Car Parked Near Wilson Is Vandalized

Lynn County Sheriff's Dept. investigated a report of a 1978 Chevrolet compact car which was vandalized and burglarized sometime Friday night.

The car was parked 6-1/2 miles southeast of Wilson at the intersection of a county dirt road and FM 1054. Sometime between 4 p.m. and 10:45 p.m., unknown vandals using a 410 shotgun and a .22 shot out all the windows and headlights on the car, shot or broke out the instrument panel, slashed two tires, and burglarized the contents of the car.

The owner, Rebecca Champion of Slaton, reported several items missing including a portable typewriter, Sharp calculator, cassette tapes, and a purse and other personal items. No estimated value of the items was reported.

In jail during the week were eight persons on the following charges: one on parole violation; three for Application to Revoke Probation and DWI; one for DWI subsequent offense; one for public intoxication; one for DWI first offense and driving while license suspended; and one for indecency with a child.

COUNTY SPELLING BEE WINNERS - A Tahoka brother and sister were the top two finalists in the Lynn County Spelling Bee held here March 9. Sixth grader Rebekah Curry took first place honors after six rounds of competition, and younger brother Ryan, a fourth grader, came in second. She will represent Lynn County for her second consecutive year in the Regional Spelling Bee in Lubbock, April 3. Both are children of Dr. and Mrs. Zane Curry of Tahoka.

Rebekah, Ryan Curry Are Top Winners In Lynn County Spelling Bee Competition

Tahoka sixth grader Rebekah Curry and her younger brother, fourth

grader Ryan, were the top two finishers in the Lynn County Spelling Bee held here March 9. The two are children of Dr. and Mrs. Zane Curry of Tahoka.

This is Rebekah's second consecutive year as the Lynn County Bee Champion, and she will represent Lynn County in the Regional Spelling Bee on April 3 in Lubbock.

Students from Tahoka, New Home, Wilson and O'Donnell who were top winners in their respective school spelling bees were invited to the county competition. Fourteen students from Tahoka and New Home, however, participated in the county bee.

Third place honors in the county bee went to Olivia Cantu, a Tahoka sixth grader; fourth place was won by Jennifer Walls, a Tahoka fifth grader; and a fifth place tie went to Myra Martinez and Bobby Benavidez, both Tahoka fifth graders.

Other competitors included Meghan Gill, Lacey Huddleston and Tabitha Swartz of New Home; and Brian Alvarado, Stephen Brown, Kyle Bueermann, Klyssa Kellin, and Daniel Pulattie, all of Tahoka.

Lynn County Director of the spelling bee was Molly J. Helmlinger, Tahoka Elementary Principal. She was assisted by Minnie Lou Ash, Suette Martin, Clalene Newman, Kathy Druessedow, Gerald-Deane Wood, Margaret Norwood, Julia Charo, Nancy Williams and Vivian McAfee.

Fun-Food Fest Set April 17

The Lynn County Hospital Auxiliary has set a date of Saturday, April 17 for this year's annual Fun-Food Festival. The fund-raising event for Lynn County Hospital will be held from 4:30-8:30 p.m. in the Lynn County Showbar.

Area residents are encouraged to consider donating items for the auction, including baked goods, handmade items, artwork, and various other items. Contact any member of the Hospital Auxiliary to donate an item.

All proceeds raised from the auction are used for the local hospital.

Trustees Approve Teacher Contracts, Eliminate Athletic Director Position

by JUANELL JONES

In a unanimous decision at last week's Tahoka Independent School District meeting of the board of trustees, the position of Athletic Director at Tahoka High School was eliminated for the 1993-94 school year. Trustees also approved teacher contracts, accepted the resignation of Superintendent Dr. Duane Carter effective at the end of the 1993-94 school year, and set a called meeting for Tuesday, March 23 to discuss additional personnel contracts and whether to continue the girls volleyball program.

TISD Superintendent Dr. Carter submitted his letter of resignation effective June 30, 1994, in order that the board of trustees may initiate procedures in their search for a new superintendent who will begin his/her duties in the 1994-95 school year. "We accept, with great regret, the resignation of Dr. Carter effective June 30, 1994," said trustee Brad Hammonds in his motion which was approved unanimously by the board.

Trustees approved contract renewals for a slate of employees in the district which included all professional staff on the elementary and junior/senior high campuses except two who have resigned and two whose contracts will be discussed in the March 23 meeting.

High school math teacher Mary Lund and high school coach Sam Eoff have both resigned from the district. The contracts of high school head basketball coach Hulon Kirkland and head football coach Chris Wington are on the agenda for the March 23 meeting, as well as a discussion on whether to continue the

girls volleyball program here.

Kirkland, who is currently TISD Athletic Director and who has held that position for the last two years, will not be the A.D. for the 1993-94 school year, due to the elimination of that position by trustees. The elimination of that position, however, does not affect Kirkland's position as head basketball coach.

In other action, trustees approved district policies concerning public information, budget, graduation, purchasing, employee complaints, teacher appraisals, facility standards, student records and relations with governmental agencies. The board amended the budget for vocational, Chapter I and PEP (Pregnancy, Education, and Parenting program) programs, and amended the budget in the athletic program to accept an \$895 donation from the Booster Club for the high school baseball fund.

The PEP program, which is available to the district through a matching grant, will offer the opportunity for students who have become parents to complete their education. The school district will contract with a licensed caregiver to provide childcare for the children while these students attend classes at the school, according to the superintendent.

"This program will not only allow some of our students who have dropped out of school because of the burdens of parenting to complete their education, but will also boost our ADA (average daily attendance), thereby gaining more funds for the district," said Dr. Carter.

Trustees approved a list of textbooks submitted by the Textbook Committee, and designated Dean

Bartley as alternate judge in the May 1 school board election. The district had previously named Edde Lockaby as alternate judge, but she informed Dr. Carter that she would be unable to perform those duties. Jackie Stephens was named election judge during last month's board meeting.

Business manager Loretta Tekell reported an account balance in all funds of \$1,421,204.63.

In the superintendent's report, Dr. Carter explained to trustees the procedure which will be used during a week-long accreditation visit from a five-member team on April 5-9. The team will consist of two people from Texas Education Agency and three other people who will be administrators or teachers from other schools similar to Tahoka's.

"The team will be here Monday afternoon, April 5, and will conduct a meeting in the high school auditorium Monday night to visit with parents and community members about how they feel about the school," explained Dr. Carter. "On Tuesday morning, the team will seek input on the district from talking with myself and members of the district site-base council, and will visit the elementary campus Tuesday afternoon. The team will visit the high school campus on Wednesday afternoon, and will complete their report on Thursday. Friday morning, the team will meet with myself and the president of the board of trustees to issue the final results of the report," he said.

All board members and several district personnel were present at the meeting which adjourned at 11:36 p.m. The board was in executive session from 7:45 until 10:15 p.m.

Four Places To Open On Hospital Board

The terms of four directors will expire this year on the Lynn County Hospital Board of Directors, with the election scheduled May 1. Those whose terms are expiring are Leland White, Ann Wyatt, Jackie Stidham, and Joy Brookshire. Incumbents White, Wyatt and Stidham are each seeking re-election for the two-year terms. No other candidates have filed as yet.

Any candidate who wishes to have their name placed on the ballot for hospital directors may pick up a form at the Lynn County Hospital business office, and return the completed form by 5 p.m. April 5.

To be eligible for office of director, a candidate must be at least 18 years of age, and reside in and own land in the territorial limits of the district which is subject to taxation.

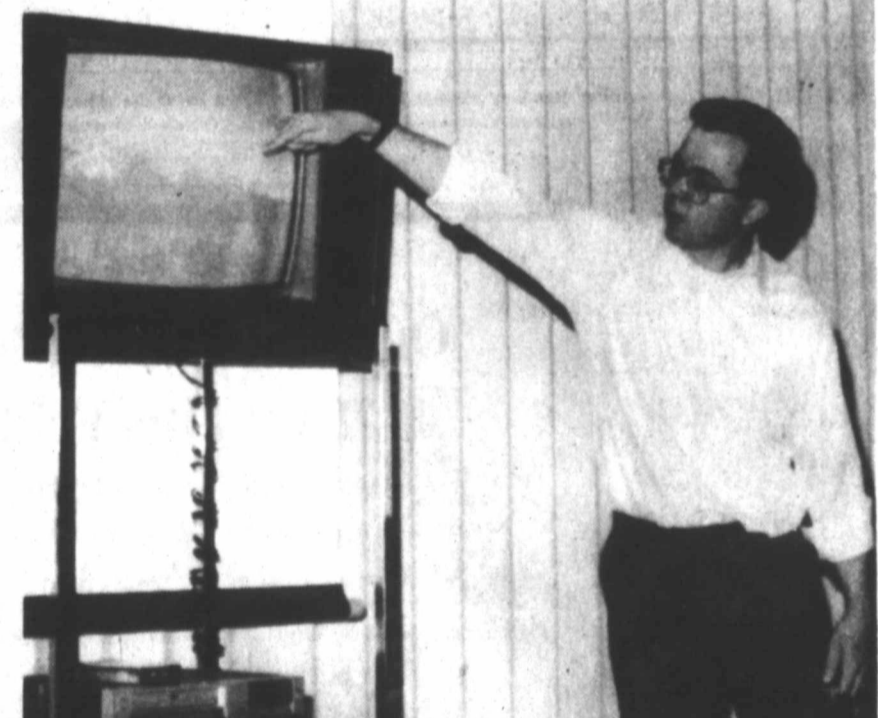

Special Presentation At Sweet Street Set Here Monday

Carlos Morgenfeld, speaking on behalf of Jews for Jesus, will speak about what the Jewish Passover and Jesus' Last Supper have in common in a presentation called "Christ in the Passover" at Sweet Street Baptist Church, 1300 Ave. J in Tahoka, on Monday, March 22 at 7 p.m.

During the presentation, a table is set with the traditional Jewish Passover items, including representative foods which are explained, but not eaten.

Rev. Danny Jackson, pastor of Sweet Street, encourages everyone to attend this presentation.

O'Donnell
O'Donnell City Council (three places, 2-year terms): Incumbents Tommy Woolam and Billy Edwards, Joylene Royce.

O'Donnell I.S.D. Board of Trustees (two places, 3-year terms): Incumbents Bobby Joe Furlow and Jackie Stidham

Out of the Woods
The wayward thoughts of Juanell (Wood) Jones

Have you wondered, lately, about that little bit of extra weight which you've gained? Have you pondered why your clothes get too small, seemingly overnight? Have you bemoaned the fact that the arrow on your bathroom scales jumps off the deep end when you step on them?

The cause of all this may be a bizarre ailment known as "sleep eating," a sleep related eating disorder which is giving new meaning to the term "midnight snack," according to a report in the Ladies' Home Journal magazine in an Associated Press release in the Lubbock Avalanche-Journal.

The story said that people with the condition binge during the wee hours without waking up. Episodes usually occur every night, sometimes more than once, and are characterized by (and I quote) "frenzied, out-of-control gorging on all kinds of food, even oddities such as buttered cigarettes, salted cat-food sandwiches or raw bacon."

Yech! This could contribute to really disgusting morning breath as well. And these people don't even remember chowing down on these great snacks when they awaken in the morning.

I wonder what clues these people in on their problem? Was it when they couldn't find their cigarettes and noticed cigarette butts in the butter? Was it when they awoke to find their cat sitting on their bed and staring into their faces, licking their chops? Or was it (ooh, what an awful thought) when they looked in the mirror in the morning and saw a slab of raw bacon plastered to their faces?

I don't know about you, but I think I'd give up buying bacon just real quick. Another alternative might be to buy padlocks for the refrigerator and cabinet doors, lock them up at night, and tell your husband to hide the key.

This solution might lead to a new problem for sleep eaters if they couldn't find any food, raw or otherwise. They might just take a stroll into the garage and start guzzling 10-30W motor oil along with a snack of lawn fertilizer sandwiches. This diet would probably not contribute to your weight problem, however, because you'd be dead.

One study conducted on sleep eaters followed 19 people, aged 18 to 54. Fourteen were women, it said. I just knew it ... women always get the really crummy disorders. Is this fair? Is this right? I demand legislation on this indignity ... where's Hillary Clinton when you need her?

The study said the nighttime bingers had suffered the condition from one to 25 years, and had sought treatment because of concerns about weight gains which ranged from 13 to 67 pounds. Just exactly how many calories are there in a buttered cigarette? Is eating them less hazardous to your health than smoking them? Should you use real butter or margarine to get the best taste?

These questions must be answered, folks! We need a government grant of, say, about a zillion dollars, to discover if these sleep-eating binges are bad for our health. Being a civic-minded person who has access to a really good computer and about three minutes of spare time, I'll volunteer to head this research.

Now let's see ... should I contact the multi-billion dollar tobacco industry or the merely million-dollar dairy industry to help get the grant ball rolling? Or say, the pork industry might be interested. But wait! ... Where's The Beef? There's no beef in this sleep eaters story. They must have equal representation!

That's it then. I'm off to Washington to ask for money. If I don't get any, I guess I'll just ... well ... just come back and write extremely informative columns. That would be a change, wouldn't it?

Tahoka Mayor Speaks On City Issues At Rotary Club

Tahoka Mayor Jim Solomon was guest speaker at the Tahoka Rotary Club meeting last Thursday. Solomon gave an update on city issues, including projects undertaken in the last five years, and some of the projects involved in the current five-year plan.

"In the last five years, the City has gotten out of the landfill and garbage collection business, paid off a bond and used the money to fund a street seal-coating project, updated equipment in the police department, and begun a campaign to get rid of the junk cars in town," said the Mayor, who noted that at one point a survey showed over 500 junk cars in Tahoka. "Our police department now tags about 10-15 junk cars per month, and this will be an ongoing program," he added.

The current five-year plan for the city, which began this year, includes such issues as maintaining the junk car ordinance program and street seal coating project. "We've also started a sign project to replace street signs in town, and are addressing the problem of dilapidated buildings in town with an aggressive new city ordinance," said Solomon.

"We're seeking grants for a new fire truck and fire hall, and have initiated a volunteer donation fund for the fire department on the city water bills. In the last four months, we have collected in excess of \$15,000 for the fire department, and continue to stress that these funds will be used only for the fire department," he added.

Some of the problems the city will be addressing involves the recycling effort. "We're trying to figure out how to realistically handle recycling efforts, and will probably have bins for aluminum and possibly paper by the end of the year. We are looking into it," said Solomon.

On the city's "wish list" for capital improvements were included remodeling city hall to include a community center. "We're working with the RC&D group to seek grant funding for such a project," the Mayor

said. The city is looking at buying a chipper to handle brush and tree limbs, and the mayor explained that the city may see major changes in the TV cable franchise due to new legislative action.

"The interstate is scheduled, at this point in time, to come through Tahoka," Solomon told Rotarians. "If we get the interstate, and that's a big 'if', it could bring about a topflight hotel, restaurants and gas stations. We're fighting hard to get it," he added.

The mayor then praised the citizens of Tahoka and mentioned several advantages of the town. "As someone who has lived in other places, I can see what Tahoka has to offer. A lot of people don't realize how good this volunteer fire department is, our police department is doing a good job and we've got a good city council ... we've got a great school, hospital, churches and lots of wonderful people here," he said.

STORK REPORT

Jerry and Tamyra Simmons of Lubbock announce the birth of twin sons, Jerry Colton and Sydney Cade, born March 6, 1993 at Methodist Hospital. Colton was born at 5:21 p.m. was weighed 6 lbs and 3 ozs. Cade was born at 5:23 p.m. and weighed 6 lbs and 15 ozs. Both were 20 inches long. They have an older brother, Casey, 5 yrs old.

Grandparents are Jerry and Sue Pebsworth and Sydney and Oleta Simmons all of Lubbock. Great grandparents are W.A. and Mildred King of Grassland, Loretta Jones of Tahoka, and W.L. and Bessie Simmons of Lubbock.

SCIENCE FAIR WINNERS - These Tahoka Elementary students were first place division winners in the Tahoka Elementary Science Fair held last week. They are shown in front of the Grand Champion project which Jason Jaquess submitted, entitled "Oil Filters: Which One Is Best". The students are, from left, Courtney Stennett, Andrea Aleman, Jason Jaquess, Casey Jones and Marissa McCord. Each of their projects will advance to the South Plains Regional Science Fair, April 16-17, in Lubbock. (LYNN COUNTY NEWS PHOTO)

Phebe K. Warner Club Meeting Held

Phebe K. Warner Club met Tuesday, March 9 at 4 p.m. in the home of Louise Smith. Nan Adams served as co-hostess for 18 members and one guest, Grace Huffaker, president, presided.

Lahruce Tippit introduced Zoe Merriman Kirkpatrick from Post, who presented a slide presentation of "Wildflowers of the Western Plains." Mrs. Kirkpatrick is the author of the book, "Wildflowers of the Western Plains."

Members of Phebe K. Warner voted to purchase a copy of "Wildflowers of the Western Plains" to be placed in the TFWC Library in Austin.

Dorothy Kenley reported the Rotarians were very receptive of the skit "Are We Awake to the 3 R's of Ecology?" which was presented last week.

Plans to attend the Caprock District Convention, March 27, at the Sheraton Inn in Lubbock were made. Bennie Carter and Gerald-Dean Wood were nominated as voting delegates and Margaret Edwards as alternate. These nominations were accepted. Betye Green, Loretta Tekell, Grace Huffaker, Lucille Smith and Grace Prohl plan to attend. Members were urged to attend and participate in Crafts and Arts, and donate baked

goods, etc. to the Country Store.

Grace Prohl gave the Federation report and told about scholarships that the local Scholarship Committee will research for the eligible applicant for next year.

Roll call was answered by naming a favorite wildflower or favorite attraction in Texas.

Grace Huffaker brought attention to a page in the Sunday March 7, 1993 edition of the Lubbock Avalanche-Journal entitled "We are Outraged" which relates the influence of television, movies and books in our lives.

Edna White and Gerald-Dean Wood pointed out that March 23 would be the International Tasting Party. Each member will bring a favorite foreign food and wear the dress of that particular country.

Patti Rambo Earns CHE

The Council for Certification at the American Home Economics Association has announced that Patti Rambo, who teaches Home Economics at Tahoka Jr/Sr High School, has earned the Certified Home Economist (CHE) credential.

As a CHE, Mrs. Rambo must complete a total of 75 professional development units (PDU's) every three years to maintain certification. The rigorous eligibility policies and procedures for PDUs have been established by the Council for Certification at the American Home Economics Association.

Founded in 1909, the American Home Economics Association (AHEA) is an organization of members dedicated to improving the quality of individual and family life through programs in education, research, and public information. AHEA is actively involved in programs and policies related to school-age child care, teenage pregnancy, nutrition education for Head Start parents, and the recruitment and training of minority professionals.

Halee Hughes Wins Award At San Antonio

Halee Hughes of Lynn County 4-H took fourth place honors in the Steer Carcass Contest at the San Antonio Livestock Exposition. She will receive \$500 premium for the carcass of her Breed Champion Charolais.

The Steer Carcass Contest, which is judged by Texas A&M University officials, consisted of 26 steers representing the breed champions and reserve breed champions. These carcasses had to meet minimum standards such as minimum/maximum carcass weight, minimum fat thickness, minimum ribeye area, maximum USDA yield grade, maximum USDA maturity, and minimum USDA marbling. The top five carcasses are awarded banners and premium money.

Barn Dance Set In Gall

The Borden County Cancer Society will sponsor the Annual Barn Dance, Friday, April 2 at 8:30 p.m. in the County Show Barn in Gall. The music will be provided by Jody Nix and the Texas Cowboys.

Admission is by donation to the Borden County Cancer Society.

Jaquess Named Grand Champion Of Science Fair

Fourth grader Jason Jaquess' project entitled "Oil Filters: Which One Is Best" was named Grand Champion of the Science Fair held at Tahoka Elementary School last week. Four other students' projects won first places in their respective divisions, and all five students' projects will advance to the South Plains Regional Science Fair, scheduled April 16 and 17 in the Lubbock Municipal Coliseum.

Sixth grader Courtney Stennett won first place, Experiment Division, with her project entitled "Seed Germination". Fifth grader Marissa McCord won first place in the Research Division with her project entitled "Causes of the Green". In the Demonstration Division, fourth grader Casey Jones won first with his project explaining "How Electricity Gets To Your Home"; and in the Collections Division, sixth grader Andrea Aleman won first place with her "Seashell" collection.

There were 26 entries in the local science fair from students in grades 4-6.

 - Friday- Tuna Sandwich, Tossed Salad, Mixed Fruit, Milk.

BBB Report

Spring is almost here, so if you are planning a home remodeling project, the BBB (Better Business Bureau) reminds you that all agreements and promises regarding the project should be put in writing to protect both you and the contractor. Not only should you include a thorough description of the work to be done, but include starting and completion dates, cost breakdown of labor and material charges, the contractor's name, address, phone number and professional license number. Also, the BBB reminds homeowners to be sure the contract includes clauses on permits, lien protection and warranties. Warranties and guarantees offered by the contractor should be in writing and should be specific and for how long. Finally, don't be rushed into signing a completion certificate for the job until you have inspected it and it has been completed as agreed to in the contract. Check the contractor out through your home builders association or call the BBB office at 763-0459.

Schemers will insist that bankruptcy is the easy way to avoid responsibility for repaying debts, but don't believe it! Personal bankruptcy is designed to provide relief from heavy financial obligations that might result from unexpected events. Declaring bankruptcy gives some people the false sense that they will be given a fresh start; however, there are some snags you will encounter. You must pay attorney and filing fees which can be substantial; bankruptcy proceedings are public; your credit record carries the blemish for 10 years which can affect your ability to gain further credit; some debts such as taxes and child support are not excused. Check out your alternatives. Contact your creditors - don't avoid them - try to work out a payment plan. Set yourself a budget and stick to it. Managing your money without bankruptcy will bring you a sense of accomplishment and well-being.

R **A DANGEROUS TYPE OF COUNTERFEIT**

We are not talking about phony bills and coins that are being illegally circulated but rather the potentially more explosive problem of counterfeit drugs. This is presently on the increase and it could lead to chaos in the marketing of new drugs as well as resulting inevitably in a serious public health hazard.

Counterfeit drugs are made illegally without any quality controls and under the poorest manufacturing conditions. The resulting drugs are sub-standard, more often than not without effective potency and subject to harmful contamination. A pharmacy only purchases their stocks of drugs from legal and licensed sources. You should also follow this practice.

"A GREAT MANY PEOPLE ENTRUST US with their prescriptions, health needs and other pharmacy products. We consider this trust a privilege and a duty."
 May we be your personal family pharmacy?

Basketball
 After finishing up a long basketball season that ended with a loss at the Regional Tournament, the New Home boys basketball team received several honors of being named to the All District Team and Honorable Mention.

Those making the All District Team were senior, Blaine Fillingim; juniors Channing Crisler and Shannon Zant; and freshman, Greg Armes.

Those receiving Honorable Mention were junior, Troy Fillingim, and sophomores Jason Gandy and Brad Bell. Congratulations players! New Home is very proud of each of you.

Annual Staff
 The New Home Annual Staff has met its first publisher's deadline. Twenty-two pages have been shipped to Dallas for printing. This year is the first time much of the written copy was sent on a computer disk instead of on paper. The yearbook gang members celebrated their accomplishment with food and fun at the 50th Street Caboose Restaurant in Lubbock on Wednesday night. They would like to thank everyone who supports their efforts and are currently selling Easter and spring merchandise to help pay for the 1992-93 yearbook. Anyone wishing to browse through a catalog or place an order, should contact staff members Solma, Diana, Gilbert, Rebecca, Marelle, or Christina, or the advisor, Marsha Scott by March 25. Happy Easter!

Reminder
 March 22 marks the beginning of the fourth week of the six weeks.

'Lilies Of Field' Production Set

The Garza Theatre announces the third production of the 1993 season, a humorous family show, "The Lilies of the Field." It will open April 2 for nine performances only. The show will run for three consecutive weekends, April 2-4, 9-11, and 16-18. Friday and Saturday evening shows begin at 7:45 p.m., and Sunday matinees begin at 2 p.m.

Reservations are now being taken by calling the Garza Theatre Box Office at 1-800-846-3706 or (806) 495-4005. Garza Theatre Box Office hours are 9-5 Monday-Friday, and will be open from noon until showtime on the following dates: April 3, 10, 17.

Ticket prices are \$7 for adults and \$4 for students ages 6-12. Also ask about special group rates.

COTTON NEWS
 FROM PLAINS COTTON GROWERS, INC.

LUBBOCK, Friday, March 12, 1993
 By Shawn Wade

"More bang for your buck" is what members of the Plains Cotton Improvement Committee (PCIC) agree that High Plains producers are getting following a visit to Mexico March 6 - 11. The trip allowed PCIC members to tour the winter nursery of cotton breeder Dr. John Gannaway according to Lubbock-based Plains Cotton Growers (PCG).

Committee members, who paid their own travel expenses for the trip, were unanimous in the belief that good things are happening through the use of the Mexican facility.

"By having this facility available we are definitely speeding up the development process," says PCIC Chairman Myrl Mitchell. "The Mexico facility provides an excellent opportunity for the Plains Cotton Improvement Program to cut the

development time of new varieties significantly by allowing Dr. Gannaway to make two crops in a single year."

The cotton nursery, located at a Mexican agricultural research station about 30 miles from Manzanillo, Mexico, is open to all public and private seed breeders and is sponsored by the National Cotton Council (NCC).

At the nursery committee members viewed some 300 breeding lines being developed by Dr. Gannaway including seed increase plots of lines that survived the 1992 season in good condition plus a number of experimental crosses between High Plains varieties and cotton from France, the Sudan and Mali in Africa.

Committee members were also given the opportunity to meet and visit with Mr. Wes Malloy who works for the NCC in Mexico overseeing the nursery facility.

In addition to Dr. John Gannaway and the PCIC members making the trip several PCG Board members also paid there way to Mexico. PCIC members and PCG Directors making the trip were: PCIC Chairman Myrl D. Mitchell of Lenorah; Dale Swinburn of Tulia; Bobby Nelson of Littlefield; PCG President Wayne Huffaker; Steve Verett of Ralls; and Bob Dumas of Brownfield.

South Plains Weather Cool In February

The weather across the Texas South Plains during the month of February 1993 turned out to be cooler than normal with slightly above normal precipitation, according to the National Weather Service, Lubbock office.

Temperatures averaged 2.3 degrees below normal and ranged from 0.9 degree below normal at Post to 4.4 degrees below normal at Plainview.

Maximum temperatures averaged 3.6 degrees below normal and ranged from 2 degrees below normal at Post to 6.3 degrees below normal at Plainview. The highest temperature of the month was 79 and that happened at both Paducah and Spur on the 21st.

Minimum temperatures averaged one degree below normal and ranged from 0.8 degree above normal at Muleshoe to 2.5 degrees below normal at Plainview. The lowest temperature of the month was 7 degrees above zero at Friona and Hereford on the 17th.

Precipitation averaged 0.16 inch above normal and ranged from 1.86 inches above normal at Lamesa to 0.55 inch below normal at Morton. The precipitation occurred in the form of rain, freezing rain, sleet and snow. Thunder was even heard on the 27th.

Host Families, Students Sought In Exchange Program

Host families are being sought for high school students from Scandinavia, Europe, Asia, South America, and Australia for the 1993-94 school year in a program sponsored by the American Intercultural Student Exchange (AISE).

The students, ages 15-18, will arrive in the United States in August, 1993, attend a local high school and return to their home countries in June of 1994. The students, all fluent in English, have been carefully screened by the local representatives in their home countries, and have their own medical insurance and spending money, according to AISE.

Host families participating in this program may deduct \$50 per month for income tax purposes.

AISE is also seeking American high school students ages 15-17, who would

like to spend either a school year or a summer abroad.

Interested persons should call 1-800-SIBLING for further information.

The American Heart Association's Facts About Stroke ...

Stroke is the third leading killer of Americans today, but there is hope. New drugs are reducing the damage from stroke. New rehabilitation procedures are helping people regain lost skills, and new surgical procedures can remove the build-up plaque in a neck artery restoring the flow of blood to the brain.

And, more research is being done that may lead to newer and better detection and treatment methods for stroke.

Here are some additional facts about stroke:

- A stroke is a form of cardiovascular disease that affects the arteries or veins of the central nervous system and stops the flow of blood bringing oxygen and nutrients to the brain.

- A stroke can occur when a blood vessel to the brain either bursts or becomes clogged with a blood clot.

- 500,000 people in America suffer from new or recurrent strokes each year.

- Signals of stroke include: sudden weakness or numbness of the face, arm or leg on one side of the body; sudden dimness or loss of vision (particularly in one eye); loss of speech or trouble talking or understanding speech; sudden, severe headaches with no apparent cause; unexplained dizziness, unsteadiness or sudden falls, especially along with any of the previous symptoms.

- About 10% of strokes are preceded by "temporary strokes" (transient ischemic attacks or TIAs). A TIA has many of the same symptoms of a stroke but lasts a relatively short period of time, 24 hours or less. TIAs should not be ignored; they may signal a problem that could lead to a fatal or disabling stroke.

- Some risk factors for stroke are inherited. Others are a function of aging. Still others result from a person's lifestyle that can be modified with a

TAHOKA STUDENTS COMPETE IN SPELLING BEE - These Tahoka Elementary students competed in the Lynn County Spelling Bee. They are, from left, Ryan Curry (second place), Kyle Bueermann, Daniel Pulattie, Brian Alvarado, Stephen Brown, Klyssa Kelln, Jennifer Walls (fourth place), Myra Martinez (tied for fifth), Rebekah Curry (first place), Olivia Cantu (third place), and Bobby Benavidez (tied for fifth).

doctor's help.

- Major risk factors for stroke that can be decreased by treatment or changes in lifestyles are: high blood pressure, heart disease, TIAs, cigarette smoking, high red blood cell count.

- Other controllable risk factors that indirectly increase stroke risk are: physical inactivity, elevated blood cholesterol, excessive alcohol intake, obesity.

"Any man who hates dogs and babies can't be all bad."

Scholarships Available For C Students, Left-Handed, Others

Most parents and students think that scholarships are only for the students with good grades, low-income families, or the athletically inclined. A small example of the numerous scholarships available to students include: Left-Handed Student Scholarships, Handicapped Student Scholarships, Members of a Church Scholarships, David Letterman's Scholarship for 'C' Students, Veteran children's Scholarships, Scholarships for minorities and much much more!

The general public is not aware that over \$10 billion is available to students from private sector scholarships. Over \$20.4 billion from the federal government. In a US Congressional study, it was reported that, "Over 6.6 billion of private sector financial aid went unused because students and parents did not know where to apply." A conservative college tuition for a full-time student runs from \$10,000-\$30,000. High scoring colleges run from \$40,000-

\$100,000- and this tuition is per year.

There are organizations that have spent hundreds of hours in research, locating scholarship sources. These organizations are AEE (American Educational Excellence) members and have a list of over 400 different scholarships available. The lists include the scholarship names, addresses, telephone numbers, application deadlines, summaries about the scholarships and the amount the scholarships will pay your child.

Many scholarships pay the entire tuition; otherwise, students combine applicable scholarships together to form one large tuition payment. Most scholarships include junior colleges, career & vocational schools, 4 year colleges, graduate schools and medical and law schools.

For information on obtaining these scholarship lists, send a SASE to: The US Channel of Commerce For Higher Education, PO Box 1161, Hanford, CA 93232.

Tahoka Bulldog Track Season Now Underway

by BRENDA ERKFITZ
Track season got underway March 12 for the Tahoka Bulldogs, with their first track meet at Plains High School.

There are three coaches this season for the junior high and high school: Cindy Gardner, Nancy Kirkland, and Steve Qualls. The high school team consists of seven girls and four boys.

Gardner is working with the 400-meter runners and the long distance runners. She also coaches the shotput and the discus events. Kirkland is in charge of the hurdlers, long jumpers, and triple jumpers. Qualls instructs the sprinters, relay teams and the high jumpers.

"I expect Delores Luna and Stephanie Stennett to do well in the 800-meter run," said Qualls. "Stephanie and Darla Willis should excel in the hurdles," he added.

Last season, the girl's track team did very well, bringing the Bulldogs a number of trophies and medals.

This year's district meet will be April 3 for the junior high and April 16-17 for the high school, both in Post. On April 30 and 31 the regional

meet takes place. The state meet will be May 13 and 14.

Qualls commented, "If we had a track, there's no telling what these kids would be capable of in all sports."

TIPS ON TRIPS

Majestic Berlin

(NAPS)—It's more than 750 years old—and only three years young. It's Berlin, the now unified city that offers visitors not only the shards where the Berlin Wall once stood but also some of the world's greatest museums including the Bauhaus Archives and the Egyptian Museum featuring the famous bust of Nefertiti. There are more than thirty theaters in the city, three opera houses, three concert halls and three orchestras, including the world famous Berlin Philharmonic.

Late Immunization Clinic To Benefit Working Parents

In order to reach those parents whose children need immunizations but who have trouble with 8 to 5 scheduling, the Texas Department of Health will begin holding an immunization clinic from 4-7 p.m. on the fourth Wednesday of every month.

The first of these clinics will be held on Wednesday, March 24, at the Texas Department of Health clinic at 1705 Lockwood in Tahoka.

This innovative program is designed to reach children who have never received immunizations, whose immunizations are not up-to-date, or who were sick at the time their immunizations were scheduled. Recent outbreaks of childhood diseases such as measles and mumps have prompted

the Texas Department of Health to increase efforts to reach these children by providing immunization clinics that are more convenient for parents.

Immunizations are also provided to the TDH clinic on the first Friday of each month, from 9 a.m.-4 p.m. Clients are worked in at other times as scheduling permits.

Immunizations are provided on a sliding-scale basis. No one will be refused services because of inability to pay.

For more information regarding other services provided by the Texas Department of Health, please call 998-4606.

Keeping an eye on Texas

State has options for training youth

The Texas Legislature is considering proposals from the Comptroller's *Texas Performance Review* that offer young people opportunities to develop marketable skills and job experience through school, business and social programs.

Programs under consideration	Annual cost or savings to state*	Start time*
☆ High school vocational education courses redesigned—more emphasis on teaching skills for current business and industry job market with additional vocational education funding tied to actual job demand. And, reduce funding for obsolete or unnecessary equipment.	Save: \$20 million	1994
☆ An apprenticeship program —support to communities and businesses to train high school students in high-skill jobs that can lead to higher wages.	Cost: \$5.1 million	1994-1995
☆ A youth corps —employ young people in service and conservation projects.	Cost: \$9 million, requires local matching funds	1994

* Estimates SOURCE: John Sharp, Texas Comptroller of Public Accounts.

The Mount Rushmore National Memorial, featuring 60-foot-high heads of George Washington, Thomas Jefferson, Theodore Roosevelt and Abraham Lincoln, is also called the *Shrine of Democracy*.

RESERVE CHAMPION BRAHMAN STEER- O'Donnell High School senior Jon Hogg is shown with his Reserve Champion Brahman Steer in the Junior Market Steer Show at the Houston Livestock Show and Rodeo.

Water Quality Problems Blamed On Sediment, Nutrients, Pesticides

"Everyone depends on water for drinking, but to farmers and ranchers, water is even more important," said Rodney Duus, soil conservationist for the USDA's Soil Conservation Service in Tahoka. "Agriculture depends on water for crops and livestock as well as household uses."

Generally, water quality problems attributed to agriculture come from three main sources: sediment, nutrients and pesticides.

Sediment is composed of particles of eroded soil that can be carried by either wind or water runoff. It can carry nutrients and pesticides into receiving waters. Reducing erosion helps maintain soil productivity and water quality.

Erosion can be reduced by using conservation practices such as terraces, grass waterways, contour farming, conservation tillage, critical area planting and range management.

Nutrients supply the essential elements for crop growth. Proper management of nutrients optimizes crop yields, reduces movement into the water supply and improves the soil. Nutrients can be managed by us-

ing conservation cropping systems, split applications, correct timing and placement of fertilizers, precise application rates, properly calibrated equipment, erosion and sediment control, proper management of irrigation, plant analysis and soil testing.

Pesticides help control weeds and pests that can affect crop yields. Pesticides, however, may be carried into surface water by runoff and into ground water by leaching. Managing pesticides protects water quality and reduces health hazards.

Pesticides can be managed by using less hazardous pesticides, biological and cultural controls, crop rotations, integrated pest and crop management, precise application rates, proper mixing and storage and proper container disposal.

For more information and help in planning water quality improvement measures, contact the Soil Conservation Service or the Texas Agricultural Extension Service in Tahoka. Financial assistance may be available from USDA's Soil Conservation Service and Agricultural Stabilization and Conservation Service.

AREA FFA PRESIDENT- Serving as Area President for the Area II of the Texas FFA Association is Marla Rudd of the New Home FFA. She is presented her plaque by Nat Prassel of the Rural Youth Committee of the San Antonio Livestock Exposition, Inc. Marla is active in horse judging, placing 9th high individual in the state contest. Her future plans include attending Texas A&M University where she plans to major in agricultural communications.

Comments Sought On Marketing Loans For 1993-1995 Wheat, Feed Grain Crops

The U.S. Department of Agriculture's Commodity Credit Corporation is seeking public comment on marketing loan provisions for the 1993-95 crops of wheat and feed grain.

Randy Weber, acting executive vice president of CCC, said that CCC is required to implement marketing loan provisions for the 1993 through 1995 crops of wheat and feed grains under provisions of the 1990 farm bill. They were triggered when the United States did not enter into an agricultural agreement by June 30, 1992, in connection with the Uruguay Round negotiations under the auspices of the General Agreement on Tariffs and Trade (GATT).

"Producers should realize that marketing loan provisions simply modify existing loan programs to allow repayment at the lesser of the amount of the outstanding loan principal plus interest or the marketing loan repayment rate," said Weber.

CCC proposes setting the marketing loan repayment rates at the same

level as posted county prices. Posted county prices are the prices at which generic certificates can currently be exchanged for CCC-owned wheat and feed grains.

CCC also proposes loan deficiency payments be authorized for 1993-1995 crops of wheat and feed grains. Details appear in the March 4 Federal Register.

The proposed regulations will be published in the March 4 Federal Register. Comments must be submitted by March 31 to: Deputy Administrator for Policy Analysis, Room 3742-S, USDA/ASCS, P.O. Box 2415, Washington, D.C., 20013-1415.

Comments will be available for public inspection in Room 3742, South Building, USDA, 14th and Independence Avenue, SW, Washington, D.C. during normal business hours.

A regulatory impact analysis on the 1993-1995 crop wheat and feed grain marketing loan provisions may also be obtained from the above address.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
SPECIAL ELECTION
MAY 1, 1993

PROPOSITION NO. 1 ON THE BALLOT
Section 1 of Senate Joint Resolution 7 proposes a constitutional amendment that would allow the legislature to re-distribute among other school districts ad valorem taxes levied and collected by a school district. The amendment would also allow the legislature to create county education districts with the taxable property of existing school districts in one or more counties combined. County education districts may levy, collect, and distribute ad valorem taxes as authorized by general law. The legislature would be allowed to set the rate of the ad valorem tax to be imposed in a school district or county education district or it may authorize the board of trustees of each school district or county education district to set the rate, provided that the rate of county education district ad valorem taxes may not exceed \$1.00 per \$100 valuation of taxable property, unless a higher rate is approved by the voters of the district. The amendment also provides that the amount of ad valorem taxes redistributed among school districts by the legislature and effectively redistributed within a county through county education districts may not exceed 2.75 percent of the sum of the state revenue appropriated for public schools and the revenue from local ad valorem taxes levied and collected for public schools. The term "state revenue" does not include revenue from ad valorem taxes, revenue for the provision of free textbooks, or contributions to a retirement system. Finally, the amendment provides that it does not affect the distribution of the available school fund under article VII, section 5, of the Texas Constitution.

The proposed amendment will appear on the ballot as follows:
"The constitutional amendment allowing limited redistribution of ad valorem taxes for schools, authorizing the legislature or local districts to set

a minimum tax rate in county education districts, and placing a cap on the ad valorem tax levied by county education districts."

PROPOSITION NO. 2 ON THE BALLOT
Section 2 of Senate Joint Resolution 7 proposes a constitutional amendment that would provide that, except for state educational mandates imposed in compliance with the Texas Constitution or federal law, or unless enacted by a vote of at least two-thirds of the members elected to each house of the legislature, a school district may not be required to comply with an obligation requiring expenditure of school district funds unless the obligation is fully funded. The amendment also requires the legislature to provide by law a procedure for determining whether an obligation is fully funded. In the absence of such a procedure, and at the request of a school district's board of trustees, the comptroller of public accounts shall determine whether or not an obligation is fully funded. This amendment applies only to state educational mandates enacted after December 31, 1993.

The proposed amendment will appear on the ballot as follows:
"The constitutional amendment exempting a school district from the obligation to comply with unfunded state educational mandates."

PROPOSITION NO. 3 ON THE BALLOT
Senate Joint Resolution 4 proposes an amendment to article VII, section 5(b), of the constitution, which currently authorizes the legislature to provide for using the permanent school fund to guarantee bonds issued by school districts and certain education-related revenue bonds issued by the state. The amendment would repeal the provision authorizing

CHAMPION AMERICAN BREED/CROSSBREDED STEER- Matt and Cheryl Hogg of O'Donnell are show with Matt's Grand Champion Steer at the Houston Livestock Show with buyers Patsy and Dick Walbreth.

Hoggs Win Top Awards At Houston Show

Jon and Matt Hogg, sons of Nelson and Cheryl Hogg of O'Donnell, were top winners in the Houston Livestock Show and Rodeo recently.

Jon Hogg's 1,270-pound heavy-weight steer, Brahmaer Conner, landed the Reserve Champion title in the Brahma division of the Junior Market Steer Show.

Matt Hogg came out ahead in the sibling rivalry when his steer, Pancho, won Grand Champion in the Ameri-

can Breed and Crossbred Division of the Market Steer Show.

Matt, 14, a Lynn County 4-H member, hopes to buy a new fishing boat with his steer auction earnings. The 1,190-pound steer was bred by Rab Cattle Company in Llano.

Jon, a senior at O'Donnell High School, intends to put his earnings toward his education at Texas Tech University, where he wants to study animal science.

Shane Moore of Tahoka received a second place award in the Light Weight American Breed & Crossbred Steers division.

Playa Wetland Symposium Set For Landowners

The Texas Parks & Wildlife Department announces a symposium concerning a valuable Texas resource that is unique to the Panhandle — playa lakes. Information on the ecology and management of playas will be presented, but the emphasis of the program will concern step-by-step procedures for landowners who are interested in obtaining playa and wetland management assistance from various agencies in the form of easements, cost-sharing, and technical assistance.

Two symposiums will be conducted at the Texas A&M University Research and Extension Center at two different locations: 1) in Lubbock on Wednesday, March 24 and 2) in Amarillo on Thursday, March 25. The symposium at both sites will begin at 9 a.m. and conclude at 3 p.m., although registration, coffee and donuts will be available at 8 a.m.

The registration cost will be \$10 at the door; however, the cost is only \$8 for those who pre-register by mail. Pre-registration forms and maps showing the location of each symposium are available at local Extension and SCS offices.
