1967 C of C Membership Drive Launched

Ambassador's .Club Formed

Muleshoe has a brand new organization....one that, with proper cooperation, will be of great benefit to the city and

The newly formed organization is the Ambassador's Club of the Chamber of Commerce paints and when this goal is which came into being at the 7 a.m. breakfast meeting held at L. B.'s Cafe Monday.

Harvey Bass has been named Membership Chairman and Don Harmon elected president of the Ambassador's Club which is to serve as a membership force, securing and retaining memberships for the Muleshoe Chamber of Commerce on a continuing basis.

The Ambassador's Club members will obtain new memberships in direct ratio with the growth and development. of the city and represent the Chamber of Commerce and the city of Muleshoe as official hosts and goodwill ambassadors.

The arel receive and greet digniti es a and celebrities e city and area, attend special civic affairs and assist in ways deemed necessary and will visit all new business firms opening in Muleshoe and welcome owners to the city and extend invitations to membership in the Chamber of Com-

Memberships in the Muleshoe Ambassador's Club are earned not given and this membership is available to every woman and man member of the Chamber of Commerce. Charter memberships will be

Mr. and Mrs. Silas Short and sons, Mr. and Mrs. A. S. Berry, Hale Center; and Mrs. Roy Borchardt, also Hale Center; visited in Lamesa Sunday with Mrs. Short's grandmother, Mrs. Rena Berry and her Aunt and uncle, Mr. and Mrs. Carl Coffman.

Mrs. E. H. Kennedyvisited in Lubbock over the weekend with her sister-in-law, Mrs. Craig Woffard.

extended to the first twelve candidates to qualify by obtaining the specified 300 points of the system set up.

Each candidate for membership in the Ambassador's Club is required to earn 300 reached, they will be given a blazer with the Ambassador emblem which they are to wear to all official functions in connection with the Muleshoe Chamber of Commerce.

POINT SYSTEM One point will be given for each dollar turned in on a new member or an increase in dues fo a member. Thirty points are given for annual dues collected from a new member and 10 points for pledges dress, Five points goes with art ding an official local meeting and 25 points for attending any area function as a representative of

merce. For members accompanied by their wives at official Chamber functions, five points are earned and 25 points for increase in annual dues of \$10, or more.

Manager Bob Janca will serve as official secretary and will maintain points and a member-

MEMBERSHIP RETENTION

To remain a member of the Ambassador's Club, each will have a quota of 75 points each six months, or 150 points each calendar year. The sale of at least two member ships is required during the year.

Failure to maintain the required 150 points will be caused to return the blazer to the Chamber office and to be dropped from the Ambassador's Club. Also, failure to meet reasonable committments for greeting parties of visitations on request of the president and /or the manager of the Chamber shall be cause

of Commerce this year and an all-out membership drive has been launched with a goal of

400 set.

The Chamber of Commerce ership and from it stems community betterment . . . not for one individual or any one small group, but for the community as a whole, therefore it requires community cooperation, interest and action.

Neither is the Chamber of Commerce one man, not the manager, president or a group of committeemen . . it is you . . Mr. and Mrs. John Q. Public.

A complete blueprint of the year's work for the Chamber of Commerce has been drawn with the principal objective being "membership" thus added strength in building a better community, For this reason, the Ambassador's Club was started (see related story) to help acomplish this.

The blueprint program of action includes 14 major items. They are:

tain Speaker b. Make all nec- tries. d. Promote local July Celebration. essary arrangements for Annual Meeting.

II Finance - a. Prepare Budget b. Prepare yearly audit. III. Muleshoe Ambassadors

iness and industry. c. Visit Chamber functions (local and area). d. Work on delinquent memberships.

IV. Publicity and Information - a. Publicize all Chamber functions, b. Work for publicity about Muleshoe in area news

Chamber building and Grounds - a. Prepare plans for new building, b. Plan nec-

Mules Take Third Victory: Final Game Friday

Mules had been defeated by Canyon, 47 to 42, earlier in the season.

Taking the lead early in the their status at the end of the first quarter with the score standing at 12-6.

Mules hit only 6 points from the Five Area Telephone Coopera- field but converted 5 of 7 free time lead.

During the second half, the Eagles narrowed the margin to sisting of W. J. Ray, Edward two points in several occasions, Dewbre, W. R. Damron, Reuel but the Mules would rally and

Muleshoe Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE® 86 soil fumigant applied at only 1 to 2 gallons over-all an acre, you can take care of root-knot, sting, meadow and other nematodes-those tiny soil pests that attack plant roots, suck away profits. FUMAZONE 86 soil fumigant increases yields up to \$200 an acre. Many High Plains ranchers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No

mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowsole method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow Farm Chemicals supplier about it. The Dow Chemical Company. Agricultural & Industrial Bioproducts Sales, Midland, Michigan.

Nematodes take their cut off the top.

FRY & COX

COTTON TALKS

FROM PLAIN'S COTTON GROWERS, INC.

LUBBOCK-John A. Schnittker, Undersecretary of the U.S. Department of Agriculture, has Inc., and others to submit views on the Department's announced intention to establish 1967 cotton quality premiums and dis- \$16 per bale, up only \$1.50 counts in the 1967 loan program a bale from 1965. which will encourage the production of the more desirable types and qualities.

PCG Executive Vice President Donald A. Johnson says PCG will respond to the invitation in the near future, pointing out why manipulation of quality differentials in the loan wise, is not necessary to accomplish the Department's objective.

In a news release on November 29 last year, the Depart- years. ment wrote ". . . if at the time the loan differentials are announced certain types or qualitover-priced in relation to other types and qualities of cotton, loan program differentials for location, grade, staple length and micronaire readings will be established to encourage the production of the more desirable types and qualities."

In simple language the De- inch. partment is saying it will consider lowering the price of short staple and/or poor character cottons by some means other than the currently established and discounts in the loan

The theory is that the lower tion of such cottons and inmand by the market.

centive to grow longer staple in 1967, cotton, and that they are already It follows that a drastic recotton as fast as is economically and physically practical.

He reasons that the loan price from 29 cents per pound in 1965 to 20,25 cents in 1967 and that the only way farmers can off-

"Good quality, 1-1/16 inch cotton in 1966 brought premiums of over \$50 a bale in some areas," he noted, "and the in 1965, when 2,4 million bales economics of cotton production are forcing growers to go after such premiums wherever growing conditions will permit the longer staple cottons to be grown,"

Johnson also called attention to the fact that there is every short staple cotton in 1967 will present system of setting premiums and discounts on the basis of average spot market prices. Quality differentials in the No-C-31 sales from government stocks, also based on spot market quotations, is an

indication of this. As of the first No-C-31 sale on March 7, 1965, the spread between middling 15/16 and middling 1-1/16 inch cotton was 328 points. By the January 23 sale, the spread between the same qualities had widened to 460 points. If when the 1967

loan schedule is announced it follows this same trend, as it must be assumed it will, there asked Plains Cotton Growers, will be a spread between these two qualities of about 410 points,

or \$20.50 per bale. The difference in 1966 was

As further evidence that the Department need not hunt for ways to increase the producer's incentive to grow longer staple cotton, Johnson cited the 1966 increase in the amount of cotton grown on the High Plains stapling one inch and longer.

In 1965, 8.2 per cent of the program, arbitrarily or other- Plains crop was in that category, and the percentage rose to 13.3 in 1966 under the most adverse weather conditions seen on the Plains in many

"And 1967 planting intentions make another big jump in the amount of cotton stapling an ies of cotton are continuing to inch or more on the Plains a accumulate in CCC stocks and virtual certainty," Johnson not selling because they are says. Industry observers are estimating that at least one fourth of the 1967 crop will staple an inch or above.

This means that, with an anticipated crop of 1.6 million bales, the Plains in 1967 will produce only about 1.2 million bales of cotton stapling under an

Projecting that figure to include production from the rest of the nation (the High Plains normally grows a little over half the cotton under one inch) the procedure for setting premiums total 1967 cotton production in that range may come only to about 2,4 million bales.

PCG's statement will comprice will discourage produc- pare that porduction figure with the 2,403,419 bales of under crease grower efforts to pro- one inch cotton which "disappduce cottons in greater de- eared" from the U. S. supply in 1965 to show that a very But Johnson contends that the close balance between demand present price structure already and production of short staple gives producers sufficient in- cotton can be expected to exist

moving away from short staple duction in the price of short staple cotton could seriously disrupt the long range supply of such cotton for those mills for middling-inch cotton is down now using it as producers find

its production unprofitable. It should be considered that the disappearance figure used set increasing productions here was accumulated in 1965, costs is to raise a cotton which a year when the U.S. exported will demand a better price. only 2.9 million bales, far below expected exports in the

years immediately ahead. Also important is the fact that of under one inch cotton was sold, there was an adequate supply of all cotton qualities, and prices were well above those now in effect. So if price is indeed a significant factor in short staple cotton markets, the offtake should be greater for reason to believe discounts for this marketing year and next.

Summing up, Johnson said increase substantially under the "First, reducing the price of short staple cotton could in a very short time jeopardize the supply available to mills whose specifications it meets.

Second, incentives for quality cotton production inherent in the Agriculture Act of 1965 and the presently accepted procedure for setting loan program differentials are all that is needed to accomplish the stated objective of the Department."

Baptist Church Prepares For March Revival

Larry Flowers Enrolls at OST

Larry Don Flowers, Muleshoe in enrolled at Oklahoma State Tech, Okmulgee for the spring trimester. Total enrollment for the

vocational-technical college is 2,041. Departments showing the

are the commerce department

cent increase along with the 10.3 percent increase in the foods service department with 107 students.

men as instructors, the branch of Oklahoma State University has educated more than 25,000 persons in 35 different vocational-technical fields on a

largest percentage of increase post-high school level. Oklahoma State Tech is one

with 248 students with a 22.5 of the few schools of its kind percent growth. Drafting with in the nation. It is devoted 205 students shows a 15.6 per- exclusively to the development of industrial technicians in a residential environment. The facilities with 96 buildings house six and one-half million dollars of modern instructional approximately 140 skilled technicians and crafts-

> creation and club activities. TEAM CAPTAIN

Peter Kimener, an end from the Stategic Air Command, Arlington, Va., is captain of the

Earns Promotion

BURNS FLAT, Okla. -- First Lieutenant Tommy L. Laney, son of Mr. and Mrs. Marcus equipment. The 160-acre H. Laney of Muleshoe, has been campus has a collegiate at- selected for promotion to capmosphere in all phases of re- tain in the U.S. Air Force. Lieutenant Laney is a KC-135 Strato Tanker copilot at Clinton-Sherman AFB, Okla., with

Tommy L. Laney America's long-range huclear bomber and missile force,

The lieutenant, a graduate of Lazbuddie High School, was commissioned in 1963 upon completion of the Air Force Reserve Officers Training Corps program at Texas Technological College, Lubbock, where he was graduated with a B.S. degree. He is a member of Alpha Tau Omega,

His wife, Patricia, is the daughter of Marcus C. Park of 404 Colonial Drive, Hen-

Conferences Set to Explore Schools Social Studies A series of 21 two-hour regional conferences to explore ondary Schools and Description with local school people and of Approved Program: Grades those in teacher education in

Texas colleges and universities some of the vital issue, concerning social studies programs for grades 1-12 will be held during the months of February and March under sponsorship of the Temas Education Agency. Dr. J. W. Edgar, Texas Commissioner of Education, said two concerns to be discussed

curriculum planning and teacher education in social studies. They are (1) revisions and new materials will be called for changes in Texas Education A- in 1970. For this reason, we ency Bulletins No. 617, "Principles and Standards for Ac-

and educators responsible for

7-12," and (2) planning for new textbook materials. Revisions and changes in the

two bulletins will be iniated this spring, Dr. Edgar said. "Any changes in the two curriculum bulletins involving marked departures in scope and sequence," Dr. Edgar explained, "will necessitate the adoption of new textbook materals, if text books in current adoption for Grades 4-6, at the meetings will be of in-Grade 8, and tor American Histerest to school administrators 'ory, World History and 'Vorld

Geography in senior high school

are readopted for two years,

have to notify publishers this year of any new kinds of materials to be called for in 1970 crediting Elementary and Secor thereafter."

The first conference will be held February 6 and the last one. March 13. All conferences will be held for the two-hour period

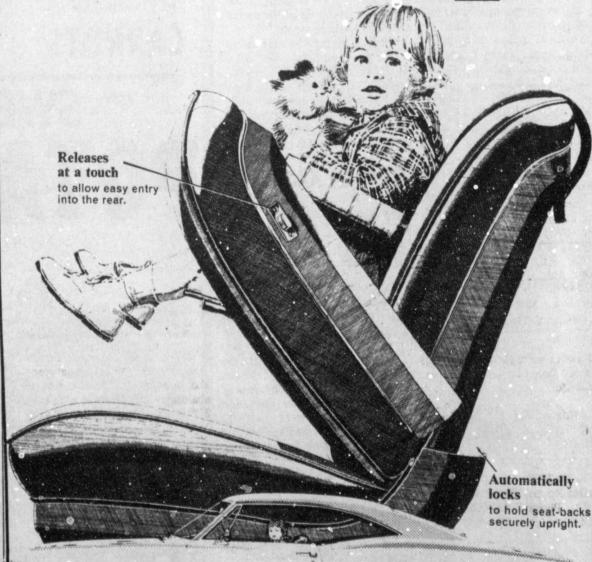

between 3:00 and 5:30 p.m. Dr. Edgar said that school superintendents, or their representatives, and two teachers or staff members representing the elementary and secondary grades of each school system are being invited to attend one of these regional conferences. Area Conferences are to be held at, West Texas State University Ballroom, Student Union Building, Texas Technological College Auditorium, Agricultural Building, at Lubbock, Dr. Morris S. Wallace; Feb. 22: Texas Western College of the University of Texas, Student Union Building, at El Paso, Dr. John W. McFarland, February 23.

Even the seats have locks in Chevrolets

We put automatic latches on all our folding seat-backs to keep them from flopping forward should you ever stop suddenly. The seat sits upright until you trip

Additional items we put into the '67 Chevrolet: handy pushbutton releases for the seat belts, an ash tray that glides in and out on ball bearings, a 4-speaker stereo tape system you can add, not to mention noticeable improve-GM ments in the way the car rides and han'les. Go to our dealer's. Drive a new Chevrolet, get a free sample of
