QUOTA SOMEWHAT HIGHER

County Red Cross Drive Is Underway

MAPPING RED CROSS FUND CAMPAIGN — Here leaders of the Bailey County Chapter, National Red Cross, review progress of the fund drive now underway in the county. Left, Harmon Elliott, drive chairman; center, Mrs. Dorothy Barron, county chapter secretary; right, Frank Ellis, county Red Cross chapter chairman.

Bailey County's Red Cross quota this year has been set at 2585 dollars, and a concerted drive for funds is now underway. Harmon Elliott, fund drive chairman this year, said it is hoped the campaign can be ended by the last of this month.

Frank Ellis is county chairman of the Red Cross. Mrs. Dorothy Barron is secretary.

Volunteer workers this year included the following:

James Miller, Bobbie Airhart, Jeff Peeler, Horace Blackburn, Gordon Doss, Jamer Fowler, Robert Alford, Jack Morris, Mrs. Pershing Busbice, Mrs. Jack Schuster, and W. M. Pool.

Science Fair To Be Held March 16

Both Richland Hills and Mary DeShazo Elementary Schools will hold their science fairs from 3 to 6 p.m. Saturday, March 18. Richland Hills will hold their fair in the school cafeteria and Mary DeShazo's fair will be in the basement of the west building. This will be the fourth annual fair for Richland Hills.

Boys and girls in the fourth fifth and sixth grade will enter projects. Pupils in grades one, two and three will have exhibits but will not enter to be judged.

There will be a first, second and third place ribbon awarded to each of the three grades. The top project in the entire school will be awarded the honor of having their name appear on the school's science fair plaque.

Judges for all the fair include: Dr. Neal and Mr. Hofstad, professors of science from Eastern New Mexico University, Mr. Walter McGuire, science teacher from Dora, New Mexico, Mr. W. C. Robinson of Clovis. Mr. Robinson is a former science teacher and is now working with J. B. Lippincott Publishers. John Hughes, of Plainview, an engineer with Southwestern Public Service, and Dale Fischgrabe with the Bailey County Soil Conservation Service.

Mr. McGuire and Mr. Robinson worked with the National Science Foundation last year. Mr. McGuire will be remembered as a former faculty member of the Muleshoe Schools and he has worked with the science teachers in our school in connection with the National Science Foundation program.

The Science Fair of Jr. High and High School students is being presented in the Science room at the high school today, March 16, between the hours of 6-9 p.m.

There will be many fine exhibits, all made by the science students. All exhibits will be judged and 1st, 2nd and 3rd prizes will be awarded. The judges have not been selected at this date.

Everyone is urged to attend this very interesting and educational project.

Rites Friday For J. N. James

Joe N. James, 85, died Tuesday, March 14, at 10:45 p.m., in Knight's Rest Home, Amherst, where he had been a patient.

Mr. James, known to many here as "Jesse" James, was for some years the constable in Precinct 1.

He was born May 4, 1875, in Tennessee and had lived in Muleshoe for 28 years, moving here from Childress. He was a member of the First Baptist Church.

Survivors include six daughters: Mrs. Fred Watson, Littlefield; Mrs. G. H. Hawkins, Macdoel, Calif.; Mrs. J. A. Akens, Roswell, N. M.; Mrs. Dwayne Kester, Klamath Falls, Ore.; Mrs. W. T. Faulkner, and Mrs. H. F. Dyck, both of Muleshoe; two sons, O. D. James, San Carlos, Calif.; and D. F. James, Klamath Falls.

Also surviving is a brother, Mal James of Sapulpa, Okla. Mr. James leaves 29 grandchildren, 49 great grandchildren, and 4 great great grandchildren.

Funeral services are to be held Friday, March 17, at 2:30 p.m. in the Assembly of God Church with Rev. R. V. Luna, pastor, officiating. Interment will be in Muleshoe cemetery under direction of Singleton Funeral Home.

City Police Were Busy In February

Police report 25 arrests for jail in February; 15 were for drunk, 2 for drunk and disturbance, 2 for gambling, 1 for vagrancy, 2 for auto theft and interstate transportation of a motor vehicle; 3 were held for Jonesboro, Ark., safe-cracking and burglary.

The city officers recovered one stolen vehicle, held one person for DWI and 2 on warrants for worthless checks.

They investigated 8 traffic accidents with estimated damage of \$1150, no injuries reported. They reported one minor break-in and 2 theft cases.

The city officers patrolled 4,298 miles of streets and alleys. The patrolmen now work 9 hour shifts per shift instead of 8.

Rev. Don Murray New Pastor of First Baptist

The Rev. Don Murray is the new pastor of the First Baptist Church of Muleshoe. Rev. Murray was called by the church congregation Sunday night, March 5, after he had preached for them that day. His acceptance of the call was announced Friday of last week.

Rev. and Mrs. Murray and their two sons, age 12 and 14, have moved into the church parsonage at 322 Ave. E.

Rev. Murray is 33. He is a graduate of Howard Payne College, Brownwood, and of the Southwestern Baptist Theological Seminary, Fort Worth.

He has been pastor of the Baptist church at Meadow the last four years and prior to that was pastor of the Lakeview Baptist Church.

The local church has been without the services of a pastor since the recent resignation of Rev. E. K. Shepherd, now pastor of a Baptist church in Colorado.

COSMIC SEES: Only Sprinkle Next Few Days

Cosmic sees only sprinkle prospects for this week in Muleshoe's weather future. There will be lots of sunshine and less wind than we've had for the past two weeks.

Wednesday, the third day of spring, holds the only prospect for sprinkles in this seven day period. A sunny weekend is in store with Saturday being a mild day and Sunday warm but windy.

Monday, the first day of spring, will be a little cooler, but continue fair and mild. Strong southerly and westerly winds will scour up dust on Tuesday, ahead of Wednesday's sprinkle prospect.

The phenomenon which marks the beginning of spring is the sun's crossing the equator as it moves from the southern hemisphere back to the north. This event is called the vernal equinox. On this day all points of the earth have the day divided equally into 12 hours of daylight and 12 hours of darkness.

Sat.	38	78	mild
Sun.	40	80	wind
Mon.	36	72	cool
Tue.	40	73	dust
Wed.	37	73	sprinkle
Thurs.	35	80	mild

FFA youth will be placed in their stalls today at the Muleshoe school bus barn. They will be on view this afternoon and tomorrow.

Judging will be Friday evening, beginning at 5 o'clock. It was announced this week that for the first time an arena with seats for spectators has been arranged. There will be 300 seats available, from which a clear view of the judging will be possible.

Stock show officials are very hopeful these seats will be filled. At least they feel, there are enough seats to accommodate the ladies who would like to watch the judging.

E. G. Gaston, Voc. Ag. teacher in Springlake school will judge all swine and all classes.

Scotty Windom, Lazbuddie

Voc. Ag. teacher, will judge the no auction sale of the animals. Many of the best animals here will show at Lubbock and Plainview later on.

NONNIE TAYLOR, Muleshoe FA Chapter Sweetheart, poses Hereford calf being fed out by her younger brother, Gus, for a Journal photographer. The calf entered in the Stock Show here today and tomorrow. Nonnie, a high school senior, and Gus are children of Mr. and Mrs. A. G. Taylor, Route 2, Three Way FFA queen is Sandra Lemons. County 4-H queen is Goldialu Goucher, Muleshoe.

70-Count 'em

Seventy names will appear on the ballot for U. S. Senator in the April 4 election. A sample ballot appears in this issue of The Journal — see Pg. 3, Sec. 2.

Bailey County voters will have a busy day April 4. They'll not only vote for a Senator. They will vote on two bond issue proposals. In District 1A they will decide whether to issue bonds in the sum of \$85,000 to repair and maintain roads in the district.

The county as a whole will vote whether to issue bonds in the sum of \$250,000 to purchase right of way for widening Highway 70-84 from Muleshoe to the Farmer County line, making this stretch of road a 4-lane highway.

Then city of Muleshoe voters will elect a new council, first under the new Home Rule Charter.

Go-Karters Here In New Mexico Races

Some 20 members of Muleshoe's Go Kart organization expect to be competing at Clovis this coming Sunday, March 19, in the New Mexico races. The races will be held at the Go Kart track, located on Portales highway a mile south of Clovis.

Louis Countess, an official of the Clovis club, says they are expecting around 150 racers for the meet.

Muleshoe boys have been tuning up their Karts the last week or so in preparation. The club numbers about 30 members have won many honors, and are described by Mr. Countess as "very stout".

Trophies 25 inches tall are waiting first place winners, while a 27 inch trophy will go to the team winners of the most points and the team with the most Karts.

The fun begins at 1:30 p.m. Clovis time.

Cranes Banded

50,000 cranes are leaving their winter home at Muleshoe Wildlife Refuge. Many were banded. See Page 1, Sec. 2.

Pictures and story furnished by Bill Van Tries, refuge manager.

SOME EARLY BIRDS line up for car license tags in the county tax office. The deadline rapidly approaches. New tags must be affixed April 1. At the tag window are Pete Tarlton, left, Neil Smith, and barely showing at right Floyd Haynes. The other two not identified by the photographer. (Journal Photo)

Farm Bureau Meeting 24th

Annual meeting of the Bailey County Farm Bureau has been set for next Friday night, March 24 beginning at 7:45 in the high school auditorium.

License Earned By Lyndol Kinser

Lyndol Kinser, 17, Monday received his private pilot's license after taking his flight test at Tract Winds Airport, Amarillo, that day. Robert Wisener represented the Federal Aeronautics Administration in granting the license.

It was a major milestone in Lyndol's study and training. Ever since he was 15 he has been training at Muleshoe Airport to become a pilot of airplanes. But all that time and before he was working at the airport and Morgan Locker, his instructor and airport manager said the boy had earned every penny that his instruction had cost him.

Locker said Kinser is about the best student that he has ever trained.

Celebrating this event, Lyndol took his parents, Mr. and Mrs. Noah Kinser, on a night flight that night, over a wide section of the Texas and New Mexico Plains.

And Saturday he will fly his parents to Walsh, Colo., for a weekend visit there with Mr. and Mrs. Claudis Murrah and family, former Muleshoe residents.

Principal speaker will be W. B. McAlister, president of the New Mexico Farm Bureau, who will discuss problems facing the farmer and will give information concerning the country's largest farm organization, Farm Bureau.

Mrs. Virgil Blakely, chairman of the Farm Bureau Women's Committee in Roosevelt County, N. M., will tell of the help farm ladies can render to the organization.

Annual election of directors will be held. Drawing for door prizes will be at 7:45 o'clock.

ROY DEE OGERLY RITES HELD IN LITTLEFIELD

Roy Dee Ogerly, the 4 month old son of Mr. and Mrs. Roy Ogerly of Littlefield, passed away in the West Plains Hospital Monday, March 13.

He is survived by his parents, two brothers, Roy Jr. and Larry his grandparents, Mr. and Mrs. J. O. Allison of Muleshoe and Mr. and Mrs. Rufus Ogerly of Littlefield.

The funeral services were conducted in the Lutheran Church in Littlefield Tuesday, March 14, at 4 p.m., with interment in Memorial Park.

YOUTH CANTEN TO MEET

The Youth Canteen will hold an organizational meeting at Leigan's Cafe Monday, March 20, starting at 8 p.m. Plans will be made for the summer activities.

All adults and young people are urged to attend.

Muleshoe Motor Co. Wins Award

Jack Morris accepts a distinguished achievement award from John Taylor, Ford Sales representative on the Muleshoe Motor company's showroom floor Wednesday. The employees gathered around to witness the presentation and to be congratulated by Morris.

"Ford Motor Company is proud of the job that Muleshoe Motor Company has done during the past years, particularly in 1960," John Taylor, Ford Motor Co., Dallas representative said in Muleshoe Wednesday.

Taylor presented Jack Morris, manager of Muleshoe Motor Company, an award for distinguished achievement in management, sales, and service.

The award came after Muleshoe Motor Company turned in a large gain in volume of business in the year 1960. . . the same year that most automobile dealers across the nation showed lower volume business.

Morris expressed his sincere gratitude to all his employees for helping to make this award possible. He particularly praised

led the customers of the company.

Taylor further advised that in order for a dealer to receive this Distinguished Service Award, he had to excel in all phases of operation.

"Muleshoe Motor Company is one of the top dealers on the South Plains of Texas, in both sales and service," said Taylor.

Ivin Wozencraft

Wayland Baptist College in Plainview.

He has been Music and Educational Director in several churches in District 9 of the Baptist General Convention of Texas, those being, Mayfield Baptist Church, and Calvary Baptist Church in Tulla.

When in Colorado, Bro. Wozencraft held the same position in the Broadway Baptist church and the Northside Baptist church in Pueblo, Colo. He will assume his duties in the same capacity with the First Baptist Church in Bloomfield, New Mexico on June 1.

Rev. Keith, formerly pastor of the First Baptist church in Farwell is the pastor of First Baptist Church in Whitedeer, Texas. Rev. Keith who has been in the ministry for 20 years received his B. S. degree from Wayland Baptist College, where he majored in Bible and Social Science. He has pastored churches over a wide area of the plains of Texas.

Rev. Keith has been at his present pastorate for 3 years, where he came from Farwell where he had spent 4 years. The revival record shows he has held revivals in three states and all over the plains of Texas.

The revival services will be

Rev. E. J. Keith

gining at 8:00 p.m. There will be a prayer service at the altar beginning at 7:30 p.m., each evening during the revival. Also, Bro. Wozencraft will be working with the choir at this time.

Residents of the Progress community as well as any others who may wish are urged to attend these services and receive a spiritual blessing from these dedicated men who will be leading in this effort to bring Christ and His righteousness into the hearts of the people.

Committee Favors Two Bond Issues

Members of the highway committee of the Muleshoe Chamber of Commerce are reminding the voters of the importance of both bond issue elections, to be decided upon at the April 4 election.

In District 1-A voters will decide on the question of issuance of bonds in the sum of \$85,000 for repair and maintenance of county maintained roads. And voters of the entire county will vote on the proposal to issue bonds in the sum of \$250,000 to purchase right of way for widening of Highways 70 and 84 from Muleshoe to the Farmer County line, making this a 4-lane road.

The committee notes that statistics of the Department of Public Safety reveal a decided decrease in fatal traffic accidents on four lane highways as compared to narrower roads.

The committee also believes that, since land prices have been continually increasing, the cost of purchasing right of way now likely will be less than at any time in the foreseeable future.

School Board Meeting

1. Amended 65 year automatic retirement policy as follows: Extend the 65 year age limit to a maximum of two years to enable teachers to meet the minimum 10 year teacher retirement qualifications upon recommendations of the Superintendent.

The board felt this was necessary in order to keep teachers from losing minimum benefits from the Texas Teachers Retirement program, which requires a minimum participation of ten years in the program.

2. Authorized the Superintendent to apply to the State Education agency for two units of Special Education. One unit in Speech Therapy, and one unit in Retardates.

In order to qualify there must be a participation of 60 students in Speech Therapy and 8 in the retarded group.

3. Approved Summer School in the Muleshoe Schools for next summer. Details of the program will be published later.

4. Approved the following Honor Student Policy for the Junior High and High School—

HIGH SCHOOL —

1. Student must have attended Muleshoe High School his last two years.

2. All grades will be averaged except Music, P. E., Driver Education and summer projects or courses.

3. Students following the Vocational Plan of Graduation may not compete for Valedictorian or Salutatorian honors.

4. Valedictorian — Highest average — award, Salutatorian—Second highest average — award, Honor students — Average of 90 or above for 4 years — Certificate folder.

5. Students may check their averages with permanent record in the presence of the Principal.

JUNIOR HIGH SCHOOL—

A. 1. Honor Students — all 7th and 8th graders with an average grade of 90 or above.

2. Issued Honor Roll certificates.

3. Students may check average grades in the presence of the Principal.

B. Perfect Attendance Certificates.

C. Letter Certificate for each sport lettered in.

Approved the following Graduation Policy for the High School:

1. Attend High School 4 years.

2. No fake diplomas. Must have earned required credits before taking part in commencement.

3. Baccalaureate and Commencement exercises required in order to receive diploma.

5. Approved the purchase of a washer and dryer on the School Loan Plan. These are to replace worn out appliances in the Homemaking Department in the High School.

6. Directed the Superintendent to make out a special application form to be used for applicants for a Tax Assessor and Appraiser for the Schools. This form is to be approved at the next meeting, March 27, 1961.

7. Board rehired the following personnel for the next year (1961-62):

H. W. Callan, High School Principal.

R. E. Everett, Junior High Principal.

Fred White, Elementary Principal.

Frank Ford, Elementary Principal.

O. E. Lumsden, Counselor.

L. J. Halter, Athletic Director.

Bill Taylor, Assistant Coach.

Louis Powers, Assistant Coach.

George Washington, Junior High Coach.

Melvin Mackey, Junior High Coach.

M. D. Shepherd, Choir.

Kathy Phillips, Band.

J. W. Johnson, Bus Mechanic.

Jewell Blackwell, Cafeteria.

8. Approved Athletic Budget of \$10,400.00 for all Athletics for the next school year. This is actually \$600.00 lower than last year's budget because \$1,000.00 for transportation costs was added for next year which was not included last year.

A major portion of this budget will be handled by gate receipts.

Football — Junior and Senior High \$8,200.00

(Includes awards, transportation and game officials for all sports)

Basketball — Boys and Girls Junior and Senior Hi 1,375.00

Track — Junior and Senior High 825.00

Mules Capture First In Floydada Relays

In a spectacular running of the mile relay, the Muleshoe Mules upset favorite Floydada Whirlwinds in the Third Annual Whirlwind Relays Saturday in Lubbock.

On a near perfect day for the running, 13 new records were broken, with the Mules setting two new records.

In the mile relay, Muleshoe's Jimmy Cabrera had to fight off a stubborn Ted Allen of Floydada in a photo finish for the Muleshoe's setting of a new record and enabling them to pull out for a chance at the title.

Running on the mile relay team was Don Nicewarmer, Billy Gilbreath, Curtis Walker, and Jimmy Cabrera. They sped

around the oval in a time of 3:37.6. The old record was a 3:43.0 time.

Curtis Walker of Muleshoe set another meet record as he topped the 180-yard low hurdles in a time of 21.1, breaking the old time of 21.3 set by Muleshoe's Derrell Oliver in 1960. Travis Creamer of the Mules came in fifth place.

In the pole vault, Rickie Bell and Steve Leigon tied for third place. The winning vault in this event was an 11-8, also another new record.

Muleshoe came in fourth in the 440-yard relay. Floydada was first with a clocking of 45.5. Muleshoe's Rodney Blackwood managed a fourth place in the

880-yard run, and Jimmy Patton placed second in the 120-yard high hurdles.

Travis Creamer came in fifth in the 180-yard low hurdles and Jimmy Cabrera was sixth in the 220-yard dash.

In the high jump, Rodney Blackwood topped the bar at 5 ft. 6 in., good for a fourth place. Jimmy Patton came in fifth in the broad jump with a leap of 18 ft. 9 1/2 in.

Ronald Julian heaved the discus 126 ft. 9 1/2 inches for a first place in that event.

Coach Bill Taylor's Mules came out on top with 93 points, followed by Floydada with 89. Abernathy came in third with 72 1/2. Tulla had 68 1/2, and Morton garnered 48 points.

Saturday the Muleshoe Mules will be traveling to Crosbyton for the annual Crosbyton Relays.

SANDHILL CRANE BANDING NEARS END

52,000 Cranes 70,000 Ducks Bid Farewell To Muleshoe Refuge

Banding of Lesser Sandhill Cranes is nearing an end at Muleshoe National Wildlife Refuge. The birds are being banded by the U. S. Fish and Wildlife Service in an effort to ascer-

tain their exact flyways and seasonal territories. The colored neck bands placed on the birds will distinguish the Lesser Sandhill Cranes from their close relatives, the Greater Sandhill

Crane, which is banded with a different colored collar. The Greater Sandhill Crane winters in New Mexico. Other valuable information is gleaned from the weights and measurements recorded at the time of the birds capture.

Trapping is done on the refuge roosting sites and is accomplished by using three 2.5" bore cannons which throw a

EDD ARY holding banded bird. Note the collar.

40'x60' net over the cranes. Unfortunately the birds roost in the water about 10 feet from shore and are well beyond reach of the net. For this reason the area within reach of the net is baited with corn, and the cannons are fired by an observer located some distance from the net. Firing is by radio detector or direct electrical contact.

The various weights and measurements are given statistical analysis in hope of developing a fool proof method of sexing and aging the birds. At present, it is a difficult job to tell the boys from the girls, and young from old since there is no difference in plumage between sexes, and only slight differences between young and old.

The cranes peaked at 52,000 this year on the refuge, which also wintered some 70,000 ducks and 650 Canada geese. Muleshoe National Wildlife Refuge is home for the largest concentra-

tion of cranes in the United States. The birds have already begun their migration North, and by next week probably none will be left in the area.

Departure of the birds is received with mixed feelings in this rich farming region; the writer will miss the distant and graceful flight of these beautiful birds, but many of the local farmers eagerly await their leaving. The latter sentiments are not shared by many persons, however.

These girls, the Heathington Lumberettes, have just returned from San Antonio where they competed in the state tournament known as the Texas State Women's Bowling Association. They left Muleshoe March 9 and returned March 12. Doubles and Singles competition. The girls will not know until

approximately the last of April how they came out. There were 1089 teams from the state entered. This 26th annual tournament is being played from February 17 to April 23. Pictured from left to right, they are Doris Peat, Iph Clements, Nita Grusendorf, Beverly Heathington, Ada Murrah and Ann Little.

Legislature Asks For Increased Sugar Acreage In Resolution

Congress has been asked to enact legislation enabling the sugar industry to increase production in the U. S. and allowing the farmers of the country to grow additional sugar beet cane crops for sugar.

Jesse M. Osborne, state representative from Muleshoe was one of the authors of the House Concurrent Resolution. Senator Andy Roges of this district was co-author of the same resolution in the Senate.

Four Bailey Mishaps Were Investigated

The Highway Patrol investigated four rural accidents in Bailey County during the month of February, according to Sergeant D. S. Lawson, Highway Patrol supervisor of this area. These wrecks have accounted for no persons killed, one injured and a property damage of \$4,710.00.

This brings the total for 1961 in this county to one person killed, three injured, and a property damage of \$6,060.00.

"Defensive driving is one of the keys to traffic safety," the sergeant added. "If all motorists were alert when driving and knew the tricks used by a professional driver, the number of monthly traffic accidents would drop sharply."

"For instance, if when passing other cars the motorist would watch closely the front wheels of the other car, he would see the other driver start a collision turn in time to take defensive action, possibly in time to prevent a tragedy," the sergeant explained.

The sergeant also pointed out that gusty March winds can cause accidents by making cars swerve unexpectedly at highway speeds. Motorists should be especially alert when making trips on windy days.

Mrs. Hord's Mother Dies At Winters

Tax Refunds Are Being Received

The Internal Revenue Service has long been noted for efficiency in the taking in of our tax dollars. This year's "hurry-up" tax refund program to bolster the sagging economy has called for the tax folks turning their skill to getting tax dollars out. They are proving equal to the occasion.

Refunds mailed to Dallas District taxpayers by March 3, 1961 amounted to 217,427 checks totaling \$21,063,600, or an average of \$97 per check. This is well ahead of the 143,148 checks totalling \$13,056,214, or an average of \$88 per check mailed to taxpayers by March 3, 1960.

The tax men feel that the increase of \$9 per refund check is due to increased unemployment during 1960. They expect refunds amounting to some seventy to eighty millions to be mailed to more than 720,000 taxpayers before July 1.

Ellis Campbell, Jr., District Director, advises all taxpayers to file now. He stated, "Those having refunds coming will help us to get their refund to them sooner by mailing their tax returns now."

BABSON DISCUSSES

California vs. Florida Land As An Investment

Babson Park, Mass., March 16 — As I write this column, thousands of farmers and their wives in the snow-packed Central West are insisting they will never spend another winter on the farm. They are agreeing in California or Florida, and are trying to decide which it will be. Here is a brief, but impartial, answer.

What About California?

Although I have spent 35 winters in Florida, and expect to do so for the remainder of my life, I often wish I had been born in California! It is a wonderful state, with tropical climate in the south, snow in the north, and any climate between these which anyone could wish. It has a long coastline, a desert interior, and great mountains. The only out is Los Angeles, with its crowded population, terrific transportation problem, its "smog", etc.

California is also rich in natural resources, with the possible exception of coal. It has great waterfalls which supply electricity to all the homes; it furnishes natural gas which heats most of the homes; but its great asset is oil. California has an abundance of oil of good quality, and this has been a tremendous asset to the state industrially, besides paying for roads, state buildings, and other public improvements. All of these came after the discovery of gold in 1849, which sparked the "gold rush" and resulted in the building of the Union Pacific and Southern Pacific railroads.

Is It Too Late To Move To California?

As I think of the farmer and his wife in Nebraska, I wonder whether all these natural resources will be of much help to them? For the businessman with money, who can purchase large acreage for an extensive cattle ranch or orange and other fruit groves, there is still an opportunity for health, power and prosperity in California. Few investment bargains, however, exist at the moment; although they will appear again when the next depression comes. A large amount of money is borrowed on California enterprises, and most of these mortgages are held by one of two great California banks which could be very tough if the tide turned against them.

For the farmer and his wife in moderate circumstances who want only a winter home or place to retire to—California may not be the state. Prices are high, and there is a shortage of houses in most sections. If you have friends in some small California city—preferably near the coast—and they know of some reasonable priced home, it might be well to go out and look it over. California in general, however, is a place for big business rather than for retired farmers.

What About Florida?

Outside of sunshine and a fair rainfall, Florida has only a few natural advantages. It has no coal; no waterpower; no natural gas, except that being brought in by pipeline; and, most important of all, Florida

has not yet discovered oil. Some years ago oil was found in South Florida around the town of Sunland and a few wells nearby were drilled and produced oil.

This caused the great Florida oil boom. Nearly all the large oil companies sent representatives to get leases and do exploration work. Many of these companies spent millions of dollars drilling for oil, but not one drop of commercial oil or gas did they find. Very few wells have gone below the 10,000-foot limit, and very little "off shore" drilling has been done.

Small industries are starting up in Florida using electricity. Orlando and Tampa are rapidly becoming industrialized, while Jacksonville is a great jobbing center. Florida is a state of small homes; in fact, just now there is a surplus of small houses.

Therefore, for farmers of the Central West and the East who want a winter home free from snow, or for retired families who would get a check from the north every month, I surely advise one of the small cities of Florida. Perhaps it would be cheaper to buy a house already built than to buy a vacant lot. But I do not advise buying a Florida home without seeing the actual property. There surely is a surplus of motels and subdivisions. Nevertheless, I believe that a man with a check coming in every month would never regret moving to Florida.

IT'S ALL IN A STATE OF MIND

This is an oldie; we've been asked to publish it again:

IT'S ALL IN THE STATE OF MIND
If you think you are beaten, you are;
If you think you dare not, you don't;
If you'd like to win, but think you can't,
It's almost a "cinch" you won't.
If you think you'll lose, you're lost.
For out in the world you find Success begins with a fellow's will.
It's all in the state of the mind.

Full many a race is lost Ere even a step is run, And many a coward fails Ere even his work's begun. Think big, and your deeds will grow, Think small and you'll fall behind. Think that you can and you will, It's all in the state of the mind.

If you think you're outclassed, you are
You've got to think high to rise,
You've got to be sure of yourself before
You ever can win a prize.

Life's battles don't always go To the stronger or faster man, But soon or late the man who wins Is the one who thinks he can.
—The Sabeian

PLAIN TALK

Fortunate is he who possesses the charm that goes with spontaneously liking the other fellow. Successful men invariably appear conscientiously and enthusiastically to like their fellows. We have so much more to be thankful for than we have to complain about, that it is a pretty mean business to fasten our eyes on the little spots and turn our backs on the bright ones.

This faculty promotes an extraordinary mental stimulation that is a natural result of a cheerful attitude. And besides, he who highly regards his fellows is in turn similarly regarded by others.

"As ye sow, so shall ye reap" is directly applicable, and it is well for the young man, and the older one, seeking success and happiness; to cultivate the stimulating influence of liking the other fellow.

EINSTEIN SAID IT

The late Dr. Einstein once explained how, under his relativity theory, time is not absolute. Said he: "When you sit with a nice girl for two hours, it seems like only a moment. But when you sit on a hot stove for a moment, it seems like two hours. That's relativity".

Lone Star Agriculture

BLACKLAND BELT STUDIES PROBLEMS

Hill County, in the heart of the Blackland Belt and the historic cotton growing center of Texas, is taking the lead in studies aimed at increasing the county's dwindling farm income from cotton.

No long ago more than 500 Hill County farmers gathered at Hillsboro, their county seat, to attend a study session sponsored by the Hill County Seven-Step Cotton Committee. The seven saps are aimed at increasing the county's income from cotton by at least \$1,000,000 in 1967.

Experts emphasized at the meeting that the biggest problems facing Hill County farmers, as well as those throughout the other counties of the old Blackland Belt, involve the failure on an individual basis to apply practices which will curtail water, soil fertility, insect and disease losses.

C. B. Spencer, educational director of the Texas Cottonseed Crushers Association, who is himself a Hill County farmer, told his neighbors that "the average Blackland farmer doesn't make \$5,000 a year, could make it if he would only apply the practices to his land and crops that research have proven to be effective." Spencer pointed out that 30 years ago the Blackland Belt was the world's leading cotton producing region, but that in 1960 it had the lowest yield per acre in any section of Texas.

168 Pounds Per Acre
Reports showed that the present yield of cotton lint per acre in Hill County is 168 pounds. It was estimated that at least \$1,000,000 in added income would result if farmers could increase their lint yield by 32 pounds to the acre on the 128,000 acres allotted to Hill County. These recommendations were

given by a group of experts to help bring root rot, the Blackland's most virulent soil-borne cotton killer, under control:

- 1. Plow the soil deep, at least six inches or more, soon after cotton harvest.
- 2. Rotate cotton with disease resistant crops, such as grain sorghum, planting cotton only once in every three years on the same soil.
- 3. Plow under heavy tonnages of green organic matter on acreage planned for cotton.
- 4. Fertilize the crops as recommended for the soil and plants by qualified advisors.

FARM BUREAU TID BITS

Plans are being made for our annual meeting March 24, W. B. McAllister, New Mexico State President, will speak.

Officers of Farm Bureau are: Jack Schuster, President, Morris McKillip, V. Pres.; Eugene Black, Sec. - Treas. Directors who have served two years are: Louis Henderson, Lester Howard, Gordon Tiller, James Wedel, Johnnie Wheeler, Eugene Black, and Jack Schuster. Directors who have served one year are: Douglas Bales, Cecil Cole, Donald Cox, C. J. Feagley, Cecil Davis, Morris McKillip, W. T. Millen and Loyd Stephens.

Nations which live by the great principles of Christianity, freedom, and dignity of the individual will endure. We need to rededicate ourselves to active participation in programs which will preserve these principles upon which our republic was founded and developed.

Spiritual thought: The ear that heareth the reproof of life abideth among the wise. Proverbs 15:31.

WARD OF THANKS

I would like to take this opportunity to thank each and everyone who was so kind to me during my recent illness in the Muleshoe Hospital and Clinic. I want to say thanks for the lovely flowers and cards.

I also want to extend my appreciation to the Bailey County nurses and workers, also the officers and Dr. Chambers, who were all so kind.

Again I say thanks.

Today's Meditation

Read Hebrews 13:18-25. I am the good shepherd, and know my sheep, and am known of mine. (John 10:14.)

The highest degree of well-being is enjoyed by sheep when they can hear the voice of their shepherd. The sheep know the difference between the voice of strangers and their shepherd's voice. When strangers guide them, they are fearful, nervous, timid. They cannot eat peacefully. What a change takes place when their shepherd comes to them! They feel safe and at ease.

Jesus is the good shepherd. He wants to be our very own shepherd. He wants us to recognize His voice, to trust Him,

to obey Him, and to have peace that passes all human understanding.

Jesus knows other voices clamor for our attention and loyalty. He also knows that our following them leads us in the end to fear, guilt, and death. Each of us decides for himself whom he will hear and follow.

It was when the psalmist said, "The Lord is my shepherd", that he came to understand, "I shall not want."

PRAYER: Dear Christ, be my shepherd! I hear Thy voice; help me to heed and follow. May there come to me the assurance of Thy forgiveness, and may I experience the peace and peace which Thou hast for me. In Thy blessed name. Amen.

J. T. Shofner and family of Plainview visited in Muleshoe the first part of this week with relatives and friends. They formerly resided here.

Word has been received here that Herschel Alsop, formerly with the Texas Highway Department, but now one of Uncle Sam's boys, has been commissioned a 2nd Lt. He is on Brigade Staff of the 61st Field Artillery Brigade, under Gen. Zikhead. Congratulations from the home folks.

Muleshoe Man Sells Large Quantity Oil Past Six Years
The following item appeared in the Sovereign Scroll, a publication of the Independent Refiners Service Corp., at Wichita, Kansas recently.

MULESHOE, TEXAS—A real oil salesman is Mr. H. C. Holt, who operates a Panhandle Sovereign Service Station here. A check of Mr. Holt's record reveals that for the past six years he has sold more than 1,000 gallons of motor oil per month. In case you want it broken down that totals more than 288,000 quarts. Some selling.

Roy Jordan, Dr. A. E. Lewis, and Gilbert Wollard attended the opening of the Fat Stock Show at Ft. Worth.

Earl Ladd, Jr., and John Watson visited in Clovis, N. M., Monday evening with Boone Alisin, who is in the hospital.

Born to Mr. and Mrs. Henry Scarborough Thursday, March 6, at a Clinic in Muleshoe, a daughter.

WEEK END WITH PARENTS
Mr. and Mrs. Alvin DeBord of Lubbock spent the past week M.Frnt, M.M.F.W.Y.M. FW MW end in Muleshoe with her parents, Mr. and Mrs. Randall Kimbrough.

SANDHILLS PHILOSOPHER MISSES His Newspapers For A Week But Finds Cold War About the Same

Editor's note: The Sandhills Philosopher on his Johnson grass farm discusses confusion this week, without clearing it up.

Every morning the first thing I want to do is get hold of a newspaper and find out what's going on, who won the cold war the day before, have they solved the farm problem, and things like that.

Well, something happened to my source of supply and I went for a solid week without seeing a paper or listening to a radio or looking at television. Then I got hold of a newspaper and read it thoroughly and I have a confession to make: I can't tell any more about who's winning the cold war now than I could a week ago, and I know from personal experience they haven't solved the farm problem.

It's like accidentally tuning in a television baseball game somewhere along in the middle of play with the audio portion of the set not working. You don't know what the score is, what inning it is, or who's playing.

The Congo seems to have gotten along a whole week without me knowing a thing that was going on over there, and to save my life, I can't tell you what the situation is now after I've caught up with the news.

We've shot some more satellites up, they're circling the globe on schedule, but I don't feel any different than I did before they went up and there's still as much undone work on this Johnson grass farm as there was before. Reading a newspaper is important, but if you're reading it to eliminate your confusion, you're on the wrong track. I know a man who reads four papers every day and he's as confused as I am. I'm not suggesting I could get along without newspapers, but I have found that newspapers can get along without me, even if they don't know who's winning the cold war either.

For a while, I figured newspapers ought to carry box scores every day on the cold war, but now I know why they don't. Nobody knows what the score is.

Yours faithfully,
J. A.

The National Safety Council says: Be sure your windshield wiper blades and arms are in perfect condition. You need one ounce of arm pressure for each inch of rubber blade length to sweep off rain or road spray, instead of sliding over it and causing poor visibility.

BOATING ON LAKE MULESHOE: The rains came in the spring of 1961, and many of the long time residents will remember the huge lake of water that surrounded the town from about west to east. Waters came in from the watershed of Black-Fe's railroad bridge over the water draw, but actually the draw was washed down, stop-water table had risen to the top of the rail traffic. The Journal point that water was flowing thanks the donor of this picture right out of the ground. High and reminds its readers that way 70 east of town was under more pictures are wanted, not water a long time and the Santa necessarily of olden times.

GOT A PENCIL HANDY?

Then why not divide your last electric service bill by 30 in the handy space provided. That will give you Reddy's daily wage for all of the jobs he does for you at your house.

Then check the list below to see how many of those jobs he is doing.

Quite a number, isn't it?

True, your electric service bill is higher—because it is an electric service bill, not just a light bill. But the unit cost of that electric service is less than ever before, and each of your electric service dollars buys 21% more than ever before.

CHRISTIAN SCIENCE SERVICE

Man is sustained under all circumstances through our understanding of God's omnipotence. This theme will be emphasized Sunday at Christian Science church services.

Keynoting the Lesson-Sermon entitled "Matter" is the Golden Text from Psalms (73:26): "My flesh and my heart faileth; but God is the strength of my heart, and my portion for ever."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this passage will be read: "Consciousness constructs a better body when faith in matter has been conquered. Correct material belief by spiritual understanding, and Spirit will form you anew" (425:23-26).

Scriptural selections will include this additional citation from Psalms (56:4): "In God I will praise his word, in God I have put my trust; I will not fear what flesh can do unto me."

Driving Tips

by Linda Wells

Driving in city traffic means more precautions and more skillful handling of the car. One of the two very important factors when moving with city traffic is speed.

In city traffic a normal rate of the flow of traffic is set by the traffic conditions at the time. A driver who moves faster or slower in the automobiles causes danger confusion and annoys the other drivers. If you intend to drive very fast or slow choose a route which is less crowded, even if it means driving a longer distance.

On a street where traffic is light and there are no special traffic speeds a driver may have the freedom of choosing his own speed as long as it is reasonable for the conditions of the road, car, traffic, driver, and visibility.

In certain circumstances a speed of 25 mph. may be safer than a speed of 15 mph. under other circumstances. Correct speed for city driving is always a speed that is within traffic regulations and also in keeping with the traffic conditions at the time and place.

Knowing how to choose safe city speeds depends partly on

It's True!

This big, roomy 4-door 1961 FORD FAIRLANE SIX will cost you less to buy...less to run than some "new-name" compacts!

Here's the BIG car that saves like the small ones. Actually saves more... up to \$84 more* on purchase price alone... than some of the "new-name" compacts. Come in. Let your Ford Dealer explain why you get terrific mileage on "regular" gas. Let us show you how you save on a '61 Ford Fairlane all the while you own it, because it's so beautifully built to take care of itself!

Beginning with its low initial cost, the '61 Ford Fairlane can save you plenty.

For instance, the Fairlane has the only modern "over square" 6-cylinder engine in its field. Ford's new Mileage Maker Six—with its short-stroke, low friction design—squeezes amazing mileage out of each gallon of fuel.

The 1961 Ford Fairlane, like every '61 Ford, can cut your operating and service costs nearly \$100 a year. It is built to take care of itself—see features listed in square at left.

And here's the most amazing fact of all: On top of the greatest money-saving combination in the nation, this Fairlane gives you more value than any other car in its field! All the big and little "extras" that Ford knows how to build into a car. Add up the facts for yourself. Then hurry to your Ford Dealer.

Parmer County Farm Bureau

by Raymond Euler
Friday afternoon, R. H. "Shine" McFarland of Comeron, N. M. dropped in the office to visit for a while. Shine was one of the first secretary-treasurers for our county Farm Bureau back in 1948 and 1949. In fact, he is the one who suggested that yours truly take care of those who might want to insure that it would take very little with the companies, stating time, and that I could continue farming without any interference. There were from fifty to about 81 members in the organization at that time, and we well remember how little anyone really believed growth would be so fast as it turned out to be.

Fred W. Day, a Farm Bureau Member from Afton, Iowa was also in for a few minutes the same day. He was looking for steers to buy and take back to Iowa to feed.

By the time this is published, the membership drive for FB will be about over. We expect that the quota will be reached

and exceeded. Close to 200 memberships had come into the office before the drive was kicked off, which is somewhat better than receipts were a year ago. Just a few more will put the quota number over for the time being (555).

You should be interested in writing your representative, Jesse Osborn in Austin to be sure to oppose HB 319, which would establish a 75c per hour minimum wage for all Texas Labor, including farm labor, as well as require detailed records. Penalty for violation would be \$25 to two thousand dollars and/or six months in jail. The proposal would graciously exclude children working for their parents and services donated to charitable institutions and salesmen.

HB 500 should also have your attention. It would also require so much red tape (detailed report) on activities of crew members over five in number. We are sure no farmer would want this to happen.

Remember that Farm Bureau is the only general farm organization with full time representation in Austin during legislative sessions. Your support as a member is valuable to every Texas farmer.

Inspections In Bailey County Lag

"Motorists who wish to avoid the long lines to obtain annual motor vehicle inspection stickers should take advantage of empty stalls at inspection stations," Captain Alan Johnson, Motor Vehicle Inspection supervisor of the Texas Department of Public Safety, said this week.

"With the April 15 deadline for obtaining inspection stickers, only 2,305 of the 6,029 vehicles in Bailey County have been inspected", Johnson pointed out.

"Any drivers operating vehicles registered in Texas on public roads after April 15 without the 1961 inspection sticker

will be subject to arrest and a fine of up to \$200.00, plus court cost," Johnson added.

The captain explained that trailers with a gross weight exceeding 4,000 pounds also must be inspected.

The safety inspection sticker which must be on all registered vehicles operated over public streets, roads, and highways by midnight, April 15 may be obtained at any of the 5 approved vehicle inspection stations in this county.

the occasion. His topic was entitled "Two Kinds of People, Grasshoppers and Ants."

He compared people to grasshoppers and ants, basing his proof from the prophesy of Isaiah and Solomon's quotations. Grasshoppers are characterized by no objective, no goals, no aims in life, just here and live off the fat of the land. Idolent creatures taking what belongs to others and leaving only waste behind. They are here today and gone tomorrow.

Ants, unlike grasshoppers, are never seen out in storms or late at night, not knowing where they are going. They are never seen wasting their time away and are out early, working all day long and in their homes at night they work together, seldom fighting among themselves. Their efforts are concerted on their home and community.

In concluding his talk he stressed three steps for you people to take. First know in the beginning what you want to do, set an aim and work to that. Second, prepare yourself by careful plans to obtain your objective. Third, stick to the job, and success will be yours.

Linda Phillips was also elected as another delegate.

During the business session, plans were made and discussed for activities for each day during FHA Week, April 9-15.

Driving Tips

by Goutlahu Goucher

To drive an automobile is a great privilege which many people abuse. While abusing their lives, many other peoples lives, and they waste millions of dollars each year.

Many times young people from the ages of fifteen to twenty-five are blamed for all the poor driving. But when a person stops and thinks, they realize that they are many careful teen age drivers and that they are many other drivers on the road besides teen-agers. Many adults grow careless and forget the rules and regulations of the highway as the years go by. Many times these people go for years with out causing an accident but then one day they do a careless act once too often and cause an

accident. Traffic regulations are made by state legislatures and enforced by state and local officers to protect the drivers of our country. Some drivers don't seem to want to be protected.

Many times these drivers brakes or tires are bad and they have failed to have them fixed which many times result in an accident. People neglect things such as this abuse the right to own and operate a car.
