MAXINE PARIS

Maxine Paris Joins Race For District Clerk

Mrs. Maxine Paris of Tahoka this week authorized the News to announce that she is a candidate for the office of District Clerk, subject to action in the Democratic Primary March 13.

A lifetime resident of Lynn County, the former Maxine Durham was born in O'Donnell, attended schools there, and married Leslie Paris in 1953 at Draw. In 1954 they moved to Tahoka, where he has operated an automotive service business for 32 years. He also is engaged in farming. Members of the United Pentecostal Church, they have two

T.A. Stone Seeks Votes For Pct. 2 Commissioner

T.A. Stone is announcing that he is a candidate for the office of Commissioner of Lynn County Precinct 2, subject to the Democratic primary on March 13. His statement follows:

"I have farmed in the New Lynn Community since 1947. This year my farming operations will be greatly reduced and I will have the time needed to devote to this office.

"My wife, Margaret, and I have three sons, Tommy, Danny and Kent, and they and their families all live in Tahoka. I am a veteran of World War II and a member of VFW. Margaret and I are both members of First United Methodist Church in Tahoka.

"Being a lifelong resident of Lynn County, I believe I am aware of the needs of our county and will do my best to maintain our roads, as well as conduct the business of the County in a fair and impartial manner. I will appreciate your vote and support and will attempt to see each of you in the next two months."

sons, Pug and Danny of Tahoka, and a daughter, Kellie of Lubbock. They have seven grandchildren.

Mrs. Paris owned and operated Paris Cafeteria for 14 years, closing the business in July 1989.

"I would like to say that I have the highest regard for the other candidates for district clerk, but I do feel that I can do the job, and if elected, I certainly will do my very best to carry out the duties in a fair and proper way, and serve the county and district the best I can," she said.

"I will be most grateful for any help, support and, of course, votes for me," Mrs. Paris said.

J.W. INKLEBARGER

Inklebarger Retiring After 46 Years At Bank

J.W. Inklebarger, assistant cashier, is retiring after 45 years and 11 months of employment at First National Bank of Tahoka. He will be honored with reception at the bank's Community Room from 10 a.m. to 11:30 a.m. Saturday.

Inklebarger this week reflected on his years of service with the bank, starting with his application for employment in January 1944.

"Applying for a job with the bank was a scary thing to do...in the first place, I didn't know anyone but W. B. Slaton (president of the bank)...he told me to go home and write a letter of application, and getting that task

done took about two days." Inklebarger added that he had graduated from Tahoka High School in 1943, and had worked on the family farm, driven a road grader in the county, and worked for Don Bradley Abstracting at the courthouse. But he got the job.

"I was the new employee...my first job was selling bonds. I went to bookkeeping soon after that and then to teller work. Helen House would pull my ears if I made too many errors."

"I have enjoyed my customers and working for the bank and for them," Inklebarger said.

ence to serve as commissioner of Precinct 2."

Junior and his wife, Jean, were married in 1957. They have four children, Ricky, Susan, Cathy and Julie, all of Tahoka, and five grandchildren.

"I will appreciate any and all support I get in this campaign," Meeks said.

Escapee From Lynn Jail Still At Large

An 18-year-old Mexican National being held in Lynn County jail as a federal prisoner escaped custody last Wednesday, Dec. 27, taking a car owned by Lynn County Pioneers, and later abandoning it near Lubbock.

Ismael Lopez Campos, who had given his home address as Chihuahua, Mexico, had not been recaptured as of Wednesday morning, a week after he left Tahoka in a 1989 Mercury.

Campos and another inmate had been released on cleaning detail at the senior citizens center, 1600 S. 3rd about mid-morning. The other inmate told officers later that he noticed that a vacuum cleaner Campos was supposed to be using in the next room sounded as if it were running in one spot, and that when he went to check, the cleaner was running unattended. He then questioned Mrs. Catherine Barham, director of Lynn County Pioneers, about Campos' whereabouts, and she then discovered that the car was missing. Keys had been left in the vehicle so that other employees of the center could use it.

The sheriff's office was notified and less than an hour later, about 11:10 a.m., the car was located on a gravel road near the intersection of S. University and Woodrow Rd.

Campos was being held for action by federal court in Lubbock on a

boys teams Tuesday night, with the Lady Bulldogs losing 62-45 and the boys going down 76-55.

For Tahoka's girls, now 4-14 and 0-3 in district, Chasity Hood scored 15 points and Betsy Huffaker had 14. Leading scorer for the Bulldogs Tuesday night was Paul Glisson with 14, followed by Michael Burleson with 13 and Trey Nance with 10. The boys team is now 4-12 for the year, 0-3 in district.

Over the holidays, Tahoka's boys lost to Crosbyton in a non-district game, playing for third place in the Jayton tournament on Dec. 31 and losing 56-43, as Burleson scored 10. On the same day, the girls team beat Hamlin for seventh place in the Jayton event, 57-44. In that game, Huffaker had 16, Hood 12 and Connie Parker 10.

charge of sale of cocaine. He reportedly does not speak English. He is described as 5-8, weighing 135.

Ron Bartholomew, east of Wilson, reported a burglary of his residence at the intersection of FM 211 and FM 212, sometime during the day Dec. 22. Missing were a Panasonic microwave oven, Sony stereo, Sharp tape deck and radio, Sony 19-inch color TV, two RCA VCRs, credit cards and men's clothing. Value of the missing items was not estimated.

Tahoka Police Dept. investigated a disturbance on Tuesday at a N. 7th residence where a screen door had been kicked in by a man who had been in an argument with another man. No arrests were made.

Prince Smith of 1201 N. 6th reported to police Tuesday that someone had stolen a billfold containing \$500 in small bills from his residence. Nothing else was reported missing.

In jail during the week was one person for disorderly conduct.

DONNA WHITLEY

Donna Whitley Running For District Clerk

Donna (James) Whitley has announced she is running for District Clerk in the Democratic primary March 13, 1990.

Donna is the daughter of Trula and Jesse James of Tahoka, and is married to Arthur, who owns and operates Whitley Electric, Heating and Air Conditioning. Donna has two sons, Justin, 13, and Joshua, 9. Donna has lived in Lynn County all her life.

Being the only daughter of a man with the name of Jesse James has its humorous adversities, but Donna has met the challenge head-on, working at the Lynn County Sheriff's Office.

Working at the Sheriff's Office for the past 9 years as Chief Communication Supervisor and Certified Jailer, Donna's proved experiences are: bookkeeper, secretary, handles civil papers and warrants, works with court dockets, records clerk, file clerk, computer operator, and handles paperwork for transporting inmates to the Texas Dept. of Corrections.

Also, for the last 7 years, Donna served as secretary/treasurer for the Lynn County Crime Line.

Donna is very familiar with every aspect of the judicial system and possesses all the qualifications necessary for operating the District Clerk's Office.

In her announcement as a candidate, Donna said, "If elected, I will perform all duties to the best of my ability for the people of Lynn County. I appreciate your support, prayers, and votes in the upcoming Democratic primary."

POSSIBLY by the time anyone reads this, the crummy Panamanian dictator Manuel Noriega will be in custody. And while I don't want to seem in any way sympathetic to this guy who has sold dope and had Americans killed, I do think the U.S. has gone too far and has treated Noriega inhumanly, subjecting him to the kind of torture that nobody should have to endure.

I am referring to the decision made by somebody to play loud rock music all around the Vatican embassy where the dictator is (or was) holed up. I think they may have stopped doing it after some of the embassy people begged the Americans to desist, but apparently the loud rock music was aimed at the house continually for several days and nights.

The idea, of course, was that anyone who had to listen to that stuff constantly would, after just a few hours, come storming out of the house with his hands up and beg to be taken to the firing squad. Certainly I would have. Noriega, though, apparently is made of sterner stuff. Or maybe he just went completely bonkers and has spent the last several days sitting in the middle of the living room floor dribbling on himself.

Or perhaps he lost his hearing, just like so many parents and neighbors of teenagers who watch MTV.

Anyway, I don't think it's right to make anyone listen to rock music constantly. If such a thing had been in existence at the time the rules were drawn up, it probably would be a violation of the articles of the Geneva convention.

I READ THE OTHER DAY that most cats have AIDS, and scientists are studying the effects on cats to see if they can learn something about treatment for humans. The article did say that it was a different kind of AIDS, and that humans can't get AIDS from cats. One has to wonder, though; to me it sounds like just another good reason to avoid cats.

Meeks Enters Race For Pct. 2 Commissioner

Junior Meeks of Tahoka this week announced that he is a candidate for the office of Lynn County Commissioner, Precinct 2.

Meeks, who was born in Lynn County and attended schools in Lynn and Garza County, graduated from Wilson High School.

"I have lived and farmed in Lynn County all my life," he said. "I feel I have enough knowledge and experi-

Rep. Stenholm Seeks Seventh Congress Term

Congressman Charles W. Stenholm this week announced his plans to seek a seventh term as representative of the 17th District of Texas.

The conservative Democrat from Jones County said he wants a two-year extension on his contract to serve the people of West Texas. He wants to continue strong support for rural health care providers and a 1990 Farm Bill that insures sufficient quantities of top quality food. "Our system produces the safest food at the least cost of any in the world and we must keep it this way," he said, adding:

"The people of West Texas are the best in the country and being their representative is a serious responsibility for me."

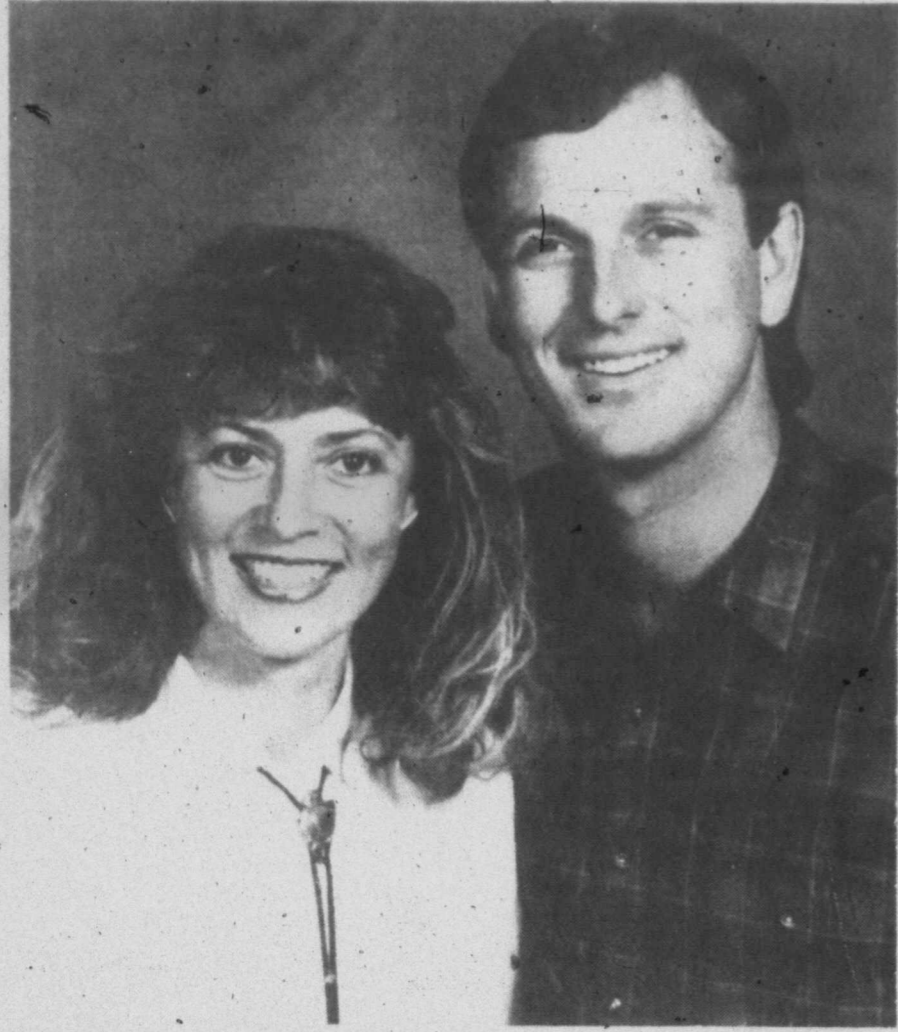

Stenholm has been present for more than 96 percent of all recorded votes during his time in office.

Congressman Stenholm recently was appointed one of 15 deputy whips in the Democratic leadership. He serves as chairman of the Livestock, Dairy and Poultry Subcommittee of the Committee on Agriculture and is a member of the Veteran's Affairs Committee.

Charlie and Cindy have two sons, Chris and Cary, and a daughter, Courtney Ann.

50-Cent Fee To Be Collected For 9-1-1 Service

Beginning in January, seven telephone companies across the South Plains will begin collecting 9-1-1 fees from their subscribers. Each telephone customer within the region covered by the South Plains Regional 9-1-1 Emergency Communications Plan will be charged a 9-1-1 Service Fee and a 9-1-1 Equalization Surcharge.

The 9-1-1 Service Fee is a fifty cents (\$0.50) assessment that will remain in the region to help fund the 9-1-1 system. The 9-1-1 Equalization Surcharge is a two-tenths percent (0.2%) addition to intrastate long distance charges. The surcharge will be collected throughout most of Texas and be used to help finance 9-1-1 systems in sparsely populated areas. The South Plains will receive close to \$600,000 from the surcharge fund to offset the implementation costs not covered by the 9-1-1 Service Fee.

The South Plains Association of Governments has been designated by the 16 participating counties and 38 cities as the agency to administer the regional system. SPAG officially begins in administration in January. During the next 24 months, SPAG will coordinate the implementation of the twelve 9-1-1 systems in the region.

The date of implementation in Lynn County will be October 1991. Any persons having questions regarding the South Plains Regional 9-1-1 Emergency Communications Plan should contact Mike Pedigo at 762-8721.

FACTS & FIGURES

The Health Care Crisis
America's health care crisis affects just about everyone. Consider these facts:

• Health care costs are increasing at rates twice and three times the overall inflation rate. Today, close to 50 percent of corporate profits is spent on employee medical benefits.

• U.S. spending on medical care has doubled in a little more than 20 years to \$500 billion at present or 11.1 percent of GNP.

• Yet fewer people are receiving needed care. 37 million Americans have no medical insurance whatsoever. Many more have inadequate coverage. The cost of providing care to these people is passed on to everyone in higher doctor and hospital bills.

• The United Food and Commercial Workers Union (UFCW) and its 1.3 million members, is working to bring together labor, management, the health care industry and government to develop a solution to this serious problem.

• As a first step, the UFCW believes all employers should be required to provide health insurance coverage to employees and their families. When companies don't provide basic coverage, taxpayers and other businesses wind up paying more. That isn't fair to responsible employers or their workers who are asked to pay higher deductibles and coinsurance.

• More sweeping reform of the health care system, including public insurance administered by state and regional boards, may be needed. Such a system already exists in Canada, where medical expenditures are one-third less than in the U.S., even though everyone is covered.

Letter To The Editor

Dear Mr. Wood:
I am a varsity cheerleader. Rain or snow people travelled to football games to support the guys. The fans stood up and yelled when we did participant cheers. Now that basketball season has begun, I feel as if we've lost some of our town spirit. I don't mean to put down those who stand, yell, and support us because there are some, but for the most part people just sit as if they're dead. What's wrong? The football record didn't turn out as hoped for, but they tried. So do the basketball players. Don't they deserve the support we put out during football season?
Sincerely,
Jodi Williams

It's Nintendo To The Rescue

At 4:00 a.m. the day after Christmas, Mark Debelack will begin answering phone calls. That day he, and 80 other men and women like him, will help people rescue princesses, cross finish lines, and reach intergalactic destinations. Mark is a Nintendo game counselor and he does what every young Nintendo fan in the country dreams of doing when they grow up—he plays games for a living.

Each week, these Nintendo experts, ranging in age from 18-52, answer more than 50,000 calls from players nationwide, who need answers to questions such as, "Where do I put a door in Subspace in order to find a heart and increase my life meter?" or "How can I warp to the entrance of the ninth labyrinth when I get the last piece of the Triforce?"

"The satisfaction in the job is in knowing that you make people feel good by helping them finish a game," says Blaine Phelps, a Nintendo game counselor supervisor. "We can make the games enjoyable instead of frustrating for players that are stuck at a certain spot or who just want to enhance game play." "This Christmas," Mark adds, "we're expecting a lot of calls from both adults and children who have received Nintendo as a gift and are either just learning how to play, or are exploring new games."

The Nintendo game counselor team is part of a specialized consumer service program that Nintendo of America has created to ensure customer satisfaction. In addition to game counselors, the company employs 200 customer service representatives who help 50,000 additional players weekly with the operation and repair of their systems, the location of the nearest retailers that carry Nintendo product and a variety of other requests. Nintendo also offers a hotline, where callers can hear game tips and Nintendo news in a weekly message from "Captain Nintendo." But to some 1.2 million enthusiasts, all this is just not enough to end their quest for Nintendo wisdom. To further immerse themselves in Nintendo culture, these die-hard Nintendo fans subscribe to NINTENDO POWER, Nintendo's own award-winning magazine.

"One of Nintendo's greatest strengths as the home video game leader is a company philosophy that puts the consumer first," comments Peter Main, vice president of marketing for Nintendo. "By staying in tune with what our customers are asking for, we can continue to provide the kind of quality product and service that have made Nintendo a national phenomenon," he adds.

Visitors Value Friendliness Of Texans, Says Survey

While it isn't advertised on state license plates, Texas friendliness does not go unnoticed by visitors to the Lone Star State.

"The Friendship State" may not be so far off after all," said J. Don Clark, director of the highway department's Travel and Information Division, after seeing results of the division's 1989 Auto Visitor Survey.

When visitors to the department's 12 Travel Information Centers were asked what they enjoyed about Texas, "friendliness" was the number-one answer, Clark noted. Although Texans rejected a proposal last summer to promote their friendly attitude on license plates, "they apparently lived the slogan, impressing their guests with good humor and helpfulness," Clark added.

Scenery, good highways, and Texas food all ranked high, too, among the 3-1/2 million visitors to the Travel Information Centers.

People who come to Texas are staying longer than their counterparts last year, the survey shows, with average stays up 6 percent over 1988. "This shows that the state continues to provide additional recreational, historical, and entertainment facilities that extend the visitors' Texas experience," Clark said.

Oklahoma continued to provide the most out-of-state visitors, with California remaining in second

place. Missouri jumped from sixth place in 1988 to third in 1989, replacing Louisiana, which dropped to fifth.

San Antonio is still the most-visited city by both short-term visitors and those who stay longer than 30 days. Short-term visitors identified Dallas and Houston as their next popular destinations, while the long-term visitors listed the winter havens of Brownsville and Harlingen.

The report lists the 30 top Texas destinations as well as statistics on visitor spending, miles driven, activities, purpose of trips, accommodations used, ages of visitors, and other data. In addition to the 1989 totals, figures for the winter, spring, summer and fall quarters are presented in the survey report.

MALIGNANT MELANOMA

Melanoma is a malignant, pigmented mole or tumor—a form of skin cancer, and the most deadly kind—27,000 new cases in the U.S. each year. Early treatment gives an 89% survival rate. Clues to distinguish melanoma:

- one half of the mole not matching the other half.
- ragged, notched or blurred edges.
- varying colors (shades of tan, brown and black).

Moles that bleed, form open sores, or suddenly change size or shape—see your doctor promptly.

Credit Repair

We live in a credit society. Offers for every kind of credit card and other consumer credit greet us on the television screen, on billboards and in magazines. Getting credit is easy, or so it seems. But it is just as easy to get into credit problems as it is to get a credit card. So, now consumers are being offered easy "credit repair."

But beware! Offers of credit repair are only money in the hands of those offering the service. It is nothing that you can't do for yourself.

What credit repairmen do is invoke federal legislation that allows consumers to protest items in their personal credit record at a credit bureau. A credit bureau must reverify the disputed item within a "reasonable" time or else delete it. The repair company floods the credit bureau with protest letters with the expectation that the bureau cannot respond to all of them in the time allowed. So your record will be temporarily clear.

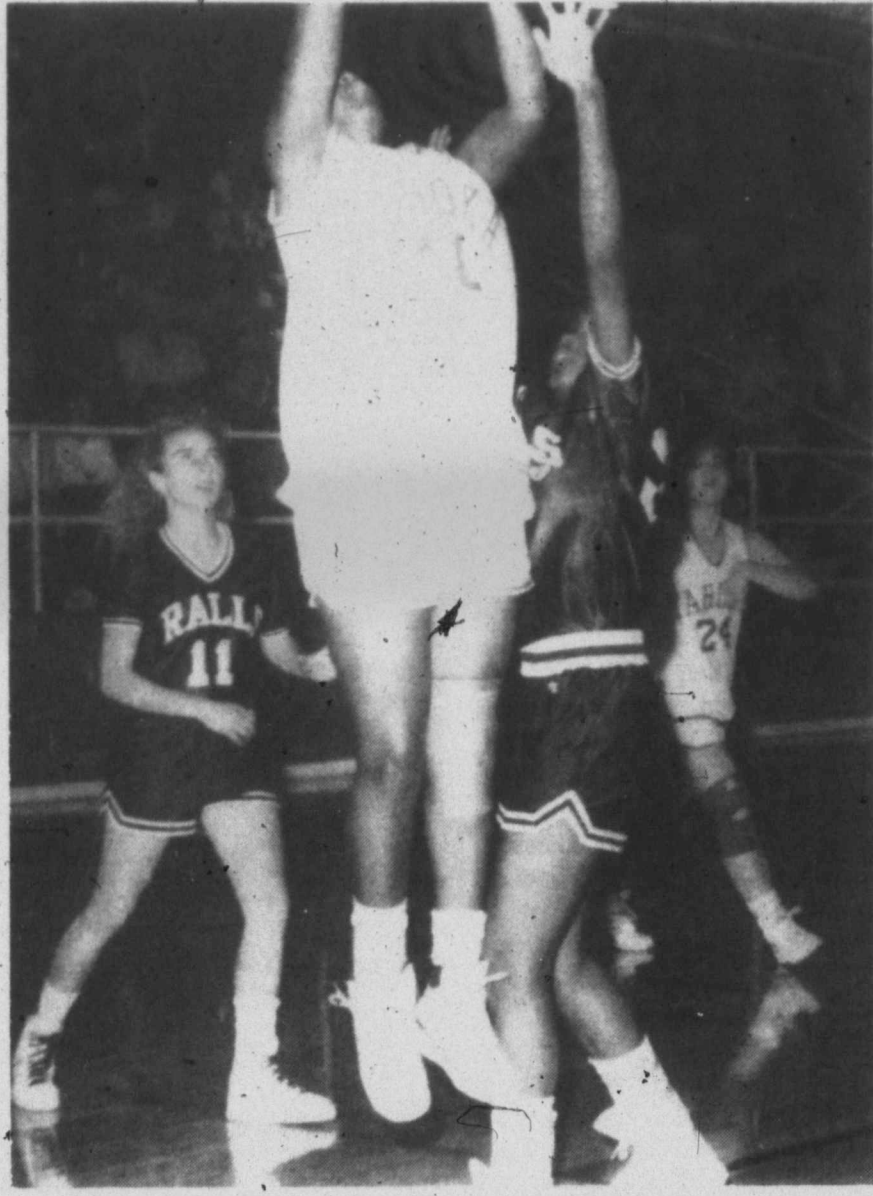

Once a creditor proves that your bill is correct, you will again have the delinquent item on your record. You will not get a refund from the credit repair company; it probably isn't even in business any more.

You can check your record yourself. Find out which credit bureau is used by the business where you plan to apply for credit. Contact the credit bureau to find out their procedure for obtaining a copy of your credit report. Some will only read you the record; others will provide you with a photocopy of the record. Some will only allow you to review the record at their office. You can get a free copy if you were denied credit in the past 30 days, or you may have to pay \$10 or more.

If you find an error and can prove that it is an error, put the complaint in writing to the credit bureau. The bureau must correct mistake at no charge.

Lynn Players Are Chosen All-District

Players from New Home and O'Donnell dominated the first team selections of all-district football players from their respective districts announced this week in the Lubbock Avalanche-Journal. Players from Wilson and Tahoka were named to second teams in their districts.

First team offense in District 4-A included these O'Donnell players: Center Raymond Zepeda, guard Mike Greenlee, tackle Brian James, quarterback Melvin Eaker, running back Jacob Lowe and kicker Chad Vaughn.

On the first team defense were Vaughn and Jerry Cagle, as linemen,

James at end, Lowe at linebacker and Eaker in the secondary. The second team offense included tight end Monte Garrett.

Six-Man District 3-A had Coby James of New Home as first team running back and also first team safety on defense. Raymon Correa was first team center, and Michael Caballero was on the first team as a cornerback.

The second team offense included New Home players Scott Fillingim at running back and Grady Thompson at end. Also on the second team as a running back was Cody Means of Wilson.

The second team defense included the Leopards' Lanny Zant at end, Correa at nose tackle and Fillingim at cornerback.

Tahoka players Trey Nance in the secondary and punter Albert Mendoza were chosen to the second team, defense, for the district 4-AA all-district team.

Absentee Voting Begins Jan. 2 For Water District Election

Absentee voting for Lynn County voters residing in District Director's Precinct One of the High Plains Underground Water Conservation District No. 1 begins Tuesday, Jan. 2, and will continue through Jan. 16. Registered voters may cast their absentee ballots for a Director and County Committee members prior to the Saturday, Jan. 20th election.

Absentee ballots may be cast during regular business hours at the New Home Gin in New Home, Texas. Diana Nettles is the election clerk.

James P. Mitchell of Wolforth is the incumbent Precinct One Director seeking re-election to a four-year term. District Director's Precinct One consists of Lubbock County and the portions of Crosby and Lynn Counties within the Water District service area.

The Board of Directors meet monthly to consider Water District business. They oversee all Water District activities, including legal, financial and business matters. Board members set long-range goals and direct staff activities through the Water District manager.

Members of the Water District's County Committees are elected from the County Commissioners' Precinct in which the voter lives. In Lynn County, Freddie Kieth of New Home will run for the County Committee member at large position.

Two County Committee members will be elected to represent each of County Commissioner's Precincts One and Four in Lynn County. Ronald Wyatt and Andy Fillingim are candidates to represent Precinct Four, while Keith Wied and John

Earl Fields have filed as candidates to represent Precinct One.

County Committees meet regularly to recommend approval for denial of applications for water well permits and agricultural water conservation equipment loans. Committee members help keep Directors advised on water-related needs of their county. Also, they serve as a local contact person for water conservation problems or opportunities in their community.

Candidates for a Water District Board member or County Committee member must be at least 18 years old, a Texas resident and a resident of the Precinct for which they are seeking office for at least six months.

For more election information, contact Becca Williams at the High Plains Water District, 2930 Avenue Q, Lubbock, Texas 79405 or call (806) 762-0181.

THEN-NOW!

The history of baths in this country is more than just a front page splash.

THEN: It was the American statesman Benjamin Franklin who may have begun the bath's ripple of popularity in this country. He brought a tub here from Europe that was called a slipper bath. It was shaped like a slipper and hid the bather's body from view.

NOW: Baths today can be a lot more comfortable. There is even a cordless appliance, manufactured by Dazey Corporation, that turns a bath into a surging hot tub whirlpool spa. Called the "ThermoSpa Whirlpool," it has 174 thermo-jets that massage, invigorate and renew. Its push button operation and ability to recharge overnight help make it something that would likely have delighted Benjamin Franklin.

SEEDS FROM THE SOWER
 Michael A. Guido
 Metter, Georgia

A doctor died who loved the Lord. His Christian wife framed one of the cards he used when he was called away. It read: "Gone Out - Back Soon."

You see, when a believer dies, his body goes to the grave, but angels carry his soul to heaven.

When the Lord returns, the bodies of all believers will rise to meet Him, and our bodies will be perfect in health and happiness. Then we'll live forever with the Lord without sin, sorrow and Satan.

For the believer it's not a hopeless end, but an endless hope. Do you believe?

CAR CARE ORNER

Simple Measures Can Prevent Problems

Automotive breakdowns and other problems often occur during cold weather. Alan Kulwicki, a native Wisconsin and a leading NASCAR Winston Cup stock car racer, offers these easy-to-follow suggestions for avoiding winter car headaches:

- Check the level of antifreeze coolant by looking at the radiator's plastic overflow reservoir every time you stop for gas. A 50-50 mixture of Zerex® antifreeze coolant and water guards against corrosion as well as freezing.

- Never drive with either the oil or transmission fluid low. Remember always to check the car's oil level with the engine off; then turn the engine on to see if the transmission fluid is at the full mark.

- Set aside a few minutes each week to check items like the battery, hoses, fan belts and tires, including the spare. Kulwicki believes every car should carry an emergency road kit that includes flares.

- Finally, make sure to wash down not just the outside of the car when it gets dirty, but also the undercarriage and fender wells. This helps to prevent corrosion caused by road salt.

International Mailing Tips

By Ann M.K. Robinson
Consumer Advocate
United States Postal Service
"Have you ever wondered how the U.S. Postal Service gets a letter or package delivered overseas? Actually, the Postal Service processes International Mail in the same manner as domestic mail up to the point of dispatch to the destination country. Once the mail arrives, the accepting postal administration is responsible for delivering the mail to the addressee."

While International Mail is certainly more complex than Domestic Mail, a brief review of services available for International Mail will help you better understand this class of mail and select the options that best suit your needs. Available services vary from country to country and the categories of International Mail may be different from what you are used to in the United States. To assist you, Publication 51, International Postal Rates and Fees, a handy, condensed reference on International Mail, is available at no charge at your local post office. If you mail large volumes of international mail, you can refer to the International Mail Manual, available for review at all larger post offices; or you may purchase it from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The subscription price is \$14.00 for two issues in the United States and \$17.50 for foreign addresses.

Proper addressing of international mail is very important. Some countries use postal codes similar to the American Zip Code system. These foreign postal codes, if improperly placed within an address, could cause confusion during mail processing, resulting in possible delay of the mail. You should, therefore, be sure that only the name of the country appears in capital letters, on the last line of the address. Also, the name of the country should never be abbreviated.

The address should be typed or legibly written with Roman letters and Arabic numbers. An address in a foreign language is permissible provided the names of the city, province, and country are also indicated in English. Below is an example of a correct foreign address, including proper positioning of the postal code.

Mr. Levin Steele
117 Anderson Drive
London WIP 6HQ
ENGLAND

are also prohibited in International Mail. Remember, however, that each country has its own regulations, as well as size and weight limits for the various classes of mail which may be more restrictive. It is also important to keep in mind that articles acceptable in one country may not be acceptable in another.

Don't forget about customs declarations—they must be attached to all parcel post articles, as well as letter packages, small packages, and dutiable printed matter. Some countries require multi-copy forms instead of single-copy.

Customers who have questions concerning International Mail should contact their local Postmaster for assistance.

Tahoka Care Center News

Each Christmas for the past three years, the employees have decorated a resident's door. We had each door judged and 1st place went to Room 22 occupied by Louise Shook and Vivian Riddle decorated by Mary Morin; 2nd place- Room 18 occupied by Juanita Chambers and Eunice Tolleson decorated by Gracie Ortiz; and 3rd place- Room 1 occupied by Leona Edwards and Idoma Chowning decorated by Julia Gonzales. Our annual resident's Christmas party was held on Dec. 19 at 6 p.m. Our residents had a great time because of the many family and friends who shared in this special moment with them. We had a great turnout. There was plenty of food for everyone. We sang Christmas carols and Santa came to visit the residents. We would like to thank our many friends who think of us and do for us.

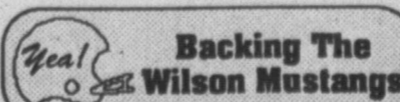

Fifth Grade News

The fifth grade class of Tahoka Elementary attended a Christmas Open House at the home of Nan Adams on Dec. 11. After refreshments and a tour of the home, a Christmas story was told by Mrs. Barry Pittman. Piano solos were played by Bonnie Stennett, Kathy Greer and Robin Martin. The group then sang Christmas carols. Assisting in service were: Jo Ella Rash, Doey Greer, Alicia Curry, Tommye Nance, Dixie Thomas, Kathy Hale and Connie Barnes.

Do-it-Yourselfers Get Big Hand From New Innovations

Even if you're only planning on a small job, you may now be getting a big hand on how easy and fast you do it thanks to a number of new product innovations that received national recognition at the recent National Hardware Show in Chicago. Among the time-saving products that received awards were a new drill bit that lets the user drill curved holes in wood and a wood boring bit that pulls itself into the work. Both were developed by Vermont American Tool Company. The drill bit with the ability to drill curved holes is aptly called the "Around the Corner Bit." The new bit is good for rewiring jobs as well as for remodeling, deck lighting installations, and other jobs where there's a need to eliminate sharp inside corners that obstruct passageways. The wood boring bit that pulls itself into the piece is called "Wood Eater." It has a self-feeding screw to do most of the work. Good news indeed for do-it-yourselfers who like their projects to go quickly and smoothly.

Beef Stew

Prepare this hearty stew as a quick warm-up to cold winter weather. It's low in fat and high in great taste!

- | | |
|--|--------------------------------------|
| 2 pounds lean beef chuck, cut into cubes | 1/2 tsp. freshly ground black pepper |
| 1/4 cup flour | 1/4 tsp. oregano |
| 2 tbsp. oil | 1/2 cup dry red wine |
| 1 cup onion, chopped | 1 cup water |
| 2 cloves garlic, minced | 2 cups tomatoes, chopped |
| 1/2 cup celery, diced | 4 medium potatoes, quartered |
| 1/4 cup parsley, chopped | 4 cups carrots, diced |
| 1/2 tsp. rosemary | |
| 1/4 tsp. thyme | |

Coat beef with flour and brown in oil in a large Dutch oven. Add onion and garlic and cook until vegetables are softened. Pour off fat. Add remaining ingredients (except tomatoes, potatoes and carrots); bring to a boil, cover and simmer for 1 hour. Add tomatoes, potatoes and carrots and simmer 45 minutes or until potatoes are tender. Makes 8 servings.

What Is A Town?

A town is a group of people.

- It is schools.*
- It is museums.*
- It is churches.*
- It is industry and jobs.*
- It is retail businesses.*

They all have to work together. All must have the support of the people. Or there is no town.

Give your local businessman a chance to work with you on your business. You shouldn't spend your hard earned money with him unless his selection is adequate and his price competitive. But give him the first opportunity to make the sale.

The local businessman pays the highest percentage of local taxes. He most often is the civic leader who dedicates his time and talents to his town. He is contacted first for contributions to charitable projects. Without his business firm, you have no town.

**Give the local businessman a fair shake...
...that's all he asks while he continues to work for our town.**
