# Bulldogs Zap Spur With Long TD Plays

By DALTON WOOD

It's been four years since Tahoka opened a football season with a win, but the 1992 Bulldogs started on the right path at home Friday night as Tahoka struck with a couple of longrange scoring plays to come from behind in the last quarter and beat Spur 20-9.

One game does not a season make, as Confucius might say (and a couple of recently-departed THS head coaches who won just four games in the last three years probably would agree). But it is nevertheless a great start for this year's team and for new head coach Chris Wigington, whose offense never had any consistent success Friday, but did come up with a couple of lightning bolts which were enough to win. And the defense played well, especially in the third quarter which was all played around the Tahoka 10-yard line, and in the fourth when Spur constantly threatened.

This week the Bulldogs are at home again, hosting Class AAA Roosevelt, which lost its opener 37-0 to another District 4-AA team, Idalou. Tahoka's last winning season was

in 1981, but hopes that this year's team will have more wins than losses are higher after the good showing Friday night.

fensive struggle, and ended with Tahoka leading 6-0 just as Spur's Roy Sanchez broke for 25 yards to the Tahoka 22.

Cory Don Whitley intercepted a Spur pass and brought it back to the Tahoka 19 to stop that Spur drive. But later in the period a fourth-down punt snap for Tahoka was fumbled and Spur set up again at the Tahoka 20. Sanchez ran 15 to the 5 for first and goal, but on the next play, Bulldog defensive end Jeff Long flattened a runner for a loss of 7 to the 12. This set up a missed field goal try by Spur and Tahoka had held again. Spur came right back and just before halftime Sanchez scored from the 3. A kick was no good, and it was 6-6 at the half.

In the third Spur threatened repeatedly, and gained many yards rushing from midfield to inside the Tahoka 20, but each time the Bulldog defense did the job of stopping the visiting Dogs when they had to. Once Spur had first and goal at the 8, but the defense, led by a big hit on Sanchez from Jace Copeland, led to another field goal try. This one hit the right upright goal post, then struck the crossbar, but fell back and was no good. Later in the quarter Spur had a

game, Tahoka trailed 9-6.

QB Solomon pitched the ball back to Fullback René Luna, who threw a strike to Whitley, who had got behind the coverage, and he made a fingertip catch around the 25 and then outran everybody to the end zone. The 47yard pass play generated the most noise in the Tahoka stands since 1981, and the Bulldog coaches threw clipboards, leaped into the air and generally appeared rather pleased. Luna kicked the point and Tahoka led 13-0

Spur came roaring back downfield, but Moore recovered a fumble at the Tahoka 30 with 1:52 left. A couple of plays later, Moore broke free through the middle and then raced 60 yards for the clinching score. Luna's kick put Tahoka up 20-9 with 1:30 left. Spur tried to come back with passes, but big Tahoka tackle Johnny Rodriquez really mashed quarterback Eric Fine for an 8-yard loss, and then Whitley got his second interception of the night, returning it 35 yards to the Spur 18, from where Tahoka killed the clock.

from Jace Copeland, led to another field goal try. This one hit the right upright goal post, then struck the crossbar, but fell back and was no good. Later in the quarter Spur had a fourth and one at the Tahoka 3, but was stopped, with a good hit by Tackle John Quintanilla leading the defense. Tahoka was still on the ropes early in the fourth, score still 6-6, when

SOMEBODY LOST THE BALL-Tahoka's Brian Moore and an unidentified Spur player collided here and the ball comes loose from whichever one was carrying it. Moore did carry it well in the game, gaining 100 yards rushing and returning the opening kickoff 80 yards for a touchdown. No. 34 for Spur is René Pesina. (LYNN COUNTY NEWS PHOTO by Gary Jones)

THE PUBLISHERS of a book titled *Boost Your* Brainpower have sent some material to my wife trying to get her to order a copy. It was addressed to her, not to me, so they must figure that I am already one of the brainiest people around or that there's really no chance that I'll ever be any smarter than I am now.

According to the letter/teaser, you can find out on page 41 what foods you can eat to keep your mind and memory razor-sharp. They gave some of them away in the letter, mentioning bread, pasta and potatoes and a couple of other things which I have already forgotten.

A drawing on the outside of one of the envelopes, however, suggests that other things one should eat include bananas, carrots, milk and dead chickens.

The publishers say you can find out how to "melt away extra pounds with your mind. . . and keep the weight off with the simple 'no diet' approach on page 52."

They also say that on page 42 you will learn "why you should never drink coffee when you do your taxes." Oh, well, whiskey probably is better for doing taxes anyway. "Think like a 30-year-old when you're 70!" says the letter, adding that on page 36 you will discover that mental aging is only in your mind.

It also says that with this book you can think yourself well, healing with your mind things like high blood pressure, headaches, disease, infections and pain, starting on page 403.

There's nothing wrong with my brain. Despite all their efforts to hide the price of the book in eight pages of letter and four separate bonus brochures and such, I finally saw the price listed at \$8.99 a month for three months. In my head I estimated that to be about \$27.

I didn't order one, but I'm thinking about sending them \$3 or so and requesting that they just mail me pages 41 and 52.

## Tahoka Man Dies After Electrocution

Jimmy Dunn, 29, of Tahoka was killed Friday, Sept. 4, 1992 after being electrocuted while working at Amoco Production Co.'s North Prentice Field in northwest Terry County.

Dunn was taken to Methodist Hospital in Lubbock via helicopter after the 10:10 a.m. accident. He was pronounced dead at the hospital, officials said.

Deputy Tony Serbantez, who responded to the initial report of the accident, said Dunn apparently had been helping lift power lines over a tank battery when the accident occurred.

Dunn worked as an electrician for Don Robertson Electric Co., said an employee of the company.

Terry County Sheriff Jerry Johnson said the accident, for which he had few details, is being investigated by the federal Occupational Safety and Health Administration.

Funeral services for Dunn were held at 2 p.m. Sunday, Sept. 6 in Tahoka's First United Methodist Church with the Rev. Marvin Gregory, pastor, officiating.

Burial was in Nevels Cemetery in Tahoka under direction of White Funeral Home.

He was born April 9, 1963 in Lubbock. He worked for Don Robertson Electric Co. in Brownfield Anyone who came late Friday night missed the longest play of the game, as Tahoka's Wes Solomon took the kickoff, handed it off to Brian Moore around the 20, and Moore took it all the way for a Tahoka touchdown, twice shaking loose from tacklers who caught up with him around midfield. Moore was stopped short on a running try for two points, and Tahoka led 6-0 with just 16 seconds off the clock.

The rest of the quarter was a de-

## Youngster Wins First Prize In Football Contest

Elementary student Blandon Hancock won first prize of \$10 in the first football contest of the season in *The Lynn County News* last week, missing just four of the 12 games.

Actually five other contestants also missed just four games, but Blandon guessed closest to the tiebreaker score between Dallas and Washington.

Had he also guessed one of the three secret sponsors whose names were drawn, he would have won \$20. The secret sponsors were Furniture Olé, Witt Butane and Dixie Dog Drive-In.

Others who missed just four, but finished just out of the money were David Chapa, Rebekah Curry, Mike Rivas/Jabo Chancy, Jeremy Vega and Monty Hale.

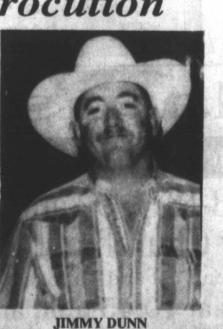

Another contest appears in this week's issue of the newspaper. Entries should be mailed or brought to *The Lynn County News* by 4 p.m. Friday.

Baptist Church of Tahoka were in "school" Tuesday, remembering their early school days, even to bringing their lunches in paper sacks and buckets. The group put on a skit about "the old days of school" during their noon luncheon in the fellowship hall of the First Baptist Church.

> The teacher for the skit was Wilda Gray who had taught school many years. The teacher rang the bell and the children took their seats. They were ready to sing "Good Morning to You." Then they gave the Pledge of Allegiance to the national flag, led by Betty Burdett. After the invocation led by Bro. Jerry Becknal the students ate their sack lunches.

The teacher rang the bell and classes began. She called the Blue Bird group - reading from books that dated from 1916 to 1930. The sixth

grade girls came and gave their favorite poems to the class. During recess the group played "Farmer in the Dell."

> The ringing bell brought the pupils in for more classwork. Arithmetic was the first class followed by a spelling match, boys against the girls.

School closed with the group singing "School Days."

All former school teachers were recognized at the meeting.

## **ROGER MILLER Miller Named President-Elect**

**Of NCRA** 

Roger W. Miller of El Paso, Texas, was named president-elect of the 30,000 member National Court Reporters Association (NCRA) at the organization's 91st annual convention in Chicago. He will succeed Judith H. Brentano of Atlanta, Georgia, as president at NCRA's 1993 convention in San Francisco. Miller, who served as Vice President for the court reporters during the past year, began his federal officialship at age 19, making him one of the youngest court reporters ever appointed. He served as a federal court reporter until 1987 when he left to start his own freelance agency.

He is the son of Mr. and Mrs. Jack Miller of Tahoka, and a graduate of Tahoka High School.

"The experience and computerized technology of the reporting profession will continue to aid the judicial community as it prepares to meet the requirements of the Americans with Disabilities Act," said Miller, "Plans are already underway for a Total Access Courtroom, which will allow the deaf, blind and physically disabled to fully participate in the judicial process."

A five-time winner of the Texas Court Reporters Association's speed contest, Miller has also qualified and won second place honors in the NCRA speed contest. Both test speed and accuracy skills: court reporters take down literacy, legal opinion and Q & A sections as they are read at an exceptionally fast rate.

Miller sat on the NCRA Board of Directors from 1987-90, chaired the 1989 national convention and has served on various NCRA committees. He currently serves on two NCRA task forces and several educational and professional advisory boards. In addition, the Stenograph Institute of Texas annually awards a scholarship in his name.

#### Long-Term Care Insurance **Differs Between Policies**

Submitted by Carolyn J. Klaus Traditionally, most brokers will present to their clients a long-term health insurance policy that will cover them against the risks of extended health care costs. However, the longterm care health policy does not contain any benefits if you are ever forced to stop paying premiums for your policy.

The National Association of Insurance Commissioners (NAIC), which recommend national policy to state insurance regulators, is moving towards requiring all long-term care policies to provide what are called 'nonforfeiture benefits." This would mean if you stop making premium payments (possibly due to an increase in rates that make the policy unaffordable), then nonforfeiture ben-

#### **Leopards Drop Tilt To Borden County**

New Home outscored Borden County 19-7 in the last half of the first game of the season at Gail last Friday, but this wasn't enough to overcome a 22-0 first quarter lead by the BC Coyotes, and the home team won 43-30.

efits provide you with some remaining value. You are not left emptyhanded --- after years of expensive premium payments.

The exact form of nonforfeiture benefits has yet to be determined by the NAIC. Although the NAIC has a goal to take final regulatory action by December 1992, it may not meet that goal. However, those working closely with the NAIC feel it's a certainty that future long-term care policies will eventually be required to provide nonforfeiture benefits.

Fortunately, some companies have developed long-term care insurance products with generous nonforfeiture benefits and these produces are available for sale today. Some of these produces are available on a single-premium basis and guarantee that your initial single premium can never be "forfeited." Because these products use a life insurance policy as a means to fund for longterm care, there are other advantages as well.

For example, most life/long-term care products provide nursing home coverage for all levels of care (skilled, intermediate, and custodial) without requiring prior hospitalization. Benefits are paid on a monthly basis and increase as the value of the life insurance increases. In addition to longterm care coverage, any remainin life insurance benefits at death will pass income tax-free to the name heirs. Some policies offer exceptiona liquidity features by offering free partial withdrawals and low-cos loans. Naturally, any withdrawals of loans taken will reduce the total ben cfits remaining for long-term care.

These are insurance products an should not be used for short-tern investment. The first year surrende charges for single premium product can be 12 percent or more, dependin upon issue age and product. Surrer der charges may be applied to an withdrawals of premium or interest during the surrender periods. Also, these long-term care products are often purchased by simply repositioning established funds. By doing a simple tax-free exchange of IRA funds, you can acquire a long-term care product that offers the safety df nonforfeiture benefits.

A final benefit of life/long-term care policies could well provide your money with tax-deferred growth at net interest rates in excess of CD\$, money markets, or other non-insurance accounts.

For information on these and other. insurance products, contact your agent or broker. If he/she doesn't offer a life/long-term care product, shop around, ask questions, and be an informed buyer.

Southwestern Bell Telephone Company has asked the Public Utility Commission of Texas (PUC) for approval to offer new optional call management services called Caller Identification Service (Caller ID) and Anonymous Call Rejection (ACR).

Caller ID is a new optional phone service which allows subscribers to see the phone number and/or name of most local calls before they answer the phone. Caller ID also allows the recording of the date, time, name and/or phone number of calls. Currently, Caller ID would work only on most local calls, not long distance calls. It would also require that a separate display unit be connected to the telephone. These units that attach to the telephone will be available from various retail vendors, including Southwestern Bell, at a cost starting at approximately \$50.

Southwestern Bell is also proposing that all customers be able to "block," or stop their name/number from being transmitted and displayed on a Caller ID device, free of charge. You would have this option of "blocking" your name/number on each call free of charge. There would be no need to subscribe to this service. All customers would have this capability when Caller ID is introduced in their area.

If you want to block your name or number, you need only press 67 on your touch-tone pad (or dial 1167 from a rotary phone) before dialing the telephone number. The person you're calling would see displayed a message such as "private" or "anonymous" on their Caller ID display unit.

Southwestern Bell also proposes that qualified domestic violence and law enforcement groups have the option of free per-line blocking, or free per-call blocking.

Anonymous Call Rejection (ACR or "block the blocker") allows subscribers to automatically reject all calls that have been marked anonymous, or "blocked" by the person calling. It is not necessar to subscribe to Caller ID Name/Number to subscribe to ACR. With ACR, your telephone will not ring if the person calling you has "blocked" his/her name or number. The person calling whose identification is blocked will receive a message to hang up and call back with caller identification unblocked. Following are the proposed monthly rates for Caller ID and ACR.

Proposed Rates (monthly)*	Residence	Business
Calling Number only	\$6.50	\$ 8.50
Calling Name only	\$6.50	\$ 8.50
Calling Name & Number	\$8.00	\$12.00
Anonymous Call Rejection	\$3/\$1**	\$3/\$1**
and the second		CONCERNMENT OF STREET,

\* These rates are in addition to the initial installation charges and monthly basic service rate. For residence customers, installation charges are \$2.70 per feature, with a maximum charge of \$5.40. For business customers, the charges are \$5.40 per feature, with a maximum charge of \$10.75.

\*\* Anonymous Call Rejection is \$3 per month if purchased without Caller ID and is \$1 per month when purchased with Caller ID Name or Number

This proceeding has been designated Docket No. 11362, and a hearing on the merits has been scheduled for November 16, 1992. The PUC has jurisdiction to consider this matter pursuant to Sections 16, 18, 37 and 38 of the Public Utility Regulatory Act (PURA). This application was filed pursuant to the provisions of the PUC's Substantive Rule 23.24. Among the issues that will be addressed in this proceeding is the legality of the Caller ID device and service under Texas wiretap laws.

Persons who wish to intervene or otherwise participate in these proceedings should notify the PUC as soon as possible. The deadline to intervene is October 26, 1992. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. NATIONAL AWARD-Mrs. Nedra Young of Tahoka received the National Award for Community Service during the National Convention of ASCS office employes at Colorado Springs, Colo. In addition to a plaque, she received a bouquet of roses from her co-workers in Lynn County.

## **Nedra Young Gets National Award At ASCS Convention In Colorado**

Nedra Young recently received a National Award for Community Service during the National Convention of ASCS Office Employees at Colorado Springs, Colorado. She was recognized at the Texas State Convention in El Paso in late July.

"Volunteerism is a word that is associated with Nedra's life," said an ASCS representative. "She has been very active in the First United Methodist Church, serving on the Administrative Board as a member and also as a Member-at-Large, member of the Finance Committee, Pastor-Parish Relations Committee, Wesleyan Circle where she is currently Past-President, Handbell Choir, and has been a Sunday School teacher for many years. She and her husband, Joe, have served as Communion Stewards for the past two years."

Mrs. Young has been involved in the public school system. She was a member of the PTA (Parent-Teacher Association) and served as a PTA delegate to area and state meetings. She has been Booster Club Secre- , she was recognized.

tary, a member of Band Parents for seven years, and served as Secretary-Treasurer and was also President of Band Booster Club. Nedra also served as President of her high school exstudent association for two years. Nedra served six years on the Tahoka, School Board. She also served as an adult leader in 4-H.

This nominee has also worked with the American Heart Association, American Cancer Society, and a Volunteer for Tahoka Emergency Medical Services.

She has worked in the Lynn County ASCS Office for 22 years and is presently the Administrative and Cotton Price Support Assistant. Nedra and her husband, Joe, have two sons. Timothy is a student at Texas A&M University and Thomas practices law in Kansas.

Although none of her co-workers in Lynn County were able to attend the convention, a dozen red roses were presented on their behalf when

#### **Eagles Fall 26-18 In Opening Game**

The O'Donnell Eagles took a 12-0 lead in the first quarter of the opening game against the visiting Stanton Buffaloes last Friday, but Stanton came back to win 26-18.

The Eagles' Ernie Cruz scored on a 6-yard run in the first, and also in the first period passed 28 yards to tight end Kevin Ortiz for a touchdown. The same combination clicked for a 9-yard TD pass just before the game ended.

Stanton came back to lead 14-12 at halftime, and the third period was scoreless. Stanton's Ricky Lucas scored on runs of 34 and 69 yards in the game and gained 208 yards.

This week the Eagles play Grandfalls-Royalty at Odessa's Ratliff Stadium.

In the past psychiatric help was considered only as a last resort. People avoided going to or taking relatives to a psychiatrist, even when it was evident that treatment was needed. They would even disregard the suggestions of their family physicians. There was a feeling of shame.

This has all changed. Today, with public awareness of the problems of mental health and with the spectacular

people are no longer afraid to consult a physician. They realize that there is hope. We stock these new medicines as soon as they are available for prescription use.

## Additional \$755 Million For **Disaster Assistance Available**

In Lubbock, Sept. 2, President George Bush announced an additional \$755 million in emergency funds for crop losses incurred in 1990, 1991, and 1992.

This is in addition to the \$955 million disaster assistance for 1990-91 crops announced by Jerry D. Harris, Chairman of the Texas State ASC Committee, Jan. 2. The application period for disaster claims on fallseeded program crops planted in 1991 and harvested in 1992 will begin Sept. 8 and end Oct. 2, Harris said.

The application period for producers with losses on other 1992 crops, and for producers with losses from 1990 or 1991 crops who did not previously receive disaster payments for those losses, will begin on Oct. 13 and end Feb. 12, 1993.

"Disaster assistance is available on a per-farm basis for any two years of 1990, 1991, or 1992," Harris said. "The original program provided \$955 million for either 1990 or 1991. Now, relief will also be provided for fallseeded program crops planted in 1991 for harvest in 1992.

"Producers will be eligible to apply for assistance in 1990; 1991, or 1992 crop losses; however, if producers received assistance for any of those years they may not receive further assistance for that crop year. Producers who receive payments for fall-seeded program crops will only be eligible for assistance for 1992 crop losses."

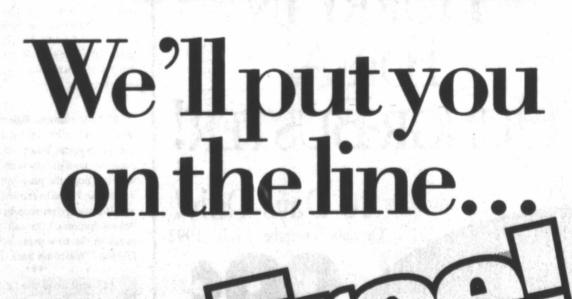

Producers with qualifying gross revenues of less than \$2 million per year may file claims for losses of participating and nonparticipating program and nonprogram crops.

"Producers with crop insurance must have had losses greater than 35 percent," Harris said. "Producers without crop insurance must have had losses greater than 40 percent. Producers with 1992 crop losses are required, under certain conditions, to

to file for assistance should begin to assemble their records now, so they will be ready when the official application period opens and they should contact their county Agricultural Sta-

#### **CREATION EVIDENCE GROWS**

Atheists and believers in God have had an ongoing debate for the past 50 years about what the newest discoveries in astronomy mean to the question of how matter came into existence.

When Hubble discovered that the galaxies are moving away from each other at increasing speeds as one moves further out into space, it became obvious that the cosmos originated from a single point. Ultimately this led to several cosmologies including the big bang theory. Most atheists dislike the big bang theory because the question of what blew up is not addressed, implying creation. The last gasp of atheists in this area has been to suggest an oscillating universe.

The idea is that there might be enough mass in the cosmos to stop the

Wilson students will be having their annual session with the photographer on Sept. 16. Students are asked to wear bright colors for this day. There will be an envelope sent home with the students prior to the day of picture taking which will detail the various packages of pictures available and the cost involved. These photos are required to be paid for in advance, so be suer to review the information sent home and then follow the directions.

Wilson ISD will hold an all school open house on Monday, Sept. 14. This open house will be held along with the first meeting of the elementary P.T.O. group. The elementary building will be open from 6:30 p.m. until 7 p.m. At this time all parents of elementary students are invited to meet with and talk to their children's teachers. Then at 7 p.m. the elementary P.T.O. will meet in the high school auditorium for their first meeting of the year. In addition to the meeting, the P.T.O. will be accepting all the new members who would like to join. The dues for P.T.O. are \$1 per member per year.

At 7:30 p.m. the P.T.O. will adjourn and then the high school building will be open for the parents to visit with the high school teachers and discuss whatever needs to be discussed. At this time, all parents and visitors are invited to inspect all the cleaning, repairs, and remodeling, and painting that went on this summer in the high school and jr. high buildings. There has been a major face-lift done and the improvements are very noticeable.

The City Council of Wilson will meet in regular session on Monday, Sept. 14 at the regular time. The agenda is routine except that the auditor of the city's books will present his annual report.

#### Wilson Outscored **By Wellman Cats**

The Wilson Mustangs opened the season at home Friday night and gave Wellman a tough evening, but lost a 42-32 shootout to the visiting Wildcats

The first quarter actually did the Mustangs in, as they trailed 24-6 after the first. But with Albert Riojas scoring three touchdown's and rushing for 179 yards, Wilson came back to make an exciting game of it, and even led 32-30 at one point in the fourth quarter. Francisco Franco scored twice for the visitors in the fourth to kill Wilson's hopes.

Wilson's other scores were on a pass from Albert Vasquez to Adam Castillo and another pass from Vasquez to Robert Guzman.

expansion of the galaxies and draw them all back to a central point from which the big bang would happen all over again. By such a process the cosmos is thought to oscillate forever. Since the amount of matter needed to stop the expansion of the galaxies has not been observed in the cosmos, it has been proposed that it is cold dark matter that does not give off any visible radiation. All kinds of theories have been advanced to suggest how such matter could have been produced in the early history of the cosmos.

In a report from Scientific American, Russian physicist, Anddrei Linde, said,"God could not be a physicist, because nobody who knows physics would have tried to create the universe. There are too many problems."

The evidence that the creation process is not a process indigenous to our three-dimensional world of science continues to grow. The most satisfying explanation for most of us continues to be the best - "In the beginning, God created the heaven and the earth." ADVERTISEMENT

Gary and Debra Moore and family of Wilson spent time at White River this

weekend for a family get-together with Debra's grandmother. St. John Lutheran Church will be holding "Rally Sunday" this Sunday, Sept.

13. This event will celebrate the beginning of a new Sunday school year and will involve a pot-luck lunch after church.

Be sure and remember the need for childcare mentioned last week. If you have any ideas be sure and call Rev. Leslie Gregory at 628-6276.

The Wilson Mustangs varsity football team began their season with a nondistrict game against the Wellman Wildcats last Friday at Mustang Stadium. After a hard fought see-saw game the Wildcats pulled out a real squeaker that could have gone either way. The Wildcats won 42-32, which had seen the Mustangs overcome an 11 point deficit, and take the lead, only to see the Wildcats claw out a couple of touchdowns to retake the lead and the game.

It really sounded like the "Good Old Days" last Friday night at the game when the melodious voice of Floyd Heck boomed out of the speaker system. Floyd, who had done the play-by-play for more years than I care to remember, came out of self-imposed retirement (maybe it was Arlena imposed), to call the game and break in the new press box in a proper fashion. "Welcome back, Floyd." \*\*\*

As I look over the fans at the game Friday night, I saw a smiling face shining out of a blue pickup. The Purple Pixie had returned. Janessa gives us all a lift with her big smile and determination.

#### Wilson ISD **Expected To Keep** Same Tax Rate

Wilson ISD Board of Trustees will meet in regular session tonight (Thursday), and are expected to vote on the local district tax rate.

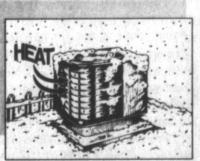

The superintendent's recommendation to the board is to keep the rate at 45 cents per \$100 valuation for the '92-'93 school year, the same rate as last year.

#### it to heat and cool your home naturally.

he Dual Fuel Heat Pump uses existing heat to keep your home comfortable...naturally. Because it doesn't have to create heat, it's very efficient. For each unit of energy it uses, the Dual Fuel Heat Pump creates two or three units of heat.

**Dual Fuel Heat Pump owners** say it costs them less to operate than other systems. And, because it's electric, the Dual Fuel Heat Pump is cleaner.

There is heat in the air on the coldest days. The heat pump captures it to warm your home.

In summer, it becomes a high efficiency air conditioner. During hot weather, the heat pump captures the heat inside the home and takes it outside.

## **Public Notice**

Southwestern Bell Telephone Company, in accordance with the rules of the Public Utility Commission of Texas (PUC), hereby gives notice of the Company's intent to implement a new schedule of telephone rates in Texas for optional Custom Calling Services and Touch-tone service, effective March 15, 1993, unless otherwise determined by the PUC.

These proposed rates will not increase or decrease the Company's overall revenues: the net effect will be neutral to the Company's annual revenues

The Company proposes to decrease the rates for Touch-tone service for residential customers from \$1.00 to 68 cents, and also to reduce the Touch-tone rates for business customers from \$1.75 to \$1.70. In addition, the Touch-tone rates for business PBX trunks will be reduced from \$3.15 to \$2.18.

This proposal to decrease the rates for Touch-tone service does not change the commitment that the Company made in the Docket No. 8585 Stipulation to reduce the rates for Touch-tone service in 1993.

The Custom Calling Services affected by the Company's application are option-al telephone service arrangements that provide the following features: Call Waiting, Call Forwarding, Three Way Calling, Speed Calling-8 and Speed Calling-30. Following are the feature combinations and their current and proposed rates.

	Residence		Business		
	Current Rate	Proposed Rate	Current Rate	Proposed Rate

Most of the Company's residence and business customers who subscribe to Custom Calling Features and Touch-tone service will be affected by the proposed rate restructuring

It is expected that the restructuring of Custom Calling Features will result in a rate increase for approximately 2.9 million residence customers and 280,000 business customers. The reduction in rates for certain Custom Calling Services and Touch-tone Service will affect approximately 4.3 million residence customers and 1.7 million business customers

This rate restructuring is expected to have a "revenue-neutral" effect on the Company's annual revenues. The proposed rate restructuring of Custom Calling Services will increase the Company's annual revenues by \$19.8 million; while the reduc-tion in Touch-tone rates will decrease the Company's annual revenues by \$19.8 million

This proceeding has been designated Docket No. 11382. Persons who wish to intervene or otherwise participate in this proceeding should notify the PUC as soon as possible. The deadline to intervene is October 30, 1992. A request to intervene. ate or for further information should be mailed to the Public Utility Comm sion of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Public Infor Office at (512) 458-0256 or (512) 458-0221, teletypewriter for the deaf.
