Grand Jury Returns 20 Felony Indictments Here

Twenty persons were named in felony indictments returned Monday by a 106th District Court Grand Jury meeting in Tahoka, with four persons charged in connection with alleged sales of cocaine to undercover officers in the city in January and June of this year.

Indicted on charges of delivery of a controlled substance were Gary Lynn Newdiger, 31, of Post; Macario Alvarado Jr., 26; Joe Antu, 27; and Isidro M. Fuentes, 60, all of Tahoka.

Other indictments returned by the grand jury were as follows:

Rachelle Hazel Brock, Post, securing a document by deception, involving loans made by Wilson State Bank in 1988.

Robbie Dale Roberson, 29, of Tahoka, possession of a controlled substance, related to an incident on June 10.

Richard Rodriguez, 30, of Lubbock, burglary of the home of David Eaker, O'Donnell, on April 28.

Martin Lara Liendo, 30, of Tahoka, aggravated assault, an incident involving the alleged stabbing of Demencio DeLeon, 29, of Tahoka, on June 23.

W.J. Martin, 23, of Tahoka, attempted burglary of a Tahoka residence.

Mariaño Martinez, 32, attempted

murder, accused in connection with a machete attack on his brother at the family home near Wilson on Jan. 7.

Audrey Medel of Tahoka, forgery with intent to pass, accused of attempting to pass a forged check on the account of Sylvester Simms of Tahoka on March 31.

Lynn Edward Cook, 47, of Tahoka, theft over \$750, alleged to have occurred in Tahoka on Jan. '0.

Rosendo Flores, formerly of O'Donnell, unauthorized use of a motor vehicle, allegedly a 1980 Datsun owned by Diana Galvan of O'Donnell on March 13.

Kevin Lee Coats, 18, of Lubbock, burglary of a habitation, the home of Robert Nolte near Wilson on Jan. 31.

Steven Shell, 27, of Lubbock, criminal mischief, Shell was badly burned by electrical shock on April 27, allegedly while attempting to get copper wire from a Lyntegar Electric Co-Op substation south of Draw.

Ismael Lopez Campos, escape. Campos was a federal prisoner at Lynn County jail when he escaped Dec. 27, 1989, by taking a car from the Lynn County Pioneer Club.

Gabriel Armando Barraza, escape. Barraza escaped from the Lynn County jail through a kitchen window on April 15. Both Campos and Barraza were being held on drug-related charges; neither has been apprehended.

Martuel Faris Garcia, 29, of Tahoka, burglary, charged in connection with the theft and sale of two 30-gallon drums of Roundup chemical from a boxcar owned by Lester Adams of Tahoka, on July 16.

Edward R. Zavala of Tahoka,

theft over \$750, accused of purchasing Roundup chemical from Garcia.

Jimmy Ray Riojas, 24, of Wilson, burglary, accused of taking a quantity of hog feed from the Wilson High School ag farm.

Burglary, Thefts Are Investigated

A farm building near New Home was reported burglarized during the last week and officers at the Lynn County Sheriff's Dept. and Tahoka Police Dept. also investigated some new theft reports.

A building on the property of Grayam George about 2.5 miles southwest of New Home was reportedly burglarized on or about July 23. A list of stolen items was not immediately available.

Cal Huffaker reported that between July 7 and July 14 someone took a tool box from the back of his late model GMC pickup. Missing were hand tools and power tools, with the value of the stolen articles not listed.

Two juveniles, age 13 and 15 were handed over to juvenile authorities after Tahoka Police Dept. was advised the two had damaged a store sign hanging over an aisle at Thriftway Supermarket Tuesday.

Gary Warren of West Texas Industries reported to police Sunday that someone had stolen his 4-month-old male Rotweiler dog which had been chained up. A reward of \$75 was offered by Warren for return of the dog, described as blond with light brown on his face.

Sernaido (Cowboy) Hernandez reported to police Tuesday that someone took a Victor cutting torch valued at \$200 from outside his residence in the 1500-block of Ave. C.

Liquor violations kept jailers busy in Tahoka last week, as five of seven persons jailed during the week were held on liquor-related charges. One was held for driving while in-

toxicated, first offense; one for DWI second offense, one for DWI third offense, one for application to revoke probation on a DWI conviction, one for public intoxication, one for burglary of a building and one for disorderly conduct.

A WOMAN READER informed me that she definitely recognizes at least a half dozen different sounds made by her cat, that she can tell by the way the cat meows what the critter wants. She, of course, is very fond of her cat, as are most people who have them rubbing around the place. She can tell by the sound whether the cat is hungry, wants to go outside, would like to play with a spool, or whatever.

I told her the only sound I ever recognized from a cat was one which meant "Turn your back on me and I'll sink my claws into you." She said she also recognizes that sound.

Another conversation about cats developed (without my help, and mostly without my input) at the home of a relative the other day. This woman from Dallas told about how she started up her car one day and heard this terrible racket, from a cat which had been resting somewhere on the engine of the car. "I got out and looked, and there was this cat on the ground, but the rest of him was somewhere up in the engine," she said. At first she felt sorry for the cat, but not after she got a bill for \$47 damage to the engine (broken belt, and other damage).

One of the other people in the room asked if her insurance wouldn't cover the damage, and that's where I entered (and killed) the conversation with the remark that insurance wouldn't pay for such as that unless you have cat-astrophic coverage.

Mrs. Stephens is the former Connie Chambers. Grandparents are Mr. and Mrs. Jimmy N. Chambers of Tahoka and Mr. and Mrs. Russell Stephens of Dallas.

Bobby and Rosemary Gonzales announce the birth of their daughter, Jenyssa Michele, born Tuesday, July 17, 1990. She weighed 6 pounds 11 ounces and was 19 inches long. Grandparents are Pete and Angie

Gutierrez of Tahoka. Great-grandparents are Circa Perez of Pampa and Guadalupe Gutierrez of Tahoka.

June Accident Report Listed

Capt. L.A. Reinheart, District Supervisor of the Lubbock Highway Patrol District comprised of 21 counties said, "For the month of June, our troopers investigated two fatal accidents, 54 personal injury accidents, and 56 property damage accidents. There were two persons killed and 94 persons injured in these accidents.

Sgt. Lamar Beckworth of Brownfield stated, "In Lynn county, our troopers investigated no fatal accident, three personal injury accidents, and no property damage accidents in the month of June. Eight persons were injured in these accidents."

Tips on safeguarding picnic foods
Don't hold the mayo! Many people are uneasy about eating chicken salad, potato salad and similar dishes at summer picnics because they have heard that foods made with mayonnaise are the most likely to cause food poisoning. Scientist have shown that adding

ration, and this can contaminate them with bacteria.

When the pleasures of a leisurely picnic are spoiled by a bout of food poisoning, sick picnickers are often quick to blame the food. Seldom do they realize that the cause of sickness is more often the handling of the food rather than the food itself.

To play it safe follow these tips:
• Scrub hands before starting food preparation and between steps.

• After using knives and other utensils on raw meats, eggs, fish and poultry, clean thoroughly, especially before using on other foods. Failure to clean is one way to spread harmful bacteria.

• Thoroughly scrub surfaces after raw meats are cut of where raw meat juices have dripped.

• Use clean sponges, dish cloths and rubber gloves; over-used ones can spread germs.

• Refrigerate cooled foods such as chicken, potatoes and ham as soon as they stop steaming. Cooling foods to room temperature before refrigerating encourages bacterial growth. perishable foods may not be safe to eat if they have been held at room temperatures of 60 degrees Fahrenheit or higher for more than three of four hours.

• Hamburgers or other raw meat should go into the cooler, but keep them separate from other foods. Uncooked meats contain relatively large numbers of bacteria, some of which could be harmful. The common food poisoning types of bacteria are sensitive to heat, so cooking will kill them, making the meat safe to eat. These bacteria can cause problems, however, if they contaminate

other foods such as salads which don't receive further cooking before they are eaten.

• And don't hold the mayo. Add it to salad and sandwich mixtures during initial preparation.

• At picnics, keep food out of direct sun. To reduce traffic in and out of picnic hamper, pack food to be eaten first at the top of container.

• Don't be tempted to carry leftovers home. It is safer to discard perishables.

BREAST IMPLANTS

The Public Citizen Health Research group obtained FDA documents clearly demonstrating that silicone gel, currently being implanted in 130,000 women a year as breast implants, causes highly malignant cancers in 23% of test animals. One FDA memo states, "While there is no direct proof that silicone causes cancers in humans, there is considerable reason to suspect that it can do so."

1990 Property Tax Rates in Lynn County

This notice concerns 1990 property tax rates for Lynn County. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. Compare it to the tax rate the taxing unit proposes for this year. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

| | | |
|------------------------------|-------|----------------|
| Last year's tax rate: | | |
| Last year's operating taxes | | \$ 636,970 |
| + Last year's debt taxes | | \$ -0- |
| = Last year's total taxes | | \$ 636,970 |
| + Last year's tax base | | \$ 244,989,480 |
| = Last year's total tax rate | | \$.26 / \$100 |

| | | |
|---|-------|-------------------|
| This year's effective tax rate: | | |
| Last year's adjusted taxes | | \$ 634,856 |
| (after subtracting value of lost property) | | |
| + This year's adjusted tax base | | \$ 246,801,770 |
| (after subtracting value of new property) | | |
| = This year's effective tax rate | | \$.25723 / \$100 |
| x 1.03 | | |
| = Maximum rate unless unit publishes notices and holds hearings | | \$.26494 / \$100 |

| | | |
|--|-------|-------------------|
| This year's rollback tax rate: | | |
| Last year's adjusted operating taxes | | \$ 634,856 |
| (after subtracting taxes on lost property) | | |
| + This year's adjusted tax base | | \$ 246,801,770 |
| = This year's effective operating rate | | \$.25723 / \$100 |
| x 1.08 | | |
| = This year's maximum operating rate | | \$.27780 / \$100 |
| + This year's debt rate | | \$ -0 / \$100 |
| = This year's rollback rate | | \$.27780 / \$100 |

SCHEDULE A: Unencumbered Fund Balances

The following balances will probably be left in the unit's property tax accounts at the end of the fiscal year. These balances are not encumbered by a corresponding debt obligation.

| Type of Property Tax Fund | Balance |
|---------------------------|-----------|
| General Fund | \$124,048 |

This notice contains a summary of actual effective and rollback tax rate calculations. You can inspect a copy of the full calculations at Lynn County Appraisal District.

Hotline Started For Older Texans

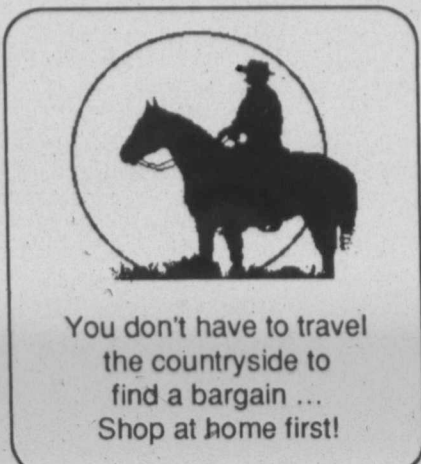

The Legal Hotline for Older Texans has started its second year of service. The Legal Hotline is a joint operation of the Legal Counsel for the Elderly/American Association of Retired Persons and the Texas Legal Services Center. The Legal Hotline for Older Texans has been developed in cooperation with the State Bar of Texas and the Texas Department on Aging. The Legal Hotline provides, free of charge, telephone advice and consultation on the legal questions of Texans 60 and older. In many types of matters, the Legal Hotline provides brochures and self-help materials.

The Legal Hotline was developed to expand availability of legal assis-

tance to senior citizens with limited income or with problems accessing legal services. If follow-up assistance is needed, the Legal Hotline refers the client to other service providers. (In case of referrals for legal services, there is a charge, unless the client's case can be handled by legal aid.)

In its first year, the Legal Hotline for Older Texans handled approximately 6,000 cases. Cases ranged from nursing home problems to probate questions, government benefits to consumer rights - a wide variety of cases receive the advice and consultation of the lawyers at the Legal Hotline for Older Texans.

The Legal Hotline for Older Texans provides services from Monday through Friday, 9:00 a.m. to 5:00 p.m. The toll-free telephone number is 1-800-622-2520.

Tahoka Woman Seeks Doctorate In New York

Upon graduating from Texas Tech University, Sharla Short-Russell applied for and was accepted to three doctoral programs at the Massachusetts Institute of Technology in Cambridge, Mass., the University of California at Berkeley and Rockefeller University in New York. This fall she has chosen to begin the doctoral program at Rockefeller to study with Professor Nam Chua, a molecular biologist.

Mrs. Short-Russell received her bachelor's degree in 1984 and master's in 1986 in plant molecular biology at Texas Tech, where Jerry Berlin, former chairman of the department of biological sciences, directed her thesis.

"I chose to come to Texas Tech because of its proximity to Tahoka (her hometown) and because of the environment of the classrooms," she said, adding that the classes provide students with opportunities for hands-on research experience.

The Tech graduate said she chose Rockefeller for the chance to work with Chua and for its laboratory rotation. Chua, a graduate of Harvard University in Cambridge, Mass., has taught at Rockefeller for 19 years.

Currently employed at Tufts University in Medford, Mass., Mrs. Short-Russell is researching the aging process. She said she plans to become a university professor and continue to do research.

She is the daughter of Linda Bach of Dallas and Harry Short of Tahoka.

Wood Carving Show Slated

The West Texas Wood Carving Assn. will have a show in Denver City Friday, Aug. 3, and Saturday, Aug 4, at the Community Building on 15th Street and North Ave. E.

Nationally recognized, professional wood carver, Dave Dunham of Cleburne, will judge the show.

Displays will be open to the public from 10 a.m. to 6 p.m. Friday and from 10 a.m. to 4 p.m. Saturday. There is no admission charge to the public and everyone is invited to browse and enjoy the fine art work exhibited. Some of the wood carvings will be for sale.

Conserve Water By Mulching

Add mulch to save water in gardens.

This one practice can separate the super gardener from an average one, particularly during dry periods.

"This may well be the most valuable cultural practice that one can do to help the vegetable garden and landscape," said Dr. Doug Welsh, horticulturist with the Texas Agricultural Extension Service.

He said a good mulch can reduce soil packing, blowing and washing, suppress weeds, keep the soil moist, regulate soil temperature, add organic matter and keep vegetable fruits, such as squash, off the ground and free of many diseases.

Welsh said mulches also have advantages in the landscape.

"They improve plant growth, enhance the appearance of the landscape and reduce maintenance," he said.

Bridge Winners July 17

T-Bar Country Club Tournament Results

The Black-eyed Susan Scramble Tournament was held July 17, at the T-Bar Country Club results are as follows:

Championship Flight: First, G.G. Fillingim and Lana Banks (70); second, Pat Bilbo and Lu Allen (71); third, Janis Palson and Robin Dowden (71).

First Flight: First, Jeanne McCord and Pat Barnett (78); second, Sue Cash and Sharon Morris (80); third, Rita Haney and Teddy Webster (81).

Second Flight: First, Angie Kieth and Sherri Stone (83); second, LaJuana Ashcraft and Phyllis Lay (84); third, Betty Anderson and Nancy Boudreau (89).

Longest Drive- Pat Bilbo; Longest-Putt- G.G. Fillingim; Closest to the Pin- Pat Bilbo.

With summer heat drying vegetable gardens and landscapes, the most important benefit of a mulch is to reduce evaporation from the soil surface.

Because of the reduced evaporation, the soil moisture level remains more constant, which promotes root growth.

Mulches also modify soil temperatures in home gardens. Summer mulches cool the soil and create a better environment for plant growth.

A thin layer of mulch reduces disease problems. And, since most weed seed require light to germinate, a thick layer of mulch will help shade them out and can reduce weed problems by 90 percent or more.

Fall Vegetables In Flower Beds
 Fresh vegetables are not out of the question, even if your planting space is limited to a few flower beds around your house.
 Many vegetables do well in flower beds and planter boxes with only a little extra care, said Brett Cypert, county agent with Texas

Agricultural Extension Service.
 Leaf lettuce makes an ideal border plant and it will grow in many areas that receive only partial sunlight. Harvest time for most varieties is 45 to 60 days after planting.
 The red-leaf variety, Ruby, not only provides food for the table, but also adds color to your fall flower bed.
 Another flower bed vegetable, onions, also does well with limited sunlight. This also applies for chives, leeks, and garlic. Parsley is another good border planting fall crop.

For flower beds that receive five to six hours of sun a day, broccoli, cabbage, spinach, beets and carrots will do exceptionally well, the Extension agent said.
 Depending on your location in Texas, harvest may continue through the fall and well into the winter.
 If your beds or boxes receive eight hours or more of sun, tomatoes, eggplants and peppers are a good fall crop, Cypert said.
 There are some additional considerations for fall vegetables planted in flower beds. You should

plant cold-susceptible crops on the south side of your home for added protection.
 Also, water the plants regularly to keep them out of stress, especially during the late summer and fall as the crops near maturity.
 Small amounts of fertilizer around the vegetable plants during the season will help produce high yields, as well as disease and insect control measures.

X-Rays: The Inside Story

X-rays taken in space will let doctors on earth diagnose astronauts working on the Space Station.

Although almost everyone has several X-rays taken in a lifetime, few know the inside story of this fascinating invention.
 THEN: X-rays were discovered in 1895 by William K. Roentgen, a German physicist. Roentgen called them X-rays because at first he did not understand what they were. X is a scientific symbol for the unknown. Scientists now know X-rays are a kind of electromagnetic radiation which also includes visible lights, radio waves and gamma rays.
 Within a few months after Roentgen's discovery, doctors were using X-rays to examine broken bones. In 1896, Thomas Edison improved the fluoroscope so it could be used to view X-ray images. More efficient X-ray tubes were invented over the years. In the 1970s, radiologists began to use new processes for recording X-ray pictures, including CAT scanning.
 NOW: New X-ray technology developed here on earth can bring out-of-this-world benefits to the U.S. space program. The Federal Systems Division of Eastman Kodak Company has been awarded a \$3 million contract to develop a proto-

type medical X-ray imaging system to be used aboard the United States' Space Station scheduled for operation in 1995.
 This Diagnostic Radiographic Imaging System (DRIS), compacts an entire X-ray system into a space of about 5.5 cubic feet and weighs less than 200 pounds. The equipment will let doctors on the ground assess disease or injuries that might occur to those working in space. It could prevent early termination of the mission or a costly rescue mission.

You can talk to your Bluebonnet banker across a desk.
Or, you can just holler over the fence.

Our folks do things a little differently at Bluebonnet Savings Bank. Because we're more than just your bankers, we're your neighbors.
 We grew up in west Texas, we're raising our kids here, and we have the same stake in its growth that you do. So our customers are not just account numbers to us--they're our friends.
 If you are new to Tahoka, or if you're just ready for a more neighborly way to bank, stop by the Bluebonnet Savings Bank for a cup of coffee.
 Of course, if you prefer, you could just go out to the backyard and give us a shout...

1990 Property Tax Rates in Tahoka ISD

This notice concerns 1990 property tax rates for Tahoka ISD. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. Compare it to the tax rate the taxing unit proposes for this year. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Workshop For Caregivers Of Young Children Set

A special six-hour workshop for teachers and caregivers of very young children will be presented Saturday, July 28, by Wayland Baptist University's Lifelong Learning Center.

The workshop will feature the husband-wife team of Rhonnie and Alfred Tomkins, who have presented many similar programs in the Dallas/Fort Worth area. Classes are sched-

uled from 8 a.m. to 3 p.m. in the Learning Resource Room of Moody Science Building on the Wayland campus.

The program will include presentation of ideas for approximately 30 "Fabulous Folder Games" involving eye/hand skills, math, language arts, two person games and tasks for the very young through second grade.

The Tomkins will also discuss "Understanding Attention Deficit Disorder and Hyper-Activity," answering many of the most frequently-asked questions about hyperactive/A.D.D. children. Simple procedures that have been found helpful in dealing with this type of child will be examined.

The final session of the day, "The Magical World of Music," will show the important role of music, singing, games and rhythm in curriculum

THE WINNERS—Lana Banks, left, and G.G. Fillingim of New Home, were the winners of the T-Bar Country Club's "Blackeyed Susan Scramble" last week, shooting a team total of 70 to take the championship flight. Holding the flag for them here is Jeff Martin.
