The Front Porch Classroom

When I was in the fourth grade, I was offered a job as a paper boy. It didn't pay much money, but I knew having a job would build my character so I took it, good character being important to fourth-graders. My lessons started the first day on the job. A customer paying his bill asked me if I wanted a tip, and I said, "Sure." He said, "Stay away from wild women."

One of my customers was a lady named Mrs. Stanley. She was a widow and not prone to wild living, so I took to lingering on her front porch during my rounds. She'd watch for me to come down her street, and by the time I'd pedaled up to her house, there'd be a slushy bottle of Coke waiting for me. I'd sit and drink while she talked. That was our understanding - I drank, she talked.

The widow Stanley talked mostly about her dead husband, Roger. "Roger and I went grocery shopping this morning over to the IGA," she'd say. The first time she said that, the Coke went up my nose. That was back in the days when Coke going up your nose wasn't a crime, just a mite uncomfortable.

Went home and told my father about Mrs. Stanley and how she talked as if Mr. Stanley were still alive. Dad said she was probably lonely, and that maybe I just ought to sit and listen and nod my head and smile, and maybe she'd work it out of her system. So that's what I did. I figured this was where the character-building came into play. Turned out Dad was right. After a few summers, she seemed content to leave her husband over at the South Cemetery.

Nowadays, we'd send Mrs. Stanley to a psychiatrist. But all she had back then was a front porch rocker and her paper boy's ear, which turned out to be enough.

I quit my paper route after her healing. Moved on to the

lucrative business of lawn mowing. Didn't see the widow Stanley for several years. Then we crossed paths up at the Christian Church's annual fund-raiser dinner. She was standing behind the steam table spooning out mashed potatoes and looking radiant. Four years before she'd had to bribe her paper boy with a Coke to have someone to talk with; now she had friends brimming over. Her husband was gone, but life went on. She had her community and was luminous with love.

Community is a beautiful thing; sometimes it even heals us and makes us better than we would otherwise be.

I live in the city now. My front porch is a concrete slab. And my paper boy is a lady named Edna with three kids and a twelve-year-old Honda. Every day she asks me how I'm doing. When I don't say "fine," she sticks around long enough to find out why. She's such a nice lady that sometimes I act as if I have a problem, just so she'll tarry. She's lived in the city all her life, but she knows about community, too.

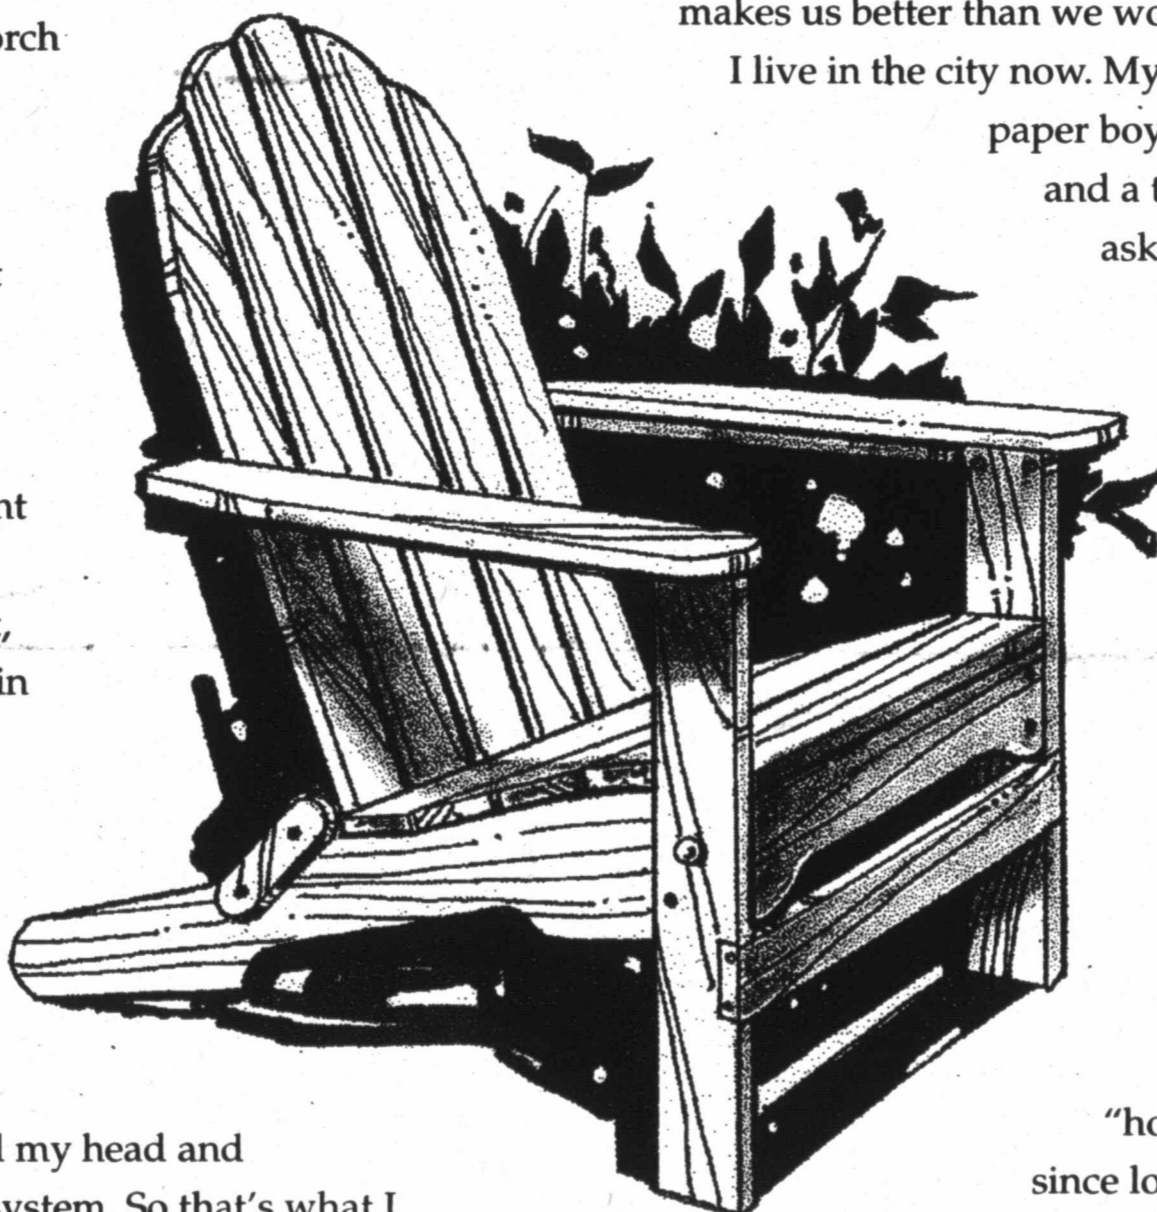

Community isn't so much a locale as it is a state of mind. You find it whenever folks ask how you're doing because they care, and not because they're getting paid to inquire.

Two thousand years ago, a church elder named Peter wrote the recipe for community. "Above all else," he wrote, "hold unfeignedly your love for one another, since love covers a multitude of sins" (1 Peter 4:8). That means when you love a person, you occasionally have to turn a blind eye toward their shortcomings.

Kind of like what my dad told me about the widow Stanley. Sometimes it's better to nod your head and smile.

Psychiatrists call that "enabling denial," but back when I delivered papers, we called it "compassion."

The 1999-2000 Academic Excellence Indicator System (AEIS) report for Tahoka ISD is available for public inspection and viewing at the following locations: the Harvick Educational Building, the City-County Library (located inside the Life Enrichment Center), and the office of the Lynn County News in Tahoka.

In addition, a copy of each campus report is available at each campus Learning Resource Center at Tahoka Elementary School and Tahoka High/Middle School.

Anyone with questions regarding information contained in the report may call the office of the superintendent at 998-4105, any campus principal or the district counselor.

Two Traffic Accidents Reported Here Monday

Two traffic accidents were reported in the city Monday, sending three persons to Lynn County Hospital for treatment. All were released after treatment.

Mary Lou Walton, 42, of Tahoka was treated for severe head injuries, but was released from the hospital later in the day. She was driving a 1996 Pontiac Grand Prix on the east access road of U.S. 87, headed north and turning west at the south overpass, when the collision occurred between her car and a 2000 Freightliner truck driven by Christopher George Michone, 26, of Burgan, N.C. He was not injured.

A collision at Ave. P and Lockwood Monday morning involved a 1996 Chevrolet pickup driven by Wayne Jeffcoat, 73, of Tahoka, and a 1977 GMC van driven

by Martina Irene Martinez, 35, of Tahoka. The driver of the van and her 17-year-old son, Lorenzo Martinez Jr., were checked at Lynn County Hospital for possible injury.

These two and Mrs. Walton all were taken to the hospital by Lynn County EMS ambulance.

Four persons were jailed during the week, including one on five charges: driving while intoxicated third offense or more; driving while license suspended, second offense; failure to identify fugitive, failure to appear on charges of public intoxication; and false report to a peace officer. The other three were jailed for driving while license suspended, passenger not secured by safety belt, and application to revoke probation on conviction for aggravated assault.

Phebe K. Warner Club Accepting Contributions For Christmas Greeting

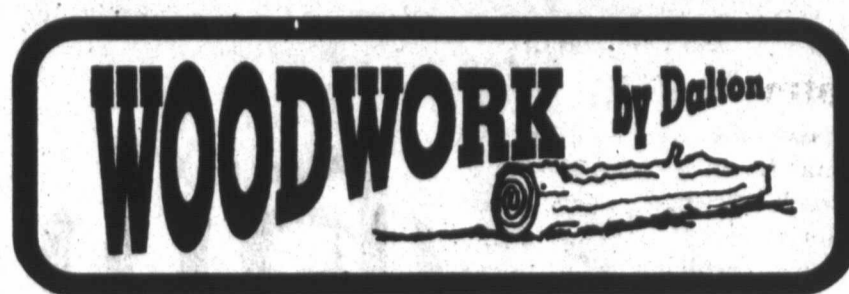

The Phebe K. Warner Club is now accepting contributions for the Community Christmas Greeting, the club's annual scholarship fundraiser, which will be printed in the Dec. 21 issue of the Lynn County News.

"This annual scholarship fundraiser lets community members send their Christmas greeting to friends, while they contribute to the Lady Dobbins Stewart or Maurice Bray scholarship funds," explained a club member. "This money is often donated in lieu of sending local Christmas cards."

In years past, a calling committee contacted community members, but this year a letter will be sent to citizens reminding them of the project.

Contributions of five dollars or more may be taken to any teller at First National Bank of Tahoka, along with the name as it is to appear in the ad, by 3 p.m. Thursday, Dec. 14. Anyone unable to make the trip to the bank may call a Phebe K. member and the donation will be picked up.

"Members wish to thank the citizens for their wonderful response in past years, and invite participation of every family in this project," said the club member.

THURSDAY, of course, is Thanksgiving, a time when we all are supposed to take time out to consider our blessings, of which almost all of us have many more than we realize.

Thanksgiving, an annual holiday celebrated in the United States on the fourth Thursday in November, originated in three days of prayer and feasting by the Plymouth colonists in 1621. Now folks mostly celebrate Thanksgiving for four days, Thursday through Sunday, although feasting usually gets more attention than prayer.

The first national Thanksgiving Day, proclaimed by President George Washington, was celebrated on Nov. 26, 1789. George didn't know it, but he should have been thankful he didn't have to wait on Florida's vote to be president.

Since the last Thursday of November sometimes was the fifth Thursday of the month, as it is this year, Congress later made the fourth Thursday the official Thanksgiving Day.

IF A FLUORESCENT light hums, says a publication called *Bottom Line*, the thing to do is shut it off, remove the bulb and tighten the ballast, and also the mounting screws. The note didn't say whether that would solve the problem, but I guess it would give you something to do.

We have a couple of fluorescent bulbs which hum in our office. One hums "O Say Can You See..." and the other one hums "Darkness on the Delta." Well, okay, I made that up. They just hum a steady, repetitious annoying sound, sort of like Al Gore making a speech.

Usually when a fluorescent light starts humming, or flickering, or turning black on the ends, we just put up with it until it quits working altogether. Then we replace the bulb or the ballast, or both. I never knew that tightening the ballast might help. I wish someone had told me this when I still could stand on a chair or stool without falling off.

Wilson schools are out for the Thanksgiving holidays with classes slated to resume on Monday, Nov. 27.

Most Wilson businesses will be open on a regular schedule on Friday after Thanksgiving with a couple of businesses taking Friday off and making a four day weekend. If the weather is nice and there is cotton to gin, then they will be there; if it's raining or snowing, other plans may be in effect.

The Wilson City Hall, Wilson State

Bank, and Wilson Insurance Agency, along with the post office will be closed on Thursday and open on Friday. The Country Store and the Mustang Grill will be open for business as usual on Thursday and Friday. School activities are on hold until next week when basketball season resumes. The Wilson junior high teams will host Dawson on Monday beginning at 5 p.m. and the Wilson JV and varsity will host sundown in a series of games on Tuesday, beginning at 5 p.m.

The annual FM 211 shootout tournament is scheduled to begin on Thursday, Nov. 30 with games scheduled for the Wilson and New Home gyms.

sity boys losing 57-36; the varsity girls winning 36-28 and the JV boys winning 42-39.

The junior high teams hosted Klondike on Nov. 13. The boys were defeated 46-32 and the girls lost by a score of 49-5.

AGRISCIENCE FAIR PARTICIPANTS - Two students from Lynn County participated in the National Agriscience Fair at the National FFA Convention in Louisville, Kentucky Oct. 25-28. Klyssa Kelln of Tahoka FFA (2nd from left) placed second in the Zoology category while Sarah Griffing of O'Donnell FFA (far right) participated in the Microbiology category. Chapter sponsors are Denny Belew of Tahoka (left) and Eddie Smallwood of O'Donnell (2nd from right).

Klyssa Kelln Gets State, National Honors At FFA Science Fairs

A science project involving a freezing process that causes minimal cell damage to tissue has taken second place at the national FFA Agriscience Fair. Klyssa Kelln, a senior at Tahoka High School, entered her grape freezing project which was to assess cell damage from several freezing processes.

For her success in the FFA Agriscience Fair, Kelln earned a \$1,500 scholarship for placing first at the state level, and an additional \$750 scholarship for placing second at the national level.

Also attending the National FFA Convention from Lynn County was Sarah Griffing of O'Donnell who exhibited a microbiology project. The event was held in Louisville, Kentucky Oct. 25-28.

The grape project model is being used by Kelln to reach a more complex issue. "My family has our own herd of cows, and we do embryo transfers for breeding purposes," Kelln said.

Kelln chose grapes to experiment with because plant tissue has definite cell walls, which would make damage easier to assess than in animal tissue. With the help of Sam Prien, Ph.D., an associate professor of reproductive physiology in Texas Tech's animal science department, with a joint appointment in the obstetrics and gynecology department at Texas Tech University's Health Sciences Center; and Supachill, a company specializing in freezing technology at Reese Center, Kelln was able to study cell damage in grapes frozen by four different methods.

For her experiment, Kelln froze grapes in a conventional freezer, in an ultra-low (-70 degrees Centigrade) freezer, in a Supachill freezing unit and in liquid nitrogen. The grapes

were sectioned and inspected for cell damage.

According to Prien, the grapes frozen in the Supachill unit only showed 12 percent cell damage, compared to 65 percent cell damage for grapes frozen in liquid nitrogen. Kelln will extend her project to animal tissue for two more science fairs in the next year. She is hoping for similar results with cattle embryos.

Betty Stennett, Tahoka high school science teacher and Kelln's sponsor for the science fair is proud of Kelln's endeavor. "Klyssa is doing cutting-edge research with brand new technology that could feasibly revolutionize ranching and cattle breeding practices. It's phenomenal that she's a small-town girl with big ideas that go way beyond grapes."

Kelln, who will graduate in May, plans to pursue a bachelor's degree in animal science.

Card of Thanks

The Solomon family would like to thank our Community of Tahoka for the love and compassion shown to our family during the loss of our mother, grandmother and wife, Vi Solomon. We appreciate everything that Dr. Fried, the EMS, the Lynn County Hospital staff and White Funeral Home did in behalf of our loved one. We appreciate all the food, cards, visits, flowers and phone calls and prayers that were given to us during this hard time.

We are so fortunate to live in this great little town with such caring and loving people that give and give and give. The blessings of our hospital, medical staff and EMS volunteers so often go un-noticed and Tahoka is so fortunate to have these facilities. We pray that our community never takes them for granted. Thanks for everything!
