great American Smokeout Turns 13

The American Cancer Society's Great American Smokeout turns 13 this year, which could bring good fortune to those smokers trying to quit. As it does each year on Smokeout Day, the American Cancer Society will encourage all smokers to try their luck in remaining smoke-free for 24 hours—in the hope that they might quit for life.

Smoking cessation is a growing concern of today's Americans. Society's interest in health, fitness, and physical longevity has created a need for information to help smokers

quit. The 1988 Great American Smokeout witnessed major corporations exploring the benefits of non-smoking personnel, increasing both health awareness and productivity. Given this current knowledge, the American Cancer Society is making "Quit Tips" available to the public.

Quit tips covers the benefits of quitting such as: adding years to one's life, improved stamina, an increased sense of smell and taste, and the proof of one's self control. Sample Quit Tips are: Take a shower because you can't smoke in the shower. Seek new activities. Perform old activities in new ways. Get in the habit of doing things differently.

For copies of the American Cancer Society's Quit Tips, or for more information about quitting smoking or activities for the 1989 Great American Smokeout on Nov. 16, contact your local American Cancer Society office at 5135 69th Street, (806) 794-5808, or call the American Cancer Society's Cancer Response System (CRS) at 1-800-ACS-2345.

Letter To The Editor

Dear Dalton:

I would like to congratulate the 8th grade boys for all their victories. They worked real hard this year and did not get any recognition for their hard efforts.

I would also like to thank all the parents that backed them up.

A bulbmaking capacity and the six petals to all its blooms mark all the members of the lily family. Thus, the calla, with its single bowl, is not a member of the lily family at all.

County Gets More In Bingo Taxes

State Comptroller Bob Bullock sent checks totaling \$2.4 million to counties and cities in Texas that levy a local tax on the gross receipts of charity bingo games in their communities.

The Comptroller's office collects the optional tax of 2 percent in communities where voters legalized charity bingo and where local governments opted to tax the games' receipts. The money is then returned quarterly to the community.

Bullock said that today's checks reflect the amount collected by 67 counties and 110 cities during the third quarter of 1989.

The Comptroller's office also collects a 2 percent state tax on the receipts of all charity bingo games statewide and deposits that money into the state's General Revenue Fund.

Bullock's office is responsible for issuing bingo licenses in Texas and regulating charity bingo throughout the state.

There are approximately 1,850 organizations licensed to hold bingo games in Texas Bullock said.

In Lynn county net payment was \$2,825.86; net payment same period last year \$2,462.49; 1989 payments to date \$10,342.67; 1988 payments to date \$10,084.36; percent change to date +002.6.
