Tahoka man reports cash stolen from truck

Tahoka resident David Hernandez advised police that on Friday someone took \$1,428 cash from his pickup while the vehicle was parked in the garage at his residence. A suspect was named in the case and investigation is continuing. The victim said he also was missing a wallet valued at \$9 and a 12-pack of beer worth \$15.

Police on Friday arrested a Tahoka man for driving while intoxicated, subsequent offense.

Ten persons were arrested and jailed in Lynn County during the last week, leaving the total jail population here at 41, with 16 of those held for Hockley County and three held for Gaines County.

Charges on which the latest arrests were made included driving while intoxicated third offense or more, warrant on non-payment of child support, warrant on domestic violence, possession of marijuana under two ounces plus disobeying traffic warning barricades, possession of a controlled substance under one gram, warrant on theft of property over \$500, public intoxication plus disorderly conduct, warrant on application to revoke probation on conviction of aggravated assault, disregarding traffic control device, warrant on failure to appear on DWI and open container charges.

Hospital keeps tax rate unchanged

After two public hearings with no persons showing up to discuss the tax rate, Lynn County Hospital District directors voted unanimously last Thursday to continue the tax rate at the current figure, which is 24.745 cents per \$100 of taxable value.

Board members agreed that any additional revenues raised by keeping the current rate will be used to continue upgrading patient rooms and other patient care areas in the hospital, noting that 8 of the 14 patient rooms already have been renovated.

The proposed budget was tabled

until a future meeting.

The board expressed its support of the administration.

Administrator Jim Morris advised that the hospital's annual audit will be about a month earlier this year, and also discussed some new rules from the Texas Board of Pharmacy that could have a negative impact on all ru-

President Jerry Ford presided, and all board members were present, including Jannis Horwood, Cal Huffaker, Frances Truehart, Nancy Guilliams, Victoria Baker and James Craig.

Win this TV ... Kent Elliott, owner of Fenton Insurance Agency, is donating this Toehlba 32" LCD HD TV for the grand prize drawing in the Lynn County News weekly football contest. All entries in the weekly contest, whether or not they are the weekly winner, will be entered in the grand prize drawing that will be held at the end of the 10-week football season.

Tahoka Bulldogs win season opener, 21-20

By BLAKE TURNER **THS Journalism Staff**

The Tahoka Bulldogs opened their season with a win for the first time since 2002. The Crosbyton Chiefs put up a fight until the end, but it just wasn't enough to stop the Bulldogs who won 21-20 Friday night in Crosbyton.

Tahoka scored first on a 24-yard run by quarterback Neiko Garcia with 3:55 left in the opening quarter. Cristian Ramirez kicked the extra point and the Bulldogs found themselves up 7-0. Just about 2 minutes later, the Chiefs had an answer of their own and tied the game up at 7-7. With .48 seconds left in the first quarter, freshman Ke'Shawn Hood jolted off the line of scrimmage for an 87-yard touchdown run. Again, Ramirez added the extra point and the Bulldogs were up 14-7 at the end of the first quarter.

A 19-yard touchdown pass from Crosbyton quarterback Matthew Schovajsa to Justin Reyna was the only score of the second quarter and the game was all tied up 14-14 at halftime.

Crosbyton started the third quarter off with a bang and scored on the first drive with a 15-yard touchdown pass to Michael Medina with 9:22 left to go. They missed the extra point and the score was 20-14. Shortly after the Chief's touchdown, the Bulldogs fought back and Garcia threw a 58yard touchdown pass to Hood.

With the game tied at 20-20, Ramirez added the extra point to put the Bulldogs up 21-20 for good. Tahoka's defense was strong in the fourth quarter holding the Chiefs to no touchdown and sealing the victory with an interception by Zach Garcia late in the

Hood averaged 21.3 yards per carry, gaining 128 yards on 6 attempts. Jac Calvillo gained 40 yards in 12 carries, while Neiko Garcia rushed for 84 yards on 16 carries for the Bulldogs. N. Garcia also completed 2 of 5 passes for

63 yards and 1 touchdown. On defense, Calvillo led all tacklers for Tahoka, while several of the Bulldogs recovered fumbles and made interceptions that helped out in the winning effort.

Tahoka this week plays at Ralls, which beat Sudan last Friday.

THS youth involved in shooting incident

A 17-year-old Tahoka male was involved in a self-inflicted shooting incident Tuesday night, and was reportedly in critical condition at press time Wednesday morning. The 9-1-1 call came in at 7:38 p.m., dispatched to a residence on Lockwood Street, where the youth, a high school senior, reportedly shot himself in a parked vehicle in his driveway. He was airlifted to a Lubbock hospital.

woodwork

by dalton

AMERICANS are constantly being told by newspapers, magazines, the internet and TV that they are eating or smoking themselves to death, and it is really depressing to read or hear that even some of the medications that you have to take for one ailment could easily kill you by causing something else.

Sooner or later, if you live long enough, you're going to read that something you especially like is really bad for you, and could do you in if you don't stop it immediately. On rare occasions you can read that something you like actually is very good for your health. I keep reading in the hope that I will hear about a study which concludes that M&M chocolate peanuts will make you skinny and healthy and prevent all kinds of diseases.

Of course, smokers have been told for years that tobacco is bad for you, and the habit is very hard to break. (Not for me, because I never did smoke much, just a few cigars years ago, and like Bill Clinton, I never did inhale).

I remember years ago when the smoking warnings first started, columnist George Dolan of the Fort Worth Star-Telegram wrote that some people he knew were forming a group called Smokers Anonymous. He explained that you get a buddy to help you out. When you have such a craving for a cigarette that you can't stand it, even if it's in the middle of the night, you call up your buddy and he or she comes over to your house and you get drunk together.

Like I said, smoking is not my problem; it's food, because I love to eat all the things those hateful nutrition experts say are bad for me. Someday someone may say about me, "He's gone because he enjoyed steak and gravy and chocolate pie, and refused to eat green beans and turnips."

I keep reading that gravy and French fries and pastries are bad for your health. I am about ready to do like the cigarette smoker who said, "I've read so much about cigarettes giving you cancer that I have finally decided to give up reading."

FORMER baseball star Roger Clemens this week pleaded not guilty to charges that he lied to Congress at a hearing to determine whether he (and others) used performance-enhancing drugs during his baseball

Whether he did or not, Congress has no business trying to control the actions of professional sports figures. It's not the business of Congress to spend taxpayers' money on investigations of these over-paid sports figures, and even if they are mostly dopeheads, it's the job of the sports organizations themselves to police the activities.

Congress has plenty of things they ought to be doing, like repealing Obamacare, and trying to get all our money back from Fannie Mae, big banks and auto companies which should have been allowed to fail just

Besides, how can it be a crime to lie to Congress, possibly the biggest bunch of liars in the world?

Christopher Clayton Faught and Lori Michelle Wimmer

Couple announces engagement

Terry and Sherry Wimmer announce the engagement of their daughter, Lori Michelle Wimmer, to Christopher Clayton Faught, all of Fort Worth. He is the son of Lamarvin and Jeanie Faught of Stephenville.

The bride-elect is a 2005 graduate of Fossil Ridge High School in Keller and attended Stephen F. Austin University. She is an associate branch manager for Compass Bank in Fort Worth. She is the granddaughter of Dick and Evelyn

Faught is a 1999 graduate of Stephenville High School and attended Tarrant County College. He is an air conditioning contractor. He is the grandson of Deen McDonald of Tahoka and the late Marvin McDonald and the great-grandson of the late A.E. and Joyce Riley of Tahoka.

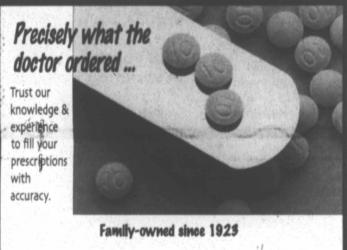

The couple will marry October 9, 2010 at the First United Methodist Church of Keller.

For more information contact Heather at First Baptist Church at 561-4557.

Apartment designer ... John L. Wilson designed and built the first new apartment complex for the general public (rent not based on income status) in Tahoka, pictured here In one of the kitchens in the 2-bath, 2-bedroom apartments. The public is invited to view the new apartments at an Open House this Sunday from 2-5 p.m. at Three Trees Apartments, located at North 6th and Ave. P. (LCN PHOTO by Juanell Jones)

New apartment building here boasts energy-efficient "green" construction

by JUANELL JONES

It has taken two years to bring his design to completion, but John L. Wilson, owner, designer and builder of Three Trees Apartments in Tahoka, is justifiably proud of his new apartment building in which he incorporated cutting-edge "green" technology for an energy-efficient complex.

Three Trees Apartments, located at North 6th and Ave. P, is made of a new aerated concrete product called AAC (Autoclaved Aerated Concrete) that is designed to increase energy efficiency, fire safety and durability, and provides excellent thermal insulation. In fact, Wilson boasts that the four units in the apartment complex are so energy-efficient that the electric utility bill in the all-electric apartments is under \$50 per

"The two units in the first floor are occupied, and I have asked them what they are paying in electric bills," said Wilson. "They tell me it runs about

\$40 a month, which is great!" Wilson is the owner of W&D Construction and Design Inc. in Tahoka, and his wife, Carolyne, is an elementary school teacher here. The couple raised their family here, and invested their time and efforts in building Tahoka's first new apartment complex built for the general public, with rent not based on lowincome status. The two-story complex houses four 1,000-sq. ft. apartment units, all 2-bed-

room 2-bath. The public is invited to an Open House to view Three Trees Apartments this Sunday, Sept. 5, from 2-5 p.m. It's the new apartment building with, yes, three evergreen trees, planted in front. And, showing support of their Tahoka Bulldogs, the Wilsons placed a concrete Bulldog just off the entry sidewalk.

Wilson, who created the design, says he enjoys cuttingedge technology and all the new products available in construction projects, and he became interested in the AAC product that was made by a German company. AAC is a mixture of finely ground quartz sand and binding material, permeated with pores and then steam cured. The result is an extremely lightweight, insulation material of a high strength category. Now available through their company in Texas, AAC is pollution free, both in its manufacture and usage: no air pollution, no soil pollution, no water pollution.

"It is a very lightweight but durable material, and when I became interested in the product and talked to the company I was told that all my knowledge about construction did not apply to this new product," Wilsonsaid with a smile. "And they were right, this is a new product unlike any I had ever worked with. The concrete blocks are eight inches thick, and I used them as both exterior and interior walls, as well as for the floors

1911 Minternal Street

Domenton, Tunas

and ceilings. With steel reinforcing rods in pored concrete throughout the construction, I believe this is not only energy efficient but structurally very sound - in fact, this is a place where I would feel safe even in a tornado," Wilson added.

Wilson does admit that he

Wilson says, on crown molding throughout. "Crown molding?" he says he asked her. "But that's an added cost," he said. She insisted that the finishing touch would be a detail that makes a home special, and, he says, she was right.

The Combests are not new to this area nor to the funeral business setting. Kevin was born and raised in Snyder, having graduated there in 1988. He moved to Lubbock in 1990 to finish his education at Texas Tech and to train to be a teacher. However, before his graduation from Texas Tech in May of 1993, his plans had already

While a student in Lubbock, ing a career in the funeral busiMoore-Rose-White Home to work at the Floydada

Kevin has been a licensed worshipped since 1998.

Tonya was born and raised in Lubbock, graduating from Monterey High School in 1989. After working with Kevin in the funeral business in Floydada and again at the mortuary, she was employed by the Texas Tech University Institute for Forensic Science. Since 2005, she

has been an active board member of the Crestview PTA, serving as president in 2007-08. She is also a board member on the Frenship Foundation for Leadership. Tonya divides her time between being a mother to Karlee, their 11 year old daughter, and being at Kevin's side both at home and in the business.

Karlee is a 6th grader at Frenship Middle School. She enjoys playing basketball and volleyball and is an avid fan of Texas Tech sports.

Kevin said, "With the purchase of White Funeral Home, God has blessed us and given us the opportunity to continue a tradition of compassion and service to the people of Lubbock, Idalou, Tahoka and O'Donnell in their time of need-a tradition carried on by Billie White-Everett for many years."

Friday night fish fry with all the trimmings from 5:00-7:30. Open Sunday. Call for take-outs at 561-1019.

Paw prints to be painted

Tahoka Bulldog Booster Club will be painting paw prints on driveways on Saturday, September 11. Anyone who would like to purchase paw prints, please call Tonda Freitag at 998-4928 before that date to get your name on the list. Each paw print costs \$5. Payment arrangements will be made when

TISD Board approves budget, keeps property tax rate at \$1.04

Tahoka Independent School District Board of Trustees met last Tuesday, Aug. 24, to conduct a public hearing on the proposed budget and tax rate, followed by a regular meeting in which trustees approved an ordinance setting the tax rate at \$1.04 for the 2010-11 fiscal year, the same rate as last year, and approved the proposed budget.

The public hearing, required by the state's truth-in-taxation laws, provided information to interested taxpayers about the proposed budget and tax rate and gave the public an opportunity to ask questions or provide input. The proposed operating budget was \$6.4 million and the proposed tax rate per \$100 value was \$1.04, the maximum the district can levy without triggering a roll-back election. School officials explained that the proposed operating budget reflects a 1.8% increase in expenditures over last year's budget. However, school officials estimate that revenue from state foundation funds and local property taxes will still fall short of funding the proposed budget.

"The District's goal is to commit to a conservative spending approach to reduce the amount that may be required to be pulled from its reserve funds during the 2010-11 school year," said Superintendent Steve Burleson. "However, on a positive note, the school district still has the balance of last year's federal stimulus dollars to use during the upcoming school year. Although there are specific guidelines as to how the stimulus money may be spent, it is hoped that some of those funds can be used to offset budgeted expenditures; and, therefore, will allow the school to provide laptops for all of our high school students in the same manner that the middle school put in place this year. This money is above our regular budget," he explained.

In other business at the regular board meeting, trustees approved a revision for school board policy EIC (LOCAL), which replaces physics with honors physics as the higher weighted science course starting in 2010-2011 school year.

"This change was needed as all of our students are now required to have four science courses to graduate on the recommended and distinguished plans," explained the superintendent.

Trustees approved 2009-2010 budget amendments, and extracurricular and co-curricular sponsor stipends were approved for the 2010-11 school year. The Board approved a pay raise for all auxiliary and noninstructional employees of 3%. The teachers will receive their state step increase but not any additional increase at this time.

"Texas is eligible for the Federal Education Jobs Fund money," said Supt. Burleson. "If Governor Perry allows us to get this stimulus money, it will be used for a one-time stipend for our teachers. The state of Texas has to submit its application for this money by the September 9th deadline. So, we'll know pretty soon about this stipend for the teachers," he explained.

The Superintendent also gave a first day enrollment report. Currently, there are 598 students enrolled in the school district, down 5 students from the first day of school last year. However, several more students enrolled each day during the first week at all three campuses, according to school officials.

The next regular board meeting is scheduled for Tuesday, September 14, at 7:00 p.m.

Certain nonprofit organizations may apply for disaster assistance

Certain private nonprofit (PNP) groups that experienced damages from Hurricane Alex and subsequent flooding may be eligible for assistance from the Federal Emergency Management Agency (FEMA).

All PNPs that experienced damages may apply for disaster assistance by calling the Texas Division of Emergency Management (TDEM), 956-718-0497. PNPs in Cottle, Floyd, Foard, Garza, Lamb, Lubbock, Lynn, Motley and Terry counties have until Sept. 13 to apply for assistance. Dawson County PNPs must file by Sept. 17.

The following generally may be eligible for assistance: educational facilities, utilities, irrigation, emergency, medical facilities, custodial care and facilities that provide essential government services. PNPs also may include museums, zoos, community centers, libraries, homeless shelters, senior citizen centers, shelter workshops, lowincome housing, alcohol and drug treatment centers, facilities offering programs for battered spouses, animal control facilities, facilities offering food programs for the needy, and daycare centers for children or individuals with special needs.

Who's your candidate? Nominate a high school girl for Harvest Festival Queen

Time is running out for area businesses, civic organizations, church groups, and school organizations to nominate a high school girl for the Lynn County Harvest Festival Queen scholarship contest. Any school organization or class, civic organization, business, or church youth/Sunday School group may nominate a candidate to compete in the Harvest Festival Queen scholarship contest, to be held on Saturday, Sept. 18. Nominees must be enrolled in a Lynn County high school.

Chairmen for this year's event are Starr Bray and Suzanne Baker, from whom applications may be picked up.

All queen candidates must sell tickets for the Harvest Festival, for a donation of \$1 for a chance to win a \$1000 trip voucher. Groups who nominate a candidate may also help sell tickets for their candidate.

Applications for the Queen contest are currently available by contacting Starr Bray at Wildcat Manufacturing, 327-5602

Gospel Jamboree

The St. John Lutheran and First Baptist Churches of Wilson will hold their annual Gospel Jamboree on September 11, 2010. It will be held on the First Baptist Church lawn located between the two churches.

There will be plenty of food, a puppet show and lots of music. A fenced playground is available for children 0-6 years. Bring lawn chairs or a blanket for seating, and a light jacket.

Dinner will begin at 5:30 pm and the music will begin soon after.

County input needed to decide natural resource concerns

The USDA Natural Resources Conservation Service (NRCS) and the Lynn County Soil and Water Conservation District invite the public and any agencies with an interest in conservation issues to participate in a Local Work Group meeting to be held at Tahoka Housing Authority (located at 1400 Ave. K) in Tahoka. This meeting will be held on Sept. 8, at 8:00 a.m.

The purpose of this meeting is to receive input from a broad range of local agencies, organizations, businesses, and individuals that have an interest in natural resource concerns and needs in Lynn County.

Input received will allow the Local Work Group to make recommendations on resource concerns to be addressed, eligible practices, and ranking for county based funding. These recommendations will be used in implementing the Environmental Quality Incentives Program (EQIP) and other conservation programs offered by NRCS.

The 2008 Farm Bill stipulates that conservation programs must continue to be locally led. Through stake holder meetings, the public is given an opportunity to help local conservation leaders set program priorities. These meetings are open to the public.

For more information, call the USDA-NRCS office in Tahoka at 806-998-4507 Ext. 3. NRCS office locations and program information can be found on the Texas NRCS Web site at www.tx.nrcs.usda.gov.

Persons with disabilities who require special accommodations and/or alternative means for communication of program information (Braille, Large print, audiotape, etc.) associated with this meeting should contact Helen Saldaña at 806-998-4507 Ext. 3.

Western Dance Friday Night

On Friday, March 29, the Lynn County Jr. Rodeo Assn. will sponsor a western dance to the sound of "Tradewinds." It will be at the Tahoka Community Center from 9:30 to 1:30. Admission will be \$2.00 per person. Come on out and have a good time!! - March 28, 1974

Tahoka Historical Marker Dedicated

Braving cold, windy weather, about 50 people attended the unveiling of the Tahoka historical marker Labor Day at 6 p.m. in

The marker wording recounts the founding of the town 71 years ago following a meeting in early December of 1902 on similar cold day near the south spring at Tahoka Lake, and other facts in Tahoka's early history.

Organization of the county and establishment of the town dates official from April 7, 1903, when the election was held to form the county.

While presiding at the marker dedication, John Ed Redwine, new chairman of the Lynn County Historical Committee, read brief history of the town.

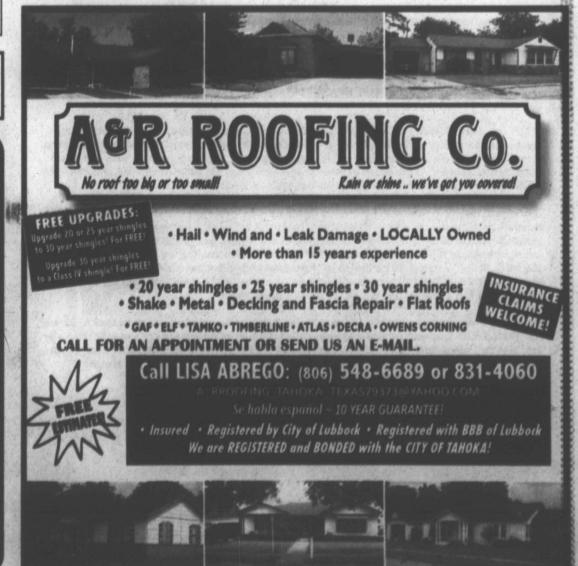

Lee Holden, president of the Lions Cub, told of the club's works in securing the marker, with help from the City of Tahoka and others. He also took occasion to tell of some of the work the club; has done in promoting a better Tanoka.

Mayor Meldon Leslie gave a brief welcome address, and County Judge V.F. Jones gave the invocation. As Boy Scouts unveiled the marker, Frank Hill read the

inscription. Among special guests recognized were: Mrs. Jewell Rodgers

of Midland and Mrs. Byrdie Sanderson of Seagraves, daughter of the first sheriff, Chas. Doak; Mrs. Aliene Prather of Cotton Cotton daughter of an early settler, Mike Redwine; and Mrs. VeNoy Sanders; of Ralls and Mrs. Jeanette Harvick of Tahoka, granddaughters the first county clerk, S.N. McDaniel, John Ed Redwine is a fourth generation resident of the county, great grandson of the M.M. Redwines, and grandson of a former sheriff, F.E. Redwine.

- Sept. 5, 1974

O'Donnell Centennial Festival is Sept. 11-12

O'Donnell will celebrate its 100th birthday with a Centennial Celebration set for Sept. 11-12, with all area residents invited to attend.

Saturday events begin with a parade at 10 a.m. in downtown O'Donnell, with booths opening at 10:30 a.m. for food, crafts and merchandise. Merchants drawings, displays and demonstrations, games for children and entertainment will be offered all day. A street dance begins at 8 p.m.

For booth information, call Frances at 428-3335.

Sunday celebration events begin with a Chuck Wagon Breakfast and Round Pen Service. The breakfast starts at 8 a.m., and the round pen service starts at 9:30 a.m., featuring Matt Ray, horse trainer and preacher.

The Grubelnik Chuck Wagon Breakfast tickets are \$12 each and must be purchased in advance. Tickets are available at at Moore-Rains Insurance, 428-

A roll call of O'Donnell area churches will be part of the celebration as well, recognizing those who attended churches in and around the O'Donnell community; both present and past churches.

Thankful for contributions

What a wonderfully generous place in which we live! The members of the Draw United Methodist Church humbly thank all those who made donations, memorials and gifts to the Draw Cemetery in our time of need. We received \$1,500 from friends, family, visitors and from those who have no ties to Draw yet felt moved to give to us in our time of need.

Thank you all so much! We invite you to take a drive to Draw and visit our cemetery and war memorial. Ricky

Barnes, Robert Costa and Fern Barnes put in many hard hours at the Draw Cemetery to make it a beautiful place for the loved ones of those buried there to find comfort.

Again, thank you for your kind contributions.

Pastor Monty Barnett and the congregation of the Draw United Methodist Church

It's time to Roof!

FEMA-1931-DR-TX PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) hereby gives notice to the public of its intent to reimburse eligible applicants for eligible costs to repair and/or replace facilities damaged by flooding from Hurricane Alex occurring from June 30, 2010 through August 14, 2010. This notice applies to the Public Assistance (PA), Individual Assistance (IA), and Hazard Mitigation Grant (HMGP) programs implemented under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5206.

Under a major disaster declaration (FEMA-1931-DR-TX) signed by the President on August 3, 2010, Amendment 1 signed on August 13, 2010 and Amendment 3 signed on August 18, 2010 the following counties have been designated adversely affected by the disaster are eligible for IA and PA: Cameron, Hidalgo, Jim Hogg, Maverick, Starr, Webb, and Zapata; the following counties are eligible for PA only: Cottle, Dawson, Floyd, Foard, Garza, Jim Wells, Lamb, Lubbock, Lynn, Motley, Terry, and Willacy; Val Verde is eligible for IA only. Additional counties may be designated at a later date. All counties in the State of Texas are eligible for HMGP.

This public notice concerns activities that may affect historic properties, activities that are located in or affect wetland areas or the 100-year floodplain, and critical actions within the 500-year floodplain. Such activities may adversely affect the historic property, floodplain or wetland, or may result in continuing vulnerability to flood damage.

Presidential Executive Orders 11988 and 11990 require that all federal actions in or affecting the floodplain or wetlands be reviewed for opportunities to relocate, and evaluated for social, economic, historical, environmental, legal and safety considerations. Where there is no opportunity to relocate, FEMA is required to undertake a detailed review to determine what measures can be taken to minimize future damages. The public is invited to participate in the process of identifying alternatives and analyzing their impacts.

FEMA has determined that for certain types of facilities there are normally no alternatives to restoration in the fluorigiam/wetland. These are facilities that meet all of the following criteria: 1) FEMA's estimate of the cost of repairs is less than 50% of the cost to replace the entire facility, and is less than \$100,000; 2) the facility is not located in a floodway. 3) the facility has not sustained major structural damage in a previous Presidentially declared flooding disaster or emergency; and /4) the facility is not critical (e.g., the facility is not a hospital, generating plant, emergency operations center, or a facility that contains dangerous materials). FEMA intends to provide assistance for the restoration of these facilities to their pre-dissener condition, except that certain measures to mitigate the effects of future flooding or other hazzards may be included in the work. For example, a bridge or culvert restoration may include a larger waterway opening to decrease the risk of future washouts.

For moutine activities, this will be the only public notice provided. Other activities and those involving facilities that do not meet the four criteria are required to undergo more detailed review, including study of alternate locations. Subsequent public notices regarding such projects will be published if necessary, as more specific information becomes available.

In many cases, an applicant may have started facility restoration before federal involvement. Even if the facility must undergo detailed review and analysis of alternate locations, FEMA will fund eligible restoration at the original location if the facility is functionally dependent on its floodplain location (e.g., bridges and flood control facilities), or the project facilitates an open space use, or the facility is an integral part of a larger network that is impractical or uneconomical to relocate, such as a road. In such cases. FEMA must also examine the possible effects of not restoring the facility, minimize floodplain/wetland impacts, and determine both that an overriding public need for the facility clearly outweighs the Executive Order requirements to avoid the floodplain/wetland, and that the site is the only practicable alternative. State of Texas and local officials will confirm to FEMA that proposed actions comply with all applicable State and local floodplain management and wetland protection requirements.

FEMA intends to provide IA program funding for disaster-related emergency housing. These actions may adversely affect a floodplain/wetland, or may result in continuing vulnerability to floods. These actions may include repair, restoration or construction of housing or private bridges, purchase and placement of travel trailers or manufactured housing units, or repair of structures as minimum protective measures. This will be the only public notice concerning these actions.

FEMA also intends to provide HMGP funding to the State of Texas to mitigate future disaster damages. These projects may include construction of new facilities, modification of existing, undamaged facilities, relocation of facilities out of floodplains, demolition of structures, or other types of projects to mitigate future disaster damages. In the course of developing project proposals, subsequent public notices will be published if necessary, as more specific information becomes available.

The National Historic Preservation Act requires federal agencies to take into account the effects of their undertakings on historic properties. Those actions or activities affecting buildings, structures, districts or objects 50 years or older or that affect archeological sites or undisturbed ground will require further review to determine if the property is eligible for listing in the National Register of Historic Places (Register). If the property is determined to be eligible for the Register, and FEMA's undertaking will adversely affect it, FEMA will provide additional public notices. For historic properties not adversely affected by FEMA's undertaking, this will be the only public notice.

As noted, this may be the only public notice regarding the above-described actions under the PA, IA, and HMGP programs. Interested persons may obtain information about these actions or a specific project by writing to the Federal Emergency Management Agency, Joint Field Office 4805 Maher Avenue, Laredo, TX 78041. Comments should be sent in writing to Bridget Zachary, Environmental and Historic Preservation Advisor, at the above address within 15 days of the date of this notice.

AVISO PÚBLICO

FEMA-1931-DR-TX

La Agencia Federal para el Manejo de Emergencias (FEMA, por sus siglas en inglés) por el presente notifica al público su intención de reembolsar a los solicitantes que reúnan los requisitos los costos elegibles por la reparación o el reemplazo de instalaciones dañadas por las inundaciones provocadas por el huracán Alex que se produjeron entre el 30 de junio y el 14 de agosto del 2010. Este aviso corresponde a los programas de Asistencia Pública (PA, por sus siglas en inglés), Asistencia Individual (IA, por sus siglas en inglés) y Subvenciones para la Mitigación de Riesgos (HMGP, por sus siglas en inglés) implementados conforme a la Ley Robert T. Stafford de Ayuda en Desastres y Asistencia en Emergencias (Robert T. Stafford Disaster Relief and Emergency Assistance Act), Título 42 del Código de los Estados Unidos (USC, por sus siglas en inglés) §§ 5121-5206.

Según la declaración de desastre mayor (FEMA-1931-DR-TX) firmada por el Presidente el 3 de agosto del 2010, la enmienda 1 firmada el 13 de agosto del 2010 y la enmienda 3 firmada el 18 de agosto del 2010, los siguientes condados han sido designados como afectados de manera adversa por el desastre y elegibles para recibir IA y PA: Cameron, Hidalgo, Jim Hogg, Maverick, Starr, Webb y Zapata; los siguientes condados son elegibles para recibir PA únicamente: Cottle, Dawson, Floyd, Foard, Garza, Jim Wells, Lamb, Lubbock, Lynn, Motley, Terry y Willacy; Val Verde es elegible para recibir IA únicamente. Es posible que más adelante se designen otros condados. Todos los condados del estado de Texas son elegibles para recibir HMGP.

Este aviso público se refiere a actividades que pueden afectar las propiedades históricas, actividades que se ubican o afectan las áreas de pantanos y la zona de inundación de 100 años y las medidas crítica dentro de la zona de inundación de 500 años. Tales actividades podrían afectar de manera adversa las propiedades históricas, las zonas de inundaciones o los pantanos y dar como resultado una vulnerabilidad permanente a los daños por inundaciones.

Los decretos presidenciales 11988 y 11990 exigen que todas las acciones federales que se lleven a cabo en las zonas de inundaciones o en los pantanos, o que afecten estas áreas, deben ser revisadas para determinar oportunidades de traslado y evaluar las consecuencias sociales, económicas, históricas, ambientales, legales y de seguridad. Cuando no existe la posibilidad del traslado, FEMA debe realizar una revisión detallada para determinar qué medidas pueden tomarse para minimizar futuros daños. Se invita al público a participara en el proceso de identificar alternativas y analizar su impacto.

FEMA ha determinado que para ciertos tipos de instalaciones normalmente no existen alternativas a la restauración en el pantano/la zona de inundación. Éstas son instalaciones que cumplen con todos los criterios que se enumeran a continuación: 1) El cálculo del costo de las reparaciones de FEMA es menor al 50% del costo de reemplazar las instalaciones completas y además es menor de \$100,000; 2) las instalaciones no se encuentran ubicadas en un canal de desvío de inundaciones;) las instalaciones no han sufrido daños estructurales importantes en una emergencia o desastre de inundación previo declarado por el presidente; y 4) las instalaciones no son esenciales (por ejemplo, no se trata de un hospital, una planta generadora, un centro de operaciones de emergencia o instalaciones que guarden materiales peligrosos). La intención de FEMA es restaurar estas instalaciones a las condiciones en las que se encontraban antes del desastre, además de tomar ciertas medidas para mitigar los efectos de inundaciones futuras u otros riesgos. Por ejemplo, la reparación de un puente o una alcantarilla puede incluir una abertura mayor para el paso del agua con el objetivo de disminuir el riesgo de derrubio.

Este será el único aviso público en el caso de las actividades de rutina. Las demás actividades y aquellas que involucren instalaciones que no cumplan con los cuatro criterios enumerados deberán ser sometidas a una revisión más detallada que incluye un estudio de ubicaciones alternativas. Si es necesario, se publicarán avisos públicos futuros en relación con tales proyectos a medida que se encuentre disponible información más específica.

En muchos casos, es posible que el solicitante haya comenzado con los trabajos de restauración antes de que se involucren las agencias federales. Incluso si las instalaciones deben ser sometidas a una revisión detallada y al análisis de ubicaciones alternativas, FEMA financiará las reparaciones elegibles en la ubicación original si las instalaciones dependen de manera funcional de su ubicación en la zona de inundación (por ejemplo, puentes e instalaciones para el control de inundaciones), o si el proyecto facilita un uso en espacio abierto, o si las instalaciones son parte integral de una red mayor que resulta poco práctico trasladar o poco conveniente desde un punto de vista financiero, como una carretera. En estos casos, FEMA debe también evaluar las posibles consecuencias de no reparar las instalaciones, minimizar el impacto sobre la zona de inundación/pantano y determinar que una necesidad pública superior con respecto a las instalaciones es más importante que los requisitos del decreto ejecutivo de evitar las zonas de inundación/pantanos, y que el sitio es la única alternativa práctica. El estado de Texas y los funcionarios locales confirmarán a FEMA que las acciones propuestas cumplen con todos los requisitos estatales y locales de protección para la gestión de zonas inundables y pantanos.

PEMA pretende proporcionar financiación del programa de lA para viviendas de emergencia en relación con el desastre. Estas acciones podrían afectar en forma adversa las zonas de inundación/pantamos, o podrían tener como consecuencia la vulnerabilidad permanente a las inundaciones. Estas acciones podrían incluir reparación, restauración o construcción de viviendas o puentes privados, compra y colocación de viviendas móviles o unidades de vivienda prefabricadas, o reparación de estructuras como medidas de protección mínimas. Éste será el único aviso público en relación con estas acciones.

FEMA también pretende proporcionar financiación de HMGP al estado de Texas para mitigar futuros daños por desastre. Estos proyectos pueden incluir la construcción de instalaciones nuevas, la modificación de instalaciones existentes que no han sido dafiadas, el traslado de instalaciones fisera de la zona de inundación, la demolición de estructuras u otros tipos de proyectos para mitigar futuros defios por desastre. Durante el desarrollo de las propuestas de proyectos se publicarán otros avisos públicos si es necesario, a medida que se encuentre disponible información más específica.

La Ley Nacional de Preservación Histórica (National Historic Preservation Act) exige que las agencias federales tengan en cuenta las consecuencias de sus acciones sobre propiedades históricas. Tales acciones o actividades que afecten edificios, estructuras, distritos u objetos de 50 años o más o que afecten sitios arqueológicos o tierras virgenes requerirán una revisión más extensa para determinar si la propiedad es elegible para ser inscrita en el Registro Nacional de Lugares Históricos (Registro). Si se determina que la propiedad es elegible para inscribirse en el Registro y las acciones de FEMA la afectarian en forma adversa, FEMA proporcionará avisos públicos adicionales. En el caso de las propiedades históricas que no se verán afectadas por las acciones de FEMA, este será el único aviso público.

Como se mencionó, es posible que este sea el único aviso público en relación con las acciones antes Como se menciono, es posible que este sea el unico aviso público en relación con les acciones antes descritas conforme a los programas de PA, IA y HMOP. Las personas interesadas puede obtener más información acerca de estas acciones o de un proyecto específico si escriben a: Federal Emergency Management Agency, Joint Field Office, 4805 Maher Avenue, Laredo, TX 78041. Los comentarios deben enviarse por escrito a Bridget Zachary, assiora de Preservación Histórica y Ambiental, a la dirección antes mencionada dentro de los 15 días posteriores a la facha de este aviso.

WE ARE BACKING THE

Nifty runner ... Ke'Shawn Hood (4) scored two touchdowns for Tahoka against Crosbyton Friday, one on an 87yard run, and the other on a 58-yard pass reception. The fleet freshman runner is running hard in the above photo, with one of his blockers being Sabino Perez (10). Trailing the play is John Ryan Barrientez (55).
