MAYBE A GOOD IDEA—The "for sale" sign on the back of this trailer seems like a reasonable solution after this Dodge Raider and trailer overturned Thursday morning east of Tahoka on U.S. 380. (LYNNCO WRECKER SERVICE PHOTO)

Fifteen traffic accidents were investigated by law enforcement officers in Lynn County during the last week, with most of the wrecks occurring on Jan. 4. Also several criminal incidents were reported and six persons were assessed jail terms after pleas in district court Monday.

Pleading before Judge George Hansard were the following:

Andrew Horwood, 25, of Tahoka, driving while intoxicated (DWI), subsequent offense, assessed seven years in jail, probated.

José Rodriguez, 22, Tahoka, probation revoked on burglary charge, 90 days jail term.

Domingo Riojas II, 21; Lubbock, parole revoked on burglary of a habitation, 7-year term.

Carlos Caballero, 30, New Home, probation revoked on charges of DWI subsequent offense, 5 years jail term.

Emilio Calvillo Jr., 27, Tahoka, DWI subsequent, 5 years jail term plus 3 more years on revocation of probation.

Joe Andrew Valdez, 26, Tahoka, probation revoked on DWI subsequent charges, 5 years prison term.

A lawn mower, tools and a barbecue grill were reported stolen from the front porch of the home of Belinda Davila on N. 2nd St. in Tahoka last Friday. The stolen items were valued at a total of \$400.

Juan Luna of Tahoka reported that the passenger window on his 1991 Chevrolet Suburban had been broken with a BB gunshot while it was parked at his residence on S. 3rd St. Saturday.

James Tillman of Tahoka reported items valued at \$125 were stolen from his residence on Lockwood Friday. Missing from the home were an Emerson VCR, an oil painting and some meat from the freezer.

The rear tire of a vehicle owned by Joe Medina of Tahoka was slashed Monday night. Witnesses reported seeing the incident, and investigation continues.

A 31-year-old former Tahoka resident was arrested here and jailed on charges of unauthorized use of a motor vehicle Monday and police recovered an Oldsmobile reported stolen in Oklahoma.

A 16-year-old O'Donnell boy reportedly was assaulted by another O'Donnell teenager Monday in that city. The incident is being investigated by juvenile probation authorities.

An 18-year-old Tahoka man was arrested on assault charges after officers saw him strike another Tahoka teenager Monday.

A window and door were reported damaged in a burglary of a residence north of Tahoka Saturday. Nothing was reported missing by the owner, Joe Thomas.

Stereo equipment valued at \$100 was listed as stolen from a 1982 Mercury owned by Reggie Jones of O'Donnell while the car was on the ODHS parking lot Friday.

Jody Edwards reported that his residence near the Lubbock County line had been burglarized Tuesday and items not described on the offense report were reported missing.

During one icy afternoon Jan. 4, last Wednesday, Dept. of Public Safety and Lynn County sheriff's officers investigated 11 accidents in the county, all but one on U.S. 87, and Tahoka Police Dept. investigated one in the city around noon.

In Tahoka, a 2-year-old actually was "driver" of one vehicle involved Jan. 4. The child had been left in a 1977 Chevrolet owned by Michelle Colon of Tahoka, parked with the motor running, and the baby pulled the gear shift into reverse. The car backed across the street and struck a 1994 Ford pickup driven by Curtis Dale Stice, 37, of Tahoka. The baby was listed as incurring a "possible injury."

Several persons suffered serious injuries in the other accidents, but most were injury-free as drivers appeared to be going much too fast for the icy road conditions that afternoon. All were one-vehicle accidents caused by loss of control.

Three more wrecks were investigated Thursday morning as the roads remained slick for part of that day.

Wednesday's accidents included:

12:19 p.m.—5 miles north of O'Donnell, a 1995 Mitsubishi driven by Irene Cosme, 25, of Plainview, struck a delineator and a culvert, no injuries.

12:22 p.m.—7.5 miles s. of Tahoka, a 1992 Ford Explorer driven by Dawn Sims, 24, of San Antonio. The truck rolled two and a half times into the west ditch and field. Ms. Sims, a girl, 2, and boy, age 3, were taken by Lynn County EMS ambulance to Lynn County Hospital. The boy suffered a broken leg.

12:50 p.m.—on 87 at O'Donnell, a 1992 Ford pickup driven by Audrey Stanley, 69, of Big Spring, overturned into median. No injuries.

1:48 p.m.—87 at O'Donnell, a 1979 GMC Suburban driven by Florencio Veyro, 56, of Lubbock, overturned into east ditch. Veyro was taken to Medical Arts Hospital, Lamesa, with serious injuries.

2:25 p.m.—87 at O'Donnell, a 1991 Chevrolet pickup driven by Edmundo Constancio, 40, of Dumas, struck sign post in east ditch. No injuries.

2:30 p.m.—1.4 miles south of Tahoka, a 1992 Nissan pickup driven by Eddie Rocha, 43, of Lamesa, entered median and rolled over on side. No injuries.

2:35 p.m.—2.4 miles north of O'Donnell, a 1992 Buick driven by Carlos Bowen, 19, of Lamesa, rolled upside down into east ditch. No injuries.

3:12 p.m.—2.2 miles north of O'Donnell, a 1993 Ford pickup driven by Pina Isidro Benites, 36, of Woodward, OK, slid into sign post in median. A female passenger, age 40, and a 12-year-old boy complained of injuries but refused medical treatment.

4:10 p.m.—4.9 miles north of Tahoka, a 1991 Ford van driven by Ronald Daniel, 43, of Lubbock rolled upside down into median. No injuries.

4:18 p.m.—8 and a half miles north of Tahoka, a 1983 Chevrolet van driven by Lana Bohannon, 33, of Kingsland, struck a tree in the me-

dian. A 36-year-old male passenger was ejected and was reported in serious condition at Methodist Hospital. A 13-year-old female passenger suffered a broken wrist and also was taken to Methodist. They were transported by Lynn and Dawson County EMS ambulances.

No details were available on one wreck Wednesday night on U.S. 380 near West Point.

Friday morning accidents worked by DPS occurred 30 minutes apart. At 10:30 a.m. 12 miles east of Tahoka a Dodge Raider driven by Glenn Shively of Dewey, Ariz. was involved. At 11, five miles north of Tahoka on U.S. 87 a GMC driven by Elbert Lons went out of control, and at 11:30 an International truck-tractor driven by Jack York was in an accident 2 miles north of O'Donnell.

Two persons were jailed on charges related to child support last week, and nine others were held on the following charges: public intoxication, application to revoke probation on DWI charges (two persons), driving while license suspended, DWI third offense, DWI subsequent offense, aggravated assault, unauthorized use of a motor vehicle.

City Council Approves Audit

Tahoka City Council Monday night approved the 1993-94 financial audit for the City of Tahoka as presented by Joe Hays of Love, Hays and Reeger CPA firm.

The annual audit showed that the city's finances were sound, and councilmen unanimously approved the audit as presented. A resolution providing support to the planning of the enhanced 9-1-1 regional plan was also approved.

The council approved the purchase of a copier for the city, and Police Chief Jerry Webster informed the group on the police department's activities for the previous month, as well as a summary of 1994.

Minutes of the previous council meeting were amended to show that J.A. Pebsworth was not requesting the city to consider buying the old Venture grocery store building, but that he was merely informing the council of an idea for obtaining the building, and to get the council's approval on his idea, which involved selling shares in ownership of the building. Also, minutes were amended to show that the council did approve his idea.

Study Aims To Prevent Prostate Cancer

(NAPS)—Experts estimate 1 in 7 American men will be diagnosed with prostate cancer sometime in their lives. About 1 in 30 will die of the disease. In 1994 alone, there'll be approximately 200,000 new cases diagnosed and 38,000 deaths. For unknown reasons, African-American men have twice the death rate of white men from prostate cancer.

In an effort to reduce these numbers, the government's principal agency for cancer research, the National Cancer Institute, hopes to study 18,000 men to determine if a drug called finasteride can protect them from prostate cancer. The trial is also looking to identify risk factors for developing the disease and to assess which cases are deadly and which are not.

The ten-year Prostate Cancer Prevention Trial started in October of 1993 and volunteers are still needed, particularly African-Americans.

"Ideally, we'd like to recruit men from all racial and ethnic groups—African-Americans, whites, Native Americans, Hispanics, Asian-Americans—roughly in proportion to their numbers in the population," said Otis Brawley, M.D. of the NCI's Community Oncology and Rehabilitation Branch. "The better the representation we have from all these groups, the more confident we can be in applying the results of the trial to the population at large."

The Prostate Cancer Prevention Trial, coordinated by the Southwest Oncology Group, is recruiting men at more than 200 centers throughout the country.

BBB REPORT

Throughout the year, the BBB receives many calls about dubious overseas job opportunities that are advertised in the newspaper classifieds. The appeals usually target high school and college graduates. Typical ads promise high paying jobs in interesting or exotic foreign cities, but claim little or no experience in necessary. Closer to home, other ads promise postal or government jobs all over the country. Unlike legitimate employment firms that have permanent addresses, unscrupulous employment firms usually run their operations from out-of-state and offer applicants only a phone number or mail drop address. Job seekers should not be fooled by a firm's promise of a refund, if no job materializes. Check the company out through your BBB before doing business with them. And also check out foreign job offers with that country's consulate or embassy. Ask the BBB for a free pamphlet called "Tips on Overseas Job Scams" when you call 763-0459.

To protect you and your family against fire, here are some tips from the Lubbock Fire Marshall's office. Consider getting a smoke detector. Most fire deaths occur in the home and are caused by smoke inhalation/ carbon monoxide poisoning, rather than from heat. The Uniform Building code requires that detectors be installed in all new construction and to be wired into the electrical system of the house. We can't recommend the kind to buy, but look for the Underwriters Laboratory insignia. You will need to decide if you want a battery-operated or electrically wired or one that is wired and has a battery backup. Make sure you install them in close proximity to sleeping rooms. You also need to decide how many you need. You will also want to consider the kind of detector that has a halogen lightbulb that lights when it goes off. Over Five Hundred Babies

The News reporter got to looking through the birth records of Lynn County one day this week and discovered some figures that may be of interest to some of our readers. There has been four sets of twins born in this county since it was organized in 1903. The first twins on record were born to Mr. and Mrs. Walter Robinson in the town of Tahoka, Dr. S.H. Windham in attendance, March 16th, 1907, both being girls. The second pair to be recorded were born to Mr. and Mrs. Henry Fletcher of about 10 miles north of Tahoka, Dr. M.E. Miles in attendance, June 6th, 1908, being a boy and a girl. The third pair were born to Mr. and Mrs. Ira Doak in Tahoka, May 20th, 1910, both girls. The fourth pair were born to Mr. and Mrs. H.J. Henderson of 10 miles southeast of Tahoka, Dr. E.H. Inmon in attendance, Dec. 18th, 1915, both boys, one of whom weighed 5 and a 1/4 pounds and the other 6 and 3/4 pounds, mother and boys doing nicely. Two-hundred-fifty babies were born between the summer of 1903 and Nov. 7, 1909; somewhere between 60 and 70 babies have been born in Lynn County during this year and the total number recorded in the Lynn County records up to date are 508.

What Is A Town?

A town is a group of people.

It is schools. It is museums. It is churches.
It is industry and jobs. It is retail business.
They all have to work together. All must have the support of the people. Or there is no town.

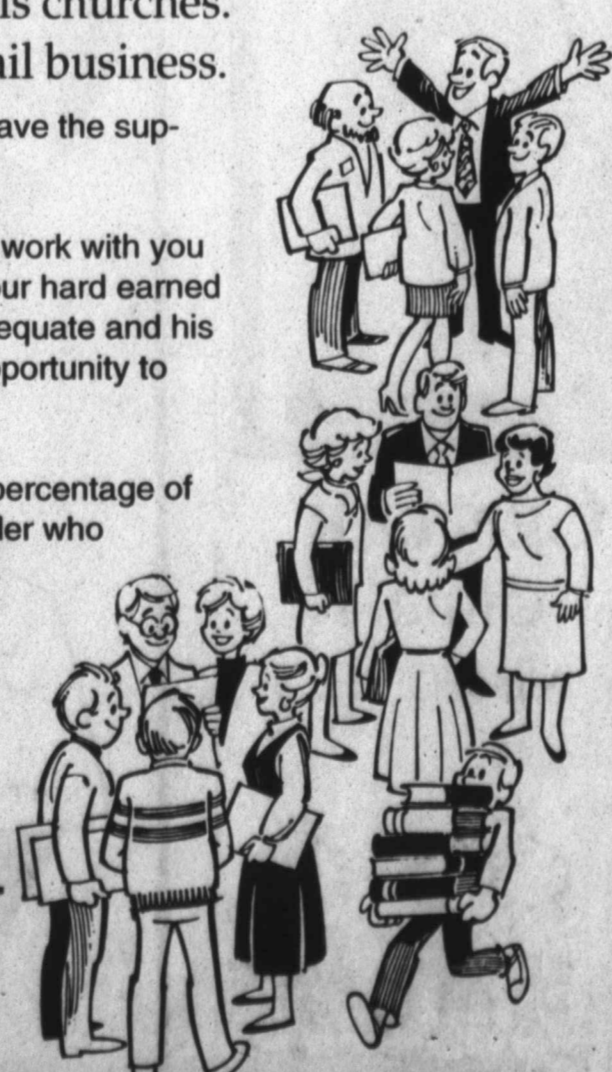

Give your local businessman a chance to work with you on your business. You shouldn't spend your hard earned money with him unless his selection is adequate and his price competitive. But give him the first opportunity to make the sale.

The local businessman pays the highest percentage of local taxes. He most often is the civic leader who dedicates his time and talents to his town. He is contacted first for contributions to charitable projects. Without his business firm, you have no town.

Give the local businessman a fair shake ... that's all he asks while he continues to work for our town.

State Comptroller John Sharp has announced that his office will conduct a free seminar on state sales taxes in the Lubbock area on Jan. 17 at 3 p.m. in Lubbock. This seminar is designed especially for owners and manager of new Texas business.

Kay McCall, from the Comptroller's Lubbock field office will be on hand to meet and discuss tax questions at the Godeke Library Community Room, 6601 Quaker in Lubbock.

"Our agency experts will be delighted to sit down with you, one-on-one, detailing which state taxes may affect you as a business person, assist you with sales tax forms, or provide information that can be useful in the future," said Sharp.

Those taxpayers who cannot attend the free seminar can call the Comptroller's toll-free tax hotline for additional assistance at 1-800-252-5555.

For more information about the free seminars contact the Lubbock field office at 806/792-1895.

Widows May Get Higher Benefits At 65

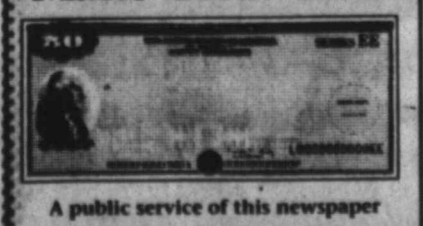

Anyone receiving Social Security benefits because they are a widow or widower, they may be eligible for a higher benefit when they reach age 65. This could be possible if they have been employed and, therefore, are entitled to benefits based on their own work record.

Ordinarily, one cannot change from a reduced benefit to a full benefit, but that does not apply to widows or widowers.

As a widow or widower who is entitled to retirement benefits of their own earnings, one can take reduced benefits at age 62 and receive a full widow's or widower's benefit at 65. Or, can take widow's or widower's benefit at 62 and get full retirement payment at 65.

Anyone faced with making a decision on which benefit to take can talk to a Social Security representative about the options available.

NOTICE

The Texas Natural Resource Conservation Commission (TNRCC) is requiring the City to publish a warning concerning the nitrate level in the City's well water.

The Environmental Protection Agency's Lifetime Health Advisory level for nitrate is 10 milligrams per liter. Tahoka's well water has been testing from 11 to 13 milligrams per liter. The water received from the Canadian River Municipal Water Authority, at Lake Meredith, tests well below 10 milligrams per liter in nitrate levels.

The City's wells are only pumped during peak usage times, such as the summer months. So, in order to provide water that is within EPA level requirements, the City blends Canadian River Water with well water, which dilutes the nitrate level.

Regardless of the actions the City takes to provide water that is below the EPA Advisory Level, we are required to have the following information published.

MANDATORY HEALTH EFFECTS LANGUAGE FOR NITRATE

The Texas Natural Resource Conservation Commission (TNRCC) sets drinking water standards and has determined that nitrate poses an acute health concern at certain levels of exposure. Nitrate is used in fertilizer and is found in sewage and wastes from human and/or farm animals and generally gets into drinking water from those activities. Excessive levels of nitrate in drinking water have caused serious illness and sometimes death in infants under six months of age. The serious illness in infants is caused because nitrate is converted to nitrite in the body. Nitrite interferes with the oxygen carrying capacity of the child's blood. This is an acute disease in that symptoms can develop rapidly in infants. In most cases, health deteriorates over a period of days. Symptoms include shortness of breath and blueness of the skin. Clearly, expert medical advice should be sought immediately if these symptoms occur. The purpose of this notice is to encourage parents and other responsible parties to provide infants with an alternate source of drinking water. Local and State health authorities are the best source for information concerning alternate sources of drinking water for infants. TNRCC has set the drinking water standard at 10 parts per million (ppm) for nitrate to protect against the risk of these adverse effects. TNRCC has also set a drinking water standard for nitrite at 1 ppm. To allow for the fact that the toxicity of nitrate and nitrite are additive, TNRCC has also established a standard for the sum of nitrate and nitrite at 10 ppm. Drinking water that meets the TNRCC standard is associated with little to none of this risk and is considered safe with respect to nitrate.

"The Teeth" Escapades

by **ABBIE WHORTON THOMAS**

(Editor's note: The writer is a former resident of Tahoka who, in 1944, had local dentist Dr. Kenneth Durham make her some "freak teeth." This series is an account of her experiences.)

No Tickets For Sale

On May 8, 1945, World War II was officially over, the boys were home. To celebrate the old bunch of friends decided to go to the Fat Stock Show held in Ft. Worth in February of 1946. We reserved the 4th floor of the Worth Hotel.

The friends who went were Winston and Louise Wharton, Meldon and Fern Leslie, Jack and Bob Applewhite, A.N. and Audra Norman, Wynne and Cove Collier, Terry and Ann Thompson, Jess and Mable Gurley, Jep and Abbie Whorton, Oscar and Bernice Roberts, and Rollin and Lillian McCord.

By now all the guys had been greeted one way or another with the freak teeth and were excited about my playing a joke on the friends from Lubbock who were joining us at the Worth Hotel. Those from Lubbock were Fenner and Wanell Tubbs, Brantley and Jerry Malone, Johnny and Dixie Simms, Norvel and Lenora Stewart, and Kenneth and Jean Leslie.

When everyone had arrived, we all got together in a big conference room on our floor. I went into the next room and put on a hat backwards, and a jacket belonging to Wanell Tubbs. I put in the freak teeth and then knocked loudly on the door where the bunch had gathered. Lillian McCord opened the door and I asked to see Fenner Tubbs. She said, "Come in, I'll get him." Fenner came to the door and looked absolutely speechless when he saw me.

I said, "Mr. Tubbs, a man at the front desk told me you had just told him you had some extra tickets to the Fat Stock Show Matinee." Fenner said, "That was a mistake; he had two tickets and they were for him and his wife."

I said, "The man told me you had extra tickets. Why won't you let me have them? I'll pay you for them. I'm not asking you to give them to me."

Fenner said, "Now lady, I said I didn't have any extra tickets. Will you please leave, you are interfering with our party."

I said, "You get smart with me and I'll get my husband to handle you."

He said, "I wish you would. I'd like to see the man who would marry a woman that looks like you."

I said, "Now, you say, you don't like the way I look. I'll just go get my husband so you stay right where you are."

I left and went back into the room where I had borrowed Wanell's hat and jacket, put them where I found them, removed the teeth, and rushed back into the room where I had left Fenner. He was still standing there, yelling about that crazy woman.

I said, "You won't believe what a sight I just saw in the elevator as I came up."

Fenner said, "That woman in the elevator has been right here in this very room. I'm waiting right here until she gets back with her husband; I want to meet the man married to that woman."

Everyone started laughing. A.N. was laughing so hard he was rolling on the bed in the next room. Fenner couldn't believe he didn't recognize his wife's hat and jacket and that it was a joke.

The teeth look so natural no one ever looks at me the second time. They are afraid it might be for real. Fenner laughed with the rest of us. He said, "If I'd looked at her again, I swear, I'd of vomited."

Warning For Disabled Drivers

Government safety experts have issued a warning that "control aids" that stretch across the steering wheel should not be used if the car has an airbag. The "spanner bar" is used by some disabled drivers to help them with steering. The bar has knobs on either end. In an accident, the airbag could hurl the bar toward the driver and cause serious injury.
