

**SIGNS GO UP**—The first signs of work which has begun on the Highway 84 are the signs of construction and warning signs along with flashing lights. The signs went up shortly after Kerr Construction received work order this work.

**T-I-M-B-E-R**—Some 400 trees along the 84 right-of-way are coming down. Anyone wishing to have any one of these trees may come for them according to Kerr Construction Company.

**THEY BURN TOO**—Will Mitchell is shown in this picture helping to clear Highway 84 right-of-way. In the background is the aged-old trees near the Verney Towns home being burned.

**HAULED AWAY**—The remaining debris from buildings, signs and other things are being loaded into dump trucks and hauled away. Graders are also at work along the route.

The Bailey County Legislative Community Council will hold its next meeting Saturday morning, March 18th at L.B.'s Cafe at 10:00. The program will be brought by Eric Smith regarding Education, Jack Young regarding Taxation, and Mrs. J.G. Arnn regarding the Governor's Safety Program. All interested people are cordially invited to attend.

Mrs. Ernest McNatt has completed a professional course in modern floral designing and executive shop management at the Benz School of Floral Design, Houston. She was awarded a certificate of proficiency after completing the specialized course.

Mr. and Mrs. Roger Albertson have returned from Oklahoma where they visited their parents, in Goltry, Okla. They visited her parents, Mr. and Mrs. Arthur Pekrul and their parents, Mr. and Mrs. Jessie L. Oxley, Watonga.

Recent visitors in the Lee Pool home were their daughter from Houston, Sylvia; Bruce Bishop, Canyon; Mr. and Mrs. Roger Pool, Seminole and Mr. and Mrs. Buddy Pool and Allison Kay, Muleshoe.

See MULESHOE on Page 2

**STATE DIRECTOR**—Roger Gorrell was named State Director at the recent meeting in Amarillo. Gorrell is Bailey County Attorney and is active in various organizations.

## Roger Gorrell Named Jaycee State Director

Roger Gorrell, Bailey County Attorney, was elected to the board of the Texas Junior Chamber of Commerce at the area meeting held in Amarillo recently.

The 31 year-old Jaycee is

**Budget Approved:**

**Raises Granted**

City Council met Monday and approved the new city budget with total expenditures of \$279,818.

Raises were approved for a number of city employees.

## Industrailist Speaks To Clubs

J.R. Bradley, head of Industrial Economics Research, Texas A&M University, spoke to the Rotary Club at their noon meeting Tuesday and at the Lion's meeting Wednesday concerning industry.

Bradley began his talk with the question, "What is industrial development?"

In answer, he said, "Industry is anything that adds payrolls to the community."

"Why towns want industry?" A. Broaden tax base; B. To keep young people in the town; C. To maintain morale D. To increase business activity.

"You know as Texans, when we think of industry, we think of large chemical plants and oil refineries and this is good

industry. But I want you to know the greatest potential, industrialwise, is small fabricating plants along with the expansion of the industry we have in our own backyard."

The economy of Texas is no longer based on cotton, cattle and oil - or better known as the Pick-it, Pull-it or Pump-it economy. We are gradually

moving toward an industrial economy that is widely diversified," Bradley added.

"Today, I am here to briefly discuss what a community must do internally before it tells the world "We Want Industry." Never in the history of our country have so many cities competed for so many new industries as is presently being

done today. Some cities have an effective industrial program and other cities are spinning their wheels, wasting their time and spending money unnecessarily," he said.

"There are two things a city must do in the beginning to get ready for an industrial program: 1. Organization of an industrial committee; 2. Set goals and objectives."

"If a city cannot organize an effective industrial committee, their chances of success in this competitive field are rather slim."

"If the city has a well organized industrial team with set objectives and goals we are ready to look at the next aspect of an industrial program, that is -- the inventory and analysis

See INDUSTRIALIST on Page 2

## Texas' Labor Force Exceeding Working Age

Texas' labor force is growing faster than its working age population during this decade and should continue to do so during the seventies, Richard L. Coffman, Texas Employment Commission administrator, revealed this week.

"Based on U.S. Department of Labor figures compiled in cooperation with TEC, the state's labor force is outgrowing our population chiefly because of the increasing participation of women and non-white males in the state's labor force," Coffman pointed out.

In 1960, 33% of the state's fourteen-and-over female population of 3.3 million participated.

See LABOR on Page 2

## Literary Contests Set For Muleshoe School

Preparations are being made for the annual literary contest to be held here Saturday, April 29, from 8 a.m. to noon at Muleshoe High and Junior High schools. Participating grades will be the second through the eighth.

Twenty-one divisions will form the program with entry ribbons being given for each division and ribbons will be awarded on an individual basis for first, second, third and fourth places.

General directors will be Milton Oyler, principal of Richland Hills, Bill Taylor, principal at Mary DeShazo, R.E. Everett, principal at Junior High school and Elizabeth Watson, curriculum director. Events will be Story Telling,

Spelling (three categories) Picture Memory, Declamation, (two categories) Number Sense and Ready Writing.

The Story telling event will begin at 8:30 a.m. with story reading in Room 13. Then five students each from DeShazo and Richland will tell stories in Room 14 from 9 to 9:45 for second graders. Students of the third grade will be in room 13 at 9:15 a.m. for story reading and will tell stories from 9:45 until 10:30. Judges for these two divisions will be Mary Scoggin, Wayland Ethridge and Ruby Lee Kerr with Betty Jennings as story teller.

Spelling events will begin at 8:30 a.m. for the fourth, fifth. See LITERARY on Page 2

## Money Tree To Be Given

At the close of business, March 17, St. Patrick's Day, the money tree being displayed in the window of Tri-County Savings will be given away in a drawing at 7:15.

All merchants are asked to take their registration slips to the drawing spot in front of Tri-County as soon as possible after registration deadline that day at 6:30.

## Center Marks Fruitful Year

One of Muleshoe's most useful service centers is marking its first year in existence this month, the Muleshoe Area Goodwill Service Center located in the southeast sector of the city.

Since its origin, many children has passed through the doors from many walks of life with a better understanding of life and living with others in preparation to school, church and community.

### FOUNDING

Following several months of study and concern about missions opportunity in the Muleshoe area, Rev. Don Murray, pastor of the First Baptist Church, called a meeting of interested pastors and laymen in the area.

The purpose of the meeting was to study mission needs and consider what could be done to meet these needs.

The first meeting was held in October, 1965 at the First Baptist Church with twenty-one attending from nine churches and missions.

Rev. Murray was elected as temporary chairman and asked that he appoint a committee to bring back a recommendation as organization to meet the needs.

The committee appointed were Rev. Calvin Beach, Lazbuddie, J. L. Bass, Farwell,

Rev. Troy Walker and Mrs. Verney Towns.

Recommendations were given by a number of Southern Baptist Churches and Missions in the area and a permanent organization, known as the Muleshoe Area Goodwill Service Center was established at the meeting held November 4, 1965.

However, because of so many needed repairs and changes which had to be made to the

building, the first phase of work there was not started until March 1, 1966.

The first year history of the center was slow but constant and growth in missions was noticeable. Working to support the work have been members of the Lazbuddie, Trinity, Lazbuddie Mission, First Baptist Church, and First Baptist

Church Mission.

The Llanos Altos Association has been interested in the work and in the period November 15, 1965 and January, 1967, they gave \$1,400 to make this steady growth possible.

The Direct Missions Department of the Baptist General Convention and the Home Mission Board have shared \$75. monthly support to the Center since the first of this year.

Mrs. Bill Bickle was appointed by the Home Mission Board as an associate missionary at the Center.

"The personal interest of those who have helped in many ways have made this kindergarten of Latins, Negroes and Anglos possible," said Rev. Don Murray.

### YOUTH

In addition to the younger set, the first Youth Rally was held there January 12 with 80 attending. This was the Texas New Mexico Rally. The second

See CENTER on Page 2

## Boosters Sponsor Tourney

The Boosters of the Muleshoe schools Fine Arts Department are, by popular demand, sponsoring a Bridge and 42 tournament at American Legion Hall, Thursday, March 16 at 7:30 p.m.

Everyone is to bring cards, dominoes and card tables. Prizes will be given winners and free coffee served.

The nominal charge of \$1. per person will go into the Fine Arts Department Fund.

The Fine Arts Boosters recently sponsored such a tournament to assist in raising funds for the band and choir to go to the Buccaneer Festival in Corpus Christi this spring.

## Court of Awards Slated Friday

A Court of Awards for Boy Scouts of Troop 633 will be held at 7:30 p.m. Friday in the recreation room of the First Methodist Church.

A number of first and second awards and tenderfoot awards will be presented to Scouts.

**ON THE PLAYGROUND**—Teachers join their students in playground activities at the Muleshoe Area Goodwill Center. Mrs. Bill Bickle recalls that the first of this session of classes, little Mike, one of her pupils, refused to speak one word of Spanish or English and was completely withdrawn in every respect. Now he is somewhere among this circle, happily participating in playground activities as well as classroom work.

**WEARIN' OF THE GREEN**—This is likely the most enticing 'wearin' of the green' ever seen in Muleshoe. The smiling Irishman beside it beckons to you to register at stores indicated in a previous Journal issue to register for the prize "A Money Tree" with its branches laden with more than \$100. of genuine greenbacks.

### Industrailist...

Continued from Page 1

sis of the city's assets and liabilities," Bradley stated.

"Every town has some industrial assets - it may be your geographical location, a natural resource, a human resource, or just a piece of land. It is just as true to say that every town has some industrial liabilities -- it might be man made or it might be caused by nature. From our experience in working in more than 70 communities we have found that 90 percent of the problems are man made and can be corrected by leadership from all segments of the community. This leadership must be provided from the business, political and financial members of the community. These are the organizations who stand to gain from the results of an effective program," he stated.

"There are two important aspects of the preparation of an industrial facts book:

1. What facts are collected
2. How do you present these facts.

The facts that are collected are those that are pertinent to any industry that might be interested in your town to help it determine the amount of profit it could make by locating a plant in your community. The basic facts can be grouped in the following categories: General Description, Living Conditions, Utilities and Communications, Business and Industry, Transportation, Taxation and Indebtedness, Laws and Regulations, Markets, Labor, Production Materials and Industrial Sites and Buildings.

"In these categories you can give the potential manufacturer every bit of factual information that he needs to determine whether your town is worthy of

any consideration for future plant expansion."

"The second phase of the 'Industrial Inventory' is the 'Evaluation and Analysis of the Industrial Potential.' This phase is probably more important than the Facts Book. This phase should tell the industrial committee the following:

What the community has to offer industry, What action must we initiate to establish industry here, What action can we take to minimize our liabilities, and increase our industrial potential and What industries are logical prospects for our community."

"The facts book and the Evaluation and Analysis are the tools that the industrial committee must have to plan their industrial program. Without these tools your program will move very slowly, if at all," Bradley said.

"Getting industry is nothing more than selling your community. If you have a good community and you know the facts of your community, you have something good to sell - on the other hand if you don't know what you've got and what industry your community is good for - your selling job is going to be real difficult.

"As Lions and civic leaders you play an important part in this program. You can assist the Muleshoe Industrial Foundation implement the program that they are presently undertaking."

"To organize for effective action, you must have local leadership - people who are willing to work to make their town a better place to live. If you recall Winston Churchill told the people of England that it would take blood, sweat and tears to win the war. To paraphrase Mr. Churchill we say it takes time, money and effort to win industry," he concluded.

### Center...

Continued from Page 1

Youth Rally was held in February, and others will be held in the future.

Fifty-seven were enrolled in the first class March 1, 1966. Teachers for this first session were Mrs. Larry Henry, Mrs. James Perry and Mrs. Julian Moreno. Lupe Rando was bus driver and Frank Estrado served as part-time custodian.

The current class has approximately 30 students with Mrs. Bill Bickle and Mrs. Ed Northcutt as teachers, Mrs. Northcutt also drives the bus.

"Many plans have been made for the future," said Rev. Murray. "As finances are available, cooking classes will be preceded by Bible classes. Laubach Literacy work will start within the next few weeks.

In explaining some phases of future plans, Rev. Murray said "Many have asked the question, 'What does the future hold for our area, our churches and our people in the growth of the Muleshoe Area Goodwill Center?'"

"There have been disappointments as far as not accomplishing some of the goals and plans that have been made. However, the over-all planning has a bright future for the Goodwill Center. The kindergarten is progressing so well in that supplies, equipment, and interest in that area have spurred us to do greater things."

"The plans for the future are to start securing classes to run from April 7 through May 26. This is a fairly large undertaking as the Goodwill Center will be buying new sewing machines and equipment to teach ladies to learn to sew for their families.

Churches in the area will be called on to help in this program. The ladies of the Women's Missionary Unions of various churches will be called on to help in this program, as will Home Demonstration agent, Robin Taylor.

"The ideal set-up would be for one Anglo woman to assist one Latin woman. This means that in planning one class a week to meet on Friday would have to be limited to 10. Should enough be interested, another class would be established.

The Goodwill Center Committee has authorized the Sewing machines and later add three more.

Also, patterns of all sizes, adult and children, thread, pins

REBEL PONTIAC—This 1962 Pontiac turned on some real rebel behaviour early Tuesday afternoon. The driver, Delbert Martin, Lazbuddie school bus foreman told investigating officer, Highway Patrolman Robert Shedd, Farwell, he was forced off the road one mile west of Lazbuddie by an unidentified vehicle. The car traveled, out of control back and forth across the road several times and on it's rebel course, passed through a caliche pit and back to the road before coming to a stop at the side of the road. Martin was taken to Friona hospital by Singleton Ambulance where he was held for observation.

and needles, remnants and scissors will be needed.

A nursery will be furnished.

This summer, the State Missions Department has assigned two summer missionaries to come to the Goodwill Center for ten weeks to hold Vacation Bible Schools and help in the adult work. The Bible School will be for beginners, primary, junior, and intermediate age children.

Plans for a preserving of foods class are being made to start during the peak of vegetable season. Also, plans are underway for a pre-natal course for expectant mothers, possibly to start this summer in June.

Next Fall will be reserved for beginner and advanced sewing classes.

Officers of the committee are Don Murray, Chairman; Calvin Beach, vice-president; and Mrs. Johnny Shelton, secretary treasurer.

### Labor...

Continued from Page 2

pated in the labor force. By 1970, about 38.5% of the state's 4.1 million women over 14 are expected to be working. The rate is expected to be 42% by 1980, when the fourteen-and-over female population should reach over 4.8 million.

By comparison, the labor force participation rate of males 14 and over is expected to decrease from 78.8% in 1960 to 77.4% in 1970 and to 77% by 1980, when Texas male population 14 and over is projected to reach 4.4 million. All of the male decrease will be accounted for by the decreasing participation rates of males 55 and over, which will fall from 60.2% in 1960 to an estimated 58% by 1970 and a projected 54.4% in 1980.

Projections indicate that the labor force participation rate of non-white males in Texas will climb from 72.4% in 1960 to 76.2% in 1970 and 78.6% in 1980. By 1980, it is expected to overtake the declining general Texas male projected rate of 77% and to extend its 3% 1960 margin over the national non-white male rate to a substantial 3.7%. The 6.2% 20 year increase in Texas' male non-white rate will exceed the expected modest national non-white increase of 2.8%.

The general Texas female participation rate will increase by 9% from 1960 to 42% in 1980 while the 1960 non-white female rate is expected to increase by only 4.5% to a projected 48.1% in 1980. Nationally, the non-white female rate rose from 41.8% in 1960 to an estimated 45.4% in 1970 and is expected to drop slightly to 45% by 1980.

Slightly increased participation rates are expected to be registered by Texas males 14 to 24 (59.7% to 62.3%) and 25 to 54 (94.9% to 96.2%) during this 20-year period. The participation rate for females 14 to 24 has jumped from 27.8% to 34.5% during this decade and is expected to move up to 38.5% by 1980. Biggest gains during the 20-year period, however, will be registered by females 25 to 54 years of age with an 11% gain to 51.2% by 1980. Over the twenty year period, a gain of 6.5% in the participation rate of females over 55 - the slowest gaining female group - is expected to more than double the 3.1% gain

### Literary...

Continued from Page 1

sixth, seventh and eighth grades.

The fourth grade students, 10 from Richland Hills and 10 from DeShazo will meet in Room 12 from 8:30 to 9:30 a.m. Words will be chosen from the Fourth Grade textbook and given for the contest.

Rhonda Wagon will be director with three future teachers as graders.

Fifth and Sixth grade spelling will begin at 8:30 also with a total of 30 students. There will be 10 each from DeShazo, Richland, and Junior High school. This group will meet in Room 11. Bee Miller is director and graders are to be Doris Brown, Johnnie Patterson, Mary Sanders and Future Teachers.

Seventh and Eighth grade spellers are to be in Room 16 of the Junior High School building at 8:30 a.m. with eight from each of the two grades contesting. Words will be given from a 120 word list. Lucy Faye Smith is to be director.

Picture Memory will be held in the High School library at 9:45 to 11 a.m. Forty students from the fourth and fifth grades will participate; 10 from both elementary schools in the fourth grade and 10 from both schools in the fifth grade.

Directors will be Elizabeth Balck and Rollie McNutt with art students as graders.

The Declaration event will be held in the High School auditorium beginning at 8 a.m., with the seventh grade boys and girls and the eighth grade boys and girls with four boys and four girls from each of the two classes.

From 9:45 to 11 a.m., the sixth grade boys and girls from Junior High School will compete followed by the boys and girls from the Fifth grades of DeShazo and Richland Hills.

Kerry Moore will be the director of Declaration.

Number Sense will be held in Room 22 of the Junior High School beginning at 9:30 a.m. with eighth students from the Seventh and Eighth Grades participating.

Clarence Hawkins will be director.

Kathleen Francis will direct the Ready Writing in Room 7 of the Junior High school beginning at 9:30 a.m. There will be four contestants from each the seventh and eighth grades, participating.

## CHEVY'S BONANZA SALE

Watch Lorne Greene, star of Chevrolet's "Bonanza", each Sunday night on NBC-TV.

### A Different Kind of Sale You Can't Afford to Miss

Some sales offer stripped down, bottom-of-the-line cars at low prices. But look what your Chevrolet dealer's offering during March. Five popular accessories and options on a handsome Impala V8 Sport Coupe, or if you prefer, a 2-Door or 4-Door V8 Bel Air Sedan. And best of all, you're getting the car you want at a price you can afford in plenty of time for traveling this summer. Just check the extra low price with your dealer. Hurry.

You pick the car now and we add this:

Every sale car comes with five handsome whitewall tires, four dressy wheel covers, bumper guards for the front and rear, two handsome wraparound lights for the front fenders and even a pushbutton AM radio. You'll notice, every option and accessory in the package is there to make the car you choose more luxurious, more finished.

For even more enjoyment, specify these:

Order power steering and power brakes and your Chevrolet dealer includes them at a special Bonanza Sale package savings. If you've

never had power steering and power brakes, now's your chance.

**BONUS—BONUS—BONUS!**

While the Sale is on, you can order Chevrolet's big 275-hp Turbo-Fire V8 engine together with Powerglide and save yourself a bundle. Both the engine and the Powerglide come specially priced.

**Truck Buyers—You save now, too!**

Need a pickup? Look what your dealer has in store for you. A handsome half-ton Fleetside pickup (Model CE10934) with 175-hp V8, a pushbutton radio, chrome hubcaps and custom appearance and comfort items all wrapped up in one low-priced Bonanza package.

Bonanza Sale Days Are Slipping by Fast.

## Lazbuddie Sports Banquet Held in School Cafeteria

by Mrs. C. A. Watson

The Lazbuddie School Cafeteria was the scene of the

All sports Boosters Banquet Saturday night. School colors of black and orange carried out the decorations with a goal post at the end of tables bearing crepe papers dangled as a memo of the post on the football field where the Longhorns made many touchdowns. Miniature creatures to represent players in football, basketball and track also carried out table decorations. Crepe paper footballs also were seen here and there for memos of the past season.

Mrs. D. B. Ivy, Mrs. Max Steinbock and Mrs. Volley Hodges were credited for most of the unique decorations.

Both coaches, Bob Coleman and Eddie Wilt were recognized for their outstanding work in football and basketball the past season. They introduced each player in the teams also members of the Lazbuddie track team were recognized. Perry Parham was named all district quarterback and will receive the award at a later date. Also both coaches were presented honors by members of the Boosters Club.

Workers of the Lazbuddie school cafeteria prepared the food for the banquet. The guest speaker was assistant coach Teaff from Texas Tech. Mrs. Helen Carthel, Mrs. Annie Cargile, Mr. and Mrs. John Agee, Sr. and Mr. and Mrs. John Neil Agee were in Lubbock Sunday to see the film "The Bible."

Mrs. Cargile also visited her nephew, Rickie Tarnell, age 14, in the Methodist hospital while in Lubbock. Rickie suffered burns recently near his home in Floydada when he and a friend attempted to shake a rabbit from a pipe. The pipe

contacted a highline wire causing severe burns. He is slowly improving, Mrs. Cargile states.

Mr. and Mrs. Richard Engleking and Mr. and Mrs. Fred Wilbanks returned Wednesday from Marshall, Ark. where they attended the funeral of Mrs. Wilband's mother and Mrs. Engelking's grandmother, Mrs. W. L. Stephenson. The Wilbanks also stopped at S.W. College to get their son, Paul, who accompanied them on the trip. They reported 15 inches of snow had fallen and mountain driving was hazardous.

Birthday Greetings this week go to: Delayne Steinbock, Rosa Ramon, Gearldene Broadhurst, Melanie Precure, Jeffery Warren, Beverly Johnson, Gaylon Beavers, Charlotte Davis, David Rocha, Sidney Bond, Judy Ann Clark, Sammie Lee Cox, Jerry Don Glover, Judy Brown and Kent Seals.

The Parmer County 4-H show will be held in the Hub Community Center Saturday March 18. Lazbuddie members will be on hand with their entries. The food will be judged on the preparation and knowledge the members have learned. The food will be on display after 3 p.m. Adult leaders will serve refreshments.

Mr. and Mrs. Olen Ivy and Mr. and Mrs. Junior Matthew visited the Chunky Ivy family in Clovis Sunday.

Mrs. Fred Graham was in Elida Thursday of last week to visit a sister-in-law Mrs. Mary Rush.

Mr. and Mrs. Charlie Watson were in the church services at Clovis at the Primitive Baptist Church Sunday.

Mr. and Mrs. Robert Ivy are parents of a baby girl born in the Friona Community hospital March 1. She has been named Stacey Michelle Ivy. She weighed 6 lbs and 2 oz. Grandparents are Mr. and Mrs. Dean Bingham, Friona and Mr. and Mrs. D. B. Ivy, Lazbuddie.

Named as all district players on the Lazbuddie Girls district B team are: Tammie Jennings, Connie Harlin and Carolyn Morris. All district players on the boys team are Timmie Foster, Gary Matthews and Johnny Broyles. Troy Steinbock was named Honorable mention.

## Fall Calves Wean Heavier

McGREGOR—Calves born in the fall at Texas A & M University's Livestock and Forage Research Center here have heavier weaning weights.

Walter Kruse, A & M researcher, says calves born in September, October and November have averaged a 180-day weaning weight of 455 pounds in 11 years -- top for any season.

January and February calves were slightly lighter and March and April calves were even lighter, he says. May and June calves have been lightest of all -- some 27 pounds lighter at weaning than those born in the fall.

Another interesting point, says Kruse, is fall calves have had smaller birth weights. They are smaller by about 4 pounds at birth than calves born in other seasons.

This is important, he says, because smaller birth weights reduce calving difficulties.

Reason for the increased weaning weights of fall calves, says Kruse, is when good grazing becomes available in the spring, calves are large enough to make good use of the increased milk from the mother.

But even with these results Kruse says he wouldn't recommend fall calves for everyone. A cattleman shouldn't plan to have fall calves unless he grows plenty of winter pastures. It naturally takes more feed to winter a cow with calf at side than it does a dry, pregnant cow.

A good rule of thumb, he says, is to plan calves 30-90 days ahead of the grass, whether the calves come in the fall before temporary winter pastures or in the spring before permanent pastures green up.

#### WIFE MISPLACED

MYRTLE BEACH, S.C. — A tourist, after spending the night here, appealed to the Chamber of Commerce for help in finding his wife. He couldn't remember which of the town's more than 200 motels they had checked in to.

The man had left to get gas for his car and when he headed back to pick up his wife he realized he didn't know which of the numerous places along the Ocean Highway was home base. Policemen took him from motel to motel and hours later, he finally hit the right one and was reunited with his wife.

#### ADMISSIONS

Mrs. Wanda Tamplar, Mrs. Mary Winslow, Mrs. Melba Davis, Mrs. Anita Flores, Andy Flores, Gayle Mills, Mrs. Myrtle Stanford, Eddy Thom-marson, Mrs. Charlie Steele, Mrs. Diane Heathington, Mrs. F. M. Scillian, Emma Matthews, Silvia Guena, Frances Caudle and Mrs. Ruby Elliott.

#### DISMISSALS

Ernest Rose, Chester Layne, Gertrude Tucker, Mrs. Mary Cuellar and baby boy, Mrs. Anita Flores and baby girl, Kevin Mick, Bud Shockley, Mrs. Flo Morris, Astor E. Hanson, Mrs. Mickie Faust, Mrs. Wanda Tamplar, Frances Caudle, Miss Lola Copley and Mrs. Victoria Copley.

Cotton Saver

Lanstan

Seedling diseases of cotton used to mean skips in rows, and replanting costs. Not now. There's Lanstan. Niagara's highly effective new soil fungicide. Rhizoctonia, Pythium, Thielaviopsis, Fusarium (sore shin, damping off, nub root, root rot)—Lanstan controls them. Try it. Granular, or in combination with PCNB—directly in the furrow. For a good even stand.

TAX MAN SAM SEZ

The good tax folks tell us that there are many retired taxpayers who failed to claim the retirement income credit to which they are entitled on their income tax return. If you are retired or if you are receiving retirement income, be sure to read the instructions carefully to make sure that you don't owe tax dollars that you don't owe.

Second Debut for Mother

Now Mother can smooth out her facial lines right at home—thanks to a new non-surgical face-lift discovery called 2ND DEBUT. It contains skin-smoothing CEF-200 (CEF-1200 for the face over 40). 2nd D but is a moisturizing skin lotion that smooths out facial lines . . . helps return eyes, mouth, chin and neck to firm, more youthful tone and softness. The process is simple: it's based upon resupplying the skin with the natural ingredient through which the inner cells obtain and retain much-needed water moisture. This ingredient is called CEF . . . Cellular Expansion Factor. 2nd Debut is a non-surgical face lift that gives Mother a more youthful look fast. Get it at your drug or department store today.

# No Witch Hunt Needed

One of the great American sports of recent years has been that of public (often congressional) investigations of hot debates on spicy or serious policy questions.

When it was disclosed recently that CIA funds had gone to student organizations for many years, a wave of indignation swept the country and the press, in some cases understandably, and there were demands that a public hearing of the entire business follow.

When one carefully and unemotionally considers the situation, it will be recognized that the CIA was acting primarily to prevent Communist operators, with funds, from winning over student organizations. This has been an old tactic of the Communists and had not the CIA taken an active role in countering these efforts certain students and student groups might have become Communist-dominated.

Even recognizing this threat, of course, there are reservations about the federal government paying students to remain patriotic and there is need for a review of the entire situation by an eminent panel or investigative body—but not an open investigation. One study panel is already involved in such a study, that headed by Undersecretary of State Nicholas Katzenbach.

This would hardly be an impartial body, in the minds of many, and it would seem that in addition to that investigation, and even congressional inquiries, some non-partisan, highly respected and highly informed group of citizens should pursue the question of CIA subsidies and policy in the United States.

# LBJ Critics Ignore Facts

Guest Editorial

Subjected to criticism from within and without, President Johnson has steadfastly clung to a common sense policy regarding the war nobody wants in Vietnam. Any fair analysis would show that much of the criticism leveled against the President is for situations caused and controlled not by him but by his critics, foreign and domestic.

The President is subject to clamor at home from those, like Sen. Robert F. Kennedy of New York, who would halt the bombing of North Vietnam unconditionally. This should be done, the anti-bombing school chants, in order to give the North Vietnamese a chance to sue for peace.

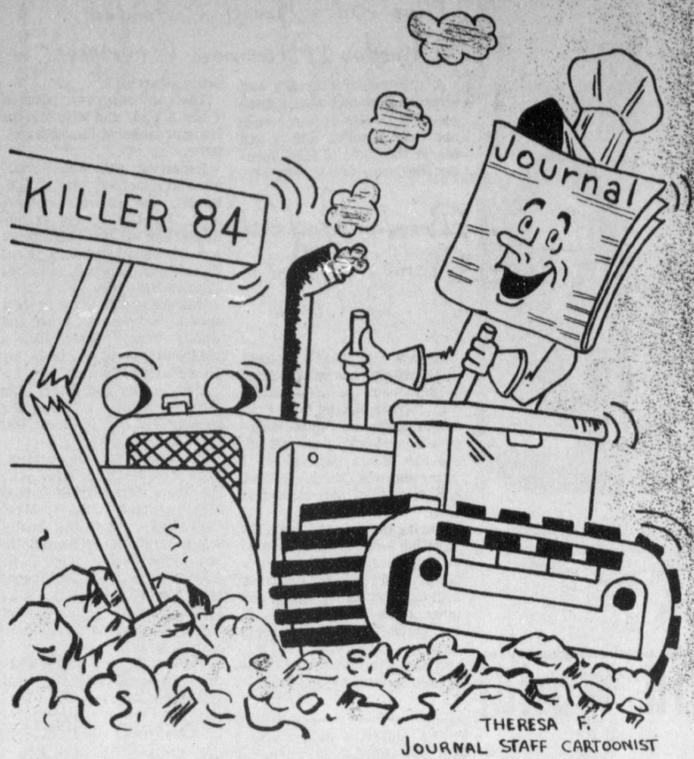

But the bombing has been halted before for various periods of time, and the President has made and continues to make it clear that the bombs can be halted for good anytime North Vietnam chooses to give a sign it will negotiate. Thus far that sign has not been made apparent; yet for this the President, not Hanoi, is criticized.

There is no evidence that another halt to the bombing would bring peace; there is plenty of evidence that a halt would stimulate North Vietnamese transportation of men and material to the South.

Similarly, the cries of these antibomb critics at home must raise the hopes of Hanoi for an American weakening of resolve. It would be strange if Hanoi's strategists did not rationalize that if they only hold out long enough, the President either will have to bow to his critics or the critics may assume power, allowing for peace at terms more advantageous to the Communists.

The actions and words of critics here at home feed the will of North Vietnam to resist. And this Hanoi resistance in turn is fuel for the anti-bomb critics here at home. The loser, in terms of criticism, is the President. The higher loser, unless the public here understands the President's plight and supports his resolve, can only eventually be the interests of democracy, self-determination and the containment of communism.

San Angelo Standard Times

PROGRESS . . . can be more than just a dream.

# John Tower

We have been reading and hearing a good deal in recent days about the Draft law --- the Selective Service system by which we choose the men needed to maintain our nation's defense forces.

There have been suggestions that our Draft law is not as fair as it might be. There has been considerable hue and cry that it is not "equal." It is said to impose too much uncertainty and anxiety upon our youth, their parents, their schools and their employers or prospective employers.

I think there is room for improvement in Draft regulations and procedures. But, I hope Texans will not lose sight of one important thing.

What we must remember is why we have a Selective Service system at all.

And, the reason we have one, is a matter of national defense. We select men today --- as we have for years --- so that our nation always will have the very best possible defense forces in time of need. It is not the responsibility of the Draft to improve youthful morality, to increase education, to upgrade physical capabilities, or to see that everybody has equal service. On the contrary, it is the responsibility of the Draft to select, in orderly fashion, the best young men available when their country needs them.

In the case of the Draft there never can be equality of risk among all young Americans because; first, there are more young men today than our military forces need; and second, some of them are not mentally or physically able to do the jobs our defense requires.

Each year our weapons, vehicles and communications become more complex and more sophisticated, needing more technical operation. Thus, our defense forces today must be

ever more carefully selected for mental capacity, maturity and aptitude.

And, because of the recurring, unexpected, unpredictable crises forced on us by aggressive Communism, we must have great flexibility to expand our defense forces on short notice. Much of the uncertainty associated with the Draft is uncertainty caused by the international moves of the Communists.

In addition, today's Draft operates --- as it has traditionally --- to preserve and to reinforce the American concept of the citizen-soldier who accepts an obligation to serve in the defense of freedom and national security when needed. Americans have long understood that sometimes military service must be borne by a few free men so the freedom of all can be safeguarded.

So, while there are some technical tinkering we can undertake to improve the draft, we must constantly keep in mind this fact: the Selective Service system has passed the most important test of all --- the test of battle. The Selective Service system has provided our nation today in Vietnam the very best soldiers this world has ever known.

This Draft system is not new, it has been evolved through years of trial and error in war and Peace. It is basically sound and must be preserved so long as tyranny threatens in this world, but we can decrease some of the uncertainties about who will serve and when.

I believe we can improve our deferment provisions as the

President has suggested, maintaining undergraduate college deferments but ending graduate deferments --- with those deferred liable for Draft vulnerability later upon their graduation.

And, I tend to support the President's call for primary Draft vulnerability at ages 19 and 20, rather than throughout the period from 19 to 26. With fewer years of prime vulnerability, our young men will be better able to plan for the future --- much of their current uncertainty will be alleviated.

There has been a lot of talk, too, about some sort of lottery selection system. I think much of this so-called dispute is semantic. It would not make sense to substitute total chance for rational selection of these key defense personnel. But, I don't think anybody really envisions that kind of national lottery.

I expect that after Armed Services Committee hearings next month we will find the President and Congress agreeing on minor revisions in deferment and age; but within the framework of the existing, locally responsive Draft Board system whereby state quotas equitably distribute the responsibility and a fair system of random selection --- by date of birth or by numerical lottery --- chooses from the 1-A eligibility group.

The Draft should not be subverted for civilian social goals. We should not draft men less able to meet military demands. We should continue to allow education deferments so our services can choose highly-trained men when they are needed.

National Defense is the Keystone. When we need Draftees we need them quickly; we need them badly; and we need the best.

It will never be equal for one man to die while another lives. But America lives today because, throughout our history, men --- called to service by their peers --- have fought for freedom, and have saved it.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

AUSTIN

Now that virtually all the bill-introducing has been done, Texas Legislators can get down to the business of thrashing out laws.

Under the State Constitution and the rules of each house, a four-fifths vote must be obtained for a bill to be introduced in either house after the first 60 days of the session. That deadline came at the end of last week.

As the 60-day deadline approached, the House had about 1,200 bills on file. Senate had another 500 bills. In addition to these, each house has a number of resolutions to consider.

Subject matter ranges from minor local measures to proposals for sweeping overall changes in the constitution and state agencies.

That 60-dayline is a magic number in the Senate for another reason, too. A four-fifths vote in the upper chamber is necessary in order to bring up a bill for final action before the first 60 days have elapsed.

Actually, the House is similarly restricted, but the members voted to suspend that rule early in the session.

## NEW BOARD PROPOSED

In order to mobilize Texas' vast agricultural resources another board is proposed. It would be known as the Texas Agricultural Development Board.

Noting that Texas is falling behind in the relative growth of one of its key industries, the interim House Study Committee suggests that a 15 member board representative of all areas of the state be appointed by the Governor.

Its duties would be to inventory agricultural assets and needs, establish goals for the industry, prepare an agricultural market program, develop

new ways of converting raw agricultural products into marketable items and perform other similar activities designed to boost agriculture in the state.

## TAX HEARINGS ON

Major portions of the Governor's \$187,300,000 tax program came under heavy fire at initial House revenue and tax committee hearings. Industry spokesmen suggested a general sales tax hike as preferable.

Gas industry representatives oppose the proposal to increase the natural gas production tax from seven to eight per cent.

Breweries objected to beer being placed under the general sales tax.

Surprisingly, corporations did not speak out against the recommended increase in the corporate franchise tax rate (from \$2.25 to \$3 per \$1,000 on capital and surplus with a gradually decreasing levy on debt).

Opposition to boosting the gasoline tax from five to six cents a gallon will come at a second hearing set for March 14.

Another big date will be March 21 when the controversial liquor-by-the-drink bill comes up for tax committee review.

A tipoff to opposition strategy was given by William H. Abington of Texas Midcontinent Oil and Gas Association when he suggested the Legislature might find its revenue-raising job easier by adjusting the sales tax.

Lt. Gov. Preston Smith says he favors the sales tax approach if new money must be found. He still insists that the budget can be balanced without any new taxation.

Smith indicated that the optional one per cent city sales tax bill already passed by the House will be okayed by the Senate.

## REDISTRICTING "GETS WORSE"

Redistricting is going to be a bigger headache this year than in 1965. Sopredicts House Speaker Ben Barnes after studying legislative and congressional reapportionment problems.

Some Texas congressmen reportedly are upset. Rep. Gus Mutscher, Brenham, chairman of House district committee, Sen. J.P. Word of Meridian, his Senate counterpart, and Sen. Ralph Hall of Rockwall visited Washington over the weekend to talk with congressmen and swap ideas.

Numerous redistricting bills are in the hopper.

## NEW GOVERNOR

Texas will have a "new" governor on March 28. On that date Sen. William Patman of Canado takes his turn as acting chief executive.

Patman is president pro tempore of the Senate. Each holder of that office traditionally serves as "Governor-For-A-Day" while both the governor and lieutenant governor are out of the state.

Citizens form Patman's 14-county 18th district will be honor guests for the occasion. They will attend an all-day reception in the governor's office and take special tours of the governor's mansion and capitol complex. Patman will sign proclamations, honorary appointments and bills.

An exhibit by artists from Patman's district will be displayed in the capitol on that date.

Recalling that the first seat of Texas government was at Washington-on-the-Braxos (in Patman's district), a special display of historical items from the area also will be set up. These will be in the State Library and Archives Building.

## SCHOOL TESTING

This spring approximately 80,000 seniors in 296 high schools in 128 school districts will be given an opportunity by the state to analyze critically and constructively their schools and their teachers.

Public School Education Committee is sponsoring the unique questionnaires. Purpose is to measure what the students have learned and how well they can use their knowledge.

Results of the study will be later to a massive data-gathering project of give a full picture of the state's public-school-education system.

## MANSSION GROUNDS

Mrs. John Connally has unveiled a model representing detailed plans for landscaping and beautifying the grounds of the Governor's Mansion.

She used the unveiling to launch a statewide fund-raising project, in coordination with the new Texas Fine Arts Commission and the Texas Garden Clubs. Project is to be financed completely by donations.

Plans for the habilitation of the grounds were drawn up by Joe Lambert of Dallas. Specifications are being drafted by the State Building Commission. Construction is to begin this summer.

## SNIPER TOOK DRUGS

University of Texas sniper Charley Whitman "ate" amphetamine drugs "like popcorn," and found a seemingly endless supply through illegal sources. A legislative committee was given this information.

See HIGHLIGHTS on Page 12

# Chamber of Commerce Community Progress

Cooperation means success. Cities do not just grow - they are a result of unending work by groups of citizens who place the welfare of all above their own private wishes.

Muleshoe today is what our forefathers made it. The Muleshoe of tomorrow will be just exactly what the present generation sees fit to make of it - nothing more, nothing less.

Regardless of our individual desires to build well, we cannot, by ourselves, do very much. It must be a combined effort, and that is where organizations like the Chamber of Commerce can enter into the picture.

Here, every citizen has opportunity and privilege of joining with others to help make the city whatever we as a group may desire.

Nationally and internationally we are reaping the results of non-cooperation. We see it every day in our television news broadcasts and in the headlines of our papers. If we fail to cooperate in the city we, too,

will get the same disorganized results.

It is not idealism. It is just good common sense for all of us to think and work for the community as a whole. Individual results will follow as surely as night follows day.

Labor will have more work and better conditions - the farmer will have a better market and good prices for his products - industry will sell more goods. All of which means for business for the retailer.

A cycle has been set up, but not a vicious one and not a deadly one, and all possible only if each group recognizes the rights and views of all other groups. Otherwise, it is and will remain impossible.

Your Chamber of Commerce is the ONLY community organization which offers a common meeting ground for the whole community. It makes no attempt to dictate but stand ready to cooperate with all. Do your part and become a part of that cooperation.

**PREVENT POISONING**  
Medicines cause most accidental poisonings in children. Aspirin heads the list. Children under 5 years of age who swallowed aspirin were the victims in one-fourth of all cases of accidental poisonings reported last year to the National Clearinghouse for Poison Control Centers.

*Members Will Attend Meet*

Nearly 3,500 Future Homemakers of America from 150 chapters in thirty eight Panhandle-South Plains counties of Texas will converge upon Lubbock Friday night, March 17 and Saturday, March 18, for the annual meeting in which several Muleshoe students plan to attend.

The special activities for the convention, which will have as its theme, "Twenty One Years, Foundation for Progress" will be centered around a birthday banquet and other celebrations as the National Association celebrates its twenty first birthday through out America.  
Twelve hundred youth and their advisors will attend a birthday banquet Friday evening at 6:45 p.m. in the school cafeteria at Monterey High School when Lewis Timberlake, Austin, State President for Jaycees, will speak to them on "With Citizenship Comes Responsibilities." Carol Alley, Hale Center, Area I Third Vice President, has been in charge of the banquet program and will preside during the evening of entertainment. She will be assisted by three other Area Officers, Cynthia Guthrie, Area Historian, Plainview; Gloria Ballew, Area Treasurer, Amarillo High School; and Charlene Erwin, Second Vice President Palo Duro High School, Amarillo.  
The Monterey High School Stage Band will provide music during the banquet and the Hale Center Stage Band, under the direction of J. W. King, Jr., will bring Music for Teens during the evening program. Other features on the banquet program are singing groups from Muleshoe, Hereford, Lockney, Dimmitt, Duntar, and Amarillo High School. The FHA Chapters from Amarillo High will light the candles of the birthday cake, with each candle representing one phase of the organization.  
Simultaneously with much of the banquet will be the meeting of the voting delegates in a business session at Texas Tech. The meeting will be in the Home Economics Building. The members of the Phi Upsilon Omicron will be hostesses for the high schools girls, Martha Grulkey, Parliamentarian from Adrian, will preside during this session. Newly elected officers will be installed at the last session of the meeting on Saturday. New officers will also be treated to a breakfast Saturday morning at the In Town Inn by the outgoing officers before going to the morning session at the Municipal Auditorium.

Three Area I Homemaking Teachers will receive the Honorary Membership from the Area presented by Janie McManigal, Area President. These are: Mrs. Pauline Keyes, Coronado, Lubbock, Mrs. Keyes was on the original committee in the state to organize the Future Homemakers of America more than twenty one years ago. The others are Mrs. Karlene Moore, advisor to the Area President, and Mrs. Valoris Osborn, Friona, Advisor to the Fourth Vice President. New officers will be installed by Terri Lynn Wilson, State Parliamentarian, from Friona. Officers will be elected Friday night.

ing the first session will be Jamie Henderson, Frenship, Area I First Vice President. Janie McManigal Area President from Happy, will present special recognition to guests. She will be assisted by Cynthia Guthrie, Historian from Plainview Lyna Pitt, Corresponding Secretary from Muleshoe, and Terri Lynn Wilson, State Parliamentarian from Friona. Those to be honored will be high school principals and school administrators of the area officers, along with the advisors of each officer. These will be presented certificates of appreciation for their services to the organization.  
Carroll Killingsworth, Happy; Clyde Strong, Frenship; W. L. Reed, Levelland; W. L. Nicklaus, Palo Duro, Amarillo; J. T. Clark, Hale Center; Raymond Cook, Friona; Lamont Veatch, Plainview; Bill Michael, Hereford; Tom Jinks, Muleshoe and Ross Larsen, Amarillo High.  
Others to be honored during the recognition ceremony include: Outstanding Service to Mr. Roy B. Davis, Plains Co-op Oil Mill; Mr. James D. Cram, Professor of Music, Wayland Baptist College, Plainview; Dr. L. Ann Buntin, Head of Home Economics Education, Texas Tech; and Mrs. Ima Dora Halle, Area I FHA Advisor, Plainview. Also to receive certificates of appreciation will be Nat Williams, Superintendent of Lubbock Schools; Mayor W. B. "Dub" Rogers, Lubbock; Mr. William H. Evans, Member of State Board of Education; and Mrs. Roy Dale McCallister, Roosevelt, Area President for the Young Homemakers of Texas.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

The textile products import situation, which has seen an increase of over 37 per cent in the past year up to the equivalent of over 1 million bales of cotton, is more and more drawing the concentrated fire of the American Textile Manufacturers Institute, raw cotton interests, Congressmen and Senators.

What all seek is (1) a five-year extension of the Long Term Arrangement for Cotton Textile Imports which expires September 30 of this year; (2) to get the LTA administered in such a way as to return textile imports to reasonable

levels, and (3) assurance that there will be no further tariff concessions to foreign countries in what is known as the Kennedy Round of tariff negotiations, now in progress.

No less than 31 U.S. Senators, led by John Pastore (D., R.I.) recently spoke in Washington urging a solution to "unfair" textile import competition. Representatives of the raw cotton industry have held a conference with top level State Department officials, including Under Secretary Nicholas Katzenbach.

ATMI is keeping members of Congress, the State Depart-

ment and others under a constant barrage of charts and graphs showing increases in imports of the various textile import forms, from yarn to finished products, and with figures on the deficit in U.S. textile trade, textile wages and textile price declines.

In the House, Congressman George Mahon has advised Plains Cotton Growers, Inc., he will be presenting a statement pointing up how unchecked textile imports could seriously hamper the current cotton program under the Agriculture Act of 1965.

He, along with other Congressmen, will call attention to the progress made in the cotton industry, including increased domestic consumption of raw cotton and 1966 exports projected at 5 million bales, up from 2.9 million in 1965.

This progress has given cotton producers hope of restoring at least a part of the almost 30 per cent cut in planted acreage suffered in 1965 and 1966.

But Mahon fears these hopes may never be realized if textile import policies encourage increases in foreign cotton production by giving unrestrained access to U.S. textile markets.

It is important to note, he says, that about three-fifths of the increase in textile imports came in the form of yarn. Yarn imports expanded in one year from 7 per cent to 21 per cent of the total. And the seven leading suppliers, accounting for 88 per cent of the total last year, are all cotton producing countries except Portugal, which has her own colonial supply.

## Services Held For Zelma Roming

Mrs. Zelma Roming, 75, died suddenly late Saturday at her home here after an apparent heart attack. She had lived here since moving from Eddy in 1962.

Services were at 2:30 p.m. Monday in the First Methodist Church here with the Rev. J. Frank Perry, pastor, officiating. Burial was in Bailey County Memorial Park under direction of Singleton Funeral Home.

Survivors include one son, Vernon, Muleshoe; one sister, Viola Teaff, Troy; six grandchildren and five great-grandchildren.

CLASSROOM—Mrs. Ed. Northcutt, teacher and bus driver for the Goodwill Center is shown here with a small portion of the 30 pupils now enrolled in pre-school training. "To see these children improve and learn many things is very rewarding," Mrs. Northcutt said.

U.S. cotton exports supplied these countries with less than 3 per cent of the cotton consumed over the last three years.

The seven countries are, in order of yarn and thread exports to the U.S., Mexico, Portugal, Brazil, Spain, Greece, Columbia and Israel. Total U.S. yarn and thread imports jumped from 51,500 cotton bale equivalents in 1965 to 213,000 bale equivalents in 1966.

Cotton cloth imports accounted for over a third of the increase from 1965 to 1966, going from 371,400 bales to 468,800 bales. Nine countries were responsible for most of these imports, and the U.S. supplied only about 13 per cent of their raw cotton requirements.

Donald Johnson, PCG Executive Vice President, says there are so many departments of Government and so many diverse interests involved it is difficult to make any sort of prediction as to the outcome of what is rapidly approaching uproar proportions over textile imports.

But he adds that "over a million bales of cotton are

involved, and the outcome will obviously have its effect on High Plains cotton producers as well as those from the rest of the belt."

Information coming in to Plains Cotton Growers, Inc., from seed breeders, ginners and the organization's field men now indicate that something like 500,000 acres -- about a third of total 1967 plantings on the Plains -- will be planted to varieties with the potential to produce one inch or longer staples.

Allowing for some of this cotton failing to reach its potential, this could still give the High Plains 25 per cent or more of its 1967 crop in the one inch and better category. This percentage figure, if reached, would almost double the 1966 figure, when only 13.3 per cent of the crop was in these medium lengths.

In calculating this total, PCG found that around 360,000 acres will go into the production of Paymaster 111, and that the remaining 140,000 will be split between Lockett 4789, Del Cerro and several strains of Acala.

"And we are told that this acreage will exhaust virtually all of the available supply of quality planting seed in these varieties," said Donald Johnson, Executive Vice President of PCG.

He continued by saying that because of this fact weather conditions around planting time this year may have an even greater effect on the staple lengths that will be produced. Initial plantings that may be lost to heavy rains, blowing sand, hail or seedling disease, even if the loss occurs early enough to allow replanting the longer staple cottons, will have to be planted to another variety.

For this reason Johnson hopes producers will use good seed treatment, timing and planting methods to save those first plantings wherever possible.

"If we can in one year double the amount of one inch and longer cotton that we produce on the Plains -- from about 170,000 bales to 340,000 -- it will take some of the pressure off our short staple markets and will be a big step toward changing our reputation for being an area which almost exclusively produces short staple cotton," Johnson said.

## L.S. Hall Rites Held Monday

L.S. Hall, 80, retired farmer and resident of Muleshoe since 1949, died late Saturday in West Plains Hospital here.

Services were at 4 p.m. Monday in Pentecostal Holiness Church at Friona with Sister Pearl Johnson officiating. Burial was in the Friona Cemetery under direction of Singleton Funeral Home of Muleshoe.

Survivors include his wife, Lottie; two sons, Murray, Dimmitt, and Jimmy, Houston; one daughter, Mrs. Opal Blaylock, Lubbock; one sister, Mrs. Lula Sanders, Mineola; four brothers, B.A., Friona, B. G., Muleshoe, Columbus, Gun Town, Miss., and Victor, Baldwin, Miss.; 11 grandchildren and four great-grandchildren.

## C-NOTERS TO BE SEEN

West Texas C-Noters, those solid Buff supporters that donate one hundred dollars or more to the football program each year, will be seen as well as heard from at Buff games this year. They will wear distinctive red blazers; their wives won't be outdoors either, they'll sport red scarfs bearing their names.

## Washington Report

From Congressman

BOB PRICE 18TH DISTRICT, TEXAS

1322 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. • 225-2704

Since my election I have received many letters in regard to postmaster and rural carrier appointments in the district. However, these appointments are made by the President with the advise and consent of the Senate. This is a holdover from days when all government jobs went to the friends of politicians.

On March 9 I introduced a bill to take these jobs out of politics. The legislation would provide that appointments to these positions be given to qualified career employees in the postal service.

A resolution approving additional United States food aid to India was debated in the House on March 9. During the discussion I pointed out that the American farmer should not be asked to subsidize this Nation's foreign policy, of using American food to aid and stabilize needy areas, unless he is getting a fair price for his products.

The actual purpose for considering the resolution was to take the blame from the President's shoulders for sending more grain abroad for which the American farmer received prices well below parity. Just last month the Department of Agriculture reported the market price for wheat was only 58 per cent of parity and for grain sorghum, 76 percent of parity.

While taking all these things into consideration I decided to vote for the resolution anyway. There are starving people in India who need this food. It is a market for the farmer's product and will keep our surpluses down. I will be doing everything possible in the future to see that American farmers receive a better price for their grain in transactions with India and other countries.

short period of time. It seems very stupid to me for our fighting men to be dying in the jungles of Viet Nam, thousands of miles away, while we continue to let this communist sore exist 90 miles from our shores.

On the subject of Viet Nam, I would like to quote from a letter one of my colleagues received from an American airman serving there. It expresses my feeling.

"We might make a few of our 'friends' mad when we sink a few of their ships in the Port of Haiphong or stop them from going in, but if we don't want to lose another 500 planes over North Viet Nam, we are going to have to say, 'OK, on these dates we are going to bomb Haiphong and Hanoi -- Civilians, sorry about that, but move out of the city.' We would then totally destroy their means of waging war at the minimum loss of life to all concerned."

A FRIENDLY PLACE TO MEET...

WESTERN DRUG

Once nematodes get at your cotton, yields go down and so do profits. But with FUMAZONE® 86 soil fumigant applied at only 1 to 2 gallons overall an acre, you can take care of root-knot, sting, meadow and other nematodes—those microscopic, worm-like soil pests that attack plant roots, suck away profits.

FUMAZONE 86 soil fumigant increases yields up to 1/2 bale an acre. Many High Plains farmers just like yourself tell us that's exactly what happened to their yields after their soils were treated with FUMAZONE 86. It can be applied right from the drum. No

mixing, no diluting, no nozzles clogged with foreign material. You can use the chisel method, the plowshare method or inject FUMAZONE 86 into your irrigation water. Could you ask for greater flexibility? Sure you could. So here it is. Apply FUMAZONE 86 before planting, at planting or after planting. It's the only type of soil fumigant that can be used on living plants. Ask your Dow farm chemicals supplier about it.

The Dow Chemical Company, Agricultural & Industrial Bioproducts Sales, Midland, Michigan 48640.

## Nematodes take their cut off the top.

(Unless you cut them off at the bottom.)

Alcohol Killed My Son

Wayne Legg was killed in this car. Two other boys were seriously hurt.

Must more sons die because of alcohol?

## Please Oppose the Saloon Bill (LIQUOR BY THE DRINK)

Alcohol killed my son. He was just 18, not old enough to buy beer or whiskey, but it was made available to him, and as a result, he is dead.

My son, Wayne Legg, was out with two other boys on the night of December 5, 1966. At about 10 o'clock that night the fog was so thick, I had to roll down the window of my car to see where I was going. On my way home, on that foggy night, little did I know that my only son was driving toward his death.

His senses dulled by beer and whiskey, he was driving too fast on Naaman School Road north of Garland. By the time he saw the curve it was too late.

"Wayne, watch out, you'll kill all of us," one of the boys shouted. The other two were thrown clear. Wayne was killed instantly, when the car hit a dirt embankment.

My son is dead. It's too late to help him now. But what about other boys and girls? We can do something for them. If they drink, their reflexes are slowed. They take chances that they wouldn't ordinarily take. They kill themselves, and sometimes innocent bystanders as well.

When alcohol is available to them the danger

increases. The more alcohol that is available to them, the more of them that are killed, hurt, or crippled for life. The number of deaths of these young people, like my son, increases and decreases with the availability of alcohol.

Regardless of whatever else may be said about it, this is true: If my son had not been drinking, he would not have been killed. If alcohol had not been made available to him, he would not have been killed.

The least we can do is NOT MAKE ALCOHOL MORE AVAILABLE.

Liquor interests and businesses that would stand to make a profit from legal sale of liquor by the drink, are trying to get a saloon bill passed in Texas.

Please, for the sake of our children, oppose the saloon bill. Write your State Representative and State Senator. Ask them to please, oppose the saloon bill.

Mrs. Inez Legg

WHAT WE CAN EXPECT IF THE SALOON BILL PASSES:

- 20% More Highway Deaths
- 24,433 More Crimes
- 157,000 More Alcoholics
- 8.4 Million Gallons of Liquor more than is sold in Texas each year.

WRITE YOUR LEGISLATORS TODAY: ASK THEM TO VOTE AGAINST THE SALOON BILL!

### Three Way

By Mrs. H. W. Garvin

Wayne Harris, son of Mr. and Mrs. Conrad Harris, spent the weekend visiting his parents. Wayne is in the Air Force and stationed at Abilene.

Mrs. Kenneth Fox and children are spending this week with the A. G. Fox family in McAdoo. E. T. Battiest underwent surgery in Green Memorial hospital in Muleshoe Monday and is doing very well.

Mr. and Mrs. T. G. Gaddy celebrated their 60th. wedding anniversary Friday in the home of their daughter and family the Cass Stegalls. They had a quiet dinner with their children. Mrs. Elmer attended the funeral of an aunt in Amherst Wednesday afternoon.

Mrs. Ira Temple of Paris, Texas is seriously ill. Mrs. Temple is the grandmother of Mrs. Frank Stegall. Mr. and Mrs. Frank Stegall are at her home in Paris.

Joe Wheeler from Paris visited with his parents this weekend the Johnnie Wheelers. Also visiting Saturday night in the Wheeler home was the Jimmy Wheeler family from Lovington, N. M. and George Wheeler and two boys from West Camp.

We wish to express our sympathy for Mr. and Mrs. Cecil Lendsey on the passing of Mr. Lendsey's mother, Mrs. Alice Mary Lindsey who was buried Saturday.

Mrs. W. N. Oxford from Martens, Calif. and Mrs. Bernice Littlefield from Lubbock spent Sunday with the Roy Oxforde. Mrs. Oxford will spend a few days with her son and wife.

Mrs. Roy Oxford suffered a severed artery in her hand Sunday while washing dishes.

Mrs. Paul Powell was host to a Mary Kay cosmetics party Tuesday. Mrs. Earl Bowers is the distributor for that line of cosmetics.

Mr. and Mrs. McNelly from Lubbock visited in the Rayford Masten home Friday night.

Mr. and Mrs. Paul Powell ate lunch Sunday in Morton then visited Mr. and Mrs. Norman at Whiteface Sunday afternoon.

Mrs. Minnie Dupler spent Sunday in the home of her son and family the Bill Duplers. Mr. and Mrs. George Tyson was dinner guests in the home of their son the Buck Tysons of Morton Sunday.

### BIBLE VERSE

"But Ye shall receive power, after that the Holy Ghost is come upon you."

1. Who spoke the above words?
2. To whom were they spoken?
3. What is the meaning of the word "power" as it appears in this verse?
4. Where may this verse be found?

### Answers To Bible Verse

1. Jesus.
2. To his disciples, just before his ascension.
3. The word power, in Greek, is "dunamis," from which we get our word "Dynamite."
4. Acts 1:8.

DOCTOR HAD BIG SHOT WHITE SULPHUR SPRINGS, W. Va. (AP) - It was a good day for doctors to be playing golf, especially Dr. G. L. Sullivan of Boston. He shot a hole-in-one on the 150-yard seventh hole at the Lakeside course here. A 7 iron shot got the ace. Witnesses were Dr. B. Leahley, Dr. W. McGuire and Dr. J. Wadsworth.

### 17. SEED AND FEED

FOR SALE: E. sed Sudan and Baled Cane, E. O. Baker - 272-4422 17-7t-tfc

Mr. and Mrs. Gib Dupler and family spent Sunday visiting in the home of her sister and family the Lether Edwards and family of Sundown.

Mr. and Mrs. Dutch Powell and girls visited Littlefield and Lubbock airports Sunday afternoon.

Mr. and Mrs. H. W. Garvin were in Clovis shopping Saturday afternoon.

WELCOMED—Two new members were welcomed into the Rotary Club during the noon meeting Tuesday. They are Ben Yeager, left, Troy Atkinson, center and Alex Williams, Rotarian.

**Highlights...**

Continued from Page 6

Continued from Page 6  
 ion by C. Dean Davis, general counsel for the Texas State Board of Pharmacy.

His comments concerning the killer of 16, in that murderous rampage last August 1, overshadowed hearings on bills to place LSD, amphetamines, barbiturates and a variety of hallucinogens on the dangerous drug list.

Bills went to sub-committee after lengthy hearings.

**SHORT SNORTS**

Senators sent the four-year-term constitutional amendment bill back to committee for re-consideration after it was approved 5-4.

Voting on the feed lot licensing and regulating bill has

been postponed in the House until March 21.

House passed a bill to authorize the Parks and Wildlife Commission to re-store and maintain historic forts, missions and other important sites.

House voted to substitute Memorial Day (May 30) for Columbus Day (October 12) as an official state holiday.

Hearings on the \$1.25 an hour minimum wage bill have been set for March 15-16 by Senate and House committees.

Application for a new state bank at Hurst, in Tarrant County, has been filed with the State Banking Department.

Legislature voted final authority for Bexar County commissioners to raise tax assessments to finance a teaching hospital for the new University of

Texas medical school at San Antonio.

Texas Board of Mental Health and Mental Retardation has announced the appointment of Dr. John Kinross-Wright as commissioner, succeeding Dr. Shervert Frazier who resigned to return to full-time academic work at Baylor University Medical School.

Atty. Gen. Crawford Martin says that intangible Texas property belonging to a non-resident citizen is subject to the inheritance tax, since a provision of the law which would exempt them is unconstitutional.

**TWO SENIORS**

NYU's 1966-67 basketball team will have only two seniors, Mal Graham, the team's leading scorer, and Bruce Kaplan.

Dan River carpets steal the show!

Even the most hard-to-convince carpet critics give rave reviews to these three newest additions to the Dan River gallery of fine carpets!

Linville, Magic Touch and Grove... masterfully portrayed in 100% Enka texturized continuous filament nylon.

Style, texture and color are skillfully blended in the boldly-defined patterns. The firm hand of the densely-tufted pile gives long-lasting durability and resiliency that lasts through years of wear.

The color range is an exciting fashion palette of harmonious hues.

And, of course, all three have all the quality features for which Dan River is noted plus a surprisingly low price tag! See Linville, Magic Touch and Grove.

You can't go wrong, no matter which you choose.

They're all by Dan River... the first name in fashion and the best buy in carpets!
